(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, par value \$.01 per share	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to the filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the

preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of June 30, 2012, the aggregate market value of the registrant's common stock held by non-affiliates of the registrant was \$2,784,477,789, based on the closing sale price as reported on the New York Stock Exchange. Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date:

Class	Outstanding at February 4, 2013
Common Stock, \$.01 par value per share	42,351,885 shares

DOCUMENTS INCORPORATED BY REFERENCE

Document	Parts Into Which Incorporated
Certain portions of the Proxy Statement for the Annual Meeting of Shareholders to be held May 21, 2013 to be filed with the Securities and Exchange Commission pursuant to Regulation 14A, not later than 120 days after the end of the fiscal year covered by this Annual Report on Form 10-K.	Part III

RISKS ASSOCIATED WITH FORWARD-LOOKING STATEMENTS

Mid-America Apartment Communities, Inc. considers this and other sections of this Annual Report on Form 10-K to contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, with respect to our expectations for future periods. Forward-looking statements do not discuss historical fact, but instead include statements related to expectations, projections, intentions or other items related to the future. Such forward-looking statements include, without limitation, statements concerning property acquisitions and dispositions, joint venture activity, development and renovation activity as well as other capital expenditures, capital raising activities, rent and expense growth, occupancy, financing activities and interest rate and other economic expectations. Words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates,” and variations of such words and similar expressions are intended to identify such forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from the results of operations, financial conditions or plans expressed or implied by such forward-looking statements. Such factors include, among other things, unanticipated adverse business developments affecting us, or our properties, adverse changes in the real estate markets and general and local economies and business conditions. Although we believe that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and therefore such forward-looking statements included in this report may not prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the results or conditions described in such statements or our objectives and plans will be achieved.

The following factors, among others, could cause our future results to differ materially from those expressed in the forward-looking statements:

- inability to generate sufficient cash flows due to market conditions, changes in supply and/or demand, competition, uninsured losses, changes in tax and housing laws, or other factors;
- failure of new acquisitions to achieve anticipated results or be efficiently integrated;
- failure of development communities to be completed, if at all, on a timely basis or to lease-up as anticipated;
- inability of a joint venture to perform as expected;
- inability to acquire additional or dispose of existing apartment units on favorable economic terms;
- unexpected capital needs;
- increasing real estate taxes and insurance costs;
- losses from catastrophes in excess of our insurance coverage;
- inability to acquire funding through the capital markets;
- the availability of credit, including mortgage financing, and the liquidity of the debt markets, including a material deterioration of the financial condition of the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation;
- inability to replace financing with the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation should their investment in the multifamily industry decrease or cease to exist;
- changes in interest rate levels, including that of variable rate debt, which are extensively used by us;
- loss of hedge accounting treatment for interest rate swaps or interest rate caps;
- the continuation of the good credit of our interest rate swap and cap providers;
- inability to meet loan covenants;
- significant decline in market value of real estate serving as collateral for mortgage obligations;
- inability to pay required distributions to maintain REIT status due to required debt payments;
-

significant change in the mortgage financing market that would cause single-family housing, either as an owned or rental product, to become a more significant competitive product;

- imposition of federal taxes if we fail to qualify as a REIT under the Internal Revenue Code in any taxable year or foregone opportunities to ensure REIT status;
- inability to attract and retain qualified personnel;
- potential liability for environmental contamination;
- adverse legislative or regulatory tax changes;
- and

litigation and compliance costs associated with laws requiring access for disabled persons.

ITEM 1. BUSINESS

OVERVIEW

Founded in 1994, Mid-America Apartment Communities, Inc. is a Memphis, Tennessee-based self-administered and self-managed real estate investment trust, or REIT, that focuses on acquiring, owning and operating apartment communities in the Sunbelt region of the United States. As of December 31, 2012, we owned 100% of 160 properties representing 47,809 apartment units. Four properties include retail components with approximately 108,000 square feet of gross leasable area. As of December 31, 2012, we also had 33.33% ownership interests in Mid-America Multifamily Fund I, LLC, or Fund I, and Mid-America Multifamily Fund II, LLC, or Fund II, which owned two properties containing 626 apartment units and four properties containing 1,156 apartment units, respectively. These apartment communities were located across 13 states.

Our business is conducted principally through Mid-America Apartments, L.P., which we refer to as our Operating Partnership. We are the sole general partner of the Operating Partnership, holding 39,721,461 common units of partnership interest, or common units, comprising a 95.8% general partnership interest in the operating partnership as of December 31, 2012. Unless the context otherwise requires, all references in this Annual Report on Form 10-K to “we,” “us,” “our,” “the company,” or “MAA” refer collectively to Mid-America Apartment Communities, Inc. and its subsidiaries.

Our corporate offices are located at 6584 Poplar Avenue, Memphis, Tennessee 38138 and our telephone number is (901) 682-6600. As of December 31, 2012, we had 1,384 full-time employees and 62 part-time employees.

FINANCIAL INFORMATION ABOUT SEGMENTS

As of December 31, 2012, we owned or had an ownership interest in 166 multifamily apartment communities in 13 different states from which we derived all significant sources of earnings and operating cash flows. Senior management evaluates performance and determines resource allocations by reviewing apartment communities individually and in the following reportable operating segments:

Large market same store communities are generally communities in markets with a population of at least 1 million and at least 1% of the total public multifamily REIT units that we have owned and that have been stabilized for at least a full 12 months and have not been classified as held for sale. Communities are considered stabilized after achieving and maintaining at least 90% occupancy for 90 days.

Secondary market same store communities are generally communities in markets with populations of more than 1 million but less than 1% of the total public multifamily REIT units or markets with populations of less than 1 million that we have owned and that have been stabilized for at least a full 12 months and have not been classified as held for sale. Communities are considered stabilized after achieving and maintaining at least 90% occupancy for 90 days.

Non same store communities and other includes recent acquisitions, communities in development or lease-up and communities that have been classified as held for sale. Also included in non same store communities are non multifamily activities which represent less than 1% of our portfolio.

On the first day of each calendar year, we determine the composition of our same store operating segments for that year, which allows us to evaluate full period-over-period operating comparisons. We utilize net operating income, or NOI, in evaluating the performance. Total NOI represents total property revenues less total property operating expenses, excluding depreciation and amortization, for all properties held during the period regardless of their status as held for sale. We believe NOI is a helpful tool in evaluating the operating performance of our segments because it measures the core operations of property performance by excluding corporate level expenses and other items not related to property operating performance.

A summary of segment operating results for 2012, 2011 and 2010 is included in Item 8. Financial Statements and Supplementary Data – Notes to Consolidated Financial Statements, Note 13. Additionally, segment operating performance for such years is discussed in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, in this Annual Report on Form 10-K.

BUSINESS OBJECTIVES

Our primary business objectives are to protect and grow existing property values, to maintain a stable and increasing cash flow that will fund our dividend through all parts of the real estate investment cycle, and to create new shareholder value

by growing in a disciplined manner. To achieve these objectives, we intend to continue to pursue the following goals and strategies:

- effectively and efficiently operate our existing properties with an intense property and asset management focus and a decentralized structure;
- when accretive to long-term shareholder value, acquire or develop additional high-quality properties throughout the Sunbelt region of the United States;
- selectively dispose of properties that no longer meet our ownership guidelines;
- develop, renovate and reposition existing properties;
- diversify investment capital across both large and secondary markets to achieve a growing and less volatile operating performance profile to better support dividend funding across the full real estate and economic market cycle;
- enter into joint ventures to acquire and reposition properties; and
- actively manage our capital structure.

OPERATION STRATEGY

Our goal is to generate our return on investment collectively and in each apartment community by increasing revenues, controlling operating expenses, maintaining high occupancy levels and reinvesting as appropriate. The steps taken to meet these objectives include:

- diversifying portfolio investments across both large and secondary markets;
- providing management information and improved customer services through technology innovations;
- utilizing systems to enhance property managers' ability to optimize revenue by adjusting rents in response to local market conditions and individual unit amenities;
- developing new ancillary income programs aimed at offering new services to residents, including cable, on which we generate revenue;
- implementing programs to control expenses through investment in cost-saving initiatives, including measuring and passing on to residents the cost of various expenses, including water and other utility costs;
- analyzing individual asset productivity performances to identify best practices and improvement areas;
- proactively maintaining the physical condition of each property through ongoing capital investments;
- improving the "curb appeal" of the apartment communities through extensive landscaping and exterior improvements, and repositioning apartment communities from time-to-time to enhance or maintain market positions;
- aggressively managing lease expirations to align with peak leasing traffic patterns and to maximize productivity of property staffing;
- allocating additional capital, including capital for selective interior and exterior improvements;
- compensating employees through performance-based compensation and stock ownership programs;
- maintaining a hands-on management style and "flat" organizational structure that emphasizes senior management's continued close contact with the market and employees;
- selling or exchanging underperforming assets;
- issuing or repurchasing shares of common or preferred stock when cost of capital and asset values permit;
- acquiring and selectively developing properties; and
- maintaining disciplined investment and capital allocation practices.

Decentralized Operational Structure

We operate in a decentralized manner. We believe that our decentralized operating structure capitalizes on specific market knowledge, provides greater personal accountability than a centralized structure and is beneficial in the acquisition and redevelopment processes. To support this decentralized operational structure, senior and executive management, along with various asset management functions, are proactively involved in supporting and reviewing

property management through extensive reporting processes and frequent on-site visitations. To maximize the amount of information shared between senior and executive management and the properties on a real time basis, we utilize a web-based property management system. The system contains property and accounting modules that allow for operating efficiencies, continued expense control, provide for various expanded revenue management practices, and improve the support provided to on-site property operations. We use a “yield management” pricing program that helps our property managers optimize rental revenues, and we also utilize purchase order and accounts payable software to provide improved controls and management information. We have also implemented revised utility billing processes, rolled out new web-sites, including a new resident portal facilitating communication with residents and enabling on-line payments of rents and fees, on-line lease applications and improved web-based marketing programs.

Property and Asset Management Focus

We have traditionally emphasized property management, and over the past several years, we have deepened our asset management functions to provide additional support in marketing, training, ancillary income and revenue management. A majority of our property managers are Certified Apartment Managers, a designation established by the National Apartment Association, which provides training for on-site manager professionals. We also provide our own in-house leadership development program consisting of a three-module program followed by two comprehensive case studies, which was developed with the assistance of U.S. Learning, Inc.

ACQUISITION AND JOINT VENTURE STRATEGY

One of our growth strategies is to acquire and redevelop apartment communities for our wholly-owned portfolio that are diversified over both large and secondary markets throughout the Sunbelt region of the United States and that meet our investment criteria. We have extensive experience and research-based skills in the acquisition and repositioning of multifamily communities. In addition, we will acquire newly built and developed communities that can be purchased on a favorable pricing basis. We will continue to evaluate opportunities that arise, and will utilize this strategy to increase the number of apartment communities in strong and growing markets.

Another of our growth strategies is to co-invest with partners in joint venture opportunities to the extent we believe that a joint venture will enable us to obtain a higher return on our investment through management and other fees, which leverage our skills in acquiring, repositioning, redeveloping and managing multifamily investments. In addition, the joint venture investment strategy can provide a platform for creating more capital diversification and lower investment risk for us. At present, we have focused our joint venture investment strategy on properties seven years old or older, with younger acquisitions becoming part of the wholly-owned portfolio.

As of December 31, 2012, for this strategy we were partners in three joint ventures: Mid-America Multifamily Fund I, LLC, or Fund I; Mid-America Multifamily Fund II, LLC, or Fund II; and Mid-America Multifamily Fund III, LLC, or Fund III. These joint ventures did not acquire any properties during 2012.

The following apartment communities were acquired for our wholly-owned portfolio during the year ended December 31, 2012:

Property	Location	Number of Units	Date Purchased
100% Owned Properties:			
Adalay Bay	Chesapeake, VA	240	April 2, 2012
Legacy at Western Oaks	Austin, TX	479	April 5, 2012
Allure in Buckhead Village	Atlanta, GA	230	May 10, 2012
Allure at Brookwood	Atlanta, GA	349	July 23, 2012
Retreat at Lake Nona	Orlando, FL	394	August 20, 2012
The Haven at Blanco	San Antonio, TX	436	August 30, 2012
Market Station	Kansas City, MO	323	September 20, 2012
Village Oaks ⁽¹⁾	Temple Terrace (Tampa), FL	1	December 21, 2012
		2,452	

⁽¹⁾ On August 27, 2008, we purchased 215 units of the 234-unit Village Oaks apartments located in Temple Terrace, Florida, a suburb of Tampa. The remaining 19 units had previously been sold as condominiums, and it is our intent to acquire these units if and when they become available and operate them as apartment rentals with the rest of the community. During the remainder of 2008, we acquired four of the remaining 19 units. We acquired an additional

seven units in 2009, three units in 2010, and two units in 2011.

7

DISPOSITION STRATEGY

At 15 years weighted average age (based on gross asset values), we believe that we have one of the younger portfolios in the multifamily REIT sector and strive to maintain a well-conditioned portfolio of young assets, believing that continuous capital replacement and maintenance will lead to higher long-run returns on investment. From time-to-time, we dispose of mature assets, defined as those apartment communities that no longer meet our investment criteria and long-term strategic objectives, to ensure that our portfolio consists primarily of high quality, well-located properties within our market area. Typically, we select assets for disposition that do not meet our present investment criteria, including estimated future return on investment, location, market, potential for growth and capital needs. From time-to-time we also may dispose of assets for which we receive an offer meeting or exceeding our return on investment criteria even though those assets may not meet the disposition criteria disclosed above. During 2012, we disposed of nine properties totaling 2,254 units.

DEVELOPMENT AND REDEVELOPMENT STRATEGY

Periodically, we invest in limited expansion development projects through fee-based development agreements using fixed price or cost controlled construction contracts. These contracts can have variability to cover any project cost overruns that may occur. Some development agreements require that cost overruns are contractually shared with the developer up to a specified level, while other development agreements stipulate that cost overruns are the responsibility of the developer. In October 2010, we purchased land in Franklin (Nashville), Tennessee and entered into an agreement to develop a 428-unit apartment community on the site. Construction began in late 2010. As of December 31, 2012, all 428 units have been completed and were 77% leased up. During 2011, we also began developing a 210-unit phase II to the 1225 South Church apartments in Charlotte, North Carolina that were purchased in December 2010. As of December 31, 2012, no units have been delivered for 1225 South Church. We purchased land in Little Rock, Arkansas during 2011 and entered into a development agreement to develop a 312-unit apartment community on the site. All 312 units for the Little Rock development have been completed and delivered and were 77% leased up as of December 31, 2012. During 2012, we purchased 10.6 acres of land and began construction on a new 270-unit community located in the Charleston, South Carolina metropolitan area. As of December 31, 2012, no units have been delivered for the land in Charleston, South Carolina. During 2012, we also purchased 2.0 acres of land and began construction on a new 294-unit community located in Jacksonville, Florida. As of December 31, 2012, no units have been delivered. While we seek opportunistic new development investments offering attractive long-term investment returns, we do not currently intend to maintain a dedicated development staff or to expand into development in a significant way. We expect our investment in new development will remain a smaller component of overall growth as compared to growth through acquiring existing properties.

Beginning in 2005, we began an initiative of upgrading a significant number of our existing apartment communities in key markets across our portfolio. We focus on both interior unit upgrades and shared exterior amenities above and beyond routine capital upkeep in markets that we believe continue to have growth potential and can support the increased rent. During the year ended December 31, 2012, we renovated 3,236 units at an average rental rate that we believe was approximately 10% above the normal market rate increase.

CAPITAL STRUCTURE STRATEGY

We use a combination of debt and equity sources to fund our portfolio of assets, focused on producing low costs combined with a flexible capital structure. We focus on improving the net present value of our assets by generating cash flows from our portfolio of investments above the estimated total cost of debt and equity capital. We routinely make new investments when we believe it will be accretive to shareholder value. In the past, we have sold assets to fund share repurchases when, in management's view, shareholder value would be enhanced.

At December 31, 2012, 37% of our total capitalization consisted of borrowings, including 26% under our secured borrowings and 11% under our unsecured credit facilities or unsecured senior notes. We currently intend to target our total debt to a range of approximately 43% to 48% of the undepreciated book value of our assets. Our charter and bylaws do not limit our debt levels and our Board of Directors can modify this policy at any time, which could allow us to become more highly leveraged. We may also issue new equity to maintain our debt within the target range. Covenants in our credit facilities limit our net-debt (total debt less cash on hand) to undepreciated book value to 60%. As of December 31, 2012, our ratio of net-debt to undepreciated book value was approximately 44%.

We continuously review opportunities for lowering our cost of capital and increasing net present value per share. We have received an investment grade rating from all three major rating agencies. These ratings support our plan to broaden our capital sources to include additional unsecured debt in order to take advantage of lower cost of capital in the public bond market. We evaluate opportunities to repurchase shares when we believe that our share price is below our net present value. We

also look for opportunities where we can acquire or develop apartment communities, selectively funded or partially funded by sales of equity securities, when appropriate opportunities arise. We will also opportunistically seek to lower our cost of capital through issuing, refinancing or redeeming preferred stock.

We have entered into sales agreements to sell shares of our common stock, from time-to-time in at-the-market offerings or negotiated transactions through controlled equity offering programs, or ATMs, most recently with Cantor Fitzgerald & Co., Raymond James & Associates, Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated. As of December 31, 2012, there were 578,015 shares remaining under the ATM program. At December 31, 2012, we were nearing the end of these agreements so on February 7, 2013 we terminated these programs. We anticipate entering into similar agreements in the near future.

The following are the issuances of common stock which have been made through these agreements through December 31, 2012:

	Number of Shares Sold	Net Proceeds	Net Average Sales Price	Gross Proceeds	Gross Average Sales Price
2006	194,000	\$11,481,292	\$59.18	\$11,705,010	\$60.34
2007	323,700	\$18,773,485	\$58.00	\$19,203,481	\$59.32
2008	1,955,300	\$103,588,759	\$52.98	\$105,554,860	\$53.98
2009	763,000	\$32,774,757	\$42.96	\$33,283,213	\$43.62
2010	5,077,201	\$274,576,677	\$54.08	\$278,468,323	\$54.85
2011	3,303,273	\$204,534,677	\$61.92	\$207,650,656	\$62.86
2012	1,155,511	\$75,863,040	\$65.65	\$77,019,121	\$66.65
Total	12,771,985	\$721,592,687	\$56.50	\$732,884,664	\$57.38

We also have a direct stock purchase plan, which allows for the optional cash purchase of common stock of at least \$250, but not more than \$5,000 in any given month, free of brokerage commissions and charges. We, in our absolute discretion, may grant waivers to allow for optional cash payments in excess of \$5,000. During the year ended December 31, 2012, we issued a total of 729 shares through the optional cash purchase feature of our direct stock purchase plan, resulting in net proceeds of \$48,000. On March 2, 2012, we closed on an underwritten public offering of 1,955,000 shares of common stock. UBS Investment Bank and Jeffries & Company, Inc. acted as joint bookrunning managers. This transaction resulted in net proceeds of \$120.1 million. No such issuances occurred during 2011 or 2010.

SHARE REPURCHASE PROGRAM

In 1999, our Board of Directors approved an increase in the number of shares of our common stock authorized to be repurchased to 4 million shares. As of December 31, 2012, we had repurchased a total of approximately 1.9 million shares (8% of the shares of common stock and common units outstanding as of the beginning of the repurchase program). From time-to-time, we intend to repurchase shares when we believe that shareholder value is enhanced. Factors affecting this determination include, among others, the share price, financing agreements and rates of return. No shares were repurchased from 2002 through 2012 under this plan.

COMPETITION

All of our apartment communities are located in areas that include other apartment communities. Occupancy and rental rates are affected by the number of competitive apartment communities in a particular area. The owners of

competing apartment communities may have greater resources than us, and the managers of these apartment communities may have more experience than our management. Moreover, single-family rental housing, manufactured housing, condominiums and the new and existing home markets provide housing alternatives to potential residents of apartment communities.

Apartment communities compete on the basis of monthly rent, discounts and facilities offered, such as apartment size and amenities, and apartment community amenities, including recreational facilities, resident services and physical property condition. We make capital improvements to both our apartment communities and individual apartments on a regular basis in order to maintain a competitive position in each individual market.

ENVIRONMENTAL MATTERS

As part of the acquisition process, we obtain environmental studies on our apartment communities from various outside environmental engineering firms. The purpose of these studies is to identify potential sources of contamination at the apartment communities and to assess the status of environmental regulatory compliance. These studies generally include historical reviews of the apartment communities, reviews of certain public records, preliminary investigations of the sites and surrounding properties, inspection for the presence of asbestos, poly-chlorinated biphenyls, or PCBs, and underground storage tanks and the preparation and issuance of written reports. Depending on the results of these studies, more invasive procedures, such as soil sampling or ground water analysis, will be performed to investigate potential sources of contamination. These studies must be satisfactorily completed before we take ownership of an acquisition community; however, no assurance can be given that the studies identify all significant environmental problems.

Under various federal, state and local laws and regulations, an owner or operator of real estate may be liable for the costs of removal or remediation of certain hazardous or toxic substances on properties. Such laws often impose such liability without regard to whether the owner caused or knew of the presence of hazardous or toxic substances and whether the storage of such substances was in violation of a resident's lease. Furthermore, the cost of remediation and removal of such substances may be substantial, and the presence of such substances, or the failure to promptly remediate such substances, may adversely affect the owner's ability to sell such real estate or to borrow using such real estate as collateral.

We are aware of environmental concerns specifically relating to potential issues resulting from mold in residential properties and have in place an active management and preventive maintenance program that includes procedures specifically related to mold. We have established a policy requiring residents to sign a mold addendum to lease. We also have a \$5 million insurance policy that covers remediation and exposure to mold. Therefore, we believe that our exposure to this issue is mitigated appropriately.

The environmental studies we received have not revealed any material environmental liabilities. We are not aware of any existing conditions that would currently be considered a material environmental liability. Nevertheless, it is possible that the studies do not reveal all environmental liabilities or that there are material environmental liabilities of which we are not aware. Moreover, no assurance can be given concerning future laws, ordinances or regulations, or the potential introduction of hazardous or toxic substances by neighboring properties or residents.

We believe that our apartment communities are in compliance in all material respects with all applicable federal, state and local ordinances and regulations regarding hazardous or toxic substances and other environmental matters.

WEBSITE ACCESS TO REGISTRANT'S REPORTS

We file annual and periodic reports with the Securities and Exchange Commission. All filings made by us with the SEC may be copied or read at the SEC's Public Reference Room at 100 F Street NE, Washington, DC 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC as we do. The website is <http://www.sec.gov>.

Additionally, a copy of this Annual Report on Form 10-K, along with our Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and any amendments to the aforementioned filings, are available on our website free of charge. The filings can be found on the "For Investors" page under "SEC Filings and Reports". Our website also contains our Corporate Governance Guidelines, Code of Business Conduct and Ethics and the charters of the committees of the Board of Directors. These items can be found on the "For Investors" page under "Corporate Overview and

Governance Documents". Our website address is <http://www.maac.com>. Reference to our website does not constitute incorporation by reference of the information contained on the site and should not be considered part of this document. All of the aforementioned materials may also be obtained free of charge by contacting our Investor Relations Department, 6584 Poplar Avenue, Memphis, TN 38138.

QUALIFICATION AS A REAL ESTATE INVESTMENT TRUST (REIT)

We have elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended, or the Code. To continue to qualify as a REIT, we must continue to meet certain tests which, among other things, generally require that our assets consist primarily of real estate assets, our income be derived primarily from real estate assets, and that we distribute at least 90% of our REIT taxable income (other than our net capital gain) to our shareholders annually. As a qualified REIT, we generally will not be subject to U.S. federal income taxes at the corporate level on our net income to the extent we distribute such net income to our shareholders annually. Even if we continue to qualify as a REIT, we will continue to be subject to

certain federal, state and local taxes on our income and our property. In 2012, we paid total distributions of \$2.64 per common share to our shareholders, which was above the 90% REIT distribution requirement.

RECENT DEVELOPMENTS

Acquisitions

On February 1, 2013, we closed on the purchase of the 310-unit Milstead Village apartment community located in Kennesaw (Atlanta), Georgia. This property was previously a part of our Fund I Joint Venture.

ITEM 1A. RISK FACTORS

In addition to the other information contained in this Annual Report on Form 10-K, we have identified the following additional risks and uncertainties that may have a material adverse effect on our business prospects, financial condition or results of operations. Investors should carefully consider the risks described below before making an investment decision. Our business faces significant risks and the risks described below may not be the only risks we face. Additional risks not presently known to us or that we currently believe are immaterial may also significantly impair our business operations. If any of these risks occur, our business prospects, results of operations or financial condition could suffer, the market price of our common stock and the trading price of our debt securities could decline and you could lose all or part of your investment in our common stock or debt securities.

RISKS RELATED TO OUR REAL ESTATE INVESTMENTS AND OUR OPERATIONS

Economic slowdown in the United States and downturns in the housing and real estate markets may adversely affect our financial condition and results of operations

There have been significant declines in economic growth, both in the United States and globally. Both the real estate industry and the broader United States economy have experienced unfavorable conditions, which adversely affected our revenues. Although our industry and the United States economy showed signs of improvement in 2012, we cannot accurately predict that market conditions will continue to improve in the near future or that our financial condition and results of operations will not continue to be adversely effected. Factors such as weakened economies and related reduction in spending, falling home prices and job losses, price volatility, and/or dislocations and liquidity disruptions in the financial and credit markets could, among other things, impede the ability of our tenants and other parties with which we conduct business to perform their contractual obligations, which could lead to an increase in defaults by our tenants and other contracting parties, which could adversely affect our revenues. Furthermore, our ability to lease our properties at favorable rates, or at all, could be adversely affected by increases in supply and deterioration in multifamily markets and is partially dependent upon the overall level of spending in the economy, which is adversely affected by, among other things, job losses and unemployment levels, recession, personal debt levels, downturns in the housing market, stock market volatility and uncertainty about the future. With regard to our ability to lease our multifamily properties, the increasing rental of excess for-sale condominiums and single family homes, which increases the supply of multifamily units and housing alternatives, may reduce our ability to lease our multifamily units and depress rental rates in certain markets. When we experience a downturn, we cannot predict how long demand and other factors in the real estate market will remain unfavorable, but if the markets remain weak over extended periods of time or deteriorate significantly, our ability to lease our properties or our ability to increase or maintain rental rates in certain markets may weaken, which would adversely effect our revenues.

Failure to generate sufficient cash flows could limit our ability to make payments on our debt and to pay distributions to shareholders

Our ability to generate sufficient cash flow to make payments on our debt and to pay distributions to our shareholders depends on our ability to generate funds from operations in excess of capital expenditure requirements and/or to have access to the markets for debt and equity financing. Funds from operations and the value of our apartment communities may be insufficient because of factors that are beyond our control. Such events or conditions could include:

- competition from other apartment communities;
- overbuilding of new apartment units or oversupply of available apartment units in our markets, which might adversely affect apartment occupancy or rental rates and/or require rent concessions in order to lease apartment units;
- conversion of condominiums and single family houses to rental use;
- weakness in the overall economy which lowers job growth and the associated demand for apartment housing;

- increases in operating costs (including real estate taxes and insurance premiums) due to inflation and other factors, which may not be offset by increased rents;
- inability to initially, or subsequently after lease terminations, rent apartments on favorable economic terms;
- inability to complete or lease-up development communities on a timely basis, if at all;
 - changes in governmental regulations and the related costs of compliance;
- changes in laws including, but not limited to, tax laws and housing laws including the enactment of rent control laws or other laws regulating multifamily housing;
- withdrawal of government support of apartment financing through its financial backing of the Federal National Mortgage Association, or FNMA, or the Federal Home Loan Mortgage Corporation, or Freddie Mac;
- an uninsured loss, including those resulting from a catastrophic storm, earthquake, or act of terrorism;
- changes in interest rate levels and the availability of financing, borrower credit standards, and down-payment requirements which could lead renters to purchase homes (if interest rates decrease and home loans are more readily available) or increase our acquisition and operating costs (if interest rates increase and financing is less readily available); and
- the relative illiquidity of real estate investments.

At times, we rely on external funding sources to fully fund the payment of distributions to shareholders and our capital investment program, including our existing property expansion developments. While we have sufficient liquidity to permit distributions at current rates through additional borrowings, if necessary, any significant and sustained deterioration in operations could result in our financial resources being insufficient to make payments on our debt and to pay distributions to shareholders at the current rate, in which event we would be required to reduce the distribution rate. Any decline in our funds from operations could adversely affect our ability to make distributions to our shareholders or to meet our loan covenants and could have a material adverse effect on our stock price or the trading price of our debt securities.

We may be adversely affected by new laws and regulations

The current United States administration and Congress have enacted, or called for consideration of, proposals relating to a variety of issues, including with respect to health care, financial regulation reform, climate control, executive compensation and others. We believe that these and other potential proposals could have varying degrees of impact on us ranging from minimal to material. At this time, we are unable to predict with certainty what level of impact specific proposals could have on us.

Certain rulemaking and administrative efforts that may have an impact on us focus principally on the areas perceived as contributing to the global financial crisis and the continuing economic downturn. These initiatives have created a degree of uncertainty regarding the basic rules governing the real estate industry and many other businesses. The federal legislative response in this area culminated in the enactment on July 21, 2010 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Dodd-Frank Act. Many of the provisions of the Dodd-Frank Act have extended implementation periods and delayed effective dates and will require extensive rulemaking by regulatory authorities; thus, the impact on us may not be known for an extended period of time. The Dodd-Frank Act, including future rules implementing its provisions and the interpretation of those rules, along with other legislative and regulatory proposals that are proposed or pending in the United States Congress, may limit our revenues, impose fees, taxes, or other costs on us, and/or intensify the regulatory framework in which we operate in ways that are not currently identifiable.

Changing laws, regulations and standards relating to corporate governance and public disclosure in particular, including certain provisions of the Dodd-Frank Act and the rules and regulations promulgated thereunder, have created uncertainty for public companies like ours and could significantly increase the costs and risks associated with accessing the United States public markets. Because we are committed to maintaining high standards of internal

control over financial reporting, corporate governance and public disclosure, our management team will need to devote significant time and financial resources to comply with these evolving standards for public companies. We intend to continue to invest appropriate resources to comply with both existing and evolving standards, and this investment has resulted and will likely continue to result in increased general and administrative expenses and a diversion of management time and attention from revenue generating activities to compliance activities.

We are dependent on key personnel

Our success depends in part on our ability to attract and retain the services of executive officers and other personnel. There is substantial competition for qualified personnel in the real estate industry, and the loss of one or several of our key personnel could have an adverse effect on us.

New acquisitions may fail to perform as expected, and failure to integrate acquired communities and new personnel could create inefficiencies

We intend to actively acquire and improve multifamily communities for rental operations. We may underestimate the costs necessary to bring an acquired community up to standards established for our intended market position. Additionally, to grow successfully, we must be able to apply our experience in managing our existing portfolio of apartment communities to a larger number of properties. We must also be able to integrate new management and operations personnel as our organization grows in size and complexity. Failures in either area will result in inefficiencies that could adversely affect our overall results of operations.

We may not be able to sell communities when appropriate

Real estate investments are relatively illiquid and generally cannot be sold quickly. We may not be able to change our portfolio promptly in response to economic or other conditions. Further, we own seven communities, which are subject to restrictions on sale and are required to be exchanged through a 1031(b) tax-free exchange, unless we pay the tax liability of the contributing partners. This inability to respond promptly to changes in the performance of our investments could adversely affect our financial condition and ability to service our debt and to make distributions to our shareholders.

Environmental problems are possible and can be costly

Federal, state and local laws and regulations relating to the protection of the environment may require a current or previous owner or operator of real estate to investigate and clean up hazardous or toxic substances or petroleum product releases at such community. The owner or operator may have to pay a governmental entity or third parties for property damage and for investigation and clean-up costs incurred by such parties in connection with the contamination. These laws typically impose clean-up responsibility and liability without regard to whether the owner or operator knew of or caused the presence of the contaminants. Even if more than one person may have been responsible for the contamination, each person covered by the environmental laws may be held responsible for all of the clean-up costs incurred. In addition, third parties may sue the owner or operator of a site for damages and costs resulting from environmental contamination emanating from that site.

Over the past several years, there have been an increasing number of lawsuits against owners and managers of multifamily properties alleging personal injury and property damage caused by the presence of mold in residential real estate. Some of these lawsuits have resulted in substantial monetary judgments or settlements. We cannot be assured that existing environmental assessments of our communities reveal all environmental liabilities, that any prior owner of any of our properties did not create a material environmental condition not known to us, or that a material environmental condition does not otherwise exist.

Changes in the system for establishing United States accounting standards may materially and adversely affect our reported results of operations

Accounting for public companies in the United States has historically been conducted in accordance with generally accepted accounting principles as in effect in the United States, or GAAP. GAAP is established by the Financial Accounting Standards Board, or FASB, an independent body whose standards are recognized by the SEC as authoritative for publicly held companies. The International Accounting Standards Board, or IASB, is a London-based independent board established in 2001 and charged with the development of International Financial Reporting Standards, or IFRS. IFRS generally reflects accounting practices that prevail in Europe and in developed nations around the world.

IFRS differs in material respects from GAAP. Among other things, IFRS has historically relied more on “fair value” models of accounting for assets and liabilities than GAAP. “Fair value” models are based on periodic revaluation of assets and liabilities, often resulting in fluctuations in such values as compared to GAAP, which relies more frequently on historical cost as the basis for asset and liability valuation.

It is unclear at this time if or how the SEC will transition from GAAP to IFRS. Switching to a new method of accounting and adopting IFRS will be a complex undertaking. We may need to develop new systems and controls based on the principles of IFRS. Since these are new endeavors, and the precise requirements of the pronouncements ultimately adopted are not now known, the magnitude of costs associated with this conversion are uncertain.

We are currently evaluating the impact of the adoption of IFRS on our financial position and results of operations. Such evaluation cannot be completed, however, without more clarity regarding the specific IFRS standards that will be

adopted. Until there is more certainty with respect to the IFRS standards to be adopted, prospective investors should consider that our conversion to IFRS could have a material adverse effect on our reported results of operations.

Losses from catastrophes may exceed our insurance coverage

We carry comprehensive liability and property insurance on our communities and intend to obtain similar coverage for communities we acquire in the future. Some losses, generally of a catastrophic nature, such as losses from floods, hurricanes or earthquakes, are subject to limitations, and thus may be uninsured. We exercise our discretion in determining amounts, coverage limits and deductibility provisions of insurance, with a view to maintaining appropriate insurance on our investments at a reasonable cost and on suitable terms. If we suffer a substantial loss, our insurance coverage may not be sufficient to pay the full current market value or current replacement value of our lost investment. Inflation, changes in building codes and ordinances, environmental considerations and other factors also might make it infeasible to use insurance proceeds to replace or rebuild a property after it has been damaged or destroyed.

Increasing real estate taxes and insurance costs may negatively impact operating results

As a result of our substantial real estate holdings, the cost of real estate taxes and insuring our apartment communities is a significant component of expense. Real estate taxes and insurance premiums are subject to significant increases and fluctuations, which are, in large part, outside of our control. If the costs associated with real estate taxes and insurance should significantly rise, our operating results could be negatively impacted, and our ability to service our debt and to make distributions to our shareholders could be adversely affected.

We may experience increased costs arising from health care reform

In March 2010, the United States government enacted comprehensive health care reform legislation which, among other things, includes guaranteed coverage requirements, eliminates pre-existing condition exclusions and annual and lifetime maximum limits, restricts the extent to which policies can be rescinded and imposes new and significant taxes on health insurers and health care benefits. The legislation imposes implementation effective dates beginning in 2010 and extending through 2020, and many of the changes require additional guidance from government agencies or federal regulations. On June 28, 2012, the United States Supreme Court upheld the constitutionality of the health care reform legislations mandate to purchase health insurance but struck down a provision allowing the federal government to withhold Medicaid funds unless a state agrees to the expansion of Medicaid eligibility. Therefore, due to the phased-in nature of the implementation and the lack of interpretive guidance it is difficult to determine at this time what impact the health care reform legislation will have on our financial results. Possible adverse effects of the health reform legislation include increased costs, exposure to expanded liability and requirements for us to revise ways in which we provide healthcare and other benefits to our employees. In addition, our results of operations, financial position and cash flows could be materially adversely affected.

Property insurance limits may be inadequate, and deductibles may be significant in the event of a catastrophic loss or a series of major losses, which may cause a breach of loan covenants

We have a significant proportion of our assets in areas exposed to windstorms and to the New Madrid seismic zone. A major wind or earthquake loss, or series of losses, could require that we pay significant deductibles as well as additional amounts above the per occurrence limit of our insurance for these risks. We may then be judged to have breached one or more of our loan covenants, and any of the foregoing events could have a material adverse effect on our assets, financial condition, and results of operation.

Compliance or failure to comply with laws requiring access to our properties by disabled persons could result in substantial cost

The Americans with Disabilities Act, the Fair Housing Act of 1988 and other federal, state and local laws generally require that public accommodations be made accessible to disabled persons. Noncompliance could result in the imposition of fines by the government or the award of damages to private litigants. These laws may require us to modify our existing communities. These laws may also restrict renovations by requiring improved access to such buildings by disabled persons or may require us to add other structural features that increase our construction costs. Legislation or regulations adopted in the future may impose further burdens or restrictions on us with respect to improved access by disabled persons. We cannot ascertain the costs of compliance with these laws, which may be substantial.

Development and construction risks could impact our profitability

Currently, we have two development communities and a second phase to an existing community under construction totaling 774 units as of December 31, 2012. None of the units for the development projects have been completed as of December 31, 2012. Our development and construction activities are subject to the following risks:

- we may be unable to obtain, or face delays in obtaining, necessary zoning, land-use, building, occupancy and other required governmental permits and authorizations, which could result in increased development costs, could delay initial occupancy dates for all or a portion of a development community, and could require us to abandon our activities entirely with respect to a project for which we are unable to obtain permits or authorizations;
- yields may be less than anticipated as a result of delays in completing projects, costs that exceed budget or higher than expected concessions for lease up and lower rents than expected;
- bankruptcy of developers in our development projects could impose delays and costs on us with respect to the development of our communities and may adversely affect our financial condition and results of operations;
- we may abandon development opportunities that we have already begun to explore, and we may fail to recover expenses already incurred in connection with exploring such opportunities;
- we may be unable to complete construction and lease-up of a community on schedule, or incur development or construction costs that exceed our original estimates, and we may be unable to charge rents that would compensate for any increase in such costs;
- occupancy rates and rents at a newly developed community may fluctuate depending on a number of factors, including market and economic conditions, preventing us from meeting our financial goals for that community; and
- when we sell to third parties communities or properties that we developed or renovated, we may be subject to warranty or construction defect that are uninsured or exceed the limit of our insurance.

RISKS RELATED TO OUR INDEBTEDNESS AND FINANCING ACTIVITIES

A change in United States government policy with regard to FNMA and Freddie Mac could impact our financial condition

On February 11, 2011, the Obama Administration released a report to Congress that included options, among others, to gradually shrink and eventually shut down FNMA and Freddie Mac. In August 2011, Standard & Poor's Rating Services downgraded the credit ratings of FNMA and Freddie Mac from AAA to AA+. We do not know when or if FNMA or Freddie Mac will restrict their support of lending to the multifamily industry or to us in particular. As of December 31, 2012, 48% of our outstanding debt was borrowed through credit facilities provided by or credit-enhanced by FNMA or Freddie Mac with agency rate-based maturities ranging from 2013 through 2018. While the report to Congress recognized the critically important role that FNMA and Freddie Mac play in the housing finance market and committed to ensuring they have sufficient capital to perform under any guarantees issued now or in the future and the ability to meet any of their debt obligations, should they be unable to meet their obligations it would have a material adverse effect on both us and the multifamily industry, and we would seek alternative sources of funding, which may not be available on terms acceptable to us, or at all. This could jeopardize the effectiveness of our interest rate swaps, require us to post collateral up to the market value of the interest rate swaps, and either of these occurrences could potentially cause a breach in one or more of our loan covenants, and through reduced loan availability, impact the value of multifamily assets, which could impair the value of our properties.

Our financing could be impacted by negative capital market conditions

Over the past several years, domestic financial markets have experienced unusual volatility and uncertainty. Liquidity tightened in financial markets, including the investment grade debt, the CMBS, commercial paper, and equity capital markets. We have seen an increase in the volatility of short term interest rates and changes in historic relationships

between LIBOR (which is the basis for the majority of the payments to us by our swap counterparties) and the actual interest rate we pay through the FNMA Discount Mortgage Backed Security, or DMBS, and the Freddie Mac Reference Bill programs. This creates a risk that our interest expense will fluctuate to a greater extent than it has in the past, and it makes forecasting more difficult. Were our credit arrangements with Prudential Mortgage Capital, credit-enhanced by FNMA, or with Financial Federal, credit-enhanced by Freddie Mac, to fail, or their ability to lend money to finance apartment communities to become impaired or cease, we would have to seek alternative sources of capital, which might not be available on terms acceptable to us, if at all. In addition, any such event would most likely cause our interest costs to rise. This could also cause our interest rate swaps and caps to become ineffective, triggering a default in one or more of our credit agreements. If any of the foregoing events were to occur, it could have a material adverse effect on our business, financial condition and prospects.

A change in the value of our assets could cause us to experience a cash shortfall, to be in default of our loan covenants, or to incur a charge for the impairment of assets

We borrow on both a secured and unsecured basis. Certain of our debt agreements require us to post collateral and a significant reduction in the value of our assets could require us to post additional collateral. While we believe that we have significant excess collateral and capacity, future asset values are uncertain. If we were unable to meet a request to add collateral to a credit facility, this would have a material adverse effect on our liquidity and our ability to meet our loan covenants. We may determine that the value of an individual asset, or group of assets, was irrevocably impaired, and that we may need to record a charge to write-down the value of the asset to reflect its current value.

Debt level, refinancing and loan covenant risk may adversely affect our financial condition and operating results and our ability to maintain our status as a REIT

At December 31, 2012, we had total debt outstanding of \$1.67 billion. Payments of principal and interest on borrowings may leave us with insufficient cash resources to operate the apartment communities or to pay distributions to shareholders that are required to be paid in order for us to maintain our qualification as a REIT. We currently intend to limit our total debt to a range of approximately 43% to 48% of the undepreciated book value of our assets. Our charter and bylaws do not limit our debt levels and our Board of Directors can modify this policy at any time, which could allow us to become more highly leveraged. We may also issue new equity to maintain our debt within the target range. Covenants in our credit facilities limit our net-debt (total debt less cash on hand) to undepreciated book value to 60%. As of December 31, 2012, our ratio of net-debt to undepreciated book value was approximately 44%. In addition, we must repay our debt upon maturity, and the inability to access debt or equity capital at attractive rates to refinance maturing debt could adversely affect our financial condition and/or our funds from operations. We rely on our lenders for our debt financing and have agreements with the lenders that require us to comply with certain covenants, including maintaining adequate collateral that is subject to revaluation annually. The breach of any one of these covenants would place us in default with our lenders and may have serious consequences on our operations.

Interest rate hedging may be ineffective

We rely on the financial markets to refinance debt maturities, and also rely on the Agencies, which provided credit or credit enhancement for a large portion of our outstanding debt as of December 31, 2012. The debt is provided under the terms of credit facilities with Prudential Mortgage Capital (credit-enhanced by FNMA) and Financial Federal (credit-enhanced by Freddie Mac). We pay fees to the credit facility providers and the Agencies plus interest which is based on the FNMA DMBS rate, and the Freddie Mac Reference Bill Rate.

The interest rate market for the FNMA DMBS rate and the Freddie Mac Reference Bill Rate, both of which have been highly correlated with LIBOR interest rates, are also an important component of our liquidity and interest rate swap and cap effectiveness. In our experience, the FNMA DMBS rate has historically averaged 17 basis points below three-month LIBOR, and the Freddie Mac Reference Bill rate has averaged 31 basis points below the associated LIBOR rate, but in the past 4 years the spreads increased significantly and have been more volatile than we have historically seen. We cannot forecast when or if the uncertainty and volatility in the market may change. Continued unusual volatility over a period of time could cause us to lose hedge accounting treatment for our interest rate swaps and caps, resulting in material changes to our consolidated statements of operations and balance sheet, and potentially cause a breach of our debt covenants.

Fluctuations in interest rate spreads between the DMBS and Reference Bill rates and three-month LIBOR causes ineffectiveness to flow through interest expense in the current period if we are in an overhedged position, and together with the unrecognized ineffectiveness, reduces the effectiveness of the swaps and caps.

We also rely on the credit of the counterparties that provide swaps and caps to hedge the interest rate risk on our credit facilities. We use four major banks to provide approximately 95% of our derivative fair value, all of which have investment grade ratings from Moody's and S&P. In the event that one of our derivative providers should suffer a significant downgrade of its credit rating or fail, our swaps or caps may become not effective, in which case the value of the swap or cap would be recorded in earnings, possibly causing a substantial loss sufficient to cause a breach of our debt covenants.

One or more interest rate swap or cap counterparties could default, causing us significant financial exposure

We enter into interest rate swap and interest rate cap agreements only with counterparties that are highly rated (A or above by Standard & Poors, or Aa3 or above by Moody's). We also try to diversify our risk amongst several counterparties. In the event one or more of these counterparties were to go into liquidation or to experience a significant rating downgrade, this

could cause us to liquidate the interest rate swap or to lose the interest rate protection of an interest rate cap. Liquidation of an interest rate swap could cause us to be required to pay the swap counter party the net present value of the swap, which may represent a significant current period cash charge, possibly sufficient to cause us to breach our debt covenants.

Variable interest rates may adversely affect funds from operations

At December 31, 2012, effectively \$79 million of our debt bore interest at a variable rate and was not hedged by interest rate swaps or caps. We may incur additional debt in the future that also bears interest at variable rates. Variable rate debt creates higher debt service requirements if market interest rates increase, which would adversely affect our funds from operations and the amount of cash available to service our debt and to pay distributions to shareholders. Our \$884.2 million secured credit facilities with Prudential Mortgage Capital, credit enhanced by FNMA, are predominately floating rate facilities. We also have credit facilities with Freddie Mac totaling \$200.0 million that are variable rate facilities. At December 31, 2012, a total of \$803.3 million was outstanding under these facilities. These facilities represent the majority of the variable interest rates we were exposed to at December 31, 2012. Large portions of the interest rates on these facilities have been hedged by means of a number of interest rate swaps and caps. Upon the termination of these swaps and caps, we will be exposed to the risks of varying interest rates unless acceptable replacement swaps or caps or alternate fixed financings are obtainable.

Issuances of additional debt or equity may adversely impact our financial condition

Our capital requirements depend on numerous factors, including the occupancy and turnover rates of our apartment communities, development and capital expenditures, costs of operations and potential acquisitions. We cannot accurately predict the timing and amount of our capital requirements. If our capital requirements vary materially from our plans, we may require additional financing sooner than anticipated. Accordingly, we could become more leveraged, resulting in increased risk of default on our obligations and in increased debt service requirements, both of which could adversely affect our financial condition and ability to access debt and equity capital markets in the future. If we issue additional equity securities to obtain additional financing, the interest of our existing shareholders could be diluted.

RISKS RELATED TO OUR ORGANIZATION AND OWNERSHIP OF OUR STOCK

Our ownership limit restricts the transferability of our capital stock

Our charter limits ownership of our capital stock by any single shareholder to 9.9% of all outstanding shares of our capital stock, both common and preferred, unless approved by our Board of Directors. The charter also prohibits anyone from buying shares if the purchase would result in our losing REIT status. This could happen if a share transaction results in fewer than 100 persons owning all of our shares or in five or fewer persons, applying certain broad attribution rules of the Code, owning 50% or more of our shares (by value). If you acquire shares in excess of the ownership limit or in violation of the ownership requirements of the Code for REITs, we:

- will consider the transfer to be null and void;
- will not reflect the transaction on our books;
- may institute legal action to enjoin the transaction;
- will not pay dividends or other distributions with respect to those shares;
- will not recognize any voting rights for those shares;
- will consider the shares held in trust for our benefit; and
- will either direct you to sell the shares and turn over any profit to us, or we will redeem the shares. If we redeem the shares, you will be paid a price equal to the lesser of:

the principal price paid for the shares by the holder,
a price per share equal to the market price (as determined in the manner set forth in our charter) of the applicable capital stock,
the market price (as so determined) on the date such holder would, but for the restrictions on transfers set forth in our charter, be deemed to have acquired ownership of the shares and
the maximum price allowed under Tennessee Greenmail Act (such price being the average of the highest and lowest closing market price for the shares during the 30 trading days preceding the purchase of such shares or, if the holder of such shares has commenced a tender offer or has announced an intention to seek control of us, during the 30 trading days preceding the commencement of such tender offer or the making of such announcement).

The redemption price may be paid, at our option, by delivering one common unit (subject to adjustment from time to time in the event of, among other things, stock splits, stock dividends, or recapitalizations affecting our common stock or certain mergers, consolidations or asset transfers by us) issued by our Operating Partnership for each Excess Share being redeemed.

If you acquire shares in violation of the limits on ownership described above:

- you may lose your power to dispose of the shares;
- you may not recognize profit from the sale of such shares if the market price of the shares increases; and
- you may be required to recognize a loss from the sale of such shares if the market price decreases.

Provisions of our charter and Tennessee law may limit the ability of a third party to acquire control of us

Ownership Limit

The 9.9% ownership limit discussed above may have the effect of precluding acquisition of control of us by a third party without the consent of our Board of Directors.

Preferred Stock

Our charter authorizes our Board of Directors to issue up to 20,000,000 shares of preferred stock. Our Board of Directors may establish the preferences and rights of any preferred shares issued. The issuance of preferred stock could have the effect of delaying or preventing someone from taking control of us, even if a change in control were in our shareholders' best interests. As of December 31, 2012, no shares of preferred stock were issued and outstanding.

Tennessee Anti-Takeover Statutes

As a Tennessee corporation, we are subject to various legislative acts, which impose restrictions on and require compliance with procedures designed to protect shareholders against unfair or coercive mergers and acquisitions. These statutes may delay or prevent offers to acquire us and increase the difficulty of consummating any such offers, even if our acquisition would be in our shareholders' best interests.

Our investments in joint ventures may involve risks

Investments in joint ventures may involve risks that may not otherwise be present in our direct investments such as:

- the potential inability of our joint venture partner to perform;
- the joint venture partner may have economic or business interests or goals which are inconsistent with or adverse to ours;
- the joint venture partner may take actions contrary to our requests or instructions or contrary to our objectives or policies; and
- the joint venturers may not be able to agree on matters relating to the property they jointly own.

Although joint owners may have a right of first refusal to purchase the other owner's interest, in the event a sale is desired, the joint owner may not have sufficient resources to exercise such right of first refusal.

Market interest rates and low trading volume may have an adverse effect on the market value of our common shares

The market price of shares of a REIT may be affected by the distribution rate on those shares, as a percentage of the price of the shares, relative to market interest rates. If market interest rates increase, prospective purchasers of our shares may expect a higher annual distribution rate. Higher interest rates would not, however, result in more funds for us to distribute and, in fact, would likely increase our borrowing costs and potentially decrease funds available for distribution. This could cause the market price of our common shares to go down. In addition, although our common shares are listed on The New York Stock Exchange, or the NYSE, the daily trading volume of our shares may be lower than the trading volume for companies in other industries. As a result, our investors who desire to liquidate substantial holdings may find that they are unable to dispose of their shares in the market without causing a substantial decline in the market value of the shares.

Changes in market conditions or a failure to meet the market's expectations with regard to our results of operations and cash distributions could adversely affect the market price of our common shares

We believe that the market value of a REIT's equity securities is based primarily upon the market's perception of the REIT's growth potential and its current and potential future cash distributions, and is secondarily based upon the real estate market value of the underlying assets. For that reason, our shares may trade at prices that are higher or lower than the net asset value per share. To the extent we retain operating cash flow for investment purposes, working capital reserves or other purposes, these retained funds, while increasing the value of our underlying assets, may not correspondingly increase the market price of our common shares. In addition, we are subject to the risk that our cash flow will be insufficient to service our debt and to pay distributions to our shareholders. Our failure to meet the market's expectations with regard to future results of operations and cash distributions would likely adversely affect the market price of our shares.

The stock markets, including the NYSE, on which we list our common shares, have experienced significant price and volume fluctuations. As a result, the market price of our common shares could be similarly volatile, and investors may experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. Among the market conditions that may affect the market price of our securities are the following:

- our financial condition and operating performance and the performance of other similar companies;
- actual or anticipated differences in our quarterly and annual operating results;
- changes in our revenues or earnings estimates or recommendations by securities analysts;
- publication of research reports about us or our industry by securities analysts;
- additions and departures of key personnel;
- inability to access the capital markets;
- strategic decisions by us or our competitors, such as acquisitions, dispositions, spin-offs, joint ventures, strategic investments or changes in business strategy;
- the issuance or sale of additional shares of our common stock, or the perception that such sales may occur, including under our at-the-market controlled equity offering programs;
- the reputation of REITs generally and the reputation of REITs with portfolios similar to ours;
- the attractiveness of the securities of REITs in comparison to securities issued by other entities, including securities issued by other real estate companies;
- an increase in market interest rates, which may lead prospective investors to demand a higher distribution rate in relation to the price paid for our shares;
- the passage of legislation or other regulatory developments that adversely affect us or our industry;
- speculation in the press or investment community;
- actions by institutional shareholders or hedge funds;
- changes in accounting principles;
- terrorist acts; and
- general market conditions, including factors unrelated to our performance.

In the past, securities class action litigation has often been instituted against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources.

RISKS RELATED TO TAX LAWS

Failure to qualify as a REIT would cause us to be taxed as a corporation

If we failed to qualify as a REIT for federal income tax purposes, we would be taxed as a corporation. The Internal Revenue Service may challenge our qualification as a REIT for prior years, and new legislation, regulations, administrative interpretations or court decisions may change the tax laws with respect to qualification as a REIT or the federal tax consequences of such qualification. For any taxable year that we fail to qualify as a REIT, we would be subject to federal income tax on our taxable income at corporate rates, plus any applicable alternative minimum tax. In addition, unless entitled to relief under applicable statutory provisions, we would be disqualified from treatment as a REIT for the four taxable years following the year during which qualification is lost. This treatment would reduce our cash available for investment or to service our debt or to make distribution to shareholders because of the additional tax liability for the year or years involved. In addition, distributions would no longer qualify for the dividends paid deduction nor be required to be made in order to preserve REIT status. We might be required to borrow funds or to liquidate some of our investments to pay any applicable tax resulting from our failure to qualify as a REIT.

Failure to make required distributions would subject us to income taxation

In order to qualify as a REIT, each year we must distribute to stockholders at least 90% of our taxable income (determined without regard to the dividend paid deduction and by excluding net capital gains). To the extent that we satisfy the distribution requirement, but distribute less than 100% of taxable income, we will be subject to federal corporate income tax on the undistributed income. In addition, we would incur a 4% nondeductible excise tax on the amount, if any, by which our distributions in any year are less than the sum of:

- 85% of ordinary income for that year;
- 95% of capital gain net income for that year; and
- 100% of undistributed taxable income from prior years.

Differences in timing between the recognition of income and the related cash receipts or the effect of required debt amortization payments could require us to borrow money or sell assets to pay out enough of the taxable income to satisfy the distribution requirement and to avoid corporate income tax and the 4% nondeductible excise tax in a particular year.

Complying with REIT requirements may cause us to forgo otherwise attractive opportunities or engage in marginal investment opportunities

To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of income, the nature and diversification of assets, the amounts distributed to shareholders and the ownership of our stock. In order to meet these tests, we may be required to forgo attractive business or investment opportunities or engage in marginal investment opportunities. Thus, compliance with the REIT requirements may hinder our ability to operate solely on the basis of maximizing profits.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

We seek to acquire newer apartment communities and those with opportunities for repositioning through capital additions and management improvement located in the Sunbelt region of the United States that are primarily appealing to middle income residents with the potential for above average growth and return on investment. Approximately 69% of our apartment units are located in Georgia, Florida, Tennessee, and Texas markets. Our strategic focus is to provide our residents high quality apartment units in attractive community settings, characterized by extensive landscaping and attention to aesthetic detail. We utilize our experience and expertise in maintenance, landscaping, marketing and management to effectively reposition many of the apartment communities we acquire to raise occupancy levels and per unit average rents.

The following table sets forth certain historical information for the apartment communities we owned at December 31, 2012:

Property	Location	Approximate Rentable Area (Square Feet)	Average Unit Size (Square Feet)	Average Monthly Rent per Unit at	Average Monthly Occupancy Percent at	Effective Rent per Unit at	Encumbrances as of December 31, 2012 (Mortgages/Bonds)

(1) Encumbered by a \$691.8 million FNMA facility, with \$495.8 million available and \$495.8 million outstanding with a variable interest rate of 1.22% on which there exists in combination with the FNMA facility mentioned in note (2) nine interest rate swap agreements totaling \$275 million at an average rate of 5.45% and six interest rate caps totalling \$165 million at an average rate of 4.58% at December 31, 2012.

(2) Encumbered by a \$83.2 million FNMA facility, with \$0 million available and \$0 outstanding with a variable interest rate of 0.00% on which there exists interest rate swaps and caps as mentioned in note (1) at December 31, 2012.

(3) Phase I of Paddock Park - Ocala is encumbered by \$6.8 million in bonds on which there exists a \$6.8 million interest rate cap of 6.00% which terminates on October 24, 2017.

(4) Encumbered by a \$200 million Freddie Mac facility, with \$198.2 million available and an outstanding balance of \$198.2 million and a variable interest rate of 0.72% on which there exists eight interest rate swap agreements totaling \$134 million at an average rate of 5.51% and a \$15 million interest rate cap of 5% at December 31, 2012.

(5) Encumbered by a \$128 million loan with an outstanding balance of \$128 million and a fixed interest rate of 5.08% which matures on June 10, 2021.

(6) Encumbered by \$8.4 million in bonds on which there exists a \$8.4 million interest rate cap of 4.50% which terminates on March 1, 2014.

(7) Encumbered by \$7.0 million in bonds on which there exists a \$7.0 million interest rate cap of 6.00% and maturing on October 15, 2017.

(8) Encumbered by \$5.9 million in bonds on which there exists a \$5.9 million interest rate cap of 6.00% which terminates on October 31, 2017.

(9) Encumbered by \$7.7 million in bonds on which there exists a \$7.7 million interest rate cap of 6.00% which terminates on October 31, 2017.

(10) Encumbered by \$3.4 million in bonds on which there exists a \$3.4 million interest rate cap of 6.00% which terminates on October 31, 2017.

(11) Encumbered by \$10.8 million in bonds on which there exists a \$10.8 million interest rate cap of 6.00% and maturing on October 15, 2017.

(12) Encumbered by \$3.5 million in bonds \$0.5 million having a variable rate of 1.128% and \$3.0 million with a variable rate of 0.908% on which there exists a \$3.0 million interest rate cap of 6.00% which terminates on May 31, 2013.

(13) Encumbered by \$5.5 million in bonds \$0.5 million having a variable rate of 1.128% and \$5.0 million with a variable rate of 0.908% on which there exists a \$5.0 million interest rate cap of 6.00% which terminates on May 31, 2013.

(14) Encumbered by \$6.6 million in bonds on which there exists a \$6.6 million interest rate cap of 6.00% which terminates on November 15, 2016.

(15)

Encumbered by \$4.1 million in bonds on which there exists a \$4.1 million interest rate cap of 6.00% which terminates on November 15, 2016.

(16) Encumbered by \$3.6 million in bonds on which there exists a \$3.6 million interest rate cap of 6.00% which terminates on November 15, 2016.

(17) Phase I of St. Augustine is encumbered by \$13.2 million in bonds on which there exists a \$13.2 million interest rate cap of 4.50% which terminates on March 1, 2014.

(18) Also encumbered by a \$17.9 million FNMA facility maturing on March 1, 2014 with a variable interest rate of 0.84% on which there exists a \$11.7 million interest rate cap of 5.00% which terminates on March 1, 2014, and a \$6.2 million interest rate cap of 4.50% which terminates on March 1, 2014.

(19) Monthly average rent per unit represents the average of gross monthly rent amounts charged for occupied units plus prevalent market rates asked for unoccupied units in the property, divided by the total number of units in the property. This information is provided to represent average pricing for the period and does not represent actual rental revenue collected per unit.

(20) Average Occupancy is calculated by dividing the number of units occupied at each property by the total number of units at each property. Two properties, Ridge at Chenal Valley and Venue at Cool Springs, are in lease-up .

- Effective rent per unit is equal to the average of gross rent amounts after the effect of leasing concessions for occupied units plus prevalent market rates asked for unoccupied units in the property, divided by the total number of units in the property. Leasing concessions represent discounts to the current market rate. These discounts may be offered from time-to-time by a property for various reasons, including to assist with the initial lease-up of a newly developed property or as a response to a property's local market economics. Concessions are not part of our standard rent offering. Concessions for the year ended December 31, 2012 were \$3.1 million. As of December 31, 2012 approximately 12.0% of total leases were subject to concessions. Effective rent is provided to represent average pricing for the period and does not represent actual rental revenue collected per unit.
- (21) Large market same store reportable segment.
- (22) Secondary market same store reportable segment.
- (23) Non-same store reportable segment.
- (24) Encumbered by \$5.1 million in bonds on which there exists a \$5.1 million interest rate cap of 4.50% which terminates on March 1, 2014.

ITEM 3. LEGAL PROCEEDINGS.

We are not presently subject to any material litigation nor, to our knowledge, are any material litigation threatened against us. We are presently subject to routine litigation arising in the ordinary course of business, some of which is expected to be covered by liability insurance and none of which is expected to have a material adverse effect on our business, financial condition, liquidity or results of operations.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Our common stock has been listed and traded on the NYSE under the symbol "MAA" since our initial public offering in February 1994. On February 4, 2013, the reported last sale price of our common stock on the NYSE was \$65.81 per share, and there were approximately 1,515 holders of record of the common stock. We believe we have a significantly larger number of beneficial owners of our common stock. The following table sets forth the quarterly high and low intra-day sales prices of our common stock and the dividends declared by us with respect to the periods indicated.

	Sales Prices		Dividends	Dividends
	High	Low	Paid	Declared
2012:				
First Quarter	\$67.11	\$57.96	\$0.6600	\$0.6600
Second Quarter	\$70.22	\$64.67	\$0.6600	\$0.6600
Third Quarter	\$70.21	\$64.81	\$0.6600	\$0.6600
Fourth Quarter	\$66.68	\$60.38	\$0.6600	\$0.6950 (1)
2011:				
First Quarter	\$65.00	\$60.41	\$0.6275	\$0.6275
Second Quarter	\$68.62	\$62.12	\$0.6275	\$0.6275

Edgar Filing: MID AMERICA APARTMENT COMMUNITIES INC - Form 10-K

Third Quarter	\$73.36	\$57.04	\$0.6275	\$0.6275
Fourth Quarter	\$63.62	\$55.10	\$0.6275	\$0.6600

⁽¹⁾ Generally, our Board of Directors declares dividends prior to the quarter in which they are paid. The dividend of \$0.695 per share declared in the fourth quarter of 2012 was paid on January 31, 2013 to shareholders of record on January 15, 2013.

Our quarterly dividend rate is currently \$0.695 per common share. Our Board of Directors reviews and declares the dividend rate quarterly. Actual dividends made by us will be affected by a number of factors, including, but not limited to, the gross revenues received from the apartment communities, our operating expenses, the interest expense incurred on borrowings and unanticipated capital expenditures.

We expect to make future quarterly distributions to shareholders; however, future distributions by us will be at the discretion of our Board of Directors and will depend on our actual funds from operations, our financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Internal Revenue Code and such other factors as our Board of Directors deems relevant.

We have established the Direct Stock Purchase and Distribution Reinvestment Plan, or DRSP, under which holders of common stock, preferred stock and limited partnership interests in our operating partnership can elect to automatically reinvest their distributions in additional shares of common stock. The plan also allows for the optional purchase of common stock of at least \$250, but not more than \$5,000 in any given month, free of brokerage commissions and charges. In our absolute discretion, we may grant waivers to allow for optional cash payments in excess of \$5,000. To fulfill our obligations under the DRSP, we may either issue additional shares of common stock or repurchase common stock in the open market. We may elect to sell shares under the DRSP at up to a 5% discount.

In 2010, we issued a total of 568,323 shares through our DRSP and offered an average discount of 2.0% for optional cash purchases. In 2011, we issued a total of 509,116 shares through our DRSP and offered an average discount of 2.0% for optional cash purchases. In 2012, we issued a total of 14,260 shares through our DRSP and did not offer a discount for optional cash purchases.

The following table provides information with respect to compensation plans under which our equity securities are authorized for issuance as of December 31, 2012.

	Number of Securities to be Issued upon Exercise of Outstanding Options, Warrants and Rights (a)(1)	Weighted Average Exercise Price of Outstanding Options Warrants and Rights (b)(1)	Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans (excluding securities reflected in column (a)) (c)(2)
Equity compensation plans approved by security holders	—	\$—	312,015
Equity compensation plans not approved by security holders	N/A	N/A	N/A
Total	—	\$—	312,015

(1) Columns (a) and (b) above do not include 33,675 shares of restricted stock that are subject to vesting requirements which were issued through our 2004 Stock Plan or 88,893 shares of common stock that have been purchased by employees through the Employee Stock Purchase Plan. See Item 8. Financial Statements and Supplementary Data -

Notes to Consolidated Financial Statements, Note 2 for more information on these plans.

Column (c) above includes 250,908 shares available to be issued under our 2004 Stock Plan and 61,107 shares (2) available to be issued under our Employee Stock Purchase Plan. See Item 8. Financial Statements and Supplementary Data - Notes to Consolidated Financial Statements, Note 2 for more information on these plans.

We have not granted any stock options since 2002.

The following graph compares the cumulative total returns of the shareholders of MAA since December 31, 2007 with the S&P 500 Index and the FTSE NAREIT Equity REIT Index prepared by the National Association of Real Estate Investment Trusts, or NAREIT. The graph assumes that the base share price for our common stock and each index is \$100 and that all dividends are reinvested. The performance graph is not necessarily indicative of future investment performance.

	Dec '07	Dec '08	Dec '09	Dec '10	Dec '11	Dec '12
MAA	\$100.00	\$91.59	\$127.59	\$175.68	\$180.08	\$194.19
S&P500	\$100.00	\$63.00	\$79.67	\$91.67	\$93.61	\$108.59

Purchases of Equity Securities

The following chart shows our repurchases of shares for the three-month period ended December 31, 2012:

MAA Purchases of Equity Securities

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet be Purchased Under the Plans or Programs (2)
October 1, 2012 - October 31, 2012	1,194	\$64.22	—	2,138,000
November 1, 2012 - November 30, 2012	400	\$62.04	—	2,138,000
December 1, 2012 - December 31, 2012	402	\$62.75	—	2,138,000
Total	1,996	\$63.49	—	2,138,000

(1) Represents shares repurchased under ESOP plan.

(2) This number reflects the amount of shares that were available for purchase under our 4,000,000 share repurchase program authorized by our Board of Directors in 1999.

ITEM 6. SELECTED FINANCIAL DATA.

The following table sets forth selected financial data on a historical basis for us. This data should be read in conjunction with the consolidated financial statements and notes thereto and “Management's Discussion and Analysis of Financial Condition and Results of Operations” included elsewhere in this Annual Report on Form 10-K.

---	--------	--------	--------	--------	--------

(1) See EPS note in Part 8. Financial Statements and Supplementary Data - Notes to Consolidated Financial Statements, Note 1 of this report.

(2) Beginning in 2006, at their regularly scheduled meetings, our Board of Directors began routinely declaring dividends for payment in the following quarter. This can result in dividends declared during a calendar year being different from dividends paid during a calendar year.

(3) Market capitalization includes all series of preferred shares (value based on \$25 per share liquidation preference) and common shares, regardless of classification on balance sheet, as well as partnership units (value based on common stock equivalency).

(4) Total capitalization is market capitalization plus total debt.

(5) Property and apartment unit totals have not been adjusted to exclude properties held for sale.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The following discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements and the notes thereto, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires us to make a number of estimates and assumptions that affect the reported amounts and disclosures in the consolidated financial statements. On an ongoing basis, we evaluate our estimates and assumptions based upon historical experience and various other factors and circumstances. We believe that our estimates and assumptions are reasonable under the circumstances; however, actual results may differ from these estimates and assumptions.

We believe that the estimates and assumptions listed below are most important to the portrayal of our financial condition and results of operations because they require the greatest subjective determinations and form the basis of accounting policies deemed to be most critical. These critical accounting policies include revenue recognition, capitalization of expenditures and depreciation and amortization of assets, acquisition of real estate assets, impairment of long-lived assets, including goodwill, and fair value of derivative financial instruments.

Revenue Recognition and Real Estate Sales

We lease multifamily residential apartments under operating leases primarily with terms of one year or less. Rental revenues are recognized using a method that represents a straight-line basis over the term of the lease and other revenues are recorded when earned.

We record gains and losses on real estate sales in accordance with accounting standards governing the sale of real estate. For sale transactions meeting the requirements for the full accrual method, we remove the assets and liabilities from our Consolidated Balance Sheets and record the gain or loss in the period the transaction closes. For properties contributed to joint ventures, MAA records gains on the partial sale in proportion to the outside partners' interest in the venture.

Capitalization of expenditures and depreciation and amortization of assets

We carry real estate assets at depreciated cost. Depreciation and amortization is computed on a straight-line basis over the estimated useful lives of the related assets, which range from 8 to 40 years for land improvements and buildings, 5 years for furniture, fixtures, and equipment, 3 to 5 years for computers and software, and 6 months for acquired leases, all of which are subjective determinations. Repairs and maintenance costs are expensed as incurred while significant improvements, renovations and replacements are capitalized. The cost to complete any deferred repairs and maintenance at properties acquired by us in order to elevate the condition of the property to our standards are capitalized as incurred.

Acquisition of real estate assets

We account for our acquisitions of investments in real estate in accordance with ASC 805-10, Business Combinations, which requires the fair value of the real estate acquired to be allocated to the acquired tangible assets, consisting of land, building and furniture, fixtures and equipment, and identified intangible assets, consisting of the value of in-place leases.

We allocate the purchase price to the fair value of the tangible assets of an acquired property, which includes the land, building, and furniture, fixtures, and equipment, determined by valuing the property as if it were vacant, based on management's determination of the relative fair values of these assets. Management determines the as-if-vacant fair value of a

property using methods similar to those used by independent appraisers. These methods include using stabilized NOI and market specific capitalization and discount rates.

In allocating the fair value of identified intangible assets of an acquired property, the in-place leases are valued based on current rent rates and time and cost to lease a unit. Management concluded that the residential leases acquired on each of its property acquisitions are approximately at market rates since the lease terms generally do not extend beyond one year.

Impairment of long-lived assets, including goodwill

We account for long-lived assets in accordance with the provisions of accounting standards for the impairment or disposal on long-lived assets and evaluate our goodwill for impairment under accounting standards for goodwill and other intangible assets. We evaluate goodwill for impairment on at least an annual basis, or more frequently if a goodwill impairment indicator is identified. We periodically evaluate long-lived assets, including investments in real estate and goodwill, for indicators that would suggest that the carrying amount of the assets may not be recoverable. The judgments regarding the existence of such indicators are based on factors such as operating performance, market conditions and legal factors.

Long-lived assets, such as real estate assets, equipment and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are separately presented on the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of properties classified as held for sale are presented separately in the appropriate asset and liability sections of the balance sheet.

Goodwill is tested annually for impairment, and is tested for impairment more frequently if events and circumstances indicate that the asset might be impaired. An impairment loss for goodwill is recognized to the extent that the carrying amount exceeds the implied fair value of goodwill. This determination is made at the reporting unit level and consists of two steps. First, we determine the fair value of a reporting unit and compare it to its carrying amount. In the apartment industry, the primary method used for determining fair value is to divide annual operating cash flows by an appropriate capitalization rate. We determine the appropriate capitalization rate by reviewing the prevailing rates in a property's market or submarket. Second, if the carrying amount of a reporting unit exceeds its fair value, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation in accordance with accounting standards for business combinations. The residual fair value after this allocation is the implied fair value of the reporting unit goodwill.

Fair value of derivative financial instruments

We utilize certain derivative financial instruments, primarily interest rate swaps and interest rate caps, during the normal course of business to manage, or hedge, the interest rate risk associated with our variable rate debt or as hedges in anticipation of future debt transactions to manage well-defined interest rate risk associated with the transaction.

In order for a derivative contract to be designated as a hedging instrument, changes in the hedging instrument must be highly effective at offsetting changes in the hedged item. The historical correlation of the hedging instruments and the underlying hedged items are assessed before entering into the hedging relationship and on a quarterly basis thereafter,

and have been found to be highly effective.

We measure ineffectiveness using the change in the variable cash flows method or the hypothetical derivative method for interest rate swaps and the hypothetical derivative method for interest rate caps for each reporting period through the term of the hedging instruments. Any amounts determined to be ineffective are recorded in earnings if in an overhedged position. The change in fair value of the interest rate swaps and the intrinsic value or fair value of interest rate caps designated as cash flow hedges are recorded to accumulated other comprehensive income in the statement of shareholders' equity.

The valuation of our derivative financial instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The fair values of interest rate caps are determined using the market

standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rise above the strike rate of the interest rate caps. The variable interest rates used in the calculation of projected receipts on the interest rate cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities. Additionally, we incorporate credit valuation adjustments to appropriately reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. Changes in the fair values of our derivatives are primarily the result of fluctuations in interest rates. See Item 8. Financial Statements and Supplementary Data – Notes to Consolidated Financial Statements, Notes 5 and 6 for further discussion.

OVERVIEW OF THE YEAR ENDED DECEMBER 31, 2012

We experienced an increase in income from continuing operations in 2012 as increases in revenues outpaced increases in expenses. The increases in revenues came from a 6.0% increase in our large market same store segment, a 3.2% increase in our secondary market same store segment and a 165.4% increase in our non-same store and other segment, which was primarily a result of acquisitions. The increase in expense came from a 2.9% increase in our large market same store segment, a 1.4% increase in our secondary market same store segment and a 141.1% increase in our non-same store and other segment, which was primarily the result of acquisitions. Our same store portfolio represents those communities that have been held and have been stabilized for at least 12 months. Communities excluded from the same store portfolio would include recent acquisitions, communities being developed or in lease-up, communities undergoing extensive renovations, and communities identified as discontinued operations.

We have grown externally during the past three years by following our acquisition strategy to invest in large and mid-sized growing markets in the Sunbelt region of the United States. We acquired eight properties for our 100% owned portfolio in 2010, eleven in 2011 and seven in 2012. We also purchased two properties through one of our joint ventures in 2010 and one in 2011. We did not purchase any property through our joint ventures in 2012. Offsetting some of this increased revenue stream were two property dispositions in 2011 and nine dispositions in 2012. We did not dispose of any properties in 2010.

As of December 31, 2012, the total number of apartment units that we owned or had an ownership interest in was 49,591 apartment units in 166 communities as compared to 49,133 in 167 communities at December 31, 2011, and 46,310 apartment units in 157 communities at December 31, 2010. In addition to the units listed above, for the year ended December 31, 2012, we had an additional 774 units at development properties that have not yet been delivered. There were 950 such units at December 31, 2011 and 428 units at December 31, 2010 that had not yet been delivered. For communities owned 100% by us, the average effective monthly rent per apartment unit, excluding units in lease-up, increased to \$855.71 at December 31, 2012 from \$793.46 at December 31, 2011 and \$736.51 at December 31, 2010. For these same units, overall occupancy at December 31, 2012, 2011, and 2010 was 95.1%, 95.1%, 95.8%, respectively.

Average effective monthly rent per unit is equal to the average of gross rent amounts after the effect of leasing concessions for occupied units plus prevalent market rates asked for unoccupied units, divided by the total number of units. Leasing concessions represent discounts to the current market rate. We believe average effective monthly rent is a helpful measurement in evaluating average pricing. It does not represent actual rental revenue collected per unit.

The following is a discussion of our consolidated financial condition and results of operations for the years ended December 31, 2012, 2011, and 2010. This discussion should be read in conjunction with all of the consolidated financial statements included in this Annual Report on Form 10-K.

RESULTS OF OPERATIONS

Comparison of the Year Ended December 31, 2012, to the Year Ended December 31, 2011

Property revenues for the year ended December 31, 2012 were approximately \$496.3 million, an increase of \$66.5 million from the year ended December 31, 2011 due to (i) a \$12.9 million increase in property revenues from our large market same store group primarily as a result of increased average rent per unit, (ii) a \$5.9 million increase in property revenues from our secondary market same store group primarily as a result of increased average rent per unit, and (iii) a \$47.7 million increase in property revenues from our non-same store and other group, mainly as a result of acquisitions. See further discussion on revenue growth in the Trends section below.

Property operating expenses include costs for property personnel, property personnel bonuses, building repairs and maintenance, real estate taxes and insurance, utilities, landscaping and depreciation and amortization. Property operating expenses, excluding depreciation and amortization, for the year ended December 31, 2012 were approximately \$203.3 million,

an increase of approximately \$20.7 million from the year ended December 31, 2011 due primarily to increases in property operating expenses of (i) \$2.7 million from our large market same store group, (ii) \$1.1 million from our secondary market same store group, and (iii) \$16.9 million from our non-same store and other group, mainly as a result of acquisitions. The increases in the large and secondary market same store groups are mainly the result of increases in employees' salaries and medical insurance. Other increases are the result of normal operating costs.

Depreciation and amortization expense for the year ended December 31, 2012 was approximately \$126.1 million, an increase of approximately \$15.3 million from the year ended December 31, 2011 primarily due to the increases in depreciation and amortization expense of (i) \$1.0 million from our large market same store group, (ii) \$1.4 million from our secondary market same store group, and (iii) \$12.9 million from our non-same store and other group, mainly as a result of acquisitions. Increases in depreciation and amortization expense from our large and secondary market same store groups resulted from asset additions made during the normal course of business.

General and Administrative expense for the year ended December 31, 2012 was approximately \$13.8 million, a decrease of \$4.4 million from the year ended December 31, 2011. The majority of the decrease was related to a reduction in stock incentives and employee medical insurance.

Interest expense for the year ended December 31, 2012 was approximately \$58.8 million, an increase of \$1.3 million from the year ended December 31, 2011. The increase was primarily the result of an increase in our average debt outstanding from December 31, 2011 to the year ended December 31, 2012 of approximately \$98.0 million.

We recorded a gain on sale of discontinued operations of \$41.6 million and \$12.8 million for the years ended December 31, 2011 and December 31, 2012, respectively.

Net income attributable to noncontrolling interests for the year ended December 31, 2012 was approximately \$4.6 million, an increase of \$2.2 million from the year ended December 31, 2011. The increase was primarily the result of a one-time charge of \$2.1 million related to an adjustment of the historical allocation of earnings to noncontrolling interest in our operating partnership. For more discussion on the out of period adjustment, see Item 8. Financial Statements and Supplementary Data – Notes to Consolidated Financial Statements Note 1.

Income from discontinued operations before gain (loss) on sale for the year ended December 31, 2012 was approximately \$0.6 million, a decrease of \$3.0 million from the year ended December 31, 2011.

Primarily as a result of the foregoing and other various increases in expenses, net income attributable to Mid-America Apartment Communities, Inc. increased by approximately \$56.4 million in the year ended December 31, 2012 from the year ended December 31, 2011.

Comparison of the Year Ended December 31, 2011, to the Year Ended December 31, 2010

Property revenues for the year ended December 31, 2011 increased by approximately \$50.3 million from the year ended December 31, 2010 due to (i) a \$17.2 million increase in property revenues from our large market same store group, (ii) a \$8.7 million increase in property revenues from our secondary market same store group and (iii) a \$24.4 million increase in property revenues from our non-same store and other group, mainly as a result of acquisitions.

Property operating expenses include costs for property personnel, building repairs and maintenance, real estate taxes and insurance, utilities, landscaping and other property related costs. Property operating expenses for the year ended December 31, 2011 increased by approximately \$19.0 million from the year ended December 31, 2010, due primarily to increases of property operating expenses of (i) \$7.4 million from our large market same store group, (ii) \$2.8 million from our secondary market same store group, and (iii) \$8.8 million from our non-same store and other group,

mainly as a result of acquisitions. The increases in the large and secondary market same store groups are primarily due to an additional \$1.9 million in bulk cable expense and a \$0.9 million increase in expense due to our Level One call center program. Other increases are the result of normal operating costs.

Depreciation and amortization expense increased by approximately \$12.5 million primarily due to the increases of depreciation and amortization expense of (i) \$2.8 million from our large market same store group, (ii) \$1.0 million from our secondary market same store group, and (iii) \$8.7 million from our non-same store and other group, mainly as a result of acquisitions. Increases of depreciation and amortization expense from our large and secondary market same store groups resulted from asset additions made during the normal course of business.

General and Administrative expense for the year ended December 31, 2011 was approximately \$42.1 million, an increase of \$9.2 million from the year ended December 31, 2010. The majority of the increase was related to a one-time charge of \$1.8 million for an out of period adjustment to our restricted stock plans, a \$3.5 million increase in stock incentives, and a \$1.4 million increase in employee medical insurance. The increase was also attributable to a \$0.8 million increase in property acquisition expenses due to higher acquisition volume for the year ended December 31, 2011.

Interest expense increased approximately \$2.8 million in 2011 from 2010. The increase was primarily the result of an increase in our average debt outstanding from 2010 to 2011 of approximately \$127.6 million.

During the year ended December 31, 2010, we recorded an asset impairment charge of approximately \$1.9 million related to one of our original initial public offering communities. This community was part of our secondary market same store segment. Fair value of the community was determined by an offer. No asset impairment charges were recorded during the year ended December 31, 2011.

For the year ended December 31, 2011, we recorded total gain on sale of discontinued operations of approximately \$12.8 million. There was no material gain (loss) on sale of discontinued operations during the year ended December 31, 2010.

Primarily as a result of the foregoing, net income attributable to Mid-America Apartment Communities, Inc. increased by approximately \$19.1 million in 2011 from 2010.

Funds from Operations

Funds from operations, or FFO, represents net income (computed in accordance with GAAP) excluding extraordinary items, net income attributable to noncontrolling interest, asset impairment, gains or losses on disposition of real estate assets, plus depreciation and amortization of real estate, and adjustments for joint ventures to reflect FFO on the same basis. Disposition of real estate assets includes sales of discontinued operations as well as proceeds received from insurance and other settlements from property damage.

In response to the Securities and Exchange Commission's Staff Policy Statement relating to EITF Topic D-42 concerning the calculation of earnings per share for the redemption of preferred stock, we have included the amount charged to retire preferred stock in excess of carrying values in our FFO calculation.

Our policy is to expense the cost of interior painting, vinyl flooring, and blinds as incurred for stabilized properties. During the stabilization period for acquisition properties, these items are capitalized as part of the total repositioning program of newly acquired properties, and, thus are not deducted in calculating FFO.

FFO should not be considered as an alternative to net income or any other GAAP measurement of performance, as an indicator of operating performance or as an alternative to cash flow from operating, investing, and financing activities as a measure of liquidity. We believe that FFO is helpful to investors in understanding our operating performance in that such calculation excludes depreciation and amortization expense on real estate assets. We believe that GAAP historical cost depreciation of real estate assets is generally not correlated with changes in the value of those assets, whose value does not diminish predictably over time, as historical cost depreciation implies. Our calculation of FFO may differ from the methodology for calculating FFO utilized by other REITs and, accordingly, may not be comparable to such other REITs.

Edgar Filing: MID AMERICA APARTMENT COMMUNITIES INC - Form 10-K

The following table is a reconciliation of FFO to consolidated net income for the years ended December 31, 2012, 2011, and 2010 (dollars in thousands):

	Years ended December 31,		
	2012	2011	2010 ⁽¹⁾
Net income attributable to MAA	\$ 105,223	\$ 48,821	\$ 29,761
Depreciation and amortization of real estate assets	123,767	108,660	96,320
Asset impairment	—	—	1,914
Net casualty loss (gain) and other settlement proceeds	6	619	(330)
Gain on properties acquired from joint ventures	—	—	(752)
Net (gain) loss on insurance and other settlement proceeds of discontinued operations	(48)	12)	—
Depreciation and amortization of real estate assets of discontinued operations	2,507	5,557	5,680
(Gain) loss on sale of discontinued operations	(41,635)	(12,799)	2)
Depreciation and amortization of real estate assets of real estate joint ventures	1,887	2,262	1,896
Preferred dividend distribution	—	—	(6,549)
Net income attributable to noncontrolling interests	4,602	2,410	1,114
Premiums and original issuance costs associated with the redemption of preferred stock	—	—	(5,149)
Funds from operations	\$ 196,309	\$ 155,542	\$ 123,907

⁽¹⁾ In accordance with NAREIT's current guidance, FFO has been updated to exclude asset impairment write downs.

FFO for the year ended December 31, 2012 increased approximately \$40.8 million from the year ended December 31, 2011 primarily as a result of the increase in property revenues of approximately \$66.5 million discussed above that was only partially offset by the \$20.7 million increase in property operating expenses.

FFO for the year ended December 31, 2011 increased approximately \$31.6 million from the year ended December 31, 2010 primarily as a result of the increase in property revenues of approximately \$50.3 million discussed above that was only partially offset by the \$19.0 million increase in property operating expenses.

Trends

During 2012, rental demand for apartments continued to be strong, as it was in 2011. This was evident through same store physical occupancy that was consistent with 2011, at nearly 96% on average for both years, combined with steady price increases on both new leases and renewals signed throughout the year. We have maintained this momentum with job formation, one of the primary drivers of apartment demand, continuing to increase at a below average pace.

An important part of our portfolio strategy is to maintain a broad diversity of markets across the Sunbelt region of the United States. The diversity of markets tends to mitigate exposure to economic issues in any one geographic market or area. We believe that a well diversified portfolio, including both large and select secondary markets, will perform well in “up” cycles as well as weather “down” cycles better. During 2012, we added an asset in the Kansas City, Missouri market to our portfolio and exited the Cincinnati, Ohio market. As of December 31, 2012, we were invested in approximately 50 markets, with 59% of our gross assets in large markets and 41% of our gross assets in select secondary markets.

We also continued to benefit in 2012 on the supply side. New supply of rental units entering the market was low, running below historical new supply delivery averages. Multifamily permitting did pick up in 2012 but remained below peak levels. We believe that this permitting will ultimately lead to an increase in supply. Competition from condominiums reverting back to rental units, or new condominiums being converted to rental, was not a major factor in our portfolio because most of our submarkets have not been primary areas for condominium development. We have found the same to be true for rental competition from single family homes. We have avoided committing a significant amount of capital to markets where most of the excessive inflation in house prices has occurred. We saw significant rental competition from condominiums or single family houses in only a few of our submarkets.

Our focus throughout 2012 was increasing pricing where possible through our revenue management system, while maintaining strong physical occupancy. Through these efforts, same store effective monthly rent per unit for the year was higher than 2011 by 5%. With strong occupancy in place heading into the typically slower winter leasing season, we were able to maintain pricing momentum in the fourth quarter of 2012 and expect seasonality to have less of an impact on pricing in the first quarter of 2013.

Overall same store revenues increased 4.7% for the year ended December 31, 2012 as compared to the year ended December 31, 2011. As expected, more robust revenue growth occurred in 2012 as rents continued the upward trend that began in the latter part of 2010. Although new multifamily development is occurring, the permitting data so far suggests that levels will remain below pre-recession deliveries, although there can be no assurance in this regard. Also, we believe that more sustainable credit terms for residential mortgages, as evidenced by the recently announced "Qualified Mortgage Rule", should work to favor rental demand at existing multi-family properties. Long term, we expect demographic trends (including the growth of prime age groups for rentals and immigration and population movement to the southeast and southwest) will continue to build apartment rental demand for our markets.

Should the economy fall back into a recession, more disciplined mortgage financing for single family home buying should lessen the impact to the multifamily sector to some degree, but a weak economy and employment market would nevertheless limit rent growth prospects.

We continue to develop improved products, operating systems and procedures that enable us to capture more revenues. The continued benefit of ancillary services (such as our cable saver and deposit saver programs), improved collections and utility reimbursements enable us to capture increased revenue dollars. We also actively work on improving processes and products to reduce expenses, such as new web-sites and internet access for our residents that enable them to transact their business with us more simply and effectively.

Liquidity and Capital Resources

Net cash flow provided by operating activities increased to \$211.0 million for the year ended December 31, 2012 from \$172.3 million for the year ended December 31, 2011. This change was a result of various items, including higher revenue as discussed above.

Net cash used in investing activities was approximately \$329.2 million during the year ended December 31, 2012 compared to \$442.2 million during the year ended December 31, 2011 due to the following discussion. In the year ended December 31, 2012, we had acquisition cash outflows of \$312.0 million compared to \$362.7 million for the year ended December 31, 2011. During 2012, we had cash outflows of \$74.0 million for development activities, compared to \$38.2 million for the year ended December 31, 2011. During 2012, we also had cash outflows of \$14.4 million for improvements to existing real estate assets compared to \$12.7 million for the year ended December 31, 2011. The decrease in cash outflows from investing activities was offset by an increase in cash inflows from disposition activity. During the year ended December 31, 2012, we had cash inflows of approximately \$110.1 million, related to the sale of nine properties. In the year ended December 31, 2011, we had cash inflows of \$23.7 million, related to the sale of two properties from our same store portfolio.

As of December 31, 2012, we owned 39,721,461 common units, comprising a 95.82% general partnership interest in the Operating Partnership, while the remaining 1,731,672 outstanding common units were held by limited partners of the Operating Partnership. Holders of common units (other than us and our affiliates) may require us to redeem their common units from time to time, in which case we may, at our option, pay the redemption price either in cash (in an amount per common unit equal, in general, to the average closing price of our common stock on the New York Stock Exchange over a specified period prior to the redemption date) or by delivering one share of our common stock

(subject to adjustment under specified circumstances) for each common unit so redeemed. In addition, we have registered the 1,731,672 shares of our common stock, which as of December 31, 2012, were issuable upon redemption of common units held by the Operating Partnership's limited partners under the Securities Act of 1933, as amended, so that those shares can be sold freely in the public markets. To the extent that additional common units are issued to limited partners of the Operating Partnership, we will likely register the additional shares of common stock issuable upon redemption of those common units under the Securities Act of 1933, as amended, so that those shares can also be sold in the public markets. If we issue shares of our common stock upon the redemption of common units in our Operating Partnership, sales of substantial amounts of such shares of our common stock, or the perception that these sales could occur, may adversely affect prevailing market prices for our common stock or may impair our ability to raise capital through the sale of our common stock or other equity securities.

Net cash provided by financing activities was approximately \$70.0 million for the year ended December 31, 2012 compared to \$281.2 million for the year ended December 31, 2011. In the year ended December 31, 2012, we had cash inflows of \$325.0 million from proceeds of notes payable compared to \$285.4 million for the year ended December 31, 2011. In the year ended December 31, 2012, we received proceeds of approximately \$196.3 million primarily from the issuance of common stock through our at-the-market program, or ATM, a waiver through our Dividend and Distribution Reinvestment and Share Purchase Plan, or DRSP, and stock issued through a private offering. During the year ended December 31, 2011, we received proceeds of approximately \$235.7 million primarily through these same programs. In the year ended December 31, 2012, we had cash outflows of \$320.1 million from the net change in credit lines compared to \$121.5 million for the year ended December 31, 2011.

On March 2, 2012, we closed on an underwritten public offering of 1,955,000 shares of common stock. UBS Investment Bank and Jeffries & Company, Inc. acted as joint bookrunning managers. This transaction resulted in net proceeds of \$120.1 million. No such issuances occurred during 2011 or 2010.

During 2012, we sold 1,155,511 shares of common stock for net proceeds of approximately \$75.9 million through our ATM. This compares to 3,303,273 shares of common stock for net proceeds of approximately \$204.5 million for 2011. As of December 31, 2012, there were 578,015 shares outstanding under our ATM.

During 2012, we issued 729 shares for net proceeds of \$48,000 through the direct stock purchase feature of our DRSP; however, no discount was offered. During 2011, we issued 495,645 shares at an average discount of 2% for net proceeds of \$30.0 million through our DRSP. During 2010, we issued 551,895 shares at an average discount of 2% through our DRSP for net proceeds of \$30.0 million.

On June 2, 2010, we redeemed 3,100,001 shares of the 6,200,000 shares of our Series H preferred stock for approximately \$77.5 million. On August 5, 2010 we redeemed all of the remaining and outstanding shares of Series H for approximately \$77.5 million, resulting in a combined write-off for the year ended December 31, 2010 of approximately \$5.1 million on the consolidated statements of operations related to premiums and original issuance costs. There was no redemption of preferred stock during 2011 or 2012.

The weighted average interest rate at December 31, 2012 for the \$1.7 billion of debt outstanding was 3.8%, compared to the weighted average interest rate of 3.7% on \$1.6 billion of debt outstanding at December 31, 2011. We utilize both conventional and tax exempt debt to help finance our activities. Borrowings are made through individual property mortgages as well as company-wide secured and unsecured credit facilities. We utilize fixed rate borrowings, interest rate swaps and interest rate caps to manage our current and future interest rate risk. More details on our borrowings can be found in the schedules presented later in this section.

At December 31, 2012, we had secured credit facility relationships with Prudential Mortgage Capital which are credit enhanced by the FNMA, Financial Federal which are credit enhanced by the Federal Home Loan Mortgage Corporation, or Freddie Mac, and a \$325 million bank unsecured facility with a syndicate of banks. Together, these credit facilities provided a total line capacity of \$1.4 billion with all but \$282.3 million collateralized and available to borrow at December 31, 2012. We had total borrowings outstanding under these credit facilities of \$826.3 million at December 31, 2012.

Approximately 36% of our outstanding obligations at December 31, 2012 were borrowed through credit facilities with/or credit enhanced by FNMA, also referred to as the FNMA Facilities. The FNMA Facilities have a combined line limit of \$884.2 million, of which \$605.0 million was collateralized and available to borrow at December 31, 2012. We had total borrowings outstanding under the FNMA Facilities of approximately \$605.0 million at December 31, 2012. Various FNMA rate tranches of the FNMA Facilities mature from 2013 through 2018. The FNMA Facilities provide for both fixed and variable rate borrowings. The interest rate on the majority of the variable portion is based

on the FNMA Discount Mortgage Backed Security, or DMBS, rate which are credit-enhanced by FNMA and are typically sold every 90 days by Prudential Mortgage Capital at interest rates approximating three-month LIBOR less a spread that has averaged 0.17% over the life of the FNMA Facilities, plus a credit enhancement fee of 0.49% to 0.67%. We have seen more volatility in the spread between the DMBS and three-month LIBOR since late 2007 than was historically prevalent.

Approximately 12% of our outstanding obligations at December 31, 2012 were borrowed through a credit facility with/or credit enhanced by Freddie Mac, also referred to as the Freddie Mac Facility. The Freddie Mac Facility has a combined line limit of \$200.0 million, of which \$198.2 million was collateralized and available to borrow at December 31, 2012. We had total borrowings outstanding under the Freddie Mac Facility of approximately \$198.2 million at December 31, 2012. The Freddie Mac facility matures in 2014. The interest rate on the Freddie Mac Facility renews every 30 or 90 days and is based on the Freddie Mac Reference Bill Rate on the date of renewal, which has historically approximated the equivalent 30 or 90-day

LIBOR, plus a credit enhancement fee of 0.65%. The Freddie Mac Reference Bill rate has traded consistently below LIBOR, and the historical average spread was 0.31% below LIBOR at December 31, 2012.

We also maintain a \$325.0 million unsecured credit facility with nine banks led by KeyBank National Association (Key Bank). The Key Bank Credit Line bears an interest rate of LIBOR plus a spread of 1.05% to 1.85% based on an investment grade pricing grid. This credit line expires in November 2015 with a one year extension option. At December 31, 2012, we had \$323.6 million available to be borrowed under the Key Bank Credit Line agreement with \$23.0 million borrowed under this facility. Approximately \$1.4 million of the facility is used to support letters of credit.

Each of our credit facilities is subject to various covenants and conditions on usage, and the secured facilities are subject to periodic re-evaluation of collateral. If we were to fail to satisfy a condition to borrowing, the available credit under one or more of the facilities could not be drawn, which could adversely affect our liquidity. In the event of a reduction in real estate values the amount of available credit could be reduced. Moreover, if we were to fail to make a payment or violate a covenant under a credit facility, after applicable cure periods, one or more of our lenders could declare a default, accelerate the due date for repayment of all amounts outstanding and/or foreclose on properties securing such facilities. A default on an obligation to repay outstanding debt could also create a cross default on a separate piece of debt, whereby one or more of our lenders could accelerate the due date for repayment of all amounts outstanding and/or foreclose on properties securing the related facilities. Any such event could have a material adverse effect.

On July 29, 2011, we issued \$135 million of Senior Unsecured Notes. The notes were offered in a private placement with three maturity tranches: \$50.00 million at 4.7% maturing on July 29, 2018, \$72.75 million at 5.4% maturing on July 29, 2021, and \$12.25 million at 5.6% maturing on July 29, 2023, all of which is outstanding at December 31, 2012.

On August 31, 2012, we issued \$175 million of Senior Unsecured Notes. The notes were offered in a private placement with four tranches: \$18.00 million at 3.15% maturing on November 30, 2017; \$20.00 million at 3.61% maturing on November 30, 2019; \$117.00 million at 4.17% maturing on November 30, 2022; and \$20.00 million at 4.33% maturing on November 30, 2024, all of which is outstanding at December 31, 2012.

On March 1, 2012, we entered into a \$150 million unsecured term loan agreement with a syndicate of banks led by Key Bank and J.P. Morgan at a rate of LIBOR plus a spread of 1.40% to 2.15% based on a leveraged based pricing grid and a maturity date of March 1, 2017. We had borrowings of \$150 million outstanding under this agreement at December 31, 2012. In July 2012, we received an investment grade rating (Baa2) from Moody's pricing service, which reduced the variable rate to LIBOR plus a spread of 1.10% to 2.05% based on an investment grade ratings grid.

The following schedule details the line limits, collateralized availability and the outstanding balances of our various borrowings as of December 31, 2012 (dollars in thousands):

	Line Limit	Amount Collateralized	Amount Borrowed	Average Years to Contract Maturity
Fannie Mae Credit Facilities	\$884,212	\$605,019	\$605,019	5.7
Freddie Mac Credit Facilities	200,000	198,247	198,247	1.5
Other Secured Borrowings	387,582	387,582	387,582	6.5
Unsecured Credit Facility	325,000	323,637	23,000	2.8

Edgar Filing: MID AMERICA APARTMENT COMMUNITIES INC - Form 10-K

Other Unsecured Borrowings	460,000	460,000	460,000	7.1
Total Debt	\$2,256,794	\$1,974,485	\$1,673,848	5.7

As of December 31, 2012, we had entered into interest rate swaps totaling a notional amount of \$559.0 million. To date, these swaps have proven to be highly effective hedges. We had also entered into interest rate cap agreements totaling a notional amount of approximately \$288.5 million as of December 31, 2012.

The following schedule outlines our variable versus fixed rate debt, including the impact of interest rate swaps and caps, outstanding as of December 31, 2012 (dollars in thousands):

	Principal Balance	Average Years to Rate Maturity	Effective Rate	
SECURED DEBT				
Conventional - Fixed Rate or Swapped	\$831,382	3.8	5.0	%
Conventional - Variable Rate - Capped (1)	213,136	3.1	1.0	%
Tax-free - Variable Rate - Capped (1)	90,515	3.2	0.9	%
Total Fixed or Hedged Rate Maturity	\$1,135,033	3.6	4.0	%
Conventional - Variable Rate (2)	55,815	0.2	0.7	%
Total Secured Rate Maturity	\$1,190,848	3.4	3.8	%
UNSECURED DEBT				
Fixed Rate or Swapped	\$460,000	7.1	3.8	%
Variable Rate	23,000	—	1.5	%
Total Unsecured Rate Maturity	\$483,000	6.8	3.7	%
TOTAL DEBT RATE MATURITY	\$1,673,848	4.4	3.8	%
TOTAL FIXED OR HEDGED DEBT RATE MATURITY	\$1,595,033	4.6	3.9	%

(1) The effective rate represents the average rate on the underlying variable debt unless the cap rates are reached, which average 4.6% of LIBOR for conventional caps and 5.6% of SIFMA for tax-free caps.

(2) Includes a \$15 million mortgage with an imbedded cap at a 7% all-in interest rate.

The following schedule outlines the contractual maturity dates of our outstanding debt as of December 31, 2012 (in thousands):

	Line Limit Credit Facilities					Total
	Fannie Mae Secured	Freddie Mac Secured	Key Bank Unsecured	Other Secured	Other Unsecured	
2013	\$203,193	\$—	\$—	\$—	\$—	\$203,193
2014	229,721	200,000	—	16,312	—	446,033
2015	120,000	—	325,000	50,777	—	495,777
2016	80,000	—	—	—	—	80,000
2017	80,000	—	—	60,855	168,000	308,855
Thereafter	171,298	—	—	259,638	292,000	722,936
Total	\$884,212	\$200,000	\$325,000	\$387,582	\$460,000	\$2,256,794

The following schedule outlines the interest rate maturities of our outstanding debt as of December 31, 2012 (dollars in thousands):

	Fixed Rate Debt	Interest Rate Swaps	Total Fixed Rate Balances	Contract Rate	Interest Rate Caps	Total Fixed or Hedged
2013	\$—	\$190,000	\$190,000	5.2	% \$7,945	\$197,945
2014	16,312	144,000	160,312	5.7	% 59,631	219,943

We believe that we have adequate resources to fund our current operations, annual refurbishment of our properties, and incremental investment in new apartment properties. We rely on the efficient operation of the financial markets to refinance debt maturities, and on rate renewals for FNMA and Freddie Mac, or the Agencies. The Agencies provided credit enhancement for approximately \$803.3 million of our outstanding debt through credit facilities as of December 31, 2012.

The interest rate markets for FNMA DMBS and Freddie Mac Reference Bills, which in our experience are highly liquid and highly correlated with three-month LIBOR interest rates, are also an important component of our liquidity and interest rate swap effectiveness. Prudential Mortgage Capital, a Delegated Underwriting and Servicing (DUS) lender for Fannie Mae, markets 90-day Fannie Mae Discount Mortgage Backed Securities monthly, and is obligated to advance funds to us at DMBS rates plus a credit spread under the terms of the credit agreements between Prudential and us. Financial Federal, a Freddie Mac Program Plus Lender and Servicer, is obligated to advance funds under the terms of credit agreements between Financial Federal and us.

For the year ended December 31, 2012, our net cash provided by operating activities was in excess of covering funding of normal capital improvements to existing real estate assets, distributions to unitholders, and dividends paid on common and preferred shares by approximately \$51.0 million, as compared to \$28.1 million and \$16.8 million for the same periods in 2011 and 2010, respectively. While we had sufficient liquidity to permit distributions at current rates through additional borrowings, if necessary, any significant deterioration in operations could result in our financial resources being insufficient to pay distributions to shareholders at the current rate, in which event we would be required to reduce the distribution rate.

The following table reflects our total contractual cash obligations which consist of our long-term debt, development fees and operating leases as of December 31, 2012 (dollars in thousands):

Contractual Obligations (1)	2013	2014	2015	2016	2017	Thereafter	Total
Long-Term Debt (2)	\$6,703	\$374,281	\$198,429	\$88,091	\$162,444	\$843,900	\$1,673,848
Fixed Rate or Swapped Interest (3)	48,882	39,592	33,431	30,824	25,612	75,161	253,502
Purchase Obligations (4)	4,099	1,386	—	—	—	—	5,485
Operating Lease	9	10	7	6	6	—	38
Total	\$59,693	\$415,269	\$231,867	\$118,921	\$188,062	\$919,061	\$1,932,873

(1) Fixed rate and swapped interest are shown in this table. The average interest rates of variable rate debt are shown in preceding tables.

(2) Represents principal payments.

(3) Swapped interest is subject to the ineffective portion of cash flow hedges as described in Item 8. Financial Statements and Supplementary Data – Notes to Consolidated Financial Statements, Note 6.

(4) Represents development fees

41

Off-Balance Sheet Arrangements

At December 31, 2012, and 2011, we did not have any relationships with unconsolidated entities or financial partnerships established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. Mid-America Multifamily Fund I, LLC, was established to acquire \$500 million of apartment communities with redevelopment upside offering value creation opportunity through capital improvements, operating enhancements and restructuring in-place financing. As of December 31, 2012, Mid-America Multifamily Fund I, LLC owned two properties but does not expect to acquire any additional communities. Mid-America Multifamily Fund II, LLC, was established to acquire \$250 million of apartment communities with redevelopment upside offering value creation opportunity through capital improvements, operating enhancements and restructuring in-place financing. As of December 31, 2012, Mid-America Multifamily Fund II, LLC owned four properties. In addition, we do not engage in trading activities involving non-exchange traded contracts. As such, we are not materially exposed to any financing, liquidity, market, or credit risk that could arise if we had engaged in such relationships. We do not have any relationships or transactions with persons or entities that derive benefits from their non-independent relationships with us or our related parties other than those disclosed in Item 8. Financial Statements and Supplementary Data – Notes to Consolidated Financial Statements, Note 12.

Our investments in our real estate joint ventures are unconsolidated and are recorded using the equity method as we do not have a controlling interest.

Insurance

We renegotiated our insurance programs effective July 1, 2012. We believe that the property and casualty insurance program in place provides appropriate insurance coverage for financial protection against insurable risks such that any insurable loss experienced that can be reasonably anticipated would not have a significant impact on our liquidity, financial position or results of operation.

Inflation

Our resident leases at the apartment communities allow, at the time of renewal, for adjustments in the rent payable there under, and thus may enable us to seek rent increases. Almost all leases are for one year or less. The short-term nature of these leases generally serves to reduce our risk to adverse effects of inflation.

Impact of Recently Issued Accounting Standards

In February 2013, the FASB issued Accounting Standards Update (ASU) No. 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. Under ASU 2013-02, an entity is required to provide information about the amounts reclassified out of Accumulated other comprehensive income (AOCI) by component. In addition, an entity is required to present, either on the face of the financial statements or in the notes, significant amounts reclassified out of AOCI by the respective line items of net income, but only if the amount reclassified is required to be reclassified in its entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional details about those amounts. ASU 2013-02 does not change the current requirements for reporting net income or other comprehensive income in the financial statements. ASU 2013-02 is effective for interim and annual periods beginning after December 15, 2012 and early adoption is permitted. We have early adopted ASU 2013-02 for the annual period ended December 31, 2012. The adoption of ASU 2013-02 has not had a material impact on our consolidated financial condition or results of operations taken as a whole.

In June 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. This ASU allows an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of equity. The amendments do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. ASU 2011-05 is applied retrospectively. The amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, but allows for early adoption. We adopted ASU 2011-05 for the

Annual Report for fiscal year 2011, and this changed the presentation of our financial statements but not our consolidated financial condition or results of operations taken as a whole.

In November 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-12, Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05. This ASU supersedes certain paragraphs in ASU 2011-05 addressing reclassification adjustments out of accumulated other comprehensive income. The effective dates and expected changes to our presentation are the same as noted in ASU 2011-05 above.

In May 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. The amendments change the wording, mainly for clarification, used to describe many of the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. For many of the requirements, the Board does not intend for the amendments in this update to result in a change in the application of the requirements in Topic 820. The amendments in this ASU are to be applied prospectively. The amendments are effective during interim and annual periods beginning after December 15, 2011. We have adopted ASU 2011-04 in the interim and annual periods of fiscal year 2012. The adoption of ASU 2011-04 has not had a material impact on our consolidated financial condition or results of operations taken as a whole.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our primary market risk exposure is to changes in interest rates on our borrowings. At December 31, 2012, 37% of our total capitalization consisted of borrowings. Our interest rate risk objective is to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve this objective, we manage our exposure to fluctuations in market interest rates for borrowings through the use of fixed rate debt instruments and interest rate swaps and caps, which mitigate our interest rate risk on a related financial instrument and effectively fix or cap the interest rate on a portion of our variable debt or on future refinancings. We use our best efforts to ladder fixed rate maturities thereby limiting our exposure to interest rate changes in any one year. We do not enter into derivative instruments for trading or other speculative purposes. Approximately 95% of our outstanding debt was subject to fixed or capped rates after considering related derivative instruments at December 31, 2012. We regularly review interest rate exposure on outstanding borrowings in an effort to minimize the risk of interest rate fluctuations.

The table below provides information about our financial instruments that are sensitive to changes in interest rates. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For our interest rate swaps and caps, the table presents the notional amount of the swaps and caps and the years in which they expire. Weighted average variable rates are based on rates in effect at the reporting date (dollars in 000's).

	2013	2014	2015	2016	2017	Total Thereafter	Total	Fair Value

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The Reports of Independent Registered Public Accounting Firm, Consolidated Financial Statements and Selected Quarterly Financial Information are set forth on pages F-1 to F-44 of this Annual Report on Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

MANAGEMENT'S EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Our management, with the participation of our principal executive and financial officers, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, including ensuring that such information is accumulated and communicated to our management as appropriate to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of December 31, 2012 (the end of the period covered by this Annual Report on Form 10-K).

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management's report on our internal control over financial reporting is presented on page F-1 of this Annual Report on Form 10-K. The reports of Ernst & Young LLP relating to the consolidated financial statements and schedule and the effectiveness of internal control over financial reporting are presented on pages F-2 to F-3 of this Annual Report on Form 10-K.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

During the quarter ended December 31, 2012, there were no changes in our internal control over financial reporting that materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION.

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

The information contained in our 2013 Proxy Statement in the sections entitled “Information About The Board of Directors and Its Committees”, “Proposal 1 - Election of Directors”, “Executive Officers” and “Section 16(a) Beneficial Ownership Reporting Compliance,” is incorporated herein by reference in response to this item.

Our Board of Directors has adopted a Code of Business Conduct and Ethics applicable to all officers, directors and employees, which can be found on our website at <http://www.maac.com>, on the For Investors page under Governance Documents. We will provide a copy of this document to any person, without charge, upon request, by writing to the Investor Relations Department at MAA, 6584 Poplar Avenue, Memphis, TN 38138. We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding an amendment to, or waiver from, a provision of the Code of Business Conduct and Ethics by posting such information on our website at the address and the locations specified above.

ITEM 11. EXECUTIVE COMPENSATION.

The information contained in our 2013 Proxy Statement in the section entitled “Executive Compensation”, “Compensation Committee Interlocks and Insider Participation” and “Compensation Discussion and Analysis” is incorporated herein by reference in response to this item.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The information contained in our 2013 Proxy Statement in the sections entitled “Security Ownership of Management” and “Security Ownership of Certain Beneficial Owners,” is incorporated herein by reference in response to this item.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

The information contained in our 2013 Proxy Statement in the sections entitled “Certain Relationships and Related Transactions” and “Information About The Board of Directors and Its Committees” is incorporated herein by reference in response to this item.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The information contained in our 2013 Proxy Statement in the section entitled “Proposal 5 - Ratification of Independent Registered Public Accounting Firm,” is incorporated herein by reference in response to this item.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a) The following documents are filed as part of this Annual Report on Form 10-K:

Exhibit

Exhibit Number	Exhibit Description
3.1	Amended and Restated Charter of Mid-America Apartment Communities, Inc. dated as of January 10, 1994, as filed with the Tennessee Secretary of State on January 25, 1994 (Filed as Exhibit 3.1 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 1997 and incorporated herein by reference).
3.2	Articles of Amendment to the Charter of Mid-America Apartment Communities, Inc. dated as of January 28, 1994, as filed with the Tennessee Secretary of State on January 28, 1994 (Filed as Exhibit 3.2 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 1996 and incorporated herein by reference).
3.3	Mid-America Apartment Communities, Inc. Articles of Amendment to the Amended and Restated Charter Designating and Fixing the Rights and Preferences of a Series of Preferred Stock dated as of October 9, 1996, as filed with the Tennessee Secretary of State on October 10, 1996 (Filed as Exhibit 1 to the Registrant's Registration Statement on Form 8-A filed with the Commission on October 11, 1996 and incorporated herein by reference).
3.4	Mid-America Apartment Communities, Inc. Articles of Amendment to the Amended and Restated Charter dated November 17, 1997, as filed with the Tennessee Secretary of State on November 18, 1997 (Filed as Exhibit 3.6 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 1997 and incorporated herein by reference).

- 3.5 Mid-America Apartment Communities, Inc. Articles of Amendment to the Amended and Restated Charter Designating and Fixing the Rights and Preferences of a Series of Shares of Preferred Stock dated as of November 17, 1997, as filed with the Tennessee Secretary of State on November 18, 1997 (Filed as Exhibit 4.1 to the Registrant's Registration Statement on Form 8-A/A filed with the Commission on November 19, 1997 and incorporated herein by reference).
- 3.6 Mid-America Apartment Communities, Inc. Articles of Amendment to the Amended and Restated Charter Designating and Fixing the Rights and Preferences of a Series of Shares of Preferred Stock dated as of June 25, 1998, as filed with the Tennessee Secretary of State on June 30, 1998 (Filed as Exhibit 4.3 to the Registrant's Registration Statement on Form 8-A/A filed with the Commission on June 26, 1998 and incorporated herein by reference).
- 3.7 Mid-America Apartment Communities, Inc. Articles of Amendment to the Amended and Restated Charter Designating and Fixing the Rights and Preferences of a Series of Shares of Preferred Stock dated as of December 24, 1998, as filed with the Tennessee Secretary of State on December 30, 1998 (Filed as Exhibit 3.7 to the Registrant's Registration Statement on Form S-3/A (File Number 333-112469) and incorporated herein by reference).
- 3.8 Mid-America Apartment Communities, Inc. Articles of Amendment to the Amended and Restated Charter Designating and Fixing the Rights and Preferences of a Series of Shares of Preferred Stock dated as of October 11, 2002, as filed with the Tennessee Secretary of State on October 14, 2002 (Filed as Exhibit 4.3 to the Registrant's Registration Statement on Form 8-A/A filed with the Commission on October 11, 2002 and incorporated herein by reference).
- 3.9 Mid-America Apartment Communities, Inc. Articles of Amendment to the Amended and Restated Charter Designating and Fixing the Rights and Preferences of a Series of Shares of Preferred Stock dated as of October 28, 2002, as filed with the Tennessee Secretary of State on October 28, 2002 (Filed as Exhibit 3.9 to the Registrant's Registration Statement on Form S-3/A (File Number 333-112469) and incorporated herein by reference).
- 3.10 Mid-America Apartment Communities, Inc. Articles of Amendment to the Amended and Restated Charter Designating and Fixing the Rights and Preferences of a Series of Shares of Preferred Stock dated as of August 7, 2003, as filed with the Tennessee Secretary of State on August 7, 2003 (Filed as Exhibit 3.10 to the Registrant's Registration Statement on Form S-3/A (File Number 333-112469) and incorporated herein by reference).
- 3.11 Articles of Amendment to the Charter of Mid-America Apartment Communities, Inc. dated as of May 20, 2008, as filed with the Tennessee Secretary of State on June 2, 2008 (Filed as Exhibit 99.A to the Registrant's Proxy Statement filed on March 31, 2008 and incorporated herein by reference).
- 3.12 Amended and Restated Bylaws of Mid-America Apartment Communities, Inc. (Filed as an Exhibit 3.2 to the Registrant's Current Report on Form 8-K filed on May 21, 2008 and incorporated herein by reference).
- 3.13 Articles of Amendment to the Charter of Mid-America Apartment Communities, Inc. dated as of May 24, 2012, as filed with the Tennessee Secretary of State on May 25, 2012 (Filed as Exhibit 3.1 to the Current Report on Form 8-K filed on May 25, 2012 and incorporated herein by reference).
- 4.1 Form of Common Share Certificate (Filed as Exhibit 4.1 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 1997 and incorporated herein by reference).
- 4.2 Form of 9.5% Series A Cumulative Preferred Stock Certificate (Filed as Exhibit 2 to the Registrant's Registration Statement on Form 8-A filed with the Commission on October 11, 1996 and incorporated herein by reference).
- 4.3 Form of 8 7/8% Series B Cumulative Preferred Stock Certificate (Filed as Exhibit 4.3 to the Registrant's Registration Statement on Form 8-A/A filed with the Commission on November 19, 1997 and incorporated herein by reference).

- 4.4 Form of 9 3/8% Series C Cumulative Preferred Stock Certificate (Filed as Exhibit 4.2 to the Registrant's Registration Statement on Form 8-A/A filed with the Commission on June 26, 1998 and incorporated herein by reference).
- 4.5 Form of 9.5% Series E Cumulative Preferred Stock Certificate (Filed as Exhibit 4.5 to the Registrant's Registration Statement on Form S-3/A (File Number 333-112469) and incorporated herein by reference).
- 4.6 Form of 9 1/4% Series F Cumulative Preferred Stock Certificate (Filed as Exhibit 4.2 to the Registrant's Registration Statement on Form 8-A/A filed with the Commission on October 11, 2002 and incorporated herein by reference).
- 4.7 Form of 8.30% Series G Cumulative Preferred Stock Certificate (Filed as Exhibit 4.7 to the Registrant's Registration Statement on Form S-3/A (File Number 333-112469) and incorporated herein by reference).
- 4.8 Form of 8.30% Series H Cumulative Preferred Stock Certificate (Filed as Exhibit 4.8 to the Registrant's Registration Statement on Form S-3/A (File Number 333-112469) and incorporated herein by reference).
- 10.1 Second Amended and Restated Agreement of Limited Partnership of Mid-America Apartments, L.P., a Tennessee limited partnership (Filed as Exhibit 10.1 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 2001 and incorporated herein by reference).
- 10.2 † Employment Agreement between the Registrant and H. Eric Bolton, Jr. dated December 5, 2008 (Filed as Exhibit 10.1 to the Registrant's Current Report on Form 8-K filed on December 8, 2008 and incorporated herein by reference).
- 10.3 † Fourth Amended and Restated 1994 Restricted Stock and Stock Option Plan (Filed as Exhibit A to the Registrant's Proxy Statement filed on April 24, 2002 and incorporated herein by reference).
- 10.4 Third Amended and Restated Master Credit Facility Agreement (MAA II) among Mid-America Apartment Communities, Inc., Mid-America Apartments, LP and Prudential Multifamily Mortgage Inc. dated January 4, 2010 (Filed as Exhibit 10.1 to the Registrant's Quarterly Report on Form 10-Q for the period ended March 31, 2010 and incorporated herein by reference).
- 10.5 Third Amended and Restated Master Credit Facility Agreement by and among Prudential Multifamily Mortgage, Inc., Mid-America Apartment Communities, Inc., Mid-America Apartments, L.P. and Mid-America Apartments of Texas, L.P., dated March 30, 2004 (Filed as Exhibit 10.20 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 and incorporated herein by reference).
- 10.6 First Amendment to Third Amended and Restated Master Credit Facility Agreement by and among Prudential Multifamily Mortgage, Inc., Mid-America Apartment Communities, Inc., Mid-America Apartments, L.P. and Mid-America Apartments of Texas, L.P. dated March 31, 2004 (Filed as Exhibit 10.21 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 and incorporated herein by reference).
- 10.7 Second Amendment to the Third Amended and Restated Master Credit Facility Agreement by and among Prudential Multifamily Mortgage, Inc., Mid-America Apartment Communities, Inc., Mid-America Apartments, L.P. and Mid-America Apartments of Texas, L.P. dated as of August 3, 2004 (Filed as Exhibit 10.21 to the Registrant's Annual Report on Form 10-K/A for the fiscal year ended December 31, 2004 and incorporated herein by reference).

- 10.08 Third Amendment to the Third Amended and Restated Master Credit Facility Agreement by and among Prudential Multifamily Mortgage, Inc., Mid-America Apartment Communities, Inc., Mid-America Apartments, L.P. and Mid-America Apartments of Texas, L.P. dated as of December 1, 2004 (Filed as Exhibit 10.22 to the Registrant's Annual Report on Form 10-K/A for the fiscal year ended December 31, 2004 and incorporated herein by reference).
- 10.09 Fourth Amendment to Third Amended and Restated Master Credit Facility Agreement by and among Prudential Multifamily Mortgage, Inc., Mid-America Apartment Communities, Inc., Mid-America Apartments, L.P. and Mid-America Apartments of Texas, L.P. dated March 31, 2005 (Filed as Exhibit 10.24 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 and incorporated herein by reference).
- 10.10 Fifth Amendment to Third Amended and Restated Master Credit Facility Agreement by and among Prudential Multifamily Mortgage, Inc., Mid-America Apartment Communities, Inc., Mid-America Apartments, L.P. and Mid-America Apartments of Texas, L.P. dated September 23, 2005 (Filed as Exhibit 10.25 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 and incorporated herein by reference).
- 10.11 Sixth Amendment to Third Amended and Restated Master Credit Facility Agreement by and among Prudential Multifamily Mortgage, Inc., Mid-America Apartment Communities, Inc., Mid-America Apartments, L.P. and Mid-America Apartments of Texas, L.P. dated February 22, 2006 (Filed as Exhibit 10.26 to the Registrant's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 and incorporated herein by reference).
- 10.12 Ninth Amendment to Third Amended and Restated Master Credit Facility Agreement by and among Prudential Multifamily Mortgage, Inc., Mid-America Apartment Communities, Inc., Mid-America Apartments, L.P. and Mid-America Apartments of Texas, L.P., dated December 28, 2006 (Filed as Exhibit 10.4 to the Registrant's Quarterly Report on Form 10-Q for the quarter ended March 31, 2008 and incorporated herein by reference).

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of MAA is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined under Rule 13a-15(f) promulgated under the Securities Exchange Act of 1934, as amended.

Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of MAA's consolidated financial statements for external purposes in accordance with generally accepted accounting principles.

Internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of MAA; (ii) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of the consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of MAA are being made only in accordance with appropriate authorizations of management and directors of MAA; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of MAA's assets that could have a material effect on the consolidated financial statements.

Due to its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management conducted an assessment of MAA's internal control over financial reporting as of December 31, 2012 using the framework specified in Internal Control - Integrated Framework, published by the Committee of Sponsoring Organizations of the Treadway Commission. Based on such assessment, management has concluded that MAA's internal control over financial reporting was effective as of December 31, 2012.

The effectiveness of MAA's internal control over financial reporting as of December 31, 2012, has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report which is presented herein.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of
Mid-America Apartment Communities, Inc.

We have audited the accompanying consolidated balance sheets of Mid-America Apartment Communities, Inc. as of December 31, 2012 and 2011, and the related consolidated statements of operations, comprehensive income, equity, and cash flows for each of the three years in the period ended December 31, 2012. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These consolidated financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Mid-America Apartment Communities, Inc. at December 31, 2012 and 2011, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2012, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Mid-America Apartment Communities, Inc.'s internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 22, 2013 expressed an unqualified opinion thereon.

Memphis, Tennessee
February 22, 2013

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of
Mid-America Apartment Communities, Inc.

We have audited Mid-America Apartment Communities, Inc.'s internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Mid-America Apartment Communities, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Mid-America Apartment Communities, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Mid-America Apartment Communities, Inc. as of December 31, 2012 and 2011, and the related consolidated statements of operations, comprehensive income, equity, and cash flows for each of the three years in the period ended December 31, 2012, of Mid-America Apartment Communities, Inc. and our report dated February 22, 2013, expressed an unqualified opinion thereon.
