Notes to Unaudited Condensed Combined Pro Forma Financial Statements

1) Description of the Acquisition and Basis of Preparation

The Acquisitions

Potomac Mortgage Group, LLC will be operated as a wholly owned subsidiary of MVB Bank. The aggregate purchase price for all of the issued and outstanding Interests (the "Purchase Price") was \$17 million in cash and 83,333 shares of MVB Financial Corp. Common Stock, with the purchase price paid to each Member consisting of either cash and MVB Financial Corp. Common Stock or cash only. MVB Financial Corp. is in the process of issuing approximately 833,000 shares associated with raising \$20 million in common equity, and will use a portion of the proceeds to finance the acquisition. The pro forma financials were prepared assuming that all shares will be sold at \$24 per share.

Additional transaction costs to be incurred in the acquisition are assumed to be \$585,000 for MVB which are paid out as of the merger date and expensed to retained earnings. These costs are associated with legal, accounting, and due diligence fees directly related to the acquisition and are not expected to have a continuing impact on operations and therefore have not been included in the Unaudited Condensed Combined Pro Forma Statement of Operations.

Basis of Presentation

The unaudited pro forma condensed combined financial statements have been prepared based on MVB Financial and Potomac Mortgage Group, LLC's historical financial information. Certain disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted as permitted by SEC rules and regulations.

These unaudited pro forma condensed combined financial statements are not necessarily indicative of the results of operations that would have been achieved had the acquisition actually taken place at the dates indicated and do not purport to be indicative of future financial condition or operating results.

2) Acquisition Method

The pro forma condensed combined financial statements reflect the accounting for the transaction under the acquisition method, where the purchase price is allocated to the assets acquired and liabilities assumed based on their

Edgar Filing: MVB FINANCIAL CORP - Form 8-K

estimated fair values, with any excess of the purchase price over the estimated fair value of the identifiable net assets acquired recorded as goodwill. Goodwill of \$15 million arising from the acquisition consisted largely of synergies and the cost savings resulting from the combining of the operations of the companies and is deductible for tax purposes.

The purchase price allocation for Potomac Mortgage Group, LLC is summarized as follows (in thousands):

Consideration	
Cash	\$17,000
Equity Instruments	2,000
Fair Value of Total Consideration Transferred	\$19,000
Recognized amounts of identifiable assets acquired and liabilities assumed	
Cash and cash equivalents	\$—
Loans held for sale	62,600
Premises and equipment	412
Other assets	3,174
Total assets acquired	\$66,186
Warehouse line of credit	58,649
Other borrowings	—
Liability to seller	1,909
Other liabilities	2,027
Total liabilities assumed	\$62,585
Total identifiable net assets	3,601
Goodwill	15,399
	\$19,000

3) Pro Forma Adjustments and Assumptions

- A. Reflects a capital raise of \$20 million at \$24 per share subsequent to closing. See Note 1.
- B. Reflects the one-time pre-closing dividend of \$5.075 million to PMG members and elimination of PMG's remaining historical net equity of approximately \$3.3 million as a result of the acquisition. Additional consideration transferred to PMG members of \$17 million in cash and \$2 million in common stock with certain restrictions.
- C. Reflects a purchase accounting adjustment associated with PMG's loans held for sale. Loans held for sale are to be reflected at fair value.
- D. Reflects the removal of a deferred rent accrual.
- E. MVB anticipates eliminating the PMG warehouse facilities and financing originations through current unused lines with the FHLB. As noted in the December 31, 2011 financial statements, the remaining maximum borrowing capacity with the FHLB at December 31, 2011 was approximately \$174,439 and the Bank had borrowed \$9,767. At September 30, 2012 the Bank had the maximum borrowing capacity at the FHLB of \$205 million and had borrowed \$15.1 million.
- F. Reflects the tax impact of converting from a pass-through entity as a limited liability corporation to a C-Corp. Marginal tax rate of 36.5% was utilized.
