Nominees' Experience & Credentials » Our Nominees are highly qualified and have relevant experience in overseeing closed - end fund portfolio manager transitions » As Directors of The Korea Fund, Inc. (KF), a NYSE Listed Investment Company, in 2006 Julian Reid (Chairman) and Richard Silver instigated and oversaw the transition from Deutsche Asset Management to the current manager » The KF Board has worked with the current manager to ensure the best individuals are responsible for investment decisions on KF, and has changed portfolio managers multiple times Our Nominees are confident that the selection of a new manager could be achieved in a timely manner 3

The Director Nominees Took These Specific Steps in the KF Manager Transition

1. Determined, based on unsatisfactory performance, that a change of Manager was warranted
2. Engaged a Consultant to help identify, along with the Board's own input, a long list of approximately 20 possible candidates to examine
3. Based on basic data on the list, narrowed the field to 6 viable candidates
4. Had the Consultant conduct thorough reviews of the short - list firms
5. Further narrowed the list to 5 semi - finalists and conducted in - person sessions with key personnel from each firm
6. Narrowed the list to 2 finalists, and conducted further in - person sessions
7. Selected the winner and commenced the transition process

4 • It is rare in the U.S. investment company industry to change Managers, so few Fund Directors have experience with the process. • While this did not happen in the context of a shareholder vote to terminate the existing contract, the process would be similar

Nominees Have a Plan to Find a Qualified Manager » Dependent on the views of the whole CHN Board, the Nominees would request that the Board analyze every available manager who manages an open - ended or closed - ended fund, investing in China that is both suitable and available to US - based retail investors » The analysis would provide quarter - end statistics, and would include (but not be limited to): o Investment Style o Performance & Risk Summary - 3, 6, 12, 36, 60, and 120 months o Gross Returns relative to category by quartile from 2008 to present o Annual Net Returns from 2008 to present o Historic Peer Group Rankings - 3, 6, 12, 36, 60, and 120 months 5 o Major Holdings, with Contribution & Attribution Details o Relative Sector Weightings, Returns, Contributions, Allocation Effect, Selection Effect, & Active Return o Cumulative Attribution o Numerous Detailed Portfolio Valuation Statistics

Nominees Have a Track Record of Representing Shareholders' Best Interests Julian Reid » Background in portfolio management » Considerable savings in legal fees at KF » Developed Board travel and expense guidelines 6 Richard Silver » Worked with regulators on the SEC Yield Rule, which provides fair and consistent advertising of yields by income - oriented funds » Worked with regulators to strengthen rules on 12b - 1 fees » As Treasurer, enacted procedures to protect shareholders As Directors, our Nominees possess expertise and have consistently worked to manage funds for the benefit of shareholders, not the Manager, as shown by the Discount Management Program at KF

IMPORTANT INFORMATION City of London Investment Management Company Limited is authorised and regulated by the Financial Conduct Authority, registered as an investment advisor with the Securities and Exchange Commission and regulated by the Dubai Financial Services Authority. This presentation is for discussion and general informational purposes only. This presentation is not an offer to sell or the solicitation of an offer to buy interests in a fund or investment vehicle managed by City of London Investment Management Company Limited or any other participant in its solicitation (collectively, “COL”) and is being provided to you for informational purposes only. The views expressed herein represent the opinions of COL, and are based on publicly available information with respect to The China Fund, Inc. (the “Fund”). Certain financial information and data used herein have been derived or obtained from public filings, including filings made by the Fund with the Securities and Exchange Commission and other sources. All reasonable care has been taken in the preparation of this information. No responsibility can be accepted under any circumstances for errors of fact or omission. Some of the information in this document may contain projections or other forward looking statements regarding future events or future financial performance of countries, markets or companies. These statements are only predictions and actual events or results may differ materially. Emerging market securities carry special risks, such as less developed or less efficient trading markets, a lack of company information, and differing auditing and legal standards. The securities markets of emerging market countries can be extremely volatile; performance can also be influenced by political, social, and economic factors affecting companies in these countries. Values may fall as well as rise and you may not get back the amount invested. Past performance is no guarantee of future results. 7
