Section 2 - Financial Information

Item 2.02 Results of Operations and Financial Condition

On May 5, 2011, PPL Corporation (“PPL”) issued a press release announcing its financial results for the quarter ended March 31, 2011, and other business matters.

Section 7 - Regulation FD

Item 7.01 Regulation FD Disclosure

A copy of the press release referred to in item 2.02 above is furnished herewith as Exhibit 99.1. On May 5, 2011, at 9:00 a.m. (Eastern Time), members of PPL’s senior management will hold a teleconference and webcast with financial analysts to discuss PPL’s financial results for the quarter ended March 31, 2011, and other business matters. A copy of the slides to be used during the webcast is furnished as Exhibit 99.2. The event will be available live, in audio format, along with the slides, on PPL’s Internet Web site: [www.pplweb.com](http://www.pplweb.com). The webcast will be available for replay on PPL’s Web site for 30 days.

As further described below, despite the need for unscheduled inspection and repair of turbine blades at its Susquehanna nuclear generating facilities, PPL is maintaining its 2011 forecast of earnings from ongoing operations of \$2.50 to \$2.75 per share.

Unit 2 at PPL’s Susquehanna nuclear plant is currently in a scheduled outage for refueling and generation uprate. In connection with this outage, a planned inspection of the Unit 2 turbine revealed defects in certain of its low pressure turbine blades. Replacement of these blades is required but was not anticipated as part of the original scope of this outage. The necessary repair work is expected to extend the Unit 2 outage by approximately four to six weeks. As a precaution, PPL likely will also take Unit 1 out of service in the coming weeks to perform similar turbine blade inspections. No specific dates or timetable for that inspection have been established, and may be determined in part by the results of the inspection and repairs at Unit 2. There is no current expectation that repairs will be required at Unit 1. PPL’s current estimate of the after-tax financial impact related to these outages is between \$20 million and \$30 million. There can be no assurance that additional repairs at Unit 2 or Unit 1 will not be required, or that the length of the current outage will not exceed the extended timeframe referred to above.
