REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Participants of the  
Unisource Worldwide, Inc.  
Retirement Savings Plan:

We have audited the accompanying statements of net assets available for plan benefits of the UNISOURCE WORLDWIDE, INC. RETIREMENT SAVINGS PLAN as of December 31, 2000 and 1999 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2000. These financial statements and the schedule referred to below are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements and the schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Unisource Worldwide, Inc. Retirement Savings Plan as of December 31, 2000 and 1999 and the changes in its net assets available for plan benefits for the year ended December 31, 2000 in conformity with accounting principles generally accepted in the United States.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule of assets (held at end of year) as of December 31, 2000 is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS AND SCHEDULE

DECEMBER 31, 2000 AND 1999

1. ORGANIZATION AND PLAN DESCRIPTION

The following description of the Unisource Worldwide, Inc. Retirement Savings Plan provides only general information. Participants should refer to the official plan documents for complete information.

Plan Description

On June 19, 1996, Alco Standard Corporation announced that it would separate Unisource Worldwide, Inc. (the "Company" or the "Employer"), its printing and imaging and supply systems distribution business, from IKON Office Solutions, Inc. ("IKON"), its office solutions business, with each business operating as a stand-alone, publicly-traded company. Following the spin-off of the Company, which was completed on December 31, 1996, the Company established the Unisource Worldwide, Inc. Retirement Savings Plan (the "Plan") covering all nonunion eligible employees of the Company, effective January 1, 1997.

The Company and Georgia-Pacific Corporation ("G-P") merged during 1999, at which time G-P acquired all outstanding shares of the Company. Subsequent to the merger, the Company still conducted business under its existing name as

## Edgar Filing: GEORGIA PACIFIC CORP - Form 11-K

a separate subsidiary of Georgia-Pacific Group, the pulp, paper, and building products business of G-P. The merger had no effect on the Plan or its administration except as discussed below.

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. Eligible employees may elect to participate in the Plan on the first date of the month following the completion of three full calendar months of service. Vanguard Fiduciary Trust Company is the trustee and custodian of the Plan.

### Contributions

The Plan allows participants to contribute from 1% to 16% of their annual compensation, as defined by the Plan. Contributions are limited by the maximum amount allowable under the Internal Revenue Code ("IRC"). Participants are immediately vested in their contributions.

The Employer contributes an amount equal to two-thirds of the first 6% of annual compensation that a participant contributes to the Plan. The Employer's contribution vests with the participant at 25% per year beginning with the participant's second year of service so that full vesting occurs after five years of service. The participant is also fully vested in the Employer's contributions upon position termination due to permanent shutdown of plant or department, total and permanent disability, attainment of age 59 1/2, or death.

In association with the acquisition by G-P, the Plan was amended to provide that employer matching contributions would no longer be made in the Company's common stock. Participants were permitted to direct the investment of the matching contribution to any of the current fund options other than the IKON common stock fund.

-2-

The Plan allows participant contributions, and any investment income earned thereon, to be allocated between any of the available investment funds. Participants may change investment allocations at any time. Additional investments in IKON common stock and Unisource Stable Value Fund are not permitted.

Contributions are transferred to the trustee twice a month and invested in the Vanguard Treasury Money Market Fund until they can be credited to participants' accounts and invested in accordance with participants' investment elections. Earnings on the short-term investments are allocated to participants' accounts once each year.

### Participant Loans

The Plan allows participants currently employed by the Company to obtain loans equal to the lesser of \$50,000 or 50% of their total vested account balances. Loans bear interest at a rate equal to the prime lending rate plus one at the date of origination of the loan. Loan repayments are generally made through payroll deductions and normally must be repaid within a five-year term unless the loan was used to purchase a primary residence, which could extend the term to 15 years. Loans become due and payable in full once a participant terminates employment. Interest rates ranged from 3.5% to 13.35% during the year ended December 31, 2000.

### Withdrawals and Termination

In the event of a participant's death, attainment of age 59 1/2, or

## Edgar Filing: GEORGIA PACIFIC CORP - Form 11-K

disability, the participant or his/her beneficiary may elect to receive his/her entire account balance. If termination occurs for other reasons, only vested amounts are distributed to the participant, and nonvested amounts are forfeited. Such forfeitures are used to reduce the Company's future contributions. If a former participant returns to the employment of the Company within five years of the termination date, and if the full amount of the distribution received is repaid, previously forfeited amounts are reinstated to the participant's account.

### Forfeitures

Forfeitures resulting from separation of service are held in the Plan and serve to reduce future employer contributions. Forfeitures used for the year ended December 31, 2000 were \$271,791. As of December 31, 2000 and 1999, forfeited account balances are \$377,503 and \$3,485, respectively.

## 2. SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis.

Effective January 1, 1999, the Plan has adopted the American Institute of Certified Public Accountants Statement of Position 99-3, "Accounting for and Reporting of Certain Defined Contribution Plan Investments and Other Disclosure Matters." This standard establishes new disclosure requirements for defined contribution plans.

### Investment Valuation and Income

The market value of IKON common stock is determined by use of the last reported sales price on the last business day of the year, as reported on a national securities exchange.

Cash equivalents are valued at cost, which is equal to market value. All highly liquid investments with maturities of three months or less when purchased are considered to be cash equivalents.

The guaranteed investment contracts held in the Stable Value Fund are valued at contract value, which approximates fair value, as established by the issuing financial institution. Contract value represents

-3-

contributions made under the contract, plus interest at the contract rate less funds used for withdrawals. Contract interest rates ranged from 6.23% to 6.7% for the years ended December 31, 2000 and 1999, respectively.

Investments in mutual funds are stated at fair market value, which is determined on the last day of the plan year based on the portfolio of investments owned by the particular funds on that date. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade date basis. Investment income is recorded as earned. Dividend income is recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for plan benefits the net depreciation in fair value of investments, which consists of the realized gains (losses) and the change in unrealized

## Edgar Filing: GEORGIA PACIFIC CORP - Form 11-K

appreciation (depreciation) on those investments.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

### 3. INCOME TAX STATUS

The Internal Revenue Service issued a determination letter dated October 5, 1999 stating that the Plan was designed in accordance with applicable IRC requirements as of that date. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement dates.

### 4. INVESTMENTS

5. MASTER TRUSTS

Effective June 8, 1994, the assets of the Georgia-Pacific Stock Fund were transferred into the Georgia-Pacific Stock Fund Master Trust (the "Master Trust"). The Master Trust was established to hold, administer, and invest the assets of the Georgia-Pacific Stock Fund of certain defined contribution plans qualified under Internal Revenue Code Section 401(k) and are administered by Georgia-Pacific Corporation.

On December 16, 1997, the shareholders of Georgia-Pacific Corporation approved the conversion of all Georgia-Pacific Common Stock into Georgia-Pacific Corporation--Georgia-Pacific Group Common Stock and to distribute one share of a new class of common stock, Georgia-Pacific Corporation--Timber Group Common Stock. As a result, the assets of the Master Trust were transferred on a pro rata basis into the newly created Georgia-Pacific Group Stock Fund Master Trust ("Group Master Trust") and the Georgia-Pacific Timber Stock Fund Master Trust ("Timber Master Trust").

The market values of the master trusts are allocated to the individual participating plans based on the relative value of the assets of each plan. Interest income, dividends, and gains and losses (both realized and unrealized) are allocated daily to the individual participating plans based on the relative market values at the beginning of each day.
