

Item 1.01 Entry into a Material Definitive Agreement.

On August 15, 2016, Acacia Research Corporation, a Delaware corporation (“Acacia”), entered into an Investment Agreement with Veritone, Inc., a Delaware corporation (“Veritone”), that provides for Acacia to invest up to \$50 million in Veritone, consisting of both debt and equity components. Pursuant to the Investment Agreement, on August 15, 2016, Veritone issued to Acacia a Secured Promissory Note (the “Note”) pursuant to which Acacia may lend to Veritone up to \$20 million through two \$10 million advances, each bearing interest at the rate of 6.0% per annum. On August 15, 2016, Veritone borrowed \$10 million from Acacia (the “First Loan”), which initially had a one-year term, and, on November 25, 2016, Veritone borrowed the remaining \$10 million (the “Second Loan”), which also had a one-year term from the date of issuance. Upon Veritone’s borrowing of the Second Loan, the maturity date of the First Loan was automatically extended to the maturity date of the Second Loan, with both the First Loan and the Second Loan becoming due and payable on November 25, 2017. Veritone’s obligations under the Note are secured by substantially all of the assets of Veritone pursuant to a Security Agreement dated August 15, 2016, which was amended and restated on March 15, 2017. At or immediately prior to the closing of an initial public offering of common stock of Veritone, all outstanding amounts of principal and accrued interest under the Note will automatically convert into shares of common stock of Veritone at a conversion price per share equal to the lesser of (i) \$8.1653 and (ii) the initial public offering price per share of common stock of Veritone.

Pursuant to the Investment Agreement, Veritone issued to Acacia a five-year warrant (the “Primary Warrant”) to purchase up to a number of shares of common stock of Veritone determined by dividing \$50 million, less all converted amounts or payments under the Note (including interest accrued thereon), by an exercise price per share ranging from \$7.9817 to \$8.2394, with the actual exercise price per share to be determined by the amount of principal and accrued interest under the Note that is converted into shares of common stock of Veritone. Immediately following the exercise of the Primary Warrant, Veritone will issue to Acacia a warrant (the “10% Warrant”) that provides for the issuance of additional shares of common stock of Veritone at an exercise price per share equal to the lower of \$8.1653 or the initial public offering price per share of common stock of Veritone, with 50% of the shares underlying the 10% Warrant vesting as of the issuance date of the 10% Warrant and the remaining 50% of the shares vesting on the first anniversary of the issuance date of the 10% Warrant.

In addition, (a) in conjunction with the First Loan, Veritone issued to Acacia a four-year warrant to purchase a number of shares of common stock of Veritone determined by dividing \$700,000 by an exercise price per share ranging from \$4.85 to \$8.2394, and (b) in conjunction with the Second Loan, Veritone issued to Acacia two additional four-year warrants, each to purchase a number of shares of common stock of Veritone determined by dividing \$700,000 by an exercise price per share ranging from \$4.85 to \$8.2394, with the actual exercise prices of the foregoing warrants to be determined by the type and/or valuation of future equity financings of Veritone (collectively, the “Secondary Warrants”).

On March 15, 2017, Acacia and Veritone amended the terms of the Primary Warrant to provide that, upon the closing of the initial public offering of common stock of Veritone, the Primary Warrant will be automatically exercised in full at an exercise price per share equal to the lower of (i) \$8.1653 and (ii) the initial public offering price per share of common stock of Veritone. On March 15, 2017, in connection with the amendment of the Primary Warrant, Acacia and Veritone also amended the Secondary Warrants to provide that the exercise prices thereof shall be equal to the lower of (i) \$8.1653 and (ii) the initial public offering price per share of common stock of Veritone.
