Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

On February 27, 2009, Century Aluminum Company (the Company) determined that our previously issued financial statements for the nine months ended September 30, 2008 included in our periodic report on Form 10-Q for that period should no longer be relied upon as a result of an error in the interim consolidated statement of cash flows. A restatement of these previously issued financial statements is necessary as the Company has determined that preferred stock issued in July 2008 was not presented on the consolidated statement of cash flows in accordance with Statement of Financial Accounting Standards No. 95 "Statement of Cash Flows".

The Company initially reported cash flows associated with the termination of forward financial sales contracts by issuing \$929 million of Series A Convertible Preferred Stock on a net basis as an operating activity. Management has concluded the transaction should have been presented on a gross presentation basis as both an operating activity and a financing activity to reflect the cash receipts and disbursements associated the transaction.

The Company will correct its interim consolidated statement of cash flows for the nine months ended September 30, 2008 when filing our Quarterly Report on Form 10-Q for the period ending September 30, 2009.

The restatement will have the following impact on the Company's consolidated statement of cash flows for the nine months ended September 30, 2008:
