MESA LABORATORIES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2002 AND 2001

NOTE A. SUMMARY OF ACCOUNTING POLICIES

The summary of the Issuer's significant accounting policies are incorporated by reference to the Company's annual report on Form 10KSB, at March 31, 2002.

The accompanying unaudited condensed financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the results of operations, financial position and cash flows. The results of the interim period are not necessarily indicative of the results for the full year.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY AND CAPITAL RESOURCES

On September 30, 2002, the Company had cash and short term investments of \$4,683,913. In addition, the Company had other current assets totaling \$4,917,464 and total current assets of \$9,601,377. Current liabilities of Mesa Laboratories, Inc. were \$584,765 which resulted in a current ratio of 16.4:1.

The Company has made net capital asset purchases of \$55,580 for the fiscal year-to-date.

The Company has instituted a program to repurchase up to 500,000 shares of its outstanding common stock. Under the plan, the shares may be purchased from time to time in the open market at prevailing prices or in negotiated transactions off the market. Shares purchased will be canceled and repurchases will be made with existing cash reserves.

RESULTS OF OPERATIONS

REVENUE

Net sales for the six months ended September 30, 2002 decreased \$244,324 or 5% to \$4,484,324 from the \$4,728,648 net sales level achieved for the same six month period last year. Net sales for the quarter decreased \$237,125 or 9% to \$2,431,869 from the \$2,668,994 net sales level achieved in the same quarter last year. Net sales for both the quarter and six month period were unfavorably impacted by lower shipments of the Echo Dialyzer Reprocessing System. This unfavorable comparison for Echo Dialyzer Reprocessing systems and sales in total was due to shipment in the comparable quarter last year of an order to a single customer, which exceeded \$800,000. Due to introduction in the current fiscal year of the Datatrace Micropack III, logging products produced increases for the quarter and six month periods of 40% and 17%, respectively. Medical meter products also gained for the quarter and year-to-date periods from prior year rising 9% and 5%, respectively.

COST OF GOODS SOLD

Cost of goods sold for the first six months as a percent of net sales was 38% which represents a 1% decrease from the 39% level for the same six month period last year. Cost of goods sold for the current quarter as a percent of net

Edgar Filing: MESA LABORATORIES INC /CO - Form 10QSB

sales was 36%, representing a 3% decrease compared to the 39% level in the same quarter last year. The decrease realized during the second quarter and first six months of fiscal 2002 was attributable to changing mix of products sold due to an increase in sales of Datatrace logging products in comparison to sales of the Company's medical products.

SELLING, GENERAL AND ADMINISTRATIVE

Selling, general and administrative expenses for the first six months decreased 8% or \$87,570 to \$1,075,071 from \$1,162,641 in the same period last year. For the current quarter, selling, general and administrative expenses totaled \$493,455, which was down 18% or \$105,784 from \$599,239 expended in the same quarter last year. Marketing expenses decreased 24% and 11% for the quarter and six month periods, respectively with Medical marketing expenses declining 38% and 28% from the prior year while Datatrace marketing expenses decreased 4% for the quarter and increased 12% for the six month period. The decrease in marketing expenses for medical products was due chiefly to lower compensation and bad debt levels. Datatrace costs increased for the six month period due to promotional costs in support of the new Micropack III product. Administration costs decreased only marginally for the quarter and six month periods.

RESEARCH AND DEVELOPMENT

Research and development for the first six months decreased to \$128,930 from \$156,648 which represents an 18% decrease from the same period last year. Research and development for the quarter was \$79,480, which represents an increase of \$21,646 or 37% from the \$57,834 level expended in the same quarter last year. Research and development costs for the six month period decreased due to lower compensation, consulting and materials costs. The increase for the quarter was due chiefly to higher material and supplies costs incurred during the period.

NET INCOME

Net income for the six months ended September 30, 2002 decreased 2% to \$1,080,807 or \$.32 per diluted share from \$1,103,708 or \$.32 per diluted share last year. Net income for the quarter was \$661,088 or a record \$.20 per diluted share compared to net income of \$650,117 or \$.19 per diluted share last year. For the quarter, the increase in net income compared to last year was due chiefly to increased sales of logging products. For the year-to-date, income was down slightly due to lower total sales, but increased as a percent of sales due to higher sales of logging products.

PART II-OTHER INFORMATION

ITEM 3. Controls and procedures

The Company, under the supervision of the chief executive and financial officer, has conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures within 90 days of the filing date of this quarterly report. Based upon the results of this evaluation, the Company believes that they maintain proper procedures for gathering, analyzing and disclosing all information in a timely fashion that is required to be disclosed in its Exchange Act reports. There have been no significant changes in the Company's controls subsequent to the evaluation date.
