Item 1.01 Entry into a Material Definitive Agreement

On May 18, 2006, the registrant acquired all of the assets of EnviroTank International, L.L.C., a Louisiana limited liability company (EnviroTank). The registrant paid nominal consideration for the assets, which consist primarily of a technology for a crude recovery unit/tank cleaning system, designed to deal with the problem of sludge buildup in the bottom of crude oil storage tanks (the Technology).

EnviroTank acquired the Technology under an agreement dated April 12, 2006 from Tracy Stewart, who formed EnviroTank for the purpose of exploiting the Technology. The consideration for the Technology is a royalty obligation equal to 25% of the net profits received from future contracts EnviroTank performs using the Technology. Net profits shall mean the total proceeds of any contracts using the Technology, less all costs incurred during implementation including, but not limited to, capital investments, operating costs, marketing, administration, sales taxes, adjustments, and all other expenses needed to perform contracts and administer the Technology. This royalty obligation is subject to a buyout option until April 12, 2010 for \$3,500,000. To date, no products utilizing this technology have been developed on a commercial basis.
