**CN announces 28 per cent increase in quarterly cash dividend**

**MONTREAL, Jan. 25, 2005** □ CN announced today that its Board of Directors has approved a first-quarter 2005 dividend on the Company's common shares outstanding. A quarterly dividend of twenty-five cents (Cdn \$0.25) per common share will be paid on March 31, 2005, to shareholders of record at the close of business on March 10, 2005.

The dividend represents a 28 per cent increase over the previous quarterly dividend of nineteen and one-half cents (Cdn \$0.195) per common share.

This is the ninth consecutive increase in CN's cash dividend since the company's initial public offering of shares in 1995.

Canadian National Railway Company spans Canada and mid-America, from the Atlantic and Pacific oceans to the Gulf of Mexico, serving the ports of Vancouver, Prince Rupert, B.C., Montreal, Halifax, New Orleans, and Mobile, Ala., and the key cities of Toronto, Buffalo, Chicago, Detroit, Duluth, Minn./Superior, Wis., Green Bay, Wis., Minneapolis/St. Paul, Memphis, St. Louis, and Jackson, Miss., with connections to all points in North America.

**CN's record revenues help drive best ever fourth- quarter and full-year results**

**MONTREAL, Jan. 25, 2005** – CN today reported its financial results for the fourth quarter and 12-month period ended Dec. 31, 2004.

**Highlights**

- Fourth quarter net income of \$376 million, or \$1.29 per diluted share. Net income for the fourth quarter of 2003 was \$224 million, or 78 cents per diluted share, including a deferred income tax (DIT) expense of \$79 million, or 27 cents per diluted share. Excluding the 2003 DIT, net income for the fourth quarter of 2004 rose 24 per cent, and diluted earnings per share increased 23 per cent <sup>(1)</sup>;
- Quarterly revenues of \$1,736 million, an increase of 15 per cent;
- Fourth-quarter operating income of \$607 million, up 19 per cent year-over-year;

- Quarterly operating ratio of 65.0 per cent, a 1.1 percentage point improvement over the fourth quarter 2003 performance;

- 
- Full-year 2004 free cash flow of \$1,025 million, compared with \$578 million for 2003. <sup>(1)</sup>

E. Hunter Harrison, president and chief executive officer of CN, said: "I am delighted to report these record results. Our railroaders delivered the best quarterly and full year operating ratio in company history, along with record annual operating income, net income and free cash flow.

CN's outstanding performance resulted from strong core business growth at low incremental cost, the early benefits of two acquisitions, and the discipline of precision railroading.

This winning combination allowed CN to generate free cash flow of more than \$1 billion, an exceptional achievement that underscores the quality of our earnings. CN's proven ability to produce strong free cash flow gives management the flexibility to reward investors: it will support a 28 per cent increase in our 2005 dividend the ninth consecutive increase since CN's privatization in 1995.

Business levels benefited from the acquisitions of BC Rail and the railroad and related holdings of Great Lakes Transportation LLC (GLT), which added \$145 million to CN's fourth quarter 2004 revenues. Central to CN's performance was strong demand for lumber, chemicals, iron ore, coal, consumer goods from Asia, and Canadian wheat and barley.

---

Six of CN's seven commodity groups registered revenue gains during the fourth quarter: metals and minerals (37 per cent); forest products (22 per cent); coal (20 per cent); intermodal (12 per cent); petroleum and chemicals (nine per cent); and grain and fertilizers (five per cent). Automotive revenues declined eight per cent, largely due to the impact of the stronger Canadian dollar on the conversion of U.S. dollar denominated revenues.

Operating expenses for the fourth quarter of 2004 increased 13 per cent to \$1,129 million, largely as a result of the inclusion of \$92 million of expenses of GLT and BC Rail, whose operations CN consolidated on May 10, 2004, and July 14, 2004, respectively. This increase was partially offset by the positive impact on expenses of the stronger Canadian dollar. During the latest three month period, casualty and other expenses grew by 31 per cent, fuel by 29 per cent, and labour and fringe benefits expenses by 13 per cent. Equipment rents declined 25 per cent.

The stronger Canadian dollar affected the conversion of CN's U.S. dollar denominated revenues and expenses, and, accordingly, reduced the company's fourth quarter revenues, operating income and net income by approximately \$60 million, \$15 million and \$7 million, respectively.

#### **Full-year 2004 financial results**

Net income for 2004 was \$1,258 million, or \$4.34 per diluted share, compared with net income of \$1,014 million, or \$3.49 per diluted share, for 2003.

Net income for 2003 included a fourth quarter deferred income tax expense of \$79 million, or 27 cents per diluted share, and a cumulative benefit of \$48 million after tax (16 cents per diluted share) resulting from a change in the accounting for removal costs for certain track structure assets. Excluding these items, adjusted net income for 2003 was \$1,045 million, or \$3.60 per diluted share. <sup>(1)</sup>

Operating income for 2004 increased 22 per cent to \$2,168 million. Revenues rose by 11 per cent to \$6,548 million, while operating expenses grew by seven per cent to \$4,380 million. For 2004, BC Rail and GLT added \$351 million to CN's revenues and \$228 million to its operating expenses.

CN's 2004 operating ratio was 66.9 per cent, a 2.9 percentage point improvement over the year earlier performance.

The translation impact of the stronger Canadian dollar reduced 2004 revenues, operating income and net income by approximately \$255 million, \$85 million, and \$45 million, respectively.

The financial results in this press release are reported in Canadian dollars and were determined on the basis of U.S. generally accepted accounting principles (U.S. GAAP).

<sup>(1)</sup> Please see discussion and reconciliation of these non-GAAP adjusted performance measures in the attached supplementary schedule, Non-GAAP Measures.

This news release contains forward-looking statements. CN cautions that, by their nature, forward-looking statements involve risk and uncertainties and that its results could differ materially from those expressed or implied in such statements. Reference should be made to CN's most recent Form 40-F filed with the United States Securities and Exchange Commission, and the Annual Information Form filed with the Canadian securities regulators, for a summary of major risks.

## CANADIAN NATIONAL RAILWAY COMPANY NON-GAAP MEASURES

### Adjusted performance measures

The Company's results of operations include items affecting the comparability of results. Management believes that non-GAAP measures such as adjusted net income and the resulting adjusted performance measures for such items as operating income, operating ratio and per share data are useful measures of performance that can facilitate period-to-period comparisons as they exclude items that do not arise as part of the normal day-to-day operations or that could potentially distort the analysis of trends in business performance. The exclusion of specified items in the adjusted measures below does not imply that they are necessarily non-recurring. These adjusted measures do not have any standardized meaning prescribed by GAAP and may, therefore, not be comparable to similar measures presented by other companies. The reader is advised to read all information provided in the Company's MD&A, Annual Consolidated Financial Statements and notes thereto.

The year ended December 31, 2003 included items impacting the comparability of the results of operations. The Company recorded a fourth quarter deferred income tax expense of \$79 million resulting from the enactment of higher corporate tax rates in the province of Ontario. Also included in 2003 was a cumulative benefit of \$75 million, \$48 million after tax, resulting from a change in the accounting for removal costs for certain track structure assets pursuant to the requirements of Statement of Financial Accounting Standards (SFAS) No. 143, "Accounting for Asset Retirement Obligations." The following table provides a reconciliation of adjusted net income (and resulting adjusted performance measures) to the Company's net income (and resulting performance measures) reported in accordance with U.S. GAAP.

### Reconciliation of adjusted performance measures

CANADIAN NATIONAL RAILWAY COMPANY  
**NON-GAAP MEASURES**

**Free cash flow**

The Company believes that free cash flow is a useful measure of performance as it demonstrates the Company's

Edgar Filing: CANADIAN NATIONAL RAILWAY CO - Form 6-K

ability to generate cash after the payment of capital expenditures and dividends. Free cash flow does not have any standardized meaning prescribed by GAAP and may, therefore, not be comparable to similar measures presented by other companies. The Company defines free cash flow as cash provided from operating activities, excluding changes in the level of accounts receivable sold under the securitization program, less investing activities and dividends paid, and adjusted for significant acquisitions as they are not indicative of normal day-to-day investments in the Company's asset base, calculated as follows:

<i>In millions</i>	<b>Three months ended December 31</b>		<b>Year ended December 31</b>	
	<b>2004</b>	2003	<b>2004</b>	2003
Cash provided from operating activities	\$ <b>688</b>	\$ 588	\$ <b>2,139</b>	\$ 1,976
<b>Less:</b>
