ANNOUNCEMENT

The Board hereby announces certain selected unaudited key operational statistics of the Group for the first quarter of 2009 (ended 31 March 2009). The comparative statistics for the first quarter of 2008 (ended 31 March 2008) are also disclosed in this announcement.

The board of directors of CNOOC Limited (the “Company”) (the “Board”) hereby announces certain selected unaudited key operational statistics of the Company and its subsidiaries (together the “Group”) for the first quarter of 2009 (ended 31 March 2009). The comparative statistics for the first quarter of 2008 (ended 31 March 2008) are also disclosed in this announcement.

The Company achieved a total net daily production of 566,860 barrels of oil equivalent (BOE) for the first quarter of 2009, representing an increase of 15.0% from the same period in 2008. For the first quarter of 2009, the Company produced 468,535 barrels of crude oil and liquids per day, representing an increase of 19.7% year-on-year (YOY), mainly attributable to projects that came on stream in 2008, including Platform B of Penglai 19-3 Phase II, Xijiang 23-1 and Wenchang oilfields. The Company’s net gas production was 563 million cubic feet per day. Our net production overseas increased by 30.9% YOY, mainly attributable to net production increase in Indonesia due to lower oil prices, and production volume growth from Northwest Shelf in Australia and OML 130 in Nigeria.

For the first quarter of 2009, the Company independently made seven new discoveries offshore China. Among which, Bozhong 2-1 and Qinhuangdao 29-2 are sizable discoveries with thick oil pays, and contain light crude. During the same period, the Company and its partner successfully drilled five appraisal wells.

On the development side, Bozhong 28-2S and Panyu 30-1 offshore China and OML130 in Nigeria commenced production respectively in March 2009. All major projects were progressing as planned.

Mainly due to lower realized oil price, the total unaudited revenue of the Company was approximately RMB13.95 billion for the first quarter of 2009, representing a decrease of 41.9% YOY. For the first quarter of 2009, the Company’s average realized oil price decreased 53.2% YOY to US\$41.56 per barrel, generally in line with the trend of international oil prices in the same period.

The Company's average realized gas price was US\$3.89 per thousand cubic feet, representing an increase of 6.6% YOY.

For the first quarter of 2009, the Company's capital expenditure reached approximately RMB7.51 billion, representing an increase of 23.1% YOY. As a result of many projects under development, the Company's development expenditure amounted to approximately RMB5.62 billion, representing an increase of 37.9% YOY.

CNOOC Ltd.'s Q1 Results Highlighted by Production Growth

(Hong Kong, April 29, 2009) - CNOOC Limited (the "Company" or "CNOOC Ltd.", NYSE: CEO, SEHK: 0883) announced today its total daily net production of 566,860 barrels of oil equivalent (BOE) for the first quarter of 2009, representing an increase of 15.0% year-on-year (YOY).

Benefiting from the production contribution of Platform B of Penglai 19-3 Phase II, Xijiang 23-1 and Wenchang oilfields, the Company's production of crude oil and liquids amounted to 468,535 barrels per day, an increase of 19.7% YOY. During the quarter, the Company's net gas production reached 563 million cubic feet per day. Our net production overseas increased by 30.9% YOY to 31,481 barrels per day, mainly attributable to production from Northwest Shelf Project in Australia and OML 130 in Nigeria.

Affected by the relatively low oil price in the same period, the Company's average realized oil price decreased 53.2% YOY to US\$41.56 per barrel in the first quarter. Our average realized gas price was US\$3.89 per thousand cubic feet, an increase of 6.6% YOY. Comparing with the first quarter of 2008, our oil and gas production rose substantially in the first quarter of 2009, however, the total unaudited revenue decreased 41.9% YOY to RMB13.95 billion.

In the first quarter of 2009, the Company's capital expenditure reached approximately RMB7.51 billion with an increase of 23.1% YOY. Due to a busy schedule of project construction, the Company's development expenditure amounted to approximately RMB5.62 billion, a 37.9% YOY increase.

During the quarter, we made seven independently discoveries offshore China, in which Bozhong 2-1 and Qinhuangdao 29-2 are sizable with thick oil pays, and contain light crude. Meanwhile, five hydrocarbon bearing structures were appraised successfully by the Company and its partners.

In the first quarter of 2009, all major projects are proceeding smoothly as scheduled. Bozhong 28-2S and Panyu 30-1 offshore China and OML130 in Nigeria have commenced production in the period.

Mr. Fu Chengyu, Chairman and Chief Executive Officer of the Company said, "In the first quarter of 2009, the Company's operation achieved exciting progress in production growth and exploration activities. In particular, the

oversea projects are performing well. In the face of financial crisis and low oil price environment, the Company will maintain prudent financial strategy to create value for our shareholders.”
