**CELLCOM ISRAEL ANNOUNCES developments re negotiations and agreements with golan telecom following report re hosting agreement between golan telecom and hot mobile**

**Netanya, Israel – June 13, 2016** – Cellcom Israel Ltd. (NYSE: CEL) (TASE: CEL) (hereinafter: the "Company") has taken note that the controlling shareholder of Hot Mobile Ltd. ("Hot"), another Israeli cellular operator, announced a non-exclusive long term agreement for the provision of hosting services to Golan Telecom on the network used by Hot, and financing arrangements to be provided by Hot and its controlling shareholders (the "Hot Agreement"), subject to the Israeli regulators' approval and instructions. The Company has notified Golan Telecom and its shareholders that the Hot agreement constitutes material breaches of the Share Purchase Agreement ("SPA") and National Roaming Agreement ("NRA") between the Company and Golan Telecom, including a service exclusivity obligation and obligations not to materially change the business to be purchased. The Company further notified Golan Telecom and its shareholders that the breach of the SPA and the breach of the NRA (resulting with the transfer of any Golan's customers traffic on Hot's network), if not cured, would allow the Company to terminate the SPA and demand the immediate payment of the NIS 600 million + VAT National Roaming Gap (as defined in the SPA), demand the recovery of additional substantial discounts provided to Golan Telecom under the NRA and conditioned upon such exclusivity, which under preliminary calculations amount to approximately NIS 300 million, and demand compensation for future payments until the end of such exclusivity. The Company notified Golan Telecom and its shareholders that should Golan Telecom and its shareholders fail to remedy all such breaches within the time frame set in the agreement, the Company will take all actions available to it under the SPA, NRA and applicable law, against them.

The Company cannot estimate the chances of regulatory approval of the Hot Agreement, or its impact on Cellcom's ability to collect amounts owed by Golan Telecom or to generate future revenues from Golan Telecom. A substantial reduction of the future revenues from Golan Telecom will have a material adverse effect on the Company's revenues and results of operations.

For additional details see the Company's most recent annual report for the year ended December 31, 2015 on Form 20-F, filed on March 21, 2016, under "Item 3 Key Information - D. Risk Factors– Risks Related to our Business –We face intense competition in all aspects of our business" and "- Risks Related to the Proposed Acquisition of Golan Telecom Ltd." and under "Item 4. Information on the Company - B. Business Overview - General - Agreement for the Purchase of Golan", and under "-Competition – Cellular" and " - Government Regulation –Additional MNOs", and the Company's current reports on Form 6-K date March 28, 2016 and April 12, 2016 and May 16, 2016.

**Forward looking statement**

The information included in this press release contains, or may be deemed to contain, forward-looking statements (as defined in the U.S. Private Securities Litigation Reform Act of 1995 and the Israeli Securities Law, 1968). Said forward-looking statements, relating to the Company's intended steps in regards to Golan Telecom's said violations and the anticipated impact the execution of the Hot Agreement on our company are subject to uncertainties and

assumptions, including the risk factors contained in our Form 20-F as well as: whether the Hot Agreement will be approved by the Israeli regulators, Golan Telecom's plans in regards to the hosting services and the results of the steps taken by the Company, which are currently unknown. The actual conditions the Company may face could lead to materially different outcome than that set forth above.

**About Cellcom Israel**

Cellcom Israel Ltd., established in 1994, is the largest Israeli cellular provider; Cellcom Israel provides its approximately 2.813 million cellular subscribers (as at March 31, 2016) with a broad range of value added services including cellular telephony, roaming services for tourists in Israel and for its subscribers abroad and additional services in the areas of music, video, mobile office etc., based on Cellcom Israel's technologically advanced infrastructure.
