|-------------------------------|---|--|
| Final basket value | 100 × (1 + the sum of the weighted underlying returns of the underlyings) | |
| Maximum Return at Maturity | \$530 per security (53% of the stated principal amount) | o If the value of the basket decreases , but the decrease is not more than 15% (the “buffer percentage”), you will be repaid the stated principal amount |
| Underlying Return | For each underlying: (final underlying value – initial underlying value) / initial underlying value | |
| Weighted Underlying Return | For each underlying, its underlying return <i>multiplied by</i> its weighting | o If the value of the basket decreases by more than the buffer percentage , you will receive less than the stated principal amount and have 1-to-1 downside exposure to the decrease in the value of the basket in excess of the buffer percentage |
| Initial Underlying Value | For each underlying, its closing value on the pricing date | |
| Final Underlying Value | For each underlying, its closing value on the valuation date | · Investors may lose up to 85% of the stated principal amount |
| Buffer Value | 85, 85% of the initial basket value | |
| Buffer Percentage | 15% | |
| Participation Rate | 125% | · The securities are subject to the credit risk of Citigroup Global Markets Holdings Inc. and Citigroup Inc. On the date of the related pricing supplement, the estimated value of the securities is \$941.448 per security, which is less than the public offering price. The estimated value of the securities is based on CGMI’s proprietary pricing models and Citigroup Global Markets Holdings Inc.’s internal funding rate. It is not an indication of actual profit to CGMI or other of Citigroup Global Markets Holdings Inc.’s affiliates, nor is it an indication of the price, if any, at which CGMI or any other person may be willing to buy the securities from you at any time after issuance. See “Valuation of the Securities” in the accompanying pricing supplement.

Investing in the securities involves risks not associated with an investment in conventional debt securities. See “Risk Factors” beginning on page 3 in this term sheet, “Summary Risk Factors” in the accompanying pricing supplement and “Risk Factors Relating to the Securities” in the accompanying product supplement.

This term sheet should be read in conjunction with the accompanying pricing supplement, product supplement, prospectus supplement and prospectus.

Payment at Maturity

For each \$1,000 stated principal amount you hold at maturity:

- If the final basket value is **greater than** the initial basket value:

\$1,000 *plus* the lesser of:

- (i) $\$1,000 \times \frac{\text{final basket value} - \text{initial basket value}}{\text{initial basket value}} \times \text{participation rate}$; and
- (ii) the maximum return at maturity

If the final basket value is **less than or equal to** the initial basket value, but **greater than or equal to** the buffer value, \$1,000

- If the final basket value is **less than** the buffer value, \$1,000 *minus*:

$$\$1,000 \times \frac{\text{buffer value} - \text{final basket value}}{\text{initial basket value}}$$

If the final basket value is less than the buffer value, you will receive less, and possibly significantly less, than the \$1,000 stated principal amount per security at maturity.

Risk Factors

An investment in the securities is significantly riskier than an investment in conventional debt securities. The securities are subject to all of the risks associated with an investment in our conventional debt securities (guaranteed by Citigroup Inc.), including the risk that we and Citigroup Inc. may default on our obligations under the securities, and are also subject to risks associated with the basket. Accordingly, the securities are suitable only for investors who are capable of understanding the complexities and risks of the securities. You should consult your own financial, tax and legal advisors as to the risks of an investment in the securities and the suitability of the securities in light of your

particular circumstances.

The following is a summary of certain key risk factors for investors in the securities. You should read this summary together with the full description of the risk considerations provided for in the Pricing Supplement and the more detailed description of risks relating to an investment in the securities contained in the section "Risk Factors Relating to the Securities" beginning on page EA-7 in the accompanying product supplement. You should also carefully read the risk factors included in the accompanying prospectus supplement and in the documents incorporated by reference in the accompanying prospectus, including Citigroup Inc.'s most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q, which describe risks relating to the business of Citigroup Inc. more generally.
