QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended September 30, 2008

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
Commission File Number 000-51653
DealerTrack Holdings, Inc.
(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

52-2336218
(I.R.S. Employer Identification Number)

1111 Marcus Ave., Suite M04
Lake Success, NY
(Address of principal executive offices)

11042
(Zip Code)

Registrant's telephone number, including area code: **(516) 734-3600**

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 31, 2008, 39,830,231 shares of the registrant's common stock were outstanding.

DEALERTRACK HOLDINGS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Business Description

DealerTrack Holdings, Inc. is a leading provider of on-demand software, and data solutions for the automotive retail industry in the United States. Utilizing the Internet, we have built a network connecting automotive dealers with banks, finance companies, credit unions and other financing sources, and other service and information providers, such as aftermarket providers and the major credit reporting agencies. We have established a network of active relationships in the United States, which as of September 30, 2008, consisted of over 21,000 dealers, over 700 financing sources and many other service and information providers to the automotive retail industry. We consider a financing source to be active in our network as of a date if it has accepted credit application data electronically from dealers in the DealerTrack network in that month, including financing sources visible to dealers through drop down menus. Our credit application processing product enables dealers to automate and accelerate the indirect automotive financing process by increasing the speed of communications between these dealers and their financing sources. We have leveraged our leading market position in credit application processing to address other inefficiencies in the automotive retail industry value chain. We believe our proven network provides a competitive advantage for distribution of our software and data solutions. Our integrated subscription-based software products and services enable our dealer customers to manage their dealership data and operations, receive valuable consumer leads, compare various financing and leasing options and programs, sell insurance and other aftermarket products, analyze inventory, document compliance with certain laws and execute financing contracts electronically. We have also created efficiencies for financing source customers by providing a comprehensive digital and electronic contracting solution. In addition, we offer data and other products and services to various industry participants, including lease residual value and automobile configuration data.

2. Basis of Presentation

The accompanying unaudited consolidated financial statements as of September 30, 2008 and for the three and nine months ended September 30, 2008 and 2007 have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and footnotes required for a complete set of financial statements in accordance with accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting only of normal and recurring adjustments, considered necessary for a fair statement have been included in the accompanying unaudited consolidated financial statements. All intercompany transactions and balances have been eliminated in consolidation. Operating results for the three and nine months ended September 30, 2008 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2008. The December 31, 2007 balance sheet information has been derived from the audited 2007 consolidated financial statements, but does not include all disclosures required for a complete set of financial statements in accordance with accounting principles generally accepted in the United States of America. For further information, please refer to the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2007, filed with the Securities and Exchange Commission (SEC) on February 28, 2008.

3. Recent Accounting Pronouncements

In April 2008, the FASB issued FSP SFAS No. 142-3 *Determination of the Useful Life of Intangible Assets* (FSP SFAS No. 142-3). FSP SFAS No. 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142,

Goodwill and Other Intangible Assets . The intent of FSP SFAS No. 142-3 is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the period of expected cash flows used to measure the fair value of the asset under other accounting principles generally accepted in the United States of America. FSP SFAS No. 142-3 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is prohibited. The guidance for determining the useful life of a recognized intangible asset is to be applied prospectively, therefore, the impact of the

implementation of this pronouncement cannot be determined until the transactions occur. Certain disclosure requirements shall be applied prospectively to all intangible assets recognized as of, and subsequent to, the effective date.

In February 2008, the FASB issued FSP SFAS No. 157-2, *Effective Date of FASB Statement 157*, delaying the effective date of SFAS No. 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). We are currently evaluating the impact that this statement will have on our consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159), which permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We have elected not to apply SFAS No. 159 to any of our existing assets or liabilities.

Table of Contents**4. Fair Value Measurements**

Effective January 1, 2008, we adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS No. 157), which defines the fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. SFAS No. 157 establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair values are as follows:

Level 1 Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2 Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3 Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

We have segregated all financial assets that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date in the table below.

Assets measured at fair value on a recurring basis include the following as of September 30, 2008 (in thousands):

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Carrying Value at September 30, 2008
Cash equivalents (1)	\$ 53,308	\$	\$	\$ 53,308
Short-term investments (2)(3)	57,056		1,900	58,956
Long-term investments (4)			5,486	5,486
Total	\$ 110,364	\$	\$ 7,386	\$ 117,750

(1) Cash equivalents consist primarily of money market funds with original maturity dates of three months or less, for which we determine fair value through quoted market prices.

(2) Level 1 short-term investments consist primarily of corporate bonds and municipal

notes with maturity dates of one year or less, for which we determine fair value through quoted market prices.

- (3) Level 3 short-term investments consist primarily of auction rate securities that are invested in tax-exempt state government obligations and universities that were liquidated at par subsequent to September 30, 2008.

- (4) Long-term investments consist of \$1.6 million of auction rate securities (ARS) that are invested in tax-exempt state government obligations and \$3.9 million of ARS invested in tax-advantaged preferred stock trust securities. The preferred stock securities are trusts in which there are underlying preferred stocks of financial institutions. We classify investment securities as available for sale, and as a result, report the investments at fair value. ARS have long-term underlying maturities, but have interest rates that are reset every six months or less. Our

intent is not to hold the \$1.6 million ARS that are invested in tax-exempt state government obligations to maturity, but rather to use the interest rate reset feature to provide liquidity as necessary. In addition, as of September 30, 2008, due to the uncertainty of whether we will be able to liquidate these securities within the next twelve months we have classified them as long-term on our consolidated balance sheets. The \$3.9 million of ARS funds invested in tax-advantaged preferred stock trust securities are associated with failed auctions and amounts will not be accessible until a successful auction occurs, a buyer is found outside the auction process or the trust dissolves and distributes the underlying securities. Our investment in these securities generally provides higher interest rates than money market and other cash equivalent investments. Due to the lack of observable market quotes on our ARS portfolio due to failed auctions within the industry, we

utilize valuation models that rely exclusively on Level 3 inputs including those that are based on expected cash flow streams, including assessments of counterparty credit quality, default risk underlying the security, discount rates and overall capital market liquidity. We measured the fair value of these ARS as of September 30, 2008, and determined that the valuation of our ARS invested in preferred stock trust securities had significantly declined from the previously reported amounts. As a result, we reduced the fair value of the investments in the preferred stock trusts from \$9.6 million to \$3.9 million and recorded an other-than-temporary impairment charge of \$5.7 million for the three months ended September 30, 2008. Included in our preferred stock trusts ARS portfolio is a trust for which the underlying investment is a Freddie Mac preferred stock that was significantly impaired and is no longer paying interest.

Table of Contents

We reviewed the ARS portfolio for impairment in accordance with FAS 115-1 and FAS 124-1, *The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments* and Staff Accounting Bulletin Topic 5M

Other-Than-Temporary Impairment of Certain Investments in Debt and Equity Securities, to determine the classification of the impairment as temporary or other-than-temporary. A temporary impairment charge results in an unrealized loss being recorded in the other comprehensive income component of shareholders' equity. It occurs if a loss in an investment is determined to be temporary in nature and we have the ability and intent to hold the investment until a recovery in market value takes place. Such an unrealized loss does not reduce our net income for the applicable accounting period because the loss is not viewed as other-than-temporary. An impairment charge is recorded against earnings to the extent we determine that there is a loss of fair value that is other-than-temporary. We have determined that

the significant reduction in fair value related to our preferred stock trusts ARS was other than temporary and we recorded an impairment charge in our consolidated statements of operations based on a variety of factors, including the significant decline in fair value indicated for the individual investments and the adverse market conditions impacting ARS. Based on our available cash and other investments, we do not currently anticipate that the lack of liquidity caused by failed auctions will have a material adverse effect on our operating cash flows or will affect our ability to operate our business as usual. The valuation of our ARS portfolio is subject to uncertainties that are difficult to predict and we may be required to further reduce the carrying value of these securities, which would result in an additional loss being recognized in our statement of operations, which could be material.

The change in the carrying amount of Level 3 investments for the nine months ended September 30, 2008 is as follows (in thousands):

Balance as of January 1, 2008	\$	
Reclassification from Level 1 investments to Level 3 investments		169,580
Net sales of auction rate securities		(156,530)
Other-than-temporary impairment included in net (loss) income		(5,664)
Balance as of September 30, 2008	\$	7,386

5. Net (Loss) Income per Share

For the three and nine months ended September 30, 2008 and 2007, we computed net income per share in accordance SFAS No. 128, *Earnings per Share* (SFAS No. 128). Under the provisions of SFAS No. 128, basic earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding, assuming dilution, during the period. The diluted earnings per share calculation assumes that (i) all stock options, which are in the money are exercised at the beginning of the period and the proceeds are used by us to purchase shares at the average market price for the period and (ii) if applicable, unvested awards that are considered to be contingently issuable shares because they contain either a performance or market condition will be included in diluted earnings per share in accordance with SFAS No. 128 if dilutive and if their conditions (a) have been satisfied at the reporting date or (b) would have been satisfied if the reporting date was the end of the contingency period.

The following table sets forth the computation of basic and diluted net income per share (in thousands, except share and per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Numerator:				
Net (loss) income	\$ (2,603)	\$ 4,512	\$ 2,801	\$ 15,621
Denominator:				
Weighted average common stock outstanding (basic)	39,769,990	39,058,863	40,965,118	38,810,710
Common equivalent shares from options to purchase common stock and restricted common stock (1)		1,781,825	1,270,057	1,768,383
Weighted average common stock outstanding (diluted)	39,769,990	40,840,688	42,235,175	40,579,093
Basic net (loss) income per share	\$ (0.07)	\$ 0.12	\$ 0.07	\$ 0.40
Diluted net (loss) income per share	\$ (0.07)	\$ 0.11	\$ 0.07	\$ 0.38

Table of Contents**6. Comprehensive (Loss) Income**

The components of comprehensive income were as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2008	2007	2008	2007
Net (loss) income	\$ (2,603)	\$ 4,512	\$ 2,801	\$ 15,621
Foreign currency translation adjustments	(2,114)	2,840	(3,747)	7,753
Unrealized loss on available-for-sale securities	210		(132)	
Total comprehensive (loss) income	\$ (4,507)	\$ 7,352	\$ (1,078)	\$ 23,374

For the three and nine months ended September 30, 2008, the foreign currency translation adjustment primarily represents the effect on translating the intangibles and goodwill related to the Curomax acquisition.

7. Stock-Based Compensation Expense

We have three types of stock-based compensation programs: stock options, restricted common stock, and an employee stock purchase plan (ESPP). For further information see Notes 2 and 12 included in our Annual Report on Form 10-K for the year ended December 31, 2007.

The following summarizes stock-based compensation expense recognized for the three and nine months ended September 30, 2008 and 2007 (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2008	2007	2008	2007
Stock options	\$ 2,114	\$ 2,068	\$ 6,127	\$ 4,766
Restricted common stock	1,260	1,260	4,049	2,992
ESPP	59	85	252	230
Total stock-based compensation expense	\$ 3,433	\$ 3,413	\$ 10,428	\$ 7,988

Stock-based compensation expense recognized for the three months ended September 30, 2008 was \$3.4 million, of which \$3.0 million was in accordance with FAS 123(R) and \$0.4 million in accordance with APB 25. Stock-based compensation expense recognized for the three months ended September 30, 2007 was \$3.4 million, of which \$2.9 million was in accordance with FAS 123(R) and \$0.5 million in accordance with APB 25.

Stock-based compensation expense recognized for the nine months ended September 30, 2008 was \$10.4 million, of which \$9.2 million was in accordance with FAS 123(R) and \$1.2 million in accordance with APB 25. Stock-based compensation expense recognized for the nine months ended September 30, 2007 was \$8.0 million, of which \$6.4 million was in accordance with FAS 123(R) and \$1.6 million in accordance with APB 25.

Included in the stock-based compensation expense for restricted common stock for the three and nine months ended September 30, 2008 was \$0.4 million and \$1.1 million, respectively, related to the long-term incentive equity awards. Included in the stock-based compensation expense for restricted common stock for the three and nine months ended September 30, 2007 was \$0.3 million and \$1.0 million, respectively, related to the long-term incentive equity awards. Refer to Note 16 for further information regarding our long-term incentive equity awards.

8. Curomax Acquisition

On February 1, 2007, we completed the purchase of all of the outstanding shares of Curomax Corporation and its subsidiaries (Curomax) pursuant to a shares purchase agreement, made as of January 16, 2007, for a cash purchase

price of approximately \$39.0 million (including estimated direct acquisition and restructuring costs of approximately \$1.8 million). Under the terms of the shares purchase agreement, we had future contingent payment obligations of approximately \$2.2 million in cash to be paid out based upon the achievement of certain operational objectives over the subsequent twenty-four months. As of September 30, 2008, we have determined that certain operational conditions have been met and as such, we have recorded a liability of approximately \$1.7 million which is expected to be paid out during the first quarter of 2009. The operational conditions related to the remaining amount of \$0.5 million were not achieved and will not be paid. The additional purchase consideration was recorded as goodwill.

9. Stock Repurchase Program

On March 18, 2008, the board of directors authorized a stock repurchase program under which we may spend up to \$75.0 million to repurchase shares of our common stock. Stock repurchases under this program may be made on the open market, through 10b5-1 programs, or in privately negotiated transactions in accordance with all applicable laws, rules and regulations. The transactions may be made from time to time without prior notice and in such amounts as our management deems appropriate and will be funded from cash on hand. The number of shares to be repurchased and the timing of repurchases will be based on several factors, including the price of our common stock, legal or regulatory requirements, general business and market conditions, and other investment opportunities. The stock repurchase program will expire on March 31, 2009, but may be limited or terminated at any time by our Board of Directors without prior notice. From inception of the program through September 30, 2008, we repurchased approximately 2.6 million shares of common stock for an aggregate price of approximately \$44.7 million, of which 1.6 million shares of common stock for an aggregate price of \$25.6 million were repurchased during the three months ended September 30, 2008. As of September 30, 2008, there was \$30.3 million remaining in our stock repurchase program. Refer to Note 21 for purchases of stock after September 30, 2008.

Table of Contents**10. Related Party Transactions**

We entered into several agreements with a stockholder and its affiliates that is a service provider for automotive dealers. These automotive dealers may utilize our network to access customer credit reports and customer leads provided by or through this related party. We earn revenue from this related party for each credit report or customer lead that is accessed using our web-based service. The total amount of net revenue from this related party for the three months ended September 30, 2008 and 2007 was \$0.6 million and \$0.6 million, respectively. The total amount of net revenue from this related party for the nine months ended September 30, 2008 and 2007 was \$2.0 million and \$1.9 million, respectively. The total amount of accounts receivable from this related party as of September 30, 2008 and December 31, 2007 was \$0.3 million and \$0.2 million, respectively.

11. Property and Equipment

Property and equipment are recorded at cost and consist of the following (dollars in thousands):

	Estimated Useful Life (Years)	September 30, 2008	December 31, 2007
Computer equipment	3	\$ 19,318	\$ 16,719
Office equipment	5	3,294	2,189
Furniture and fixtures	5	3,080	2,840
Leasehold improvements	5-11	1,220	992
Total property and equipment, gross		26,912	22,740
Less: Accumulated depreciation and amortization		(12,851)	(9,948)
Total property and equipment, net		\$ 14,061	\$ 12,792

Depreciation and amortization expense related to property and equipment for the three months ended September 30, 2008 and 2007 was \$1.5 million and \$1.2 million, respectively. Depreciation and amortization expense for the nine months ended September 30, 2008 and 2007 was \$4.3 million and \$2.9 million, respectively. Depreciation and amortization are calculated on a straight line basis over the estimated useful life of the asset.

12. Intangible Assets

Intangible assets principally are comprised of customer contracts, database, trade names, patents, technology, non-competition agreements, and partner agreements. The amortization expense relating to intangible assets is recorded as a cost of revenue. The gross book value, accumulated amortization and amortization periods of the intangible assets were as follows (dollars in thousands):

	September 30, 2008		December 31, 2007		Amortization Period (Years)
	Gross Book Value	Accumulated Amortization	Gross Book Value	Accumulated Amortization	
Customer contracts	\$ 36,009	\$ (16,028)	\$ 41,569	\$ (14,789)	2-4
Database	13,333	(8,327)	16,433	(9,577)	3-6
Trade names	10,500	(5,216)	10,500	(4,460)	5-10
Patents/technology	19,799	(6,242)	35,212	(16,618)	2-5
Non-compete agreement	11,247	(7,187)	14,062	(6,214)	1-5
Partner agreements	4,400	(2,272)	4,400	(1,029)	5

Other			900	(861)	5
Total	\$ 95,288	\$ (45,272)	\$ 123,076	\$ (53,548)	

Amortization expense related to intangibles for the three months ended September 30, 2008 and 2007 was \$5.5 million and \$8.0 million, respectively. Amortization expense for the nine months ended September 30, 2008 and 2007 was \$19.6 million and \$20.3 million, respectively. Amortization expense that will be charged to income for the remaining period of 2008, based on the September 30, 2008 book value, is approximately \$5.3 million.

Amortization expense that will be charged to income for the subsequent five years and thereafter is estimated, based on the September 30, 2008 book value, to be \$18.6 million in 2009, \$15.2 million in 2010, \$6.6 million in 2011, \$2.0 million in 2012, \$0.7 million in 2013 and thereafter \$1.0 million.

Included in the gross book value as of September 30, 2008 and December 31, 2007, is foreign currency translation of \$0.6 million and \$3.3 million, respectively.

Table of Contents**13. Goodwill**

The change in carrying amount of goodwill for the nine months ended September 30, 2008 is as follows (in thousands):

Balance as of January 1, 2008	\$ 117,702
Impact of change in Canadian dollar exchange rate	(1,619)
Contingent consideration (Note 8)	1,651
Other	(1,062)
Balance as of September 30, 2008	\$ 116,672

14. Other Accrued Liabilities

Following is a summary of the components of other accrued liabilities (in thousands):

	September 30, 2008	December 31, 2007
Customer deposits	\$ 2,753	\$ 2,773
Revenue share	2,592	1,196
Professional fees	2,095	1,462
Accrued contingent consideration (Note 8)	1,651	
Taxes	1,590	3,379
Public company costs	209	174
Software licenses	823	1,212
Severance		271
Other	1,778	920
Total other accrued liabilities	\$ 13,491	\$ 11,387

15. Income Taxes

We adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an *Interpretation of FASB Statement No. 109 or FIN 48*, on January 1, 2007. FIN 48 specifies the way public companies are to account for uncertainty in income tax reporting, and prescribes the methodology for recognizing, reversing, and measuring the tax benefits of a tax position taken, or expected to be taken, in a tax return. Our adoption of FIN 48 did not result in any change to the level of our liability for uncertain tax positions, and there was no adjustment to our retained earnings for the cumulative effect of an accounting change. At January 1, 2008, the total liability for uncertain tax positions recorded in our balance sheet in accrued other liabilities was \$0.1 million. At September 30, 2008, the total liability for uncertain tax positions recorded in our balance sheet in accrued other liabilities was \$0.3 million.

We file a consolidated U.S. income tax return and tax returns in various state and local jurisdictions. Certain of our subsidiaries also file income tax returns in Canada. The Internal Revenue Service has completed its examination of our federal income tax returns through 2004.

Interest and penalties related to tax positions taken in our tax returns are recorded in interest expense and general and administrative expenses, respectively, in our consolidated statement of operations. At January 1, 2008, the combined amount of accrued interest and penalties related to tax positions taken on our tax returns was zero. At September 30, 2008, we accrued interest and penalties related to tax positions taken on our tax returns of \$24,000.

16. Long-Term Incentive Equity Awards

Edgar Filing: DealerTrack Holdings, Inc. - Form 10-Q

On August 2, 2006, November 2, 2006, and July 21, 2007, the compensation committee of the board of directors granted long-term performance equity awards (under the 2005 Incentive Award Plan) consisting of 565,000 shares, 35,000 shares, and 10,000 shares of restricted common stock, respectively, to certain executive officers and other employees. Each individual's award is allocated 50% to achieving earnings before interest, taxes, depreciation and amortization, as adjusted to reflect any future acquisitions (EBITDA Performance Award) and 50% to the market value of our common stock (Market Value Award). The awards are earned upon our achievement of EBITDA and market-based targets for the fiscal years 2007, 2008 and 2009, but will not vest unless the grantee remains continuously employed in active service until January 31, 2010. If an EBITDA Performance Award or Market Value Award is not earned in an earlier year, it can be earned upon achievement of that target in a subsequent year. The awards will accelerate in full upon a change in control, if any.

Table of Contents

In accordance with FAS 123(R), we valued the EBITDA Performance Award and the Market Value Award using the Black-Scholes and binomial lattice-based valuation pricing models, respectively. The total fair value of the entire EBITDA Performance Award is \$6.0 million (prior to estimated forfeitures), of which, in January 2007, we began expensing on a straight-line basis the amount associated with the 2007 award as it was deemed probable that the threshold for the year ending December 31, 2007 would be met. We have met the EBITDA target for 2007. As of September 30, 2008, we have not begun to expense the EBITDA Performance Awards for 2008 and 2009 as it has not been deemed probable that the targets will be achieved. We will continue to evaluate the probability of achieving the targets on a quarterly basis. The total value of the entire Market Value Award is \$2.5 million (including estimated forfeitures), which is expensed on a straight-line basis from the date of grant over the applicable service period. As long as the service condition is satisfied, the expense is not reversed, even if the market conditions are not satisfied.

The expense recorded related to the EBITDA Performance Award and the Market Value Award for the three and nine months ended September 30, 2008 and 2007 is as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2008	2007	2008	2007
EBITDA Performance Award	\$ 166	\$ 162	\$ 500	\$ 459
Market Value Award	187	184	561	529
Total	\$ 353	\$ 346	\$ 1,061	\$ 988

The EBITDA Performance Award and Market Value Award expense is included in restricted common stock in the stock-based compensation expense table in Note 7.

17. Commitments and Contingencies***Retail Sales Tax***

The Ontario Ministry of Revenue (the Ministry) has conducted a retail sales tax field audit on the financial records of our Canadian subsidiary, DealerTrack Canada, Inc. (formerly known as DealerAccess Canada, Inc.), for the period from March 1, 2001 through May 31, 2003. We received a formal assessment from the Ministry indicating unpaid Ontario retail sales tax totaling approximately \$0.2 million, plus interest. Although we are disputing the Ministry's findings, the assessment, including interest, has been paid in order to avoid potential future interest and penalties.

As part of the purchase agreement dated, December 31, 2003 between us and Bank of Montreal for the purchase of 100% of the issued and outstanding capital stock of DealerAccess, Inc., Bank of Montreal agreed to indemnify us specifically for this potential liability for all sales tax periods prior to January 1, 2004. The potential sales tax liability for the period covered by this indemnification is now closed due to the statutory expiration of the periods open for audit by the Ministry. To date, all amounts paid to the Ministry by us for this assessment have been reimbursed by the Bank of Montreal under this indemnity.

We undertook a comprehensive review of the audit findings of the Ministry using external tax experts. Our position has been that our financing source revenue transactions are not subject to Ontario retail sales tax. We filed a formal Notice of Objection with the Ministry on December 12, 2005. We received a letter dated November 2, 2007 from an appeals officer of the Ministry stating that the assessment was, in his opinion, properly raised and his intention was to recommend his confirmation to senior management of the Ministry. The officer agreed, however, to defer his recommendation for a period of thirty business days to enable us to submit any additional information not yet provided. We submitted additional information to the Ministry to support our position that the services are not subject to sales tax.

We received a letter dated December 21, 2007 from the Ministry stating that no change should be made to the appeals officer's opinion. The letter further stated that we had ninety days from the date of the letter to file a Notice of Appeal with the Superior Court of Justice. A Notice of Appeal was filed on our behalf on March 18, 2008 to challenge the assessment because we did not believe these services are subject to sales tax. We have not accrued any related

sales tax liability for the period subsequent to May 31, 2003, for these financing source revenue transactions. This appeal is supported by the financial institutions whose source revenue transactions were subject to the assessment. These financial institutions have agreed to participate in the cost of the litigation.

In the event we are obligated to charge sales tax for this type of transaction, this Canadian subsidiary's contractual arrangements with its financing source customers obligate these customers to pay all sales taxes that are levied or imposed by any taxing authority by reason of the transactions contemplated under the particular contractual arrangement. In the event of any failure to pay such amounts, we would be required to pay the obligation, which could range from \$4.2 million (CAD) to \$4.6 million (CAD), including penalties and interest.

Table of Contents

Commitments

Pursuant to employment or severance agreements with certain employees, we have a commitment to pay severance of approximately \$5.5 million as of September 30, 2008 and \$5.1 million as of December 31, 2007, in the event of termination without cause, as defined in the agreements, as well as certain potential gross-up payments to the extent any such severance payment would constitute an excess parachute payment under the Internal Revenue Code. We also have a commitment to pay additional severance of \$2.9 million as of September 30, 2008 and \$2.4 million as of December 31, 2007, if there is a change in control.

On June 23, 2008, we entered into an inventory purchase agreement to purchase 2,000 ePad units for approximately \$0.3 million. As of September 30, 2008 we have only received 390 units.

We are a party to a variety of agreements pursuant to which we may be obligated to indemnify the other party with respect to breach of contract, infringement and other matters. Typically, these obligations arise in the context of agreements entered into by us, under which we customarily agree to hold the other party harmless against losses arising from breaches of representations, warranties and/or covenants. In these circumstances, payment by us is generally conditioned on the other party making a claim pursuant to the procedures specified in the particular agreement, which procedures typically allow us to challenge the other party's claims. Further, our obligations under these agreements may be limited to indemnification of third-party claims only and limited in terms of time and/or amount. In some instances, we may have recourse against third parties for certain payments made by us.

It is not possible to predict the maximum potential amount of future payments under these or similar agreements due to the conditional nature of our obligations and the unique facts and circumstances involved in each particular agreement. To date, we have not been required to make any such payment. We believe that if we were to incur a loss in any of these matters, it is not probable that such loss would have a material effect on our business or financial condition.

Legal Proceedings

From time to time, we are a party to litigation matters arising in connection with the normal course of our business, none of which is expected to have a material adverse effect on us. In addition to the litigation matters arising in connection with the normal course of our business, we are party to the litigation described below.

DealerTrack Inc. v. RouteOne LLC

On January 28, 2004, we filed a Complaint and Demand for Jury Trial against RouteOne LLC (RouteOne) in the United States District Court for the Eastern District of New York, Civil Action No. CV 04-322 (SJF). The complaint sought injunctive relief as well as damages against RouteOne for infringement of two patents owned by us, which relate to computer implemented automated credit application analysis and decision routing inventions (the Patents). The complaint also sought relief for RouteOne's acts of copyright infringement, circumvention of technological measures and common law fraud and unfair competition.

The court approved a joint stipulation of dismissal with respect to this action. Pursuant to the joint stipulation, the patent count has been dismissed without prejudice to be pursued as part of the below consolidated actions and all other counts have been dismissed with prejudice.

DealerTrack, Inc. v. Finance Express et al., CV-06-2335;

DealerTrack Inc. v. RouteOne and Finance Express et al., CV-06-6864; and

DealerTrack Inc. v. RouteOne and Finance Express et al., CV-07-215

On April 18, 2006, we filed a Complaint and Demand for Jury Trial against David Huber, Finance Express LLC (Finance Express), and three of their unnamed dealer customers in the United States District Court for the Central District of California, Civil Action No. CV-06-2335 AG (FMOx). The complaint seeks declaratory and injunctive relief, as well as, damages against the defendants for infringement of the Patents. We also are seeking relief for acts of copyright infringement and unfair competition.

On June 8, 2006, David Huber and Finance Express filed their answer and counterclaims. The counterclaims seek damages for libel related to an allegation in the complaint, breach of contract, deceit, actual and constructive fraud, misappropriation of trade secrets and unfair competition related to a confidentiality agreement between the parties. On October 26, 2006, the Court dismissed the counterclaim for libel pursuant to a motion by us.

On October 27, 2006, we filed a Complaint and Demand for Jury Trial against RouteOne, David Huber and Finance Express in the United States District Court for the Central District of California, Civil Action No. CV-06-6864 (SJF). The complaint seeks declaratory and injunctive relief as well as damages against the defendants for infringement of the Patents. On November 28, 2006 and December 4, 2006, respectively, defendants RouteOne, David Huber and Finance Express filed their answers. Finance Express also asserted counterclaims for breach of contract, deceit, actual and constructive fraud, misappropriation of trade secrets and unfair competition related to a confidentiality agreement between Finance Express and us.

On February 20, 2007, we filed a Complaint and Demand for Jury Trial against RouteOne, David Huber and Finance Express in the United States District Court for the Central District of California, Civil Action No. CV-07-215 (CWx). The complaint seeks declaratory and injunctive relief as well as damages against the defendants for infringement of U. S. Pat. No. 7,181,427 (the 427 Patent). On April 13, 2007 and April 17, 2007, respectively, defendants RouteOne, David Huber and Finance Express filed their answers. RouteOne, David Huber and Finance Express asserted counterclaims for a declaratory judgment of unenforceability due to inequitable conduct with respect to the 427 Patent and the Patents. David Huber and Finance Express also asserted counterclaims for breach of contract, deceit, actual and constructive fraud, misappropriation of trade secrets and unfair competition related to a confidentiality agreement between Finance Express and us.

Table of Contents

The DealerTrack, Inc. v. Finance Express et al., CV-06-2335 action, the DealerTrack Inc. v. RouteOne and Finance Express et al., CV-06-6864 action and the DealerTrack v. RouteOne and Finance Express et al., CV-07-215 action, described above, have been consolidated by the court. A hearing on claims construction, referred to as a *Markman* hearing, was held on September 25, 2007. Fact and expert discovery are completed, as well as motions for summary judgment.

On July 21, 2008, the court resolved disputed issues of inventorship, validity, inequitable conduct, and RouteOne's exposure to a willful infringement claim, in our favor. These rulings eliminate certain defenses by RouteOne and Finance Express.

On September 30, 2008, Judge Gilford, the federal district court judge in the central district of California hearing our case, issued his *Markman Ruling* on claim interpretation. In a patent infringement case the plaintiff, DealerTrack, only needs one claim in one patent to win the case. Judge Gilford ruled that three of DealerTrack's claims in its 427 patent, the most recently issued, were not invalid as RouteOne had claimed and that DealerTrack may proceed in its case of infringement against Route One on the claims in this patent.

In other rulings, the court found that claims of two other issued patents in the lawsuit were either not infringed or invalid.

The jury trial, which was scheduled for October 28, 2008, has now been rescheduled for February 24, 2009.

We intend to pursue our claims and defend any counterclaims vigorously.

We believe that the potential liability from all current litigations will not have a material effect on our financial position or results of operations when resolved in a future period.

18. Segment Information

In accordance with SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information* (SFAS No. 131) segment information is being reported consistent with our method of internal reporting. In accordance with SFAS No. 131, operating segments are defined as components of an enterprise for which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The chief operating decision maker reviews information at a consolidated level, as such we have one reportable segment under SFAS No. 131. For enterprise-wide disclosure, we are organized primarily on the basis of service lines. Revenue earned outside of the United States for the three and nine months ended September 30, 2008, is approximately 13% and 11% of our total revenue, respectively. Revenue earned outside of the United States for the three and nine months ended September 30, 2007 was approximately 10% of our total net revenue.

Supplemental disclosure of revenue by service type is as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Transaction services revenue	\$ 33,007	\$ 39,096	\$ 107,495	\$ 111,982
Subscription services revenue	23,797	20,378	69,060	53,591
Other	3,721	3,397	11,459	7,530
Total net revenue	\$ 60,525	\$ 62,871	\$ 188,014	\$ 173,103

19. Credit Facility

Our \$25.0 million revolving credit facility expired on April 15, 2008, pursuant to its terms. The facility had an interest rate of LIBOR plus 150 basis points or Prime plus 50 basis points, and was available for general corporate purposes (including acquisitions), subject to certain conditions.

20. Second Amended and Restated DealerTrack Holdings, Inc. 2005 Incentive Award Plan

On June 3, 2008, our stockholders approved a proposal to amend and restate our Amended and Restated DealerTrack Holdings, Inc. 2005 Incentive Award (2005 Plan) to, among other things, increase the aggregate number

of shares authorized for issuance under the 2005 Plan by 1,550,000 shares. After giving effect to these additional shares there is an aggregate of 10,285,465 shares of common stock that have been reserved for issuance pursuant to the 2005 Plan. As of September 30, 2008, 1,559,788 shares were available for future issuance.

21. Subsequent Event

During October and November 2008, pursuant to the stock repurchase program discussed in Note 9, we repurchased approximately 0.4 million shares of common stock for an aggregate price of approximately \$5.1 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our consolidated financial statements. Certain statements in this Quarterly Report on Form 10-Q are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). These statements involve a number of risks, uncertainties and other factors that could cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Factors that could materially affect such forward-looking statements can be found in the sections entitled Risk Factors in Part II, Item 1A. in this Quarterly Report on Form 10-Q and in Part I, Item 1A. in our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on February 28, 2008. Investors are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are only made as of the date hereof and we will undertake no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

Overview

DealerTrack is a leading provider of on-demand software, and data solutions for the automotive retail industry in the United States. Utilizing the Internet, we have built a network connecting automotive dealers with banks, finance companies, credit unions and other financing sources, and other service and information providers, such as aftermarket providers and the major credit reporting agencies. We have established a network of active relationships in the United States, which as of September 30, 2008, consisted of over 21,000 automotive dealers, over 700 financing sources and many other service and information providers to the automotive retail industry. We consider a financing source to be active in our network as of a date if it has accepted credit application data electronically from dealers in the DealerTrack network in that month, including financing sources visible to dealers through drop down menus. Our credit application processing product enables dealers to automate and accelerate the indirect automotive financing process by increasing the speed of communications between these dealers and their financing sources. We have leveraged our leading market position in credit application processing to address other inefficiencies in the automotive retail industry value chain. We believe our proven network provides a competitive advantage for distribution of our software and data solutions. Our integrated subscription-based software products and services enable our dealer customers to manage their dealership data and operations, receive valuable consumer leads, compare various financing and leasing options and programs, sell insurance and other aftermarket products, analyze inventory, document compliance with certain laws and execute financing contracts electronically. We have also created efficiencies for financing source customers by providing a comprehensive digital and electronic contracting solution. In addition, we offer data and other products and services to various industry participants, including lease residual value and automobile configuration data.

We are a Delaware corporation formed in August 2001. We are organized as a holding company and conduct a substantial amount of our business through our subsidiaries including Automotive Lease Guide (alg), Inc., Arkona, Inc., DealerTrack Accessories Solutions, Inc., Chrome Systems, Inc., DealerTrack Aftermarket Services, Inc., DealerTrack Canada, Inc., DealerTrack Digital Services, Inc., and DealerTrack, Inc.

We monitor our performance as a business using a number of measures that are not found in our consolidated financial statements. These measures include the number of active dealers and financing sources in the DealerTrack network, the number of transactions processed and the number of product subscriptions. We believe that improvements in these metrics will result in improvements in our financial performance over time. We also view the acquisition and successful integration of acquired companies as important milestones in the growth of our business as these acquired companies bring new products to our customers and expand our technological capabilities. We believe that successful acquisitions will also lead to improvements in our financial performance over time. In the near term, however, the purchase accounting treatment of acquisitions can have a negative impact on our net income as the depreciation and amortization expenses associated with acquired assets, as well as particular intangibles (which tend to have a relatively short useful life), can be substantial in the first several years following an acquisition. As a result, we monitor our EBITDA and other business statistics as a measure of operating performance in addition to net income

and the other measures included in our consolidated financial statements.

Table of Contents

The following is a table consisting of EBITDA and certain other business statistics that management is continually monitoring (amounts in thousands, except active dealers, financing source data, and product subscriptions):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2008	2007	2008	2007
EBITDA and Other Business Statistics:				
EBITDA (1)(6)	\$ 6,713	\$ 17,534	\$ 33,951	\$ 51,030
Capital expenditures, software and web site development costs	\$ 5,627	\$ 3,520	\$ 13,568	\$ 9,220
Active dealers in our network as of end of the period (2)	21,001	22,551	21,001	22,551
Active financing sources in our network as of end of period (3)	706	495	706	495
Transactions processed (4)	19,219	23,810	65,359	70,033
Product subscriptions (5)	33,123	27,469	33,123	27,469

(1) EBITDA represents net income before interest (income) expense, taxes, depreciation and amortization. We present EBITDA because we believe that EBITDA provides useful information with respect to the performance of our fundamental business activities and is also frequently used by securities analysts, investors and other interested parties in the evaluation of comparable companies. We rely on EBITDA as a primary measure to review and assess the operating performance of our company and management team in connection with our executive compensation plan

incentive
payments.

EBITDA has limitations as an analytical tool and you should not consider it in isolation, or as a substitute for analysis of our results as reported under Generally Accepted Accounting Principles (GAAP). Some of these limitations are:

EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debts;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements; and

Other companies may calculate EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using EBITDA only supplementally. EBITDA is a measure of our performance that is not required by, or presented in accordance with, GAAP. EBITDA is not a measurement of our financial performance under GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with GAAP or as an alternative to cash flow from operating activities as a measure of our liquidity.

The following table sets forth the reconciliation of EBITDA, a non-GAAP financial measure, to net (loss) income, our most directly comparable financial measure in accordance with GAAP (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
GAAP net (loss) income	\$ (2,603)	\$ 4,512	\$ 2,801	\$ 15,621
Interest income	(1,105)	(991)	(3,813)	(3,742)
Interest expense	87	96	253	231
Provision for income taxes	1,155	3,217	5,323	11,276

Depreciation of property and equipment and amortization of capitalized software and website costs	3,704	2,686	9,785	7,391
Amortization of acquired identifiable intangibles	5,475	8,014	19,602	20,253
EBITDA (Non-GAAP) (6)	\$ 6,713	\$ 17,534	\$ 33,951	\$ 51,030

(2) We consider a dealer to be active as of a date if the dealer completed at least one revenue-generating credit application processing transaction using the DealerTrack network during the most recently ended calendar month.

(3) We consider a financing source to be active in our network as of a date if it is accepting credit application data electronically from dealers in the DealerTrack network, including financing sources visible to dealers through drop down menus.

(4) Represents revenue-generating transactions processed in the DealerTrack, DealerTrack Digital Services and DealerTrack Canada networks at the end of a given period. The second quarter transaction

volume has been revised upwards by 1,204,000 transactions from the number previously reported.

- (5) Represents revenue-generating subscriptions in the DealerTrack and DealerTrack Canada networks at the end of a given period.
- (6) Included in EBITDA for the three and nine months ended September 30, 2008, is an impairment charge of \$5.7 million, related to the significant decline in certain auction rate securities. Refer to Note 4 in the accompanying notes to the consolidated financial statements included in this Quarterly Report on Form 10-Q for further information regarding the impairment charge.

Table of Contents

Revenue

Transaction Services Revenue. Transaction services revenue consists of revenue earned from our financing source customers for each credit application or contract that dealers submit to them. We also earn transaction services revenue from financing source customers for each financing contract executed via our electronic contracting and digital contract processing solutions, as well as for any portfolio residual value analyses we perform for them. We also earn transaction services revenue from dealers or other service and information providers, such as aftermarket providers, vehicle sales lead distributors, and credit report providers, for each fee-bearing product accessed by dealers.

Subscription Services Revenue. Subscription services revenue includes revenue earned from our customers (typically on a monthly basis) for use of our subscription or license-based products and services. Some of these subscription services enable dealer customers to manage their dealership data and operations, obtain valuable consumer leads, compare various financing and leasing options and programs, sell insurance and other aftermarket products, analyze inventory, and execute financing contracts electronically.

Cost of Revenue and Operating Expenses

Cost of Revenue. Cost of revenue primarily consists of expenses related to running our network infrastructure (including Internet connectivity and data storage), amortization expense on acquired intangible assets, compensation and related benefits for network and technology development personnel, amounts paid to third parties pursuant to contracts under which a portion of certain revenue is owed to those third parties (revenue share), direct costs (printing, binding, and delivery) associated with our residual value guides, installation and hardware costs associated with our dealership management system product offering, expenses related to our digital contract business, allocated overhead and amortization associated with capitalization of software.

Product Development Expenses. Product development expenses consist primarily of compensation and related benefits, consulting fees and other operating expenses associated with our product development departments. The product development departments perform research and development, as well as enhance and maintain existing products.

Selling, General and Administrative Expenses. Selling, general and administrative expenses consist primarily of compensation and related benefits, facility costs and professional services fees for our sales, marketing, customer service and administrative functions.

We allocate overhead such as occupancy and telecommunications charges, and depreciation expense to all departments based on headcount, as we believe this to be the most accurate measure. As a result, a portion of general overhead expenses is reflected in our cost of revenue and each operating expense category.

Critical Accounting Policies and Estimates

Our management's discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the amounts reported for assets, liabilities, revenue, expenses and the disclosure of contingent liabilities.

Our critical accounting policies are those that we believe are both important to the portrayal of our financial condition and results of operations and that involve difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The estimates are based on historical experience and on various assumptions about the ultimate outcome of future events. Our actual results may differ from these estimates in the event unforeseen events occur or should the assumptions used in the estimation process differ from actual results. Management believes there have been no material changes during the nine months ended September 30, 2008, except as noted below, to the critical accounting policies discussed in the section entitled

Management Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2007, filed with the SEC on February 28, 2008.

Table of Contents*Impairment of auction rate securities*

We reviewed our auction rate securities portfolio for an impairment charge in accordance with FAS 115-1 and FAS 124-1, *The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments* and Staff Accounting Bulletin Topic 5M *Other-Than-Temporary Impairment of Certain Investments in Debt and Equity Securities*, to determine the classification of the impairment as temporary or other-than-temporary. A temporary impairment charge results in an unrealized loss being recorded in the other comprehensive income component of shareholders' equity. It occurs if a loss in an investment is determined to be temporary in nature and we have the ability and intent to hold the investment until a recovery in market value takes place. Such an unrealized loss does not reduce our net income for the applicable accounting period because the loss is not viewed as other-than-temporary. An impairment charge is recorded against earnings to the extent we determine that there is a loss of fair value that is other-than-temporary.

As of September 30, 2008 our auction rate securities portfolio consisted of \$1.9 million of short-term and \$1.6 million of long-term investments in tax-exempt state government and university obligations and \$3.9 million of auction rate securities invested in tax-advantaged preferred stock trust securities. The \$1.9 million in short-term investments in tax-exempt state government and university obligations were liquidated at par subsequent to September 30, 2008. Our intent for the \$1.6 million of long-term investments in tax-exempt state government obligations is not to hold to maturity, but rather to use the interest rate reset feature to provide liquidity as necessary. The \$3.9 million of auction rate securities funds invested in tax-advantaged preferred stock trust securities, which have a par value of \$9.6 million, are associated with failed auctions and amounts will not be accessible until a successful auction occurs, a buyer is found outside the auction process or the trust dissolves and distributes the underlying securities. Included in our preferred stock trusts auction rate securities portfolio is a trust with a par value of \$2.2 million for which the underlying investment is a Freddie Mac preferred stock that was significantly impaired and is no longer paying interest.

The funds invested in tax-advantaged preferred stock trust securities were historically recorded at par, which approximated fair value based on quoted market transactions. Due to the lack of observable market quotes on our preferred stock trust securities due to failed auctions within the industry, we no longer had evidence that the par value of these investments approximated their fair market value and were required to seek other alternatives to determine the fair value of these securities which are not based on observable market transactions. As a result, we began estimating the fair values of these securities utilizing a discounted cash flow analysis as of March 31, 2008. Our valuation analyses consider, among other items, assumptions that market participants would use in their estimates of fair value, such as the collateral underlying the security, the creditworthiness of the issuer and any associated guarantees, the inability to sell the investment in an active market, the timing of expected future cash flows, and the expectation of the next time the security is expected to have a successful auction or when callability features may be exercised by the issuer. We believe there are several significant assumptions that are utilized in our valuation analysis, such as the discount rate and the probability of an auction passing or failing at each auction date and its associated expected discounted cash flows. Through the first six months of 2008 we recorded a temporary unrealized loss of \$0.5 million (net of taxes). However, due to the continued deterioration of the auction rate securities market subsequent to June 30, 2008, we continued to assess the fair value our auction rate security positions, and as a result, we reduced the fair value of the investments in the preferred stock trusts from a par value of \$9.6 million to \$3.9 million and recorded an other-than-temporary impairment charge of \$5.7 million for the three months ended September 30, 2008. We believe there is a reasonable likelihood that the trust securities could liquidate in the near term, and as such the fair value of the resulting securities we would own would be the underlying preferred instruments. Although these assumptions are subject to change as market conditions change, the underlying fair value of the preferred stock securities in the trusts is \$4.6 million as of September 30, 2008. Refer to Note 4 in the accompanying notes to the consolidated financial statements included in this Quarterly Report on Form 10-Q for further information regarding the impairment charge.

Results of Operations

The following table sets forth, for the periods indicated, the selected consolidated statements of operations data expressed as a percentage of revenue:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
	(% of net revenue)		(% of net revenue)	
Consolidated Statements of Operations				
Data:				
Net revenue	100.0%	100.0%	100.0%	100.0%
Operating costs and expenses:				
Cost of revenue	46.1	44.0	44.9	42.2
Product development	4.8	4.4	4.9	4.3
Selling, general and administrative	44.0	40.7	44.9	40.0

Table of Contents**Three Months Ended September 30, 2008 and 2007****Revenue**

	Three Months Ended September 30,	
	2008	2007
Transaction services revenue	\$ 33,007	\$ 39,096
Subscription services revenue	23,797	20,378
Other	3,721	3,397
Total net revenue	\$ 60,525	\$ 62,871

Total net revenue decreased \$2.4 million, or 4%, to \$60.5 million for the three months ended September 30, 2008 from \$62.9 million for the three months ended September 30, 2007.

Transaction Services Revenue. Transaction services revenue decreased \$6.1 million, or 16%, to \$33.0 million for the three months ended September 30, 2008 from \$39.1 million for the three months ended September 30, 2007. The decrease was primarily the result of a decline in the volume of transactions processed through our network to 19.2 million for the three months ended September 30, 2008 from 23.8 million for the three months ended September 30, 2007. The 19% decrease in transaction volume, as compared to the same period of the prior year, resulted in a \$7.9 million reduction in revenue in the current quarter. The ongoing tightening of the credit market caused a significant decline in the number of lending relationships between the various financing sources and automotive dealers available through our network; this, together with the continual decline in automobile sales has meaningfully impacted our transaction volume compared to historical levels. The revenue decline of \$7.9 million related to the decrease in transaction volume was offset by a \$1.5 million increase in the average transaction price to \$1.72 for the three months ended September 30, 2008 from \$1.64 for the three months ended September 30, 2007. The contributing factor to the increase in average transaction price was the 43% increase in financing source customers active in our network to 706 as of September 30, 2008 from 495 as of September 30, 2007. The additional 211 financing source customers added are lower transaction volume customers with higher price per application tiers.

Subscription Services Revenue. Subscription services revenue increased \$3.4 million, or 17%, to \$23.8 million for the three months ended September 30, 2008 from \$20.4 million for the three months ended September 30, 2007. Revenue growth was favorably impacted by the increase in the total number of subscriptions to 33,123 as of September 30, 2008 from 27,469 as of September 30, 2007, offset by a 5% decrease in the average subscription price to \$244 for the three months ended September 30, 2008 from \$256 for the three months ended September 30, 2007 resulting from a change in the subscription product mix. These factors contributed \$2.9 million to the increase in revenue.

Cost of Revenue and Operating Expenses

	Three Months Ended September 30,	
	2008	2007
Cost of revenue	\$ 27,940	\$ 27,678
Product development	2,875	2,761
Selling, general and administrative	26,654	25,598
Total cost of revenue and operating expenses	\$ 57,469	\$ 56,037

Cost of Revenue. Cost of revenue increased \$0.2 million to \$27.9 million for the three months ended September 30, 2008 from \$27.7 million for the three months ended September 30, 2007. The \$0.2 million increase was primarily the result of increased compensation and benefits related costs of \$1.1 million and increased occupancy and telecommunications costs of \$0.2 million both due to headcount additions and salary increases, \$0.5 million of technology expense, offset by a decrease in amortization and depreciation charges of \$1.7 million.

Product Development Expenses. Product development expenses increased \$0.1 million, or 4%, to \$2.9 million for the three months ended September 30, 2008 from \$2.8 million for the three months ended September 30, 2007. The \$0.1 million increase was primarily a result of increased compensation and related benefit costs and occupancy and telecommunications costs of \$0.1 million due to headcount additions and salary increases.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$1.1 million, or 4%, to \$26.7 million for the three months ended September 30, 2008 from \$25.6 million for the three months ended September 30, 2007. The \$1.1 million increase in selling, general and administrative expenses was primarily the result of increased compensation and related benefit costs of approximately \$0.8 million due to headcount additions and salary increases, \$1.3 million in increased professional fees related primarily to pending litigation, offset by a decrease in marketing costs of \$0.8 million and public company costs of \$0.2 million.

Table of Contents***Impairment of auction rate securities***

	Three Months Ended September 30,	
	2008	2007
Impairment of auction rate securities	\$(5,664)	\$

We measured the fair value of our auction rate securities as of September 30, 2008, and determined that the valuation of certain of our auction rate securities had significantly declined from the previously reported amounts. As a result we recognized a \$5.7 million impairment charge for the three months ended September 30, 2008. Refer to Note 4 in the accompanying notes to the consolidated financial statements included in this Quarterly Report on Form 10-Q for further information regarding the impairment charge.

Provision for Income Taxes

	Three Months Ended September 30,	
	2008	2007
Provision for income taxes, net	\$(1,155)	\$(3,217)

The provision for income taxes for the three months ended September 30, 2008 of \$1.2 million consisted primarily of \$0.4 million of federal tax expense, \$1.3 million of tax expense for our Canadian subsidiary, offset by a state and local income tax benefit of \$0.5 million. The provision for income taxes for the three months ended September 30, 2007 of \$3.2 million consisted primarily of \$2.0 million of federal tax expense, \$0.3 million of state and local income taxes, and \$0.9 million of tax expense for our Canadian subsidiaries. Included in tax expense for our Canadian subsidiary for the three months ended September 30, 2008 and 2007 is \$0.3 million and \$0.3 million, respectively, for a permanent item relating to intangible amortization. These amounts have a (21.8)% and 4.2% impact on the effective tax rate for the three months ended September 30, 2008 and 2007, respectively. Our effective tax rate for the three months ended September 30, 2008 is (79.8)% compared with 41.6% for the three months ended September 30, 2007. The primary reason for the variation in tax rates, and the negative tax rate, is the impairment loss on auction rate securities recorded during the three months ended September 30, 2008. No tax benefit is recorded with respect to the impairment loss recorded on the auction rate securities. If such securities were sold and the losses were realized for tax purposes, the losses on such sales would be capital losses. Capital losses generally may only be used to offset income from capital gains. Since the Company does not anticipate any capital gains in the foreseeable future, no tax benefit is recognized with respect to the impairment losses as it is not likely that tax benefits would ultimately be realized from such losses. Had it not been for the significant tax rate variation resulting from the impact of the impairment losses our effective tax rate for the three months ended September 30, 2008 would have been 27.4% compared with 41.6% for the three months ended September 30, 2007. The primary reason for the reduction in tax rate are the impact of rate changes on deferred taxes, tax return true-ups, and an increase in tax exempt or tax preferred income as a percentage of overall pre-tax income. The rate reduction attributable to tax return true-ups is primarily the result of state and local tax reductions due to planning initiatives.

Nine Months Ended September 30, 2008 and 2007***Revenue***

	Nine Months Ended September 30,	
	2008	2007
Transaction services revenue	\$ 107,495	\$ 111,982
Subscription services revenue	69,060	53,591
Other	11,459	7,530

Total net revenue	\$ 188,014	\$ 173,103
-------------------	------------	------------

Total net revenue increased \$14.9 million, or 9%, to \$188.0 million for the nine months ended September 30, 2008 from \$173.1 million for the nine months ended September 30, 2007.

20

Table of Contents

Transaction Services Revenue. Transaction services revenue decreased \$4.5 million, or 4%, to \$107.5 million for the nine months ended September 30, 2008 from \$112.0 million for the nine months ended September 30, 2007. This decrease was primarily due to the decline in the volume of transactions processed through our network to 65.4 million for the nine months ended September 30, 2008 from 70.0 million for the nine months ended September 30, 2007. The 7% decrease in transaction volume, as compared to the same period for the prior year, resulted in a \$7.7 million reduction in revenue in the first nine months of 2008. The ongoing tightening of the credit market caused a significant decline in the number of lending relationships between the various financing sources and automotive dealers available through our network; this together with the continual decline in automobile sales, has meaningfully impacted our transaction volume compared to historical levels. The revenue decline of \$7.7 million related to the decrease in transaction volume was offset by a \$2.8 million increase in the average transaction price to \$1.64 for the nine months ended September 30, 2008 from \$1.60 for the nine months ended September 30, 2007. The contributing factor to the increase in average transaction price was the 43% increase in financing source customers active in our network to 706 as of September 30, 2008 from 495 as of September 30, 2007. The additional 211 financing source customers added are lower transaction volume customers with higher price per application tiers.

Subscription Services Revenue. Subscription services revenue increased \$15.5 million, or 29%, to \$69.1 million for the nine months ended September 30, 2008 from \$53.6 million for the nine months ended September 30, 2007. Revenue growth was favorably impacted by the increase in the total number of subscriptions to 33,123 as of September 30, 2008 from 27,469 as of September 30, 2007, together with a 2% increase in the average subscription price to \$247 for the nine months ended September 30, 2008 from \$243 for the nine months ended September 30, 2007 resulting from a change in the subscription product mix. These factors contributed \$13.9 million to the increase in revenue which includes \$2.0 million related to acquisitions.

Other Revenue. Other revenue increased \$3.9 million, or 52%, to \$11.4 million for the nine months ended September 30, 2008 from \$7.5 million for the nine months ended September 30, 2007. The \$3.9 million increase was primarily resulting from approximately \$4.0 million increase in dealer management system installation revenue from our Arkona business acquired in June 2007.

Cost of Revenue and Operating Expenses

	Nine Months Ended September 30,	
	2008	2007
Cost of revenue	\$ 84,431	\$ 73,136
Product development	9,101	7,422
Selling, general and administrative	84,396	69,159
Total cost of revenue and operating expenses	\$ 177,928	\$ 149,717

Cost of Revenue. Cost of revenue increased \$11.3 million, or 15%, to \$84.4 million for the nine months ended September 30, 2008 from \$73.1 million for the nine months ended September 30, 2007. The \$11.3 million increase was primarily the result of increased amortization and depreciation charges of \$1.0 million, coupled with increased compensation and related benefits costs of \$4.9 million and increased occupancy and telecommunications costs of \$0.6 million due to headcount additions and salary increases, \$1.7 million of technology expense, \$1.8 million in cost of revenue from our dealer management system business and \$0.4 million in increased stock-based compensation expense due to additional stock options and restricted common stock awards granted since September 30, 2007.

Product Development Expenses. Product development expenses increased \$1.7 million or 23%, to \$9.1 million for the nine months ended September 30, 2008 from \$7.4 million for the nine months ended September 30, 2007. The \$1.7 million increase was primarily a result of increased compensation and related benefit costs of \$1.3 million and occupancy and telecommunications costs of \$0.1 million both due to headcount additions and salary increases, and increased depreciation expense of \$0.1 million.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$15.2 million, or 22%, to \$84.4 million for the nine months ended September 30, 2008 from \$69.2 million for the nine months ended September 30, 2007. The \$15.2 million increase in selling, general and administrative expenses was primarily the result of increased compensation and related benefit costs of approximately \$6.3 million due to headcount additions and salary increases, \$6.7 million in increased professional fees related primarily to pending litigation, \$2.0 million in increased stock-based compensation expense due to additional stock options and restricted common stock awards granted since September 30, 2007 and \$0.6 million in increased depreciation expense, offset by a decrease in marketing expenses of \$0.9 million.

Table of Contents***Impairment of auction rate securities***

	Nine Months Ended September 30,	
	2008	2007
Impairment of auction rate securities	\$(5,664)	\$

We measured the fair value of our auction rate securities as of September 30, 2008, and determined that the valuation of certain of our auction rate securities had significantly declined from the previously reported amounts. As a result we recognized a \$5.7 million impairment charge for the nine months ended September 30, 2008. Refer to Note 4 in the accompanying notes to the consolidated financial statements included in this Quarterly Report on Form 10-Q for further information regarding the impairment charge.

Provision for Income Taxes

	Nine Months Ended September 30,	
	2008	2007
Provision for income taxes, net	\$(5,323)	\$(11,276)

The provision for income taxes for the nine months ended September 30, 2008 of \$5.3 million consisted primarily of \$2.0 million of federal tax expense, and \$3.3 million of tax expense for our Canadian subsidiary. The provision for income taxes for the nine months ended September 30, 2007 of \$11.3 million consisted primarily of \$8.0 million of federal tax expense, \$1.1 million of state and local income taxes, \$0.5 million of adjustments due to a change in the New York State tax rate, and \$1.7 million of tax expense for our Canadian subsidiaries. Included in tax expense for our Canadian subsidiary for the nine months ended September 30, 2008 and 2007 is \$1.0 million and \$0.8 million, respectively, for a permanent item relating to intangible amortization. These amounts have a 12.3% and 3.0% impact on the effective tax rate for the nine months ended September 30, 2008 and 2007, respectively. Our effective tax rate for the nine months ended September 30, 2008 is 65.5% compare with 41.9% for the nine months ended September 30, 2007. The primary reason for the variation in tax rates is the impairment loss on auction rate securities recorded during the nine months ended September 30, 2008. No tax benefit is recorded with respect to the impairment loss recorded on the auction rate securities. If such securities were sold and the losses were realized for tax purposes, the losses on such sales would be capital losses. Capital losses generally may only be used to offset income from capital gains. Since the Company does not anticipate any capital gains in the foreseeable future, no tax benefit is recorded with respect to the impairment losses as it is not likely that tax benefits would ultimately be realized from such losses. Had it not been for the significant tax rate variation resulting from the impact of the impairment losses, our effective tax rate for the nine months ended September 30, 2008 would have been 38.6% compared with 41.9% for the nine months ended September 30, 2007. The primary reason for the reduction in tax rate are the impact of rate changes on deferred taxes, tax return true-ups, and an increase in tax exempt or tax preferred income as a percentage of overall pre-tax income. The rate reduction attributable to tax return true-ups is primarily the result of state and local tax reductions due to planning initiatives.

Liquidity and Capital Resources

Our liquidity requirements will continue to be for working capital, acquisitions, capital expenditures and general corporate purposes. Our capital expenditures, software and web site development costs for the nine months ended September 30, 2008 were \$13.6 million, of which \$11.7 million was in cash. We expect to finance our future liquidity needs through working capital and cash flows from operations, however future acquisitions or other strategic initiatives may require us to incur or seek additional financing. On April 15, 2008, our \$25.0 million revolving credit facility expired and was not renewed.

As of September 30, 2008, we had \$135.3 million of cash and cash equivalents, \$59.0 million in short-term investments, \$5.5 million in non-current investments and \$199.4 million in working capital, as compared to \$50.6 million of cash and cash equivalents, \$169.6 million in short-term investments and \$222.8 million in working capital as of December 31, 2007.

As of September 30, 2008, there was \$30.3 million remaining in our stock repurchase program to purchase our common stock through March 31, 2009. The stock repurchase program may be limited or terminated at any time by our Board of Directors without prior notice.

Under the terms of the merger agreement with AutoStyleMart, Inc. and Curomax Corporation, we have future contingent payment obligations of up to \$11.0 million and \$2.2 million in cash, respectively, based upon the achievement of certain operational targets. As of September 30, 2008, we are uncertain if the operational targets for the earnouts for AutoStyleMart, Inc. will be achieved, and as such no compensation expense or purchase price has been recorded in connection with the contingent payment obligation. For Curomax Corporation, as of September 30, 2008, we have determined that certain operational conditions have been met and as such, we have recorded a liability of approximately \$1.7 million that is expected to be paid out during the first quarter of 2009. The operational conditions related to the remaining amount of \$0.5 million for Curomax Corporation were not achieved and will not be paid. The additional purchase consideration was recorded as goodwill. We will continue to re-assess the probability of achievement of the operational targets on a quarterly basis. For further information see Note 3 included in our Annual Report on Form 10-K for the year ended December 31, 2007.

Table of Contents

Reductions in interest rates and changes in investments could materially impact our interest income and may negatively impact future reported operating results and earnings per share.

Based on our available cash and other investments, we do not currently anticipate a lack of liquidity caused by failed auctions will have a material adverse effect on our operating cash flows. Refer to Note 4 in the accompanying notes to the consolidated financial statements included in this Quarterly Report on Form 10-Q for further information regarding the impairment charge.

The following table sets forth the cash flow components for the following periods (in thousands):

	Nine Months Ended	
	September 30,	
	2008	2007
Net cash provided by operating activities	\$ 44,330	\$ 33,143
Net cash provided by (used in) investing activities	\$ 84,246	\$(46,766)
Net cash (used in) provided by financing activities	\$(42,779)	\$ 10,498

Operating Activities

Net cash provided by operating activities of \$44.3 million for the nine months ended September 30, 2008 was primarily attributable to net income of \$2.8 million, which includes depreciation and amortization of \$29.4 million, stock-based compensation expense of \$10.4 million, an increase to the provision for doubtful accounts and sales credits of \$6.0 million, an impairment recognized on auction rate securities of \$5.7 million (Refer to Note 4 in the accompanying notes to the consolidated financial statements included in this Quarterly Report on Form 10-Q for further information regarding the impairment charge), an increase to deferred revenue and other current liabilities of \$1.0 million, and an increase in other long-term liabilities of \$2.1, partially offset by decreases in accounts payable and accrued expenses of \$5.6 million, a deferred tax benefit of \$1.9 million, a stock-based compensation windfall tax benefit of \$0.4 million, an increase in prepaid expenses and other current assets of \$1.0 million, and an increase in accounts receivable of \$4.6 million due to an overall increase in revenue. Net cash provided by operating activities of \$33.1 million for the nine months ended September 30, 2007 was primarily attributable to net income of \$15.6 million, which includes depreciation and amortization of \$27.6 million, stock-based compensation expense of \$8.0 million, an increase to the provision for doubtful accounts and sales credits of \$3.9 million, an increase in accounts payable and accrued expenses of \$2.9 million and an increase to deferred revenue and other current liabilities of \$0.3 million, partially offset by a deferred tax benefit of \$5.0 million, a stock-based compensation windfall tax benefit of \$6.2 million, and an increase in accounts receivable of \$13.9 million due to an overall increase in revenue.

Investing Activities

Net cash provided by investing activities of \$84.2 million for the nine months ended September 30, 2008 was primarily attributable to the net sale of investments of \$99.2 million offset by capital expenditures of \$4.9 million, capitalized software and web site development costs of \$6.8 million, and the payment for net assets acquired of \$3.5 million. Net cash used in investing activities of \$46.8 million for the nine months ended September 30, 2007 was attributable to capital expenditures of \$4.3 million, capitalized software and website development costs of \$4.4 million, and payments for net assets acquired of \$109.4 million, offset by the net sale of short-term investments of \$71.4 million.

Financing Activities

Net cash used in financing activities of \$42.8 million for the nine months ended September 30, 2008 was primarily attributable to the repurchase of 2.6 million shares of common stock for an aggregate price of approximately \$44.7 million, offset by the net proceeds received from employee stock purchases under our employee stock purchase plan of \$1.4 million and the exercise of employee stock options of \$0.9 million. Net cash provided by financing activities of \$10.5 million for the nine months ended September 30, 2007 was attributable to the receipt of cash proceeds from the exercise of employee stock options of \$3.5 million, net proceeds received from employee stock purchases under our employee stock purchase plan of \$1.3 million, and stock-based compensation windfall tax benefit of \$6.2 million offset by principal payment on notes payable and capital lease obligations of \$0.4 million.

Contractual Obligations

As of September 30, 2008, there were no material changes in our contractual obligations as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2007 except for an inventory purchase agreement entered into on June 23, 2008. Under the terms of the inventory purchase agreement we agreed to purchase 2,000 ePad units for approximately \$0.3 million. As of September 30, 2008, we have only received 390 units.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements or relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which are typically established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Table of Contents**Industry Trends**

The United States and global economies are currently undergoing a period of economic uncertainty, and the financing environment, automobile industry and stock markets are experiencing high levels of volatility. The tightening of the credit markets has caused a significant decline in the number of lending relationships between the various financing sources and automotive dealers available through our network. At the same time, the overall decrease in automobile sales, which were at an 11-year low for the first nine months of 2008, has reduced the number of automobile dealers. Together, these factors have meaningfully impacted our transaction volume compared to historical levels. Our financial results are impacted by trends in the number of dealers serviced and the level of indirect financing and leasing by our participating financing source customers, special promotions by automobile manufacturers and the level of indirect financing and leasing by captive finance companies not available in our network. We expect to continue to experience challenges due to the ongoing adverse outlook for the credit markets and automobile sales. In addition, volatility in our stock price and declines in our market capitalization could impair the carrying value of our goodwill and other long-lived assets. As a result, we may be required to write-off some of our goodwill or long-lived assets if these conditions persist for an extended period of time.

Effects of Inflation

Our monetary assets, consisting primarily of cash and cash equivalents, receivables and long-term investments, and our non-monetary assets, consisting primarily of intangible assets and goodwill, are not affected significantly by inflation. We believe that replacement costs of equipment, furniture and leasehold improvements will not materially affect our operations. However, the rate of inflation affects our expenses, which may not be readily recoverable in the prices of products and services we offer.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk***Foreign Currency Exposure**

We only have operations located in, and provide services to, customers in the United States and Canada. Our earnings are affected by fluctuations in the value of the U.S. dollar as compared with the Canadian dollar. Our exposure is mitigated, in part, by the fact that we incur certain operating costs in the same foreign currency in which revenue is denominated. The foreign currency exposure that does exist is limited by the fact that the majority of transactions are paid according to our standard payment terms, which are generally short-term in nature.

Interest Rate Exposure

As of September 30, 2008, we had cash, cash equivalents, short-term investments and non-current investments of \$199.7 million invested in money market instruments, corporate bonds, municipal notes and tax-exempt auction rate securities and tax advantaged preferred stock trust securities. Such investments are subject to interest rate and credit risk. Our policy of investing in securities with original maturities of three months or less minimizes our interest and credit risk.

We reduced the par value of our investments in preferred stock trusts from \$9.6 million to \$3.9 million and recorded an other-than-temporary impairment charge of \$5.7 million for the three months ended September 30, 2008. Refer to Note 4 in the accompanying notes to the consolidated financial statements included in this Quarterly Report on form 10-Q for further information regarding the impairment charge.

Item 4. *Controls and Procedures***Disclosure Controls and Procedures**

We carried out an evaluation under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. In designing and evaluating our disclosure controls and procedures, we and our management recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating and implementing possible controls and procedures. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that they believe that, as of the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

Edgar Filing: DealerTrack Holdings, Inc. - Form 10-Q

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are a party to litigation matters arising in connection with the normal course of our business, none of which is expected to have a material adverse effect on us. In addition to the litigation matters arising in connection with the normal course of our business, we are party to the litigation described below.

DealerTrack Inc. v. RouteOne LLC

On January 28, 2004, we filed a Complaint and Demand for Jury Trial against RouteOne LLC (RouteOne) in the United States District Court for the Eastern District of New York, Civil Action No. CV 04-322 (SJF). The complaint sought injunctive relief as well as damages against RouteOne for infringement of two patents owned by us, which relate to computer implemented automated credit application analysis and decision routing inventions (the Patents). The complaint also sought relief for RouteOne's acts of copyright infringement, circumvention of technological measures and common law fraud and unfair competition.

The court approved a joint stipulation of dismissal with respect to this action. Pursuant to the joint stipulation, the patent count has been dismissed without prejudice to be pursued as part of the below consolidated actions and all other counts have been dismissed with prejudice.

DealerTrack, Inc. v. Finance Express et al., CV-06-2335:

DealerTrack Inc. v. RouteOne and Finance Express et al., CV-06-6864; and

DealerTrack Inc. v. RouteOne and Finance Express et al., CV-07-215

On April 18, 2006, we filed a Complaint and Demand for Jury Trial against David Huber, Finance Express LLC (Finance Express), and three of their unnamed dealer customers in the United States District Court for the Central District of California, Civil Action No. CV-06-2335 AG (FMOx). The complaint seeks declaratory and injunctive relief, as well as, damages against the defendants for infringement of the Patents. We also are seeking relief for acts of copyright infringement and unfair competition.

On June 8, 2006, David Huber and Finance Express filed their answer and counterclaims. The counterclaims seek damages for libel related to an allegation in the complaint, breach of contract, deceit, actual and constructive fraud, misappropriation of trade secrets and unfair competition related to a confidentiality agreement between the parties. On October 26, 2006, the Court dismissed the counterclaim for libel pursuant to a motion by us.

On October 27, 2006, we filed a Complaint and Demand for Jury Trial against RouteOne, David Huber and Finance Express in the United States District Court for the Central District of California, Civil Action No. CV-06-6864 (SJF). The complaint seeks declaratory and injunctive relief as well as damages against the defendants for infringement of the Patents. On November 28, 2006 and December 4, 2006, respectively, defendants RouteOne, David Huber and Finance Express filed their answers. Finance Express also asserted counterclaims for breach of contract, deceit, actual and constructive fraud, misappropriation of trade secrets and unfair competition related to a confidentiality agreement between Finance Express and us.

On February 20, 2007, we filed a Complaint and Demand for Jury Trial against RouteOne, David Huber and Finance Express in the United States District Court for the Central District of California, Civil Action No. CV-07-215 (CWx). The complaint seeks declaratory and injunctive relief as well as damages against the defendants for infringement of U. S. Pat. No. 7,181,427 (the 427 Patent). On April 13, 2007 and April 17, 2007, respectively, defendants RouteOne, David Huber and Finance Express filed their answers. RouteOne, David Huber and Finance Express asserted counterclaims for a declaratory judgment of unenforceability due to inequitable conduct with respect to the 427 Patent and the Patents. David Huber and Finance Express also asserted counterclaims for breach of contract, deceit, actual and constructive fraud, misappropriation of trade secrets and unfair competition related to a confidentiality agreement between Finance Express and us.

The DealerTrack, Inc. v. Finance Express et al., CV-06-2335 action, the DealerTrack Inc. v. RouteOne and Finance Express et al., CV-06-6864 action and the DealerTrack v. RouteOne and Finance Express et al., CV-07-215 action, described above, have been consolidated by the court. A hearing on claims construction, referred to as a *Markman* hearing, was held on September 25, 2007. Fact and expert discovery are completed, as well as motions for summary judgment.

On July 21, 2008, the court resolved disputed issues of inventorship, validity, inequitable conduct, and RouteOne's exposure to a willful infringement claim, in our favor. These rulings eliminate certain defenses by RouteOne and Finance Express.

On September 30, 2008, Judge Gilford, the federal district court judge in the central district of California hearing our case, issued his *Markman Ruling* on claim interpretation. In a patent infringement case the plaintiff, DealerTrack, only needs one claim in one patent to win the case. Judge Gilford ruled that three of DealerTrack's claims in its 427 patent, the most recently issued, were not invalid as RouteOne had claimed and that DealerTrack may proceed in its case of infringement against Route One on the claims in this patent.

In other rulings, the court found that claims of two other issued patents in the lawsuit were either not infringed or invalid.

The jury trial, which was scheduled for October 28, 2008, has now been rescheduled for February 24, 2009.

We intend to pursue our claims and defend any counterclaims vigorously.

We believe that the potential liability from all current litigations will not have a material effect on our financial position or results of operations when resolved in a future period.

Table of Contents**Item 1A. Risk Factors**

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in the section entitled "Risk Factors" in Part I, Item 1A. of our Annual Report on Form 10-K for the year ended December 31, 2007, which was filed with the SEC on February 28, 2008, that could materially affect our business, financial condition or results of operations. The risks described in that Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition and/or results of operations. There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2007, except as set forth below.

Funds associated with certain of our auction rate securities may not be accessible for in excess of 12 months and our auction rate securities may experience an other than temporary decline in value, which would adversely affect our income.

As of September 30, 2008, approximately \$3.9 million of our investment portfolio consisted of preferred stock trust auction rate securities. These securities have come up for auction and the auctions have failed. As of September 30, 2008, we have \$5.7 million in other than temporary impairment charges related to these securities. The valuation of our auction rate securities is subject to uncertainties that are difficult to predict and we may be required to further reduce the carrying value of these securities which would result in an additional loss being recognized in our statement of operations, which could be material. The funds associated with failed auctions will not be accessible until a successful auction occurs, a buyer is found outside of the auction process or the trust dissolves and distributes the underlying securities. As a result, we have classified those securities with failed auctions as long-term assets in our consolidated balance sheet. Based on our available cash and other investments, we do not currently anticipate that the lack of liquidity caused by failed auctions related to these securities will have a material adverse effect on our operating cash flows or will affect our ability to operate our business as usual. Refer to Note 4 in the accompanying notes to the consolidated financial statements included in this Quarterly Report on Form 10-Q for further information regarding the impairment charge.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
Purchases of Equity Securities by the Issuer

From time to time, in connection with the vesting of restricted common stock under our Amended and Restated 2005 Incentive Award Plan, we may receive shares of our common stock from certain restricted common stockholders in consideration of the tax withholdings due upon the vesting of restricted common stock. Additionally, on March 18, 2008, the Board of Directors authorized a stock repurchase programs under which we may spend up to \$75.0 million to repurchase our common stock. Stock repurchases under this program may be made on the open market, through 10b5-1 programs, or in privately negotiated transactions in accordance with all applicable laws, rules and regulations. The transactions may be made from time to time without prior notice and in such amounts as management deems appropriate and will be funded from cash on hand. The number of shares to be repurchased and the timing of repurchases will be based on several factors, including the price of our common stock, legal or regulatory requirements, general business and market conditions, and other investment opportunities. The stock repurchase program will expire on March 31, 2009, but may be limited or terminated at any time by the Board of Directors without prior notice. From inception of the program through September 30, 2008, we repurchased approximately 2.6 million shares of common stock for an aggregate price of approximately \$44.7 million, of which 1.6 million shares of common stock for an aggregate price of \$25.6 million was repurchased during the three months ended September 30, 2008.

The following table sets forth the repurchases for the three months ended September 30, 2008:

		Total Number of Shares Purchased as Part of	Maximum Number of Shares That
Total	Average		

Period	Number of Shares Purchased	Price Paid per Share	Publicly Announced Program	May Yet be Purchased Under the Program
July 2008	1,005,716	\$ 14.84	1,005,716	(1)
August 2008	175,508	\$ 17.47	175,000	(1)
September 2008	420,000	\$ 18.33	420,000	(1)
Total	1,601,224			

(1) As of September 30, 2008, an additional \$30.3 million of our common stock may still be purchased under the repurchase program.
