Supplemental Information to the Schedule of InvestmentsAdoption of Statement of Financial Accounting Standards No. 157 - Fair Value Measurements

In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( SFAS 157 ), was issued and is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The Fund adopted SFAS 157 effective with the March 31, 2008 quarterly reporting on portfolio holdings. The three levels of the fair value hierarchy under SFAS 157 are described below:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other significant observable inputs (including, but not limited to: quoted prices for similar securities, interest rates, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. A summary of the inputs used to value the Fund's net assets as of March 31, 2009, is as follows:

| <b>Valuation Inputs</b>                     | <b>Investments in Securities</b> |
|---|----------------------------------|
| Level 1 Quoted Prices                       | \$ 616,070,680                   |
| Level 2 Other Significant Observable Inputs | 1,492,369                        |
| Level 3 Significant Unobservable Inputs     | 3,077,914                        |
| <b>Total</b>                                | <b>\$ 620,640,963</b>            |

The following is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:
