Pro Forma Financial Information

Furnished as Exhibit 99.1 and incorporated herein by reference are the unaudited pro forma condensed combined financial statements of the Company for the year ended December 31, 2008 and as of and for the three months ended March 31, 2009. The pro forma financial statements give pro forma effect to the pending acquisition of the pharmacy benefit management business of Wellpoint, Inc. (the PBM Business) and certain proposed financing transactions. The pro forma financial statements are derived from the historical financial statements of the Company and the PBM Business. The pro forma financial statements, which have been prepared in connection with the proposed financing transactions, are preliminary and reflect a number of assumptions, including, among others, that the acquisition and the proposed financing transactions will be consummated. There can be no assurance that any of such transactions will be consummated or that the actual terms of such transactions will not differ materially from the Company's current expectations. The Company intends to file revised pro forma financial statements following the completion of the acquisition and such revised pro forma financial statements will update and replace the preliminary pro forma financial statements filed herewith.

Consolidating Guarantor Financial Information

The Company expects that certain of its 100% owned domestic subsidiaries will jointly and severally and fully and unconditionally guarantee the Company's obligations under the indenture governing the debt securities that the Company intends to issue in connection with certain proposed financing transactions. Set forth in Note 16 to the Company's audited consolidated financial statements attached hereto as Exhibit 99.2 and incorporated herein by reference, the Company has included condensed consolidating financial information for the fiscal years 2008, 2007 and 2006. Set forth in Note 10 to the Company's unaudited consolidated financial statements attached hereto as Exhibit 99.3 and incorporated herein by reference, the Company has included condensed consolidating financial information for the three months ended March 31, 2009 and 2008.

Revised Segment Information

As previously reported in the Company's Quarterly Report on Form 10-Q for the period ended March 31, 2009, during the first quarter of 2009, the Company changed its reportable segments from Pharmacy Benefit Management (PBM) and Specialty Ancillary Services (SAAS) to PBM and Emerging Markets. The Specialty Pharmacy operations, which were previously in the Company's SAAS segment, have been operationally integrated with the Company's PBM operations in order to maximize its growth and improve efficiency. The Company has replaced the following items that were contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 to reflect the new reportable segments:

Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations; and

Item 8: Financial Statements and Supplementary Data.

The adjusted segment information constitutes a reclassification and has no impact on reported net income or earnings per share for any period. The adjusted disclosures referenced above are set forth in Exhibit 99.2 and incorporated herein by reference.
