**GREAT WOLF RESORTS, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited; dollars in thousands, except share and per share amounts)**

**1. ORGANIZATION**

The terms Great Wolf Resort®, us, we and our are used in this report to refer to Great Wolf Resorts, Inc. and its consolidated subsidiaries.

**Business Summary**

We are the largest owner, licensor, operator and developer in North America of drive-to, destination family resorts featuring indoor waterparks and other family-oriented entertainment activities based on the number of resorts in operation. Each of our resorts features approximately 300 to 600 family suites, each of which sleeps from six to ten people and includes a wet bar, microwave oven, refrigerator and dining and sitting area. We provide a full-service entertainment resort experience to our target customer base: families with children ranging in ages from 2 to 14 years old that live within a convenient driving distance of our resorts. We operate and license resorts under our Great Wolf Lodge® and Blue Harbor Resort™ brand names and have entered into licensing arrangements with third parties relating to the operation of resorts under the Great Wolf Lodge brand name. Our resorts are open year-round and provide a consistent, comfortable environment where our guest can enjoy our various amenities and activities.

We provide our guests with a self-contained vacation experience and focus on capturing a significant portion of their total vacation spending. Our resorts earn revenues through the sale of rooms (which includes admission to our indoor waterpark), and other revenue-generating resort amenities. Each of our resorts features a combination of the following revenue-generating amenities: themed restaurants, ice cream shop and confectionery, full-service adult spa, kid spa, game arcade, gift shop, miniature golf, interactive game attraction, family tech center and meeting space. We also generate revenues from licensing arrangements, management fees and other fees with respect to our operation or development of properties owned in whole or in part by third parties.

Each of our Great Wolf Lodge resorts has a Northwoods lodge theme, designed in a Northwoods cabin motif with exposed timber beams, a massive stone fireplace, Northwoods creatures, including mounted wolves, and an animated two-story Clock Tower that provides theatrical entertainment for younger guests. All of our guest suites are themed luxury suites, ranging in size from approximately 385 square feet to 1,970 square feet.

The indoor waterparks in our Great Wolf Lodge resorts range in size from approximately 34,000 to 84,000 square feet and are decorated consistent with our resort motif. The focus of each Great Wolf Lodge waterpark is our signature 12-level treehouse waterfort, an interactive water experience for the entire family that features over 60 water effects and is capped by an oversized bucket that dumps between 700 to 1,000 gallons of water every five minutes. Our waterparks also feature a combination of high-speed body slides and inner tube waterslides, smaller slides for younger children, zero-depth water activity pools with geysers, a water curtain, fountains and tumble buckets, a lazy river, additional activity pools for basketball, open swimming and other water activities and large free form hot tubs, including hot tubs for adults only.

On June 7, 2010, we acquired a 62.4% equity interest in Creative Kingdoms (CK) in exchange for all of the \$8,700 principal balance, plus accrued interest of \$1,263, of convertible indebtedness owed to us by CK. CK is a developer of experiential gaming products including MagiQuest®, an interactive game attraction available at nine of our resorts. CK also licenses or has sold to other parties several stand-alone MagiQuest facilities or similar attractions.

The following table presents an overview of our portfolio of resorts. As of June 30, 2010, we operated, managed and/or have entered into licensing arrangements relating to the operation of 11 Great Wolf Lodge resorts (our signature

**Table of Contents**

Northwoods-themed resorts) and one Blue Harbor Resort (a nautical-themed property). We anticipate that most of our future resorts will be licensed and/or developed under our Great Wolf Lodge brand, but we may operate and/or enter into licensing arrangements with regard to additional nautical-themed resorts under our Blue Harbor Resort brand or other resorts in appropriate markets.

Concord, NC (4)	100%	2009	402		97,000

(1) Condominium units are individually owned by third parties and are managed by us.

(2) Our indoor entertainment areas generally include our indoor waterpark, game arcade, children s activity room, family tech center, MagiQuest and fitness room, as well as our spa in the resorts that have such amenities.

- (3) These properties are owned by CNL Lifestyle Properties, Inc. (CNL), a real estate investment trust focused on leisure and lifestyle properties. Prior to August 2009, these properties were owned by a joint venture between CNL and us. In August 2009, we sold our 30.26% joint venture interest to CNL for \$6,000. We currently manage both properties and license the Great Wolf Lodge brand to these resorts.
- (4) Five of our properties (Great Wolf Lodge resorts in Williamsburg, VA; Pocono Mountains, PA; Mason, OH; Grapevine, TX and Concord, NC) each had a book value of fixed assets equal to ten percent or more of our total assets as of June 30, 2010 and each of those five

properties had total revenues equal to ten percent or more of our total revenues for the three and six months ended June 30, 2010.

- (5) An affiliate of Ripley Entertainment, Inc. (Ripley), our licensee, owns this resort. We have granted Ripley a license to use the Great Wolf Lodge name for this resort through April 2016. We managed the resort on behalf of Ripley through April 2009.
  
- (6) This property is owned by a joint venture. The Confederated Tribes of the Chehalis Reservation (Chehalis) owns a 51% interest in the joint venture, and we own a 49% interest. We operate the property and license the Great Wolf Lodge brand to the property under long-term agreements

through  
April 2057,  
subject to earlier  
termination in  
certain  
situations. The  
joint venture  
leases the land  
for the resort  
from the United  
States  
Department of  
Interior, which  
is trustee for  
Chehalis.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*General* We have prepared these unaudited condensed consolidated interim financial statements according to the rules and regulations of the Securities and Exchange Commission (SEC). Accordingly, we have omitted certain information and footnote disclosures that are normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States (GAAP). The December 31, 2009 consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. These

**Table of Contents**

interim financial statements should be read in conjunction with the financial statements, accompanying notes and other information included in our Annual Report on Form 10-K for the year ended December 31, 2009.

The accompanying unaudited condensed consolidated interim financial statements reflect all adjustments, which are of a normal and recurring nature, necessary for a fair presentation of the financial condition and results of operations and cash flows for the periods presented. The preparation of financial statements in accordance with GAAP requires us to make estimates and assumptions. Such estimates and assumptions affect the reported amounts of assets and liabilities, as well as the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Our actual results could differ from those estimates. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the entire year.

*Principles of Consolidation* Our condensed consolidated financial statements include our accounts and the accounts of our majority-owned and controlled subsidiaries. As part of our consolidation process, we eliminate all significant intercompany balances and transactions.

*Acquisition Accounting* We follow acquisition accounting for all acquisitions that meet the business combination definition. Acquisition accounting requires us to measure the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest at the acquisition-date fair value. While we use our best estimates and assumptions as a part of the purchase price allocation process to accurately value assets acquired and liabilities assumed at the acquisition date, our estimates are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the acquisition date, we record adjustments to the assets acquired and liabilities assumed, with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to our consolidated statements of operations.

*Goodwill* Goodwill is measured at an acquisition date as the excess of (a) the consideration transferred and the fair value of any noncontrolling interest in the acquiree over (b) the net of the acquisition date fair values of the assets acquired and the liabilities assumed. We are required to assess goodwill for impairment annually, or more frequently if circumstances indicate impairment may have occurred. We assess goodwill for such impairment by comparing the carrying value of our reporting units to their fair values. We determine our reporting units' fair values using a discounted cash flow model.

In connection with the acquisition of the majority interest in CK we have recorded \$2,276 of goodwill that is included within Intangible Assets on our condensed consolidated balance sheet.

	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Goodwill	\$ 2,276	130,496
Accumulated impairment losses		(68,405)
Goodwill related to sale of affiliate		(62,091)
	\$ 2,276	\$

*Noncontrolling Interests* We record the non-owned equity interests of our consolidated subsidiaries as a separate component of our consolidated equity on our condensed consolidated balance sheet. The net earnings attributable to the controlling and noncontrolling interests are included on the face of our statements of operations. Due to our acquisition of CK in June 2010 we have a consolidated subsidiary with a noncontrolling interest as of June 30, 2010.

*Income Taxes* At the end of each interim reporting period, we estimate the effective tax rate expected to be applicable for the full fiscal year. The rate determined is used in providing for income taxes on a year-to-date basis.

**Table of Contents**

*Segments* We are organized into a single operating division. Within that operating division, we have two reportable segments:

Resort ownership/operation-revenues derived from our consolidated owned resorts; and

Resort third-party management/licensing-revenues derived from management, license and other related fees from unconsolidated managed resorts.

The following summarizes significant financial information regarding our segments:

	<b>Resort Ownership/ Operation</b>	<b>Resort Third-Party Management/License</b>	<b>Other</b>	<b>Totals per Financial Statements</b>

Additions to long-lived assets	45,619		227	\$ 45,846
Total assets (as of December 31, 2009)	707,472	2,942	95,330	\$ 805,744

The Other column in the table includes items that do not constitute a reportable segment and represent corporate-level activities and the activities of other operations not included in the Resort Ownership/Operation or Resort Third-Party Management/License segments. Total assets at the corporate level primarily consist of cash, our investment in affiliates, and intangibles.

*Recent Accounting Pronouncements* In June 2009, the FASB issued guidance which changes how a reporting entity determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. The determination of whether a reporting entity is required to consolidate another entity is based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. The guidance

requires a reporting entity to provide additional disclosures about its involvement with variable interest entities and any significant changes in risk exposure due to that involvement. A reporting entity will be required to disclose how its involvement with a variable interest entity affects the reporting entity's financial statements. The adoption of this guidance is effective for fiscal years beginning after November 15, 2009, and interim periods within those fiscal years. We adopted this guidance on January 1, 2010. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

**Table of Contents**

In August 2009, the FASB issued guidance on measuring liabilities at fair value which provides clarification on measuring liabilities at fair value when a quoted price in an active market is not available. The guidance is effective for the first reporting period beginning after issuance. The adoption of this guidance did not have an impact on our condensed consolidated financial statements.

In October 2009, the FASB issued guidance for revenue recognition with multiple deliverables. This guidance eliminates the residual method under the current guidance and replaces it with the relative selling price method when allocating revenue in a multiple deliverable arrangement. The selling price for each deliverable shall be determined using vendor specific objective evidence of selling price, if it exists, otherwise third-party evidence of selling price shall be used. If neither exists for a deliverable, the vendor shall use its best estimate of the selling price for that deliverable. After adoption, this guidance will also require expanded qualitative and quantitative disclosures. The guidance is effective for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, although early adoption is permitted. We do not expect the adoption of this guidance to have a material impact on our condensed consolidated financial statements.

In January 2010, the FASB issued updated guidance related to fair value measurement and disclosures, which requires a reporting entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and to describe the reasons for the transfers. The updated guidance also requires that an entity should provide fair value measurement disclosures for each class of assets and liabilities and disclosures about the valuation techniques and inputs used to measure fair value for both recurring and non-recurring fair value measurements for Level 2 and Level 3 fair value measurements. This updated guidance became effective for interim or annual financial reporting periods beginning after December 15, 2009. We adopted this guidance on January 1, 2010. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

**3. INVESTMENT IN AFFILIATES*****CNL Joint Venture***

On August 6, 2009, we sold our 30.26% joint venture interest to CNL for \$6,000.

Summary financial data for this joint venture for periods where we still maintained an ownership interest is as follows:

	<b>Three months ended June 30, 2009</b>	<b>Six months ended June 30, 2009</b>
<b>Operating data:</b>		
Revenue	\$ 7,041	\$ 14,650
Operating expenses	\$ (9,592)	\$ (19,830)
Net loss	\$ (2,551)	\$ (5,180)

***Grand Mound Joint Venture***

Our joint venture with The Confederated Tribes of the Chehalis Reservation owns the Great Wolf Lodge resort and conference center on a 39-acre land parcel in Grand Mound, Washington. This resort opened in March 2008. This joint venture is a limited liability company. We are a member of that limited liability company with a 49% ownership interest. At June 30, 2010, the joint venture had aggregate outstanding indebtedness to third parties of \$99,645. As of June 30, 2010, we have made combined loan and equity contributions, net of loan repayments, of \$29,210 to the joint venture to fund a portion of construction costs of the resorts.

**Table of Contents**

Summary financial data for this joint venture is as follows:

	<b>June 30, 2010</b>	<b>December 31, 2009</b>
<b>Balance sheet data:</b>		
Total assets	\$ 144,624	\$ 145,247
Total liabilities	\$ 113,358	\$ 114,129

	<b>Three months ended June 30,</b>		<b>Six months ended June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
<b>Operating data:</b>				
Revenue	\$ 10,563	\$ 10,156	\$ 21,776	\$ 20,133
Operating expenses	\$ (10,957)	\$ (8,718)	\$ (20,381)	\$ (17,302)
Net income (loss)	\$ (457)	\$ (22)	\$ 60	\$ (186)

We have a receivable from the joint venture of \$2,833 and \$2,614 that relates primarily to accrued preferred equity returns as of June 30, 2010 and December 31, 2009, respectively.

**4. VARIABLE INTEREST ENTITIES**

In accordance with the guidance for the consolidation of variable interest entities, we analyze our variable interests, including equity investments and management agreements, to determine if an entity in which we have a variable interest, is a variable interest entity. Our analysis includes both quantitative and qualitative reviews. We base our quantitative analysis on the forecasted cash flows of the entity, and our qualitative analysis on our review of the design of the entity, its organization structure including decision-making ability, and relevant financial agreements. We also use our qualitative analyses to determine if we must consolidate a variable interest entity as the primary beneficiary.

The following summarizes our analyses of entities in which we have a variable interest and that we have concluded are variable interest entities:

We have equity investments in and a loan to the joint venture that owns the Great Wolf Lodge resort Grand Mound, Washington. We manage that resort and we have concluded that the joint venture is a variable interest entity because the management fees we receive represent a variable interest. The management contract, however, does not provide us with power over the activities that most significantly impact the economic performance of the joint venture. As we lack the ability to direct the activities that most significantly affect the resorts' performance, we are not the primary beneficiary of the joint venture and, therefore, we do not consolidate this entity at June 30, 2010. During the three and six months ended June 30, 2010 and 2009, we did not provide any support to this entity that we were not contractually obligated to do so. Our maximum exposure to loss related to our involvement with this entity as of June 30, 2010 is limited to the carrying value of our equity investments in and loans to the joint venture as of that date. The total carrying values of those items on our balance sheet as of June 30, 2010 is \$27,017.

We have equity investments in two subsidiaries which are Delaware statutory trusts, both of which were used to issue trust preferred securities through private offerings. We have concluded that both of these trusts are variable interest entities. As we lack the ability to direct the activities that most significantly impact the trusts' performance, however, we are not the primary beneficiary and therefore, we do not consolidate these entities at June 30, 2010. During the three and six months ended June 30, 2010 and 2009, we did not provide any support to these entities that we were not contractually obligated to do so. Our maximum exposure to loss related to our involvement with these entities as of June 30, 2010 is

**Table of Contents**

limited to the carrying value of our equity investments in the entities as of that date. The total carrying values of those items on our balance sheet as of June 30, 2010 is \$2,420.

**5. ACQUISITION OF CREATIVE KINGDOMS**

On June 7, 2010, we acquired a 62.4% equity interest in Creative Kingdoms (CK) in exchange for all of the \$8,700 principal balance, plus accrued interest of \$1,263, of convertible indebtedness owed to us by CK. CK is a developer of experiential gaming products including MagiQuest®, an interactive game attraction available at nine of our resorts. CK also owns or has sold to other parties several stand-alone MagiQuest facilities or similar attractions.

We have consolidated CK as we have a majority ownership interest in CK. We accounted for this business combination using the acquisition method of accounting, which requires us to measure the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest at the acquisition-date fair value. We have recorded the identifiable assets acquired, the liabilities assumed and the noncontrolling interest at amounts that approximate fair value. We have recorded \$2,276 of goodwill, which represents the excess of (a) the consideration transferred and the fair value of any noncontrolling interest in the acquiree over (b) the net of the acquisition date fair values of the assets acquired and the liabilities assumed.

**6. SHARE-BASED COMPENSATION**

We recognized share-based compensation expense of \$516 and \$1,061, net of estimated forfeitures, for the three months and six months ended June 30, 2010, respectively. The total income tax benefit recognized related to share-based compensation was \$9 and \$19 for the three and six months ended June 30, 2010, respectively.

We recognized share-based compensation expense of \$435 and \$469, net of estimated forfeitures, for the three and six months ended June 30, 2009, respectively. The total income tax benefit recognized related to share-based compensation was \$174 and \$187 for the three and six months ended June 30, 2009, respectively.

We recognize compensation expense on grants of share-based compensation awards on a straight-line basis over the requisite service period of each award recipient. As of June 30, 2010, total unrecognized compensation cost related to share-based compensation awards was \$3,557, which we expect to recognize over a weighted average period of approximately 3.1 years.

The Great Wolf Resorts 2004 Incentive Stock Plan (the Plan) authorizes us to grant up to 3,380,740 options, stock appreciation rights or shares of our common stock to employees and directors. At June 30, 2010, there were 129,474 shares available for future grants under the Plan.

We anticipate having to issue new shares of our common stock for stock option exercises.

***Stock Options***

We have granted non-qualified stock options to purchase our common stock under the Plan at prices equal to the fair market value of the common stock on the grant dates. The exercise price for certain options granted under the plans may be paid in cash, shares of common stock or a combination of cash and shares. Stock options expire ten years from the grant date and vest ratably over three years.

We recorded stock option expense of \$7 and \$14 for the three and six months ended June 30, 2009, respectively. We recorded no stock option expense for the three and six months ended June 30, 2010. We have not granted any stock options in 2010 or 2009.

A summary of stock option activity during the six months ended June 30, 2010 is:

**Table of Contents**

	<b>Shares</b>	<b>Weighted Average Exercise Price</b>	<b>Weighted Average Remaining Contractual Life</b>
Number of shares under option:			
Outstanding at beginning of period	441,000	\$ 17.53	4.59 years
Exercised			
Forfeited			
Outstanding at end of period	441,000	\$ 17.53	4.59 years
Exercisable at end of period	441,000	\$ 17.53	4.59 years

Our outstanding or exercisable stock options had no intrinsic value at June 30, 2010 or 2009.

**Market Condition Share Awards**

Certain employees are eligible to receive shares of our common stock in payment of market condition share awards granted to them in accordance with the terms thereof.

We granted 515,986 and 541,863 market condition share awards during the six months ended June 30, 2010 and 2009, respectively. We recorded share-based compensation expense of \$178 and \$387 for the three and six months ended June 30, 2010, respectively. We recorded share-based compensation expense of \$82 and \$204 for the three and six months ended June 30, 2009, respectively.

Of the 2010 market condition shares granted:

333,060 were based on our common stock's performance in 2010 relative to a stock index, as designated by the Compensation Committee of the Board of Directors. These shares vest ratably over a three-year period, 2010-2012. The per share fair value of these market condition shares was \$2.43 as of the grant date.

The fair value of these market condition shares was determined using a Monte Carlo simulation and the following assumptions:

Dividend yield	
Weighted average, risk free interest rate	0.26%
Expected stock price volatility	108.06%
Expected stock price volatility (small-cap stock index)	40.92%

We used an expected dividend yield of 0%, as we do not currently pay a dividend and do not contemplate paying a dividend in the foreseeable future. The weighted average, risk free interest rate was based on the 9-month treasury constant maturity. Our expected stock price volatility was estimated using daily returns data of our stock for a two-year period ending on the grant date. The expected stock price volatility for the small cap stock index was estimated using daily returns data for a two-year period ending on the grant date.

91,463 were based on our common stock's absolute performance during the three year period 2010-2012. For shares that are earned, half of the shares vest on December 31, 2012, and the other half vest on December 31, 2013. The per share fair value of these market condition shares was \$2.53 as of the grant date.

The fair value of these market condition shares was determined using a Monte Carlo simulation and the following assumptions:

**Table of Contents**

Dividend yield	
Weighted average, risk free interest rate	1.27%
Expected stock price volatility	95.21%

We used an expected dividend yield of 0%, as we do not currently pay a dividend and do not contemplate paying a dividend in the foreseeable future. The weighted average, risk free interest rate was based on the 2.75-year treasury constant maturity. Our expected stock price volatility was estimated using daily returns data of our stock for the period June 29, 2007 through March 30, 2010.

91,463 were based on our common stock's performance in 2010-2012 relative to a stock index, as designated by the Compensation Committee of the Board of Directors. For shares that are earned, half of the shares vest on December 31, 2012, and the other half vest on December 31, 2013. The per share fair value of these market condition shares was \$2.61 as of the grant date.

The fair value of these market condition shares was determined using a Monte Carlo simulation and the following assumptions:

Dividend yield	
Weighted average, risk free interest rate	1.27%
Expected stock price volatility	95.21%
Expected stock price volatility (small-cap stock index)	37.51%

We used an expected dividend yield of 0%, as we do not currently pay a dividend and do not contemplate paying a dividend in the foreseeable future. The weighted average, risk free interest rate was based on the 2.75-year treasury constant maturity. Our expected stock price volatility and the expected stock price volatility for the small cap stock index was estimated using daily returns data of our stock for the period June 29, 2007 through March 30, 2010.

Of the 2009 market condition shares granted:

541,863 were based on our common stock's performance in 2009 relative to a stock index, as designated by the Compensation Committee of the Board of Directors. These shares vest ratably over a three-year period, 2009-2011. The per share fair value of these market condition shares was \$1.26 as of the grant date.

The fair value of these market condition shares was determined using a Monte Carlo simulation and the following assumptions:

Dividend yield	
Weighted average, risk free interest rate	0.62%
Expected stock price volatility	96.51%
Expected stock price volatility (small-cap stock index)	37.89%

We used an expected dividend yield of 0%, as we do not currently pay a dividend and do not contemplate paying a dividend in the foreseeable future. The weighted average, risk free interest rate was based on the one-year T-bill rate. Our expected stock price volatility was estimated using daily returns data of our stock for a two-year period ending on the grant date. The expected stock price volatility for the small cap stock index was estimated using daily returns data for a two-year period ending on the grant date.

Based on our common stock performance in 2009, employees earned all of these market condition shares.

**Table of Contents**

Of the 2007 market condition shares awards granted:

81,293 are based on our common stock's absolute performance during the three-year period 2007-2009. Half of these shares vested on December 31, 2009, and the other half vest on December 31, 2010. The per share fair value of these market condition shares was \$6.65.

The fair value of these market condition shares was determined using a Monte Carlo simulation and the following assumptions:

Dividend yield

Weighted average, risk free interest rate 4.73%

Expected stock price volatility 42.13%

We used an expected dividend yield of 0%, as we do not currently pay a dividend and do not contemplate paying a dividend in the foreseeable future. The weighted average, risk free interest rate is based on the four-year T-bill rate. Our expected stock price volatility was estimated using daily returns data of our stock for a two-year period ending on the grant date. Due to the resignation of two senior officers in 2008, 58,628 shares were forfeited.

In March 2010, our Compensation Committee of the board of directors determined that based on our common stock performance during the three year period 2007-2009, employees did not earn any of these market condition shares. Therefore, the remaining unamortized expense related to these shares of \$19 was expensed in the six months ended June 30, 2010.

81,293 were based on our common stock's performance in 2007-2009 relative to a stock index, as designated by the Compensation Committee of the Board of directors. Half of these shares vested December 31, 2009, and the other half vest on December 31, 2010. The per share fair value of these market condition shares was \$8.24.

The fair value of these market condition shares was determined using a Monte Carlo simulation and the following assumptions:

Dividend yield

Weighted average, risk free interest rate 4.73%

Expected stock price volatility 42.13%

Expected stock price volatility (small-cap stock index) 16.64%

We used an expected dividend yield of 0%, as we do not currently pay a dividend and do not contemplate paying a dividend in the foreseeable future. The weighted average, risk free interest rate is based on the four-year T-bill rate. Our expected stock price volatility was estimated using daily returns data of our stock for a two-year period ending on the grant date. The expected stock price volatility for the small cap stock index was estimated using daily returns data for a two-year period ending on the grant date. Due to the resignation of two senior officers in 2008, 58,628 shares were forfeited.

In March 2010, our Compensation Committee of the board of directors determined that based on our common stock performance during the three year period 2007-2009, employees did not earn any of these market condition shares. Therefore, the remaining unamortized expense related to these shares of \$23 was expensed in the six months ended June 30, 2010.

***Performance Share Awards***

Certain employees are eligible to receive shares of our common stock in payment of performance share awards granted to them. Grantees of performance shares are eligible to receive shares of our common stock based on the achievement of certain individual and departmental performance criteria during the calendar year in which the shares were granted. We granted 111,020 and 180,622 performance shares during the six months ended June 30, 2010 and 2009, respectively. Shares granted in 2010 vest over a three year period, 2010-2012; and shares granted in 2009 vest over a three year period, 2009-2011.

**Table of Contents**

The per share fair value of performance shares granted during the six months ended June 30, 2010 and 2009 was \$3.18 and \$1.54, respectively, which represents the fair value of our common stock on the grant date. We recorded share-based compensation expense of \$61 and \$122 for the three and six months ended June 30, 2010, respectively. We recorded share-based compensation expense of \$46 and \$92 for the three and six months ended June 30, 2009, respectively. Since all shares originally granted were not earned, we recorded a reduction in expense of \$9 and \$2 during the six months ended June 30, 2010 and 2009, respectively.

Based on their achievement of certain individual and departmental performance goals:

Employees earned and were issued 162,559 performance shares in March 2010 related to 2009 grants and

Employees earned and were issued 18,084 performance shares in February 2009 related to the 2008 grants.

**Deferred Compensation Awards**

Pursuant to their employment arrangements, certain executives received bonuses upon completion of our initial public offering. Executives receiving bonus payments totaling \$2,200 elected to defer those payments pursuant to our deferred compensation plan. To satisfy this obligation, we contributed 129,412 shares of our common stock to the trust that holds the assets to pay obligations under our deferred compensation plan. The fair value of that stock at the date of contribution was \$2,200. We have recorded the fair value of the shares of common stock, at the date the shares were contributed to the trust, as a reduction of our stockholders' equity. We account for the change in fair value of the shares held in the trust as a charge to compensation cost. We recorded negative share-based compensation expense of \$13 and \$3, for the three and six months ended June 30, 2010, respectively. We recorded negative share-based compensation expense of \$3 and \$352, for the three and six months ended June 30, 2009, respectively.

In 2008, one of the executives who had deferred a bonus payment as discussed above resigned from our company. As a result, we have reclassified \$2,000 previously recorded as deferred compensation to additional paid-in-capital.

**Non-vested Shares**

We have granted non-vested shares to certain employees and our directors. Shares vest over time periods between three and five years. We valued the non-vested shares at the closing market value of our common stock on the date of grant.

A summary of non-vested shares activity for the six months ended June 30, 2010 is as follows:

	<b>Shares</b>	<b>Weighted Average Grant Date Fair Value</b>
Non-vested shares balance at beginning of period	483,468	\$ 5.13
Granted	1,306,653	\$ 2.10
Forfeited	(6,400)	\$ 5.42
Vested	(365,352)	\$ 2.95
Non-vested shares balance at end of period	1,418,369	\$ 2.72

We recorded share-based compensation expense of \$290 and \$544 for the three and six months ended June 30, 2010, respectively, related to these shares. We recorded share-based compensation expense of \$249 and \$459 for the three and six months ended June 30, 2009, respectively, related to these shares.

Our non-vested shares had an intrinsic value of \$353 at June 30, 2010. Our non-vested shares had no intrinsic value at June 30, 2009.

**Table of Contents*****Vested Shares***

We have an annual short-term incentive plan for certain employees, in which they are provided the potential to earn cash bonus payments. In 2008 and 2009, certain of these employees had the option to elect to have some or all of their annual bonus compensation paid in the form of shares of our common stock rather than cash. Employees making this election received shares having a market value equal to 125% of the cash they would otherwise receive. Shares issued in lieu of cash bonus payments are fully vested upon issuance.

In connection with the elections related to 2008 bonus amounts, we issued 17,532 shares in February 2009. We valued these shares at \$32 based on the closing market value of our common stock on the date of the grant.

There were no shares issued in the six months ended June 30, 2010 related to 2009 bonus amounts.

In 2010 and 2009, our directors had the option to elect to have some or the entire cash portion of their annual fees paid in the form of shares of our common stock rather than cash. Directors making this election received shares having a market value equal to 125% of the cash they would otherwise receive. Shares issued in lieu of cash fee payments are fully vested upon issuance. We recorded non-cash professional fees expense of \$20 for the six months ended June 30, 2010, related to these elections to receive shares in lieu of cash. We issued 7,574 shares in the six months ended June 30, 2010. We recorded non-cash professional fees expense of \$54 for six months ended June 30, 2009, related to these elections to receive shares in lieu of cash. We issued 22,286 shares in the six months ended June 30, 2009, respectively.

**7. PROPERTY AND EQUIPMENT**

Property and equipment consist of the following:

	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Land and improvements	\$ 60,718	\$ 60,718
Building and improvements	430,580	427,602
Furniture, fixtures and equipment	357,937	341,529
Construction in process	847	327
	850,082	830,176
Less accumulated depreciation	(184,912)	(153,771)
Property and equipment, net	\$ 665,170	\$ 676,405

Depreciation expense was \$12,337 and \$24,508 for the three months and six months ended June 30, 2010, respectively. Depreciation expense was \$12,975 and \$24,480 for the three and six months ended June 30, 2009, respectively.

**8. LONG-TERM DEBT**

Long-term debt consists of the following:

	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Long-Term Debt:		
Traverse City/Kansas City mortgage loan	\$ 68,011	\$ 68,773
Mason mortgage loan		73,800
Pocono Mountains mortgage loan	94,867	95,458

Williamsburg mortgage loan	63,125
Grapevine mortgage loan	77,909

**Table of Contents**

	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Concord mortgage loan	78,588	78,549
First mortgage notes (net of discount of \$10,343)	219,657	
Junior subordinated debentures	80,545	80,545
Other Debt:		
City of Sheboygan bonds	8,564	8,544
City of Sheboygan loan	3,172	3,290
Other	63	78
	553,467	550,071
Less current portion of long-term debt	(4,186)	(16,126)
Total long-term debt	\$ 549,281	\$ 533,945

*Traverse City/Kansas City Mortgage Loan* This loan is secured by our Traverse City and Kansas City resorts. The loan bears interest at a fixed rate of 6.96%, is subject to a 25-year principal amortization schedule, and matures in January 2015. The loan has customary financial and operating debt compliance covenants. The loan also has customary restrictions on our ability to prepay the loan prior to maturity. We were in compliance with all covenants under this loan at June 30, 2010.

The loan requires us to maintain a minimum debt service coverage ratio (DSCR) of 1.35, calculated on a quarterly basis. This ratio is defined as the two collateral properties' combined trailing twelve-month net operating income divided by the greater of (i) the loan's twelve-month debt service requirements and (ii) 8.5% of the amount of the outstanding principal indebtedness under the loan. Failure to meet the minimum DSCR is not an event of default and does not accelerate the due date of the loan. Not meeting the minimum DSCR, however, subjects the two properties to a lock-box cash management arrangement, at the discretion of the loan's servicer. We believe that a lock-box arrangement would require substantially all cash receipts for the two resorts to be moved each day to a lender-controlled bank account, which the loan servicer would then use to fund debt service and operating expenses for the two resorts, with excess cash flow being deposited in a reserve account and held as additional collateral for the loan. While recourse under the loan is limited to the property owner's interest in the mortgage property, we have provided limited guarantees with respect to certain customary non-recourse provisions and environmental indemnities relating to the loan.

For the twelve-month period ended June 30, 2010, the DSCR for this loan was 0.78. As a result, the loan servicer may choose to implement the lock-box cash management arrangement. We believe that such an arrangement, if implemented, would constitute a traditional lock-box arrangement as discussed in authoritative accounting guidance. Based on that guidance, if the loan servicer were to establish the traditional lock-box arrangement now permitted under the loan, we believe we would be required to classify the entire outstanding principal balance of the loan as a current liability, since the lock-box arrangement would require us to use the properties' working capital to liquidate the loan, and we do not presently have the ability to refinance this loan to a new, long-term loan.

The loan also contains a similar lock-box requirement if we open any Great Wolf Lodge or Blue Harbor Resort within 100 miles of either resort, and the two collateral properties' combined trailing twelve-month net operating income is not at least equal to 1.8 times 8.5% of the amount of the outstanding principal indebtedness under the loan.

*Mason Mortgage Loan* This loan was secured by our Mason resort. In April 2010, we used a portion of the proceeds from the issuance of new first mortgage notes to repay this loan in its entirety.

*Pocono Mountains Mortgage Loan* This loan is secured by a mortgage on our Pocono Mountains resort. The loan bears interest at a fixed rate of 6.10% and matures in January 2017. The loan is currently subject to a 30-year principal amortization schedule. The loan has customary covenants associated with an individual mortgaged property. The loan

also has customary restrictions on our ability to prepay the loan prior to maturity. We were in compliance with all covenants under this loan at June 30, 2010.

**Table of Contents**

The loan requires us to maintain a minimum DSCR of 1.25, calculated on a quarterly basis. Subject to certain exceptions, the DSCR is increased to 1.35 if we open up a waterpark resort within 75 miles of the property or incur mezzanine debt secured by the resort. This ratio is defined as the property's combined trailing twelve-month net operating income divided by the greater of (i) the loan's twelve-month debt service requirements and (ii) 7.25% of the amount of the outstanding principal indebtedness under the loan. Failure to meet the minimum DSCR is not an event of default and does not accelerate the due date of the loan. Not meeting the minimum DSCR, however, subjects the property to a lock-box cash management arrangement, at the discretion of the loan's servicer. We believe that lock-box arrangement would require substantially all cash receipts for the resort to be moved each day to a lender-controlled bank account, which the loan servicer would then use to fund debt service and operating expenses for the resort, with excess cash flow being deposited in a reserve account and held as additional collateral for the loan. While recourse under the loan is limited to the property owner's interest in the mortgage property, we have provided limited guarantees with respect to certain customary non-recourse provisions and environmental indemnities relating to the loan.

*Williamsburg Mortgage Loan* This loan was secured by our Williamsburg resort. In April 2010, we used a portion of the proceeds from the issuance of new first mortgage notes to repay this loan in its entirety.

*Grapevine Mortgage Loan* This loan was secured by our Grapevine resort. In April 2010, we used a portion of the proceeds from the issuance of new first mortgage notes to repay this loan in its entirety.

*Concord Mortgage Loan* This loan is secured by our Concord resort. The loan bears interest at a floating annual rate of LIBOR plus a spread of 310 basis points, with a minimum rate of 6.50% per annum (effective rate of 6.50% as of June 30, 2010). This loan matures in April 2012 and requires interest only payments until the one-year anniversary of the conversion date of the property and then requires monthly principal payments based on a 25-year amortization schedule. However, if the resort owner's net income available to pay debt service on this loan for four consecutive quarters is less than \$10,000, or if maximum principal amount of the loan exceeds 75% of the fair market value of the property, then we are required to post cash collateral or partially repay the loan in an amount sufficient to remedy such deficiency. This loan has customary financial and operating debt compliance covenants associated with an individual mortgaged property, including a minimum consolidated tangible net worth provision. We were in compliance with all covenants under this loan at June 30, 2010.

Great Wolf Resorts has provided a \$78,588 payment guarantee of the Concord mortgage loan and a customary environmental indemnity.

*First Mortgage Notes* In April 2010, we completed a private placement of \$230,000 in aggregate principal amount of our 10.875% first mortgage notes (the Notes) due April 2017. The Notes were sold at a discount that provides an effective yield of 11.875% before transaction costs. We are amortizing the discount over the life of the Notes using the straight-line method, which approximates the effective interest method. The proceeds of the Notes were used to retire the outstanding mortgage debt on our Mason, Williamsburg, and Grapevine properties and for general corporate purposes.

The Notes are senior obligations of the issuers, GWR Operating Partnership, LLLP and Great Wolf Finance Corp. The Notes are guaranteed by Great Wolf Resorts, Inc. and by our subsidiaries that own three of our resorts and those guarantees are secured by first priority mortgages on those three resorts. The Notes are also guaranteed by certain of our other subsidiaries on a senior unsecured basis.

The Notes require that we satisfy certain tests in order to: (i) incur additional indebtedness except to refinance maturing debt with replacement debt, as defined under our indentures; (ii) pay dividends; (iii) repurchase capital stock; (iv) make investments or (v) merge. We are currently restricted from these activities with certain carve-outs as defined under our indentures.

*Junior Subordinated Debentures* In March 2005 we completed a private offering of \$50,000 of trust preferred securities (TPS) through Great Wolf Capital Trust I (Trust I), a Delaware statutory trust which is our subsidiary. The

**Table of Contents**

securities pay holders cumulative cash distributions at an annual rate which is fixed at 7.80% through March 2015 and then floats at LIBOR plus a spread of 310 basis points thereafter. The securities mature in March 2035 and are callable at no premium after March 2010. In addition, we invested \$1,500 in Trust I's common securities, representing 3% of the total capitalization of Trust I.

Trust I used the proceeds of the offering and our investment to purchase from us \$51,550 of junior subordinated debentures with payment terms that mirror the distribution terms of the TPS. The costs of the TPS offering totaled \$1,600, including \$1,500 of underwriting commissions and expenses and \$100 of costs incurred directly by Trust I. Trust I paid these costs utilizing an investment from us. These costs are being amortized over a 30-year period. The proceeds from our debenture sale, net of the costs of the TPS offering and our investment in Trust I, were \$48,400. We used the net proceeds to retire a construction loan.

In June 2007 we completed a private offering of \$28,125 of TPS through Great Wolf Capital Trust III (Trust III), a Delaware statutory trust which is our subsidiary. The securities pay holders cumulative cash distributions at an annual rate which is fixed at 7.90% through June 2012 and then floats at LIBOR plus a spread of 300 basis points thereafter. The securities mature in June 2017 and are callable at no premium after June 2012. In addition, we invested \$870 in the Trust's common securities, representing 3% of the total capitalization of Trust III.

Trust III used the proceeds of the offering and our investment to purchase from us \$28,995 of junior subordinated debentures with payment terms that mirror the distribution terms of the trust securities. The costs of the TPS offering totaled \$932, including \$870 of underwriting commissions and expenses and \$62 of costs incurred directly by Trust III. Trust III paid these costs utilizing an investment from us. These costs are being amortized over a 10-year period. The proceeds from these debenture sales, net of the costs of the TPS offering and our investment in Trust III, were \$27,193. We used the net proceeds for development costs.

Issue trusts, like Trust I and Trust III (collectively, the Trusts), are generally variable interests. We have determined that we are not the primary beneficiary under the Trusts, and accordingly we do not include the financial statements of the Trusts in our consolidated financial statements.

Based on the foregoing accounting authority, our consolidated financial statements present the debentures issued to the Trusts as long-term debt. Our investments in the Trusts are accounted as cost investments and are included in other assets on its consolidated balance sheet. For financial reporting purposes, we record interest expense on the corresponding debentures in our condensed consolidated statements of operations.

*City of Sheboygan Bonds* The City of Sheboygan bonds represent the face amount of bond anticipation notes (BANs) issued by the City in November 2003 in conjunction with the construction of the Blue Harbor Resort in Sheboygan, Wisconsin. We have recognized as a liability the obligations for the BANs. We have an obligation to fund certain minimum guaranteed amounts of room tax payments to be made by the Blue Harbor Resort through 2028, which obligation is indirectly related to the payments by the City on the BANs.

*City of Sheboygan Loan* The City of Sheboygan loan amount represents a loan made by the City in 2004 in conjunction with the construction of the Blue Harbor Resort in Sheboygan, Wisconsin. The loan is noninterest bearing and matures in 2018. Our obligation to repay the loan will be satisfied by certain minimum guaranteed amounts of real and personal property tax payments to be made by the Blue Harbor Resort through 2018.

*Future Maturities* Future principal requirements on long-term debt are as follows:

<b>Through</b>	
<b>June 30,</b>	
2011	\$ 4,186
2012	80,780
2013	3,538
2014	3,818
2015	63,003
Thereafter	408,485
<b>Total</b>	<b>\$ 563,810</b>

**Table of Contents****9. FAIR VALUE OF FINANCIAL INSTRUMENTS**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). GAAP outlines a valuation framework and creates a fair value hierarchy in order to increase the consistency and comparability of fair value measurements and the related disclosures. Certain assets and liabilities must be measured at fair value, and disclosures are required for items measured at fair value.

We measure our financial instruments using inputs from the following three levels of the fair value hierarchy. The three levels are as follows:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that we have the ability to access at the measurement date.

Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (that is, interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3 includes unobservable inputs that reflect our assumptions about the assumptions that market participants would use in pricing the asset or liability. We develop these inputs based on the best information available, including our own data.

The following table summarizes the Company's financial assets measured at fair value on a recurring basis as of: **June 30, 2010**

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Interest rate caps	\$	\$ 7	\$	\$ 7
<b>December 31, 2009</b>				

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Interest rate caps	\$	\$ 133	\$	\$ 133

Level 2 assets consist of our interest rate caps and our long-term debt. To determine the estimated fair value of our interest rate caps we use market information provided by the banks from whom the interest rate caps were purchased from.

As of June 30, 2010, we estimate the total fair value of our long-term debt to be \$74,768 less than its total carrying value due to the terms of the existing debt being different than those terms currently available to us for indebtedness with similar risks and remaining maturities. These fair value estimates have not been comprehensively revalued for purposes of these consolidated financial statements since that date, and current estimates of fair values may differ significantly.

The carrying amounts for cash and cash equivalents, other current assets, escrows, accounts payable, gift certificates payable and accrued expenses approximate fair value because of the short-term nature of these instruments.

**10. EARNINGS PER SHARE**

We calculate our basic earnings per common share by dividing net loss available to common shareholders by the weighted average number of shares of common stock outstanding excluding non-vested shares. Our diluted earnings per common share assumes the issuance of common stock for all potentially dilutive stock equivalents outstanding using the treasury stock method. In periods in which we incur a net loss, we exclude potentially dilutive stock equivalents from the computation of diluted weighted average shares outstanding as the effect of those potentially dilutive items is anti-dilutive.

**Table of Contents**

The trust that holds the assets to pay obligations under our deferred compensation plan has 11,765 shares of our common stock. We treat those shares of common stock as treasury stock for purposes of our earnings per share computations and therefore we exclude them from our basic and diluted earnings per share calculations.

Options to purchase 441,000 shares of common stock were not included in the computations of diluted earnings per share for the three and six months ended June 30, 2010, because the exercise prices of the options were greater than the average market price of the common shares during that period. There were 627,006 shares of common stock that were not included in the computation of diluted earnings per share for the three and six months ended June 30, 2010, because the market and/or performance criteria related to these shares had not been met at June 30, 2010.

Basic and diluted earnings per common share are as follows:

	<b>Three months ended</b>		<b>Six months ended</b>	
	<b>June 30,</b>		<b>June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Net loss attributable to Great Wolf Resorts, Inc.	\$ (12,760)	\$ (5,706)	\$ (20,825)	\$ (11,351)
Weighted average common shares outstanding basic	31,000,179	31,263,487	30,919,023	31,123,072
Weighted average common shares outstanding diluted	31,000,179	31,263,487	30,919,023	31,123,072
Net loss attributable to Great Wolf Resorts, Inc. per share basic	\$ (0.41)	\$ (0.18)	\$ (0.67)	\$ (0.36)
Net loss attributable to Great Wolf Resorts, Inc. per share diluted	\$ (0.41)	\$ (0.18)	\$ (0.67)	\$ (0.36)

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*This Management's Discussion and Analysis of Financial Condition and Results of Operations is a discussion and analysis of the financial condition, results of operations and liquidity and capital resources. The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. We make statements in this section that are forward-looking statements within the meaning of the federal securities laws. For a complete discussion of forward-looking statements, see the section in Item 1 of our Annual Report on Form 10-K entitled, Forward-Looking Statements. All dollar amounts in this discussion, except for per share data and operating statistics, ADR, RevPAR and RevPOR, are in thousands.*

### **Overview**

The terms Great Wolf Resorts, us, we and our used in this Management's Discussion and Analysis of Financial Condition and Results of Operations refer to Great Wolf Resorts, Inc. and its consolidated subsidiaries.

*Business.* We are a family entertainment resort company that provides our guests with a high-quality vacation at an affordable price. We are the largest owner, operator and developer in North America of drive-to, destination family resorts featuring indoor waterparks and other family-oriented entertainment activities based on the number of resorts in operation. Each of our resorts features approximately 300 to 600 family suites, each of which sleeps from six to ten people and includes a wet bar, microwave oven, refrigerator and dining and sitting area. We provide a full-service entertainment resort experience to our target customer base: families with children ranging in ages from 2 to 14 years old that live within a convenient driving distance of our resorts. We operate and license resorts under our Great Wolf Lodge and Blue Harbor

**Table of Contents**

Resort brand names and have entered into licensing arrangements with third-parties to operate resorts under the Great Wolf Lodge brand name. Our resorts are open year-round and provide a consistent, comfortable environment where our guests can enjoy our various amenities and activities.

We provide our guests with a self-contained vacation experience and focus on capturing a significant portion of their total vacation spending. We earn revenues through the sale of rooms (which includes admission to our indoor waterpark), and other revenue-generating resort amenities. Each of our resorts features a combination of the following revenue-generating amenities: themed restaurants and snack bars, ice cream shop and confectionery, full-service adult spa, kid spa, game arcade, gift shop, miniature golf, interactive game attraction, family tech center and meeting space. We also generate revenues from licensing arrangements, management fees and other fees with respect to our operation or development of properties owned in whole or in part by third parties.

On June 7, 2010, we acquired a 62.4% equity interest in Creative Kingdoms (CK). CK is a developer of experiential gaming products including MagiQuest®, an interactive game attraction available at nine of our resorts. CK also licenses or has sold to other parties several stand-alone MagiQuest facilities or similar attractions.

The following table presents an overview of our portfolio of resorts. As of June 30, 2010, we operated, managed and/or have entered into licensing arrangements relating to the operation of 11 Great Wolf Lodge resorts (our signature Northwoods-themed resorts) and one Blue Harbor Resort (a nautical-themed property). We anticipate that most of our future resorts will be licensed and/or developed under our Great Wolf Lodge brand, but we may operate and/or enter into licensing arrangements with regard to additional nautical-themed resorts under our Blue Harbor Resort brand or other resorts in appropriate markets.

(1) Condominium units are individually owned by third parties and are managed by us.

(2) Our indoor entertainment

areas generally include our indoor waterpark, game arcade, children's activity room, family tech center, MagiQuest and fitness room, as well as our spa in the resorts that have such amenities.

- (3) These properties are owned by CNL Lifestyle Properties, Inc. (CNL), a real estate investment trust focused on leisure and lifestyle properties. Prior to August 2009, these properties were owned by a joint venture between CNL and us. In August 2009 we sold our 30.26% joint venture interest to CNL for \$6,000. We currently manage both properties and license the Great Wolf Lodge brand to these resorts.

- (4) Five of our properties (Great Wolf Lodge resorts in Williamsburg,

VA; Pocono  
Mountains, PA;  
Mason, OH;  
Grapevine, TX  
and Concord  
NC) each had a  
book value of  
fixed assets  
equal to ten  
percent or more  
of our total  
assets as of  
June 30, 2010  
and each of  
those five  
properties had  
total revenues  
equal to ten  
percent or more  
of our

**Table of Contents**

total revenues  
for the three and  
six months  
ended June 30,  
2010.

- (5) An affiliate of  
Ripley  
Entertainment,  
Inc. (Ripley),  
our licensee,  
owns this resort.  
We have  
granted Ripley a  
license to use  
the Great Wolf  
Lodge name for  
this resort  
through  
April 2016. We  
managed the  
resort on behalf  
of Ripley  
through  
April 2009.
- (6) This property is  
owned by a joint  
venture. The  
Confederated  
Tribes of the  
Chehalis  
Reservation  
(Chehalis) owns  
a 51% interest  
in the joint  
venture, and we  
own a 49%  
interest. We  
operate the  
property and  
license the  
Great Wolf  
Lodge brand to  
the property  
under long-term  
agreements  
through  
April 2017,

subject to earlier termination in certain situations. The joint venture leases the land for the resort from the United States Department of Interior, which is trustee for Chehalis.

*Acquisition of Creative Kingdoms, LLC.* On June 7, 2010, we acquired a 62.4% equity interest in Creative Kingdoms (CK) in exchange for all of the \$8,700 principal balance, plus accrued interest of \$1,263, of convertible indebtedness owed to us by CK. We have consolidated CK as we have a majority ownership interest in CK. We accounted for this business combination using the acquisition method of accounting, which requires us to measure the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest at the acquisition-date fair value. We have recorded the identifiable assets acquired, the liabilities assumed and the noncontrolling interest at amounts that approximate fair value. We have recorded \$2,276 of goodwill, which represents the excess of (a) the consideration transferred and the fair value of any noncontrolling interest in the acquiree over (b) the net of the acquisition date fair values of the assets acquired and the liabilities assumed.

*Industry Trends.* We operate in the family entertainment resort segment of the travel and leisure industry. The concept of a family entertainment resort with an indoor waterpark was first introduced to the United States in Wisconsin Dells, Wisconsin, and has evolved since 1987. In an effort to boost occupancy and daily rates, as well as capture off-season demand, hotel operators in the Wisconsin Dells market began expanding indoor pools and adding waterslides and other water-based attractions to existing hotels and resorts. The success of these efforts prompted several local operators to build new, larger destination resorts based primarily on the concept.

We believe that these resorts have proven popular because of several factors, including the ability to provide a year-round vacation destination without weather-related risks, the wide appeal of water-based recreation and the favorable trends in leisure travel discussed below.

While no standard industry definition for a family entertainment resort featuring an indoor waterpark has developed, we generally consider resorts with at least 200 rooms featuring indoor waterparks larger than 25,000 square feet, as well as a variety of water slides and other water-based attractions, to be competitive with our resorts. A Hotel & Leisure Advisors, LLC (H&LA) survey as of June 2010 indicates that there are 144 open indoor waterpark resort properties in the United States and Canada. Of the total, 51 are considered indoor waterpark destination resorts offering more than 30,000 square feet of indoor waterpark space. Of these 51 properties, 11 are Great Wolf Resorts properties.

We believe recent vacation trends favor drive-to family entertainment resorts featuring indoor waterparks, as the number of families choosing to take shorter, more frequent vacations that they can drive to have increased in recent years. We believe these trends will continue. We believe indoor waterpark resorts are generally less affected by changes in economic cycles, as drive-to destinations are generally less expensive and more convenient than destinations that require air travel.

*Outlook.* We believe that no other operator or developer other than us has established a national portfolio of destination family entertainment resorts that feature indoor waterparks. Our resorts do, however, compete directly with other family entertainment resorts in several of our markets. We intend to continue to expand our portfolio of resorts throughout the United States and to selectively seek licensing and management opportunities domestically and internationally.

The resorts we plan to develop, license and/or operate in the future may require significant industry knowledge and/or substantial capital resources. Our external growth strategy going forward is to seek joint venture, licensing and

**Table of Contents**

management opportunities. We expect each of the joint venture arrangements would involve us having a minority or no ownership interest in the new resort. We believe there are opportunities to capitalize on our existing brand and operational platforms with lower capital requirements from us than if we were to sole or majority owner of the new resort.

Our primary business objective is to increase long-term stockholder value. We believe we can increase stockholder value by executing our internal and external growth strategies. Our primary internal growth strategies are:

- leveraging our competitive advantages and increasing domestic geographic diversification through a licensing-based business model and joint venture investments in target markets;

- expanding our brand footprint internationally;

- selective sales of ownership interests/recycling of capital;

- expanding and enhancing existing resorts;

- continuing to innovate;

- maximizing total resort revenues;

- minimizing total resort costs; and

- building upon our existing brand awareness and loyalty.

In attempting to execute our internal and external growth strategies, we are subject to a variety of business challenges and risks. These include:

- development and licensing of properties;

- increases in costs of constructing, operating and maintaining our resorts;

- competition from other entertainment companies, both within and outside our industry segment; and

- external economic risks, including family vacation patterns and trends.

We seek to meet these challenges by providing sufficient management oversight to site selection, development and resort operations; concentrating on growing and strengthening awareness of our brand and demand for our resorts; and maintaining our focus on safety.

Our business model is highly dependent on consumer spending, because the majority of our revenues are earned from leisure guests and a vacation experience at one of our resorts is a discretionary expenditure for a family. Over the past three years, the slowing U.S. economy has led to a decrease in credit for consumers and a related decrease in consumer discretionary spending. Through the second quarter of 2010, consumers continued to deal with several negative economic impacts that have developed over the past three years, including:

- severe turbulence in the banking and lending sectors, which has led to a general lessening of the availability of credit to consumers;

- an increased national unemployment rate;

- a continuing decline in the national average of home prices and an increase in the national home foreclosure rate; and

- high volatility in the stock market that led to substantial declines in leading market averages and aggregate household savings from 2007 to 2010.

These and other factors impact the amount of discretionary income for consumers and consumer sentiment toward discretionary purchases. As a result, these types of items could negatively impact consumer spending in future periods. While we believe the convenience, quality and overall affordability of a stay at one of our resorts continues to be an attractive alternative to other potential family vacations, a sustained decrease in overall consumer discretionary spending could have a material, adverse effect on our overall results.

**Table of Contents**

We develop resorts with expectations of achieving certain financial returns on a resort's operations. The economic slowdown of the past three years has materially and adversely affected our ability to achieve the operating results on our resorts that we had expected to achieve when those resorts were first planned and developed. Also:

We believe that our Traverse City and Sandusky resorts have been and will continue to be affected by especially adverse general economic circumstances in the Michigan/Northern Ohio region (such as bankruptcies of several major companies and/or large announced layoffs by major employers) and increased competition that has occurred in these markets over the past few years. The Michigan/Northern Ohio region includes cities that have historically been the Traverse City and Sandusky resorts' largest source of customers. We believe the adverse general economic circumstances in the region have negatively impacted overall discretionary consumer spending in that region over the past few years and may continue to do so going forward. Although we have taken steps to reduce our operating costs at these resorts, we believe the general regional economic downturn has and may continue to have an impact on the operating performance of our Traverse City and Sandusky resorts.

Our Wisconsin Dells property has been significantly impacted by the abundance of competing indoor waterpark resorts in that market. The Wisconsin Dells market has approximately 16 indoor waterpark resorts that compete with us. We believe this large number of competing properties in a relatively small tourist destination location has and will likely continue to have an adverse impact on the operating performance of our Wisconsin Dells resort.

We have experienced much lower than expected occupancy and lower than expected average daily room rates at our Sheboygan, Wisconsin property since its opening in 2004. We believe this operating weakness has been primarily attributable to the fact that the overall development of Sheboygan as a tourist destination continues to lag significantly behind our initial expectations. We believe this has materially impacted and will likely continue to impact the consumer demand for our indoor waterpark resort in that market and the operations of the resort. As a result of those conditions, we recorded an impairment charge in 2009 to decrease the resort's carrying value to its estimated fair value (net of disposal costs). In May 2010, we listed the resort for sale.

Our external growth strategies are based primarily on developing additional indoor waterpark resorts (in conjunction with joint venture partners) or by licensing our intellectual property and proprietary management systems to others. Developing new resorts of the size and scope of our family entertainment resorts generally requires obtaining financing for a significant portion of a project's expected construction costs. The general tightening in U.S. lending markets has dramatically decreased the overall availability of construction financing.

Although the ultimate effect on our external growth strategy of the current credit environment is difficult to predict with certainty, we believe that the availability of construction financing to us and other investors and/or developers may be more restrictive in the future and that terms of construction financing may be less favorable than we have seen historically prior to 2008. Although we believe that we and other investors and/or developers may be able to continue to obtain construction financing sufficient to execute development strategies, we expect that the more difficult credit market environment is likely to continue at least through 2010.

*Revenue and Key Performance Indicators.* We seek to generate positive cash flows and maximize our return on invested capital from each of our owned resorts. Our rooms revenue represents sales to guests of room nights at our resorts and is the largest contributor to our cash flows and EBITDA. Rooms revenue accounted for approximately 66% of our total consolidated resort revenue for the six months ended June 30, 2010. We employ sales and marketing efforts to increase overall demand for rooms at our resorts. We seek to optimize the relationship between room rates and occupancies through the use of yield management techniques that attempt to project demand in order to selectively increase room rates during peak demand. These techniques are designed to assist us in managing our higher occupancy nights to achieve maximum rooms revenue and include such practices as:

monitoring our historical trends for occupancy and estimating our high occupancy nights;

**Table of Contents**

offering the highest discounts to previous guests in off-peak periods to build customer loyalty and enhance our ability to charge higher rates in peak periods;

structuring rates to allow us to offer our previous guests the best rate while simultaneously working with a promotional partner or offering internet specials;

monitoring sales of room types daily to evaluate the effectiveness of offered discounts; and

offering specials on standard suites and yielding better rates on larger suites when standard suites sell out.

In addition, we seek to maximize the amount of time and money spent on-site by our guests by providing a variety of revenue-generating amenities.

We have several key indicators that we use to evaluate the performance of our business. These indicators include the following:

occupancy;

average daily room rate, or ADR;

revenue per available room, or RevPAR;

total revenue per available room, or Total RevPAR;

total revenue per occupied room, or Total RevPOR; and

earnings before interest, taxes, depreciation and amortization, or EBITDA.

Occupancy, ADR and RevPAR are commonly used measures within the hospitality industry to evaluate hotel operations and are defined as follows:

Occupancy is calculated by dividing total occupied rooms by total available rooms.

ADR is calculated by dividing total rooms revenue by total occupied rooms.

RevPAR is the product of occupancy and ADR.

Total RevPAR and Total RevPOR are defined as follows:

Total RevPAR is calculated by dividing total revenue by total available rooms.

Total RevPOR is calculated by dividing total revenue by total occupied rooms.

Occupancy allows us to measure the general overall demand for rooms at our resorts and the effectiveness of our sales and marketing strategies. ADR allows us to measure the effectiveness of our yield management strategies. While ADR and RevPAR only include rooms revenue, Total RevPOR and Total RevPAR include both rooms revenue and other revenue derived from food and beverage and other amenities at our resorts. We consider Total RevPOR and Total RevPAR to be key performance indicators for our business because we derive a significant portion of our revenue from food and beverage and other amenities. For the six months ended June 30, 2010, approximately 34% of our total consolidated resort revenues consisted of non-rooms revenue.

We use RevPAR and Total RevPAR to evaluate the blended effect that changes in occupancy, ADR and Total RevPOR have on our results. We focus on increasing ADR and Total RevPOR because we believe those increases can have the greatest positive impact on our results. In addition, we seek to maximize occupancy, as increases in occupancy

**Table of Contents**

generally lead to greater total revenues at our resorts, and we believe maintaining certain occupancy levels is key to covering our fixed costs. Increases in total revenues as a result of higher occupancy are, however, typically accompanied by additional incremental costs (including housekeeping services, utilities and room amenity costs). In contrast, increases in total revenues from higher ADR and Total RevPOR are typically accompanied by lower incremental costs and result generally, in a greater increase in operating cash flow.

We also use EBITDA as a measure of the operating performance of each of our resorts. EBITDA is a supplemental financial measure and is not defined by accounting principles generally accepted in the United States (GAAP). See Non-GAAP Financial Measures: below for further discussion of our use of EBITDA and a reconciliation of net income.

**Critical Accounting Policies and Estimates**

This discussion and analysis of our financial condition and results of operations is based on our condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these condensed consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the unconsolidated financial statements, as well as revenue and expenses during the reporting periods. We evaluate our estimates and judgments on an ongoing basis. We base our estimates on historical experience and on various other factors we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results could therefore differ materially from those estimates under different assumptions or conditions.

*Acquisition Accounting* We follow acquisition accounting for all acquisitions that meet the business combination definition. Acquisition accounting requires us to measure the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest at the acquisition-date fair value. While we use our best estimates and assumptions as a part of the purchase price allocation process to accurately value assets acquired and liabilities assumed at the acquisition date, our estimates are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the acquisition date, we record adjustments to the assets acquired and liabilities assumed, with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to our consolidated statements of operations.

*Goodwill* Goodwill is measured at an acquisition date as the excess of (a) the consideration transferred and the fair value of any noncontrolling interest in the acquiree over (b) the net of the acquisition date fair values of the assets acquired and the liabilities assumed. We are required to assess goodwill for impairment annually, or more frequently if circumstances indicate impairment may have occurred. We assess goodwill for such impairment by comparing the carrying value of our reporting units to their fair values. We determine our reporting units' fair values using a discounted cash flow model.

In connection with the acquisition of the majority interest in CK we have recorded \$2,276 of goodwill that is included within Intangible Assets on our condensed consolidated balance sheet.

	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Goodwill	\$ 2,276	130,496
Accumulated impairment losses		(68,405)
Goodwill related to sale of affiliate		(62,091)
	\$ 2,276	\$

*Noncontrolling Interests* We record the non-owned equity interests of our consolidated subsidiaries as a separate component of our consolidated equity on our condensed consolidated balance sheet. The net earnings attributable to the

**Table of Contents**

controlling and noncontrolling interests are included on the face of our statements of operations. Due to our acquisition of CK in June 2010 we have a consolidated subsidiary with a noncontrolling interest as of June 30, 2010.

For a description of our critical accounting policies and estimates, please refer to the Critical Accounting Policies and Estimates section of our Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 31, 2009. There have been no material changes in any of our critical accounting policies since December 31, 2009.

**Recent Accounting Pronouncements**

In June 2009, the FASB issued guidance which changes how a reporting entity determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. The determination of whether a reporting entity is required to consolidate another entity is based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. The guidance requires a reporting entity to provide additional disclosures about its involvement with variable interest entities and any significant changes in risk exposure due to that involvement. A reporting entity will be required to disclose how its involvement with a variable interest entity affects the reporting entity's financial statements. The adoption of this guidance is effective for fiscal years beginning after November 15, 2009, and interim periods within those fiscal years. We adopted this guidance on January 1, 2010. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

In August 2009, the FASB issued guidance on measuring liabilities at fair value which provides clarification on measuring liabilities at fair value when a quoted price in an active market is not available. The guidance is effective for the first reporting period beginning after issuance. The adoption of this guidance did not have an impact on our condensed consolidated financial statements.

In October 2009, the FASB issued guidance for revenue recognition with multiple deliverables. This guidance eliminates the residual method under the current guidance and replaces it with the relative selling price method when allocating revenue in a multiple deliverable arrangement. The selling price for each deliverable shall be determined using vendor specific objective evidence of selling price, if it exists, otherwise third-party evidence of selling price shall be used. If neither exists for a deliverable, the vendor shall use its best estimate of the selling price for that deliverable. After adoption, this guidance will also require expanded qualitative and quantitative disclosures. The guidance is effective for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, although early adoption is permitted. We do not expect the adoption of this guidance to have a material impact on our condensed consolidated financial statements.

In January 2010, the FASB issued updated guidance related to fair value measurement and disclosures, which requires a reporting entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and to describe the reasons for the transfers. The updated guidance also requires that an entity should provide fair value measurement disclosures for each class of assets and liabilities and disclosures about the valuation techniques and inputs used to measure fair value for both recurring and non-recurring fair value measurements for Level 2 and Level 3 fair value measurements. This updated guidance became effective for interim or annual financial reporting periods beginning after December 15, 2009. We adopted this guidance on January 1, 2010. The adoption of this guidance did not have a material impact on our condensed consolidated financial statements.

**Non-GAAP Financial Measures**

We use EBITDA as a measure of our operating performance. EBITDA is a supplemental non-GAAP financial measure. EBITDA is commonly defined as net income plus (a) net interest expense, (b) income taxes, and (c) depreciation and amortization.

**Table of Contents**

EBITDA as calculated by us is not necessarily comparable to similarly titled measures presented by other companies. In addition, EBITDA (a) does not represent net income or cash flows from operations as defined by GAAP; (b) is not necessarily indicative of cash available to fund our cash flow needs; and (c) should not be considered as an alternative to net income, operating income, cash flows from operating activities or our other financial information as determined under GAAP.

We believe EBITDA is useful to an investor in evaluating our operating performance because:  
a significant portion of our assets consists of property and equipment that are depreciated over their remaining useful lives in accordance with GAAP. Because depreciation and amortization are non-cash items, we believe that presentation of EBITDA is a useful measure of our operating performance;

it is widely used in the hospitality and entertainment industries to measure operating performance without regard to items such as depreciation and amortization; and

we believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the impact of items directly resulting from our asset base, primarily depreciation and amortization, from our operating results.

Our management uses EBITDA:

as a measurement of operating performance because it assists us in comparing our operating performance on a consistent basis as it removes the impact of items directly resulting from our asset base, primarily depreciation and amortization, from our operating results;

for planning purposes, including the preparation of our annual operating budget;

as a valuation measure for evaluating our operating performance and our capacity to incur and service debt, fund capital expenditures and expand our business; and

as one measure in determining the value of other acquisitions and dispositions.

Using a measure such as EBITDA has material limitations. These limitations include the difficulty associated with comparing results among companies and the inability to analyze certain significant items, including depreciation and interest expense, which directly affect our net income or loss. Management compensates for these limitations by considering the economic effect of the excluded expense items independently, as well as in connection with its analysis of net income.

The following table reconciles net loss attributable to Great Wolf Resorts, Inc. to EBITDA for the periods presented.

	<b>Three months ended June 30,</b>		<b>Six months ended June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Net loss attributable to Great Wolf Resorts, Inc.	\$ (12,760)	\$ (5,706)	\$ (20,825)	\$ (11,351)
Adjustments:				
Interest expense, net of interest income	12,279	8,629	21,225	14,708
Income tax expense (benefit)	194	(3,966)	369	(7,523)
Depreciation and amortization	17,110	14,630	31,130	27,216
<b>EBITDA</b>	<b>\$ 16,823</b>	<b>\$ 13,587</b>	<b>\$ 31,899</b>	<b>\$ 23,050</b>

**Table of Contents**

**Results of Operations**

***General***

Our financial information includes:

our subsidiary entity that provides resort development and management/licensing services;

our Traverse City, Kansas City, Sheboygan, Williamsburg, Pocono Mountains, Mason, Grapevine and Concord wholly-owned resorts;

our subsidiary that is the developer of experiential gaming products, less our noncontrolling interest; and

our equity interests in the Wisconsin Dells and Sandusky resorts through August 2009, when we sold our minority ownership interests in those resorts, and our equity interest in Grand Mound resort in which we have an ownership interest but which we do not consolidate.

*Revenues.* Our revenues consist of:

lodging revenue, which includes rooms, food and beverage, and other department revenues from our resorts;

revenue from our subsidiary that is the developer of experiential gaming products, which includes product sales, admission fees and retail revenues;

management fee and other revenue from resorts, which includes fees received under our management, license, development and construction management agreements; and

other revenue from managed properties. We employ the staff at our managed properties. Under our management agreements, the resort owners reimburse us for payroll, benefits and certain other costs related to the operations of the managed properties. We include the reimbursement of payroll, benefits and costs, recorded as revenue on our statements of operations, with a corresponding expense recorded as other expenses from managed properties.

*Operating Expenses.* Our departmental operating expenses consist of rooms, food and beverage and other department expenses.

Our other operating expenses include the following items:

selling, general and administrative expenses, which are associated with the operations and management of resorts and which consist primarily of expenses such as corporate payroll and related benefits, operations management,

**Table of Contents**

sales and marketing, finance, legal, information technology support, human resources and other support services, as well as general corporate expenses;

property operation and maintenance expenses, such as utility costs and property taxes;

depreciation and amortization; and

other expenses from managed properties.

**Three months ended June 30, 2010, compared with the three months ended June 30, 2009**

The following table shows key operating statistics for our resorts for the three months ended June 30, 2010 and 2009:

	All Properties(a)	Same Store Comparison(b)				
		2010	2010	2009	Increase/ (Decrease)	
					\$	%
Occupancy	59.0%	59.6%	61.6%	N/A	(3.2)%	
ADR	\$ 239.11	\$ 237.58	\$ 230.26	\$ 7.32	3.2%	
RevPAR	\$ 140.99	\$ 141.66	\$ 141.79	\$ (0.13)	(0.1)%	
Total RevPOR	\$ 371.17	\$ 369.32	\$ 358.65	\$ 10.67	3.0%	
Total RevPAR	\$ 218.85	\$ 220.22	\$ 220.85	\$ (0.63)	(0.3)%	
Non-rooms revenue per occupied room	\$ 132.06	\$ 131.74	\$ 128.39	\$ 3.35	2.6%	

(a) Includes results for properties that were open for any portion of the period, for all owned, managed and/or licensed resorts.

(b) Same store comparison includes properties that were open for the full periods and with comparable number of rooms in 2010 and 2009 (that is, all properties other than our Concord resort).

The changes in key operating statistics for the three months ended June 30, 2010, compared to the three months ended June 30, 2009, were negatively impacted in part by a shift in earlier school spring-break travel into the first

quarter and positively impacted by overall better economic conditions which appear to be having a positive impact on consumer sentiment and spending patterns.

Presented below are selected amounts from the statements of operations for the three months ended June 30, 2010 and 2009:

	<b>Three months ended</b>		
	<b>June 30,</b>		
	<b>2010</b>	<b>2009</b>	<b>Increase/ (Decrease)</b>
Revenues	\$ 68,428	\$ 68,625	\$ (197)
Operating expenses:			
Departmental operating expenses	23,358	23,237	121
Selling, general and administrative	14,486	16,987	(2,501)
Property operating costs	8,170	9,114	(944)
Depreciation and amortization	17,110	14,630	2,480
Net operating loss	(318)	(581)	263
Interest expense, net of interest income	12,279	8,629	3,650
Income tax expense (benefit)	189	(3,635)	3,824
Net loss attributable to Great Wolf Resorts, Inc.	(12,760)	(5,706)	(7,054)

**Table of Contents***Operating expenses.*

Total selling, general and administrative expenses decreased by \$2,501 in the three months ended June 30, 2010, as compared to the three months ended June 30, 2009, due primarily to a settlement received at our Poconos resort related to wastewater treatment litigation as well as a decrease in corporate development-related expenditures.

Opening-related costs (included in total property operating costs) related to our resorts were \$1,339 for the three months ended June 30, 2009, due primarily to the opening of our Concord resort in March 2009. There were no similar opening-related resort costs for the three months ended June 30, 2010.

Total depreciation and amortization increased for the three months ended June 30, 2010, as compared to the three months ended June 30, 2009, primarily due to unamortized loan fees expensed in the amount of \$3,500 related to our existing Williamsburg, Mason and Grapevine loans that were repaid with the net proceeds of the first mortgage notes. This increase was partially offset by a decrease in depreciation on our Sheboygan resort due to the asset impairment loss recorded in 2009.

*Net loss attributable to Great Wolf Resorts, Inc.* Net loss attributable to Great Wolf Resorts, Inc. increased due to:

An increase in net interest expense of \$3,650, mainly due to interest expense related to our first mortgage notes.

An increase in income tax expense of \$3,824 recorded in the three months ended June 30, 2010 as compared to the three months ended June 30, 2009 as a result of fully reserving deferred tax assets resulting from net operating losses in 2010. We did not record a similar reserve in the three months ended June 30, 2009.

***Six months ended June 30, 2010, compared with the six months ended June 30, 2009***

The following table shows key operating statistics for our resorts for the six months ended June 30, 2010 and 2009:

	All Properties(a)		Same Store Comparison(b)			
			2010		2009	
	2010		2010	2009	\$	%
Occupancy	59.2%		59.9%	60.4%	N/A	(0.8)%
ADR	\$ 248.42		\$ 247.87	\$ 240.88	\$ 6.99	2.9%
RevPAR	\$ 147.14		\$ 148.60	\$ 145.47	\$ 3.13	2.2%
Total RevPOR	\$ 384.97		\$ 384.62	\$ 373.31	\$ 11.31	3.0%
Total RevPAR	\$ 228.02		\$ 230.58	\$ 225.44	\$ 5.14	2.3%
Non-rooms revenue per occupied room	\$ 136.55		\$ 136.75	\$ 132.43	\$ 4.32	3.3%

(a) Includes results for properties that were open for any portion of the period, for all owned, managed and/or licensed resorts.

(b) Same store comparison

includes  
properties that  
were open for  
the full periods  
and with  
comparable  
number of  
rooms in 2010  
and 2009 (that  
is, all properties  
other than our  
Concord resort).

**Table of Contents**

The changes in key operating statistics for the six months ended June 30, 2010, compared to the six months ended June 30, 2009, were positively impacted by overall better economic conditions which appear to be having a positive impact on consumer sentiment and spending patterns.

Presented below are selected amounts from the statements of operations for the six months ended June 30, 2010 and 2009:

	<b>Six months ended June 30,</b>		<b>Increase/ (Decrease)</b>
	<b>2010</b>	<b>2009</b>	
Revenues	\$ 139,107	\$ 130,932	\$ 8,175
Operating expenses:			
Departmental operating expenses	46,281	42,949	3,332
Selling, general and administrative	33,228	31,631	1,597
Property operating costs	17,204	21,456	(4,252)
Depreciation and amortization	31,130	27,216	3,914
Net operating income (loss)	221	(3,031)	3,252
Interest expense, net of interest income	21,225	14,708	6,517
Income tax expense (benefit)	369	(6,783)	7,152
Net loss attributable to Great Wolf Resorts, Inc.	(20,825)	(11,351)	(9,474)

*Revenues.* Total revenues increased due to the following:

An increase in revenue from our Concord resort, which opened in March 2009.

*Operating expenses.* Total operating expenses increased primarily due to the opening of our Concord resort in March 2009.

Departmental expenses increased by \$3,332 for the six months ended June 30, 2010, as compared to the six months ended June 30, 2009, due primarily to the opening of our Concord resort.

Total selling, general and administrative expenses increased by \$1,597 in the six months ended June 30, 2010, as compared to the six months ended June 30, 2009, due primarily to the opening of our Concord resort offset by a settlement received at our Poconos resort related to wastewater treatment litigation during the six months ended June 30, 2010 as compared to the six months ended June 30, 2009.

Opening-related costs (included in total property operating costs) related to our resorts were \$5,583 for the six months ended June 30, 2009, due primarily to the expansion of our Grapevine property in January 2009 and opening of our Concord resort in March 2009. There were no similar opening-related costs for the six months ended June 30, 2010.

Total depreciation and amortization increased for the six months ended June 30, 2010, as compared to the six months ended June 30, 2009, primarily due to unamortized loan fees expensed in the amount of \$3,500 related to our existing Williamsburg, Mason and Grapevine loans that were repaid with the net proceeds of the first mortgage notes. This increase was partially offset by a decrease in depreciation on our Sheboygan resort due to the asset impairment loss recorded in 2009.

**Table of Contents**

*Net operating income (loss).* During the six months ended June 30, 2010, we had net operating income of \$221 as compared to a net operating loss of \$3,031 for the six months ended June 30, 2009.

*Net loss attributable to Great Wolf Resorts, Inc.* Net loss attributable to Great Wolf Resorts, Inc. increased due to:

An increase in net interest expense of \$6,517, mainly due to interest expense on our first mortgage notes, and less interest being capitalized to development properties in 2010 as compared to 2009 due to fewer properties being developed.

An increase in income tax expense of \$7,152 recorded in the six months ended June 30, 2010 as compared to the six months ended June 30, 2009 as a result of fully reserving deferred tax assets resulting from net operating losses in 2010. We did not record a similar reserve in the six months ended June 30, 2009.

**Segments**

We are organized into a single operating division. Within that operating division, we have two reportable segments:

resort ownership/operation-revenues derived from our consolidated owned resorts; and

resort third-party management/licensing-revenues derived from management, license and other related fees from unconsolidated managed resorts.

See our Segments section in our Summary of Significant Accounting Policies, in Note 2 of our condensed consolidated financial statements.

	Three months ended June 30,			Six months ended June 30,		
	2010	2009	Increase / (Decrease)	2010	2009	Increase / (Decrease)
<b>Resort Ownership/Operation</b>						
Revenues	\$ 60,428	\$ 61,775	\$ (1,347)	\$ 124,041	\$ 116,987	\$ 7,054
EBITDA	14,758	13,697	1,061	29,569	23,185	6,384
<b>Resort Third-Party Management/License</b>						
Revenues	7,133	6,850	283	14,199	13,945	254
EBITDA	1,520	1,612	(92)	3,175	3,425	(250)
<b>Other</b>						
Revenues	867		867	867		867
EBITDA	545	(1,722)	2,267	(845)	(3,560)	2,715

The Other column in the table above includes items that do not constitute a reportable segment and represent corporate-level activities and the activities of other operations not included in the Resort Ownership/Operation or Resort Third-Party Management/License segments.

**Liquidity and Capital Resources**

We had total indebtedness of \$553,467 and \$550,071 as of June 30, 2010 and December 31, 2009, respectively, summarized as follows:

**Table of Contents**

	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Long-Term Debt:		
Traverse City/Kansas City mortgage loan	\$ 68,011	\$ 68,773
Mason mortgage loan		73,800
Pocono Mountains mortgage loan	94,867	95,458
Williamsburg mortgage loan		63,125
Grapevine mortgage loan		77,909
Concord mortgage loan	78,588	78,549
First mortgage notes (net of discount of \$10,343)	219,657	
Junior subordinated debentures	80,545	80,545
Other Debt:		
City of Sheboygan bonds	8,564	8,544
City of Sheboygan loan	3,172	3,290
Other	63	78
	553,467	550,071
Less current portion of long-term debt	(4,186)	(16,126)
Total long-term debt	\$ 549,281	\$ 533,945

*Traverse City/Kansas City Mortgage Loan* This loan is secured by our Traverse City and Kansas City resorts. The loan bears interest at a fixed rate of 6.96%, is subject to a 25-year principal amortization schedule, and matures in January 2015. The loan has customary financial and operating debt compliance covenants. The loan also has customary restrictions on our ability to prepay the loan prior to maturity. We were in compliance with all covenants under this loan at June 30, 2010.

The loan requires us to maintain a minimum debt service coverage ratio (DSCR) of 1.35, calculated on a quarterly basis. This ratio is defined as the two collateral properties' combined trailing twelve-month net operating income divided by the greater of (i) the loan's twelve-month debt service requirements and (ii) 8.5% of the amount of the outstanding principal indebtedness under the loan. Failure to meet the minimum DSCR is not an event of default and does not accelerate the due date of the loan. Not meeting the minimum DSCR, however, subjects the two properties to a lock-box cash management arrangement, at the discretion of the loan's servicer. We believe that a lock-box arrangement would require substantially all cash receipts for the two resorts to be moved each day to a lender-controlled bank account, which the loan servicer would then use to fund debt service and operating expenses for the two resorts, with excess cash flow being deposited in a reserve account and held as additional collateral for the loan. While recourse under the loan is limited to the property owner's interest in the mortgage property, we have provided limited guarantees with respect to certain customary non-recourse provisions and environmental indemnities relating to the loan.

For the twelve-month period ended June 30, 2010, the DSCR for this loan was 0.78. As a result, the loan servicer may choose to implement the lock-box cash management arrangement. We believe that such an arrangement, if implemented, would constitute a traditional lock-box arrangement as discussed in authoritative accounting guidance. Based on that guidance, if the loan servicer were to establish the traditional lock-box arrangement now permitted under the loan, we believe we would be required to classify the entire outstanding principal balance of the loan as a current liability, since the lock-box arrangement would require us to use the properties' working capital to liquidate the loan, and we do not presently have the ability to refinance this loan to a new, long-term loan.

The loan also contains a similar lock-box requirement if we open any Great Wolf Lodge or Blue Harbor Resort within 100 miles of either resort, and the two collateral properties' combined trailing twelve-month net operating

income is not at least equal to 1.8 times 8.5% of the amount of the outstanding principal indebtedness under the loan.

*Mason Mortgage Loan* This loan was secured by our Mason resort. In April 2010, we used a portion of the proceeds from the issuance of new first mortgage notes to repay this loan in its entirety.

*Pocono Mountains Mortgage Loan* This loan is secured by a mortgage on our Pocono Mountains resort. The loan bears interest at a fixed rate of 6.10% and matures in January 2017. The loan is currently subject to a 30-year principal

**Table of Contents**

amortization schedule. The loan has customary covenants associated with an individual mortgaged property. The loan also has customary restrictions on our ability to prepay the loan prior to maturity. We were in compliance with all covenants under this loan at June 30, 2010.

The loan requires us to maintain a minimum DSCR of 1.25, calculated on a quarterly basis. Subject to certain exceptions, the DSCR is increased to 1.35 if we open up a waterpark resort within 75 miles of the property or incur mezzanine debt secured by the resort. This ratio is defined as the property's combined trailing twelve-month net operating income divided by the greater of (i) the loan's twelve-month debt service requirements and (ii) 7.25% of the amount of the outstanding principal indebtedness under the loan. Failure to meet the minimum DSCR is not an event of default and does not accelerate the due date of the loan. Not meeting the minimum DSCR, however, subjects the property to a lock-box cash management arrangement, at the discretion of the loan's servicer. We believe that lock-box arrangement would require substantially all cash receipts for the resort to be moved each day to a lender-controlled bank account, which the loan servicer would then use to fund debt service and operating expenses for the resort, with excess cash flow being deposited in a reserve account and held as additional collateral for the loan. While recourse under the loan is limited to the property owner's interest in the mortgage property, we have provided limited guarantees with respect to certain customary non-recourse provisions and environmental indemnities relating to the loan.

*Williamsburg Mortgage Loan* This loan was secured by our Williamsburg resort. In April 2010, we used a portion of the proceeds from the issuance of new first mortgage notes to repay this loan in its entirety.

*Grapevine Mortgage Loan* This loan was secured by our Grapevine resort. In April 2010, we used a portion of the proceeds from the issuance of new first mortgage notes to repay this loan in its entirety.

*Concord Mortgage Loan* This loan is secured by our Concord resort. The loan bears interest at a floating annual rate of LIBOR plus a spread of 310 basis points, with a minimum rate of 6.50% per annum (effective rate of 6.50% as of June 30, 2010). This loan matures in April 2012 and requires interest only payments until the one-year anniversary of the conversion date of the property and then requires monthly principal payments based on a 25-year amortization schedule. However, if the resort owner's net income available to pay debt service on this loan for four consecutive quarters is less than \$10,000, or if maximum principal amount of the loan exceeds 75% of the fair market value of the property, then we are required to post cash collateral or partially repay the loan in an amount sufficient to remedy such deficiency. This loan has customary financial and operating debt compliance covenants associated with an individual mortgaged property, including a minimum consolidated tangible net worth provision. We were in compliance with all covenants under this loan at June 30, 2010.

Great Wolf Resorts has provided a \$78,588 payment guarantee of the Concord mortgage loan and a customary environmental indemnity.

*First Mortgage Notes* In April 2010, we completed a private placement of \$230,000 in aggregate principal amount of our 10.875% first mortgage notes (the Notes) due April 2017. The Notes were sold at a discount that provides an effective yield of 11.875% before transaction costs. We are amortizing the discount over the life of the Notes using the straight-line method, which approximates the effective interest method. The proceeds of the Notes were used to retire the outstanding mortgage debt on our Mason, Williamsburg, and Grapevine properties and for general corporate purposes.

The Notes are senior obligations of the issuers, GWR Operating Partnership, LLLP and Great Wolf Finance Corp. The Notes are guaranteed by Great Wolf Resorts, Inc. and by our subsidiaries that own three of our resorts and those guarantees are secured by first priority mortgages on those three resorts. The Notes are also guaranteed by certain of our other subsidiaries on a senior unsecured basis.

The Notes require that we satisfy certain tests in order to: (i) incur additional indebtedness except to refinance maturing debt with replacement debt, as defined under our indentures; (ii) pay dividends; (iii) repurchase capital stock;

**Table of Contents**

(iv) make investments or (v) merge. We are currently restricted from these activities with certain carve-outs as defined under our indentures.

*Junior Subordinated Debentures* In March 2005 we completed a private offering of \$50,000 of trust preferred securities (TPS) through Great Wolf Capital Trust I (Trust I), a Delaware statutory trust which is our subsidiary. The securities pay holders cumulative cash distributions at an annual rate which is fixed at 7.80% through March 2015 and then floats at LIBOR plus a spread of 310 basis points thereafter. The securities mature in March 2035 and are callable at no premium after March 2010. In addition, we invested \$1,500 in Trust I's common securities, representing 3% of the total capitalization of Trust I.

Trust I used the proceeds of the offering and our investment to purchase from us \$51,550 of junior subordinated debentures with payment terms that mirror the distribution terms of the TPS. The costs of the TPS offering totaled \$1,600, including \$1,500 of underwriting commissions and expenses and \$100 of costs incurred directly by Trust I. Trust I paid these costs utilizing an investment from us. These costs are being amortized over a 30-year period. The proceeds from our debenture sale, net of the costs of the TPS offering and our investment in Trust I, were \$48,400. We used the net proceeds to retire a construction loan.

In June 2007 we completed a private offering of \$28,125 of TPS through Great Wolf Capital Trust III (Trust III), a Delaware statutory trust which is our subsidiary. The securities pay holders cumulative cash distributions at an annual rate which is fixed at 7.90% through June 2012 and then floats at LIBOR plus a spread of 300 basis points thereafter. The securities mature in June 2017 and are callable at no premium after June 2012. In addition, we invested \$870 in the Trust's common securities, representing 3% of the total capitalization of Trust III.

Trust III used the proceeds of the offering and our investment to purchase from us \$28,995 of junior subordinated debentures with payment terms that mirror the distribution terms of the trust securities. The costs of the TPS offering totaled \$932, including \$870 of underwriting commissions and expenses and \$62 of costs incurred directly by Trust III. Trust III paid these costs utilizing an investment from us. These costs are being amortized over a 10-year period. The proceeds from these debenture sales, net of the costs of the TPS offering and our investment in Trust III, were \$27,193. We used the net proceeds for development costs.

Issue trusts, like Trust I and Trust III (collectively, the Trusts), are generally variable interests. We have determined that we are not the primary beneficiary under the Trusts, and accordingly we do not include the financial statements of the Trusts in our consolidated financial statements.

Based on the foregoing accounting authority, our consolidated financial statements present the debentures issued to the Trusts as long-term debt. Our investments in the Trusts are accounted as cost investments and are included in other assets on its consolidated balance sheet. For financial reporting purposes, we record interest expense on the corresponding debentures in our condensed consolidated statements of operations.

*City of Sheboygan Bonds* The City of Sheboygan bonds represent the face amount of bond anticipation notes (BANs) issued by the City in November 2003 in conjunction with the construction of the Blue Harbor Resort in Sheboygan, Wisconsin. We have recognized as a liability the obligations for the BANs. We have an obligation to fund certain minimum guaranteed amounts of room tax payments to be made by the Blue Harbor Resort through 2028, which obligation is indirectly related to the payments by the City on the BANs.

*City of Sheboygan Loan* The City of Sheboygan loan amount represents a loan made by the City in 2004 in conjunction with the construction of the Blue Harbor Resort in Sheboygan, Wisconsin. The loan is noninterest bearing and matures in 2018. Our obligation to repay the loan will be satisfied by certain minimum guaranteed amounts of real and personal property tax payments to be made by the Blue Harbor Resort through 2018.

**Table of Contents**

*Future Maturities* Future principal requirements on long-term debt are as follows:

<b>Through June 30,</b>	
2011	\$ 4,186
2012	80,780
2013	3,538
2014	3,818
2015	63,003
Thereafter	408,485
<b>Total</b>	<b>\$ 563,810</b>

***Short-Term Liquidity Requirements***

Our short-term liquidity requirements generally consist primarily of funds necessary to pay operating expenses for the next 12 months, including:

recurring maintenance, repairs and other operating expenses necessary to properly maintain and operate our resorts;

debt maturities within the next year;

property taxes and insurance expenses;

interest expense and scheduled principal payments on outstanding indebtedness;

general and administrative expenses; and

income taxes.

Historically, we have satisfied our short-term liquidity requirements through a combination of operating cash flows and cash on hand. We believe that cash provided by our operations, together with cash on hand, will be sufficient to fund our short-term liquidity requirements for working capital, capital expenditures and debt service for the next 12 months.

***Long-Term Liquidity Requirements***

Our long-term liquidity requirements generally consist primarily of funds necessary to pay for the following items for periods beyond the next 12 months:

scheduled debt maturities;

costs associated with the development of new resorts;

renovations, expansions and other non-recurring capital expenditures that need to be made periodically to our resorts; and

capital contributions and loans to unconsolidated joint ventures.

We expect to meet these needs through a combination of:

existing working capital,

**Table of Contents**

cash provided by operations,

proceeds from investing activities, including sales of partial or whole ownership interests in certain of our resorts; and

proceeds from financing activities, including mortgage financing on properties being developed, additional or replacement borrowings under future credit facilities, contributions from joint venture partners, and the issuance of equity instruments, including common stock, or additional or replacement debt, including debt securities, as market conditions permit.

We believe these sources of capital will be sufficient to provide for our long-term capital needs. In April 2010, as discussed above, we issued \$230,000 of first mortgage notes and used the net proceeds from that offering to repay three existing mortgage loans that were scheduled to mature in 2011. We cannot be certain, however, that we will have access to additional future financing sufficient to meet our long-term liquidity requirements on terms that are favorable to us, or at all.

Our largest long-term expenditures (other than debt maturities) are expected to be for capital expenditures for development of future resorts, non-routine capital expenditures for our existing resorts, and capital contributions or loans to joint ventures owning resorts under construction or development. Such expenditures were \$6,229 for the six months ended June 30, 2010. We expect to have approximately \$2,000 of such expenditures for the rest of 2010. As discussed above, we expect to meet these requirements primarily through a combination of cash provided by operations and cash on hand.

We currently project that the combination of our cash on hand plus cash provided by operations in 2010 will be sufficient to meet the short-term liquidity requirements, as described above. Based on our current projections, however, we do not believe that we will have sufficient excess amounts of cash available in 2010 in order either to begin development of any new resorts or to make material capital contributions to new joint ventures that would develop resorts that we would license and manage. Also, due to the current state of the capital markets, which are marked by the general unavailability of debt financing for large commercial real estate construction projects, we do not expect to have significant expenditures for development of new resorts until we have all equity and debt capital amounts fully committed, including our projected ability to fund any required equity contribution to a project. Furthermore, the indenture which governs our first mortgage notes imposes significant restrictions on our ability to invest in the development of new resorts or joint ventures that may acquire or develop resorts. We believe these factors may result in our not making any significant expenditures in 2010 for development of new resorts or capital contributions to new joint ventures that develop future resorts.

***Off Balance Sheet Arrangements***

In August 2009 we sold our 30.26% joint venture interest in the joint venture that owns two resorts, Great Wolf Lodge-Wisconsin Dells, Wisconsin and Great Wolf Lodge-Sandusky, Ohio to CNL Income Properties, Inc. We currently manage both properties and license the Great Wolf Lodge brand to the joint venture.

We have one unconsolidated joint venture arrangement at June 30, 2010. We account for our unconsolidated joint venture using the equity method of accounting.

Our joint venture with The Confederated Tribes of the Chehalis Reservation owns the Great Wolf Lodge resort and conference center on a 39-acre land parcel in Grand Mound, Washington. This resort opened in March 2008. This joint venture is a limited liability company. We are a member of that limited liability company with a 49% ownership interest. At June 30, 2010, the joint venture had aggregate outstanding indebtedness to third parties of \$99,645. As of June 30,

**Table of Contents**

2010, we have made combined loan and equity contributions, net of loan repayments, of \$29,210 to the joint venture to fund a portion of construction costs of the resorts.

Based on the nature of the activities conducted in the joint venture, we cannot estimate with any degree of accuracy amounts that we may be required to fund in the long term. We do not currently believe that any additional future funding of the joint venture will have a material adverse effect on our financial condition, as we currently do not expect to make any significant future capital contributions to this joint venture.

**Contractual Obligations**

The following table summarizes our contractual obligations as of June 30, 2010:

	<b>Total</b>	<b>Payment Terms</b>			<b>More Than 5 Years</b>
		<b>Less Than 1 Year</b>	<b>1-3 Years</b>	<b>3-5 Years</b>	
Debt obligations (1)	\$ 796,304	\$ 39,392	\$ 155,011	\$ 134,870	\$ 467,031
Operating lease obligations	4,787	1,030	1,816	1,282	659
Reserve on unrecognized tax benefits	1,268				1,268
<b>Total</b>	<b>\$ 802,359</b>	<b>\$ 40,422</b>	<b>\$ 156,827</b>	<b>\$ 136,152</b>	<b>\$ 468,958</b>

(1) Amounts include interest (for fixed rate debt) and principal. They also include \$8,564 of fixed rate debt recognized as a liability related to certain bonds issued by the City of Sheboygan and \$3,172 of fixed rate debt recognized as a liability related to a loan from the City of Sheboygan. These liabilities will be satisfied by certain future minimum guaranteed amounts of real and personal

property tax  
payments and  
room tax  
payments to be  
made by our  
Sheboygan  
resort.

If we develop future resorts where we are the majority owner, we expect to incur significant additional debt and construction contract obligations.

#### ***Working Capital***

We had \$30,410 of available cash and cash equivalents and working capital deficit of \$7,609 (current assets less current liabilities) at June 30, 2010, compared to the \$20,913 of available cash and cash equivalents and a working capital deficit of \$15,534 at December 31, 2009. The primary reasons for the working capital deficit as of June 30, 2010 is the use of cash for capital expenditures and an increase in accruals related to the issuance of our first mortgage notes that closed in April 2010. The primary reason for the working capital deficit as of December 31, 2009 was the use of cash for capital expenditures for our properties that were under development.

#### **Cash Flows**

##### ***Six months ended June 30, 2010, compared with the six months ended June 30, 2009***

	<b>2010</b>	<b>2009</b>	<b>Increase/ (Decrease)</b>
Net cash provided by operating activities	\$ 18,270	\$ 8,335	\$ 9,935
Net cash used in investing activities	(2,607)	(38,115)	(35,508)
Net cash (used in) provided by financing activities	(6,166)	38,584	(44,750)

*Operating Activities.* The increase in net cash provided by operating activities resulted primarily from an increase in accounts payable, accrued expenses and other liabilities during the six months ended June 30, 2010 as compared to the six months ended June 30, 2009.

**Table of Contents**

*Investing Activities.* The decrease in net cash used in investing activities for the six months ended June 30, 2010, as compared to the six months ended June 30, 2009, resulted primarily from a decrease in capital expenditures related to our properties that are in service and in development.

*Financing Activities.* The decrease in net cash provided by financing activities resulted primarily from receiving fewer loan proceeds, net of principal payments, during the six months ended June 30, 2010 as compared to the six months ended June 30, 2009.

**Inflation**

Our resort properties are able to change room and amenity rates on a daily basis, so the impact of higher inflation can often be passed along to customers. However, a weak economic environment that decreases overall demand for our products and services could restrict our ability to raise room and amenity rates to offset rising costs.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Our future income, cash flows and fair values relevant to financial instruments are dependent, in part, upon prevailing market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. Our earnings are also affected by the changes in interest rates due to the impact those changes have on our interest income from cash and our interest expense from variable-rate debt instruments. We may use derivative financial instruments to manage or hedge interest rate risks related to our borrowings. We do not intend to use derivatives for trading or speculative purposes. All dollar amounts are in thousands.

As of June 30, 2010, we had total indebtedness of \$553,467. This debt consisted of:

\$68,011 of fixed rate debt secured by two of our resorts. This debt bears interest at 6.96%.

\$94,867 of fixed rate debt secured by one of our resorts. This debt bears interest at 6.10%.

\$78,588 of variable rate debt secured by one of our resorts. This debt bears interest at a floating annual rate of LIBOR plus a spread of 310 basis points, with a minimum rate of 6.50% per annum. The effective rate was 6.50% at June 30, 2010.

\$219,657 (net of discount of \$10,343) of first mortgage notes that are secured by first priority liens on three of our resorts. This debt bears interest at 10.875%. The notes are due April 2017.

\$51,550 of subordinated debentures that bear interest at a fixed rate of 7.80% through March 2015 and then at a floating rate of LIBOR plus 310 basis points thereafter. The securities mature in March 2035.

\$28,995 of subordinated debentures that bear interest at a fixed rate of 7.90% through June 2012 and then at a floating rate of LIBOR plus 300 basis points thereafter. The securities mature in June 2017.

\$8,564 of fixed rate debt (effective interest rate of 10.67%) recognized as a liability related to certain bonds issued by the City of Sheboygan and \$3,172 of non-interest bearing debt recognized as a liability related to a loan from the City of Sheboygan. These liabilities will be satisfied by certain future minimum guaranteed amounts of real and personal property tax payments and room tax payments to be made by the Sheboygan resort.

\$63 related to a capital lease that was entered into in June 2009. The lease matures in May 2012.

## **Table of Contents**

As of June 30, 2010, we estimate the total fair value of the indebtedness described above to be \$74,768 less than their total carrying values, due to the terms of the existing debt being different than those terms we believe would currently be available to us for indebtedness with similar risks and remaining maturities.

At June 30, 2010 all of our variable rate debt is subject to minimum rate floors. If LIBOR were to increase or decrease by 1% or 100 basis points, there would be no change in interest expense on our variable rate debt based on our debt balances outstanding and current interest rates in effect as of June 30, 2010, as LIBOR plus the loans basis points would not increase or decrease above the minimum rate floor.

During the six months ended June 30, 2010, there were no other material changes in our market risk exposure. For a complete discussion of our market risk associated with interest rate risk as of June 30, 2010, see Item 7A. Quantitative and Qualitative Disclosures about Market Risk in our Annual Report on Form 10-K for the year ended December 31, 2009.

## **ITEM 4. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures designed to provide reasonable assurance that information in our reports under the Securities Exchange Act of 1934, as amended (the Exchange Act) is recorded, processed, summarized and reported within the time periods specified pursuant to the SEC's rules and forms. Disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, include controls and procedures designed to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met.

We carried out an evaluation, under the supervision and with the participation of our management including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the second quarter of 2010. In making this evaluation, we considered matters discussed below relating to internal control over financial reporting. After consideration of the matters discussed below, we have concluded that our disclosure controls and procedures were not effective as of June 30, 2010, because of the material weakness related to controls around the determination and reporting of the provision for income taxes, as described below. As reported in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, we identified a material weakness in our internal control over financial reporting related to errors that occurred during the computation of the valuation allowance on certain deferred tax assets recorded as of September 30, 2009. As of June 30, 2010, we have not fully remediated this material weakness. As we may be unable to confirm fully whether we have remediated this material weakness until preparation of our 2010 annual tax provision, we anticipate that this material weakness may continue to exist through the end of 2010 or later.

### **Remediation of Material Weaknesses**

As discussed in Item 9A of our Form 10-K for the year ended December 31, 2009, there was a material weakness in our internal control over financial reporting related to errors that occurred during the computation of the valuation allowance on certain deferred tax assets recorded as of September 30, 2009. Through the date of this filing, we have taken steps to improve our internal controls around our tax accounting and tax accounts reconciliation processes, with an increase in the level of detail in our reviews of complex calculations used to derive significant financial statement amounts or estimates. We believe we have taken the appropriate steps necessary to begin to remediate this material weakness relating to our tax accounting and tax reconciliation processes, procedures and controls. Certain of the corrective processes, procedures and controls, however, relate to annual controls that cannot be tested until the preparation

**Table of Contents**

of our 2010 annual tax provision. Accordingly, we will continue to monitor the effectiveness of these processes, procedures and controls and will make any further changes we deem appropriate.

**Changes in Internal Control**

During the period covered by this quarterly report on Form 10-Q, other than as noted above in this Item 4, there have not been any changes to our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II. OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

We are involved in other litigation from time to time in the ordinary course of our business. We do not believe that the outcome of any such pending or threatened litigation will have a material adverse effect on our financial condition or results of operations. However, as is inherent in legal proceedings where issues may be decided by finders of fact, there is a risk that unpredictable decisions adverse to the Company could be reached.

**ITEM 1A. RISK FACTORS**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2009, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

We did not make any unregistered sales of equity securities during the applicable period.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

We were not in default of our obligations upon any senior securities during the applicable period.

**ITEM 4. [Removed and Reserved]**

**ITEM 5. OTHER INFORMATION**

None.

**ITEM 6. EXHIBITS**

The exhibits listed below are incorporated herein by reference to prior SEC filings by the Registrant or are included as exhibits in this Form 10-Q.

**Table of Contents**

Exhibit Number	Description
2.1	Form of Merger Agreement (Delaware) (incorporated herein by reference to Exhibit 2.1 to the Company's Registration Statement on Form S-1 filed August 12, 2004)
2.2	Form of Merger Agreement (Wisconsin) (incorporated herein by reference to Exhibit 2.2 to the Company's Registration Statement on Form S-1 filed August 12, 2004)
