**ITEM 2.02 Results of Operations and Financial Condition.**

On February 2, 2011, Brightpoint, Inc. (the Company) issued a press release announcing its financial results for the fourth quarter and fiscal year ended December 31, 2010.

In the release, the Company has provided income from continuing operations and income from continuing operations per share on both a U.S. GAAP basis and on an as adjusted non-GAAP basis because the Company's management believes it provides meaningful information to investors. Among other things, it may assist investors in evaluating the Company's on-going operations. Adjustments to earnings per share from continuing operations generally include certain non-cash charges such as stock based compensation and amortization of acquired finite lived intangible assets as well as other items such as goodwill impairment charges and restructuring charges. The Company considers these items unrelated to its core operating performance, and believes that use of this non-GAAP measure allows comparison of operating results that are consistent over time. The specific items excluded with respect to our fourth quarter non-GAAP income from continuing operations per share are stock-based compensation expense, acquisition expense, amortization expense, restructuring charge, legal expense, and certain discrete tax items. Non-GAAP income from continuing operations per share is calculated by dividing non-GAAP income from continuing operations by non-GAAP weighted average common shares outstanding (diluted). For purposes of calculating non-GAAP income from continuing operations per share, we add back certain shares presumed to be repurchased under the U.S. GAAP treasury stock method related to stock based compensation expense. We believe these non-GAAP disclosures provide important supplemental information to management and investors regarding financial and business trends relating to the Company's financial condition and results of operations. Management uses these non-GAAP measures internally to evaluate the performance of the business and to evaluate results relative to incentive compensation targets for certain employees. Investors should consider non-GAAP measures in addition to, not as a substitute for, or as superior to measures of financial performance prepared in accordance with U.S. GAAP.

The Non-GAAP adjustments for the three months and year ended December 31, 2010 and December 31, 2009 are set forth in the press release, which is attached hereto as Exhibit 99.1. The press release shall not be deemed incorporated by reference into any registration statement heretofore or hereafter filed under the Securities Act of 1933, as amended, nor shall it be treated as filed for purposes of the Securities Exchange Act of 1934, as amended.
