*Revision of Consolidated Financial Statements for the Year Ended December 31, 2010*

This Form 8-K/A updates the Current Report on Form 8-K of LyondellBasell Industries N.V. (the Company) filed on June 22, 2011 (the Original 8-K). The Company filed the Original 8-K to include an additional footnote in the historical financial statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 (the 2010 10-K). The added footnote in the Notes to the Consolidated Financial Statements provided supplemental guarantor financial information pursuant to Rule 3-10 of Regulation S-X, required as a result of the pending registration under the Securities Act of 1933, as amended, of certain debt securities issued by one of the Company's wholly-owned subsidiaries.

The Company is filing this Form 8-K/A to make revisions to the Consolidated Financial Statements for the year ended December 31, 2010 and the Notes thereto that were included in the Original 8-K. These revisions are described in Note 2, *Summary of Significant Accounting Policies - Basis of Presentation* included in the financial statements filed herewith as Exhibit 99.1.

The Company has assessed the materiality of the misstatements that require revision in accordance with the SEC's Staff Accounting Bulletin No. 99 and concluded that the errors are not, individually or in the aggregate, material to any of the Company's previously issued financial statements.

The revised Consolidated Financial Statements for the year ended December 31, 2010 filed as Exhibit 99.1 to this Form 8-K/A have been updated, in compliance with generally accepted accounting principles, to provide the revisions and corrections as described herein and are incorporated herein by reference.

*Controls and Procedures*

As previously reported in Item 9A in the 2010 10-K, the Company determined that it did not maintain adequate controls over the accounting for income taxes related to the consideration of the nonrecurring effects of fresh start accounting under ASC Topic 852, *Reorganizations*, resulting in a material weakness in internal controls over financial reporting. The Company previously reported that the preparation and presentation of the complex information supporting deferred tax accounting and related disclosures was not sufficient to allow an effective review of that information. Additionally, the analysis of the tax provision information was not sufficient to ensure deferred taxes were accurately accounted for in accordance with U.S. GAAP in the appropriate predecessor and successor periods. The control deficiencies resulted in (i) the misstatement of the deferred tax provision in the successor period for the eight months ended December 31, 2010 included in the Company's press release dated February 18, 2011 as furnished to the SEC under Item 2.02 of Form 8-K on February 18, 2011 and (ii) a revision of (A) deferred tax expense and reorganization items in the predecessor period for the four months ended April 30, 2010 and (B) deferred tax liability and goodwill in the opening balance sheet at May 1, 2010 included in the February 18, 2011 press release and included in the Company's Form 10-Q for the quarter ended September 30, 2010. These revisions were reflected in the Consolidated Financial Statements for the year ended December 31, 2010 that were filed as part of the 2010 Form 10-K and the Original 8-K.

Management has discovered additional control deficiencies that resulted in the revisions to our financial statements as described in Note 2, *Summary of Significant Accounting Policies - Basis of Presentation* included in the financial statements that are filed as exhibit 99.1 to this Form 8-K/A. These additional control deficiencies also were in connection with the accounting for income taxes related to the consideration of the nonrecurring effects of fresh start accounting. Specifically, the Company did not (i) maintain adequate control over the accuracy of documentation developed to calculate the impact of cancellation of debt income or (ii) comply with its internal controls regarding communication and evaluation of uncertain tax positions related to emergence from bankruptcy. These control deficiencies are a part of the material weakness previously reported in Item 9A in the 2010 10-K.
