NATIONAL TECHTEAM, INC. AND SUBSIDIARIES NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The accompanying unaudited consolidated financial statements have been prepared by National TechTeam, Inc. ("TechTeam" or "Company") in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended March 31, 2001 are not necessarily indicative of the results that may be expected for the year ended December 31, 2001. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company and Subsidiaries' annual report on Form 10-K for the year ended December 31, 2000.

Certain reclassifications have been made to the 2000 financial statements in order to conform to the 2001 financial statement presentation.

NOTE A -- EARNINGS PER SHARE

Earnings per share is computed using the weighted average number of common shares and common share equivalents outstanding. Common share equivalents consist of stock options and are calculated using the treasury stock method.

NOTE B -- REVENUES FROM MAJOR CLIENTS

Revenues from clients which represented ten percent or more of total revenue are as follows:

THREE MONTHS ENDED MARCH 31,				
2001				
(IN THOUSANDS)				
	AMOUNT	PERCENT OF TOTAL		AMOUNT
Ford Motor Company.....	\$ 10,505	41.1%	\$	8,938
DaimlerChrysler.....	4,752	18.6%		6,200
GE TechTeam, L.P.....	-	-%		4,865

NOTE C -- Legal Proceedings

Refer to Part II, Item 1 for a description of legal proceedings.

NOTE D -- Stock Repurchase Programs

In May of 2000, the Company announced a stock repurchase program to repurchase up to 2,000,000 shares of common stock. In October of 2000, the Company extended this program to repurchase an additional 2,000,000 shares. During 2000 the Company repurchased 2,790,450 shares for \$9,069,000 under this program. During the quarter ended March 31, 2001 the Company repurchased an additional 229,000 shares for \$609,000 under this program.

NATIONAL TECHTEAM, INC. AND SUBSIDIARIES NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain of the statements contained in this report that are not historical facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act. Our actual results may differ materially from those included in the forward-looking statements. We caution readers not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. We do not undertake an obligation to revise or publicly release the results of any revisions to these forward-looking statements. You should carefully review the risk factors described in other documents the Company files from time to time with the SEC, including the Annual Report on Form 10-K for the year ended December 31, 2000.

OVERVIEW

NATIONAL TECHTEAM, INC. ("TechTeam" or "Company") is a provider of technology and knowledge management support solutions and services to Fortune 1000, multinational companies and governments worldwide. The core services provided by TechTeam are its integrated help desk support services. TechTeam also provides technical staffing, systems integration, and training services. TechTeam provides these support services in Europe through its subsidiaries, TechTeam Europe, NV/Sa; TechTeam Europe, Ltd.; and TechTeam Europe, GmbH.

CORPORATE SERVICES

TechTeam's Corporate Services primarily consist of corporate help desk services, technical staffing, systems integration, and training programs.

HELP DESK SERVICES

TechTeam provides customized help desk solutions, which provide corporate end users with around-the-clock technical support provided either from the client's facilities or from TechTeam's help desk sites. TechTeam supports the full range of a client's IT infrastructure, from network environments to computing systems, and shrink-wrap to advanced proprietary and acquired application systems. TechTeam follows a "single point of contact" (SPOC) model to enable corporations to consolidate their incident resolution support functions into one centralized help desk. TechTeam's technicians are specially trained in the customer's products and applications to diagnose problems and answer technical questions. The Company's technicians answer questions and diagnose technical problems ranging from simple error messages to wide area network failures. If the technician is not able to resolve the problem with the end user over the phone, the call is escalated to the appropriate resource to solve the problem. Data collected by TechTeam technicians show trends in IT usage and trouble spots. TechTeam implements root cause analysis on the data to identify the cause(s) of problem areas. From this analysis, TechTeam can recommend to its clients other solutions to reduce the cost of operating their IT infrastructure.

In line with its focus on help desk solutions, the Company has developed an integrated, Internet-based, help desk technology tool, called TechTeam's Support Portal. From the Support Portal web site, an individual seeking support may access a knowledgebase to obtain a solution to their problem, use self-healing software to solve the problem, submit a problem for resolution to a support technician, or check the status of their help desk incident. TechTeam's proprietary call tracking tool, the Global Call Center, has been integrated with robust knowledge management and solution products licensed from Broadbase Software, Inc. and Motive Communications, Inc. TechTeam's customer management is able to access detailed performance reports and other management tools. The Company believes that the Support Portal's knowledge management, data analytics, computer diagnostics and tracking technology will help to increase the Company's efficiency in providing support, improve the end user's experience with the help desk, and enable TechTeam's customers to benefit from lower cost and improved efficiency of their users.

The Company has deployed the technology internally, and is currently in the process of deploying the Support Portal

to certain of its existing customers. The Support Portal is an important part of its help desk solutions provided to new customers, and in its sales efforts.

The Company operates major help desks in the United States from its Southfield, Michigan and Davenport, Iowa locations. From its facility in Brussels, Belgium, TechTeam provides multi-lingual help desk support for its customers in as many as 12 languages. TechTeam also provides these services from its customers' sites.

TECHNICAL STAFFING

The Company maintains a staff of trained technical personnel to provide computer

Edgar Filing: NATIONAL TECHTEAM INC /DE/ - Form 10-Q

and technical support to its clients at the clients' facilities. The Company recruits a technically proficient employee base. TechTeam enhances its employees' proficiency by providing access to extensive technical training programs. Training in new Internet technology, in advanced operating systems like Windows NT and Unix, and sophisticated applications such as SAP and PeopleSoft, allows TechTeam to provide its clients with highly skilled professionals, trained and certified in the latest technology.

SYSTEMS INTEGRATION

TechTeam provides systems integration and implementation services from project planning and management, to full-scale network server and workstation installations. TechTeam performs a wide range of maintenance services to the client ranging from desk-side support to network monitoring.

TRAINING

The Company provides custom training and documentation solutions that include a wide spectrum of options including computer based training, distance learning, course catalogs, instructional design consultants, customized course materials, certified trainers, evaluation options, desk-side tutorials, and custom reports.

TechTeam is a manufacturer-authorized training provider for many products including Sun Microsystems. The Company also offers training on other industry leading software such as Microsoft, Novell and others. A significant portion of the Company's training revenues is generated from the SUN certification program.

OEM SERVICES AND EQUIPMENT LEASING

In August 2000, TechTeam sold its interest in GE TechTeam LP to GE Warranty Management, Inc. As a result of this sale, TechTeam provided personnel to the new ownership through December 31, 2000, when TechTeam's employees providing OEM support through GE TechTeam LP were transitioned to the new owner. TechTeam continues to look in the OEM industry for business opportunities.

TechTeam Capital Group, L.L.C. (Capital Group) previously wrote leases for computer, telecommunications, and other types of capital equipment, with initial lease terms ranging from 2 to 5 years. Effective March 31, 2000, TechTeam restructured Capital Group. At that time, the majority of the Capital Group staff was terminated, and Capital Group ceased looking for new leasing opportunities. Capital Group is currently running out its lease portfolio. With the exception of renewals, the portfolio will run off in approximately three years.

RESULTS OF OPERATIONS

THREE MONTHS ENDED MARCH 31, 2001 COMPARED TO MARCH 31, 2000

Revenues decreased 20% to \$25.5 million from \$32.0 million. The decrease resulted from revenue decreases in OEM Call Center Services of \$4.7 million, system integration revenues of \$1.8 million, and leasing operations revenue of \$0.6 million, offset by revenue increases in corporate help desk services of \$0.8 million. OEM Call Center revenues were down due to the Company selling its interest in the GE Joint Venture and ceasing to provide personnel services to the new owner of the Joint Venture in 2000. Systems integration revenues decreased due to non-recurring revenue related to upgrading the computer systems of a local government in 2000. Leasing revenues decreased due to the Company's decision to cease looking for new leasing opportunities. Corporate help desk revenues increased due to continued expansion of global help desk services at Ford Motor Company and additional revenues generated by the Belgium call center office.

Gross profit increased as a percentage of sales to 23.3% from 19.6%. The increase was due to the non-recurrence of low margin OEM call center services provided to the GE Joint Venture and low margin system integration business provided to a local government in 2000.

Selling, General and Administrative expenses remained consistent at \$5.3 million.

Interest expense decreased due to less debt related to leasing operations. Interest income increased due to an improved cash position, which resulted from the Company's decision to no longer underwrite new lease business.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flow Provided from Operations

Cash flow provided from operating activities was \$5.4 million for the three months ended March 31, 2001. Cash flow provided was primarily due to earnings, combined with \$6.1 million of non-cash depreciation and amortization expense mainly related to the leasing operations and a net decrease of \$1.1 million in operating assets and liabilities.

Cash Flow Used by Investing Activities

Cash flow used by investing activities was \$3.1 million. The Company used \$3.7 million to invest in short term securities and \$0.6 million to purchase computer equipment and software to develop the Company's portal technology offset by cash provided through the sale of \$1.1 million of assets coming off lease.

Cash Flow Used in Financing Activities

Cash flow used by financing activities was \$3.6 million. The Company reduced debt by \$2.9 million and used \$0.6 million to repurchase Company stock in accordance with the stock repurchase program.

The Company's working capital position at March 31, 2001 was \$27.9 million compared to \$23.1 million at December 31, 2000.

The Company has a line-of-credit agreement with Bank One, which provides for short-term borrowings of up to \$25 million at the prime rate, the line-of-credit is unsecured. There were no borrowings under this line at March 31, 2001.

The Company believes that cash flows from operations will continue to be sufficient to meet its ongoing working capital needs.

PART II -- OTHER INFORMATION

ITEM 1 - LEGAL PROCEEDINGS

The Company is a party to legal proceedings, which are routine, and incidental to its business. Although the consequences of these proceedings are not presently determinable, in the opinion of management, they will not have a material adverse affect on the Company's liquidity, financial position or results of operations.

Edgar Filing: NATIONAL TECHTEAM INC /DE/ - Form 10-Q
