Edgar Filing: WASTE MANAGEMENT INC - Form 8-K

The Company has presented its free cash flow for the quarter in the earnings release, which is a "non-GAAP" financial measure under Regulation G. The components of free cash flow are computed by using amounts which are determined in accordance with GAAP. As part of our press release information we have provided a reconciliation of free cash flow to net cash provided by operating activities, which is its nearest comparable GAAP financial measure. However, because our measurement of free cash flow is not based on any standardized methodology prescribed by GAAP, it is not necessarily comparable to similar measures presented by other companies.

The Company included its free cash flow in the release because it believes that investors are interested in the cash produced by the Company from non-financing activities that is available for uses such as the Company's acquisition program, its share repurchase program, its scheduled debt reduction and the annual payment of dividends. Free cash flow is defined by the Company as:

- o Net cash provided by operating activities
- o Less, capital expenditures
- o Plus, proceeds from divestitures of businesses, net of cash divested, and other sales of assets
