EXPLANATORY NOTE

Concurrently with the completion of our initial public offering in February 2001, Oil States International, Inc. combined with HWC Energy Services, Inc. ("HWC"), Sooner Inc. ("Sooner") and PTI Group, Inc. ("PTI") in a transaction that we refer to as the "Combination." Prior to our initial public offering and the Combination, SCF-III, L.P. owned a majority interest in Oil States, HWC and PTI, and SCF-IV, L.P. owned a majority interest in Sooner. SCF-III, L.P. and SCF-IV, L.P. are private equity funds that focus on investments in the energy industry. We refer to SCF-III, L.P. and SCF-IV, L.P. collectively as "SCF."

The terms the "Company," "Oil States," "we," "us," and "our" refer to Oil States International, Inc. and its subsidiaries, including HWC, Sooner and PTI, following the Combination.

OUTSTANDING VOTING SECURITIES AND VOTING RIGHTS

The Company has two outstanding classes of securities that entitle holders to vote generally at meetings of the Company's stockholders: common stock, par value \$.01 per share; and special preferred voting stock, par value \$.01 per share. A single share (the "Voting Share") of special preferred voting stock was issued to Computershare Trust Company of Canada (the "Trustee") as trustee under a Voting and Exchange Trust Agreement for the benefit of holders of exchangeable shares issued by the Company's wholly-owned subsidiary, 892489 Alberta Inc., in

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

connection with the Company's February 2001 acquisition of PTI Group Inc. The common stock and the Voting Share vote together as a single class on all matters except when Delaware law requires otherwise. Each share of common stock outstanding on the record date is entitled to one vote. The Voting Share is entitled to one vote for each exchangeable share outstanding on the record date. The Trustee is required to vote the Voting Share as instructed by holders of exchangeable shares, and to abstain from voting in proportion to the exchangeable shares for which the Trustee does not receive instructions. Accordingly, references to "stockholders" in this Proxy Statement include holders of common stock, the Trustee, and holders of exchangeable shares. In addition, unless we indicate otherwise, the number of shares outstanding, including for purposes of calculating percentage ownership, in this proxy statement have been calculated as if the exchangeable shares have been exchanged for shares of our common stock. The procedures for holders of exchangeable shares to instruct the Trustee about voting at the Annual Meeting are explained in the "Information Statement for Holders of Exchangeable Shares of 892489 Alberta Inc." that is enclosed with this Proxy Statement only for holders of exchangeable shares.

The record date for the stockholders entitled to notice of and to vote at the Annual Meeting is the close of business on April 7, 2005. At the record date, 49,979,542 shares of common stock and one Voting Share were outstanding and entitled to be voted at the Annual Meeting. Outstanding shares include a total of 227,183 exchangeable shares which are outstanding and are entitled to give voting instructions to the Trustee.

The presence, in person or by proxy, of the holders of a majority of the votes eligible to be cast at the Annual Meeting is necessary to constitute a quorum at the Annual Meeting. If a quorum is not present, the stockholders entitled to vote who are present in person or by proxy at the Annual Meeting have the power to adjourn the Annual Meeting from time to time, without notice other than an announcement at the Annual Meeting, until a quorum is present. At any adjourned Annual Meeting at which a quorum is present, any business may be transacted that might have been transacted at the Annual Meeting as originally notified.

Directors will be elected by a plurality of the votes present and entitled to be voted at the Annual Meeting. Ratification of the selection of the Company's auditors will require the affirmative vote of the holders of a majority of the shares present and entitled to be voted at the Annual Meeting. Approval of the amendments to the 2001 Equity Participation Plan will require the affirmative vote of a majority of the votes cast at the Annual Meeting. An automated system that the Company's transfer agent administers will tabulate the votes. Abstentions and broker non-votes will count in determining whether a quorum is present at the Annual Meeting. Both abstentions and broker non-votes will not have any effect on the outcome of voting on director elections. For purposes of voting on the ratification of the selection of auditors, abstentions and broker non-votes are not counted as votes with respect to the proposal. For purposes of voting on the approval of the amendments to the 2001 Equity Participation Plan, (i) abstentions will be counted as votes cast against the

2

proposal and broker non-votes will not be counted as votes cast with respect to the proposal and (ii) the total number of votes cast in favor of the proposal must represent over 50% of the total number of votes entitled to vote on the proposal. Abstentions occur when stockholders are present at the annual meeting but choose to withhold their vote for any of the matters upon which the stockholders are voting. Brokers who hold shares in street name for customers are required to vote shares in accordance with instructions received from the beneficial owners. "Broker non-votes" occur when nominees (such as banks and

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

brokers) that hold shares on behalf of beneficial owners do not receive voting instructions from the beneficial owners before the meeting and do not have discretionary authority to vote those shares under the applicable rules of the New York Stock Exchange.

A Proxy in the accompanying form that is properly signed and returned will be voted at the Annual Meeting in accordance with the instructions on the Proxy. Any properly executed Proxy on which no contrary instructions have been indicated about a proposal will be voted as follows with respect to the proposal: FOR the election of the two persons named in this Proxy Statement as the Board of Directors' nominees for election to the Board of Directors; FOR the ratification of the selection of Ernst & Young LLP as the Company's auditors; FOR the approval of the 2001 Equity Participation Plan and in accordance with the discretion of the holders of the Proxy with respect to any other business that properly comes before the stockholders at the Annual Meeting. The Board of Directors knows of no matters, other than those previously stated, to be presented for consideration at the Annual Meeting. The persons named in the accompanying Proxy may also, in their discretion, vote the Proxy to adjourn the Annual Meeting from time to time.

A copy of the list of stockholders entitled to vote at the Annual Meeting will be available for inspection by qualified stockholders for proper purposes at the offices of the Company during normal business hours beginning on April 8, 2005 and at the Annual Meeting.

PROPOSAL 1:

ELECTION OF DIRECTORS

The Board of Directors is comprised of eight members. The eight members are divided into three classes having two members in Class I, three members in Class II and three members in Class III. Each class is elected for a term of three years, so that the term of one class of directors expires at each annual meeting of stockholders. The term of the Class I directors expires at the Annual Meeting.

NOMINEES

Two directors are to be elected at the Annual Meeting. The Board of Directors has nominated L. E. Simmons and Douglas E. Swanson to fill the two expiring Class I positions on the Board of Directors, to hold office for three-year terms expiring at the annual meeting of stockholders in 2008, and until their respective successors have been duly elected and qualified, or until their earlier resignation or removal. Each of the director nominees is presently one of our directors. Stockholder nominations will not be accepted for filling board seats at the Annual Meeting because our bylaws require advance notice for such a nomination, the time for which has passed. Our Board of Directors has determined that Mr. L. E. Simmons is "independent" as that term is defined by the applicable NYSE listing standards. As an officer of the Company, Mr. Swanson is not "independent" as that term is defined in the applicable NYSE listing standards. See "Director Independence" below for a discussion of director independence determinations. The enclosed proxy (unless otherwise directed, revoked or suspended) will be voted for the election of the two nominees for director.

Although the Company knows of no reason why any of the nominees might be unable or refuse to accept nomination or election, if any nominee should be unable to serve as a director, the shares represented by proxies will be voted for the election of a substitute nominated by the Board of Directors.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE ELECTION OF EACH OF THE NOMINEES.

DIRECTOR INDEPENDENCE

Our Board of Directors has determined that each of Messrs. L.E. Simmons, Martin Lambert, S. James Nelson, Mark G. Papa, Gary L. Rosenthal, Andrew L. Waite and Stephen A. Wells is "independent" as that term is defined by the applicable NYSE listing standards. In making this determination, the Board of Directors considered transactions and relationships between the director or his immediate family and the Company and its subsidiaries. The purpose of this review was to determine whether any such relationships or transactions were material and, therefore, inconsistent with a determination that the director is independent. Martin Lambert, who is a director, has been a partner with the Canadian law firm Bennett Jones LLP since 1987. Our Board of Directors has determined that Mr. Lambert is independent under the rules of the NYSE. In making this decision, the Board considered Mr. Lambert's relationship with Bennett Jones LLP and the transactions involving the Company and Bennett Jones LLP. The Board determined that such relationship and transactions are not material to the independence of Mr. Lambert. As an officer of the Company, Mr. Swanson is not independent under the rules of the NYSE.

COMMITTEES AND MEETINGS

The Board of Directors has established three standing committees: the Audit Committee, the Compensation Committee and the Nominating & Corporate Governance Committee. These committees are comprised of directors who are not officers or employees of the Company.

AUDIT COMMITTEE

The Company's Audit Committee consists of Messrs. Wells, Nelson and Rosenthal, each of whom is independent, as such term is defined in Section 10A of the Securities Exchange Act of 1934, as amended, and in the applicable New York Stock Exchange listing standards. The Audit Committee operates under a written charter adopted by the Board of Directors on May 13, 2003. A copy of the charter is available on our website, www.oilstatesintl.com, under "Corporate Governance." The Audit Committee, which is chaired by Mr. Wells,

6

meets separately with representatives of the Company's independent auditors, the Company's internal audit personnel and with representatives of senior management in performing its functions. The Audit Committee reviews the general scope of audit coverages, the fees charged by the independent auditors, matters relating to internal control systems and other matters related to accounting and reporting functions. The Board of Directors has determined that all of the members of the Audit Committee are financially literate and that Mr. Wells and Mr. Nelson have accounting or related financial management expertise, each as required by the applicable NYSE listing standards. The Board of Directors has also determined that Mr. Wells and Mr. Nelson qualify as audit committee financial experts under the applicable rules of the Exchange Act.

In addition to the Audit Committee of the Company's Board, Mr. Wells serves on the audit committees of Pogo Producing Company and Crosstex Energy, L.P. The charter of the Audit Committee of the Board provides that no member of the Audit Committee may simultaneously serve on the audit committees of more than two other public companies. The Board has waived this limitation with respect to Mr. Wells' joining the audit committee of Crosstex Energy, Inc., which is a publicly traded affiliate of Crosstex Energy, L.P. Prior to granting this waiver, the Board considered the incremental time and responsibilities that such additional service would require of Mr. Wells. Based upon the relationship of the two Crosstex entities, the fact that the only significant assets of Crosstex Energy, Inc. consist of the ownership interests in Crosstex Energy, L.P. and the fact

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

that the audit of these two entities are conducted simultaneously by the same independent accounting firm, the Board determined that such additional service would not negatively affect Mr. Wells' ability to fulfill his duties to the Audit Committee.

COMPENSATION COMMITTEE

The Company's Compensation Committee consists of Messrs. Rosenthal, Papa and Wells, each of whom is independent, as defined in the applicable NYSE listing standards, and is a non-employee director. The Compensation Committee operates under a written charter adopted by the Board of Directors on May 13, 2003. A copy of the charter is available on our website, www.oilstatesintl.com, under "Corporate Governance." The Compensation Committee, which is chaired by Mr. Rosenthal, administers the 2001 Equity Participation Plan (as amended and restated), and in this capacity makes a recommendation to the full Board concerning all option grants or stock awards to employees, including executive officers, under the plan. In addition, the Compensation Committee is responsible for making recommendations to the Board with respect to the compensation of the Company's chief executive officer and its other executive officers and for establishing compensation and employee benefit policies.

NOMINATING & CORPORATE GOVERNANCE COMMITTEE

The Company's Nominating & Corporate Governance Committee consists of Messrs. Papa, Lambert and Wells, each of whom is independent, as such term is defined in the applicable NYSE listing standards. The Nominating & Corporate Governance Committee operates under a written charter adopted by the Board of Directors on March 31, 2004. A copy of the charter is available on our website, www.oilstatesintl.com, under "Corporate Governance." The Nominating & Corporate Governance Committee, which is chaired by Mr. Papa, makes proposals to the Board for candidates to be nominated by the Board to fill vacancies or for new directorship positions, if any, which may be created from time to time. The Nominating & Corporate Governance Committee will consider suggestions from any source, particularly from stockholders, regarding possible candidates for director. To submit a recommendation to the committee, a stockholder should send a written request to the attention of the Company's Secretary at Oil States International, Inc., Three Allen Center, 333 Clay Street, Suite 4620, Houston, Texas 77002. The written request must include the nominee's name, contact information, biographical information and qualifications, as well as the nominee's written consent to serve if elected. The request must also disclose the number of shares of common stock beneficially owned by the person or group making the request and the period of time such person or group has owned those shares. The request must be received by the Company no earlier than the 150th day and no later than the 120th day before the anniversary of the date of the prior year's proxy statement. These procedures do not preclude a stockholder from making nominations in accordance with the process described below under "Stockholder Proposals." The Nominating & Corporate Governance Committee developed and recommended

7

to the Board of Directors the Company's Corporate Governance Guidelines and Corporate Code of Business Conduct and Ethics, which the Board adopted. Copies of these documents are available on our website, www.oilstatesintl.com, under "Corporate Governance."

BOARD AND COMMITTEE MEETINGS

During 2004, the entire Board of Directors held 5 meetings, the Audit Committee held 10 meetings, the Compensation Committee held 5 meetings and the Nominating & Corporate Governance Committee held 3 meetings. Each of the

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

directors attended at least 75 percent of the meetings of the Board and the committees of the Board on which they served. All of our directors attended last year's annual meeting. While the Company understands that scheduling conflicts may arise, it expects directors to make reasonable efforts to attend the annual meeting of stockholders and meetings of the Board of Directors and the committees on which they serve.

Our Corporate Governance Guidelines provide that our non-management directors shall meet separately in executive session at least annually. The director who presides at these sessions is the Chairman of the Board, assuming such person is a non-management director. Otherwise, the presiding director will be chosen by a vote of the non-management directors. In addition to the executive sessions of our non-management directors, our independent directors (as defined in the applicable NYSE listing standards) are required to meet in executive session at least annually. In 2004, our non-management directors met in executive session three times. The Chairman of the Board, L.E. Simmons, presided at these sessions. There were no separate executive sessions for our independent directors as each of our non-management directors is also independent.

QUALIFICATIONS OF DIRECTORS

When identifying director nominees, the Nominating & Corporate Governance Committee will consider the following:

- the person's reputation, integrity and independence;
- the person's skills and business, government or other professional experience and acumen, bearing in mind the composition of the board and the current state of the Company and the oilfield services industry generally at the time of determination;
- the number of other public companies for which the person serves as a director and the availability of the person's time and commitment to the Company; and
- the person's knowledge of a major geographical area in which the Company operates or another area of the company's operational environment.

In the case of current directors being considered for renomination, the Nominating & Corporate Governance Committee will also take into account the director's history of attendance at Board of Directors and committee meetings, the director's tenure as a member of the Board of Directors and the director's preparation for and participation in such meetings.

DIRECTOR NOMINATION PROCESS

Our director nomination process for new board members is as follows:

- The Nominating & Corporate Governance Committee, the Chairman of the Board, or another board member identifies a need to add a new board member who meets specific criteria or to fill a vacancy on the Board of Directors.
- The Nominating & Corporate Governance Committee initiates a search by working with staff support, seeking input from board members and senior management and hiring a search firm, if necessary.
- The Nominating & Corporate Governance Committee considers recommendations for nominees for directorships submitted by stockholders.

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

- The initial slate of candidates that will satisfy specific criteria and otherwise qualify for membership on the Board of Directors are identified and presented to the Nominating & Corporate Governance Committee, which ranks the candidates.
- The Chairman of the Board and at least one member of the Nominating & Corporate Governance Committee interviews prospective candidate(s).
- The full Board of Directors is kept informed of progress.
- The Nominating & Corporate Governance Committee offers other board members the opportunity to interview the candidate(s) and then meets to consider and approve the final candidate(s).
- The Nominating & Corporate Governance Committee seeks the endorsement of the Board of Directors of the final candidate(s).

The final candidate(s) are nominated by the Board of Directors or elected to fill a vacancy.

COMMUNICATIONS WITH DIRECTORS

Stockholders or other interested parties may send communications, directly and confidentially, to the Board of Directors, to any committee of the Board of Directors, to non-management directors or any director in particular, by sending an envelope marked "confidential" to such person or persons c/o Oil Sates International, Inc., Three Allen Center, 333 Clay Street, Suite 4620, Houston, Texas 77002. Any such correspondence will be forwarded by the Secretary of the Company to the addressee without review by management.

AUDIT COMMITTEE REPORT

The Board of Directors appointed the undersigned directors as members of the committee and adopted a written charter setting forth the procedures and responsibilities of the committee. Each year, the committee reviews the charter and reports to the Board on its adequacy in light of applicable NYSE rules. In addition, the Company furnishes an annual written affirmation to the NYSE relating to Audit Committee membership, the independence and financial management expertise of the Audit Committee and the adequacy of the committee charter.

During the last year, and earlier this year in preparation for the filing with the SEC of the Company's Annual Report on Form 10-K for the year ended December 31, 2004 (the "10-K"), the committee:

- reviewed and discussed the audited financial statements with management and the Company's independent auditors;
- reviewed the overall scope and plans for the audit and the results of the independent auditors' examinations;
- met with management periodically during the year to consider the adequacy of the Company's internal controls and the quality of its financial reporting and discussed these matters with the Company's independent auditors and with appropriate Company financial personnel and internal auditors;
- discussed with the Company's senior management, independent auditors and internal auditors the process used for the Company's chief executive officer and chief financial officer to make the certifications required

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

by the SEC and the Sarbanes-Oxley Act of 2002 in connection with the 10-K and other periodic filings with the SEC;

- reviewed and discussed with the independent auditors (1) their judgments as to the quality (and not just the acceptability) of the Company's accounting policies, (2) the written communication required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees" and the independence of the independent auditors, and (3) the matters required to be discussed with the committee under auditing standards generally accepted in the United States, including Statement on Auditing Standards No. 61, "Communication with Audit Committees";

9

- based on these reviews and discussions, as well as private discussions with the independent auditors and the Company's internal auditors, recommended to the Board of Directors the inclusion of the audited financial statements of the Company and its subsidiaries in the 10-K; and
- determined that the non-audit services provided to the Company by the independent auditors (discussed below under the Proposal to Ratify the Selection of Independent Auditors (Proposal 2) are compatible with maintaining the independence of the independent auditors. The committee's pre-approval policies and procedures are discussed below under Proposal 2.

Notwithstanding the foregoing actions and the responsibilities set forth in the committee charter, the charter clarifies that it is not the duty of the committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with generally accepted accounting principles. Management is responsible for the Company's financial reporting process including its system of internal controls, and for the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States. The independent auditors are responsible for expressing an opinion on those financial statements, on management's assessment of internal control over financial reporting and on the effectiveness of internal control over financial reporting. Committee members are not employees of the Company or accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, the committee has relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States, that the Company's internal controls over financial reporting were effective as of December 31, 2004 and on the representations of the independent auditors included in their report on the Company's financial statements.

The committee met regularly with management and the independent and internal auditors, including private discussions with the independent auditors and the Company's internal auditors, and received the communications described above. The committee has also established procedures for (a) the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters, and (b) the confidential, anonymous submission by the Company's employees of concerns regarding questionable accounting or auditing matters. However, this oversight does not provide us with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, our considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

presented in accordance with generally accepted accounting principles or that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards.

The information contained in this report shall not be deemed to be "soliciting material" or to be "filed" with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filings with the Securities and Exchange Commission, or subject to the liabilities of Section 18 of the Exchange Act, except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933, as amended, or the Exchange Act.

Respectfully submitted,

Audit Committee

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors consists of three directors who are not employees of the Company. The Committee reviews the Company's executive compensation program and policies each year and determines the compensation of the executive officers.

10

The Compensation Committee's philosophy regarding the Company's executive compensation program has been to design a compensation package that provides competitive salary levels and compensation incentives that (i) attract and retain individuals of outstanding ability in these key positions, (ii) recognize individual performance relative to established goals and the performance of the Company relative to the performance of other companies of comparable size, complexity and quality and against budgeted goals, and (iii) support both the short-term and long-term strategic goals of the Company. The Compensation Committee believes this approach closely links the compensation of the Company's executives to the execution of the Company's strategy and the accomplishment of company goals that coincide with stockholder objectives.

The Company's executive compensation program is administered by the Compensation Committee of the Board of Directors. The Compensation Committee establishes specific compensation levels for executive officers and other key personnel and administers the Company's 2001 Equity Participation Plan and Deferred Compensation Plan. The Committee considers the anticipated tax treatment of the Company's executive compensation program.

The executive compensation program includes three primary elements that are performance oriented and, taken together, constitute a flexible and balanced method of establishing total compensation for the Company's executive officers. These elements are (i) base salary, (ii) annual bonus plan awards under the Annual Incentive Plan, and (iii) long-term incentive awards, including principally stock option grants, and more recently, restricted stock awards. In order to assist in its evaluation of each element of the Company's overall executive compensation program, the Committee periodically obtains independent compensation surveys. The Committee engaged independent compensation consultants during 2004 to provide an update to the Committee concerning executive and director compensation trends and to address long-term equity compensation practices. The Committee takes these surveys and the factors noted below into consideration when making its decisions.

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

Base Salaries. Executive officer base salaries, including Mr. Swanson's, are based on an evaluation that considers data from other similarly sized companies in businesses comparable to the Company's, the Company's and the executive's performance, the executive's potential, and any significant changes in the executive's responsibilities. The Compensation Committee considers all those factors together and makes a subjective determination with respect to executive compensation. The Compensation Committee increased the base salary of Mr. Swanson in 2005 to \$430,000 from \$400,000. Mr. Swanson's last salary increase was effective in the first quarter 2003.

The Annual Incentive Plan. Annual bonus awards are linked to the achievement of Company-wide and divisional performance goals and are designed to put a significant portion of total compensation at risk. Under the bonus plan, a bonus target is established for each executive officer based upon a review of the competitive data for that position, level of responsibility and ability to impact the Company's success. In 2004, individual executive officer bonus targets ranged from 40% to 60% of base salary. The actual amount of the bonus award can range from 0% to 200% of the targeted bonus and in 2004 was based exclusively on the Company's and/or divisional achievement of these performance goals. For 2004, bonus targets for executive officers were based upon objectives set at the beginning of 2004 for earnings before interest, taxes, and depreciation (EBITDA) for the Company and/or for particular business divisions. In addition, a portion of the bonus potential was based on return on investment and other strategic goals and objectives outlined at the beginning of 2004. The other strategic goals and objectives included measures for safety performance, growth through acquisitions, expansionary efforts and other goals that were determined to enhance shareholder value. The bonus target for Mr. Swanson was based upon a combination of those referenced goals and objectives set for the Company. All executive officers, including Mr. Swanson, received bonuses for 2004 performance. However, the bonuses varied substantially based upon Company and divisional achievement of the related goals and objectives. Certain of the Company's divisions exceeded their 2004 objectives, resulting in certain of the Company's officers receiving bonuses for 2004 in excess of target. On a consolidated basis, the Company overachieved its targets for 2004 and Mr. Swanson was paid a bonus in excess of the target level. Mr. Swanson was paid a bonus of \$462,000 which represented 192.5% of his bonus target. Other executives received bonuses

11

above or below target depending upon achievement of performance objectives. For the top 13 executives, bonus payments totaled \$1,808,705 for 2004 performance compared to targets totaling \$1,295,843.

Stock Options and Restricted Stock Awards. The Company makes certain stock-based awards under the 2001 Equity Participation Plan to align better the interests of executive officers with those of stockholders. In determining appropriate stock grants, the Compensation Committee periodically reviews competitive market data and each executive's long-term performance, ability to contribute to the future success of the Company, history of prior grants, and time in the current job. The Company takes into account the risk of losing the executive to other employment opportunities and the value and potential for appreciation in the Company's stock. The Committee considers the foregoing factors together and makes a subjective determination with respect to awarding equity based compensation to its executive officers. Under the 2001 Equity Participation Plan, the Company has granted stock options, which vest over multiple years, at the fair market value of the common stock on the date of grant. The Committee has generally granted stock options in the past. However, it granted one restricted stock award to Mr. Swanson in 2001 and granted additional restricted stock awards to 14 executives in February 2005. In 2004, awards under the 2001 Equity Participation Plan were granted to eighty

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

executives and key managers and totaled 876,000 stock options. No restricted stock was granted during 2004. During February 2005, the Compensation Committee recommended, and the Board approved, the award of 606,875 stock options, to sixty-five executive and key managers. A total of 26,900 shares of restricted stock were awarded to fourteen executives and key managers. An additional 6,000 shares of restricted stock were awarded in connection with an acquisition.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During 2004, the Company's compensation committee consisted of Messrs. Rosenthal, Papa and Wells, each of whom is an independent, non-employee director. There were no compensation committee interlock relationships or insider participation in compensation arrangements for the year ended December 31, 2004.

DIRECTOR COMPENSATION

Directors who are also our employees do not receive a retainer or fees for service on our Board of Directors or any committees. For the year ended December 31, 2004, directors who were not employees received an annual retainer of \$30,000 and fees of \$1,500 for attendance at each Board or committee meeting. In addition, each non-employee director who serves as the chairman of the Compensation Committee or the Nominating & Corporate Governance Committee receives an annual fee of \$10,000. The chairman of the Audit Committee receives an annual fee of \$15,000. Effective October 1, 2004, members of the Nominating and Corporate Governance Committee and the Compensation Committee, other than the Committee Chairmen, receive an additional annual retainer of \$5,000 and members of the Audit Committee, other than the Committee Chairman, receive an additional annual retainer of \$7,500. All of our directors are reimbursed for reasonable out-of-pocket expenses incurred in attending meetings of our Board of Directors or committees and for other reasonable expenses related to the performance of their duties as directors. Since our initial public offering in February 2001, newly elected directors have received options to purchase 5,000 shares of our common stock upon their initial election. Directors received additional options to purchase 5,000 shares at each annual meeting after which they continue to serve. Prior to the February 16, 2005 Plan Amendment, these options were automatically granted under the 2001 Equity Participation Plan, vested in four equal annual installments and expired ten years from the date of grant. In the event of a change in control, the options vested in accordance with the terms of the grant agreement. The exercise price of these options was the fair market value at the date of grant. The automatic grants of options to Directors and the related option terms were previously specified in the plan document.

12

During 2004, the Compensation Committee engaged independent compensation consultants to provide an update to the Committee concerning director compensation trends and to address long-term equity compensation practices. The Committee considered these survey results and determined that it should have more flexibility and discretion available to it when awarding equity-based compensation to Directors. As a result, the Company has amended the 2001 Equity Participation Plan to provide greater flexibility for the award of equity-based compensation to directors. See Proposal 3 "Approval of the 2001 Equity Participation Plan." Assuming the proposal is approved by shareholders at the

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

Annual Meeting, the Compensation Committee intends to reconsider the practice of making automatic grants of options to purchase 5,000 shares of stock to directors following the Annual Meeting. The Compensation Committee will consider alternatives to such automatic grants including the use of restricted stock, changes in vesting terms, changes in the number of shares awarded, stock ownership requirements, and any other matters that the Committee believes are appropriate in order to offer compensation packages to directors that are competitive in the marketplace and will attract and retain skilled individuals to the Board.

* Relates to the Oil States International, Inc. 2001 Equity Participation Plan, as amended and restated. Our Board of Directors has approved an amendment to this plan to increase the number of shares authorized for issuance thereunder from 5,700,000 to 7,700,000. This increase, which is subject to stockholder approval, will be considered by our stockholders at the Annual Meeting.

** The Company does not have any equity compensation plans not approved by its stockholders.

2001 EQUITY PARTICIPATION PLAN

We have adopted an Equity Participation Plan, as amended and restated. The plan provides for the grant of any combination of:

- stock options, which include both incentive stock options and

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

- nonqualified stock options;
- restricted stock;
- performance awards;
- dividend equivalents;
- deferred stock; and
- stock payments.

The purpose of the plan is to strengthen our ability to attract, motivate and retain directors and employees. A more detailed description of the plan is set forth under "PROPOSAL THREE: APPROVAL OF 2001 EQUITY PARTICIPATION PLAN" below.

DEFERRED COMPENSATION PLAN

We have a nonqualified deferred compensation plan that permits our directors and selected key employees to elect to defer all or a part of their cash compensation from us until the termination of their status as a director or employee. The plan is administered by the Compensation Committee. Participating employees are eligible to receive from us a matching deferral under the nonqualified deferred compensation plan that compensates them for contributions they could not receive from us under our 401(k) plan due to the various limits imposed on 401(k) plans by the U.S. federal income tax laws.

Participants in our nonqualified deferred compensation plan are able to invest contributions made to the nonqualified deferred compensation plan in investment funds selected by the Compensation Committee. We have established a grantor trust to hold the amounts deferred under the plan by our officers and directors. All amounts deferred under the plan remain subject to the claims of our creditors.

Each participant will receive, at the participant's election, a lump sum distribution or installment payments only upon termination of the participant's service with us and our affiliates. The Compensation

15

Committee may, however, approve in-service withdrawals by participants to cover an unforeseen financial emergency of the participant.

ANNUAL INCENTIVE COMPENSATION PLAN

We have an annual incentive compensation plan which is administered by the Compensation Committee and is available to our executive officers and key members of management. Awards under the plan are based on meeting annual goals and objectives relating to our performance or, in some cases, to the performance of a particular business segment or individual performance. The plan is flexible and provides the Compensation Committee the discretion to set goals and objectives that it believes are consistent with creating shareholder value including financial measures, operating objectives, safety goals, growth goals and other measures. The performance standards for our executive officers in past years have been heavily weighted on goals set for earnings before interest, taxes, depreciation and amortization (EBITDA) for our Company or a particular business segment.

INDEMNIFICATION AGREEMENTS

We have entered into indemnification agreements with each of our directors

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

and executive officers, including the named executive officers. Those agreements require us to indemnify the directors and officers and to advance expenses in connection with certain claims against directors and officers. The indemnification provisions contained in these agreements are in some respects broader than the specific indemnification provisions contained in the Delaware General Corporation Law. We expect to enter into similar agreements with persons selected to be directors and executive officers in the future.

EXECUTIVE AGREEMENTS

The Company maintains executive agreements with six executive officers including each of the named executive officers in this proxy statement. These agreements provide protection in the event of a qualified termination, which is defined as an involuntary termination of the executive officer by us other than for cause or a voluntary termination by the executive for good reason after a change of control of our company. If the qualified termination occurs during the 24-month period following a change of control, the agreements provide for a lump sum payment to the executive officer based on the executive officer's base salary and target annual bonus amount. In addition, with respect to such a qualified termination, the agreements provide that all restricted stock awards will become vested, that all restrictions on such awards will lapse and that outstanding stock options will vest and, except for incentive stock options granted prior to the completion of our initial public offering, remain exercisable for the remainder of their terms. The executive officer will also be entitled to health benefits, vesting of all deferred compensation amounts, outplacement services and to be made whole for any excise taxes incurred with respect to severance payments that are excess parachute payments under the Internal Revenue Code. If a qualified termination occurs other than during the 24-month period following a change of control, the executive agreements provide for payments based on the executive officer's base salary and target annual bonus amount, that all restrictions on restricted stock awards will lapse and for continued health benefits.

The executive agreements have an initial term of three years and will be extended automatically for one additional day on a daily basis for a maximum additional period of three years, unless notice of non-extension is given, in which case the agreement will terminate on the third anniversary of the date notice is given. To receive benefits under the executive agreement, the executive officer will be required to execute a release of certain employment-related claims against us. Certain terms of the executive agreements are summarized below.

Douglas E. Swanson. Under the terms of Mr. Swanson's executive agreement, he will be entitled to receive a lump sum payment equal to three times his base salary and target annual bonus amount if a qualified termination occurs during the 24-month period following a change of control. If a qualified termination occurs other than during the 24-month period following a change of control, Mr. Swanson will be entitled to receive a lump sum payment equal to two times his base salary and target annual bonus amount. In addition, the non-

REGISTRATION RIGHTS

We have entered into an amended and restated registration rights agreement as amended, with SCF and other stockholders of Oil States. This agreement gives SCF the right, on five occasions, to demand that we register all or any portion of their shares of our common stock for sale under the Securities Act. The shares to be included in any demand registration by SCF must have an estimated aggregate gross offering price of at least \$50.0 million. Further, if we propose to register any of our common stock under the Securities Act, except for shares of common stock issued in connection with acquisitions and benefits plans, or if SCF exercises a demand, the other holders of registration rights under the registration rights agreement will have the right to include their shares of common stock in the registration, subject to limitations. To date, one of the five demand registration rights has been utilized as discussed below.

The agreement provides customary registration procedures. We have agreed to pay all costs and expenses, other than fees, discounts and commissions of underwriters, brokers and dealers and capital gains, income and transfer taxes, if any, related to the registration and sale of shares of our common stock by any holder of registration rights under the registration rights agreement in any registered offering. The demand rights held by SCF terminate in February 2011.

The registration rights agreement contains customary indemnification and contribution provisions by us for the benefit of the selling stockholders and any underwriters. Each selling stockholder has agreed to indemnify us and any underwriter solely with respect to information provided by the stockholder, with such indemnification being limited to the net proceeds from the offering received by the stockholder.

In May 2002, pursuant to a registration demand, we filed a registration statement with the Securities and Exchange Commission relating to the sale of certain of our shares by SCF-III, L.P. and SCF-IV, L.P. On February 20, 2003, SCF-III, L.P. and SCF-IV, L.P. completed the sale of 7,000,000 shares of our common stock pursuant to an underwritten offering registered under the Securities Act of 1933, as amended, pursuant to such registration statement for a total of \$72,954,000. On February 25, 2003, the underwriters involved in the offering exercised the option granted to them by SCF-III, L.P. and SCF-IV, L.P. to purchase an additional 1,050,000 shares of our common stock for a total of \$10,943,100. Pursuant to the registration rights agreement, discussed above, we paid costs and expenses of approximately \$544,000 related to this offering. We received no proceeds from the offering or the exercise of the underwriter's option.

OTHER

In March 2005, the Company paid Mr. R.A. Slator, the Vice President -- Well Site Services, \$225,000 in exchange for his release and waiver of any and all claims related to certain unexercised options to purchase shares of our common stock.

PROPOSAL 2:

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

Pursuant to the recommendation of the Audit Committee, the Board of Directors appointed Ernst & Young LLP, independent public accountants, to audit the consolidated financial statements of the Company for the year ending December 31, 2005. Ernst & Young LLP has audited the Company's consolidated financial statements since May 2000. In the event the appointment is not ratified, the Board of Directors will consider the appointment of other independent auditors. Fees paid to Ernst & Young LLP during the past two fiscal years were as follows:

Audit Fees. Fees for professional services provided for the years ended December 31, 2004 and 2003, were \$1,742,000 and \$621,000, respectively. Audit fees consist primarily of the audit and quarterly reviews of the consolidated financial statements, the audit of internal controls over financial reporting (in 2004 only), audits of subsidiaries, statutory audits of subsidiaries required by governmental or regulatory bodies, attestation services required by statute or regulation, comfort letters, consents, assistance with and review of documents filed with the SEC, work performed by tax professionals in connection with the audit and quarterly reviews, and accounting and financial reporting consultations and research work necessary to comply with generally accepted auditing standards.

Audit-Related Fees. Fees for professional services provided during the years ended December 31, 2004 and 2003, were \$27,000 and \$46,000, respectively. Audit-related fees consist primarily of attestation services not required by statute or regulation.

21

Tax Fees. Fees for professional services provided during the years ended December 31, 2004 and 2003, were \$231,000 and \$149,000, respectively. Tax fees include professional services provided for tax compliance, tax advice, and tax planning, except those rendered in connection with the audit.

All Other Fees. None.

The charter of the Audit Committee provides that the Audit Committee is responsible for the pre-approval of all auditing services and permitted non-audit services to be performed for the Company by the independent auditors in order to ensure that the provision of such services does not impair the independent auditor's independence. The Audit Committee has adopted the Audit Committee Pre-Approval Policy, effective as of March 1, 2004, pursuant to which the Audit Committee has granted general pre-approval of the specified audit, audit-related, tax and other services for a period of 12 months from the date of such pre-approval. The pre-approval policy provides that the Audit Committee must be promptly informed of the provision of any pre-approved services. Services to be provided by the independent auditor that have not received general pre-approval as set forth in the pre-approval policy require specific pre-approval by the Audit Committee and must be submitted to the Audit Committee by the Chief Financial Officer or the Vice President-Finance and Accounting. Any such submission must include a statement as to whether, in such officer's view, the request or application is consistent with maintaining the independence of the independent auditor in accordance with the SEC's rules on auditor independence. All services rendered by Ernst & Young LLP in 2004 were subject to the applicable current pre-approval policy.

Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting and will be offered the opportunity to make a statement if such representatives desire to do so. The representatives of Ernst & Young LLP will also be available to answer questions and discuss matters pertaining to the

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

Report of Independent Auditors contained in the financial statements in the Company's Annual Report on Form 10-K.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE RATIFICATION OF THIS APPOINTMENT.

PROPOSAL 3:

APPROVAL OF THE 2001 EQUITY PARTICIPATION PLAN

The Board of Directors recommends that the stockholders approve the Oil States International, Inc. 2001 Equity Participation Plan (the "Plan"), as amended and restated effective February 16, 2005.

Our Board of Directors has approved an amendment to the Plan. The Plan, as amended and restated, provides for a 2,000,000 share increase in the number of shares authorized for issuance thereunder from 5,700,000 shares to 7,700,000 shares. In addition, the Plan has been amended to provide greater flexibility for the award of equity-based compensation to our directors. This amendment, which is subject to stockholder approval, will be considered by our stockholders at the Annual Meeting.

Assuming the amendment is approved by stockholders at the Annual Meeting, the Compensation Committee intends to reconsider the practice of making automatic grants of options to purchase 5,000 shares of common stock to directors following the Annual Meeting. The Compensation Committee will consider alternatives to such automatic grants, including the use of restricted stock, changes in vesting terms, changes in the number of shares awarded, stock ownership requirements, and any other matters that the Committee believes are appropriate in order to offer compensation packages to directors that are competitive in the marketplace and will attract and retain skilled executives to our Board of Directors. If the amendment is not approved by stockholders, our directors will continue to receive automatic annual grants of options to purchase 5,000 shares of common stock.

As of March 31, 2005, there were 3,197,350 stock options and 32,900 restricted stock awards outstanding under the plan. The weighted average exercise price of the outstanding options at March 31, 2005 was 10.07 and such options had a weighted average remaining contractual life of 5.99 years. Shares available for future grant totaled 704,025 before considering the proposed amendment and would total 2,704,025 if the amendment is approved by the stockholders.

22

The Plan is our only equity compensation plan. It plays an important role in our efforts to attract and retain employees and directors of outstanding ability on a basis competitive with market practices, and to align the interests of employees and directors with those of stockholders through an increased equity stake in the Company. Approval of the Plan is being sought in order that compensation resulting from awards under the Plan will be fully deductible by the Company under Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") until 2010.

Although this discussion summarizes the principal terms and conditions of the Plan, it does not purport to be complete and is qualified in its entirety by reference to the Plan which is attached as Annex A to this Proxy Statement.

PURPOSE

The purpose of the Plan is to provide a means whereby certain employees,

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

directors, consultants, and advisors of the Company and its subsidiaries or affiliates may acquire and maintain stock ownership in the Company, thereby strengthening their concern for the financial welfare of the Company and its subsidiaries.

ADMINISTRATION

The Plan is administered by the Compensation Committee or any successor committee appointed by the Board of Directors to administer the Plan (the "Committee"). Subject to the express terms of the Plan, the Committee has the authority, subject to Board approval, to determine which individuals will be granted awards, make awards, set the terms of awards (including price, exercise, vesting and other rights), and upon the occurrence of certain events specified in the Plan, terminate the restrictions imposed on a deferred stock award or restricted stock award, and make adjustments to awards. Further, the Committee is authorized to interpret the Plan and the agreements entered into under the Plan and adopt such rules and regulations, consistent with the provisions of the Plan, to implement and carry out the Plan. All actions taken and interpretations and determinations made by the Committee in good faith are conclusive and binding on the Company and all persons having an interest in the Plan or any award issued under it. The Board of Directors may exercise any of the Committee's rights and duties under the Plan at any time, except with respect to matters governed by the Exchange Act and by the Internal Revenue Code or any regulations or rules issued thereunder, are required to be determined in the sole discretion of the Committee.

ELIGIBILITY

Awards may be granted to any individuals who, at the time of the grant, are officers or other employees of, directors of, or consultants to, the Company or its subsidiaries or affiliates ("Eligible Individuals"). Eligibility to participate is determined by the Committee in its sole discretion.

SHARES SUBJECT TO THE PLAN

Initially, up to 3,700,000 shares of common stock were authorized for issuance under the Plan. In 2002, the Board of Directors and stockholders approved an amendment and restatement of the Plan that increased the number of shares of common stock that may be issued under the Plan to 5,700,000.

The Board of Directors has approved an amendment and restatement of the Plan that, subject to stockholder approval, would increase by 2,000,000 the number of shares of common stock that may be issued under the Plan to 7,700,000. If stockholder approval is not obtained, the Plan will continue as in effect immediately prior to the amendment and restatement.

The number of shares subject to awards under the Plan is subject to adjustment by the Committee in the event of changes in the outstanding common stock by reason of stock dividends, stock splits, recapitalizations, reorganizations, mergers, consolidations, combinations, exchanges and certain other changes in capitalization. If any option, or other right to acquire shares of common stock issued under any other award under the Plan, expires or is cancelled without having been fully exercised, or if shares of common stock are surrendered for payment of the exercise price or purchase price of an award, or if shares of common stock are withheld for

payment of applicable employment and/or withholding taxes respecting an award, the shares subject to the award but as to which such award was not exercised prior to its expiration or cancellation or the shares so surrendered or withheld

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

will again be available for the grant of an award under the Plan. Approval of the Plan amendment will permit the re-granting of shares issued under the original 2001 Equity Participation Plan which have expired, were cancelled, or otherwise were not fully exercised. Any such re-grants of expired or cancelled awards or shares surrendered or withheld from payment from the original 3,700,000 shares authorized under the Plan will not be granted if stockholder approval of the restated Plan is not obtained.

AWARDS

Under the terms of the Plan, the Committee may grant options, restricted stock awards, deferred stock awards, performance awards, dividend equivalents or stock payments. Options may consist of either "incentive stock options," as defined in Section 422 of the Code, or nonqualified stock options. The maximum number of shares of common stock that may be subject to options, restricted stock or deferred stock granted to any one individual in any calendar year may not exceed 400,000 shares of common stock (subject to certain adjustment for mergers, recapitalizations, stock splits and other changes in the common stock). The maximum value of performance awards granted under the Plan to any individual in any calendar year may not exceed \$2.5 million.

Options. Options are evidenced by option agreements, which provide the terms and conditions upon which options are granted and may be exercised. The Committee sets the term of each option at the time of the grant and includes other provisions in the option agreement which it approves and which are not inconsistent with the provisions of the Plan. An option may be exercisable in whole or in installments, as determined by the Committee. The Committee may require that a partial exercise must be with respect to a minimum number of shares. The term of an option is set by the Committee in its discretion; however, the term of incentive stock options cannot exceed 10 years (or 5 years, in the case of incentive stock options granted to an individual owning 10% of the combined voting power of all classes of stock of the Company and any subsidiary). Each option agreement specifies the time that the option vests. At any time after the grant of any option, the Committee may, in its sole discretion and subject to whatever terms and conditions it selects, accelerate the period during which an option vests. Options granted may include provisions governing the exercise of options subsequent to termination of employment, directorship or consultancy, in the Committee's discretion.

The Committee determines the price at which a share of common stock may be purchased upon exercise of an option, but such price may not be less than the fair market value of a share of common stock on the date the option is granted. The option price is subject to certain adjustment for mergers, recapitalizations, stock splits and other changes in the common stock. Upon exercise, the purchase price for the option or the portion thereof being exercised must be paid in full in the manner prescribed by the Committee. An option agreement may provide for the payment of the option price, in whole or in part, by the delivery of a number of shares of common stock, or the surrender of shares of common stock then issuable on the exercise of the option (plus cash if necessary), having a fair market value equal to the option price. The option agreement may also provide for payment in whole or in part through the delivery of any property that constitutes good and valuable consideration, or through the delivery of a full recourse promissory note bearing interest and payable upon such terms as determined by the Committee. However, the option may not be exercised by delivery of a promissory note where prohibited by law. The terms and conditions of the respective option agreements need not be identical.

The Committee may set forth in each option agreement such restrictions on the ownership and transferability of shares purchased pursuant to options as it deems appropriate. These restrictions may impose on the optionee a duty to notify the Company of the disposition of shares of common stock acquired pursuant to incentive stock options within certain time frames specified in the

Plan.

Incentive stock options may only be granted to individuals who are employees of the Company or any parent or subsidiary corporation (as defined in Section 424 of the Code) of the Company at the time the option is granted. To the extent that the aggregate fair market value (determined at the time the respective

24

Incentive Stock option is granted) of common stock with respect to which incentive stock options are exercisable for the first time by an individual during any calendar year under all incentive stock option plans of the Company and its parent and subsidiary corporations exceeds \$100,000, such incentive stock options shall be treated as nonqualified stock options. An incentive stock option may not be granted to an individual if, at the time the option is granted, the individual owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or of its parent or subsidiary corporation, within the meaning of Section 422(b)(6) of the Code, unless such incentive stock option conforms to the applicable provisions of Section 422 of the Code. Any option granted as an incentive stock option under the Plan may be modified by the Committee to disqualify such option from treatment as an "incentive stock option" under Section 422 of the Code.

Restricted Stock Awards. Under the Plan, the Company may grant Eligible Individuals awards of restricted stock consisting of shares of common stock that are issued but subject to such restrictions as the Committee may provide, including, without limitation, restrictions concerning voting rights and transferability and forfeiture restrictions based on duration of employment with the Company, and Company and individual performance. The Committee determines the other terms and conditions that will apply to any restricted stock award, which may include the achievement of Performance Objectives (as described below). The terms, conditions, and restrictions applicable to a restricted stock award will be set forth in a restricted stock agreement made in conjunction with the award and, subject to the provisions of the Plan, are determined by the Committee in its sole discretion. The terms of restricted stock awards under the Plan need not be identical. After the restricted stock is issued, the Committee may, on such terms and conditions as it deems appropriate, remove any or all of such restrictions, provided the award is not intended to "qualify" as performance-based compensation under Section 162(m) of the Code.

Unless otherwise provided by the Committee, holders of common stock subject to a restricted stock award have the right to receive dividends with respect to such stock, to vote the stock, and to exercise all other rights of a stockholder with respect thereto, except that shares of restricted stock may not be sold, transferred, pledged or otherwise assigned until all restrictions are terminated or expire. Further, any shares of common stock issued as a distribution on shares of restricted stock shall be subject to the terms set forth in the restricted stock agreement under which such shares of restricted stock were issued.

Stock certificates reflecting shares of restricted stock cannot be delivered until the applicable restrictions have expired or been removed, and the Secretary of the Company or such other escrow holder as the Committee may appoint will retain custody of such stock certificates until such time.

Performance Awards. The Company may grant performance awards to Eligible Individuals selected by the Committee. The value of such performance awards may be linked to the achievement of such specific Performance Objectives (as described below) determined to be appropriate by the Committee over any period or periods determined by the Committee. In making such determinations, the

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

Committee will consider (among such other factors as it deems relevant in light of the specific type of award) the contributions, responsibilities and other compensation of the particular employee or consultant.

Dividend Equivalents. The Company may grant dividend equivalents to any Eligible Individuals selected by the Committee based on the dividends declared on the common stock, to be credited as of dividend payment dates, during the period between the date an option, deferred stock award or performance award is granted, and the date such option, deferred stock award or performance award is exercised, vests or expires, as determined by the Committee. Such dividend equivalents shall be converted to cash or additional shares of common stock by such formula and at such time and subject to such limitations as may be determined by the Committee.

Stock Payments. The Company may make stock payments to any Eligible Individuals selected by the Committee in the manner determined from time to time by the Committee. The number of shares shall be determined by the Committee and may be based upon the fair market value, book value, net profits or other measure of the value of common stock or other specific performance criteria determined appropriate by the Committee, determined on the date such stock payment is made or on any date thereafter.

25

Deferred Stock Award. The Company may grant a deferred stock award to any Eligible Individuals selected by the Committee in the manner determined from time to time by the Committee. The number of shares of deferred stock shall be determined by the Committee and may be linked to the achievement of such specific performance objectives determined to be appropriate by the Committee over any period or periods determined by the Committee. Common stock underlying a deferred stock award will not be issued until the deferred stock award has vested, pursuant to a vesting schedule or Performance Objectives (as described below) set by the Committee, as the case may be. Unless otherwise provided by the Committee, a recipient of deferred stock shall have no rights as a Company stockholder with respect to such deferred stock until such time as the award has vested and the common stock underlying the award has been issued.

Each performance award, dividend equivalent, and deferred stock award, and/or stock payment will be evidenced by an agreement setting forth the terms and conditions that apply to such award. Such awards are exercisable or payable only while the recipient is an Eligible Individual. However, the Committee may determine that any such award may be exercised or paid subsequent to termination without cause, or following a change in control of the Company, or because of the recipient's retirement, death or disability, or otherwise. Payment of dividend equivalents or stock payments may be made in cash, common stock or a combination of both so long as any payment in common stock is made in accordance with the Plan's general requirements relating to issuance of shares of common stock pursuant to the exercise of options.

PERFORMANCE OBJECTIVES

Awards under the Plan intended to qualify as performance based compensation under Section 162(m)(4)(C) of the Code will be subject to any additional limitations set forth in Section 162(m) of the Code and any applicable regulations or rulings thereunder that are requirements for such awards to so qualify. Specifically, but not by way of limitation, awards under the Plan, other than stock options, may be linked to the achievement of objectives (the "Performance Objectives"), if any, established by the Committee, which may be described in terms of Company-wide objectives, in terms of objectives that are related to performance of a division, subsidiary, department or function within the Company or an affiliate in which the Plan participant receiving the award is

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

employed or in individual or other terms, and which will relate to the period of time determined by the Committee. The Performance Objectives intended to qualify under Section 162(m) of the Code will be with respect to one or more of the following: (i) net income; (ii) pre-tax income; (iii) operating income; (iv) cash flow; (v) earnings per share; (vi) earnings before any one or more of the following items: interest, taxes, depreciation or amortization; (vii) return on equity; (viii) return on invested capital or assets; (ix) cost reductions or savings; (x) funds from operations and (xi) appreciation in the fair market value of the Company's common stock. The Committee shall determine, in its discretion at the time of an award, which objectives to use with respect to an award, the weighting of the objectives if more than one is used, and whether the objective is to be measured against a Company-established budget or target, an index or a peer group of companies. A Performance Objective need not be based on an increase or a positive result and may include, for example, maintaining the status quo or limiting economic losses.

ADJUSTMENTS ON CHANGES IN CAPITALIZATION, MERGER OR SALE OF ASSETS

If the Company pays a stock dividend or other distribution on common stock, or if the Company recapitalizes, reclassifies its capital stock, effects a stock split, merger, consolidation or otherwise changes its capital structure or if the Company sells, transfers, exchanges or otherwise disposes of all or substantially all of the assets of the Company or engages in any similar corporate transaction or event (a "Corporate Transaction"), the Committee has discretion to take any or all of the following actions, if it determines that such action is appropriate to prevent dilution or enlargement of the benefits or potential benefits to be made available under the Plan or with respect to an award previously made under the Plan: (a) adjust the number and kind of shares of common stock (or other securities or property) with respect to which awards may be made under the Plan, adjust the limits on the number of shares of common stock issuable under the Plan, and/or adjust the award limits applicable to grants of awards to individuals; (b) adjust the number and kind of

26

shares of common stock subject to outstanding awards, and/or (c) adjust the grant or exercise price with respect to any option, performance award, dividend equivalent or stock payment.

If any Corporate Transaction results in shares of common stock being exchanged for or converted into cash, securities (including securities of another corporation) or other property, the Committee may terminate the Plan as of the date of such transaction and all awards will become the right to receive such cash, securities or other property, net of any exercise price.

In the event of any Corporate Transaction or any unusual or nonrecurring transactions or events affecting the Company, any of its affiliates, or the financial statements of the Company or any of its affiliates, or any changes in applicable laws, regulations or accounting principles, the Committee has discretion to take any or all of the following actions, in its discretion and on terms and conditions it deems appropriate, if it determines that such action is appropriate to prevent dilution or enlargement of the benefits or potential benefits to be made available under the Plan or with respect to an award previously made under the Plan: (i) provide automatically, or on the optionee's or grantee's request, for the purchase of any such award for an amount of cash that could have been attained upon the exercise of such award or realization of the optionee's or grantee's rights thereunder had the award been currently exercisable or payable, or the replacement of the award with other rights or property selected by the Committee in its discretion; (ii) provide either in the terms of an award or by action taken prior to such transaction or event, that it cannot be exercised after such transaction or event; (iii) provide either in the

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

terms of an award or by action taken prior to such transaction or event, that for a specified period of time prior to such transaction or event, the award will be exercisable as to all shares covered thereby notwithstanding anything to the contrary in the award agreement or the Plan; (iv) provide either in the terms of an award or by action taken prior to such transaction or event, that upon such transaction or event, such award will be assumed by the successor corporation or parent or subsidiary thereof or will be substituted by similar options, rights or awards covering stock of the successor corporation or parent or subsidiary thereof, with appropriate adjustments to the number and kind of shares and prices; (v) adjust the number and type of shares of common stock subject to outstanding awards and the terms and conditions of future awards; (vi) provide either in the terms of an award of restricted stock or deferred stock or by action taken prior to such transaction or event, that for a specified period of time prior to such event, the restrictions imposed on such an award or on some or all shares of restricted stock or deferred stock may be terminated; and (vii) make adjustments to the Performance Objectives of any outstanding award.

Notwithstanding any of the powers described above, except to the extent that an award agreement specifies to the contrary, in the event of a change of control of the Company, all outstanding awards will automatically become fully vested immediately prior to such change of control (or such earlier time as set by the Committee), and all restrictions, if any, applicable to such awards will lapse, and all performance criteria, if any, with respect to such awards will be deemed to have been met at their target level.

If an award is intended to qualify as performance based compensation under Section 162(m) of the Code, except for any actions required to be taken in the event of a change of control of the Company, as described above, no action may be taken or adjustment made to the extent it would cause such award to fail to qualify under Section 162(m) of the Code or any successor thereto.

AMENDMENT AND TERMINATION OF THE PLAN

The Board of Directors or the Committee may amend the Plan at any time, except it may not change any award previously granted under the Plan in a manner that would impair the rights of an optionee or grantee without the optionee's or grantee's consent (unless the award agreement specifies otherwise). Further, the Committee may not, without approval of the Company's stockholders (but subject to the Committee's right to make adjustments in the event of changes in the outstanding common stock by reason of stock dividends, stock splits, recapitalizations, reorganizations, mergers, and certain other changes in capitalization), amend the Plan to increase the maximum aggregate number of shares of common stock issuable under the Plan or reduce the exercise price of an option or take action that would otherwise require stockholder approval.

No awards may be granted after the Plan has terminated or while the Plan is suspended. No incentive stock option may be granted under the Plan after February 7, 2011.

27

FEDERAL INCOME TAX CONSEQUENCES

The following is a brief description of the federal income tax consequences generally arising with respect to awards under the Plan and is intended for the information of stockholders to consider with respect to their vote on the Plan and not as tax guidance to participants under the Plan. Participants under the Plan should consult their own tax advisors regarding the specific tax consequences of participation in the Plan, including the application of any state and local tax laws which may differ from federal tax treatment and the effect of other state and local laws, including community property laws.

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

Nonqualified Stock Options. As a general rule, no federal income tax is imposed on the optionee upon the grant of a nonqualified stock option. Except as described below under the caption "Potential Income Tax Consequences of Section 16(b) Liability," upon the exercise of a nonqualified stock option, the optionee will be treated as receiving compensation taxable as ordinary income in the year of exercise in an amount equal to the excess of the fair market value of the shares of common stock at the time of exercise over the option price paid for those shares of common stock. There is no item of tax preference upon such exercise. Upon a subsequent taxable disposition of the shares received upon exercise of a nonqualified stock option, any difference between the fair market value of the shares at the time of exercise and the amount realized on the disposition would be treated as capital gain or loss. Upon an optionee's exercise of a nonqualified stock option, the Company may claim a deduction for compensation paid at the same time and in the same amount as compensation income is recognized to the optionee provided the Company timely satisfies any federal income tax reporting requirements.

Incentive Stock Options. No federal income tax is imposed on the optionee upon the grant or exercise of an incentive stock option, except as described below under the caption "Alternative Minimum Tax." If the optionee does not dispose of shares acquired pursuant to the exercise of an incentive stock option within the later of two years after the date the option was granted or within one year after exercise, the difference between the option price and the amount realized on a subsequent taxable disposition of the shares would be treated as capital gain or loss. In this event, the Company would not be entitled to any deduction in connection with the grant or exercise of the option or the disposition of the shares so acquired.

If, however, an optionee disposes of shares acquired pursuant to his exercise of an incentive stock option prior to the end of the two-year or one-year holding period noted above, the disposition would be treated as a disqualifying disposition. The optionee would be treated as having received, at the time of disposition, compensation taxable as ordinary income equal to the excess of the fair market value of the shares at the time of exercise (or, in the case of a sale in which a loss would be recognized, the amount realized on such sale) over the option price, and any amount realized in excess of the fair market value of the shares at the time of exercise would be treated as capital gain. In such event, the Company may claim a deduction for compensation paid at the same time and in the same amount as compensation is treated as received by the optionee provided the Company timely satisfies any federal income tax reporting requirements.

Alternative Minimum Tax. The excess of the fair market value of a share of common stock acquired upon the exercise of an incentive stock option over the option price paid for those shares of common stock must be included in the optionee's alternative minimum taxable income for the year in which the exercise occurs. If, however, the optionee exercises the incentive stock option and disposes of the shares of common stock acquired upon that exercise in the same taxable year and the amount realized is less than the fair market value of the shares on the exercise date, the amount included in the optionee's alternative minimum taxable income will not exceed the amount realized over the adjusted basis of the common stock.

Payment of Option Price in Stock. In the case of a nonqualified stock option, if the option price is paid by the delivery of shares of common stock previously acquired by the optionee having a fair market value equal to the option price ("Previously Acquired Stock"), gain or loss would not be recognized on the exchange of the Previously Acquired Stock for a like number of shares pursuant to the exercise of the option. The optionee's basis and holding period in the number of shares of common stock received equal to the Previously Acquired Stock would be the same as his basis and holding period in the

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

Previously Acquired Stock. The optionee would, however, be treated as receiving compensation taxable as ordinary income equal to the fair market value on the date of exercise of the shares of common stock received in excess of the number

28

of shares of Previously Acquired Stock, and the optionee's basis in such excess shares would be equal to their fair market value at the time of exercise, and his holding period would begin on the date of exercise except as described below under the caption "Potential Income Tax Consequences of Section 16(b) Liability."

In the case of an incentive stock option, the federal income tax consequences to the optionee of the payment of the option price with Previously Acquired Stock will depend on the nature of the Previously Acquired Stock. If the Previously Acquired Stock was acquired through the exercise of an incentive stock option or an option granted under a qualified employee stock purchase plan (a "Statutory Option") and if the Previously Acquired Stock is being transferred prior to the expiration of the applicable minimum statutory holding period, the transfer would be treated as a disqualifying disposition of the Previously Acquired Stock. If the Previously Acquired Stock was acquired other than pursuant to the exercise of a Statutory Option, or was acquired pursuant to the exercise of a Statutory Option but has been held for the applicable minimum statutory holding period, no gain or loss would be recognized on the exchange. In either case, (i) the optionee's basis and holding period in the number of shares received equal to the number of shares of Previously Acquired Stock exchanged is the same as his basis and holding period in the Previously Acquired Stock, with such basis increased by any income recognized upon the disqualifying disposition of the Previously Acquired Stock, (ii) the optionee's basis in the shares received in excess of the number of Previously Acquired Stock is zero and his holding period begins on the date of exercise, and (iii) the other incentive stock option rules would apply.

Payment of Withholding in Stock. In the case of a nonqualified stock option, if the federal or state income tax withholding required with respect to the exercise of an option is paid by the surrender of shares of Previously Acquired Stock having a fair market value equal to the amount of such withholding, any difference between the fair market value of the Previously Acquired Stock at the time of surrender and the adjusted basis of the Previously Acquired Stock would generally be treated as a capital gain or loss. If the Previously Acquired Stock was acquired through the exercise of a Statutory Option and if the Previously Acquired Stock is being surrendered prior to the expiration of the applicable minimum statutory holding period, the surrender would be treated as a disqualifying disposition of the Previously Acquired Stock. If the federal or state income tax withholding required with respect to the exercise of a nonqualified stock option is paid instead by withholding from the total number of shares of common stock exercised a number of shares of common stock having a fair market value equal to the amount of such withholding, although there is no clear authority at this time, it is likely that the optionee would be treated as having fully exercised the option with the same tax treatment as described above with respect to the exercise of an option for cash and having subsequently sold the withheld shares to the Company with no gain or loss recognized on such sale.

Potential Income Tax Consequences of Section 16(b) Liability. If shares of common stock are received upon the exercise of a nonqualified stock option by an optionee who is subject to liability under Section 16(b) of the 1934 Act, recognition of the compensation attributable to such exercise may under certain circumstances be postponed so long as a sale at a profit of the shares so acquired could subject the optionee to suit under Section 16(b) of the 1934 Act, but not for more than six months. One effect of any postponement would be to measure the amount of compensation taxable to the optionee as ordinary income by

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

reference to the fair market value of such shares at the time such liability to suit under Section 16(b) of the 1934 Act no longer exists (rather than at the earlier date of exercise of the option). Similarly, the fair market value of the shares at that time would become the optionee's basis in the shares for purposes of computing gain or loss upon a subsequent disposition, and the optionee's holding period for the shares would date from that time. An optionee may, however, elect with respect to such shares, pursuant to Section 83(b) of the Code, to recognize the compensation attributable to such exercise at the time of such exercise, in which case his tax treatment would be as described above under the caption "Nonqualified Stock Options." Such election must be made not later than 30 days after the date such shares are transferred to the optionee and is irrevocable.

Restricted Stock Awards. A grantee of a restricted stock award who does not elect to be taxed at the time of the grant will not recognize taxable income at the time of grant, and the Company will not be entitled to a deduction until the termination of the forfeiture restrictions with respect to the restricted stock. Upon termination of the forfeiture restrictions, the grantee will recognize ordinary income in an amount equal to the fair market value of the shares at such time, and the Company, subject to Section 162(m) of the Code, will be

29

entitled to a corresponding deduction, provided the Company timely satisfies any federal income tax reporting requirements. Dividends and distributions (or the cash equivalent thereof) with respect to a grant of restricted stock paid to the grantee before the termination of the forfeiture restrictions will also be compensation income to the grantee when paid and, subject to Section 162(m) of the Code, deductible as such by the Company, provided, if paid in the form of Company Stock, the Company timely satisfies any federal income tax reporting requirements. The grantee of a restricted stock award may elect under Section 83(b) of the Code to be taxed at the time of grant of the restricted stock award on the market value of the shares of common stock, in which case the Company will be entitled to a deduction at the same time and in the same amount, provided the Company timely satisfies any federal income tax reporting requirements, and there will be no further federal income tax consequences with respect to the grant of the restricted stock when the forfeiture restrictions terminate and any gain or loss upon subsequent disposition of the common stock will be capital gain or loss. All dividends or distributions with respect to restricted stock for which such an election has been made and which are paid to the grantee before the termination of the forfeiture restrictions will be taxable as dividend income to the grantee when paid and not deductible by the Company. Upon making this election, these tax consequences are irreversible. Thus, if a forfeiture subsequently occurs, the grantee is not entitled to a deduction as a consequence of the forfeiture and the Company must include as ordinary income the amount it previously deducted in the year of the grant with respect to such shares.

Performance Awards. Grantees receiving performance awards do not realize taxable income at the time of the grant or during the performance period. A performance award, whether paid in cash or common stock, will constitute ordinary income during the year of payment. Such taxable income will be based on the fair market value of the common stock at the payment date. The Company is not entitled to a deduction at the time of grant. When the award is paid, subject to Section 162(m) of the Code, the Company is entitled to a compensation deduction, provided, with respect to an award paid in common stock, the Company timely satisfies any federal income tax reporting requirements.

Dividend Equivalents. A dividend equivalent paid with respect to an option, deferred stock or performance award will be taxed to the grantee as compensation income and, subject to Section 162(m) of the Code, deductible as

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

such by the Company.

Stock Payments. If a stock payment is made, the grantee will realize ordinary income during the year of payment. Such taxable income will be based on the fair market value of the stock payment at the payment date. When the stock payment is made, subject to Section 162(m) of the Code, the Company is also entitled to a compensation deduction, provided the Company timely satisfies any federal income tax reporting requirements.

Deferred Stock Award. The tax treatment will be as described above for "Stock Payments" applicable to the year in which the deferred stock award vests and the common stock underlying the award is issued.

Section 162(m) of the Code. Section 162(m) of the Code precludes the Company, as a public corporation, from taking a deduction for compensation in excess of \$1 million paid in a taxable year to its chief executive officer or any of its four other highest paid officers. However, compensation that qualifies under Section 162(m) as "performance-based" is specifically exempt from the deduction limit. Based on current interpretive authority and assuming that the Plan is approved by the stockholders, the Company's ability to deduct compensation income generated in connection with the exercise of options granted under the Plan should not be limited by Section 162(m) provided that (1) the purchase price per share of common stock subject to such option is not less than the fair market value of a share of common stock at the time such option is granted, and (2) all grants of options under the Plan are made by a committee of the Board comprised solely of non-employee directors. The Plan has been designed to provide flexibility with respect to whether restricted stock awards, performance awards and deferred stock awards will qualify as performance-based compensation under Section 162(m) and, therefore, be exempt from the deduction limit. Assuming that the Plan is approved by the stockholders, if the forfeiture restrictions relating to an award are based solely upon the satisfaction of one of the specifically enumerated performance criteria for qualification under Section 162(m) set forth in the Plan (see "Performance Objectives" above), all grants of such awards are made by a committee of the Board comprised solely of non-employee directors, and all performance criteria

30

reflected in such awards are established by such committee, then the compensation expense relating to that award should be deductible by the Company if the award becomes vested. However, compensation expense deductions relating to a restricted stock award, performance award or deferred stock award will be subject to the Section 162(m) deduction limitation if the award becomes vested based upon any criteria other than such performance criteria, such as the occurrence of a change of control or vesting based upon continued employment with the Company.

Parachute Payment Sanctions. Certain provisions in the Plan or that may be included in an agreement with respect to an award under the Plan may give an employee special protections or payments that are contingent on a change in the ownership or effective control of the Company or in the ownership of a substantial portion of the Company's assets. To the extent triggered by the occurrence of any such event, these special protections or payments may constitute "parachute payments" which, when aggregated with other parachute payments received by the employee, may result in the employee's receiving "excess parachute payments," as defined by the Code (a portion of which would be allocated to those protections or payments derived from the Plan). The Company would not be allowed a deduction for any of these excess parachute payments, and the employee would be subject to a nondeductible 20% excise tax in addition to income tax otherwise owed with respect to these payments. The Company has entered into agreements (See "Executive Agreements" above) with certain of its

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

executives that provide that if any such executive becomes subject to these additional taxes, then the Company will pay the executive an additional amount equal to the amount the executive would have received absent the 20% excise tax.

Section 409A of the Code. Section 409A of the Code applies new requirements to certain types of nonqualified deferred compensation arrangements. While the new requirements should not apply to stock options or restricted stock awards under the Plan, they may apply to other awards under the Plan depending upon how such other awards are structured. Failure to comply with the technical requirements of Section 409A of the Code where applicable will result in affected grantees being assessed an additional 20% tax on deferred compensation when recognized as income for tax purposes, potential acceleration of such income recognition and additional interest. The Company currently intends to structure such other awards to avoid application of Section 409A of the Code, although it is not required to do so.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE APPROVAL OF THE PLAN.

COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires executive officers and directors and persons who own more than 10% of our common stock to file initial reports of ownership and changes in ownership with the Securities and Exchange Commission and the NYSE. Such persons are also required to furnish the Company with copies of all Section 16(a) reports they file. Based solely on our review of the copies of such reports received by us and representations from certain reporting persons, we believe that during 2004, all of our directors, executive officers and beneficial owners of more than 10% of our common stock complied with all applicable Section 16(a) filing requirements applicable to them, except as disclosed in this paragraph. A Form 4 was not timely filed to reflect the cancellation of stock options at the end of the option's life on one occasion each for Messrs. Slator and Hughes. A Form 4 was not timely filed on one occasion to reflect the surrender of 10,000 shares by Mr. Swanson in payment of taxes due upon the vesting of restricted stock awards. In each of the above instances, the Company had undertaken to file the respective Form 4's on behalf of each reporting person pursuant to a power of attorney granted by each such reporting person to the Company.

ARTICLE III

GRANTING OF OPTIONS

3.1 Eligibility. Any Employee, Director or consultant selected by the Committee pursuant to Section 3.4(a)(i) shall be eligible to be granted an Option.

3.2 Disqualification for Stock Ownership. No person may be granted an Incentive Stock Option under this Plan if such person, at the time the Incentive Stock Option is granted, owns stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company or any then existing Subsidiary unless such Incentive Stock Option conforms to the applicable provisions of Section 422 of the Code,

3.3 Qualification of Incentive Stock Options. No Incentive Stock Option shall be granted unless such Option, when granted, qualifies as an "incentive stock option" under Section 422 of the Code. No Incentive Stock Option shall be granted to any person who is not an employee of the Company or a Subsidiary.

3.4 Granting of Options

(a) The Committee shall from time to time, in its absolute discretion, and subject to applicable limitations of this Plan:

(i) Select from among the Employees, Directors or consultants (including Employees, Directors or consultants who have previously received Options or other awards under this Plan) such of them as in its opinion should be granted Options;

(iv) Determine the terms and conditions of such Options, consistent with this Plan.

(b) Upon the selection of an Employee, Director or consultant to be granted an Option, the Committee shall instruct the Secretary of the Company to issue the Option and may impose such conditions on the grant of the Option as it deems appropriate.

(c) Any Incentive Stock Option granted under this Plan may be modified by the Committee to disqualify such option from treatment as an "incentive stock option" under Section 422 of the Code.

ARTICLE IV

TERMS OF OPTIONS

4.1 Option Agreement. Each Option shall be evidenced by a Stock Option Agreement, which shall be executed by the Optionee and an authorized officer of the Company and which shall contain such terms and conditions as the Committee shall determine, consistent with this Plan.

4.2 Option Price. The price per share of the shares subject to each Option shall be set by the Committee; provided, however, that, except as provided in Section 8.1 with respect to assumed options, such price shall not be less than 100% of the Fair Market Value of a share of Common Stock on the date the Option is granted.

4.3 Option Term. The term of an Option shall be set by the Committee in its discretion; provided, however, that in the case of Incentive Stock Options, the term shall not be more than ten (10) years from the date the Incentive Stock Option is granted, or five (5) years from such date if the Incentive Stock Option is granted to an individual then owning (within the meaning of Section 424(d) of the Code) more than 10% of the total combined voting power of all classes of stock of the Company or any Subsidiary).

4.4 Option Vesting

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

(a) The period during which the right to exercise an Option in whole or in part vests in the Optionee shall be set by the Committee and the Committee may determine that an Option may not be exercised in whole or in part for a specified period after it is granted. At any time after grant of an Option, the Committee may, in its sole and absolute discretion and subject to whatever terms and conditions it selects, accelerate the period during which an Option vests.

(b) To the extent that the aggregate Fair Market Value of stock with respect to which "incentive stock options" (within the meaning of Section 422 of the Code, but without regard to Section 422(d) of the Code) are exercisable for the first time by an Optionee during any calendar year (under the Plan and all other incentive stock option plans of the Company and any parent or Subsidiary) exceeds \$100,000, such Options shall be treated as Non-Qualified Options to the extent required by Section 422 of the Code. The rule set forth

A-5

in the preceding sentence shall be applied by taking Options into account in the order in which they were granted. For purposes of this Section 4.4(b), the Fair Market Value of stock shall be determined as of the time the Option with respect to such stock is granted.

ARTICLE V

EXERCISE OF OPTIONS

5.1 Partial Exercise. An exercisable Option may be exercised in whole or in part; however, an Option shall not be exercisable with respect to fractional shares and the Committee may require that, by the terms of the Option, a partial exercise be with respect to a minimum number of shares.

5.2 Manner of Exercise. All or a portion of an exercisable Option shall be deemed exercised upon delivery of all of the following to the Secretary of the Company or his office:

(a) A written notice complying with the applicable rules established by the Committee stating that the Option, or a portion thereof, is exercised. The notice shall be signed by the Optionee or other person then entitled to exercise the Option or such portion;

(b) Such representations and documents as the Committee, in its absolute discretion, deems necessary or advisable to effect compliance with all applicable provisions of the Securities Act of 1933, as amended, and any other federal or state securities laws or regulations. The Committee or Board may, in its absolute discretion, also take whatever additional actions it deems appropriate to effect such compliance including, without limitation, placing legends on share certificates and issuing stop-transfer notices to agents and registrars;

(c) In the event that the Option shall be exercised pursuant to Section 10.1 by any person or persons other than the Optionee, appropriate proof of the right of such person or persons to exercise the Option; and

(d) Full cash payment to the Secretary of the Company for the shares with respect to which the Option, or portion thereof, is exercised. However, the Committee may in its discretion or provide in the grant agreement (i) that payment may be made, in whole or in part, through the delivery of shares of Common Stock owned by the Optionee, duly endorsed for transfer to the Company, with a Fair Market Value on the date of delivery not in excess of the aggregate exercise price of the Option or exercised portion thereof and subject to such other limitations as the Committee may

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

impose thereon, (ii) allow payment, in whole or in part, through the surrender of shares of Common Stock then issuable upon exercise of the Option having a Fair Market Value on the date of Option exercise equal to the aggregate exercise price of the Option or exercised portion thereof, (iii) allow payment, in whole or in part, through the delivery of property of any kind which constitutes good and valuable consideration; (iv) allow payment, in whole or in part, through the delivery of a full recourse promissory note bearing interest (at no less than such rate as shall then preclude the imputation of interest under the Code) and payable upon such terms as may be prescribed by the Committee, (v) allow payment through a cashless-broker procedure approved by the Company, or (vi) allow payment through any combination of the consideration provided above. In the case of a promissory note, the Committee may also prescribe the form of such note and the security to be given for such note. The Option may not be exercised, however, by delivery of a promissory note or by a loan from the Company when or where such loan or other extension of credit is prohibited by law.

5.3 Conditions to Issuance of Stock Certificates. The Company shall not be required to issue or deliver any certificate or certificates for shares of stock purchased upon the exercise of any Option or portion thereof prior to fulfillment of all of the following conditions:

(a) The admission of such shares to listing on all stock exchanges on which such class of stock is then listed;

A-6

(b) The completion of any registration or other qualification of such shares under any state or federal law, or under the rulings or regulations of the Securities and Exchange Commission or any other governmental regulatory body which the Committee shall, in its absolute discretion, deem necessary or advisable;

(c) The obtaining of any approval or other clearance from any state or federal governmental agency which the Committee shall, in its absolute discretion, determine to be necessary or advisable;

(d) The lapse of such reasonable period of time following the exercise of the Option as the Committee may establish from time to time for reasons of administrative convenience; and

(e) The receipt by the Company of full payment for such shares, including payment of any applicable withholding tax.

5.4 Rights as Stockholders. The holders of Options shall not be, nor have any of the rights or privileges of, stockholders of the Company in respect of any shares purchasable upon the exercise of any part of an Option unless and until certificates representing such shares have been issued by the Company to such holders.

5.5 Ownership and Transfer Restrictions. The Committee, in its absolute discretion, may impose such restrictions on the ownership and transferability of the shares purchasable upon the exercise of an Option as it deems appropriate. Any such restriction shall be set forth in the respective Stock Option Agreement and may be referred to on the certificates evidencing such shares. The Committee may require the Optionee to give the Company prompt notice of any disposition of shares of Common Stock acquired by exercise of an Incentive Stock Option within (i) two years from the date of granting such Option to such Optionee or (ii) one year after the transfer of such shares to such Optionee. The Committee may direct that the certificates evidencing shares acquired by exercise of an Option

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

refer to such requirement to give prompt notice of disposition.

ARTICLE VI

6.1 Award of Restricted Stock

(i) Select from among the Employees or consultants (including Employees or consultants who have previously received other awards under this Plan) such of them as in its opinion should be awarded Restricted Stock; and

(ii) Determine the terms and conditions applicable to such Restricted Stock, consistent with this Plan, which may include the achievement of Performance Objectives.

(b) Upon the selection of an Employee or consultant to be awarded Restricted Stock, the Committee shall instruct the Secretary of the Company to issue such Restricted Stock and may impose such conditions on the issuance of such Restricted Stock as it deems appropriate.

6.2 Restricted Stock Agreement. Restricted Stock shall be issued only pursuant to a Restricted Stock Agreement, which shall be executed by the selected Employee or consultant and an authorized officer of the Company and which shall contain such terms and conditions as the Committee shall determine, consistent with this Plan.

Upon delivery of the shares of Restricted Stock to the escrow holder, the Restricted Stockholder shall have, unless otherwise provided by the Committee, all the rights of a stockholder with respect to said shares, subject to the restrictions in his Restricted Stock Agreement, including the right to receive all dividends and other distributions paid or made with respect to the shares; provided, however, that in the discretion of the Committee, any extraordinary distributions with respect to the Common Stock shall be subject to the restrictions set forth in Section 6.4.

A-7

6.4 Restriction. All shares of Restricted Stock issued under this Plan (including any shares received by holders thereof with respect to shares of Restricted Stock as a result of stock dividends, stock splits or any other form of recapitalization) shall, in the terms of each individual Restricted Stock Agreement, be subject to such restrictions as the Committee shall provide, which restrictions may include, without limitation, restrictions concerning voting rights and transferability and restrictions based on duration of employment with the Company, Company performance and individual performance; provided, however, that, by action taken after the Restricted Stock is issued, the Committee may, on such terms and conditions as it may determine to be appropriate, remove any or all of the restrictions imposed by the terms of the Restricted Stock Agreement. Restricted Stock may not be sold or encumbered until all restrictions are terminated or expire.

6.5 Escrow. The Secretary of the Company or such other escrow holder as the Committee may appoint shall retain physical custody of each certificate representing Restricted Stock until all of the restrictions imposed under the Restricted Stock Agreement with respect to the shares evidenced by such certificate expire or shall have been removed.

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

6.6 Legend. In order to enforce the restrictions imposed upon shares of Restricted Stock hereunder, the Committee shall cause a legend or legends to be placed on certificates representing all shares of Restricted Stock that are still subject to restrictions under Restricted Stock Agreements, which legend or legends shall make appropriate reference to the conditions imposed thereby.

ARTICLE VII

7.8 Payment. Payment of the amount determined under Section 7.1 or 7.2 above shall be in cash, in Common Stock or a combination of both, as determined by the Committee. MISCELLANEOUS PROVISIONS

10.1 Not Transferable. Except as provided below, Options, Restricted Stock awards, Deferred Stock awards, Performance Awards, Dividend Equivalents or Stock Payments under this Plan may not be sold, pledged, assigned, or transferred in any manner other than by will or the laws of descent and distribution or pursuant to a QDRO, unless and until such rights or awards have been exercised, or the shares underlying such rights or awards have been issued, and all restrictions applicable to such shares have lapsed. No Option, Restricted Stock award, Deferred Stock award, Performance Award, Dividend Equivalent or Stock Payment or interest or right therein shall be liable for the debts, contracts or engagements of the Optionee, Grantee or Restricted Stockholder or his successors in interest or shall be subject to disposition by transfer, alienation, anticipation, pledge, encumbrance, assignment or any other means whether such disposition be voluntary or involuntary or by operation of law by judgment, levy, attachment, garnishment or any other legal or equitable proceedings (including bankruptcy), and any attempted disposition thereof shall be null and void and of no effect, except to the extent that such disposition is permitted by the preceding sentence. An Optionee may, with the consent of the Committee, transfer a Nonqualified Stock Option to such family members and persons as may be permitted by this Committee, subject to such restrictions and limitations, if any, that the Committee, in its discretion, may impose on such transfer.

During the lifetime of the Optionee or Grantee, only he may exercise an Option or other right or award (or any portion thereof) granted to him under the Plan unless it has been disposed of pursuant to a QDRO. After the death of the Optionee or Grantee, any exercisable portion of an Option or other right or award may, prior to the time when such portion becomes unexercisable under the Plan or the applicable Stock Option Agreement or other agreement, be exercised by his personal representative or by any person empowered to do so under the deceased Optionee's or Grantee's will or under the then applicable laws of descent and distribution.

10.2 Amendment, Suspension or Termination of this Plan. This Plan may be wholly or partially amended or otherwise modified, suspended or terminated at any time or from time to time by the Board or the Committee. However, without

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

approval of the Company's stockholders given within twelve months before or after the action by the Committee, no action of the Committee may, except as provided in Section 10.3, increase the limits imposed in Section 2.1 on the maximum number of shares which may be issued under this Plan or reduce the exercise price of an Option, and no action of the Committee may be taken that would otherwise require stockholder approval as a matter of applicable law, regulation or rule. No amendment, suspension or termination of this Plan shall, without the consent of the holder of Options, Restricted Stock awards, Deferred Stock awards, Performance Awards, Dividend Equivalents or Stock Payments, materially

A-10

alter or impair any rights or obligations under any Options, Restricted Stock awards, Deferred Stock awards, Performance Awards, Dividend Equivalents or Stock Payments theretofore granted or awarded, unless the award itself otherwise expressly so provides. No Options, Restricted Stock, Deferred Stock, Performance Awards, Dividend Equivalents or Stock Payments may be granted or awarded during any period of suspension or after termination of this Plan, and in no event may any Incentive Stock Option be granted under this Plan after the first to occur of the following events:

(a) The expiration of ten years from the date the Plan is adopted by the Board; or

(b) The expiration of ten years from the date the Plan is approved by the Company's stockholders under Section 10.4.

10.3 Changes in Common Stock or Assets of the Company; Acquisition or Liquidation of the Company and Other Corporate Events.

(a) Subject to Section 10.3(e), in the event that the Committee determines that any dividend or other distribution (whether in the form of cash, Common Stock, other securities, or other property), recapitalization, reclassification, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase, liquidation, dissolution, or sale, transfer, exchange or other disposition of all or substantially all of the assets of the Company, or exchange of Common Stock or other securities of the Company, issuance of warrants or other rights to purchase Common Stock or other securities of the Company, or other similar corporate transaction or event, in the Committee's sole discretion, affects the Common Stock such that an adjustment is determined by the Committee to be appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan or with respect to an Option, Restricted Stock award, Performance Award, Dividend Equivalent, Deferred Stock award or Stock Payment, then the Committee shall, in such manner as it may deem equitable, adjust any or all of

(i) the number and kind of shares of Common Stock (or other securities or property) with respect to which Options, Performance Awards, Dividend Equivalents or Stock Payments may be granted under the Plan, or which may be granted as Restricted Stock or Deferred Stock (including, but not limited to, adjustments of the limitations in Section 2.1 on the maximum number and kind of shares which may be issued and adjustments of the Award Limit),

(ii) the number and kind of shares of Common Stock (or other securities or property) subject to outstanding Options, Performance Awards, Dividend Equivalents, or Stock Payments, and in the number and kind of shares of outstanding Restricted Stock or Deferred Stock, and

(iii) the grant or exercise price with respect to any Option,

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

Performance Award, Dividend Equivalent or Stock Payment.

(b) Subject to Section 10.3(e), in the event of any corporate transaction or other event described in Section 10.3(a) which results in shares of Common Stock being exchanged for or converted into cash, securities (including securities of another corporation) or other property, the Committee will have the right to terminate this Plan as of the date of the event or transaction, in which case all options, rights and other awards granted under this Plan shall become the right to receive such cash, securities or other property, net of any applicable exercise price.

(c) Subject to Section 10.3(e), in the event of any corporate transaction or other event described in Section 10.3(a) or any unusual or nonrecurring transactions or events affecting the Company, any affiliate of the Company, or the financial statements of the Company or any affiliate, or of changes in applicable laws, regulations, or accounting principles, the Committee in its discretion is hereby authorized to take any one or more of the following actions whenever the Committee determines that such action is appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan or with respect to any option, right or other award under this Plan, to facilitate such transactions or events or to give effect to such changes in laws, regulations or principles:

(i) In its discretion, and on such terms and conditions as it deems appropriate, the Committee may provide, either automatically or upon the Optionee's request, for either the purchase of any such Option,

A-11

Performance Award, Dividend Equivalent, or Stock Payment, or any Restricted Stock or Deferred Stock for an amount of cash equal to the amount that could have been attained upon the exercise of such option, right or award or realization of the Optionee's rights had such option, right or award been currently exercisable or payable or the replacement of such option, right or award with other rights or property selected by the Committee in its sole discretion;

(ii) In its sole and absolute discretion, the Committee may provide, either by the terms of such Option, Performance Award, Dividend Equivalent, or Stock Payment, or Restricted Stock or Deferred Stock or by action taken prior to the occurrence of such transaction or event that it cannot be exercised after such event;

(iii) In its sole and absolute discretion, and on such terms and conditions as it deems appropriate, the Committee may provide, either by the terms of such Option, Performance Award, Dividend Equivalent, or Stock Payment, or Restricted Stock or Deferred Stock or by action taken prior to the occurrence of such transaction or event, that, for a specified period of time prior to such transaction or event, such option, right or award shall be exercisable as to all shares covered thereby, notwithstanding anything to the contrary in (1) Section 4.4 or (2) the provisions of such Option, Performance Award, Dividend Equivalent, or Stock Payment, or Restricted Stock or Deferred Stock;

(iv) In its discretion, and on such terms and conditions as it deems appropriate, the Committee may provide, either by the terms of such Option, Performance Award, Dividend Equivalent, or Stock Payment, or Restricted Stock or Deferred Stock or by action taken prior to the occurrence of such transaction or event, that upon such event, such option, right or award be assumed by the successor corporation, or a parent or subsidiary thereof, or shall be substituted for by similar options, rights or awards covering the stock of the successor corporation, or a parent or subsidiary thereof, with

Edgar Filing: OIL STATES INTERNATIONAL INC - Form DEF 14A

appropriate adjustments as to the number and kind of shares and prices;

(v) In its discretion, and on such terms and conditions as it deems appropriate, the Committee may make adjustments in the number and type of shares of Common Stock (or other securities or property) subject to outstanding Options, Performance Awards, Dividend Equivalents, or Stock Payments, and in the number and kind of outstanding Restricted Stock or Deferred Stock and/or in the terms and conditions of (including the grant or exercise price), and the criteria included in, outstanding options, rights and awards and options, rights and awards which may be granted in the future;

(vi) In its discretion, and on such terms and conditions as it deems appropriate, the Committee may provide either by the terms of a Restricted Stock award or Deferred Stock award or by action taken prior to the occurrence of such event that, for a specified period of time prior to such event, the restrictions imposed under a Restricted Stock Agreement or a Deferred Stock Agreement upon some or all shares of Restricted Stock or Deferred Stock may be terminated; and

(vii) In its discretion, and on such terms and conditions as it deems appropriate, the Committee may make adjustments to the Performance Objectives of any outstanding award.
