Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 14% to \$159,338 for the three months ended March 31, 2001 as compared to \$139,554 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 3,129 barrels of oil, 1,034 barrels of natural gas liquids ("NGLs") and 8,951 mcf of gas were sold, or 5,655 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 3,720 barrels of oil, 1,704 barrels of NGLs and 7,936 mcf of gas were sold, or 6,747 BOEs.

6

708

The average price received per barrel of oil increased \$1.00, or 4%, from \$27.55 for the three months ended March 31, 2000 to \$28.55 for the same period in 2001. The average price received per barrel of NGLs increased \$4.99, or 37%, from \$13.33 for the three months ended March 31, 2000 to \$18.32 for the same period in 2001. The average price received per mcf of gas increased 215% from \$1.81 during the three months ended March 31, 2000 to \$5.70 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

##### Costs and Expenses:

Total costs and expenses decreased to \$81,294 for the three months ended March 31, 2001 as compared to \$90,317 for the same period in 2000, a decrease of \$9,023, or 10%. This decrease was due to declines in production costs and depletion, offset by an increase in general and administrative expenses ("G&A").

Production costs were \$65,449 for the three months ended March 31, 2001 and \$72,738 for the same period in 2000 resulting in a \$7,289 decrease, or 10%. The decrease was primarily due to a decrease in well maintenance costs, offset by higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 14% from \$2,791 for the three months ended March 31, 2000 to \$3,187

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

for the same period in 2001, primarily due to an increase in the accrual for tax preparation fees.

Depletion was \$12,658 for the three months ended March 31, 2001 compared to \$14,788 for the same period in 2000, a decrease of \$2,130, or 14%. This decrease was primarily due to a decline in oil production of 591 barrels for the period ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$53,010 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to increases in oil and gas sales receipts of \$19,933 and reductions in working capital of \$26,184 and production costs of \$7,289, offset by an increase G&A expenses of \$396. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$43,293 to oil and gas receipts, offset by \$23,360 resulting from the decline in production during 2001 as compared to the same period in 2000. The decrease in production costs was primarily due to a decrease in well maintenance

7

709

costs, offset by higher production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to an increase in the accrual for tax preparation fees.

#### Net Cash Used in Investing Activities

For the three months ended March 31, 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$112,671, of which \$1,127 was distributed to the managing general partner and \$111,544 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$69,912, of which \$699 was distributed to the managing general partner and \$69,213 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Exchange Commission review comments. No solicitation will be made using preliminary materials.

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley Private Investment 86, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley Private Investment 86, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Private Investment 86, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted

716

PARKER & PARSLEY PRIVATE INVESTMENT 86, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Private Investment 86, Ltd. (the "Partnership") is a limited partnership organized in 1986 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

717

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$98,274 related to its proved oil and gas properties during 1998.

8

718

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$209,861 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000       |       |
|---|------------|-------|
|   | -----      | ----- |
| Net income (loss) per statements of operations  | \$ 267,800 | \$    |

| Net oil and gas properties    |  | \$    |
|                               |  | ===== |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000       |       |
|--|------------|-------|
|  | -----      | ----- |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 113,494 | \$    |
| Reimbursement of general and administrative expenses   | \$ 10,107  | \$    |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and the Partnership are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

Revenues:

Pioneer U

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) |
|--|------------------------|
|  |                        |
| Net proved reserves at January 1, 1998   | 268,312                |
| Revisions                                | (79,340)               |
| Production                               | (22,245)               |
|  |                        |
| Net proved reserves at December 31, 1998 | 166,727                |
| Revisions                                | 157,207                |
| Production                               | (20,843)               |
|  |                        |
| Net proved reserves at December 31, 1999 | 303,091                |
| Revisions                                | 35,219                 |
| Production                               | (20,938)               |
|  |                        |
| Net proved reserves at December 31, 2000 | 317,372                |
|  |                        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.44 per barrel of NGLs and \$7.89 per mcf of gas, discounted at 10% was approximately \$2,493,000 and undiscounted \$4,970,000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  |
|-----------------------------|-------|
|                             | ----- |
| Plains Marketing, L.P.      | 45%   |
| Mobil Oil Corporation       | 19%   |
| Genesis Crude Oil, L.P.     | -     |
| Western Gas Resources, Inc. | 3%    |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. and Mobil Oil Corporation were \$23,848 and \$10,948, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership affairs. As managing general partner and operator of the Partnership's properties, all

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$4,920,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs

12

722

allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 73% to \$611,774 for 2000 as compared to \$354,462 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 13,860 barrels of oil, 7,078 barrels of natural gas liquids ("NGLs") and 33,570 mcf of gas were sold, or 26,533 barrel of oil equivalents ("BOEs"). In 1999, 13,331 barrels of oil, 7,512 barrels of NGLs and 30,923 mcf of gas were sold, or 25,997 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.11, or 70%, from

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$17.34 in 1999 to \$29.45 in 2000. The average price received per barrel of NGLs increased \$5.74, or 62%, from \$9.27 in 1999 to \$15.01 in 2000. The average price received per mcf of gas increased 68% from \$1.73 in 1999 to \$2.90 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$348,901 as compared to \$308,958 in 1999, an increase of \$39,943, or 13%. The increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$287,563 in 2000 and \$236,129 in 1999, resulting in a \$51,434 increase, or 22%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 73% from \$7,089 in 1999 to \$12,235 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 2% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$10,107 in 2000 and \$3,583 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$49,103 in 2000 as compared to \$65,740 in 1999, representing a decrease of \$16,637, or 25%. This decrease was primarily due to a 34,384 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 18% to \$354,462 from \$301,556 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 13,331 barrels of oil, 7,512 barrels of NGLs and 30,923 mcf of gas were sold, or 25,997 BOEs. In 1998, 14,914 barrels of oil, 7,331 barrels of NGLs and 33,219 mcf of gas were sold, or 27,782 BOEs.

724

The average price received per barrel of oil increased \$4.00, or 30%, from \$13.34 in 1998 to \$17.34 in 1999. The average price received per barrel of NGLs increased \$2.58, or 39%, from \$6.69 in 1998 to \$9.27 in 1999. The average price received per mcf of gas increased 7% from \$1.61 in 1998 to \$1.73 in 1999.

Total costs and expenses decreased in 1999 to \$308,958 as compared to \$469,189 in 1998, a decrease of \$160,231, or 34%. The decrease was primarily due to declines in the impairment of oil and gas properties and depletion, offset by increases in production costs and G&A.

Production costs were \$236,129 in 1999 and \$213,042 in 1998, resulting in a

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$23,087 increase, or 11%. The increase was due to increased workover costs and well maintenance costs incurred to stimulate well production, offset by a decrease in ad valorem taxes.

During this period, G&A increased 18% from \$6,031 in 1998 to \$7,089 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 2% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$3,583 in 1999 and \$4,004 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$98,274 related to its oil and gas properties during 1998.

Depletion was \$65,740 in 1999 compared to \$151,842 in 1998, representing a decrease of \$86,102, or 57%. This decrease was the result of a combination of factors that included an increase in proved reserves of 97,690 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,583 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum Industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$170,228 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$259,542, offset by increases in production costs paid of \$51,434, G&A expenses paid of \$5,146 and working capital of \$32,734. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$242,798 to oil and gas receipts and an increase of \$16,744 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

percentage of the managing general partner's G&A being allocated (limited to 2% of oil and gas revenues) as a result of increased oil and gas revenues.

725

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on various oil and gas properties.

Proceeds from asset dispositions in 1999 of \$701 were from equipment credits received on two wells.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$276,142, of which \$2,761 was distributed to the managing general partner and \$273,381 to the limited partners. In 1999, cash distributions to the partners were \$68,473, of which \$685 was distributed to the managing general partner and \$67,788 to the limited partners.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 87-A CONV., LTD., A TEXAS LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

87-A Conv., Ltd. and supplements the proxy statement/prospectus dated \_\_\_\_\_, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 87-A Conv., Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

SUPPLEMENTAL INFORMATION TABLE

|  |    |

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

administrative expenses.

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 87-A CONV., LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley 87-A Conv., Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 20% to \$103,709 for the three months ended March 31, 2001 as compared to \$86,783 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 1,910 barrels of oil, 1,022 barrels of natural gas liquids ("NGLs") and 5,718 mcf of gas were sold, or 3,885 barrel of oil equivalents ("BOEs"). For the three months

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

ended March 31, 2000, 2,186 barrels of oil, 1,182 barrels of NGLs and 5,425 mcf of gas were sold, or 4,272 BOEs.

6

735

The average price received per barrel of oil increased \$.66, or 2%, from \$27.18 for the three months ended March 31, 2000 to \$27.84 for the same period in 2001. The average price received per barrel of NGLs increased \$3.50, or 23%, from \$15.12 for the three months ended March 31, 2000 to \$18.62 for the same period in 2001. The average price received per mcf of gas increased 215% from \$1.75 during the three months ended March 31, 2000 to \$5.51 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gains on disposition of assets of \$321 and \$784 were due to equipment credits received on one well during the three months ended March 31, 2001 and 2000, respectively.

### Costs and Expenses:

Total costs and expenses increased to \$51,002 for the three months ended March 31, 2001 as compared to \$45,067 for the same period in 2000, an increase of \$5,935, or 13%. This increase was due to increases in depletion, production costs and general and administrative expenses ("G&A").

Production costs were \$38,017 for the three months ended March 31, 2001 and \$35,526 for the same period in 2000 resulting in a \$2,491 increase, or 7%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 20% from \$2,603 for the three months ended March 31, 2000 to \$3,111 for the same period in 2001, primarily due to an increase in the accrual for tax preparation fees.

Depletion was \$9,894 for the three months ended March 31, 2001 compared to \$6,938 for the same period in 2000, an increase of \$2,956, or 43%. This increase was primarily due to a downward revision to one well's proved reserves, offset by a decline in oil production of 276 barrels during the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$16,209 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was primarily attributable to an increase of \$16,962 in oil and gas sales receipts and a reduction in working capital of \$2,246, offset by increases in production costs of \$2,491 and G&A expenses of \$508. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$26,008 to oil and gas receipts, offset by \$9,046

resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to an increase in the accrual for tax preparation fees.

#### Net Cash Provided by Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's principle investing activities included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from asset dispositions of \$637 and \$1,016 received during the three months ended March 31, 2001 and 2000, respectively, were comprised of \$321 and \$784, respectively, received from the salvage of equipment on one fully depleted well and \$316 and \$232, respectively, from equipment salvage on active properties.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$65,670, of which \$657 was distributed to the managing general partner and \$65,013 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$45,111, of which \$451 was distributed to the managing general partner and \$44,660 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

738

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 87-A Conv., Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley 87-A Conv., Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 87-A Conv., Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 87-A CONV., LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 87-A Conv., Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

7

744

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future

8

745

cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$5,726 and \$63,814 related to its proved oil and gas properties during 2000 and 1998, respectively.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$34,055 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000       | 1999      | 1998        |

|---|------------|-----------|-----------|
| Net income per Federal income tax returns | \$ 220,470 | \$ 99,470 | \$ 45,956 |
|   | =====      | =====     | =====     |

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000     | 1999     | 1998     |
|-------------------|----------|----------|----------|
|                   | -----    | -----    | -----    |
| Development costs | \$ 2,560 | \$ 5,634 | \$ 2,338 |
|                   | =====    | =====    | =====    |

Capitalized oil and gas properties consist of the following:

|                               | 2000        | 1999        |
|-------------------------------|-------------|-------------|
|                               | ----        | ----        |
| Proved properties:            |             |             |
| Property acquisition costs    | \$ 126,683  | \$ 126,683  |
| Completed wells and equipment | 2,576,655   | 2,574,578   |
|                               | -----       | -----       |
|                               | 2,703,338   | 2,701,261   |
| Accumulated depletion         | (2,357,166) | (2,326,550) |
|                               | -----       | -----       |
| Net oil and gas properties    | \$ 346,172  | \$ 374,711  |
|                               | =====       | =====       |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000      | 1999      | 1998      |
|--|-----------|-----------|-----------|
|  | -----     | -----     | -----     |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 57,269 | \$ 58,965 | \$ 59,200 |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |          |          |          |
|--|----------|----------|----------|
| Reimbursement of general and administrative expenses | \$ 9,809 | \$ 4,592 | \$ 4,507 |
|--|----------|----------|----------|

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 87-A, Ltd. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|  | Pioneer USA (1) | Partnerships (2) |
|--|-----------------|------------------|
| <b>Revenues:</b>   |                 |                  |
| Proceeds from disposition of depreciable properties                        | 9.09091%        | 90.90909%        |
| All other revenues   | 24.242425%      | 75.757575%       |
| <b>Costs and expenses:</b>   |                 |                  |
| Lease acquisition costs, drilling and completion costs and all other costs | 9.09091%        | 90.90909%        |
| Operating costs, direct costs and general and administrative expenses      | 24.242425%      | 75.757575%       |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 35 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 87-A, Ltd. is 11.80396% and 88.19604%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

10

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
| Net proved reserves at January 1, 1998 | 173,242                | 260,824      |
| Revisions                              | (70,303)               | (79,797)     |
| Production                             | (14,371)               | (24,025)     |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |          |          |
|--|----------|----------|
|  | -----    | -----    |
| Net proved reserves at December 31, 1998 | 88,568   | 157,002  |
| Revisions                                | 121,459  | 218,318  |
| Production                               | (13,578) | (24,503) |
|  | -----    | -----    |
| Net proved reserves at December 31, 1999 | 196,449  | 350,817  |
| Revisions                                | (1,562)  | (40,268) |
| Production                               | (13,096) | (20,355) |
|  | -----    | -----    |
| Net proved reserves at December 31, 2000 | 181,791  | 290,194  |
|  | =====    | =====    |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.38 per barrel of NGLs and \$7.67 per mcf of gas, discounted at 10% was approximately \$1,465,000 and undiscounted was \$2,903,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

| Plains Marketing, L.P.      | 43%   | 40%   | --    |
| Phillips Petroleum Company  | 10%   | --    | --    |
| Genesis Crude Oil, L.P.     | --    | --    | 54%   |
| Western Gas Resources, Inc. | 4%    | 7%    | 29%   |
| NGTS LLC                    | 8%    | --    | --    |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. and Phillips Petroleum Company were \$16,353 and \$3,196, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

749

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$3,856,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 63% to \$380,908 for 2000 as compared to \$234,259 in 1999. The increase in revenues resulted from higher average prices received, offset by a decrease in production. In 2000, 8,407 barrels of oil, 4,689 barrels of natural gas liquids ("NGLs") and 20,355 mcf of gas were sold, or 16,489 barrel of oil equivalents ("BOEs"). In 1999, 8,263 barrels of oil, 5,315 barrels of NGLs and 24,503 mcf of gas were sold, or 17,662 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.40, or 73%, from \$17.06 in 1999 to \$29.46 in 2000. The average price received per barrel of NGLs increased \$6.20, or 63%, from \$9.81 in 1999 to \$16.01 in 2000. The average price received per mcf of gas increased 70% from \$1.68 in 1999 to \$2.86 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$191,926 as compared to \$169,175 in 1999, an increase of \$22,751, or 13%. The increase was primarily due to increases in production costs, impairment of oil and gas properties and general and administrative expenses ("G&A"), offset by a decline in depletion.

Gains on disposition of assets of \$857 and \$1,184 were due to equipment credits received on one well during 2000 and 1999, respectively.

Production costs were \$150,075 in 2000 and \$126,927 in 1999, resulting in a \$23,148 increase, or 18%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 61% from \$6,978 in 1999 to \$11,235 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$9,809 in 2000 and \$4,592 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$5,726 related to its oil and gas properties during 2000.

751

Depletion was \$24,890 in 2000 as compared to \$35,270 in 1999, representing a decrease of \$10,380, or 29%. This decrease was primarily due to an 8,116 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 20% to \$234,259 from \$194,541 in 1998. The increase in revenues resulted from higher average prices received, offset by a decrease in production. In 1999, 8,263 barrels of oil, 5,315 barrels of NGLs and 24,503 mcf of gas were sold, or 17,662 BOEs. In 1998, 9,354 barrels of oil, 5,017 barrels of NGLs and 24,025 mcf of gas were sold, or 18,375 BOEs.

The average price received per barrel of oil increased \$3.84, or 29%, from \$13.22 in 1998 to \$17.06 in 1999. The average price received per barrel of NGLs increased \$3.05, or 45%, from \$6.76 in 1998 to \$9.81 in 1999. The average price received per mcf of gas increased 9% from \$1.54 in 1998 to \$1.68 in 1999.

Total costs and expenses decreased in 1999 to \$169,175 as compared to \$295,804 in 1998, a decrease of \$126,629, or 43%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$126,927 in 1999 and \$143,008 in 1998, resulting in a \$16,081 decrease, or 11%. The decrease was due to declines in well maintenance costs, workover expenses and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 22% from \$5,727 in 1998 to \$6,978 in 1999 primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$4,592 in 1999 and \$4,507 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$63,814 related to its oil and gas properties during 1998.

Depletion was \$35,270 in 1999 compared to \$83,255 in 1998, representing a decrease of \$47,985, or 58%. This decrease was primarily due to an increase in proved reserves of 71,246 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,091 barrels for the period ended December 31, 1999 compared to the same period in 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

752

Liquidity and capital resources

Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$107,462 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$148,262, offset by increases in production costs paid of \$23,148, G&A expenses paid of \$4,257 and working capital of \$13,395. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$165,908 to oil and gas receipts, offset by \$17,646 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and workover and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to upgrades of equipment on active properties.

Proceeds from asset dispositions of \$1,340 and \$1,238 received during 2000 and 1999, respectively, were primarily due to equipment credits received on active properties.

Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$208,425, of which \$2,084 was distributed to the managing general partner and \$206,341 to the limited partners. In 1999, cash distributions to the partners were \$70,098, of which \$701 was distributed to the managing general partner and \$69,397 to the limited partners.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 87-A, LTD., A TEXAS LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED \_\_\_\_\_, 2001

-----

THE DATE OF THIS SUPPLEMENT IS \_\_\_\_\_, 2001

-----

This document contains important information specific to Parker & Parsley 87-A, Ltd. and supplements the proxy statement/prospectus dated \_\_\_\_\_, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 87-A, Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

| Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)   | \$ |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- 
- (a) Stated in thousands.
  - (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
  - (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
  - (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
  - (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
  - (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

The financial information included herein has been prepared by the managing general partner without audit by independent public accountants.

The accompanying notes are an integral part of these financial statements.

792

PARKER & PARSLEY 87-A, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 87-A, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Item 2. Management's Discussion and Analysis of Financial Condition  
and Results of Operations(1)

Results of Operations

Revenues:

The Partnership's oil and gas revenues increased 19% to \$774,832 for the three months ended March 31, 2001 as compared to \$648,941 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by declines in production. For the three months ended March 31, 2001, 14,267 barrels of oil, 7,635 barrels of natural gas liquids ("NGLs") and 42,755 mcf of gas were sold, or 29,028 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 16,334 barrels of oil, 8,851 barrels of NGLs and 40,626 mcf of gas were sold, or 31,956 BOEs.

The average price received per barrel of oil increased \$.66, or 2%, from \$27.18 for the three months ended March 31, 2000 to \$27.84 for the same period in 2001. The average price received per barrel of NGLs increased \$3.50, or 23%, from \$15.12 for the three months ended March 31, 2000 to \$18.62 for the same period in 2001. The average price received per mcf of gas increased 215% from \$1.75 during the three months ended March 31, 2000 to \$5.51 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gains on disposition of assets of \$2,399 and \$5,861 were due to equipment credits received on one well during the three months ended March 31, 2001 and 2000, respectively.

#### Costs and Expenses:

Total costs and expenses increased to \$381,609 for the three months ended March 31, 2001 as compared to \$336,920 for the same period ended March 31, 2000, an increase of \$44,689, or 13%. This increase was due to increases in depletion, production costs and general and administrative expenses ("G&A").

Production costs were \$284,079 for the three months ended March 31, 2001 and \$265,708 for the same period in 2000, resulting in an increase of \$18,371, or 7%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 19% from \$19,468 for the three months ended March 31, 2000 to \$23,245 for the same period in 2001, primarily due to an increase in the accrual for tax preparation fees.

Depletion was \$74,285 for the three months ended March 31, 2001 as compared to \$51,744 for the same period in 2000, an increase of \$22,541, or 44%. The increase was primarily due to a downward revision to one well's proved reserves, offset by a decline in oil production of 2,067 barrels during the three months ended March 31, 2001 as compared to the same period in 2000.

#### Liquidity and Capital Resources

##### Net Cash Provided by Operating Activities:

Net cash provided by operating activities increased \$121,047 during the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$126,127 in oil and gas sales receipts and a reduction in working capital of \$17,068, offset by increases in production costs of \$18,371 and G&A expenses of \$3,777. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$194,581 to oil and gas receipts, offset by \$68,454 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

764

production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to an increase in the accrual for tax preparation fees.

### Net Cash Provided by Investing Activities:

The Partnership's principle investing activities during the three months ended March 31, 2001 and 2000 were related to the upgrades of oil and gas equipment on active properties.

Proceeds from asset dispositions of \$4,757 and \$7,591 received during the three months ended March 31, 2001 and 2000, respectively, were comprised of \$2,399 and \$5,861, respectively, received from the salvage of equipment on one fully depleted well and \$2,358 and \$1,730, respectively, from equipment salvage on active properties.

### Net Cash Used in Financing Activities:

For the three months ended March 31, 2001, cash distributions to the partners were \$490,720, of which \$4,907 was distributed to the managing general partner and \$485,813 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$337,058, of which \$3,371 was distributed to the managing general partner and \$333,687 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

768

PART I

ITEM 1. BUSINESS

Parker & Parsley 87-A, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 28,811 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers. Of the Partnership's total oil and gas revenues for 2000, approximately 43% and 11% was attributable to sales made to Plains Marketing, L.P. and NGTS LLC, respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 96 oil and gas wells. Two wells were dry holes. Six uneconomical wells were plugged and abandoned and 15 oil and gas wells have been sold. At December 31, 2000, 73 wells were producing.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998, and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 28,811 outstanding limited partnership interests held of record by 2,148 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, distributions of \$1,541,726 and \$518,518, respectively, were made to the limited partners.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(a) Including litigation settlement per limited partnership interest of \$29.15 in 1996.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 63% to \$2,845,556 for 2000 as compared to \$1,750,425 in 1999. The increase in revenues resulted from higher average prices received, offset by a decrease in production. In 2000, 62,796 barrels of oil, 35,028 barrels of natural gas liquids ("NGLs") and 152,075 mcf of gas were sold, or 123,170 barrel of oil equivalents ("BOEs"). In 1999, 61,734 barrels of oil, 39,707 barrels of NGLs and 183,099 mcf of gas were sold, or 131,958 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.40, or 73%, from \$17.06 in 1999 to \$29.46 in 2000. The average price received per barrel of NGLs increased \$6.20, or 63%, from \$9.81 in 1999 to \$16.01 in 2000. The average price received per mcf of gas increased 70% from \$1.68 in 1999 to \$2.86 in 2000. The market price received for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gains on disposition of assets of \$6,407 and \$8,848 were due to equipment credits received on one well during 2000 and 1999, respectively.

Total costs and expenses increased in 2000 to \$1,435,888 compared to \$1,264,233 in 1999, an increase of \$171,655, or 14%. The increase resulted from increases in production costs, the impairment of oil and gas properties and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$1,121,487 in 2000 and \$948,362 in 1999, resulting in an increase of \$173,125, or 18%. This increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 63% from \$52,563 in 1999 to \$85,559 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$73,296 in 2000 and \$34,349 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

"Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$42,807 related to its oil and gas properties during 2000.

Depletion was \$186,035 in 2000 as compared to \$263,308 in 1999, representing a decrease of \$77,273, or 29%. This decrease was primarily due to a 45,228 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 20% to \$1,750,425 from \$1,453,492 in 1998. The increase in revenues resulted from higher average prices received, offset by a decrease in production. In 1999, 61,734 barrels of oil, 39,707 barrels of NGLs and 183,099 mcf of gas were sold, or 131,958 BOEs. In 1998, 69,905 barrels of oil, 37,470 barrels of NGLs and 179,494 mcf of gas were sold, or 137,291 BOEs.

The average price received per barrel of oil increased \$3.84, or 29%, from \$13.22 in 1998 to \$17.06 in 1999. The average price received per barrel of NGLs increased \$3.05, or 45%, from \$6.76 in 1998 to \$9.81 in 1999. The average price received per mcf of gas increased 9% from \$1.54 in 1998 to \$1.68 in 1999.

A gain on disposition of assets of \$8,848 was recognized during 1999 from equipment credits received on one fully depleted well. During 1998, a gain on disposition of assets of \$765 was received from the sale of equipment on one saltwater disposal well plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$1,264,233 compared to \$2,210,330 in 1998, a decrease of \$946,097, or 43%. The decrease resulted from declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$948,362 in 1999 and \$1,068,450 in 1998, resulting in a \$120,088 decrease, or 11%. This decrease was primarily attributable to reductions in well maintenance costs, workover expenses and ad valorem taxes, offset by an increase in production taxes due to increased in oil and gas revenues.

During this period, G&A increased, in aggregate, 23% from \$42,787 in 1998 to \$52,563 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$34,349 in 1999 and \$33,674 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$477,501 related to its oil and gas properties during 1998.

Depletion was \$263,308 in 1999 compared to \$621,592 in 1998. This represented a decrease of \$358,284, or 58%. This decrease was the result of a combination of factors that included an increase in proved reserves of 532,499 barrels of oil

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 8,171 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$934,385 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$1,107,108 and a decline in working capital of \$33,398, offset by increases in production costs paid of \$173,125 and G&A expenses paid of \$32,996. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$1,239,482 to oil and gas receipts, offset by \$132,374 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to the upgrades of oil and gas equipment on active properties.

Proceeds from asset dispositions of \$10,011 and \$9,249 received during 2000 and 1999, respectively, were from equipment credits on one well in each year.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$1,557,299, of which \$15,573 was distributed to the managing general partner and \$1,541,726 to the limited

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partners. In 1999, cash distributions to the partners were \$523,756, of which \$5,238 was distributed to the managing general partner and \$518,518 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 87-A, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley 87-A, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 87-A, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

### NOTES TO FINANCIAL STATEMENTS December 31, 2000, 1999 and 1998

#### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 87-A, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$42,807 and \$477,501 related to its proved oil and gas properties during 2000 and 1998, respectively.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$254,091 less than the tax basis at December 31, 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|  | 2000<br>-----         | 1999<br>-----       | 1998<br>-----       |
|--|-----------------------|---------------------|---------------------|
| Net income (loss) per statements of operations   | \$ 1,444,249          | \$ 511,237          | \$ (736,103)        |
| Intangible development costs capitalized for financial reporting purposes and expensed for tax reporting purposes  | --                    | --                  | (6)                 |
| Depletion and depreciation provisions for tax reporting purposes less than amount for financial reporting purposes | 162,602               | 238,819             | 584,799             |
| Impairment of oil and gas properties for financial reporting purposes  | 42,807                | --                  | 477,501             |
| Salvage income   | 1,288                 | --                  | 13,408              |
| Other, net   | (3,728)               | (5,120)             | 6,254               |
|  | -----                 | -----               | -----               |
| Net income per Federal income tax returns  | \$ 1,647,218<br>===== | \$ 744,936<br>===== | \$ 345,853<br>===== |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000<br>-----      | 1999<br>-----      | 1998<br>-----      |
|-------------------|--------------------|--------------------|--------------------|
| Development costs | \$ 19,125<br>===== | \$ 42,098<br>===== | \$ 17,466<br>===== |

Capitalized oil and gas properties consist of the following:

|                               | 2000<br>----- | 1999<br>----- |
|-------------------------------|---------------|---------------|
| Proved properties:            |               |               |
| Property acquisition costs    | \$ 946,545    | \$ 946,545    |
| Completed wells and equipment | 19,252,084    | 19,236,563    |
|                               | -----         | -----         |
|                               | 20,198,629    | 20,183,108    |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000       | 1999       | 1998       |
|--|------------|------------|------------|
|  | -----      | -----      | -----      |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 428,017 | \$ 440,563 | \$ 442,313 |
| Reimbursement of general and administrative expenses   | \$ 73,296  | \$ 34,349  | \$ 33,674  |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. In addition, Pioneer USA, Parker & Parsley 87-A Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|   | Pioneer<br>USA (1) | Partnerships (2) |
|---|--------------------|------------------|
|   | -----              | -----            |
| Revenues:   |                    |                  |
| Proceeds from disposition of depreciable properties                   | 9.09091%           | 90.90909%        |
| All other revenues  | 24.242425%         | 75.757575%       |
| Costs and expenses:   |                    |                  |
| Lease acquisition costs, drilling and completion and all other costs  | 9.09091%           | 90.90909%        |
| Operating costs, direct costs and general and administrative expenses | 24.242425%         | 75.757575%       |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

at the Partnership level and 175 limited partner interests owned by Pioneer USA.

- (2) The allocation between the Partnership and Parker & Parsley 87-A Conv., L.P. is 88.19604% and 11.80396%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

| Production                               | (107,375)              | (179,494)    |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 662,006                | 1,173,526    |
| Revisions                                | 907,814                | 1,631,783    |
| Production                               | (101,441)              | (183,099)    |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 1,468,379              | 2,622,210    |
| Revisions                                | (35,573)               | (336,529)    |
| Production                               | (97,824)               | (152,075)    |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 1,334,982              | 2,133,606    |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.83 per barrel of NGLs and \$7.67 per mcf of gas, discounted at 10% was approximately \$10,856,000 and undiscounted was \$21,368,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  | 1999  | 1998  |
|-----------------------------|-------|-------|-------|
|                             | ----- | ----- | ----- |
| Plains Marketing, L.P.      | 43%   | 39%   | -     |
| Genesis Crude Oil, L.P.     | -     | -     | 54%   |
| Western Gas Resources, Inc. | 3%    | 7%    | 29%   |
| NGTS LLC                    | 11%   | 9%    | 1%    |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. and NGTS LLC were \$122,179 and \$4,335, respectively, which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The general partner of the Partnership is Pioneer USA. Pioneer USA, the managing general partner, has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement,

20

787

the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$28,811,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

21

788

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name<br>----       | Age at<br>December 31,<br>2000<br>---- | Position<br>----- |
|--------------------|--|-------------------|
| Scott D. Sheffield | 48                                     | President         |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                      |    |  |
|----------------------|----|--|
| Timothy L. Dove      | 44 | Executive Vice President, Chief Financial Officer and Director |
| Dennis E. Fagerstone | 51 | Executive Vice President and Director                          |
| Mark L. Withrow      | 53 | Executive Vice President, General Counsel and Director         |
| Danny Kellum         | 46 | Executive Vice President - Domestic Operations and Director    |
| Rich Dealy           | 34 | Vice President and Chief Accounting Officer                    |

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

789

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA, Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 25% of its operating and general and administrative expenses. In return, Pioneer USA is allocated approximately 25% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

(a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 175 limited partner interests at January 1, 2001.

(b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

24

791

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 428,017    | \$ 440,563    | \$ 442,313    |
| Reimbursement of general and administrative expenses   | \$ 73,296     | \$ 34,349     | \$ 33,674     |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31, 2000, 1999 and 1998

Statements of partners' capital for the years ended December 31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000, 1999 and 1998

Notes to financial statements

2. Financial statement schedules.

All financial statement schedules have been omitted since the required information is in the financial statements or notes thereto, or is not applicable nor required.

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or incorporated by reference as part of this Report.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 87-B, CONV., LTD., A TEXAS LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-----

This document contains important information specific to Parker & Parsley 87-B Conv., Ltd. and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 87-B Conv., Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

PARKER & PARSLEY 87-B CONV., LTD.

### SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of March 31, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 87-B CONV., LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 87-B Conv., Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich

### Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues decreased 2% to \$109,348 for the three months ended March 31, 2001 as compared to \$111,198 for the same period in 2000. The decrease in revenues resulted from a decrease in production, offset by higher average prices received. For the three months ended March 31, 2001, 2,438 barrels of oil, 729 barrels of natural gas liquids ("NGLs") and 4,549 mcf of gas were sold, or 3,925 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 2,793 barrels of oil, 1,487 barrels of NGLs and 6,437 mcf of gas were sold, or 5,353 BOEs.

The average price received per barrel of oil decreased slightly from \$27.69 for the three months ended March 31, 2000 to \$27.55 for the same period in 2001. The average price received per barrel of NGLs increased \$3.74, or 25%, from \$15.18

6

804

for the three months ended March 31, 2000 to \$18.92 for the same period in 2001. The average price received per mcf of gas increased 257% from \$1.75 during the three months ended March 31, 2000 to \$6.24 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gain on disposition of assets of \$4,013 was received during the three months ended March 31, 2001 of which \$3,637 was from disposal of equipment on one well plugged and abandoned during the current period and \$376 was from equipment credits received on one fully depleted well. Expenses to plug and abandon this well were \$3,413. For the three months ended March 31, 2000, \$919 was recognized due to credits received from the disposal of oil and gas equipment on one fully depleted well.

##### Costs and Expenses:

Total costs and expenses increased to \$71,228 for the three months ended March 31, 2001 as compared to \$52,653 for the same period in 2000, an increase of \$18,575, or 35%. This increase was due to increases in depletion, production costs and abandoned property costs, offset by a decline in general and administrative expenses ("G&A").

Production costs were \$46,813 for the three months ended March 31, 2001 and \$39,867 for the same period in 2000 resulting in a \$6,946 increase, or 17%. This increase was primarily due to additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A decreased 15% from \$3,336 for the three months ended March 31, 2000 to \$2,843 for the same period in 2001. The decline was due to less G&A being allocated

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(limited to 3% of oil and gas revenues) due to lower oil and gas revenues for the three months ended March 31, 2001 as compared to the same period in 2000, offset by an increase in the accrual for tax preparation fees.

Depletion was \$18,159 for the three months ended March 31, 2001 compared to \$9,450 for the same period in 2000, an increase of \$8,709, or 92%. This increase was primarily due to a downward revision to proved reserves on one well, offset by a decline in oil production of 355 barrels during the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$25,743 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to reductions of \$37,192 in working capital and \$493 in G&A expenses, offset by a decline in oil and gas sales receipts of \$1,583 and increases in production costs of \$6,946 and abandoned property costs of \$3,413. The G&A decline was primarily due to less G&A being allocated (limited to 3% of

7

805

oil and gas revenues) due to less oil and gas revenues during the three months ended March 31, 2001 as compared to the same period in 2000, offset by an increase in the accrual of tax preparation fees. The increase in production costs was primarily due to increased well maintenance costs incurred to stimulate well production. The decline in oil and gas receipts resulted from a decline in production of \$34,583, offset by \$36,166 resulting from higher average prices received. The increase in abandoned property costs was due to the plugging and abandonment of one uneconomical well.

#### Net Cash Provided by (Used in) Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's principle investing activities included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from salvage income of \$376 and \$919 were recognized during the three months ended March 31, 2001 and 2000, respectively, on one fully depleted well.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$85,129, of which \$851 was distributed to the managing general partner and \$84,278 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$50,010, of which \$500 was distributed to the managing general partner and \$49,510 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

(A Texas Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

807

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 87-B Conv., Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley 87-B Conv., Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 87-B Conv., Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 87-B Conv., Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$21,231 and \$48,745 related to its proved oil and gas properties during 2000 and 1998, respectively.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$63,837 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|   | 2000<br>-----       | 1999<br>-----       | 1998<br>-----      |
|---|---------------------|---------------------|--------------------|
| Net income (loss) per statements of operations  | \$ 231,785          | \$ 68,410           | \$ (81,182)        |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 33,614              | 47,165              | 116,988            |
| Impairment of oil and gas properties for financial reporting purposes   | 21,231              | --                  | 48,745             |

| Net oil and gas properties    | \$ 546,634<br>=====      | \$ 601,844<br>=====      |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000     | 1999     | 1998     |
|--|----------|----------|----------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$74,535 | \$73,744 | \$71,600 |
| Reimbursement of general and administrative expenses   | \$12,385 | \$ 5,720 | \$ 5,800 |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 87-B, Ltd. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|  | Pioneer USA (1) | Partnerships (2) |
|--|-----------------|------------------|
| Revenues:  |                 |                  |
| Proceeds from disposition of depreciable properties                        | 9.09091%        | 90.90909%        |
| All other revenues   | 24.242425%      | 75.757575%       |
| Costs and expenses:  |                 |                  |
| Lease acquisition costs, drilling and completion costs and all other costs | 9.09091%        | 90.90909%        |
| Operating costs, direct costs and general and administrative expenses      | 24.242425%      | 75.757575%       |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 10 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 87-B, Ltd. is 19.66971% and 80.33029%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | =====                  | =====        |

10

816

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.26 per barrel of NGLs and \$7.62 per mcf of gas, discounted at 10% was approximately \$1,851,000 and undiscounted was \$3,947,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|-----------------------------|---------------|---------------|---------------|
| Plains Marketing, L.P.      | 49%           | 50%           | -             |
| Genesis Crude Oil, L.P.     | 2%            | 1%            | 57%           |
| Western Gas Resources, Inc. | 4%            | 6%            | 26%           |
| Phillips Petroleum Company  | 16%           | -             | -             |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. and Phillips Petroleum Company were \$23,391 and \$10,443, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

12

818

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$4,919,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### PARKER & PARSLEY 87-B CONV., LTD. (A TEXAS LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

##### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 69% to \$469,502 for 2000 as compared to \$278,326 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 10,352 barrels of oil, 5,663 barrels of natural gas liquids ("NGLs") and 23,682 mcf of gas were sold, or 19,962 barrel of oil equivalents ("BOEs"). In 1999, 10,784 barrels of oil, 5,974 barrels of NGLs and 24,436 mcf of gas were sold, or 20,831 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.60, or 75%, from \$16.71 in 1999 to \$29.31 in 2000. The average price received per barrel of NGLs increased \$7.17, or 74%, from \$9.73 in 1999 to \$16.90 in 2000. The average price received per mcf of gas increased 82% from \$1.64 in 1999 to \$2.98 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$1,005, recognized during 2000, was attributable to credits received from the disposal of oil and gas equipment on one fully depleted well.

Total costs and expenses increased in 2000 to \$243,866 as compared to \$213,033 in 1999, an increase of \$30,833, or 14%. The increase was primarily due to the impairment of oil and gas properties and increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$172,228 in 2000 and \$155,029 in 1999, resulting in a \$17,199 increase, or 11%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production, offset by a decline in workover expenses.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 69% from \$8,214 in 1999 to \$13,873 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$12,385 in 2000 and \$5,720 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$21,231 related to its oil and gas properties during 2000.

Depletion was \$36,534 in 2000 as compared to \$49,790 in 1999, representing a decrease of \$13,256, or 27%. This decrease was primarily due to a 2,194 barrels of oil increase in proved reserves during 2000 as a result of higher commodity

820

prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 18% to \$278,326 from \$236,434 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 10,784 barrels of oil, 5,974 barrels of NGLs and 24,436 mcf of gas were sold, or 20,831 BOEs. In 1998, 12,040 barrels of oil, 5,839 barrels of NGLs and 25,477 mcf of gas were sold, or 22,125 BOEs.

The average price received per barrel of oil increased \$3.54, or 27%, from \$13.17 in 1998 to \$16.71 in 1999. The average price received per barrel of NGLs increased \$2.91, or 43%, from \$6.82 in 1998 to \$9.73 in 1999. The average price received per mcf of gas increased 10% from \$1.49 in 1998 to \$1.64 in 1999.

A gain on disposition of assets of \$3,419 was recognized during 1998 from the sale of oil and gas equipment on one well abandoned in a prior year. Abandoned property costs of \$965 in 1998 were related to this abandonment.

Total costs and expenses decreased in 1999 to \$213,033 as compared to \$324,593 in 1998, a decrease of \$111,560, or 34%. The decrease was primarily due to declines in depletion, the impairment of oil and gas properties and abandoned property costs, offset by increases in production costs and G&A.

Production costs were \$155,029 in 1999 and \$146,967 in 1998, resulting in an \$8,062 increase, or 5%. The increase was due to increases in well maintenance costs and workover costs incurred to stimulate well production, offset by a decline in ad valorem taxes.

During this period, G&A increased 16% from \$7,093 in 1998 to \$8,214 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$5,720 in 1999 and \$5,800 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$48,745 related to its oil and gas properties during 1998.

Depletion was \$49,790 in 1999 compared to \$120,823 in 1998, representing a decrease of \$71,033, or 59%. This decrease was the result of a 92,485 barrels of oil increase in proved reserves during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,256 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum Industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

821

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$123,838 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$193,203, offset by increases in production costs paid of \$17,199, G&A expenses paid of \$5,659 and working capital of \$46,507. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$213,360 to oil and gas receipts, offset by \$20,157 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production, offset by a decline in workover expense. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$1,059 were comprised of \$1,005 received from salvage income on one fully depleted well and \$54 from equipment credits received on one active well. Proceeds of \$1,226 received during 1999 were from equipment credits received on one temporarily abandoned well.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$243,542, of which \$2,435 was distributed to the managing general partner and \$241,107 to the limited

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partners. In 1999, cash distributions to the partners were \$90,776, of which \$908 was distributed to the managing general partner and \$89,868 to the limited partners.

822

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 87-B, Ltd. and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 87-B, Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  
- the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
  
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
  
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
  
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
  
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
  
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

| Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 | (b), (c) |    |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Book Value per \$1,000 Limited Partner Investment:

-- as of March 31, 2001 (c) \$

-- as of December 31, 2000 (c) \$

Going Concern Value per \$1,000 Limited Partner Investment (c), (d) \$

Liquidation Value per \$1,000 Limited Partner Investment (c), (e) \$

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f) \$

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as any value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

(f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

counsel render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 87-B, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues decreased 2% to \$446,606 for the three months ended March 31, 2001 as compared to \$453,944 for the same period in 2000. The decrease in revenues resulted from declines in production, offset by higher average prices received. For the three months ended March 31, 2001, 9,952 barrels of oil, 2,989 barrels of natural gas liquids ("NGLs") and 18,570 mcf of gas were sold, or 16,036 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 11,392 barrels of oil, 6,086 barrels of NGLs and 26,331 mcf of gas were sold, or 21,867 BOEs.

7

832

The average price received per barrel of oil decreased slightly from \$27.69 for the three months ended March 31, 2000 to \$27.55 for the same period in 2001. The average price received per barrel of NGLs increased \$3.74, or 25%, from \$15.18 for the three months ended March 31, 2000 to \$18.92 for the same period in 2001. The average price received per mcf of gas increased 257% from \$1.75 during the three months ended March 31, 2000 to \$6.24 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gain on disposition of assets of \$16,389 was received during the three months ended March 31, 2001 of which \$14,853 was from disposal of equipment on one well plugged and abandoned during the current period and \$1,536 was from equipment credits received on one fully depleted well. Expenses to plug and abandon this well were \$13,935. For the three months ended March 31, 2000, a gain on disposition of assets of \$3,753 was recognized due to credits received from the disposal of oil and gas equipment on one fully depleted well.

##### Costs and Expenses:

Total costs and expenses increased to \$290,946 for the three months ended March 31, 2001 as compared to \$215,010 for the same period in 2000, an increase of \$75,936, or 35%. This increase was due to increases in depletion, production costs and abandoned property costs, offset by a decline in general and administrative expenses ("G&A").

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production costs were \$191,209 for the three months ended March 31, 2001 and \$162,841 for the same period in 2000, resulting in a \$28,368 increase, or 17%. The increase was primarily due to additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A decreased 15% from \$13,618 for the three months ended March 31, 2000 to \$11,612 for the same period in 2001. The decline was due to less G&A being allocated (limited to 3% of oil and gas revenues) due to lower oil and gas revenues for the three months ended March 31, 2001 as compared to the same period in 2000, offset by an increase in the accrual of tax preparation fees.

Depletion was \$74,190 for the three months ended March 31, 2001 as compared to \$38,551 for the same period in 2000, an increase of \$35,639, or 92%. This increase was primarily due to a downward revision to proved reserves on one well, offset by a decline in oil production of 1,440 barrels during the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$113,239 during the three months ended March 31, 2001 from the same period in 2000. The increase was due to reductions of \$159,890 in working capital and \$2,006 in G&A expenses, offset

8

833

by a decline in oil and gas sales receipts of \$6,354 and increases in production costs of \$28,368 and abandoned property costs of \$13,935. The G&A decline was primarily due to less G&A being allocated (limited to 3% of oil and gas revenues) due to lower oil and gas revenues during the three months ended March 31, 2001 as compared to the same period in 2000, offset by an increase in the accrual of tax preparation fees. The increase in production costs was primarily due to additional well maintenance costs incurred to stimulate well production. The decline in oil and gas receipts resulted from declines in production of \$146,692, offset by \$140,338 resulting from higher average prices received. The increase in abandoned property costs was due to the plugging and abandonment of one well during the three months ended March 31, 2001.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principle investing activities for the three months ended March 31, 2001 and 2000 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from disposition of assets of \$1,536 and \$3,753 were recognized during the three months ended March 31, 2001 and 2000, respectively, from equipment credits received on fully depleted wells.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$347,671, of which \$3,477 was distributed to the managing general partner and \$344,194 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$204,239, of which \$2,042 was distributed to the managing general partner and \$202,197 to the limited partners.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

837

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 20,089 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 49% and 16% was attributable to sales made to Plains Marketing, L.P. and Phillips Petroleum Company. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

2

838

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located in Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 64 oil and gas wells. At December 31, 2000, 49 wells were producing; one well was a dry hole from a previous year; five wells have been plugged and abandoned and nine wells were sold.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

839

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 20,089 outstanding limited partnership interests held of record by 1,468 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, distributions of \$984,669 and \$367,015, respectively, were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

|                                      | 2000<br>-----        | 1999<br>-----        | 1998<br>-----         | 1997<br>-----         | 1996<br>-----        |

(a) Including litigation settlement per limited partnership interest of \$29.11 in 1996.

4

840

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 69% to \$1,917,791 for 2000 as compared to \$1,136,700 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 42,280 barrels of oil, 23,121 barrels of natural gas liquids ("NGLs") and 96,740 mcf of gas were sold, or 81,524 barrel of oil equivalents ("BOEs"). In 1999, 44,029 barrels of oil, 24,404 barrels of NGLs and 99,771 mcf of gas were sold, or 85,062 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production to continue in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.60, or 75%, from \$16.71 in 1999 to \$29.31 in 2000. The average price received per barrel of NGLs increased \$7.17, or 74%, from \$9.73 in 1999 to \$16.90 in 2000. The average price received per mcf of gas increased 82% from \$1.64 in 1999 to \$2.98 in 2000. The market price received for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$4,102, recognized during 2000, was attributable to credits received from the disposal of oil and gas equipment on one fully depleted well.

Total costs and expenses increased in 2000 to \$997,051 as compared to \$870,434

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in 1999, an increase of \$126,617, or 15%. The increase was primarily due to the impairment of oil and gas properties and increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$703,352 in 2000 and \$633,091 in 1999, resulting in an increase of \$70,261, or 11%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate production, offset by a decline in workover expenses.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 69% from \$34,237 in 1999 to \$57,746 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$50,579 in 2000 and \$23,361 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated

5

841

to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$86,674 related to its oil and gas properties during 2000.

Depletion was \$149,279 in 2000 compared to \$203,106 in 1999, representing a decrease of \$53,827, or 27%. The decrease was primarily due to an 8,836 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 18% to \$1,136,700 from \$965,599 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 44,029 barrels of oil, 24,404 barrels of NGLs and 99,771 mcf of gas were sold, or 85,062 BOEs. In 1998, 49,182 barrels of oil, 23,854 barrels of NGLs and 104,072 mcf of gas were sold, or 90,381 BOEs.

The average price received per barrel of oil increased \$3.54, or 27%, from \$13.17 in 1998 to \$16.71 in 1999. The average price received per barrel of NGLs increased \$2.91, or 43%, from \$6.82 in 1998 to \$9.73 in 1999. The average price received per mcf of gas increased 10% from \$1.49 in 1998 to \$1.64 in 1999.

A gain on disposition of assets of \$13,965 was received during 1998 from the sale of oil and gas equipment on one well abandoned in a prior year. Abandoned property costs of \$3,943 were incurred in 1998. These costs were attributable to the plugging and abandonment of one uneconomical well in a prior year.

Total costs and expenses decreased in 1999 to \$870,434 as compared to \$1,326,204

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in 1998, a decrease of \$455,770, or 34%. The decrease was due to declines in depletion, the impairment of oil and gas properties and abandoned property costs, offset by increases in production costs and G&A.

Production costs were \$633,091 in 1999 and \$600,702 in 1998, resulting in a \$32,389 increase, or 5%. The increase was due to increases in well maintenance costs and workover costs incurred to stimulate well production, offset by a decline in ad valorem taxes.

During this period, G&A increased 18% from \$28,968 in 1998 to \$34,237 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$23,361 in 1999 and \$23,688 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$199,037 related to its oil and gas

6

842

properties during 1998.

Depletion was \$203,106 in 1999 compared to \$493,554 in 1998. This represented a decrease of \$290,448, or 59%. The decrease was the result of a combination of factors that included an increase in proved reserves of 377,754 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 5,153 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$569,152 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$789,348, offset by increases in production costs paid of \$70,261, G&A expenses paid of \$23,509 and working capital of \$126,426. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$871,310 to oil and gas receipts,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

offset by \$81,962 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production, offset by a decline in workover expenses. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$4,326 and \$5,007 were received during 2000 and 1999, respectively. The proceeds of \$4,326 were due to \$4,102 salvage income on one fully depleted well

7

843

and the remaining \$224 on equipment credits received on an active well. The proceeds of \$5,007 were due to equipment credits received on one temporarily abandoned well.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$994,615, of which \$9,946 was distributed to the managing general partner and \$984,669 to the limited partners. In 1999, cash distributions to the partners were \$370,722, of which \$3,707 was distributed to the managing general partner and \$367,015 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 87-B, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley 87-B, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 87-B, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 87-B, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the

15

851

respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$86,674 and \$199,037 related to its proved oil and gas properties during 2000 and 1998, respectively.

### NOTE 4. INCOME TAXES

853

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 304,400    | \$ 301,167    | \$ 292,411    |
| Reimbursement of general and administrative expenses   | \$ 50,579     | \$ 23,361     | \$ 23,688     |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. In addition, Pioneer USA, Parker & Parsley 87-B Conv., Ltd. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

| Pioneer<br>USA (1) | Partnerships (2) |
|--------------------|------------------|
| -----              | -----            |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |            |            |
|--|------------|------------|
| Revenues:  |            |            |
| Proceeds from disposition of depreciable properties                        | 9.09091%   | 90.90909%  |
| All other revenues   | 24.242425% | 75.757575% |
| Costs and expenses:  |            |            |
| Lease acquisition costs, drilling and completion costs and all other costs | 9.09091%   | 90.90909%  |
| Operating costs, direct costs and general and administrative expenses      | 24.242425% | 75.757575% |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 45 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 87-B Conv., Ltd. is 80.33029% and 19.66971%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

| Revisions                                | (314,311)              | (287,194)    |
| Production                               | (73,036)               | (104,072)    |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 554,208                | 900,007      |
| Revisions                                | 633,879                | 1,113,934    |
| Production                               | (68,433)               | (99,771)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 1,119,654              | 1,914,170    |
| Revisions                                | (38,404)               | (311,039)    |
| Production                               | (65,401)               | (96,740)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 1,015,849              | 1,506,391    |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.26 per barrel of NGLs and \$7.62 per mcf of gas, discounted at 10% was approximately \$7,561,000 and undiscounted was \$16,119,000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000 | 1999 | 1998 |
|-----------------------------|------|------|------|
|                             | ---- | ---- | ---- |
| Plains Marketing, L.P.      | 49%  | 50%  | -    |
| Genesis Crude Oil, L.P.     | 2%   | -    | 57%  |
| Western Gas Resources, Inc. | 4%   | 6%   | 26%  |
| Phillips Petroleum Company  | 16%  | 9%   | 8%   |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. and Phillips Petroleum Company were \$95,526 and \$42,656, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1%

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

20

856

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$20,089,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

21

857

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name<br>----         | Age at<br>December 31,<br>2000<br>---- | Position<br>-----   |
|----------------------|--|---|
| Scott D. Sheffield   | 48                                     | President   |
| Timothy L. Dove      | 44                                     | Executive Vice President, Chief<br>Financial Officer and Director |
| Dennis E. Fagerstone | 51                                     | Executive Vice President and Director                             |
| Mark L. Withrow      | 53                                     | Executive Vice President, General<br>Counsel and Director         |
| Danny Kellum         | 46                                     | Executive Vice President - Domestic<br>Operations and Director    |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Rich Dealy

34

Vice President and Chief Accounting  
Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

858

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

23

859

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 25% of its operating and general and administrative expenses. In return, Pioneer USA is allocated approximately 25% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 45 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>---- | 1999<br>---- | 1998<br>---- |
|--|--------------|--------------|--------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$304,400    | \$ 301,167   | \$292,411    |
| Reimbursement of general and administrative expenses   | \$ 50,579    | \$ 23,361    | \$ 23,688    |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley Producing Properties 87-A, Ltd. and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Producing Properties 87-A, Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

31, 2001 and as of December 31, 2000

- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
  
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
  
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
  
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
  
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
  
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

### SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners (a)

Aggregate Historical Limited Partner Distributions through July 31, 2001 (a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA (a), (b)

Merger Value per \$1,000 Limited Partner Investment (b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 (b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of March 31, 2001 (c)

-- as of December 31, 2000 (c)

Going Concern Value per \$1,000 Limited Partner Investment (c), (d)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Liquidation Value per \$1,000 Limited Partner Investment (c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (f)

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Not applicable. Since this partnership purchased producing properties, there were no intangible drilling and development costs nor any related write-off for tax purposes.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY PRODUCING PROPERTIES 87-A, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Note 1. Organization and nature of operations

Parker & Parsley Producing Properties 87-A, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas.

The Partnership engages in oil and gas production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 5% to \$383,411 for the three months ended March 31, 2001 as compared to \$366,869 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decline in production. For the three months ended March 31, 2001, 11,080 barrels of oil, 1,780 barrels of natural gas liquids ("NGLs") and 11,750 mcf of gas were sold, or 14,818 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 11,876 barrels of oil, 1,997 barrels of NGLs and 9,135 mcf of gas were sold, or 15,396 BOEs.

The average price received per barrel of oil increased slightly from \$27.47 for the three months ended March 31, 2000 to \$27.48 for the same period in 2001. The average price received per barrel of NGLs increased \$1.44, or 12%, from \$11.93 for the three months ended March 31, 2000 to \$13.37 for the same period in 2001. The average price received per mcf of gas increased 155% from \$1.84 during the three months ended March 31, 2000 to \$4.69 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Gains on disposition of assets of \$27,320 and \$15,629 were recognized during the three months ended March 31, 2001 and 2000, respectively. The gain recognized during 2001 was due to \$25,956 from equipment credits on one well plugged and abandoned in the current period and \$1,364 was due to salvage income from a well abandoned during 2000. The gain recognized during 2000 was comprised of \$10,858 from equipment credits on one well plugged and abandoned in the current period and \$4,771 salvage income on a well plugged and abandoned during 1999.

### Costs and Expenses:

Total costs and expenses increased to \$209,110 for the three months ended March 31, 2001 as compared to \$201,099 for the same period in 2000, an increase of \$8,011, or 4%. This increase was the result of higher production costs and general and administrative expenses ("G&A"), offset by declines in depletion and abandoned property costs.

Production costs were \$170,185 for the three months ended March 31, 2001 and \$159,161 for the same period in 2000, resulting in an \$11,024 increase, or 7%. This increase was primarily due to additional well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 5% from \$11,006 for the three months ended March 31, 2000 to \$11,502 for the same period in 2001, primarily due to an increase in the accrual for tax preparation fees.

Depletion was \$15,152 for the three months ended March 31, 2001 as compared to \$18,149 for the same period in 2000, a decrease of \$2,997, or 17%. This decrease was primarily due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121") during the fourth quarter of 2000.

Abandoned property costs of \$12,271 and \$12,783 were incurred on the abandonment of one well during each period ended March 31, 2001 and 2000, respectively.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$113,848 during the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$17,102 in oil and gas sales receipts and reductions in working capital of \$107,754 and abandoned property costs of \$512, offset by increases in production costs of \$11,024 and G&A expenses of \$496. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$29,603 to oil and gas receipts, offset by \$12,501 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

revenues) as a result of increased oil and gas revenues.

### Net Cash Provided by Investing Activities

Proceeds from disposition of assets of \$11,517 and \$18,129 were recognized during the three months ended March 31, 2001 and 2000, respectively. The proceeds recognized during both periods were from equipment credits on wells plugged and abandoned.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$265,310, of which \$2,653 was distributed to the managing general partner and \$262,657 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$134,767, of which \$1,348 was distributed to the managing general partner and \$133,419 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

879

PART I

ITEM 1. BUSINESS

Parker & Parsley Producing Properties 87-A, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 24,426 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 59%, 15% and 11% were attributable to sales made to Plains Marketing, L.P., Phillips Petroleum Company and TEPPCO Crude Oil LLC, respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and

2

880

ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

to landowner royalties, overriding royalties and other oil and gas leasehold interests.

The Partnership completed seven purchases of producing properties. These acquisitions involved the purchase of working interests in 187 properties of which 98 uneconomical oil and gas wells were plugged and abandoned and seven wells were sold. The Partnership also participated in the drilling of two oil and gas wells during 1988 which were completed as producers. During 1997, the Partnership participated in the recompletion of one well in which Pioneer USA acquired the deep rights. The Partnership already owned the shallow rights of the well bore. At December 31, 2000, the Partnership had 85 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

881

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 24,426 outstanding limited partnership interests held of record by 1,104 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, distributions of \$618,681 and \$223,952, respectively, were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

4

882

2000 compared to 1999

The Partnership's oil and gas revenues increased 76% to \$1,514,918 for 2000 as compared to \$860,305 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 43,390 barrels of oil, 10,266 barrels of natural gas liquids ("NGLs") and 45,872 mcf of gas were sold, or 61,301 barrel of oil equivalents ("BOEs"). In 1999, 41,606

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

barrels of oil, 11,495 barrels of NGLs and 53,145 mcf of gas were sold, or 61,959 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.54, or 75%, from \$16.80 in 1999 to \$29.34 in 2000. The average price received per barrel of NGLs increased \$4.80, or 66%, from \$7.32 in 1999 to \$12.12 in 2000. The average price received per mcf of gas increased 75% from \$1.46 in 1999 to \$2.56 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$37,944 recognized during 2000 resulted from \$26,860 in salvage income received on a fully depleted well and wells plugged and abandoned in prior years, in addition to an \$11,084 gain recognized from the abandonment of three wells during the current year. Gain on disposition of assets of \$25,173 for 1999 resulted from \$17,629 in salvage income received on the abandonment of two oil and gas wells during 1999, in addition to \$7,544 salvage income received on fully depleted wells and wells plugged and abandoned in prior years.

Total costs and expenses increased in 2000 to \$967,456 as compared to \$760,971 in 1999, an increase of \$206,485, or 27%. The increase was due to higher production costs, general and administrative expenses ("G&A"), the impairment of oil and gas properties and abandoned property costs, offset by a decline in depletion.

Production costs were \$765,021 in 2000 and \$555,988 in 1999, resulting in an increase of \$209,033, or 38%. The increase was primarily due to additional workover costs and well maintenance costs incurred to stimulate production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 76%, from \$25,809 in 1999 to \$45,448 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$29,711 in 2000 and \$1,550 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized non-cash charges of \$59,777 and \$43,412 related to its oil and gas properties during 2000 and 1999, respectively.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Depletion was \$69,296 in 2000 as compared to \$109,034 in 1999, representing a decrease of \$39,738, or 36%. This decrease was primarily due to a 119,706 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

Abandoned property costs of \$27,914 and \$26,728 were incurred on the abandonment of several properties in 2000 and 1999, respectively.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 7% to \$860,305 from \$807,421 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 41,606 barrels of oil, 11,495 barrels of NGLs and 53,145 mcf of gas were sold, or 61,959 BOEs. In 1998, 51,039 barrels of oil, 13,328 barrels of NGLs and 56,240 mcf of gas were sold, or 73,740 BOEs.

The average price received per barrel of oil increased \$3.76, or 29%, from \$13.04 in 1998 to \$16.80 in 1999. The average price received per barrel of NGLs increased \$1.86, or 34%, from \$5.46 in 1998 to \$7.32 in 1999. The average price received per mcf of gas increased 19% from \$1.23 in 1998 to \$1.46 in 1999.

The \$25,173 gain on disposition of assets for 1999 resulted from \$17,629 in salvage income received on the abandonment of two oil and gas wells during 1999, in addition to \$7,544 salvage income received on fully depleted wells and wells plugged and abandoned in prior years. During 1998, the \$24,040 gain on disposition of assets resulted from \$29,099 in salvage income received during 1998 on properties that were plugged and abandoned in prior years, offset by a \$5,059 loss on the abandonment of two oil and gas wells and one saltwater disposal well.

Total costs and expenses decreased in 1999 to \$760,971 as compared to \$1,202,296 in 1998, a decrease of \$441,325, or 37%. The decrease was due to declines in depletion, production costs and abandoned property costs, offset by increases in the impairment of oil and gas properties and G&A.

Production costs were \$555,988 in 1999 and \$682,634 in 1998, resulting in a \$126,646 decrease, or 19%. The decrease was due to reductions in well maintenance costs and ad valorem taxes, offset by an increase in workover costs incurred to stimulate production.

During this period, G&A increased 7%, from \$24,223 in 1998 to \$25,809 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and

gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$1,550 in 1999 and \$10,723 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized non-cash SFAS 121 charges of \$43,412 and \$37,388 related to its oil and gas properties during 1999 and 1998, respectively.

Depletion was \$109,034 in 1999 compared to \$383,398 in 1998, representing a decrease of \$274,364, or 72%. This decrease was the result of an increase in proved reserves of 306,417 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

a decline in oil production of 9,433 barrels for the period ended December 31, 1999 compared to the same period in 1998.

Abandoned property costs of \$26,728 and \$74,653 were incurred on the abandonment of several properties in 1999 and 1998, respectively.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$389,055 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$660,529, offset by increases in production costs paid of \$209,033, G&A expenses paid of \$19,639, abandoned property costs paid of \$1,186 and working capital of \$41,616. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$641,727 to oil and gas receipts and an increase of \$18,802 resulting from an increase in oil production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

7

885

#### Net Cash Provided by Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to the addition of oil and gas equipment on active properties.

Proceeds from disposition of assets of \$57,999 for 2000 resulted from \$36,906 salvage income on a fully depleted well and wells abandoned in a prior year, \$15,711 salvage income received on two wells plugged and abandoned in 2000 and \$5,382 from equipment credits on one active well. Proceeds from disposition of assets of \$21,887 for 1999 resulted from \$7,583 in salvage income received on one well plugged and abandoned during 1999, in addition to \$7,544 salvage income primarily received on fully depleted wells and \$6,760 from equipment credits on one active well.

#### Net Cash Used in Financing Activities

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

For 2000, cash distributions to the partners were \$624,930, of which \$6,249 was distributed to the managing general partner and \$618,681 to the limited partners. In 1999, cash distributions to the partners were \$226,214, of which \$2,262 was distributed to the managing general partner and \$223,952 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley Producing Properties 87-A, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley Producing Properties 87-A, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Producing Properties 87-A, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY PRODUCING PROPERTIES 87-A, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Parker & Parsley Producing Properties 87-A, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income (loss) of the Partnership is included in the individual Federal income tax returns of the

15

893

respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of the cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$59,777, \$43,412 and \$37,388 related to its proved oil and gas properties during 2000, 1999 and 1998, respectively.

16

894

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$1,521,385 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income (loss) per Federal income tax returns for the years ended December 31:

| 2000 | 1999 | 1998 |

|                               | (5,019,550) | (4,958,910)  |
|                               | -----       | -----        |
| Net oil and gas properties    | \$ 681,487  | \$ 815,653   |
|                               | =====       | =====        |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 268,224    | \$ 254,244    | \$ 292,539    |
| Reimbursement of general and administrative expenses   | \$ 29,711     | \$ 1,550      | \$ 10,723     |

17

895

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees Producing Properties 87-A ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|   | Pioneer USA (1)<br>----- | Partnership<br>----- |
|---|--------------------------|----------------------|
| Revenues:   |                          |                      |
| Revenues from oil and gas production, proceeds from sales of producing properties and all other revenues: |                          |                      |
| Before payout (2)   | 4.040405%                | 95.959595%           |
| After payout  | 19.191920%               | 80.808080%           |
| Costs and expenses:   |                          |                      |
| Property acquisition costs, operating costs, general and administrative expenses and other costs:         |                          |                      |
| Before payout (2)   | 4.040405%                | 95.959595%           |
| After payout  | 19.191920%               | 80.808080%           |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 86 limited partner interests owned by Pioneer USA.

(2) The Partnership has not reached payout.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
|  | -----                  | -----        |

| Revisions                                | 461,643                | 633,460      |
| Production                               | (53,101)               | (53,145)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 761,123                | 1,134,947    |
| Revisions                                | 6,756                  | (376,058)    |
| Production                               | (53,656)               | (45,872)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 714,223                | 713,017      |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.58 per barrel of NGLs and \$7.60 per mcf of gas, discounted at 10% was approximately \$4,683,000 and undiscounted was \$9,322,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

#### Disclosures about Oil & Gas Producing Activities

##### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

2000 1999 1998

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                            | ----- | ----- | ----- |
|----------------------------|-------|-------|-------|
| Plains Marketing, L.P.     | 59%   | 60%   | -     |
| Phillips Petroleum Company | 15%   | 14%   | 16%   |
| TEPPCO Crude Oil LLC       | 11%   | -     | -     |
| Genesis Crude Oil, L.P.    | -     | -     | 66%   |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., Phillips Petroleum Company and TEPPCO Crude Oil LLC were \$78,270, \$54,144 and \$29,228, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership

20

898

affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$12,213,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name<br>-----        | Age at<br>December 31,<br>2000<br>----- | Position<br>-----   |
|----------------------|---|---|
| Scott D. Sheffield   | 48                                      | President   |
| Timothy L. Dove      | 44                                      | Executive Vice President, Chief<br>Financial Officer and Director |
| Dennis E. Fagerstone | 51                                      | Executive Vice President and Director                             |
| Mark L. Withrow      | 53                                      | Executive Vice President, General<br>Counsel and Director         |
| Danny Kellum         | 46                                      | Executive Vice President - Domestic<br>Operations and Director    |
| Rich Dealy           | 34                                      | Vice President and Chief Accounting<br>Officer                    |

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the limited partnership agreement, Pioneer USA pays 1% of the Program's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, Pioneer USA is allocated 1% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 86 limited partnership interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000      | 1999       | 1998      |
|--|-----------|------------|-----------|
|  | -----     | -----      | -----     |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$268,224 | \$ 254,244 | \$292,539 |
| Reimbursement of general and administrative expenses   | \$ 29,711 | \$ 1,550   | \$ 10,723 |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

PROXY STATEMENT/PROSPECTUS DATED \_\_\_\_\_, 2001

-----  
THE DATE OF THIS SUPPLEMENT IS \_\_\_\_\_, 2001  
-----

This document contains important information specific to Parker & Parsley Producing Properties 87-B, Ltd. and supplements the proxy statement/prospectus dated \_\_\_\_\_, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Producing Properties 87-B, Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

operations, for the three months ended March 31, 2001

- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

PARKER & PARSLEY PRODUCING PROPERTIES 87-B, LTD.

SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of March 31, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Not applicable. Since this partnership purchased producing properties, there were no intangible drilling and development costs nor any related write-off for tax purposes.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

## NOTES TO FINANCIAL STATEMENTS

March 31, 2001

(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley Producing Properties 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas.

The Partnership engages in oil and gas production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

#### Revenues:

The Partnership's oil and gas revenues decreased 10% to \$238,043 for the three months ended March 31, 2001 as compared to \$263,792 for the same period in 2000. The decrease in revenues resulted from a decline in production, offset by higher average prices received. For the three months ended March 31, 2001, 5,392 barrels of oil, 1,750 barrels of natural gas liquids ("NGLs") and 9,834 mcf of gas were sold, or 8,781 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 7,007 barrels of oil, 3,011 barrels of NGLs and 14,555 mcf of gas were sold, or 12,444 BOEs. Of the decrease, 1,646 BOE's are attributable

to the fact that on April 1, 2000 the Partnership's revenue and operating expense allocation reverted to 80.808081% from 95.959595% pursuant to the Program Agreement governing the Partnership which provides for a reversionary interest of 80.080801% once cumulative distributions equal initial partner's capital ("Reversionary Interest").

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The average price received per barrel of oil decreased \$.40, or 1%, from \$27.54 for the three months ended March 31, 2000 to \$27.14 for the same period in 2001. The average price received per barrel of NGLs increased \$4.14, or 28%, from \$14.93 for the three months ended March 31, 2000 to \$19.07 for the same period in 2001. The average price received per mcf of gas increased 233% from \$1.78 during the three months ended March 31, 2000 to \$5.93 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gain on disposition of assets of \$8,294 was recognized during the three months ended March 31, 2000. The gain recognized was due to equipment credits received on fully depleted wells.

### Costs and Expenses:

Total costs and expenses decreased to \$104,202 for the three months ended March 31, 2001 as compared to \$128,076 for the same period in 2000, a decrease of \$23,874, or 19%. This decrease was due to declines in production costs, depletion and general and administrative expenses ("G&A").

Production costs were \$87,509 for the three months ended March 31, 2001 and \$109,436 for the same period in 2000 resulting in a \$21,927 decrease, or 20%. Lease operating costs and production taxes declined 15% which were attributable to the Revisionary Interest change and production costs declined 5% resulting from lower well maintenance costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A decreased 10% from \$7,914 for the three months ended March 31, 2000 to \$7,141 for the same period in 2001, primarily due to the Revisionary Interest change as noted above.

Depletion was \$9,552 for the three months ended March 31, 2001 as compared to \$10,726 for the same period in 2000, a decrease of \$1,174, or 11%. This decrease was primarily due to a decline in oil production of 1,615 barrels for the period ended March 31, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$68,587 during the three months ended March 31, 2001 from the same period in 2000. The increase was due to reductions in production costs of \$21,927, G&A expenses of \$773 and working capital of \$71,527, offset by a decrease in oil and gas sales receipts of \$25,640. The decline in production costs was primarily due to the Reversionary

Interest change and lower well maintenance. The decrease in oil and gas sales receipts resulted in \$95,880 from the decline in production in 2001, offset by the increase in commodity prices during 2001 which contributed an additional \$70,240 to oil and gas receipts.

#### Net Cash Provided by (Used in) Investing Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's principal investing activities during the three months ended March 31, 2001 were related to expenditures for upgrades of oil and gas equipment on active properties.

Proceeds from disposition of assets of \$13,944 were recognized during the three months ended March 31, 2000. The proceeds recognized were primarily from equipment credits on fully depleted wells.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$169,535, of which \$1,695 was distributed to the managing general partner and \$167,840 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$114,082, of which \$1,141 was distributed to the managing general partner and \$112,941 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

-----

- (1) "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

921

PART I

ITEM 1. BUSINESS

Parker & Parsley Producing Properties 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the state of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 12,191 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 32%, 22% and 20% were attributable to sales made to Plains Marketing, L.P., TEPPCO Crude Oil LLC and Phillips Petroleum Company, respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that

2

922

its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

to landowner royalties, overriding royalties and other oil and gas leasehold interests.

The Partnership completed seven purchases of producing properties. These acquisitions involved the purchase of working interests in 54 properties. The Partnership also participated in the drilling of two oil and gas wells during 1988 which were completed as producers. Additionally, the Partnership purchased 15 overriding royalty interests effective January 1, 1990 and two additional overriding royalty interests during 1991. Twenty-two uneconomical wells have been abandoned. At December 31, 2000, the Partnership had 34 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

923

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 12,191 outstanding limited partnership interests held of record by 550 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$586,016 and \$170,405, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

4

924

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 57% to \$982,604 for 2000 as compared to \$625,861 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 22,713 barrels of oil, 10,402 barrels of natural gas liquids ("NGLs") and 49,380 mcf of gas were sold, or 41,345 barrel of oil equivalents ("BOEs"). In 1999, 24,976 barrels of oil, 10,794 barrels of NGLs and 48,774 mcf of gas were sold, or 43,899 BOEs. Of the decrease, 5,393 BOEs are attributable to the fact that on April 1, 2000, the Partnership's revenue and operating expense allocation reverted to 80.808081% from 95.959595% pursuant to the Program Agreement governing the Partnership which provides for a reversionary interest of 80.808081% once cumulative distributions equal initial partner's capital ("Reversionary Interest"). This is offset by a production increase of 2,839 BOEs. Due to the decline characteristics of the Partnership's oil and gas

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$11.92, or 68%, from \$17.44 in 1999 to \$29.36 in 2000. The average price received per barrel of NGLs increased \$6.36, or 62%, from \$10.32 in 1999 to \$16.68 in 2000. The average price received per mcf of gas increased 78% from \$1.62 in 1999 to \$2.88 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gains on disposition of assets of \$8,294 and \$11,482 were recognized in 2000 and 1999, respectively. The gain from 2000 was from equipment salvage on one well abandoned in a prior year. The gain from 1999 was from equipment salvage of \$12,955 on one well plugged and abandoned in a prior year, offset by a \$1,473 loss on the write-off of basis on one well plugged and abandoned during 1999.

Total costs and expenses decreased in 2000 to \$434,793 as compared to \$477,552 in 1999, a decrease of \$42,759, or 9%. The decrease was primarily attributable to declines in depletion, production costs and abandoned property costs, offset by an increase in general and administrative expenses ("G&A").

Production costs were \$347,938 in 2000 and \$364,187 in 1999, resulting in a decrease of \$16,249, or 4%. Lease operating costs and production taxes declined 12% which was attributable to the Reversionary Interest change, offset by an 8% increase in production costs resulting from high production taxes due to higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 79%, from \$18,776 in 1999 to

5

925

\$33,521 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$27,424 in 2000 and \$8,400 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$53,334 in 2000 as compared to \$79,975 in 1999, a decrease of \$26,641, or 33%. This decrease was primarily due to a 51,092 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

Abandoned property costs of \$14,614 incurred in 1999 were related to the temporary abandonment of one well during 1999 and two wells plugged and abandoned in prior years.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 18% to \$625,861 from \$532,606 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 24,976 barrels of oil,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

10,794 barrels of NGLs and 48,774 mcf of gas were sold, or 43,899 BOEs. In 1998, 29,481 barrels of oil, 11,315 barrels of NGLs and 50,220 mcf of gas were sold, or 49,166 BOEs.

The average price received per barrel of oil increased \$4.39, or 34%, from \$13.05 in 1998 to \$17.44 in 1999. The average price received per barrel of NGLs increased \$3.74, or 57%, from \$6.58 in 1998 to \$10.32 in 1999. The average price received per mcf of gas increased 11% from \$1.46 in 1998 to \$1.62 in 1999.

Gain on disposition of assets of \$11,482 was recognized in 1999 from equipment salvage of \$12,955 on one well plugged and abandoned in a prior year, offset by a \$1,473 loss on the write-off of basis on one well plugged and abandoned during 1999. In 1998, \$4,248 gain on disposition of assets was recognized from proceeds received from equipment salvage on wells plugged in prior years.

Total costs and expenses decreased in 1999 to \$477,552 as compared to \$659,670 in 1998, a decrease of \$182,118, or 28%. The decrease was primarily attributable to declines in depletion, the impairment of oil and gas properties, production costs and abandoned property costs, offset by an increase in G&A.

Production costs were \$364,187 in 1999 and \$385,648 in 1998, resulting in a \$21,461 decrease, or 6%. The decrease was the result of declines in well maintenance costs, ad valorem taxes and workover expenses.

During this period, G&A increased 18% from \$15,978 in 1998 to \$18,776 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$8,400 in 1999 and \$9,662 in 1998 for G&A incurred on behalf of the Partnership.

6

926

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$35,017 related to its oil and gas properties during 1998.

Depletion was \$79,975 in 1999 compared to \$206,289 in 1998, a decrease of \$126,314, or 61%. This decrease was primarily due to an increase in proved reserves of 180,622 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 4,505 barrels for the period ended December 31, 1999 compared to the same period in 1998.

Abandoned property costs of \$14,614 incurred in 1999 were related to the temporary abandonment of one well during 1999 and two wells plugged and abandoned in prior years. Expenses of \$16,738 were incurred in 1998 to plug and abandon one oil and gas well which was temporarily abandoned in a prior year.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

7

927

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$392,559 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$359,902 and declines in production costs paid of \$16,249, abandoned property costs paid of \$14,614 and working capital of \$16,539, offset by an increase in G&A expenses paid of \$14,745. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$431,139 to oil and gas receipts, offset by \$71,237 resulting from the decline in production during 2000. The decrease in production costs was primarily due to the Reversionary Interest change, offset by higher production taxes associated with high oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during 1999 were primarily for expenditures related to upgrades of equipment on various oil and gas properties.

Proceeds of \$13,943 and \$12,956 were recognized during 2000 and 1999, respectively, from equipment salvage on wells abandoned in prior years.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$591,935, of which \$5,919 was distributed to the managing general partner and \$586,016 to the limited partners. In 1999, cash distributions to the partners were \$172,065, of which \$1,660 was distributed to the managing general partner and \$170,405 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley Producing Properties 87-B, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley Producing Properties 87-B, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Producing Properties 87-B, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY PRODUCING PROPERTIES 87-B, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Producing Properties 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

15

935

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$35,017 related to its proved oil and gas properties during 1998.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$838,681 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income (loss) per Federal income tax returns for the years ended December 31:

|  | 2000<br>-----       | 1999<br>-----       | 1998<br>-----         |
|--|---------------------|---------------------|-----------------------|
| Net income (loss) per statements of operations   | \$ 562,621          | \$ 163,148          | \$ (118,738)          |
| Depletion and depreciation provisions for tax reporting purposes (greater than) less than amounts for financial reporting purposes | (39,072)            | 7,412               | (59,976)              |
| Impairment of oil and gas properties for financial reporting purposes  | -                   | -                   | 35,017                |
| Abandoned property dispositions for tax reporting greater than (less than) amounts for financial reporting purposes                | -                   | -                   | (218,079)             |
| Other, net   | 4,370               | (7,638)             | 3,376                 |
|  | -----               | -----               | -----                 |
| Net income (loss) per Federal income tax returns   | \$ 527,919<br>===== | \$ 162,922<br>===== | \$ (358,400)<br>===== |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                            | 2000<br>----- | 1999<br>-----       | 1998<br>-----     |
|----------------------------|---------------|---------------------|-------------------|
| Property acquisition costs | \$ -<br>===== | \$ (2,313)<br>===== | \$ 6,754<br>===== |
| Development costs          | \$ -<br>===== | \$ 4,136<br>=====   | \$ 1,863<br>===== |

Capitalized oil and gas properties consist of the following:

|                               | 2000<br>-----        | 1999<br>-----        |
|-------------------------------|----------------------|----------------------|
| Proved properties:            |                      |                      |
| Property acquisition costs    | \$ 3,288,184         | \$ 3,289,170         |
| Completed wells and equipment | 1,541,019<br>-----   | 1,548,421<br>-----   |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 121,257    | \$ 137,769    | \$ 144,149    |
| Reimbursement of general and administrative expenses   | \$ 27,424     | \$ 8,400      | \$ 9,662      |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Producing Properties 87-B Employees ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|   | Pioneer USA (1) | Partnership |
|---|-----------------|-------------|
| Revenues:   |                 |             |
| Revenues from oil and gas production, proceeds from sales of producing properties and all other revenues: |                 |             |
| Before payout   | 4.040405%       | 95.959595%  |
| After payout (2)  | 19.191920%      | 80.808080%  |
| Costs and expenses:   |                 |             |
| Property acquisition costs, operating costs, general and administrative expenses and other costs:         |                 |             |
| Before payout   | 4.040405%       | 95.959595%  |
| After payout (2)  | 19.191920%      | 80.808080%  |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 196 limited partner interests owned by Pioneer USA.

(2) The Partnership reached payout in April 2000.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

18

938

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
| Net proved reserves at January 1, 1998   | 419,589                | 664,089      |
| Revisions                                | (95,538)               | (99,794)     |
| Production                               | (40,796)               | (50,220)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 283,255                | 514,075      |
| Revisions                                | 292,082                | 490,347      |
| Production                               | (35,770)               | (48,774)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 539,567                | 955,648      |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |          |          |
|--|----------|----------|
| Revisions                                | 31,315   | (45,195) |
| Production                               | (33,115) | (49,380) |
|  | -----    | -----    |
| Net proved reserves at December 31, 2000 | 537,767  | 861,073  |
|  | =====    | =====    |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.63 per barrel of oil, \$13.33 per barrel of NGLs and \$7.67 per mcf of gas, discounted at 10% was approximately \$4,413,000 and undiscounted was \$9,495,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

## NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000 | 1999 | 1998 |
|-----------------------------|------|------|------|
| Plains Marketing, L.P.      | 32%  | 37%  | -    |
| TEPPCO Crude Oil LLC        | 22%  | 23%  | -    |
| Phillips Petroleum Company  | 20%  | 10%  | 9%   |
| Genesis Crude Oil, L.P.     | -    | -    | 58%  |
| Western Gas Resources, Inc. | 6%   | 7%   | 23%  |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., TEPPCO Crude Oil LLC and Phillips Petroleum Company were \$25,204, \$31,416 and \$21,019, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$6,095,500. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name | Age at<br>December 31,<br>2000 | Position |
|------|--------------------------------|----------|
| ---- | ----                           | -----    |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                      |    |   |
|----------------------|----|---|
| Scott D. Sheffield   | 48 | President   |
| Timothy L. Dove      | 44 | Executive Vice President, Chief<br>Financial Officer and Director |
| Dennis E. Fagerstone | 51 | Executive Vice President and Director                             |

| Rich Dealy           | 34 | Vice President and Chief Accounting<br>Officer                    |

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

942

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

23

943

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the limited partnership agreement, Pioneer USA pays 1% of the Program's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, Pioneer USA is allocated 1% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 196 limited partner interests at January 1, 2001.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$121,257     | \$ 137,769    | \$144,149     |
| Reimbursement of general and administrative expenses   | \$ 27,424     | \$ 8,400      | \$ 9,662      |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY PRIVATE INVESTMENT 87, LTD., A TEXAS LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley Private Investment 87, Ltd. and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Private Investment 87, Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

PARKER & PARSLEY PRIVATE INVESTMENT 87, LTD.

### SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

- as of March 31, 2001(c)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY PRIVATE INVESTMENT 87, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Note 1. Organization and nature of operations

Parker & Parsley Private Investment 87, Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 22% to \$294,672 for the three months ended March 31, 2001 as compared to \$240,933 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 6,848 barrels of oil, 2,038 barrels of natural gas liquids ("NGLs") and 11,385 mcf of gas were sold, or 10,784 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 6,630 barrels of oil, 2,699 barrels of NGLs and 11,546 mcf of gas were sold, or 11,253 BOEs.

6

957

The average price received per barrel of oil increased slightly from \$27.10 for the three months ended March 31, 2000 to \$27.13 for the same period in 2001. The average price received per barrel of NGLs increased \$4.75, or 32%, from \$14.77 for the three months ended March 31, 2000 to \$19.52 for the same period in 2001. The average price received per mcf of gas increased 226% from \$1.86 during the three months ended March 31, 2000 to \$6.07 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Gain on disposition of assets of \$14,938 recognized during the three months ended March 31, 2000 were from equipment credits on a well plugged and abandoned during the prior year.

### Costs and Expenses:

Total costs and expenses increased to \$139,829 for the three months ended March 31, 2001 as compared to \$133,650 for the same period in 2000, an increase of \$6,179 or 5%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$111,234 for the three months ended March 31, 2001 and \$104,648 for the same period in 2000 resulting in a \$6,586 increase, or 6%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 7% from \$7,228 for the three months ended March 31, 2000 to \$7,701 for the same period in 2001, primarily due to an increase in the accrual for tax preparation fees.

Depletion was \$20,894 for the three months ended March 31, 2001 compared to \$21,774 for the same period in 2000, a decrease of \$880, or 4%. This decrease was primarily due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices, offset by an increase in oil production of 218 barrels for the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$51,228 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$54,017 and a reduction of \$4,270 in working capital, offset by increases in production costs of \$6,586 and G&A expenses of \$473. The increase in oil and gas receipts

7

958

resulted from the increase in commodity prices during 2001 which contributed an additional \$61,985 to oil and gas receipts, offset by \$7,968 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to an increase in the accrual for tax preparation fees.

#### Net Cash Provided by Investing Activities

The Partnership's principal investing activities during the three months ended March 31, 2001 and 2000 related to oil and gas equipment upgrades on active properties.

Proceeds from disposition of assets of \$13,708 and \$24,834 were recognized

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

during the three months ended March 31, 2001 and 2000, respectively. The proceeds recognized during 2001 were from equipment credits received on an active property. The proceeds recognized during 2000 were from salvage income received on a well plugged and abandoned during the prior year.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$194,342, of which \$1,943 was distributed to the managing general partner and \$192,399 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$132,869, of which \$1,329 was distributed to the managing general partner and \$131,540 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

-----

- (1) "Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

960

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley Private Investment 87, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley Private Investment 87, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Private Investment 87, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY PRIVATE INVESTMENT 87, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Private Investment 87, Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted and the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

#### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$176,587 related to its proved oil and gas properties during 1998.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$72,098 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000       |       |
|---|------------|-------|
|   | -----      | ----- |
| Net income (loss) per statements of operations  | \$ 556,684 | \$    |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 73,725     |       |
| Impairment of oil and gas properties for financial reporting purposes   | -          |       |
| Salvage income  | -          |       |
| Other, net  | 8,468      |       |
|   | -----      | ----- |
| Net income per Federal income tax returns   | \$ 638,877 | \$    |
|   | =====      | ===== |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000      |       |
|-------------------|-----------|-------|
|                   | -----     | ----- |
| Development costs | \$ 12,021 | \$    |
|                   | =====     | ===== |

Capitalized oil and gas properties consist of the following:

|                               |  |       |
|-------------------------------|--|-------|
| Proved properties:            |  |       |
| Property acquisition costs    |  | \$    |
| Completed wells and equipment |  | ----- |
| Accumulated depletion         |  | ----- |
| Net oil and gas properties    |  | \$    |
|                               |  | ===== |

## NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000       |       |
|--|------------|-------|
|  | -----      | ----- |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 168,618 | \$    |
| Reimbursement of general and administrative expenses   | \$ 27,190  | \$    |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and the Partnership are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|  | Pioneer U |
|--|-----------|
|  | -----     |
| Revenues:  |           |
| Proceeds from disposition of depreciable properties                        | 9.09      |
| All other revenues   | 24.24     |
| Costs and expenses:  |           |
| Lease acquisition costs, drilling and completion costs and all other costs | 9.09      |
| Operating costs, direct costs and general and administrative expenses      | 24.24     |

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

## NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

established by the Securities and Exchange Commission.

|  | -----                  |
| Net proved reserves at December 31, 1999 | 683,394                |
| Revisions                                | 114,936                |
| Production                               | (35,242)               |
|  | -----                  |
| Net proved reserves at December 31, 2000 | 763,088                |
|  | =====                  |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.67 per barrel of NGLs and \$7.76 per mcf of gas, discounted at 10% was approximately \$5,193,000 and undiscounted was \$12,461,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

### NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  |
|-----------------------------|-------|
|                             | ----- |
| Plains Marketing, L.P.      | 42%   |
| Genesis Crude Oil, L.P.     | -     |
| Western Gas Resources, Inc. | 3%    |
| Phillips Petroleum Company  | 17%   |
| NGTS LLC                    | 10%   |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., Phillips Petroleum Company and NGTS LLC were \$34,772, \$27,567 and \$3,043, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being

12

971

paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. The managing general partner is also responsible for 1% of the guaranty and loan commitment fees. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$10,480,000. Contributions aggregating \$2,822,500 were received directly from the partners in cash and the remainder was made available to the limited partners by a financial institution. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

972

PARKER & PARSLEY PRIVATE INVESTMENT 87, LTD.  
(A TEXAS LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 54% to \$1,035,947 for 2000 as compared to \$674,794 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 24,016 barrels of oil, 11,226 barrels of natural gas liquids ("NGLs") and 48,307 mcf of gas were sold, or 43,293 barrel of oil equivalents ("BOEs"). In 1999, 27,432 barrels of oil, 13,063 barrels of NGLs and 52,874 mcf of gas were sold, or 49,307 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.74, or 76%, from \$16.82 in 1999 to \$29.56 in 2000. The average price received per barrel of NGLs increased \$6.76, or 72%, from \$9.41 in 1999 to \$16.17 in 2000. The average price received per mcf of gas increased 75% from \$1.71 in 1999 to \$2.99 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$15,201 during 2000 was attributable to salvage income received on two wells plugged and abandoned during 1999. Gain on disposition of assets of \$20,924 during 1999 was from salvage value received on equipment from two wells plugged and abandoned during 1999. Abandoned property costs of \$20,129 were incurred during 1999 related to the plugging of these two wells.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses increased in 2000 to \$505,407 as compared to \$497,201 in 1999, an increase of \$8,206, or 2%. The increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by declines in depletion and abandoned property costs.

Production costs were \$395,308 in 2000 and \$333,765 in 1999, resulting in a \$61,543 increase, or 18%. The increase was due to additional well maintenance costs incurred to stimulate well production and higher production taxes.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 54% from \$20,244 in 1999 to \$31,079 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$27,190 in 2000 and \$13,954 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$79,020 in 2000 as compared to \$123,063 in 1999, representing a decrease of \$44,043, or 36%. This decrease was primarily due to a 114,527 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a decline in oil production of 3,416 barrels for the period ended December 31, 2000 compared to the same period in 1999.

973

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 19% to \$674,794 from \$568,014 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 27,432 barrels of oil, 13,063 barrels of NGLs and 52,874 mcf of gas were sold, or 49,307 BOEs. In 1998, 30,005 barrels of oil, 12,796 barrels of NGLs and 58,036 mcf of gas were sold, or 52,474 BOEs.

The average price received per barrel of oil increased \$3.77, or 29%, from \$13.05 in 1998 to \$16.82 in 1999. The average price received per barrel of NGLs increased \$2.86, or 44%, from \$6.55 in 1998 to \$9.41 in 1999. The average price received per mcf of gas increased 8% from \$1.59 in 1998 to \$1.71 in 1999.

Gain on disposition of assets of \$20,924 during 1999 was from salvage value received on equipment from two wells plugged and abandoned during 1999. Abandoned property costs of \$20,129 were incurred during 1999 related to the plugging of these two wells.

Miscellaneous income of \$27,020 during 1998 consisted of the write-off of amounts previously recorded as accounts payable. These amounts were set aside until the Partnership reconciled payments for the initial capital contributions. Once these payments were reconciled, the liability was eliminated and the cash distributed to the partners.

Total costs and expenses decreased in 1999 to \$497,201 as compared to \$810,102 in 1998, a decrease of \$312,901, or 39%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by increases in abandoned property costs and G&A.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production costs were \$333,765 in 1999 and \$357,125 in 1998, resulting in a \$23,360 decrease, or 7%. The decrease was due to declines in well maintenance costs and ad valorem taxes.

During this period, G&A increased 19% from \$17,041 in 1998 to \$20,244 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$13,954 in 1999 and \$13,315 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$176,587 related to its oil and gas properties during 1998.

Depletion was \$123,063 in 1999 compared to \$259,349 in 1998, representing a decrease of \$136,286, or 53%. This decrease was the result of an increase in proved reserves of 239,857 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

974

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$254,339 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$366,174 and a decline in abandoned property costs of \$20,129, offset by increases in production costs paid of \$61,543, G&A expenses paid of \$10,835 and working capital of \$59,586. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$510,519 to oil and gas receipts, offset by \$144,345 resulting from the decline in production during 2000. The increase in production

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Provided by Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds from asset dispositions of \$15,201 received in 2000 were related to salvage income received on two wells plugged and abandoned during 1999. Proceeds from asset dispositions of \$17,049 received in 1999 were from equipment credits of \$10,226 received on two wells plugged and abandoned during 1999 and equipment credits of \$6,823 received on two active wells.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$591,830, of which \$5,918 was distributed to the managing general partner and \$585,912 to the limited partners. In 1999, cash distributions to the partners were \$258,205, of which \$2,582 was distributed to the managing general partner and \$255,623 to the limited partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

This document contains important information specific to Parker & Parsley 88-A Conv., L.P., and supplements the proxy statement/prospectus dated 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-A Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in the merger value calculation, less (2) partnership level general and administrative expenses.

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 88-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-A Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 50% to \$133,532 for the three months ended March 31, 2001 as compared to \$89,122 for the same period in 2000. The increase in revenues resulted from higher average prices received and an increase in production. For the three months ended March 31, 2001, 2,956 barrels of oil, 927 barrels of natural gas liquids ("NGLs") and 8,645 mcf of gas were sold, or 5,324 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 2,309 barrels of oil, 1,187 barrels of NGLs and 4,685 mcf of gas were sold, or 4,277 BOEs. Of the increase, 1,183 BOEs are attributable to two

6

984

wells reaching payout pursuant to the terms of the farmout agreements which increased the Partnership's net revenue interest in the wells.

The average price received per barrel of oil decreased \$1.92, or 7%, from \$27.90 for the three months ended March 31, 2000 to \$25.98 for the same period in 2001. The average price received per barrel of NGLs increased \$4.19, or 30%, from \$13.93 for the three months ended March 31, 2000 to \$18.12 for the same period in 2001. The average price received per mcf of gas increased 167% from \$1.73 during the three months ended March 31, 2000 to \$4.62 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gain on disposition of assets of \$76 was recognized during the three months ended March 31, 2000 resulting from equipment credits received on one fully depleted well.

##### Costs and Expenses:

Total costs and expenses increased to \$57,647 for the three months ended March 31, 2001 as compared to \$53,950 for the same period in 2000, an increase of \$3,697, or 7%. This increase was due to increases in depletion, general and administrative expenses ("G&A") and production costs.

Production costs were \$44,328 for the three months ended March 31, 2001 and \$43,761 for the same period in 2000 resulting in a \$567 increase, or 1%. The increase was primarily due to increased lease operating and production taxes attributable to the wells that reached payout pursuant to the terms of the farmout agreements as noted above and higher production taxes associated with higher oil and gas prices, offset by decreases in well maintenance and workover costs.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 50% from \$2,674 for the three months ended March 31, 2000 to \$4,006 for the same period in 2001, primarily due to a higher percentage of the managing general partners' G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues attributable to commodity prices and the two wells reaching payout as noted above and an increase in the accrual for tax preparation fees.

Depletion was \$9,313 for the three months ended March 31, 2001 compared to \$7,515 for the same period in 2000, an increase of \$1,798, or 24%. This increase was primarily due to an increase in oil production of 647 barrels, which was principally due to the two wells reaching payout as noted above, for the period ended March 31, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$22,853 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$44,527, offset

7

985

by increases in production costs of \$567, G&A expenses of \$1,332 and working capital of \$19,775. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$14,119 to oil and gas receipts and \$30,408 resulting from an increase in production during 2001. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices, offset by a decrease in well maintenance and workover costs. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

#### Net Cash Used in Investing Activities

For the three months ended March 31, 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from asset dispositions of \$76 received during the three months ended March 31, 2000 were due to equipment credits received on one fully depleted well.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$79,705, of which \$797 was distributed to the managing general partner and \$78,908 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$47,796, of which \$478 was distributed to the managing general partner and \$47,318 to the limited partners.

#### Proposal to acquire partnerships

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

987

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-A Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-A Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-A Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-A Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

993

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$118,823 related to its proved oil and gas properties during 1998.

8

994

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$78,614 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000       |       |
|---|------------|-------|
|   | -----      | ----- |
| Net income (loss) per statements of operations  | \$ 219,454 | \$    |
| Depletion and depreciation amounts for tax reporting purposes less than provisions for financial reporting purposes | 27,183     |       |
| Impairment of oil and gas properties for financial reporting purposes   | -          |       |
| Other, net  | (622)      |       |
|   | -----      | ----- |
| Net income per Federal income tax returns   | \$ 246,015 | \$    |
|   | =====      | ===== |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000     |       |
|-------------------|----------|-------|
|                   | -----    | ----- |
| Development costs | \$ 2,632 | \$    |
|                   | =====    | ===== |

Capitalized oil and gas properties consist of the following:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

9

995

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000      |       |
|--|-----------|-------|
|  | -----     | ----- |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 64,830 | \$    |
| Reimbursement of general and administrative expenses   | \$ 10,947 | \$    |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-A, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

Revenues:  
 Proceeds from disposition of depreciable properties

Pioneer  
 -----

9.09

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |       |
|--|-------|
| All other revenues   | 24.24 |
| Costs and expenses:  |       |
| Lease acquisition costs, drilling and completion costs and all other costs | 9.09  |
| Operating costs, direct costs and general and administrative expenses      | 24.24 |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 50 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 88-A, L.P. is 22.674558% and 77.325442%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
|  | -----                  | -----        |

| Production                               | (16,899)               | (25,36       |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 138,355                | 249,69       |
| Revisions                                | 118,130                | 203,39       |
| Production                               | (17,052)               | (27,41       |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 239,433                | 425,67       |
| Revisions                                | 3,043                  | (86,94       |
| Production                               | (14,604)               | (21,39       |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 227,872                | 317,33       |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

per barrel of oil, \$12.95 per barrel of NGLs and \$7.75 per mcf of gas, discounted at 10% was approximately \$1,723,000 and undiscounted was \$3,515,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  | 1999  |
|-----------------------------|-------|-------|
|                             | ----- | ----- |
| Plains Marketing, L.P.      | 54%   | 50%   |
| NGTS LLC                    | 9%    | 10%   |
| Genesis Crude Oil, L.P.     | -     | -     |
| Western Gas Resources, Inc. | 3%    | 6%    |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. was \$21,731, which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being

12

998

paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$3,793,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

999

PARKER & PARSLEY 88-A CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

2000 compared to 1999

The Partnership's oil and gas revenues increased 49% to \$418,514 for 2000 as compared to \$280,717 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 9,403 barrels of oil, 5,201 barrels of natural gas liquids ("NGLs") and 21,399 mcf of gas were sold, or 18,171 barrel of oil equivalents ("BOEs"). In 1999, 9,977 barrels of oil, 7,075 barrels of NGLs and 27,417 mcf of gas were sold, or 21,622 BOEs. Due to the decline characteristics of the Partnership's oil and gas

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.37, or 73%, from \$16.91 in 1999 to \$29.28 in 2000. The average price received per barrel of NGLs increased \$6.00, or 65%, from \$9.30 in 1999 to \$15.30 in 2000. The average price received per mcf of gas increased 77% from \$1.69 in 1999 to \$2.99 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$76 was recognized in 2000 resulting from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$203,772 as compared to \$186,418 in 1999, an increase of \$17,354, or 9%. The increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$160,855 in 2000 and \$129,227 in 1999, resulting in a \$31,628 increase, or 24%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 47% from \$8,448 in 1999 to \$12,419 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$10,947 in 2000 and \$5,872 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$30,498 in 2000 as compared to \$48,743 in 1999, representing a decrease of \$18,245, or 37%. This decrease was primarily due to a 13,403 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1000

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 24% to \$280,717 from \$227,119 in 1998. The increase in revenues resulted from higher average prices received and an increase in production. In 1999, 9,977 barrels of oil, 7,075 barrels of NGLs and 27,417 mcf of gas were sold, or 21,622 BOEs. In 1998, 10,890 barrels of oil, 6,009 barrels of NGLs and 25,367 mcf of gas were sold, or 21,127 BOEs.

The average price received per barrel of oil increased \$3.32, or 24%, from \$13.59 in 1998 to \$16.91 in 1999. The average price received per barrel of NGLs increased \$2.73, or 42%, from \$6.57 in 1998 to \$9.30 in 1999. The average price received per mcf of gas increased 8% from \$1.56 in 1998 to \$1.69 in 1999.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

A gain on disposition of assets of \$1,875 was recognized during 1998 for credits received from the disposal of oil and gas equipment on a fully depleted well.

Total costs and expenses decreased in 1999 to \$186,418 as compared to \$383,123 in 1998, a decrease of \$196,705, or 51%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$129,227 in 1999 and \$149,228 in 1998, resulting in a \$20,001 decrease, or 13%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 21% from \$6,995 in 1998 to \$8,448 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$5,872 in 1999 and \$5,659 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$118,823 related to its oil and gas properties during 1998.

Depletion was \$48,743 in 1999 compared to \$108,077 in 1998, representing a decrease of \$59,334, or 55%. This decrease was the result of an increase in proved reserves of 72,170 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum Industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

1001

Liquidity and capital resources

Net Cash Provided by Operating Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net cash provided by operating activities increased \$108,537 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$139,776 and a decline in working capital of \$4,360, offset by increases in production costs paid of \$31,628 and G&A expenses paid of \$3,971. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$203,232 to oil and gas receipts, offset by \$63,456 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds from asset dispositions of \$76 received during 2000 were due to equipment credits received on one fully depleted well.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$239,144, of which \$2,391 was distributed to the managing general partner and \$236,753 to the limited partners. In 1999, cash distributions to the partners were \$96,923, of which \$969 was distributed to the managing general partner and \$95,954 to the limited partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

88-A, L.P., and supplements the proxy statement/prospectus dated \_\_\_\_\_, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-A, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 88-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Note 1. Organization and nature of operations

Parker & Parsley 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 50% to \$455,361 for the three months ended March 31, 2001 as compared to \$304,068 for the same period in 2000. The increase in revenues resulted from higher average prices received and an increase in production. For the three months ended March 31, 2001, 10,082 barrels of oil, 3,156 barrels of natural gas liquids ("NGLs") and 29,495 mcf of gas were sold, or 18,154 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 7,878 barrels of oil, 4,068 barrels of NGLs and

7

1012

15,987 mcf of gas were sold, or 14,611 BOEs. Of the increase, 3,880 BOEs are attributable to two wells reaching payout pursuant to the terms of the farmout agreements which increased the Partnership's net revenue interest in the wells.

The average price received per barrel of oil decreased \$1.92, or 7%, from \$27.90 for the three months ended March 31, 2000 to \$25.98 for the same period in 2001. The average price received per barrel of NGLs increased \$4.19, or 30%, from \$13.93 for the three months ended March 31, 2000 to \$18.12 for the same period in 2001. The average price received per mcf of gas increased 167% from \$1.73

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

during the three months ended March 31, 2000 to \$4.62 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gain on disposition of assets of \$259 was recognized during the three months ended March 31, 2000 resulting from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$196,581 for the three months ended March 31, 2001 as compared to \$183,979 for the same period in 2000, an increase of \$12,602, or 7%. The increase was due to increases in depletion, general and administrative expenses ("G&A") and production costs.

Production costs were \$151,163 for the three months ended March 31, 2001 and \$149,276 for the same period in 2000, resulting in a \$1,887 increase, or 1%. The increase was primarily due to increased lease operating and production taxes attributable to the wells that reached payout pursuant to the terms of the farmout agreements as noted above and higher production taxes associated with higher oil and gas prices, offset by decreases in well maintenance and workover costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 50% from \$9,122 for the three months ended March 31, 2000 to \$13,661 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues attributable to commodity prices and the two wells reaching payout as noted above and an increase in the accrual for tax preparation fees.

Depletion was \$31,757 for the three months ended March 31, 2001 as compared to \$25,581 for the same period in 2000, an increase of \$6,176, or 24%. This increase was primarily due to an increase in oil production of 2,204 barrels, which was principally due to the two wells reaching payout as noted above, for the three months ended March 31, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$104,369 for the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$151,512 in oil and gas sales receipts,

offset by increases in production costs of \$1,887, G&A expenses of \$4,539 and working capital of \$40,717. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$48,394 to oil and gas receipts and \$103,118 resulting from an increase in production during 2001. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices, offset by

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

a decrease in well maintenance and workover costs. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the three months ended March 31, 2000 were related to upgrades of oil and gas equipment on active properties.

Proceeds from disposition of assets of \$259 received during the three months ended March 31, 2000 were due to equipment credits received on one fully depleted well.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$271,814, of which \$2,718 was distributed to the managing general partner and \$269,096 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$162,998, of which \$1,630 was distributed to the managing general partner and \$161,368 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 1. BUSINESS

Parker & Parsley 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 12,935 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segments other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 54% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and

ruptures and discharges of toxic substances or gases that could expose the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located in the Spraberry Trend area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 40 oil and gas wells. At December 31, 2000, 39 wells were producing with one well plugged and abandoned.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998, and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

At March 8, 2001, the Partnership had 12,935 outstanding limited partnership interests held of record by 981 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations, are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$807,385 and \$327,220, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

|   | 2000<br>-----         | 1999<br>-----         | 1998<br>-----         | 1997<br>-----         | 1996<br>-----       |

## ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

## Results of operations

## 2000 compared to 1999

The Partnership's oil and gas revenues increased 49% to \$1,428,374 for 2000 as compared to \$957,278 in 1999. The increase in revenues resulted from higher average prices received, offset by a decrease in production. In 2000, 32,063 barrels of oil, 17,745 barrels of natural gas liquids ("NGLs") and 72,965 mcf of gas were sold, or 61,969 barrel of oil equivalents ("BOEs"). In 1999, 34,020 barrels of oil, 24,121 barrels of NGLs and 93,498 mcf of gas were sold, or 73,724 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.37, or 73%, from \$16.91 in 1999 to \$29.28 in 2000. The average price received per barrel of NGLs increased \$6.00, or 65%, from \$9.30 in 1999 to \$15.30 in 2000. The average price received per mcf of gas increased 77% from \$1.69 in 1999 to \$2.99 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$259 was recognized in 2000 resulting from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$695,576 as compared to \$635,628 in 1999, an increase of \$59,948, or 9%. The increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$548,561 in 2000 and \$440,670 in 1999, resulting in an increase of \$107,891, or 24%. The increase was primarily due to additional well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 50% from \$28,692 in 1999 to \$42,987 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$37,340 in 2000 and \$20,027 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Depletion was \$104,028 in 2000 as compared to \$166,266 in 1999, representing a decrease of \$62,238, or 37%. This decrease was primarily due to a 45,809 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 24% to \$957,278 from \$774,533 in 1998.

5

1021

The increase in revenues resulted from higher average prices received and an increase in production. In 1999, 34,020 barrels of oil, 24,121 barrels of NGLs and 93,498 mcf of gas were sold, or 73,724 BOEs. In 1998, 37,135 barrels of oil, 20,500 barrels of NGLs and 86,501 mcf of gas were sold, or 72,052 BOEs.

The average price received per barrel of oil increased \$3.32, or 24%, from \$13.59 in 1998 to \$16.91 in 1999. The average price received per barrel of NGLs increased \$2.73, or 42%, from \$6.57 in 1998 to \$9.30 in 1999. The average price received per mcf of gas increased 8% from \$1.56 in 1998 to \$1.69 in 1999.

A gain on disposition of assets of \$6,393 was recognized in 1998 for credits received from the disposal of oil and gas equipment on a fully depleted well.

Total costs and expenses decreased in 1999 to \$635,628 as compared to \$1,306,368 in 1998, a decrease of \$670,740, or 51%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A expenses.

Production costs were \$440,670 in 1999 and \$508,919 in 1998, resulting in a \$68,249 decrease, or 13%. The decrease was due to reductions in well maintenance costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 22% from \$23,611 in 1998 to \$28,692 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$20,027 in 1999 and \$19,297 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$405,308 related to its oil and gas properties during 1998.

Depletion was \$166,266 in 1999 compared to \$368,530 in 1998, representing a decrease of \$202,264, or 55%. This decrease was the result of an increase in proved reserves of 246,048 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but

6

1022

to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

Liquidity and capital resources

Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$401,553 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$477,946 and a decline in working capital of \$45,793, offset by increases in production costs paid of \$107,891 and G&A expenses paid of \$14,295. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$694,183 to oil and gas receipts, offset by \$216,237 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$259 received in 2000 were due to equipment credits received on one fully depleted well.

Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$815,540, of which \$8,155 was distributed to the managing general partner and \$807,385 to the limited partners. In 1999, cash distributions to the partners were \$330,525, of which

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$3,305 was distributed to the managing general partner and \$327,220 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-A, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

14

1030

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$405,308 related to its proved oil and gas properties during 1998.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$267,761 greater than the tax basis at December 31, 2000.

15

1031

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000<br>-----       | 1999<br>-----       | 1998<br>-----       |
|---|---------------------|---------------------|---------------------|
| Net income (loss) per statements of operations  | \$ 749,290          | \$ 331,033          | \$ (514,812)        |
| Depletion and depreciation for tax reporting purposes less than provisions for financial reporting purposes | 92,722              | 154,558             | 357,942             |
| Impairment of oil and gas properties for financial reporting purposes                                       | -                   | -                   | 405,308             |
| Other, net  | (2,176)             | (2,693)             | 13,320              |
|   | -----               | -----               | -----               |

16

1032

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000       | 1999       | 1998       |
|--|------------|------------|------------|
|  | -----      | -----      | -----      |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 221,084 | \$ 211,623 | \$ 215,684 |
| Reimbursement of general and administrative expenses   | \$ 37,340  | \$ 20,027  | \$ 19,297  |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-A Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|  | Pioneer USA (1) | Partnership |
|--|-----------------|-------------|
|  | -----           | -----       |
| Revenues:  |                 |             |
| Proceeds from disposition of depreciable properties                        | 9.09091%        | 90.9090     |
| All other revenues   | 24.242425%      | 75.75757    |
| Costs and expenses:  |                 |             |
| Lease acquisition costs, drilling and completion costs and all other costs | 9.09091%        | 90.9090     |
| Operating costs, direct costs and general and                              |                 |             |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

administrative expenses 24.242425% 75.75757

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 173 limited partner interests owned by Pioneer USA.
- (2) The allocation between the Partnership and Parker & Parsley 88-A Conv., L.P. is 77.325442% and 22.674558%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

17

1033

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |

|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 471,675                | 851,238      |
| Revisions                                | 402,731                | 693,436      |
| Production                               | (58,141)               | (93,498)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 816,265                | 1,451,176    |
| Revisions                                | 10,578                 | (296,099)    |
| Production                               | (49,808)               | (72,965)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 777,035                | 1,082,112    |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.95 per barrel of NGLs and \$7.75 per mcf of gas, discounted at 10% was approximately \$5,875,000 and undiscounted was \$11,988,000.

Numerous uncertainties exist in estimating quantities of proved reserves

1045

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000 | 1999 | 1998 |
|-----------------------------|------|------|------|
| Plains Marketing, L.P.      | 54%  | 50%  | -    |
| NGTS LLC                    | 9%   | 10%  | 3%   |
| Genesis Crude Oil, L.P.     | -    | -    | 55%  |
| Western Gas Resources, Inc. | 3%   | 6%   | 22%  |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$74,114, which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general

19

1035

partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$12,935,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

1036

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 25% of its operating and general and administrative expenses. In return, Pioneer USA is allocated approximately 25% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 173 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

23

1039

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard |               |               |               |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |            |            |            |
|--|------------|------------|------------|
| industry operating agreements                        | \$ 221,084 | \$ 211,623 | \$ 215,684 |
| Reimbursement of general and administrative expenses | \$ 37,340  | \$ 20,027  | \$ 19,297  |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 88-B CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 88-B Conv., L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-B Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the liquidation value per \$1,000 limited partner investment
  
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
  
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
  
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
  
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
  
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

PARKER & PARSLEY 88-B CONV., L.P.

SUPPLEMENTAL INFORMATION TABLE

|   |    |
|---|----|
| Aggregate Initial Investment by the Limited Partners (a)  | \$ |
| Aggregate Historical Limited Partner Distributions through July 31, 2001 (a)  | \$ |
| Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA (a), (b)  | \$ |
| Merger Value per \$1,000 Limited Partner Investment (b), (c)  | \$ |
| Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 (b), (c) |    |
| Book Value per \$1,000 Limited Partner Investment:  |    |
| -- as of March 31, 2001 (c)   | \$ |
| -- as of December 31, 2000 (c)  | \$ |
| Going Concern Value per \$1,000 Limited Partner Investment (c), (d)   | \$ |
| Liquidation Value per \$1,000 Limited Partner Investment (c), (e)   | \$ |
| Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f)   | \$ |

- 
- (a) Stated in thousands.
  - (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
  - (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
  - (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
  - (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
  - (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

The accompanying notes are an integral part of these financial statements.

PARKER & PARSLEY 88-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-B Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 13% to \$132,577 for the three months ended March 31, 2001 as compared to \$117,117 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decline in production. For the three months ended March 31, 2001, 2,743 barrels of oil, 940 barrels of natural gas liquids ("NGLs") and 3,500 mcf of gas were sold, or 4,266 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 3,346 barrels of oil, 1,321 barrels of NGLs and 5,699 mcf of gas were sold, or 5,617 BOEs.

6

1052

Of the decrease, 1,125 BOEs are attributable to three wells reaching payout pursuant to the terms of the farmout agreements which reduced the Partnership's net revenue interest in the wells.

The average price received per barrel of oil increased \$3.39, or 13%, from \$26.41 for the three months ended March 31, 2000 to \$29.80 for the same period in 2001. The average price received per barrel of NGLs increased \$5.63, or 39%, from \$14.34 for the three months ended March 31, 2000 to \$19.97 for the same period in 2001. The average price received per mcf of gas increased 428% from \$1.73 during the three months ended March 31, 2000 to \$9.14 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

##### Costs and Expenses:

Total costs and expenses increased to \$52,042 for the three months ended March 31, 2001 as compared to \$48,254 for the same period in 2000, an increase of \$3,788, or 8%. This increase was due to an increase in production costs, offset

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

by declines in depletion and general and administrative expenses ("G&A").

Production costs were \$42,392 for the three months ended March 31, 2001 and \$36,623 for the same period in 2000 resulting in a \$5,769 increase, or 16%. The increase in production costs was primarily due to higher production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production, offset by a decline in lease operating and production taxes attributable to the wells that reached payout pursuant to the terms of a farmout agreements as noted above.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A decreased 9% from \$3,627 for the three months ended March 31, 2000 to \$3,314 for the same period in 2001.

Depletion was \$6,336 for the three months ended March 31, 2001 compared to \$8,004 for the same period in 2000, a decrease of \$1,668, or 21%. This decrease was primarily due to a decrease in oil production of 603 barrels for the period ended March 31, 2001 as compared to the same period in 2000 and positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$23,647 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$15,715 and reductions in working capital of \$13,388 and G&A expenses of \$313, offset by an

7

1053

increase in production costs of \$5,769. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$61,429 to oil and gas receipts, offset by \$45,714 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

#### Net Cash Used in Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$213 recognized during the three months ended March 31, 2001 were due to equipment credits received on active properties.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$106,165, of which \$1,062 was distributed to the managing general partner and \$105,103 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$66,905, of which \$669 was distributed

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

to the managing general partner and \$66,236 to the limited partners.

Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-B Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-B Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-B Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-B Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in

1070

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

1061

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

1071

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$156,111 related to its proved oil and gas properties during 1998.

8

1062

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$30,771 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000<br>----- | 1999<br>----- |
|---|---------------|---------------|
| Net income (loss) per statements of operations  | \$ 327,306    | \$ 96,268     |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 23,646        | 38,232        |

|                               | =====       |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  |       |       |
|--|-------|-------|
|  | 2000  | 1999  |
|  | ----- | ----- |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |           |           |    |
|--|-----------|-----------|----|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 64,694 | \$ 63,771 | \$ |
| Reimbursement of general and administrative expenses   | \$ 13,920 | \$ 5,293  | \$ |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-B, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|   | Pioneer USA (1) |
|---|-----------------|
|   | -----           |
| Revenues:   |                 |
| Proceeds from disposition of depreciable properties                   | 9.09091%        |
| All other revenues  | 24.242425%      |
| Costs and expenses:   |                 |
| Lease acquisition costs, drilling and completion costs                | 9.09091%        |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 20 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 88-B, L.P. is 28.880064% and 71.119936%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | =====    |

10

1064

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.59 per barrel of NGLs and \$7.85 per mcf of gas, discounted at 10% was approximately \$2,098,000 and undiscounted was \$4,398,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                             | 2000<br>----- | 1999<br>----- |
|-----------------------------|---------------|---------------|
| Plains Marketing, L.P.      | 50%           | 44%           |
| Genesis Crude Oil, L.P.     | -             | -             |
| Western Gas Resources, Inc. | 3%            | 5%            |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$25,238 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

12

1066

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$3,636,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 84% to \$535,228 for 2000 as compared to \$291,390 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 13,209 barrels of oil, 5,363 barrels of natural gas liquids ("NGLs") and 21,781 mcf of gas were sold, or 22,202 barrel of oil equivalents ("BOEs"). In 1999, 11,400 barrels of oil, 5,586 barrels of NGLs and 23,221 mcf of gas were sold, or 20,856 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.12, or 71%, from \$17.17 in 1999 to \$29.29 in 2000. The average price received per barrel of NGLs increased \$5.99, or 60%, from \$10.03 in 1999 to \$16.02 in 2000. The average price received per mcf of gas increased 69% from \$1.70 in 1999 to \$2.87 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$7,186 was recognized during 2000. The gain was comprised of \$5,981 received from the sale of equipment on one well plugged and abandoned during the current period and \$1,205 from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$220,151 as compared to \$197,819 in 1999, an increase of \$22,332, or 11%. The increase was due to increases in production costs, general and administrative expenses ("G&A") and abandoned property costs, offset by a decline in depletion.

Production costs were \$174,071 in 2000 and \$146,805 in 1999, resulting in a \$27,266 increase, or 19%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 84% from \$8,615 in 1999 to \$15,875 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$13,920 in 2000 and \$5,293 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Depletion was \$27,450 in 2000 as compared to \$42,399 in 1999, representing a decrease of \$14,949, or 35%. This decrease was primarily due to a 35,962 barrels of oil increase in proved reserves during 2000 due to higher commodity prices, offset by an increase in oil production of 1,809 barrels for the period ended December 31, 2000 compared to the same period in 1999.

Abandoned property costs of \$2,755 were incurred during 2000 due to the plugging and abandonment of one well during

1068

the current period.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 24% to \$291,390 from \$234,942 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 11,400 barrels of oil, 5,586 barrels of NGLs and 23,221 mcf of gas were sold, or 20,856 BOEs. In 1998, 12,653 barrels of oil, 4,957 barrels of NGLs and 21,214 mcf of gas were sold, or 21,146 BOEs.

The average price received per barrel of oil increased \$3.93, or 30%, from \$13.24 in 1998 to \$17.17 in 1999. The average price received per barrel of NGLs increased \$3.12, or 45%, from \$6.91 in 1998 to \$10.03 in 1999. The average price received per mcf of gas increased 9% from \$1.56 in 1998 to \$1.70 in 1999.

Total costs and expenses decreased in 1999 to \$197,819 as compared to \$436,801 in 1998, a decrease of \$238,982, or 55%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$146,805 in 1999 and \$158,704 in 1998, resulting in an \$11,899 decrease, or 7%. The decrease was due to declines in well maintenance costs, workover costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 21% from \$7,091 in 1998 to \$8,615 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$5,293 in 1999 and \$5,608 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$156,111 related to its oil and gas properties during 1998.

Depletion was \$42,399 in 1999 compared to \$114,895 in 1998, representing a decrease of \$72,496, or 63%. This decrease was the result of a combination of factors that included an increase in proved reserves of 100,955 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,253 barrels for the period ended December 31, 1999 compared to the same period in 1998.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

1069

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$191,512 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$246,184, offset by increases in production costs paid of \$27,266, G&A expenses paid of \$7,260 abandoned property costs paid of \$2,755 and working capital of \$17,391. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$200,923 to oil and gas receipts and an increase of \$45,261 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 were related to equipment upgrades on active properties.

Proceeds from disposition of assets of \$7,186 were recognized during 2000. The proceeds were comprised of \$5,981 received from the sale of equipment on one well plugged and abandoned during the current period and \$1,205 from equipment credits received on one active well. Proceeds of \$4,369 during 1999 were primarily related to equipment dispositions on one oil and gas well that is temporarily abandoned.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$319,176, of which \$3,192 was distributed to the managing general partner and \$315,984 to the limited partners. In 1999, cash distributions to the partners were \$106,208, of which \$1,062 was distributed to the managing general partner and \$105,146 to the limited partners.

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 88-B, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-B, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment  
(c), (f)

\$

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

1079

PARKER & PARSELEY 88-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-B, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Item 2. Management's Discussion and Analysis of Financial Condition

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and Results of Operations(1)

### Results of Operations

#### Revenues:

The Partnership's oil and gas revenues increased 13% to \$326,397 for the three months ended March 31, 2001 as compared to \$288,612 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 6,753 barrels of oil, 2,315 barrels of natural gas liquids ("NGLs") and 8,631 mcf of gas were sold, or 10,507 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 8,236 barrels of oil, 3,267 barrels of NGLs and

7

1080

14,019 mcf of gas were sold, or 13,840 BOEs. Of the decrease, 2,758 BOEs are attributable to three wells reaching payout pursuant to the terms of the farmout agreements which reduced the Partnership's net revenue interest in the wells.

The average price received per barrel of oil increased \$3.39, or 13%, from \$26.41 for the three months ended March 31, 2000 to \$29.80 for the same period in 2001. The average price received per barrel of NGLs increased \$5.63, or 39%, from \$14.34 for the three months ended March 31, 2000 to \$19.97 for the same period in 2001. The average price received per mcf of gas increased 428% from \$1.73 during the three months ended March 31, 2000 to \$9.14 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

#### Costs and Expenses:

Total costs and expenses increased to \$128,179 for the three months ended March 31, 2001 as compared to \$118,857 for the same period in 2000, an increase of \$9,322, or 8%. The increase was primarily due to an increase in production costs, offset by decreases in depletion and general and administrative expenses ("G&A").

Production costs were \$104,442 for the three months ended March 31, 2001 and \$90,211 for the same period in 2000, resulting in a \$14,231 increase, or 16%. The increase in production costs was primarily due to higher production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production, offset by a decline in lease operating and production taxes attributable to the wells that reached payout pursuant to the terms of the farmout agreements as noted above.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A decreased 9% from \$8,938 for the three months ended March 31, 2000 to \$8,160 for the same period in 2001.

Depletion was \$15,577 for the three months ended March 31, 2001 as compared to \$19,708 for the same period in 2000, a decrease of \$4,131, or 21%. This decrease was primarily due to a decrease in oil production of 1,483 barrels for the three months ended March 31, 2001 compared to the same period in 2000 and positive

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$61,136 during the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$38,414 in oil and gas sales receipts and reductions of \$778 in G&A expenses and \$36,175 in working capital, offset by an increase in production costs of \$14,231. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$150,881 to oil and gas receipts, offset by \$112,467 resulting from

8

1081

the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the three months ended March 31, 2001 and 2000 were for equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$524 recognized during the three months ended March 31, 2001 were due to equipment credits received on active properties.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$261,441, of which \$2,614 was distributed to the managing general partner and \$258,827 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$164,763, of which \$1,648 was distributed to the managing general partner and \$163,115 to the limited partners.

#### Proposal to acquire partnerships

On April 18, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement with the SEC proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Pioneer USA is the sole or managing general partner of the partnerships. The preliminary proxy statement is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partners in each partnership and the resolution of SEC review comments. If approved, Pioneer anticipates closing the mergers during the third quarter of 2001.

ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

## PART I

### ITEM 1. BUSINESS

Parker & Parsley 88-B, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 8,954 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 50% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located in the Spraberry Trend area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 43 oil and gas wells. Two wells have been plugged and abandoned. At December 31, 2000, 41 wells were producing.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 8,954 outstanding limited partnership interests held of record by 690 subscribers. There is no established public

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$778,145 and \$258,933, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

|   | 2000<br>-----        | 1999<br>-----        | 1998<br>-----         | 1997<br>-----         | -----         |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 84% to \$1,318,092 for 2000 as compared to \$717,449 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 32,524 barrels of oil, 13,205 barrels of natural gas liquids ("NGLs") and 53,620 mcf of gas were sold, or 54,666 barrel of oil equivalents ("BOEs"). In 1999, 28,078 barrels of oil, 13,752 NGLs and 57,190 mcf of gas were sold, or 51,362 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.12, or 71%, from \$17.17 in 1999 to \$29.29 in 2000. The average price received per barrel of NGLs increased \$5.99, or 60%, from \$10.03 in 1999 to \$16.02 in 2000. The average price received per mcf of gas increased 69% from \$1.70 in 1999 to \$2.87 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$17,697 was recognized during 2000. The gain was comprised of \$14,729 received from the sale of equipment on one well plugged and abandoned during the current period and \$2,968 from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$542,703 as compared to \$487,566 in 1999, an increase of \$55,137, or 11%. The increase was due to increases in production costs, general and administrative expenses ("G&A") and abandoned property costs, offset by a decline in depletion.

Production costs were \$428,633 in 2000 and \$361,482 in 1999, resulting in an increase of \$67,151, or 19%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 83% from \$21,650 in 1999 to \$39,725 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$34,281 in 2000 and \$13,039 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Depletion was \$67,561 in 2000 as compared to \$104,434 in 1999, representing a decrease of \$36,873, or 35%. This decrease was primarily due to a 88,489 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices, offset by an increase in oil production of 4,446 barrels for the period ended December 31, 2000 compared to the same period in 1999.

Abandoned property costs of \$6,784 incurred in 2000 were related to the plugging and abandonment of one well during the current year.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 24% to \$717,449 from \$578,573 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 28,078 barrels of oil, 13,752 barrels of NGLs and 57,190 mcf of gas were sold, or 51,362 BOEs. In 1998, 31,155 barrels of oil, 12,210 NGLs and 52,254 mcf of gas were sold, or 52,074 BOEs.

The average price received per barrel of oil increased \$3.93, or 30%, from \$13.24 in 1998 to \$17.17 in 1999. The average price received per barrel of NGLs increased \$3.12, or 45%, from \$6.91 in 1998 to \$10.03 in 1999. The average price received per mcf of gas increased 9% from \$1.56 in 1998 to \$1.70 in 1999.

Total costs and expenses decreased in 1999 to \$487,566 as compared to \$1,075,163 in 1998, a decrease of \$587,597, or 55%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$361,482 in 1999 and \$390,835 in 1998, resulting in a \$29,353 decrease, or 8%. The decrease was primarily due to declines in well maintenance costs, workover costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 25% from \$17,315 in 1998 to \$21,650 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$13,039 in 1999 and \$13,810 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$383,951 related to its oil and gas properties during 1998.

Depletion was \$104,434 in 1999 compared to \$283,062 in 1998. This represented a decrease of \$178,628, or 63%. This decrease was the result of a combination of factors that included an increase in proved reserves of 248,642 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 3,077 barrels for the period ended

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$512,129 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$606,337, offset by increases in production costs paid of \$67,151, G&A expenses paid of \$18,075, abandoned property costs paid of \$6,784 and working capital of \$2,198. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$495,153 to oil and gas receipts and an increase of \$111,184 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to the upgrades of oil and gas equipment on active properties.

Proceeds from disposition of assets of \$17,697 were recognized during 2000. The proceeds were comprised of \$14,729 received from the sale of equipment on one well plugged and abandoned during the current period and \$2,968 from equipment credits received on active wells. Proceeds of \$10,758 recognized during 1999 were related to equipment disposals on one temporarily abandoned oil and gas well.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$786,005, of which \$7,860 was

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

distributed to the managing general partner and \$778,145 to the limited partners. In 1999, cash distributions to the partners were \$261,548, of which \$2,615 was distributed to the managing general partner and \$258,933 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-B, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-B, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-B, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-B, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the

15

1098

respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$383,951 related to its proved oil and gas properties during 1998.

16

1099

NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$77,883 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000<br>-----       | 1999<br>-----      | 1998<br>-----       |
|---|---------------------|--------------------|---------------------|
| Net income (loss) per statements of operations  | \$ 805,539          | \$236,642          | \$(488,631)         |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$159,314     | \$157,042     | \$150,985     |
| Reimbursement of general and administrative expenses   | \$ 34,281     | \$ 13,039     | \$ 13,810     |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-B Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|   | Pioneer USA (1)<br>----- | Partnership<br>----- |
|---|--------------------------|----------------------|
| Revenues:   |                          |                      |
| Proceeds from disposition of depreciable properties | 9.09091%                 | 90.90909             |
| All other revenues                                  | 24.242425%               | 75.757575            |
| Costs and expenses:                                 |                          |                      |
| Lease acquisition costs, drilling and completion    |                          |                      |

1109

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|   |            |           |

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 94 limited partner interests owned by Pioneer USA.
- (2) The allocation between the Partnership and Parker & Parsley 88-B Conv., L.P. is 71.119936% and 28.880064%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

18

| Revisions                                | 375,777                | 553,985      |
| Production                               | (41,830)               | (57,190)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 603,887                | 873,266      |
| Revisions                                | 114,704                | 59,721       |
| Production                               | (45,729)               | (53,620)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 672,862                | 879,367      |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.59 per barrel of NGLs and \$7.85 per mcf of gas, discounted at 10% was approximately \$5,167,000 and undiscounted was \$10,831,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should

1110

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

### NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  | 1999  | 1998  |
|-----------------------------|-------|-------|-------|
|                             | ----- | ----- | ----- |
| Plains Marketing, L.P.      | 50%   | 44%   | -     |
| Genesis Crude Oil, L.P.     | -     | -     | 49%   |
| Western Gas Resources, Inc. | 3%    | 5%    | 17%   |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$62,153 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

**Managing general partner** - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

**Limited partner liability** - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

1103

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$8,954,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

1104

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name<br>----         | Age at<br>December 31,<br>2000<br>---- | Position<br>-----   |
|----------------------|--|---|
| Scott D. Sheffield   | 48                                     | President   |

| Dennis E. Fagerstone | 51                                     | Executive Vice President and Director                             |
| Mark L. Withrow      | 53                                     | Executive Vice President, General<br>Counsel and Director         |
| Danny Kellum         | 46                                     | Executive Vice President - Domestic<br>Operations and Director    |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Rich Dealy

34

Vice President and Chief Accounting  
Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

1105

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

1114

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

23

1106

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 25% of its operating and general and administrative expenses. In return, Pioneer USA is allocated approximately 25% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 94 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|   | 2000      | 1999       | 1998      |
|---|-----------|------------|-----------|
|   | -----     | -----      | -----     |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreement | \$159,314 | \$ 157,042 | \$150,985 |
| Reimbursement of general and administrative expenses  | \$ 34,281 | \$ 13,039  | \$ 13,810 |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 88-C CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 88-C Conv., L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-C Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-- as of March 31, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as any value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

(f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 88-C CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-C Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 18% to \$112,186 for the three months ended March 31, 2001 as compared to \$95,029 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 2,158 barrels of oil, 953 barrels of natural gas liquids ("NGLs") and 3,530 mcf of gas were sold, or 3,699 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 2,693 barrels of oil, 1,122 barrels of NGLs and 4,769 mcf of gas were sold, or 4,610 BOEs. Of the decrease, 881 BOEs are attributable to three wells reaching payout pursuant to the terms of the farmout agreements which reduced the Partnership's net revenue interest in the wells.

6

1120

The average price received per barrel of oil increased \$3.74, or 14%, from \$26.37 for the three months ended March 31, 2000 to \$30.11 for the same period in 2001. The average price received per barrel of NGLs increased \$5.19, or 36%, from \$14.26 for the three months ended March 31, 2000 to \$19.45 for the same period in 2001. The average price received per mcf of gas increased 378% from \$1.70 during the three months ended March 31, 2000 to \$8.12 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

##### Costs and Expenses:

Total costs and expenses increased to \$45,356 for the three months ended March 31, 2001 as compared to \$43,879 for the same period in 2000, an increase of \$1,477, or 3%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$35,748 for the three months ended March 31, 2001 and \$34,061 for the same period in 2000 resulting in a \$1,687 increase, or 5%. The increase was primarily due to higher production taxes associated with higher oil

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and gas prices and additional workover and well maintenance costs incurred to stimulate well production, offset by a decline in lease operating and production taxes attributable to the wells that reached payout pursuant to the terms of the farmout agreements as noted above.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 32% from \$2,851 for the three months ended March 31, 2000 to \$3,766 for the same period in 2001, primarily due to an increase in the accrual for tax preparation fees.

Depletion was \$5,842 for the three months ended March 31, 2001 compared to \$6,967 for the same period in 2000, a decrease of \$1,125, or 16%. This decrease was primarily due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices and a decline in oil production of 535 barrels for the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$22,812 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$17,346 and a reduction of \$8,068 in working capital, offset by increases in production costs of \$1,687 and G&A expenses of \$915. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$46,804 to oil and gas receipts, offset by \$29,458 resulting from the

7

1121

decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional workover costs incurred to stimulate well production, offset by a decline in lease operating and production taxes attributable to the wells that reached payout pursuant to the terms of the farmout agreements. The increase in G&A was primarily due to an increase in the accrual for tax preparation fees.

#### Net Cash Used in Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$168 recognized during the three months ended March 31, 2001 were due to equipment credits received on one active well.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$85,826, of which \$858 was distributed to the managing general partner and \$84,968 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$56,445, of which \$564 was distributed to the managing general partner and \$55,881 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

-----

- (1) "Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

PARKER & PARSLEY 88-C CONV., L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1123

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-C Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-C Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

1129

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-C Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-C CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-C Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

1129

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$119,715 related to its proved oil and gas properties during 1998.

8

1130

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$35,215 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000       | 1999       |       |
|---|------------|------------|-------|
| Net income (loss) per statements of operations  | \$ 261,490 | \$ 69,459  | \$ (1 |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 21,929     | 37,157     |       |
| Impairment of oil and gas properties for financial reporting purposes   | -          | -          | 1     |
| Other, net  | (822)      | 3,106      |       |
|   | \$ 282,597 | \$ 109,722 | \$    |
| Net income per Federal income tax returns   | \$ 282,597 | \$ 109,722 | \$    |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000     | 1999     | 1998     |
|-------------------|----------|----------|----------|
| Development costs | \$ 2,067 | \$ 3,851 | \$ 5,337 |
|                   | \$ 2,067 | \$ 3,851 | \$ 5,337 |

Capitalized oil and gas properties consist of the following:

| 2000 | 1999 |
|------|------|
|------|------|

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                               |             |             |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000      | 1999      | 1998      |
|--|-----------|-----------|-----------|
|  | -----     | -----     | -----     |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 58,509 | \$ 56,225 | \$ 56,225 |
| Reimbursement of general and administrative expenses   | \$ 9,514  | \$ 1,096  | \$ 1,096  |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-C, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|  | Pioneer USA (1) | Partnerships (2) |
|--|-----------------|------------------|
|  | -----           | -----            |
| Revenues:  |                 |                  |
| Proceeds from disposition of depreciable properties                        | 9.09091%        | 90.90909%        |
| All other revenues   | 24.242425%      | 75.757575%       |
| Costs and expenses:  |                 |                  |
| Lease acquisition costs, drilling and completion costs and all other costs | 9.09091%        | 90.90909%        |
| Operating costs, direct costs and general and                              |                 |                  |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

administrative expenses 24.242425% 75.757575%

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and ten limited partner interests owned by Pioneer USA.
- (2) The allocation between the Partnership and Parker & Parsley 88-C, L.P. is 58.387538% and 41.612462%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

10

| Production                               | (14,136)               | (21,119)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 201,942                | 309,640      |
| Revisions                                | 35,970                 | 23,002       |
| Production                               | (15,453)               | (19,618)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 222,459                | 313,024      |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.56 per barrel of NGLs and \$7.78 per mcf of gas, discounted at 10% was approximately \$1,724,000 and undiscounted was approximately \$3,597,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  | 1999  | 1998  |
|-----------------------------|-------|-------|-------|
|                             | ----- | ----- | ----- |
| Plains Marketing, L.P.      | 52%   | 46%   | -     |
| Genesis Crude Oil, L.P.     | -     | -     | 51%   |
| Western Gas Resources, Inc. | 4%    | 6%    | 21%   |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$21,565 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's

1134

revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$3,411,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

1135

PARKER & PARSLEY 88-C CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 80% to \$443,642 for 2000 as compared to \$246,242 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 10,646 barrels of oil, 4,807 barrels of natural gas liquids ("NGLs") and 19,618 mcf of gas were sold, or 18,723 barrel of oil equivalents ("BOEs"). In 1999, 9,260 barrels of oil, 4,876 barrels of NGLs and 21,119 mcf of gas were sold, or 17,656 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.09, or 70%, from \$17.24 in 1999 to \$29.33 in 2000. The average price received per barrel of NGLs increased \$5.41, or 52%, from \$10.42 in 1999 to \$15.83 in 2000. The average price received per mcf of gas increased 66% from \$1.70 in 1999 to \$2.82 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Gain on disposition of assets of \$5,650 recognized in 2000 was due to equipment credits received from salvage income of \$4,703 on one well plugged and abandoned during the current year and \$947 on one fully depleted well.

Total costs and expenses increased in 2000 to \$192,070 as compared to \$178,895 in 1999, an increase of \$13,175, or 7%. The increase was primarily due to increases in production costs, general and administrative expenses ("G&A") and abandoned property costs, offset by a decline in depletion.

Production costs were \$151,650 in 2000 and \$131,165 in 1999, resulting in a \$20,485 increase, or 16%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

Abandoned property costs of \$2,166 during 2000 were related to the plugging and abandonment of one well during the current year.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 82% from \$7,217 in 1999 to \$13,129 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$9,514 in 2000 and \$1,096 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$25,125 in 2000 as compared to \$40,513 in 1999, representing a decrease of \$15,388, or 38%. This decrease was primarily due to a 26,409 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices, offset by an increase in oil production of 1,386 barrels for the period ended December 31, 2000 compared to the same period in 1999.

1136

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 23% to \$246,242 from \$200,460 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 9,260 barrels of oil, 4,876 barrels of NGLs and 21,119 mcf of gas were sold, or 17,656 BOEs. In 1998, 10,457 barrels of oil, 4,402 barrels of NGLs and 19,764 mcf of gas were sold, or 18,153 BOEs.

The average price received per barrel of oil increased \$3.94, or 30%, from \$13.30 in 1998 to \$17.24 in 1999. The average price received per barrel of NGLs increased \$3.48, or 50%, from \$6.94 in 1998 to \$10.42 in 1999. The average price received per mcf of gas increased 10% from \$1.55 in 1998 to \$1.70 in 1999.

A gain on disposition of assets of \$2,175 was recognized during 1998 from equipment credits on a well plugged and abandoned in 1997.

Total costs and expenses decreased in 1999 to \$178,895 as compared to \$366,001 in 1998, a decrease of \$187,106, or 51%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

costs, offset by an increase in G&A.

Production costs were \$131,165 in 1999 and \$142,438 in 1998, resulting in an \$11,273 decrease, or 8%. The decrease was due to declines in well maintenance costs, workover expenses and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 20% from \$5,997 in 1998 to \$7,217 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$1,096 in 1999 and \$2,651 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$119,715 related to its oil and gas properties during 1998.

Depletion was \$40,513 in 1999 compared to \$97,851 in 1998, representing a decrease of \$57,338, or 59%. This decrease was the result of a combination of factors that included an increase in proved reserves of 79,930 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,197 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

1137

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$155,222 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and gas sales receipts of \$199,556, offset by increases in production costs paid of \$20,485, G&A expenses paid of \$5,912, abandoned property costs paid of \$2,166 and working capital of \$15,771. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$164,214 to oil and gas receipts and an increase of \$35,342 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds from disposition of assets of \$5,650 recognized in 2000 was due to equipment credits received from salvage income of \$4,703 on one well plugged and abandoned during the current year and \$947 on one fully depleted well. Proceeds from disposition of assets of \$3,435 during 1999 were received from equipment credits on active wells.

### Net Cash Used in Financing Activities

For 2000, cash distributions to the partners were \$260,376, of which \$2,604 was distributed to the managing general partner and \$257,772 to the limited partners. In 1999, cash distributions to the partners were \$74,621, of which \$746 was distributed to the managing general partner and \$73,875 to the limited partners.

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 88-C, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-C, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

| -- as of December 31, 2000(c)  | \$ |
| Going Concern Value per \$1,000 Limited Partner Investment(c), (d)   | \$ |
| Liquidation Value per \$1,000 Limited Partner Investment(c), (e)   | \$ |
| Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)   | \$ |

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 88-C, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-C, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition and  
Results of Operations(1)

Results of Operations

Revenues:

The Partnership's oil and gas revenues increased 17% to \$79,813 for the three months ended March 31, 2001 as compared to \$68,027 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 1,537 barrels of oil, 674 barrels of natural gas liquids ("NGLs") and 2,517 mcf of gas

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

were sold, or 2,631 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 1,930 barrels of oil, 799 barrels of NGLs and 3,392 mcf of

6

1147

gas were sold, or 3,294 BOEs. Of the decrease, 631 BOEs are attributable to three wells reaching payout pursuant to the terms of the farmout agreements which reduced the Partnership's net revenue interest in the wells.

The average price received per barrel of oil increased \$3.74, or 14%, from \$26.37 for the three months ended March 31, 2000 to \$30.11 for the same period in 2001. The average price received per barrel of NGLs increased \$5.19, or 36%, from \$14.26 for the three months ended March 31, 2000 to \$19.45 for the same period in 2001. The average price received per mcf of gas increased 378% from \$1.70 during the three months ended March 31, 2000 to \$8.12 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$32,014 for the three months ended March 31, 2001 as compared to \$31,314 for the same period in 2000, an increase of \$700, or 2%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$25,472 for the three months ended March 31, 2001 and \$24,290 for the same period in 2000 resulting in a \$1,182 increase, or 5%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional workover costs incurred to stimulate well production, offset by a decline in lease operating and production taxes attributable to the wells that reached payout pursuant to the terms of the farmout agreements as noted above.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 17% from \$2,041 for the three months ended March 31, 2000 to \$2,394 for the same period in 2001, primarily due to an increase in the accrual for tax preparation fees.

Depletion was \$4,148 for the three months ended March 31, 2001 compared to \$4,983 for the same period in 2000, a decrease of \$835, or 17%. This decrease was primarily due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices and a decline in oil production of 393 barrels for the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$15,568 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$11,808 and a reduction of \$5,295 in working capital, offset by increases in production costs

1148

of \$1,182 and G&A expenses of \$353. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$33,173 to oil and gas receipts, offset by \$21,365 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional workover costs incurred to stimulate well production, offset by a decline in lease operating and production taxes attributable to the wells that reached payout pursuant to the terms of the farmout agreements. The increase in G&A was primarily due to an increase in the accrual for tax preparation fees.

#### Net Cash Used in Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active properties.

Proceeds from disposition of assets of \$120 recognized during the three months ended March 31, 2001 were due to equipment credits received on one active well.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$61,168, of which \$612 was distributed to the managing general partner and \$60,556 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$40,228, of which \$402 was distributed to the managing general partner and \$39,826 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

-----

- (1) "Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated

results described in the forward looking statements.

PARKER & PARSLEY 88-C, L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1150

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 88-C, L.P.

(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-C, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-C, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-C, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-C, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

**Oil and gas properties** - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

**Impairment of long-lived assets** - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

**Use of estimates in the preparation of financial statements** - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

**Net income (loss) per limited partnership interest** - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

**Income taxes** - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the

respective partners.

**Statements of cash flows** - For purposes of reporting cash flows, cash includes depository accounts held by banks.

**General and administrative expenses** - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$85,160 related to its proved oil and gas properties during 1998.

|                               | =====       | =====       |

NOTE 6. RELATED PARTY TRANSACTIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$41,699      | \$40,071      | \$39,194      |
| Reimbursement of general and administrative expenses   | \$ 6,776      | \$ 782        | \$ 1,889      |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-C Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|  | Pioneer USA(1)<br>----- | Partnerships (2)<br>----- |
|--|-------------------------|---------------------------|
| <b>Revenues:</b>   |                         |                           |
| Proceeds from disposition of depreciable properties                        | 9.09091%                | 90.90909%                 |
| All other revenues   | 24.242425%              | 75.757575%                |
| <b>Costs and expenses:</b>   |                         |                           |
| Lease acquisition costs, drilling and completion costs and all other costs | 9.09091%                | 90.90909%                 |
| Operating costs, direct costs and general and administrative expenses      | 24.242425%              | 75.757575%                |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and five limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 88-C Conv., L.P. is 41.612462% and 58.387538%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

established by the Securities and Exchange Commission.

| Production                               | (10,071)               | (15,049)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 143,934                | 220,694      |
| Revisions                                | 25,631                 | 16,368       |
| Production                               | (11,023)               | (13,979)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 158,542                | 223,083      |
|  | =====                  | =====        |

As of December 31, 2000 the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.56 per barrel of NGLs and \$7.78 per mcf of gas, discounted at 10% was approximately \$1,229,000 and undiscounted was \$2,564,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

1165

=====

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000<br>----- | 1999<br>----- | 19<br>----- |
|-----------------------------|---------------|---------------|-------------|
| Plains Marketing, L.P.      | 52%           | 45%           |             |
| Genesis Crude Oil, L.P.     | -             | -             |             |
| Western Gas Resources, Inc. | 4%            | 6%            |             |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$15,388 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's

revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

subscription agreements for aggregate capital contributions of \$2,431,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### PARKER & PARSLEY 88-C, L.P. (A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

##### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 80% to \$316,382 for 2000 as compared to \$175,483 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 7,593 barrels of oil, 3,430 barrels of natural gas liquids ("NGLs") and 13,979 mcf of gas were sold, or 13,353 barrel of oil equivalents ("BOEs"). In 1999, 6,595 barrels of oil, 3,476 barrels of NGLs and 15,049 mcf of gas were sold, or 12,579 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.09, or 70%, from \$17.24 in 1999 to \$29.33 in 2000. The average price received per barrel of NGLs increased \$5.41, or 52%, from \$10.42 in 1999 to \$15.83 in 2000. The average price received per mcf of gas increased 66% from \$1.70 in 1999 to \$2.82 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$4,027 recognized in 2000 was due to salvage income from equipment credits of \$3,352 on one well plugged and abandoned during the current year and \$675 on one fully depleted well.

Total costs and expenses increased in 2000 to \$137,222 as compared to \$127,758 in 1999, an increase of \$9,464, or 7%. The increase was primarily due to increases in production costs, general and administrative expenses ("G&A") and abandoned property costs, offset by a decline in depletion.

Production costs were \$108,093 in 2000 and \$93,481 in 1999, resulting in a \$14,612, or 16%, increase. The increase was primarily due to higher production taxes associated with higher oil and gas prices, additional well maintenance and workover costs incurred to stimulate well production.

1167

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Abandoned property costs of \$1,544 during 2000 were related to the plugging and abandonment of one well during the current year.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 78% from \$5,434 in 1999 to \$9,672 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$6,776 in 2000 and \$782 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

2000 as compared to \$28,843 in 1999, representing a decrease of \$10,930, or 38%. This decrease was primarily due to a 18,820 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices, offset by an increase in oil production of 998 barrels for the period ended December 31, 2000 compared to the same period in 1999.

1163

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 23% to \$175,483 from \$142,874 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 6,595 barrels of oil, 3,476 barrels of NGLs and 15,049 mcf of gas were sold, or 12,579 BOEs. In 1998, 7,453 barrels of oil, 3,143 barrels of NGLs and 14,091 mcf of gas were sold, or 12,945 BOEs.

The average price received per barrel of oil increased \$3.94, or 30%, from \$13.30 in 1998 to \$17.24 in 1999. The average price received per barrel of NGLs increased \$3.48, or 50%, from \$6.94 in 1998 to \$10.42 in 1999. The average price received per mcf of gas increased 10% from \$1.55 in 1998 to \$1.70 in 1999.

A gain on disposition of assets of \$1,550 was recognized during 1998 from equipment credits on a well plugged and abandoned in 1997.

Total costs and expenses decreased in 1999 to \$127,758 as compared to \$260,912 in 1998, a decrease of \$133,154, or 51%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$93,481 in 1999 and \$101,514 in 1998, resulting in an \$8,033, or 8%, decrease. The decrease was due to declines in well maintenance costs, workover expenses and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 26% from \$4,303 in 1998 to \$5,434 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$782 in 1999 and \$1,889 in 1998 for G&A incurred on behalf of the Partnership.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$85,160 related to its oil and gas properties during 1998.

Depletion was \$28,843 in 1999 compared to \$69,935 in 1998, representing a decrease of \$41,092, or 59%. This decrease was the result of a combination of factors that included an increase in proved reserves of 56,967 barrels of oil during 1999 due to higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 858 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

1164

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$110,523 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$142,369, offset by increases in production costs paid of \$14,612, G&A expenses paid of \$4,238, abandoned property costs paid of \$1,544 and working capital of \$11,452. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$116,842 to oil and gas receipts and an increase of \$25,527 resulting from an increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds from disposition of assets of \$4,027 during 2000 were due to salvage income from equipment credits of \$3,352 on one well plugged and abandoned during the current year and \$675 on one fully depleted well. Proceeds from disposition of assets of \$2,448 during 1999 were from equipment credits on active wells.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$185,568, of which \$1,856 was distributed to the managing general partner and \$183,712 to the limited partners. In 1999, cash distributions to the partners were \$53,182, of which \$532 was distributed to the managing general partner and \$52,650 to the limited partners.

1165

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley Producing Properties 88-A, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Producing Properties 88-A, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  
- the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
  
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
  
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
  
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
  
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
  
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on June , 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

(f) Not applicable. Since this partnership purchased producing properties, there were no intangible drilling and development costs nor any related write-off for tax purposes.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

Although not required by the partnership agreement for the partnership, special legal counsel will render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion will be submitted for approval by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

### PARKER & PARSLEY PRODUCING PROPERTIES 88-A, L.P. (A Delaware Limited Partnership)

#### NOTES TO FINANCIAL STATEMENTS March 31, 2001 (Unaudited)

#### Note 1. Organization and nature of operations

Parker & Parsley Producing Properties 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware.

The Partnership engages in oil and gas production in Texas and is not involved in any industry segment other than oil and gas.

#### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

Results of Operations

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Revenues:

The Partnership's oil and gas revenues increased 31% to \$195,445 for the three months ended March 31, 2001 as compared to \$149,416 for the same period in 2000. The increase in revenues resulted from higher average prices received and an increase in production. For the three months ended March 31, 2001, 4,417 barrels of oil, 1,856 barrels of natural gas liquids ("NGLs") and 8,730 mcf of gas were sold, or 7,728 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 3,708 barrels of oil, 2,352 barrels of NGLs and 9,789 mcf of gas were sold, or 7,692 BOEs.

7

1175

The average price received per barrel of oil decreased \$.58, or 2%, from \$27.98 for the three months ended March 31, 2000 to \$27.40 for the same period in 2001. The average price received per barrel of NGLs increased \$3.04, or 23%, from \$13.03 for the three months ended March 31, 2000 to \$16.07 for the same period in 2001. The average price received per mcf of gas increased 234% from \$1.53 during the three months ended March 31, 2000 to \$5.11 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gain on disposition of assets of \$9,859 recognized during the three months ended March 31, 2000 resulted from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses decreased to \$91,252 for the three months ended March 31, 2001 as compared to \$91,741 for the same period in 2000, a decrease of \$489. This decrease was primarily due to a decline production costs, offset by increases in depletion and general and administrative expenses ("G&A").

Production costs were \$65,335 for the three months ended March 31, 2001 and \$74,634 for the same period in 2000 resulting in a \$9,299 decrease, or 12%. This decrease was primarily due to less well maintenance costs, offset by higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 31% from \$4,482 for the three months ended March 31, 2000 to \$5,863 for the same period in 2001, primarily due to an increase in the accrual for tax preparation fees.

Depletion was \$20,054 for the three months ended March 31, 2001 as compared to \$12,625 for the same period in 2000, an increase of \$7,429, or 59%. This increase was primarily due to an increase in oil production of 709 barrels and to a downward revision to proved reserves on one well for the period ended March 31, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net cash provided by operating activities increased \$40,233 for the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$45,652 in oil and gas sales receipts and a decline in production costs of \$9,299, offset by increases in G&A expenses of \$1,381 and working capital of \$13,337. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$39,603 to oil and gas receipts and \$6,049 resulting from an increase in production during 2001 as compared to the same period in 2000. The decrease in production costs was primarily due to less well maintenance costs, offset by an increase in production taxes associated with higher oil and gas prices and. The increase in G&A was primarily due to an increase in the accrual for tax preparation fees.

8

1176

### Net Cash Provided by Investing Activities

Proceeds from asset dispositions of \$9,859 recognized during the three months ended March 31, 2000 resulted from equipment credits received on one fully depleted well.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$154,242, of which \$1,542 was distributed to the managing general partner and \$152,700 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$124,431, of which \$1,244 was distributed to the managing general partner and \$123,187 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

1179

PART I

ITEM 1. BUSINESS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Parker & Parsley Producing Properties 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 11,222 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 59% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that

its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of working interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

The Partnership completed one purchase of producing properties. This acquisition involved the purchase of working interests in 21 properties, all of which are operated by the managing general partner. In subsequent years, the Partnership participated in the drilling of three additional wells and one well was plugged and abandoned. At December 31, 2000 the Partnership had 23 producing oil and gas properties.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998, and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 11,222 outstanding limited partnership interests held of record by 507 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$458,003 and \$165,195, respectively,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 50% to \$742,384 for 2000 as compared to \$495,753 in 1999. The increase in revenues resulted from higher

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

average prices received, offset by a decline in production. In 2000, 17,170 barrels of oil, 9,806 barrels of natural gas liquids ("NGLs") and 37,939 mcf of gas were sold, or 33,299 barrel of oil equivalents ("BOEs"). In 1999, 19,878 barrels of oil, 10,402 barrels of NGLs and 44,467 mcf of gas were sold, or 37,691 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.62, or 75%, from \$16.82 for 1999 to \$29.44 in 2000. The average price received per barrel of NGLs increased \$5.10, or 56%, from \$9.18 for 1999 to \$14.28 in 2000. The average price received per mcf of gas increased 72%, from \$1.48 for 1999 to \$2.55 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$9,859 was recognized during 2000 from salvage income received on one fully depleted well.

Total costs and expenses decreased in 2000 to \$411,959 as compared to \$619,585 in 1999, a decrease of \$207,626, or 34%. This decrease was primarily the result of declines in the impairment of oil and gas properties and depletion, offset by increases in production costs and general and administrative expenses ("G&A").

Production costs were \$322,751 in 2000 and \$237,875 in 1999, resulting in an increase of \$84,876, or 36%. The increase was primarily due to additional workover expense and well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 50% from \$14,872 in 1999 to \$22,272 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$18,064 in 2000 and \$8,371 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$280,950 related to its oil and gas properties during 1999.

Depletion was \$66,936 in 2000 as compared to \$85,888 in 1999, representing a decrease of \$18,952, or 22%. This decrease was primarily due to a reduction in

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999 and a decline in oil production of 2,708 barrels for the period ended December 31, 2000 compared to the same period in 1999, offset by a 20,203 barrels of oil decrease in proved reserves during 2000 as a result of a significant well having lower reserves due to a revised decline curve.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 12% to \$495,753 from \$443,496 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 19,878 barrels of oil, 10,402 barrels of NGLs and 44,467 mcf of gas were sold, or 37,691 BOEs. In 1998, 22,482 barrels of oil, 12,009 barrels of NGLs and 51,099 mcf of gas were sold, or 43,008 BOEs.

The average price received per barrel of oil increased \$3.68, or 28%, from \$13.14 for 1998 to \$16.82 in 1999. The average price received per barrel of NGLs increased \$2.87, or 45%, from \$6.31 for 1998 to \$9.18 in 1999. The average price received per mcf of gas increased 5%, from \$1.41 for 1998 to \$1.48 in 1999.

Total costs and expenses increased in 1999 to \$619,585 as compared to \$471,884 in 1998, an increase of \$147,701, or 31%. This increase was primarily the result of increases in the impairment of oil and gas properties and G&A expenses, offset by declines in depletion and production costs.

Production costs were \$237,875 in 1999 and \$252,339 in 1998, resulting in a \$14,464, or 6%, decrease. The decrease was due to less well maintenance costs and ad valorem taxes, offset by an increase in production taxes due to the increase in oil and gas revenues.

During this period, G&A increased 12% from \$13,305 in 1998 to \$14,872 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$8,371 in 1999 and \$9,891 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$280,950 related to its oil and gas properties during 1999.

Depletion was \$85,888 in 1999 compared to \$206,240 in 1998. This represented a decrease of \$120,352, or 58%. This decrease was the result of an increase in proved reserves of 77,231 barrels of oil during 1999 as a result of higher commodity prices and a decline in oil production of 2,604

barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$159,721 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$251,009 and a decline in working capital of \$988, offset by increases in production costs paid of \$84,876 and G&A expenses paid of \$7,400. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$355,912 to oil and gas receipts, offset by \$104,903 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional workover expenses and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 were related to various upgrades of equipment.

Proceeds from asset dispositions of \$9,859 recognized during 2000 were from equipment credits received on one fully depleted well.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$462,629, of which \$4,626 was distributed to the managing general partner and \$458,003 to the limited partners. In 1999, cash distributions to the partners were \$166,787, of which \$1,592 was distributed to the managing general partner and \$165,195 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley Producing Properties 88-A, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley Producing Properties 88-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Producing Properties 88-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Producing Properties 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$280,950 related to its proved oil and gas properties during 1999.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$949,574 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

ended December 31:

|  | 2000       | 1999         | 1998        |

| Net oil and gas properties    | \$ 1,136,471             | \$ 1,202,625             |
|                               | =====                    | =====                    |

## NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 98,073     | \$ 91,828     | \$ 99,719     |
| Reimbursement of general and administrative expenses   | \$ 18,064     | \$ 8,371      | \$ 9,891      |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees Producing Properties 88-A ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|   | Pioneer USA (1)<br>----- | Partnership<br>----- |
|---|--------------------------|----------------------|
| Revenues:   |                          |                      |
| Revenues from oil and gas production, proceeds from sales of producing properties and all other revenues: |                          |                      |
| Before payout   | 4.040405%                | 95.959595%           |
| After payout (2)  | 19.191920%               | 80.808080%           |
| Costs and expenses:   |                          |                      |
| Property acquisition costs, operating costs, general and administrative expenses and other costs:         |                          |                      |
| Before payout   | 4.040405%                | 95.959595%           |
| After payout (2)  | 19.191920%               | 80.808080%           |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 78 limited partner interests owned by Pioneer USA.

(2) The Partnership reached payout in September 1997.

## NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

| Production                               | (34,491)               | (51,099)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 423,729                | 739,164      |
| Revisions                                | 113,184                | 157,201      |
| Production                               | (30,280)               | (44,467)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 506,633                | 851,898      |
| Revisions                                | (52,176)               | (249,428)    |
| Production                               | (26,976)               | (37,939)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 427,481                | 564,531      |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.90 per barrel of NGLs and \$7.43 per mcf of gas, discounted at 10% was approximately \$3,258,000 and undiscounted was \$6,795,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|-----------------------------|---------------|---------------|---------------|
| Plains Marketing, L.P.      | 59%           | 57%           | -             |
| Western Gas Resources, Inc. | 4%            | 6%            | 28%           |
| Genesis Crude Oil, L.P.     | -             | -             | 57%           |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$44,879 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total

19

1197

contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$5,611,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

## PART III

## ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name<br>-----        | Age at<br>December 31,<br>2000<br>----- | Position<br>-----   |
|----------------------|---|---|
| Scott D. Sheffield   | 48                                      | President   |
| Timothy L. Dove      | 44                                      | Executive Vice President, Chief<br>Financial Officer and Director |
| Dennis E. Fagerstone | 51                                      | Executive Vice President and Director                             |
| Mark L. Withrow      | 53                                      | Executive Vice President, General<br>Counsel and Director         |
| Danny Kellum         | 46                                      | Executive Vice President - Domestic<br>Operations and Directors   |
| Rich Dealy           | 34                                      | Vice President and Chief Accounting<br>Officer                    |

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

1199

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

22

1200

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the limited partnership agreement, Pioneer USA pays 1% of the Program's acquisition, drilling and completion costs and 1% of its operating, general and administrative expenses. In return, Pioneer USA is allocated 1% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 78 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

23

1201

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 98,073     | \$ 91,828     | \$ 99,719     |
| Reimbursement of general and administrative expenses   | \$ 18,064     | \$ 8,371      | \$ 9,891      |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY PRIVATE INVESTMENT 88, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley Private Investment 88, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Private Investment 88, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

year of initial investment

- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

-- as of March 31, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY PRIVATE INVESTMENT 88, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley Private Investment 88, L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 24% to \$339,232 for the three months ended March 31, 2001 as compared to \$274,206 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 7,599 barrels of oil, 2,038 barrels of natural gas liquids ("NGLs") and 14,638 mcf of gas were sold, or 12,077 barrel of oil equivalents ("BOEs"). For the three

6

1214

months ended March 31, 2000, 7,128 barrels of oil, 3,764 barrels of NGLs and 15,649 mcf of gas were sold, or 13,500 BOEs.

The average price received per barrel of oil increased \$.71, or 3%, from \$27.22 for the three months ended March 31, 2000 to \$27.93 for the same period in 2001. The average price received per barrel of NGLs increased \$4.83, or 34%, from \$14.02 for the three months ended March 31, 2000 to \$18.85 for the same period in 2001. The average price received per mcf of gas increased 246% from \$1.75 during the three months ended March 31, 2000 to \$6.05 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

##### Costs and Expenses:

Total costs and expenses increased to \$148,646 for the three months ended March 31, 2001 as compared to \$139,911 for the same period in 2000, an increase of \$8,735, or 6%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production costs were \$121,120 for the three months ended March 31, 2001 and \$110,748 for the same period in 2000 resulting in a \$10,372 increase, or 9%. The increase was primarily due to additional well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 3% from \$8,226 for the three months ended March 31, 2000 to \$8,481 for the same period in 2001, primarily due to an increase in the accrual for tax preparation fees.

Depletion was \$19,045 for the three months ended March 31, 2001 compared to \$20,937 for the same period in 2000, a decrease of \$1,892, or 9%. This decrease was primarily due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$69,275 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$65,272 and a reduction in working capital of \$14,630, offset by increases in production costs of \$10,372 and G&A expenses of \$255. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$90,763 to oil and gas receipts, offset by \$25,491 resulting from the

7

1215

decline in production during 2001 as compared to 2000. The increase in production costs was primarily due to additional well maintenance costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to an increase in the accrual for tax preparation fees.

#### Net Cash Used in Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$467 recognized during the three months ended March 31, 2000 were due to equipment credits received on one active well.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$236,965, of which \$2,370 was distributed to the managing general partner and \$234,595 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$160,897, of which \$1,609 was distributed to the managing general partner and \$159,288 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

-----

- (1) "Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1217

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley Private Investment 88, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley Private Investment 88, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

1218

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Private Investment 88, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

PARKER & PARSLEY PRIVATE INVESTMENT 88, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Private Investment 88, L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentation.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the

Partnership recognized a non-cash impairment provision of \$118,049 related to its proved oil and gas properties during 1998.

### NOTE 4. INCOME TAXES

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The financial statement basis of the Partnership's net assets and liabilities was \$148,226 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000<br>-----       | 1999<br>-----       |                |
|---|---------------------|---------------------|----------------|
| Net income (loss) per statements of operations  | \$ 789,392          | \$ 287,153          | \$ (19         |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 67,335              | 130,790             | 31             |
| Impairment of oil and gas properties for financial reporting purposes   | -                   | -                   | 11             |
| Other, net  | (1,469)             | 221                 | --             |
|   | -----               | -----               | --             |
| Net income per Federal income tax returns   | \$ 855,258<br>===== | \$ 418,164<br>===== | \$ 23<br>===== |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000<br>-----     | 1999<br>-----     | 1998<br>-----      |
|-------------------|-------------------|-------------------|--------------------|
| Development costs | \$ 8,806<br>===== | \$ 9,360<br>===== | \$ 14,794<br>===== |

Capitalized oil and gas properties consist of the following:

|                               | 2000<br>----          | 1999<br>----          |
|-------------------------------|-----------------------|-----------------------|
| Proved properties:            |                       |                       |
| Property acquisition costs    | \$ 76,042             | \$ 76,042             |
| Completed wells and equipment | 7,272,100             | 7,263,761             |
|                               | -----                 | -----                 |
|                               | 7,348,142             | 7,339,803             |
| Accumulated depletion         | (6,092,889)           | (6,015,639)           |
|                               | -----                 | -----                 |
| Net oil and gas properties    | \$ 1,255,253<br>===== | \$ 1,324,164<br>===== |

## NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- |
|--|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 164,64     |
| Reimbursement of general and administrative expenses   | \$ 29,88      |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and the Partnership are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|  | Pioneer USA (1)<br>----- | Partnership<br>----- |
|--|--------------------------|----------------------|
| Revenues:  |                          |                      |
| Proceeds from disposition of depreciable properties                        | 9.09091%                 | 90.90909%            |
| All other revenues   | 24.242425%               | 75.757575%           |
| Costs and expenses:  |                          |                      |
| Lease acquisition costs, drilling and completion costs and all other costs | 9.09091%                 | 90.90909%            |
| Operating costs, direct costs and general and administrative expenses      | 24.242425%               | 75.757575%           |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

## NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
|  | -----                  | -----        |
| Net proved reserves at January 1, 1998   | 642,625                | 841,260      |
| Revisions                                | (223,184)              | (203,072)    |
| Production                               | (48,933)               | (61,718)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 370,508                | 576,470      |
| Revisions                                | 353,229                | 566,412      |
| Production                               | (48,802)               | (66,701)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 674,935                | 1,076,181    |
| Revisions                                | 142,138                | (79,131)     |
| Production                               | (46,284)               | (59,532)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 770,789                | 937,518      |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.25 per barrel of NGLs and \$7.86 per mcf of gas, discounted at 10% was approximately \$5,885,000 and undiscounted was \$12,796,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

#### Disclosures about Oil & Gas Producing Activities

##### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|-----------------------------|---------------|---------------|---------------|
| Plains Marketing, L.P.      | 55%           | 52%           | -             |
| Genesis Crude Oil, L.P.     | -             | -             | 63%           |
| Western Gas Resources, Inc. | 4%            | 5%            | 21%           |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$52,075 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. The managing general partner is also responsible for

12

1228

1% of the guaranty and loan commitment fees. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$9,960,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

PARKER & PARSLEY PRIVATE INVESTMENT 88, L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 63% to \$1,311,024 for 2000 as compared to \$805,538 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 30,403 barrels of oil, 15,881 barrels of natural gas liquids ("NGLs") and 59,532 mcf of gas were sold, or 56,206 barrel of oil equivalents ("BOEs"). In 1999, 30,947 barrels of oil, 17,855 barrels of NGLs and 66,701 mcf of gas were sold, or 59,919 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.44, or 73%, from \$17.01 in 1999 to \$29.45 in 2000. The average price received per barrel of NGLs increased \$6.29, or 67%, from \$9.32 in 1999 to \$15.61 in 2000. The average price received per mcf of gas increased 67% from \$1.69 in 1999 to \$2.82 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$535,959 as compared to \$526,775 in 1999, an increase of \$9,184, or 2%. The increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$425,425 in 2000 and \$361,694 in 1999, resulting in a \$63,731 increase, or 18%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 38% from \$24,166 in 1999 to \$33,284 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$29,882 in 2000 and \$18,547 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$77,250 in 2000 compared to \$140,915 in 1999, representing a

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

decrease of \$63,665, or 45%. This decrease was primarily due to a 111,058 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 25% to \$805,538 from \$645,636 in 1998. The increase in revenues resulted from higher average prices received. In 1999, 30,947 barrels of oil, 17,855 barrels of NGLs and 66,701 mcf of gas

1230

were sold, or 59,919 BOEs. In 1998, 33,377 barrels of oil, 15,556 barrels of NGLs and 61,718 mcf of gas were sold, or 59,219 BOEs.

The average price received per barrel of oil increased \$3.70, or 28%, from \$13.31 in 1998 to \$17.01 in 1999. The average price received per barrel of NGLs increased \$2.53, or 37%, from \$6.79 in 1998 to \$9.32 in 1999. The average price received per mcf of gas increased 9% from \$1.55 in 1998 to \$1.69 in 1999.

Total costs and expenses decreased in 1999 to \$526,775 as compared to \$854,253 in 1998, a decrease of \$327,478, or 38%. The decrease was due to declines in depletion, the impairment of oil and gas properties and production costs, offset by an increase in G&A.

Production costs were \$361,694 in 1999 and \$390,754 in 1998, resulting in a \$29,060 decrease, or 7%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 34% from \$17,997 in 1998 to \$24,166 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$18,547 in 1999 and \$14,864 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$118,049 related to its oil and gas properties during 1998.

Depletion was \$140,915 in 1999 compared to \$327,453 in 1998, representing a decrease of \$186,538, or 57%. This decrease was the result of an increase in proved reserves of 220,875 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

1231

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$402,704 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$511,423, offset by increases in production costs paid of \$63,731, G&A expenses paid of \$9,118 and working capital of \$35,870. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$578,466 to oil and gas receipts, offset by \$67,043 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds recognized during 2000 of \$467 were due to equipment credits received on an active property.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$803,002, of which \$8,030 was distributed to the managing general partner and \$794,972 to the limited partners. In 1999, cash distributions to the partners were \$312,790, of which \$3,128 was distributed to the managing general partner and \$309,662 to the limited partners.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 89-A CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 89-A Conv., L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 89-A Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

PARKER & PARSLEY 89-A CONV., L.P.

SUPPLEMENTAL INFORMATION TABLE

|   |          |
|---|----------|
| Aggregate Initial Investment by the Limited Partners (a)  | \$ 2,797 |
| Aggregate Historical Limited Partner Distributions through July 31, 2001 (a)  | \$ 2,993 |
| Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA (a), (b)  | \$ 923   |
| Merger Value per \$1,000 Limited Partner Investment (b), (c)  | \$329.99 |
| Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 (b), (c) | 3.50 t   |
| Book Value per \$1,000 Limited Partner Investment:  |          |
| -- as of March 31, 2001 (c)   | \$153.81 |
| -- as of December 31, 2000 (c)  | \$158.81 |
| Going Concern Value per \$1,000 Limited Partner Investment (c), (d)   | \$308.46 |
| Liquidation Value per \$1,000 Limited Partner Investment (c), (e)   | \$320.29 |
| Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f)   | \$ 149   |

- 
- (a) Stated in thousands.
  - (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
  - (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
  - (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
  - (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
  - (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 89-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 89-A Conv., L.P. (the "Partnership") was organized in 1989 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1990.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition and  
Results of Operations(1)

Results of Operations

Revenues:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's oil and gas revenues increased 36% to \$110,224 for the three months ended March 31, 2001 as compared to \$81,009 for the same period in 2000. The increase in revenues resulted from higher average prices received and an increase in production. For the three months ended March 31, 2001, 2,177 barrels of oil, 839 barrels of natural gas liquids ("NGLs") and 5,605 mcf of gas were sold, or 3,950 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 2,078 barrels of oil, 1,072 barrels of NGLs and 4,757 mcf of gas were sold, or 3,943 BOEs.

The average price received per barrel of oil increased \$.62, or 2%, from \$27.48 for the three months ended March 31, 2000 to \$28.10 for the same period in 2001. The average price received per barrel of NGLs increased \$3.52, or 25%, from

6

1241

\$13.84 for the three months ended March 31, 2000 to \$17.36 for the same period in 2001. The average price received per mcf of gas increased 223% from \$1.91 during the three months ended March 31, 2000 to \$6.16 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gain on disposition of assets of \$3,713 was recognized during the three months ended March 31, 2001 from equipment salvage received on one well plugged and abandoned during the current period. Abandoned property costs of \$2,335 were incurred to plug and abandon this well.

### Costs and Expenses:

Total costs and expenses increased to \$45,636 for the three months ended March 31, 2001 as compared to \$40,176 for the same period in 2000, an increase of \$5,460, or 14%. This increase was due to increases in abandoned property costs, production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$33,385 for the three months ended March 31, 2001 and \$31,408 for the same period in 2000 resulting in a \$1,977 increase, or 6%. The increase was primarily due to higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 60% from \$2,441 for the three months ended March 31, 2000 to \$3,912 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$6,004 for the three months ended March 31, 2001 compared to \$6,327 for the same period in 2000, a decrease of \$323, or 5%. This decrease was primarily due to downward revisions to proved reserves on several wells during the three months ended March 31, 2001, offset by an increase in oil production of 99 barrels for the period ended March 31, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$30,127 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$29,329 and a reduction in working capital of \$6,581, offset by increases in production costs of \$1,977, G&A expenses of \$1,471 and abandoned property costs of \$2,335. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$25,364 to oil and gas receipts and \$3,965 resulting from the increase in production during 2001 as compared to the

7

1242

same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

### Net Cash Used in Investing Activities

For the three months ended March 31, 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$83,321, of which \$833 was distributed to the managing general partner and \$82,488 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$50,740, of which \$507 was distributed to the managing general partner and \$50,233 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1244

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 89-A Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 89-A Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 89-A Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

1249

PARKER & PARSLEY 89-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 89-A Conv., L.P. (the "Partnership") was organized in 1989 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1990. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

7

1250

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the

8

1251

Partnership recognized a non-cash impairment provision of \$6,198 and \$103,108 related to its proved oil and gas properties during 2000 and 1998, respectively.

#### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$52,175 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000       | 1999       | 1998         |
|---|------------|------------|--------------|
|   | -----      | -----      | -----        |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000     | 1999     | 1998     |
|--|----------|----------|----------|
|  | -----    | -----    | -----    |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$52,987 | \$52,678 | \$51,730 |
| Reimbursement of general and administrative expenses   | \$10,994 | \$ 7,203 | \$ 5,808 |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 89-A Conv., Ltd. ("EMPL"), Parker & Parsley 89-A, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000,

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|                 |                  |
|-----------------|------------------|
| Pioneer USA (1) | Partnerships (2) |
| -----           | -----            |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Revenues:

|  |            |            |
|--|------------|------------|
| Proceeds from disposition of depreciable and depletable properties - |            |            |
| First three years  | 14.141414% | 85.858586% |
| After first three years  | 19.191919% | 80.808081% |
| All other revenues -   |            |            |
| First three years  | 14.141414% | 85.858586% |
| After first three years  | 19.191919% | 80.808081% |

Costs and expenses:

|   |            |            |
|---|------------|------------|
| Lease acquisition costs, drilling and completion costs and all other costs              | 9.090909%  | 90.909091% |
| Operating costs, reporting and legal expenses and general and administrative expenses - |            |            |
| First three years   | 14.141414% | 85.858586% |
| After first three years   | 19.191919% | 80.808081% |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

(2) The allocation between the Partnership and Parker & Parsley 89-A, L.P. is 25.166457% and 74.833543%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

1252

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.34 per barrel of NGLs and \$8.31 per mcf of gas, discounted at 10% was approximately \$1,685,000 and undiscounted \$3,469,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000 | 1999 | 1998 |
|-----------------------------|------|------|------|
|                             | ---- | ---- | ---- |
| Plains Marketing, L.P.      | 63%  | 62%  | -    |
| Genesis Crude Oil, L.P.     | -    | -    | 59%  |
| Western Gas Resources, Inc. | 3%   | 3%   | 12%  |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$22,502 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The

1255

majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$2,797,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

PARKER & PARSLEY 89-A CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 59% to \$383,529 for 2000 as compared to \$241,781 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 8,466 barrels of oil, 4,626 barrels of natural gas liquids ("NGLs") and 20,057 mcf of gas were sold, or 16,435 barrel of oil equivalent ("BOEs"). In 1999, 9,190 barrels of oil, 4,976 barrels of NGLs and 20,484 mcf of gas were sold, or 17,580 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.48, or 73%, from \$17.11 in 1999 to \$29.59 in 2000. The average price received per barrel of NGLs increased \$5.88, or 62%, from \$9.54 in 1999 to \$15.42 in 2000. The average price received per mcf of gas increased 70% from \$1.81 in 1999 to \$3.07 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

During 2000 and 1999, gains on disposition of assets of \$1,765 and \$1,483, respectively, were attributable to credits received from equipment salvage on one fully depleted well in each year.

Total costs and expenses increased in 2000 to \$175,856 as compared to \$167,660 in 1999, an increase of \$8,196, or 5%. The increase was due to increases in production costs, the impairment of oil and gas properties and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$135,124 in 2000 and \$118,700 in 1999, resulting in a \$16,424 increase, or 14%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 29% from \$9,612 in 1999 to \$12,370 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$10,994 in 2000 and \$7,203 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$6,198 related to its oil and gas properties during 2000.

1257

Depletion was \$22,165 in 2000 as compared to \$39,348 in 1999, representing a decrease of \$17,183, or 44%. This decrease was primarily due to a 28,723 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 23% to \$241,781 from \$196,186 in 1998. The increase in revenues resulted from higher average prices received. In 1999, 9,190 barrels of oil, 4,976 barrels of natural gas liquids ("NGLs") and 20,484 mcf of gas were sold, or 17,580 barrel of oil equivalents ("BOEs"). In 1998, 9,782 barrels of oil, 4,320 barrels of NGLs and 21,106 mcf of gas were sold, or 17,620 BOEs.

The average price received per barrel of oil increased \$3.88, or 29%, from \$13.23 in 1998 to \$17.11 in 1999. The average price received per barrel of NGLs increased \$2.59, or 37%, from \$6.95 in 1998 to \$9.54 in 1999. The average price received per mcf of gas increased 4% from \$1.74 in 1998 to \$1.81 in 1999.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

During 1999, gain on disposition of assets of \$1,483 was attributable to credits received from equipment salvage on one active well. Gain on disposition of assets of \$648 was attributable to credits received in 1998 from the disposal of oil and gas equipment on a well that was plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$167,660 as compared to \$349,225 in 1998, a decrease of \$181,565, or 52%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$118,700 in 1999 and \$121,865 in 1998, resulting in a \$3,165 decrease, or 3%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes.

During this period, G&A increased 37% from \$7,006 in 1998 to \$9,612 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$7,203 in 1999 and \$5,808 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$103,108 related to its oil and gas properties during 1998.

Depletion was \$39,348 in 1999 compared to \$117,246 in 1998, representing a decrease of \$77,898, or 66%. This decrease was primarily due to an increase in proved reserves of 70,433 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

1258

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$118,472 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$143,417, offset by increases in production costs paid of \$16,424, G&A expenses paid of \$2,758 and working capital of \$5,763. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$171,552 to oil and gas receipts, offset by \$28,135 resulting from the decline in production during 2000. The

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and workover and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 were related to equipment upgrades on active properties.

During 2000 and 1999, proceeds from disposition of assets of \$1,765 and \$1,483, respectively, were from equipment credits received on an active well.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$226,382, of which \$2,264 was distributed to the managing general partner and \$224,118 to the limited partners. In 1999, cash distributions to the partners were \$80,698, of which \$807 was distributed to the managing general partner and \$79,891 to the limited partners.

1259

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 89-A, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 89-A, L.P.:

- o A table containing:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the aggregate initial investment by the limited partners
  
- the aggregate historical limited partner distributions through July 31, 2001
  
- the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  
- the merger value per \$1,000 limited partner investment
  
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  
  
- the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  
  
- the going concern value per \$1,000 limited partner investment
  
- the liquidation value per \$1,000 limited partner investment
  
  
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
  
  
- o Information about:
  - the legal opinion for the limited partners
  
  - the term of the partnership
  
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
  
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000

SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

1260

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of March 31, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

(f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 89-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 89-A, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 36% to \$327,815 for the three months ended March 31, 2001 as compared to \$240,830 for the same period in 2000. The increase in revenues resulted from higher average prices received and a slight increase in production. For the three months ended March 31, 2001, 6,466 barrels of oil, 2,508 barrels of natural gas liquids ("NGLs") and 16,665 mcf of gas were sold, or 11,752 barrel of oil equivalents ("BOEs"). For the three

7

1269

months ended March 31, 2000, 6,179 barrels of oil, 3,187 barrels of NGLs and 14,142 mcf of gas were sold, or 11,723 BOEs.

The average price received per barrel of oil increased \$.62, or 2%, from \$27.48 for the three months ended March 31, 2000 to \$28.10 for the same period in 2001. The average price received per barrel of NGLs increased \$3.52, or 25%, from \$13.84 for the three months ended March 31, 2000 to \$17.36 for the same period in 2001. The average price received per mcf of gas increased 223% from \$1.91 during the three months ended March 31, 2000 to \$6.16 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gain on disposition of assets of \$11,040 was recognized during the three months ended March 31, 2001 from equipment salvage received on one well plugged and abandoned during the current period. Abandoned property costs of \$8,824 were incurred to plug and abandon this well.

##### Costs and Expenses:

Total costs and expenses increased to \$137,282 for the three months ended March 31, 2001 as compared to \$119,641 for the same period in 2000, an increase of \$17,641, or 15%. This increase was due to increases in abandoned property costs, production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$98,933 for the three months ended March 31, 2001 and \$93,383 for the same period in 2000 resulting in a \$5,550 increase, or 6%. The increase was primarily due to higher production taxes associated with higher oil and gas prices, offset by lower well maintenance costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

increased 57%, from \$7,458 for the three months ended March 31, 2000 to \$11,707 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$17,818 for the three months ended March 31, 2001 as compared to \$18,800 for the same period in 2000, a decrease of \$982, or 5%. This decrease was primarily due to downward revisions to proved reserves on several wells during the three months ended March 31, 2001, offset by an increase in oil production of 287 barrels for the period ended March 31, 2001 as compared to the same period in 2000.

8

1270

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$90,071 during the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$87,294 in oil and gas sales receipts and a reduction in working capital of \$21,400, offset by increases in abandoned property costs of \$8,824, production costs of \$5,550 and G&A expenses of \$4,249. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$75,474 to oil and gas receipts and \$11,820 resulting from the increase in production during 2001 as compared to the same period in 2000. The increase in abandoned property costs was due to one well being plugged and abandoned in the current year. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices, offset by lower well maintenance costs. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

#### Net Cash Used in Investing Activities

The Partnership's investing activities during the three months ended March 31, 2000 were related to upgrades of oil and gas equipment on active properties.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$247,760, of which \$2,478 was distributed to the managing general partner and \$245,282 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$150,878, of which \$1,509 was distributed to the managing general partner and \$149,369 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

The following documents are incorporated by reference into the indicated parts of this Annual Report on Form 10-K: None

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

1274

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 89-A, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 8,317 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 63% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and

2

1275

ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located in the Spraberry Trend area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 33 oil and gas wells. One well has been plugged and abandoned. At December 31, 2000, 32 wells were producing.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

1276

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTEREST AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 8,317 outstanding limited partnership interests held of record by 609 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$666,425 and \$237,558, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

1277

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 59% to \$1,140,280 for 2000 as compared to \$718,969 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 25,176 barrels of oil, 13,747 barrels of natural gas liquids ("NGLs") and 59,638 mcf of gas were sold, or 48,863 barrel of oil equivalents ("BOEs"). In 1999, 27,333 barrels of oil, 14,796 barrels of NGLs and 60,905 mcf of gas were sold, or 52,280 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.48, or 73%, from \$17.11 in 1999 to \$29.59 in 2000. The average price received per barrel of NGLs increased \$5.88, or 62%, from \$9.54 in 1999 to \$15.42 in 2000. The average price received per mcf of gas increased 70% from \$1.81 in 1999 to \$3.07 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gains on disposition of assets of \$5,248 and \$4,410 in 2000 and 1999, respectively, were attributable to equipment credits on one fully depleted well in each year.

Total costs and expenses increased in 2000 to \$523,646 as compared to \$498,672 in 1999, an increase of \$24,974, or 5%. The increase was primarily due to increases in production costs, the impairment of oil and gas properties and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$402,118 in 2000 and \$352,977 in 1999, resulting in an

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

increase of \$49,141, or 14%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 31% from \$28,521 in 1999 to \$37,259 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$32,691 in 2000 and \$21,420 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

5

1278

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$18,391 related to its oil and gas properties during 2000.

Depletion was \$65,878 in 2000 as compared to \$117,174 in 1999, representing a decrease of \$51,296, or 44%. This decrease was primarily due to a 85,285 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 23% to \$718,969 from \$583,396 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 27,333 barrels of oil, 14,796 barrels of NGLs and 60,905 mcf of gas were sold, or 52,280 BOEs. In 1998, 29,084 barrels of oil, 12,847 barrels of NGLs and 62,751 mcf of gas were sold, or 52,390 BOEs.

The average price received per barrel of oil increased \$3.88, or 29%, from \$13.23 in 1998 to \$17.11 in 1999. The average price received per barrel of NGLs increased \$2.59, or 37%, from \$6.95 in 1998 to \$9.54 in 1999. The average price received per mcf of gas increased 4% from \$1.74 in 1998 to \$1.81 in 1999.

Gain on disposition of assets of \$4,410 in 1999 was attributable to equipment credits on one fully depleted well. During 1998, gain on disposition of assets of \$1,926 was attributable to credits received from the disposal of oil and gas equipment on a well that was plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$498,672 as compared to \$1,038,152 in 1998, a decrease of \$539,480, or 52%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production costs were \$352,977 in 1999 and \$362,377 in 1998, resulting in a \$9,400 decrease, or 3%. The decrease was due to declines in ad valorem taxes and well maintenance costs, offset by an increase in workover costs incurred to stimulate well production and an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 38% from \$20,635 in 1998 to \$28,521 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$21,420 in 1999 and \$17,270 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$306,826 related to its oil and gas properties during 1998.

6

1279

Depletion was \$117,174 in 1999 compared to \$348,314 in 1998. This represented a decrease of \$231,140, or 66%. This decrease was primarily due to an increase in proved reserves of 209,480 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$351,738 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$426,425, offset by increases in production costs paid of \$49,141, G&A expenses paid of \$8,738 and working capital of \$16,808. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$510,320 to oil and gas receipts, offset by \$83,895 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and gas revenues.

Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to expenditures for equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$5,248 and \$4,410 recognized in 2000 and 1999, respectively, were from equipment credits received on one fully depleted well in each year.

Net Cash Used in Financing Activities

For 2000, cash distributions to the partners were \$673,157, of which \$6,732 was distributed to the managing general partner and \$666,425 to the limited partners. For 1999, cash distributions to the partners were \$239,958, of which \$2,400 was distributed to the managing general partner and \$237,558 to the limited partners.

INDEPENDENT AUDITORS' REPORT

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partners  
Parker & Parsley 89-A, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 89-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 89-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 89-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 89-A, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of

1283

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

14

1287

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$18,391 and \$306,826 related to its proved oil and gas properties during 2000 and 1998, respectively.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$155,457 greater than the tax basis at December 31, 2000.

15

1288

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000<br>-----       | 1999<br>-----       | 1998<br>-----       |
|---|---------------------|---------------------|---------------------|

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the net costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

1285

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                   | 2000<br>-----     | 1999<br>-----      | 1998<br>-----      |
|-------------------|-------------------|--------------------|--------------------|
| Development costs | \$ 7,310<br>===== | \$ 12,213<br>===== | \$ 16,919<br>===== |

Capitalized oil and gas properties consist of the following:

|                               | 2000<br>-----         | 1999<br>-----         |
|-------------------------------|-----------------------|-----------------------|
| Proved properties:            |                       |                       |
| Property acquisition costs    | \$ 279,410            | \$ 279,410            |
| Completed wells and equipment | 6,280,166<br>-----    | 6,272,856<br>-----    |
|                               | 6,559,576             | 6,552,266             |
| Accumulated depletion         | (5,531,818)<br>-----  | (5,447,549)<br>-----  |
| Net oil and gas properties    | \$ 1,027,758<br>===== | \$ 1,104,717<br>===== |

16

1289

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 157,560    | \$ 156,639    | \$ 153,822    |
| Reimbursement of general and administrative expenses   | \$ 32,691     | \$ 21,420     | \$ 17,270     |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 89-A Conv., Ltd. ("EMPL"), Parker & Parsley 89-A Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL

1286

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|   | Pioneer USA (1) | Partnerships (2) |
|---|-----------------|------------------|
| <b>Revenues:</b>  |                 |                  |
| Proceeds from disposition of depreciable and depletable properties -                    |                 |                  |
| First three years   | 14.141414%      | 85.858586%       |
| After first three years   | 19.191919%      | 80.808081%       |
| All other revenues -  |                 |                  |
| First three years   | 14.141414%      | 85.858586%       |
| After first three years   | 19.191919%      | 80.808081%       |
| <b>Costs and expenses:</b>  |                 |                  |
| Lease acquisition costs, drilling and completion costs and all other costs              | 9.090909%       | 90.909091%       |
| Operating costs, reporting and legal expenses and general and administrative expenses - |                 |                  |
| First three years   | 14.141414%      | 85.858586%       |
| After first three years   | 19.191919%      | 80.808081%       |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 105 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 89-A Conv., L.P. is 74.833543% and 25.166457%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |

|  | -----    | -----    |
| Net proved reserves at December 31, 2000 | 602,534  | 847,856  |
|  | =====    | =====    |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.34 per barrel of NGLs and \$8.31 per mcf of gas, discounted at 10% was approximately \$5,009,000 and undiscounted was \$10,314,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

#### Disclosures about Oil & Gas Producing Activities

##### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  | 1999  | 1998  |
|-----------------------------|-------|-------|-------|
|                             | ----- | ----- | ----- |
| Plains Marketing, L.P.      | 63%   | 62%   | -     |
| Genesis Crude Oil, L.P.     | -     | -     | 59%   |
| Western Gas Resources, Inc. | 3%    | 3%    | 12%   |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$66,937 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

19

1292

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$8,317,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B.S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

22

1295

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 105 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

23

1296

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$157,560     | \$ 156,639    | \$153,822     |
| Reimbursement of general and administrative expenses   | \$ 32,691     | \$ 21,420     | \$ 17,270     |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

oil and gas activities of the Program.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 89-B CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

THE DATE OF THIS SUPPLEMENT IS , 2001

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

This document contains important information specific to Parker & Parsley 89-B Conv., L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 89-B Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

| Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment<br>(c), (f)   | \$ |

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 89-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 89-B Conv., L.P. (the "Partnership") was organized as a general partnership in 1989 under the laws of the State of Texas and was converted to a Delaware limited partnership on May 30, 1990.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition and  
Results of Operations(1)

Results of Operations

Revenues:

The Partnership's oil and gas revenues increased 22% to \$242,302 for the three

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

months ended March 31, 2001 as compared to \$198,773 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 4,701 barrels of oil, 1,784 barrels of natural gas liquids ("NGLs") and 12,480 mcf of gas were sold, or 8,565 barrel of oil equivalents ("BOEs"). For the three months

6

1309

ended March 31, 2000, 5,036 barrels of oil, 2,823 barrels of NGLs and 11,218 mcf of gas were sold, or 9,729 BOEs.

The average price received per barrel of oil increased \$1.28, or 5%, from \$27.13 for the three months ended March 31, 2000 to \$28.41 for the same period in 2001. The average price received per barrel of NGLs increased \$4.56, or 31%, from \$14.82 for the three months ended March 31, 2000 to \$19.38 for the same period in 2001. The average price received per mcf of gas increased 232% from \$1.79 during the three months ended March 31, 2000 to \$5.95 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$112,177 for the three months ended March 31, 2001 as compared to \$103,469 for the same period in 2000, an increase of \$8,708, or 8%. This increase was due to increases in depletion, production costs and general and administrative expenses ("G&A").

Production costs were \$85,210 for the three months ended March 31, 2001 and \$82,217 for the same period in 2000 resulting in a \$2,993 increase, or 4%. The increase was due to higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 41% from \$5,963 for the three months ended March 31, 2000 to \$8,379 for the same period in 2001 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$18,588 for the three months ended March 31, 2001 as compared to \$15,289 for the same period in 2000, an increase of \$3,299, or 22%. This increase was primarily due to downward revisions to proved reserves on several wells for the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$52,389 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$43,781 and a reduction of \$14,017 in working capital, offset by increases in production costs of \$2,993 and G&A expenses of \$2,416. The increase in oil and gas receipts

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

resulted from the increase in commodity prices during 2001 which contributed an

7

1310

additional \$65,914 to oil and gas receipts, offset by \$22,133 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

### Net Cash Used in Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$168,850, of which \$1,689 was distributed to the managing general partner and \$167,161 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$90,992, of which \$910 was distributed to the managing general partner and \$90,082 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1312

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 89-B Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the accompanying balance sheets of Parker & Parsley 89-B Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 89-B Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

6

1317

PARKER & PARSLEY 89-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 89-B Conv., L.P. (the "Partnership") was organized as a general partnership in 1989 under the laws of the State of Texas and was converted to a Delaware limited partnership on May 30, 1990. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Financial Accounting Standards No. 121. "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

1318

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$27,748 and \$262,396 related to its proved oil and gas properties during 2000 and 1998, respectively.

8

1319

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$191,325 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000<br>-----       | 1999<br>-----       | 1998<br>-----       |
|---|---------------------|---------------------|---------------------|
| Net income (loss) per statements of operations  | \$ 433,269          | \$ 121,713          | \$ (366,035)        |
| Impairment of oil and gas properties for financial reporting purposes   | 27,748              | -                   | 262,396             |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 57,991              | 91,381              | 226,609             |
| Other, net  | (1,014)             | (2,514)             | 2,725               |
|   | -----               | -----               | -----               |
| Net income per Federal income tax returns   | \$ 517,994<br>===== | \$ 210,580<br>===== | \$ 125,695<br>===== |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|-------------------|---------------|---------------|---------------|
| Development costs | \$ 10,434     | \$ 7,556      | \$ 10,801     |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  | 2000                     | 1999                     |
|--|--------------------------|--------------------------|
|  | -----                    | -----                    |
| Capitalized oil and gas properties consist of the following: |                          |                          |
| Proved properties:   |                          |                          |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000       | 1999       | 1998       |
|--|------------|------------|------------|
|  | -----      | -----      | -----      |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 133,513 | \$ 129,059 | \$ 124,312 |
| Reimbursement of general and administrative expenses   | \$ 25,658  | \$ 16,168  | \$ 14,082  |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and P&P Employees 89-B Conv., L.P. ("EMPL"), Parker & Parsley 89-B, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|           | Pioneer USA (1) | Partnerships (2) |
|-----------|-----------------|------------------|
|           | -----           | -----            |
| Revenues: |                 |                  |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|   |            |            |
|---|------------|------------|
| Proceeds from disposition of depreciable and depletable properties -                    |            |            |
| First three years   | 14.141414% | 85.858586% |
| After first three years   | 19.191919% | 80.808081% |
| All other revenues -  |            |            |
| First three years   | 14.141414% | 85.858586% |
| After first three years   | 19.191919% | 80.808081% |
| Costs and expenses:   |            |            |
| Lease acquisition costs, drilling and completion costs and all other costs              | 9.090909%  | 90.909091% |
| Operating costs, reporting and legal expenses and general and administrative expenses - |            |            |
| First three years   | 14.141414% | 85.858586% |
| After first three years   | 19.191919% | 80.808081% |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 20 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 89-B, L.P. is 47.578455% and 52.421545%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.35 per barrel of NGLs and \$7.90 per mcf of gas, discounted at 10% was approximately \$3,414,000 and undiscounted was \$6,785,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000 | 1999 | 1998 |
|-----------------------------|------|------|------|
| Plains Marketing, L.P.      | 55%  | 51%  | -    |
| Genesis Crude Oil, L.P.     | -    | -    | 59%  |
| Western Gas Resources, Inc. | 4%   | 6%   | 26%  |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$37,745 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating, general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of undistributed profits.

12

1323

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$6,307,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

1324

PARKER & PARSLEY 89-B CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 61% to \$873,058 for 2000 as compared to \$542,232 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 19,708 barrels of oil, 11,251 barrels of natural gas liquids ("NGLs") and 42,179 mcf of gas were sold, or 37,989 barrel of oil equivalents ("BOEs"). In 1999, 20,322 barrels of oil, 12,263 barrels of NGLs and 46,681 mcf of gas were sold, or 40,365 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.25, or 72%, from \$16.96 in 1999 to \$29.21 in 2000. The average price received per barrel of NGLs increased \$5.99, or 63%, from \$9.57 in 1999 to \$15.56 in 2000. The average price received per mcf of gas increased 69% from \$1.72 in 1999 to \$2.90 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$448,166 as compared to \$425,787 in 1999, an increase of \$22,379, or 5%. The increase was due to increases in the impairment of oil and gas properties, production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production costs were \$326,082 in 2000 and \$305,897 in 1999, resulting in a \$20,185 increase, or 7%. The increase was primarily due to higher production taxes associated with higher oil and gas prices, offset by a decline in well maintenance costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 38% from \$20,352 in 1999 to \$28,155 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$25,658 in 2000 and \$16,168 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partners. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$27,748 related to its oil and gas properties during 2000.

Depletion was \$66,181 in 2000 as compared to \$99,538 in 1999, representing a decrease of \$33,357, or 34%. This decrease was primarily due to an 8,572 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1325

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 15% to \$542,232 from \$471,148 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 20,322 barrels of oil, 12,263 barrels of NGLs and 46,681 mcf of gas were sold, or 40,365 BOEs. In 1998, 22,378 barrels of oil, 13,103 barrels of NGLs and 52,345 mcf of gas were sold, or 44,205 BOEs.

The average price received per barrel of oil increased \$3.70, or 28%, from \$13.26 in 1998 to \$16.96 in 1999. The average price received per barrel of NGLs increased \$2.63, or 38%, from \$6.94 in 1998 to \$9.57 in 1999. The average price received per mcf of gas increased 8% from \$1.60 in 1998 to \$1.72 in 1999.

Total costs and expenses decreased in 1999 to \$425,787 as compared to \$842,701 in 1998, a decrease of \$416,914, or 49%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$305,897 in 1999 and \$322,354 in 1998, resulting in a \$16,457 decrease, or 5%. The decrease was due to declines in ad valorem taxes and well maintenance costs.

During this period, G&A increased 27% from \$16,076 in 1998 to \$20,352 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and gas revenues. The Partnership paid the managing general partner \$16,168 in 1999 and \$14,082 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$262,396 related to its oil and gas properties during 1998.

Depletion was \$99,538 in 1999 compared to \$241,875 in 1998, representing a decrease of \$142,337, or 59%. This decrease was the result of an increase in proved reserves of 173,770 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$259,724 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$334,289, offset by increases in production costs paid of \$20,185, G&A expenses paid of \$7,803 and working capital of \$46,577. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$381,025 to oil and gas receipts, offset by \$46,736 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices, offset by a decline in well maintenance costs. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited

1326

to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$474,240, of which \$4,742 was distributed to the managing general partner and \$469,498 to the limited

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partners. In 1999, cash distributions to the partners were \$154,304, of which \$1,543 was distributed to the managing general partner and \$152,761 to the limited partners.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 89-B, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 89-B, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 89-B, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
  
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
  
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31 , 2001
  
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
  
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

SUPPLEMENTAL INFORMATION TABLE

|   |    |
|---|----|
| Aggregate Initial Investment by the Limited Partners (a)  | \$ |
| Aggregate Historical Limited Partner Distributions through July 31, 2001 (a)  | \$ |
| Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA (a), (b)  | \$ |
| Merger Value per \$1,000 Limited Partner Investment (b), (c)  | \$ |
| Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 (b), (c) |    |
| Book Value per \$1,000 Limited Partner Investment:  |    |
| -- as of March 31, 2001 (c)   | \$ |
| -- as of December 31, 2000 (c)  | \$ |
| Going Concern Value per \$1,000 Limited Partner Investment (c), (d)   | \$ |
| Liquidation Value per \$1,000 Limited Partner Investment (c), (e)   | \$ |
| Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f)   | \$ |

- 
- (a) Stated in thousands.
  - (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
  - (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
  - (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
  - (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
  - (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

The accompanying notes are an integral part of these financial statements.

PARKER & PARSLEY 89-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 89-B, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 22% to \$266,742 for the three months ended March 31, 2001 as compared to \$218,705 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 5,173 barrels of oil, 1,967 barrels of natural gas liquids ("NGLs") and 13,738 mcf of gas were sold, or 9,430 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 5,544 barrels of oil, 3,112 barrels of NGLs and 12,352 mcf of gas were sold, or 10,715 BOEs.

6

1336

The average price received per barrel of oil increased \$1.28, or 5%, from \$27.13 for the three months ended March 31, 2000 to \$28.41 for the same period in 2001. The average price received per barrel of NGLs increased \$4.56, or 31%, from \$14.82 for the three months ended March 31, 2000 to \$19.38 for the same period in 2001. The average price received per mcf of gas increased 232% from \$1.79 during the three months ended March 31, 2000 to \$5.95 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

##### Costs and Expenses:

Total costs and expenses increased to \$123,577 for the three months ended March 31, 2001 as compared to \$113,966 for the same period in 2000, an increase of \$9,611, or 8%. This increase was due to increases in depletion, production costs and general and administrative expenses ("G&A").

Production costs were \$93,860 for the three months ended March 31, 2001 and \$90,560 for the same period in 2000 resulting in a \$3,300 increase, or 4%. The increase was due to higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 40% from \$6,561 for the three months ended March 31, 2000 to \$9,217 for the same period in 2001, primarily due to a higher percentage of the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$20,500 for the three months ended March 31, 2001 compared to \$16,845 for the same period in 2000, an increase of \$3,655, or 22%. This increase was primarily due to downward revisions to proved reserves on several wells for the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$57,693 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$48,294 and a reduction of \$15,355 in working capital, offset by increases in production costs of \$3,300 and G&A expenses of \$2,656. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$72,787 to oil and gas receipts, offset by \$24,493 resulting from the decline in production during 2001 as compared to the same period in 2000. The

7

1337

increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

#### Net Cash Used in Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$186,038, of which \$1,860 was distributed to the managing general partner and \$184,178 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$100,255, of which \$1,003 was distributed to the managing general partner and \$99,252 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

PARKER & PARSLEY 89-B, L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1339

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 89-B, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 89-B, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 89-B, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

The accompanying notes are an integral part of these financial statements.

PARKER & PARSLEY 89-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 89-B, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

1345

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$30,586 and \$289,124 related to its proved oil and gas properties during 2000 and 1998, respectively.

8

1346

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$211,364 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|  | 2000       | 1999       | 1998         |
|--|------------|------------|--------------|
| Net income (loss) per statements of operations   | \$ 476,944 | \$ 133,840 | \$ (403,385) |
| Impairment of oil and gas properties for financial reporting purposes  | 30,586     | --         | 289,124      |
| Depletion and depreciation provisions for tax reporting purposes less than amounts deducted for financial reporting purposes | 63,879     | 100,769    | 254,734      |
| Other, net   | (1,322)    | (3,050)    | 3,282        |
|  | -----      | -----      | -----        |
| Net income per Federal income tax returns  | \$ 570,087 | \$ 231,559 | \$ 143,755   |
|  | =====      | =====      | =====        |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the net costs incurred, whether

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000               | 1999              | 1998              |
|-------------------|--------------------|-------------------|-------------------|
| Development costs | \$ 11,495<br>===== | \$ 8,325<br>===== | \$11,900<br>===== |

Capitalized oil and gas properties consist of the following:

|                               | 2000                              | 1999                              |
|-------------------------------|-----------------------------------|-----------------------------------|
| Proved properties:            |                                   |                                   |
| Property acquisition costs    | \$ 188,868                        | \$ 188,868                        |
| Completed wells and equipment | 5,666,935<br>-----                | 5,655,440<br>-----                |

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000      | 1999      | 1998      |
|--|-----------|-----------|-----------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$147,103 | \$142,197 | \$136,965 |
| Reimbursement of general and administrative expenses   | \$ 28,269 | \$ 17,812 | \$ 15,438 |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 89-B Conv., L.P. ("EMPL") Parker & Parsley 89-B Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|   | Pioneer USA (1) | Partnerships (2) |
|---|-----------------|------------------|
| <b>Revenues:</b>  |                 |                  |
| Proceeds from disposition of depreciable and depletable properties -                    |                 |                  |
| First three years   | 14.141414%      | 85.858586%       |
| After first three years   | 19.191919%      | 80.808081%       |
| All other revenues -  |                 |                  |
| First three years   | 14.141414%      | 85.858586%       |
| After first three years   | 19.191919%      | 80.808081%       |
| <b>Costs and expenses:</b>  |                 |                  |
| Lease acquisition costs, drilling and completion costs and all other costs              | 9.090909%       | 90.909091%       |
| Operating costs, reporting and legal expenses and general and administrative expenses - |                 |                  |
| First three years   | 14.141414%      | 85.858586%       |
| After first three years   | 19.191919%      | 80.808081%       |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 72 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 89-B Conv., L.P. is 52.421545% and 47.578455%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

10

1348

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
| Net proved reserves at January 1, 1998   | 519,501                | 809,915      |
| Revisions                                | (222,853)              | (272,177)    |
| Production                               | (39,063)               | (57,643)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 257,585                | 480,095      |
| Revisions                                | 295,189                | 456,122      |
| Production                               | (35,879)               | (51,400)     |
|  | -----                  | -----        |

1339

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |          |           |
|--|----------|-----------|
| Net proved reserves at December 31, 1999 | 516,895  | 884,817   |
| Revisions                                | 1,443    | (174,232) |
| Production                               | (34,089) | (46,454)  |
|  | -----    | -----     |
| Net proved reserves at December 31, 2000 | 484,249  | 664,131   |
|  | =====    | =====     |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.35 per barrel of NGLs and \$7.90 per mcf of gas, discounted at 10% was approximately \$3,756,000 and undiscounted was \$7,461,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

|                                   | For the years ended December 31, |           |        |

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000 | 1999 | 1998 |
|-----------------------------|------|------|------|
| Plains Marketing, L.P.      | 55%  | 51%  | -    |
| Genesis Crude Oil, L.P.     | -    | -    | 59%  |
| Western Gas Resources, Inc. | 4%   | 6%   | 26%  |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$41,588 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all

12

1350

Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$6,949,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 61% to \$961,197 for 2000 as compared to \$597,130 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 21,703 barrels of oil, 12,386 barrels of natural gas liquids ("NGLs") and 46,454 mcf of gas were sold, or 41,831 barrel of oil equivalents ("BOEs"). In 1999, 22,376 barrels of oil, 13,503 barrels of NGLs and 51,400 mcf of gas were sold, or 44,446 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the

1342

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.25, or 72%, from \$16.96 in 1999 to \$29.21 in 2000. The average price received per barrel of NGLs increased \$5.99, or 63%, from \$9.57 in 1999 to \$15.56 in 2000. The average price received per mcf of gas increased 69% from \$1.72 in 1999 to \$2.90 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$493,734 as compared to \$469,149 in 1999, an increase of \$24,585, or 5%. The increase was due to increases in the impairment of oil and gas properties, production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$359,243 in 2000 and \$337,025 in 1999, resulting in a \$22,218 increase, or 7%. The increase was primarily due to higher production taxes associated with higher oil and gas prices, offset by a decline in well maintenance costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 39% from \$22,369 in 1999 to \$31,002 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$28,269 in 2000 and \$17,812 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$30,586 related to its oil and gas properties during 2000.

Depletion was \$72,903 in 2000 as compared to \$109,755 in 1999, representing a decrease of \$36,852, or 34%. This decrease was primarily due to an 8,955 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1352

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 15% to \$597,130 from \$518,801 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 22,376 barrels of oil, 13,503 barrels of NGLs and 51,400 mcf of gas were sold, or 44,446 BOEs. In 1998, 24,633 barrels of oil, 14,430 barrels of NGLs and 57,643 mcf of gas were sold, or 48,670 BOEs.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The average price received per barrel of oil increased \$3.70, or 28%, from \$13.26 in 1998 to \$16.96 in 1999. The average price received per barrel of NGLs increased \$2.63, or 38%, from \$6.94 in 1998 to \$9.57 in 1999. The average price received per mcf of gas increased 8% from \$1.60 in 1998 to \$1.72 in 1999.

Total costs and expenses decreased in 1999 to \$469,149 as compared to \$928,348 in 1998, a decrease of \$459,199, or 49%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$337,025 in 1999 and \$355,148 in 1998, resulting in an \$18,123 decrease, or 5%. The decrease was due to reductions in ad valorem taxes and well maintenance costs.

During this period, G&A increased 27% from \$17,625 in 1998 to \$22,369 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$17,812 in 1999 and \$15,438 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$289,124 related to its oil and gas properties during 1998.

Depletion was \$109,755 in 1999 compared to \$266,451 in 1998, representing a decrease of \$156,696, or 59%. This decrease was the result of an increase in proved reserves of 191,467 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$286,341 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$368,079, offset by increases in production costs paid of \$22,218, G&A expenses paid of \$8,633 and working capital of \$50,887. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$419,447 to oil and gas receipts, offset by \$51,368 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices, offset by a decline in well

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

maintenance costs. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited

1353

to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$522,514, of which \$5,225 was distributed to the managing general partner and \$517,289 to the limited partners. In 1999, cash distributions to the partners were \$170,020, of which \$1,700 was distributed to the managing general partner and \$168,320 to the limited partners.

1354

PARKER & PARSLEY 89-B, L.P.

### SELECTED FINANCIAL DATA

The following selected financial data for the Partnership should be read in connection with Management's Discussion and Analysis of Financial Condition and Results of Operations and the financial statements included in the attached supplemental information.

This document contains important information specific to Parker & Parsley Private Investment 89, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Private Investment 89, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the aggregate historical limited partner distributions through July 31, 2001
- the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  
- the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
  
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
  
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership

### SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners (a)

Aggregate Historical Limited Partner Distributions through July 31, 2001 (a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA (a),

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Merger Value per \$1,000 Limited Partner Investment (b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 (b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of March 31, 2001 (c)

-- as of December 31, 2000 (c)

Going Concern Value per \$1,000 Limited Partner Investment (c), (d)

Liquidation Value per \$1,000 Limited Partner Investment (c). (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f)

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

1362

PARKER & PARSLEY PRIVATE INVESTMENT 89, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley Private Investment 89, L.P. (the "Partnership") was organized in 1989 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1990.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition and  
Results of Operations(1)

Results of Operations

Revenues:

The Partnership's oil and gas revenues increased 32% to \$249,447 for the three months ended March 31, 2001 as compared to \$188,721 for the same period in 2000. The increase in revenues resulted from higher average prices received and an increase in production. For the three months ended March 31, 2001, 5,909 barrels of oil, 1,619 barrels of natural gas liquids ("NGLs") and 11,008 mcf of gas were sold, or 9,363 barrel of oil equivalents ("BOEs"). For the three months ended

1363

March 31, 2000, 5,867 barrels of oil, 1,854 barrels of NGLs and 6,473 mcf of gas were sold, or 8,800 BOEs.

The average price received per barrel of oil increased \$.69, or 3%, from \$26.78 for the three months ended March 31, 2000 to \$27.47 for the same period in 2001. The average price received per barrel of NGLs increased \$5.15, or 44%, from \$11.59 for the three months ended March 31, 2000 to \$16.74 for the same period in 2001. The average price received per mcf of gas increased 249% from \$1.56 during the three months ended March 31, 2000 to \$5.45 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

#### Costs and Expenses:

Total costs and expenses increased to \$174,906 for the three months ended March 31, 2001 as compared to \$98,843 for the same period in 2000, an increase of \$76,063, or 77%. This increase was primarily due to increases in production costs, general and administrative expenses ("G&A") and depletion.

Production costs were \$144,855 for the three months ended March 31, 2001 and \$78,434 for the same period in 2000 resulting in a \$66,421 increase, or 85%. The increase was due to additional workover and well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 54% from \$5,662 for the three months ended March 31, 2000 to \$8,710 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$21,341 for the three months ended March 31, 2001 as compared to \$14,747 for the same period in 2000, an increase of \$6,594, or 45%. This increase was primarily due to a downward revision to proved reserves on one well.

#### Liquidity and Capital Resources

##### Net Cash Provided by Operating Activities

Net cash provided by operating activities decreased \$32,158 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This decrease was due to increases in production costs of \$66,421, G&A expenses of \$3,048 and working capital of \$23,477, offset by an increase in oil and gas sales receipts of \$60,788. The increase in oil and gas receipts resulted from

1364

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the increase in commodity prices during 2001 which contributed an additional \$38,843 to oil and gas receipts and \$21,945 resulting from the increase in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional workover and well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

### Net Cash Provided by (Used in) Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$158 recognized during the three months ended March 31, 2000 were due to equipment credits received on one active well.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$94,260, of which \$943 was distributed to the managing general partner and \$93,317 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$94,968, of which \$950 was distributed to the managing general partner and \$94,018 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

-----

- (1) "Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1367

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley Private Investment 89, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley Private Investment 89, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Private Investment 89, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY PRIVATE INVESTMENT 89, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Private Investment 89, L.P. (the "Partnership") was organized in 1989 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1990. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

1360

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

1373

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$44,421 and \$18,873 related to its proved oil and gas properties during 1999 and 1998, respectively.

8

1374

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$49,559 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000<br>----- | 1999<br>----- |
|---|---------------|---------------|
| Net income (loss) per statements of operations                        | \$ 454,189    | \$ 40,604     |

|                               | =====                    | =====                    |

9

1375

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000  | 1999  | 1998  |
|--|-------|-------|-------|
|  | ----- | ----- | ----- |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |            |            |            |
|--|------------|------------|------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 126,729 | \$ 122,574 | \$ 123,196 |
| Reimbursement of general and administrative expenses   | \$ 25,581  | \$ 14,534  | \$ 14,259  |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 89 Private Conv., L.P. ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|   | Pioneer USA (1) | Partn |
|---|-----------------|-------|
|   | -----           | ----- |
| Revenues:   |                 |       |
| Proceeds from disposition of depreciable and depletable properties -                    |                 |       |
| First three years   | 14.141414%      | 85.8  |

| After three years   | 19.191919%      | 80.8  |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | =====     | =====     |

10

1376

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.18 per barrel of NGLs and \$7.93 per mcf of gas, discounted at 10% was approximately \$3,336,000 and undiscounted was \$6,999,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

For the years ended Decem

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

| 2000  | 1999  | 1998  |
|-------|-------|-------|
| ----- | ----- | ----- |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                             |     |     |     |
|-----------------------------|-----|-----|-----|
| Plains Marketing, L.P.      | 65% | 64% | -   |
| Genesis Crude Oil, L.P.     | -   | -   | 57% |
| Western Gas Resources, Inc. | 1%  | 3%  | 15% |
| GPM Gas Corporation         | 3%  | 3%  | 5%  |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$48,161 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

12

1378

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$7,060,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 75% to \$856,030 for 2000 as compared to \$487,809 in 1999. The increase in revenues resulted from higher average prices received, offset by a slight decline in production. In 2000, 22,438 barrels of oil, 8,300 barrels of natural gas liquids ("NGLs") and 30,037 mcf of gas were sold, or 35,744 barrel of oil equivalents ("BOEs"). In 1999, 20,601 barrels of oil, 9,709 barrels of NGLs and 32,985 mcf of gas were sold, or 35,808 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$11.94, or 70%, from \$17.06 in 1999 to \$29.00 in 2000. The average price received per barrel of NGLs increased \$6.17, or 71%, from \$8.69 in 1999 to \$14.86 in 2000. The average price received per mcf of gas increased 74% from \$1.57 in 1999 to \$2.73 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses decreased in 2000 to \$410,135 as compared to \$451,760 in 1999, a decrease of \$41,625, or 9%. The decrease was due to a decline in depletion and the impairment of oil and gas properties, offset by an increase in production costs and general and administrative expenses ("G&A").

Production costs were \$321,340 in 2000 and \$311,071 in 1999, resulting in a \$10,269 increase, or 3%. The increase was primarily due to higher production taxes associated with higher oil and gas prices, offset by lower well maintenance costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 47% from \$19,470 in 1999 to \$28,583 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$25,581 in 2000 and \$14,534 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$44,421 related to its oil and gas properties during 1999.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Depletion was \$60,212 in 2000 as compared to \$76,798 in 1999, representing a decrease of \$16,586, or 22%. This decrease was primarily due to a 23,945 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

1380

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 2% to \$487,809 from \$478,637 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 20,601 barrels of oil, 9,709 barrels of NGLs and 32,985 mcf of gas were sold, or 35,808 BOEs. In 1998, 25,672 barrels of oil, 11,069 barrels of NGLs and 44,624 mcf of gas were sold, or 44,178 BOEs.

The average price received per barrel of oil increased \$3.78, or 28%, from \$13.28 in 1998 to \$17.06 in 1999. The average price received per barrel of NGLs increased \$2.12, or 32%, from \$6.57 in 1998 to \$8.69 in 1999. The average price received per mcf of gas increased 8% from \$1.46 in 1998 to \$1.57 in 1999.

Total costs and expenses decreased in 1999 to \$451,760 as compared to \$594,818 in 1998, a decrease of \$143,058, or 24%. The decrease was due to a decline in depletion, offset by an increase in the impairment of oil and gas properties, production costs and G&A.

Production costs were \$311,071 in 1999 and \$300,564 in 1998, resulting in a \$10,507 increase, or 3%. The increase was due to an increase in well maintenance costs incurred to stimulate well production, offset by declines in ad valorem and production taxes.

During this period, G&A increased 15% from \$16,898 in 1998 to \$19,470 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$14,534 in 1999 and \$14,259 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized non-cash SFAS 121 charges of \$44,421 and \$18,873 related to its oil and gas properties during 1999 and 1998, respectively.

Depletion was \$76,798 in 1999 compared to \$258,483 in 1998, representing a decrease of \$181,685, or 70%. This decrease was the result of a combination of factors that included an increase in proved reserves of 160,524 barrels of oil during 1999 as a result of higher commodity prices, a decline in oil production of 5,071 barrels for the period ended December 31, 1999 compared to the same period in 1998 and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$337,800 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$371,960, offset by increases in production costs paid of

1381

\$10,269, G&A expenses paid of \$9,113 and working capital of \$14,778. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$347,665 to oil and gas receipts and an increase of \$24,295 resulting from the increase in oil production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices, offset by lower well maintenance costs. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active properties.

Proceeds from asset dispositions of \$158 in 2000 were from equipment credits received on one active well.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$465,729, of which \$4,657 was distributed to the managing general partner and \$461,072 to the limited partners. In 1999, cash distributions to the partners were \$103,460, of which \$1,035 was distributed to the managing general partner and \$102,425 to the limited partners.

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 90-A Conv., L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-A Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

5

1390

PARKER & PARSLEY 90-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 90-A Conv., L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition and  
Results of Operations (1)

Results of Operations

Revenues:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's oil and gas revenues increased 29% to \$81,855 for the three months ended March 31, 2001 as compared to \$63,489 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 1,635 barrels of oil, 533 barrels of natural gas liquids ("NGLs") and 4,098 mcf of gas were sold, or 2,851 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 1,650 barrels of oil, 877 barrels of NGLs and 3,430 mcf of gas were sold, or 3,099 BOEs.

6

1391

The average price received per barrel of oil increased \$1.00, or 4%, from \$27.38 for the three months ended March 31, 2000 to \$28.38 for the same period in 2001. The average price received per barrel of NGLs increased \$5.61, or 41%, from \$13.78 for the three months ended March 31, 2000 to \$19.39 for the same period in 2001. The average price received per mcf of gas increased 236% from \$1.82 during the three months ended March 31, 2000 to \$6.12 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$36,428 for the three months ended March 31, 2001 as compared to \$33,586 for the same period in 2000, an increase of \$2,842, or 8%. This increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$26,631 for the three months ended March 31, 2001 and \$24,535 for the same period in 2000 resulting in a \$2,096 increase, or 9%. The increase was due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 54% from \$1,913 for the three months ended March 31, 2000 to \$2,954 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$6,843 for the three months ended March 31, 2001 as compared to \$7,138 for the same period in 2000, a decrease of \$295, or 4%. This decrease was primarily due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$17,783 during the three

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$18,395 and a reduction in working capital of \$2,525, offset by increases in production costs of \$2,096 and G&A expenses of \$1,041. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an

7

1392

additional \$21,406 to oil and gas receipts, offset by \$3,011 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

### Net Cash Used in Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$47,627, of which \$476 was distributed to the managing general partner and \$47,151 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$30,267 of which \$303 was distributed to the managing general partner and \$29,964 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

PARKER & PARSLEY 90-A CONV., L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1394

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 90-A Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-A Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-A Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

1399

PARKER & PARSLEY 90-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-A Conv., L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

1400

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$11,795 related to its proved oil and gas properties during 1998.

8

1401

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$109,150 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000      | 1999     | 1998       |
|---|-----------|----------|------------|
|   | -----     | -----    | -----      |
| Net income (loss) per statements of operations                        | \$135,356 | \$34,513 | \$(15,498) |
| Depletion and depreciation for tax reporting purposes                 |           |          |            |
| less than amounts for financial reporting purposes                    | 23,651    | 33,412   | 51,723     |
| Impairment of oil and gas properties for financial reporting purposes | --        | --       | 11,795     |

|   | -----     | -----    | -----      |
| Net income per Federal income tax returns                             | \$158,604 | \$69,268 | \$49,249   |
|   | =====     | =====    | =====      |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                   | 2000<br>-----     | 1999<br>-----     | 1998<br>-----     |
|-------------------|-------------------|-------------------|-------------------|
| Development costs | \$ 3,055<br>===== | \$ 2,507<br>===== | \$ 3,134<br>===== |

Capitalized oil and gas properties consist of the following:

|                              | 2000<br>-----                     | 1999<br>-----                     |
|------------------------------|-----------------------------------|-----------------------------------|
| Proved properties:           |                                   |                                   |
| Property acquisition costs   | \$ 69,332                         | \$ 69,332                         |
| Completed well and equipment | 1,691,929<br>-----                | 1,688,874<br>-----                |

| Net oil and gas properties   | \$ 370,913<br>=====               | \$ 394,394<br>=====               |

9

1402

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 42,503     | \$ 41,777     | \$ 41,366     |
| Reimbursement of general and administrative expenses   | \$ 8,329      | \$ 5,027      | \$ 4,007      |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90-A Conv., L.P. ("EMPL"), Parker & Parsley 90-A, L.P. and the Partnership are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|   | Pioneer USA (1) | Partnerships (2) |
|---|-----------------|------------------|
| <b>Revenues:</b>  |                 |                  |
| Proceeds from disposition of depreciable and depletable properties -                    |                 |                  |
| First three years   | 14.141414%      | 85.858586%       |
| After first three years   | 19.191919%      | 80.808081%       |
| All other revenues -  |                 |                  |
| First three years   | 14.141414%      | 85.858586%       |
| After first three years   | 19.191919%      | 80.808081%       |
| <b>Costs and expenses:</b>  |                 |                  |
| Lease acquisition costs, drilling and completion costs                                  | 9.090909%       | 90.909091%       |
| Operating costs, reporting and legal expenses and general and administrative expenses - |                 |                  |
| First three years   | 14.141414%      | 85.858586%       |
| After first three years   | 19.191919%      | 80.808081%       |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 14 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 90-A, L.P. is 25.725191% and 74.274809%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

10

|  | =====   | =====    |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.25 per barrel of NGLs and \$7.89 per mcf of gas, discounted at 10% was approximately \$1,053,000 and undiscounted was \$2,025,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

12

1405

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$2,359,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission, organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

PARKER & PARSLEY 90-A CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 65% to \$279,230 for 2000 as compared to \$169,279 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 6,255 barrels of oil, 3,621 barrels of natural gas liquids ("NGLs") and 13,365 mcf of gas were sold, or 12,104 barrel of oil equivalents ("BOEs"). In 1999, 6,133 barrels of oil, 3,997 barrels of NGLs and 14,989 mcf of gas were sold, or 12,628 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.26, or 72%, from \$17.06 in 1999 to \$29.32 in 2000. The average price received per barrel of NGLs

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

increased \$6.04, or 63%, from \$9.58 in 1999 to \$15.62 in 2000. The average price received per mcf of gas increased 67% from \$1.76 in 1999 to \$2.94 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$3,262 was recognized during 2000 resulting from equipment credits received on one well.

Total costs and expenses increased in 2000 to \$150,163 as compared to \$136,517 in 1999, an increase of \$13,646, or 10%. The increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$114,159 in 2000 and \$93,178 in 1999, resulting in a \$20,981 increase, or 23%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 34% from \$7,068 in 1999 to \$9,468 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$8,329 in 2000 and \$5,027 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$26,536 in 2000 as compared to \$36,271 in 1999, representing a decrease of \$9,735, or 27%. This decrease was primarily due to a 10,806 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 11% to \$169,279 from \$152,905 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 6,133 barrels of oil, 3,997 barrels

1407

of NGLs and 14,989 mcf of gas were sold, or 12,628 BOEs. In 1998, 7,476 barrels of oil, 3,923 barrels of NGLs and 16,309 mcf of gas were sold, or 14,117 BOEs.

The average price received per barrel of oil increased \$3.86, or 29%, from \$13.20 in 1998 to \$17.06 in 1999. The average price received per barrel of NGLs increased \$2.56, or 36%, from \$7.02 in 1998 to \$9.58 in 1999. The average price received per mcf of gas increased 7% from \$1.64 in 1998 to \$1.76 in 1999.

Total costs and expenses decreased in 1999 to \$136,517 as compared to \$170,483 in 1998, a decrease of \$33,966, or 20%. The decrease was due to reductions in depletion, the impairment of oil and gas properties and production costs, offset by an increase in G&A.

Production costs were \$93,178 in 1999 and \$97,819 in 1998, resulting in a \$4,641 decrease, or 5%. The decrease was due to declines in ad valorem taxes and well

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

maintenance costs.

During this period, G&A increased 42% from \$4,961 in 1998 to \$7,068 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$5,027 in 1999 and \$4,007 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$11,795 related to its oil and gas properties during 1998.

Depletion was \$36,271 in 1999 compared to \$55,908 in 1998, representing a decrease of \$19,637, or 35%. This decrease was primarily the result of an increase in proved reserves of 43,411 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,343 barrels for the period ended December 31, 1999 compared to the same period in 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

Liquidity and capital resources

Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$77,593 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$111,227, offset by increases in production costs paid of

1408

\$20,981, G&A expenses paid of \$2,400 and working capital of \$10,253. The increase in oil and gas receipts resulted from the increase in commodity prices

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

during 2000 which contributed an additional \$118,292 to oil and gas receipts, offset by \$7,065 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active properties.

Proceeds from disposition of assets of \$3,262 was recognized during 2000 resulting from equipment credits received on one well. Proceeds of \$2,501 during 1999 were received from equipment credits on one active well and one temporarily abandoned well.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$152,116, of which \$1,521 was distributed to the managing general partner and \$150,595 to the limited partners. In 1999, cash distributions to the partners were \$53,463, of which \$535 was distributed to the managing general partner and \$52,928 to the limited partners.

This document contains important information specific to Parker & Parsley 90-A, L.P., and supplements the proxy statement/prospectus dated           , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-A, L.P.:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or before July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 90-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley 90-A, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 29% to \$236,358 for the three months ended March 31, 2001 as compared to \$183,303 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by declines in production. For the three months ended March 31, 2001, 4,722 barrels of oil, 1,543 barrels of natural gas liquids ("NGLs") and 11,838 mcf of gas were sold, or 8,238 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 4,767 barrels of oil, 2,523 barrels of NGLs and 9,897 mcf of gas were sold, or 8,940 BOEs.

7

1419

The average price received per barrel of oil increased \$1.00, or 4%, from \$27.38 for the three months ended March 31, 2000 to \$28.38 for the same period in 2001. The average price received per barrel of NGLs increased \$5.61, or 41%, from \$13.78 for the three months ended March 31, 2000 to \$19.39 for the same period in 2001. The average price received per mcf of gas increased 236% from \$1.82 during the three months ended March 31, 2000 to \$6.12 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

##### Costs and Expenses:

Total costs and expenses increased to \$105,172 for the three months ended March 31, 2001 as compared to \$97,129 for the same period in 2000, an increase of \$8,043, or 8%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$76,877 for the three months ended March 31, 2001 and \$70,816 for the same period in 2000, resulting in a \$6,061 increase, or 9%. This increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 51% from \$5,681 for the three months ended March 31, 2000 to \$8,561 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$19,734 for the three months ended March 31, 2001 as compared to \$20,632 for the same period in 2000, a decrease of \$898, or 4%. This decrease was primarily due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices.

##### Liquidity and Capital Resources

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$51,822 during the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$53,129 in oil and gas sales receipts and a reduction of \$7,634 in working capital, offset by increases in production costs of \$6,061 and G&A expenses of \$2,880. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$61,531 to oil and gas receipts, offset by \$8,402 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs

8

1420

incurred to stimulate well production. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual of tax preparation fees.

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the three months ended March 31, 2001 and 2000 were for expenditures related to oil and gas equipment upgrades on active oil and gas properties.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$137,512, of which \$1,375 was distributed to the managing general partner and \$136,137 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$87,388, of which \$874 was distributed to the managing general partner and \$86,514 to the limited partners.

### Proposal to acquire partnerships

On April 18, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement with the SEC proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Pioneer USA is the sole or managing general partner of the partnerships. The preliminary proxy statement is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partners in each partnership and the resolution of SEC review comments. If approved, Pioneer anticipates closing the mergers during the third quarter of 2001.

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

1423

PART I

ITEM 1. BUSINESS

Parker & Parsley 90-A, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 6,811 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers. Of the Partnership's total oil and gas revenues for 2000, approximately 54%, 12% and 10% were attributable to sales made to Plains Marketing, L.P., TEPPCO Crude Oil LLC and NGTS LLC, respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

2

1424

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 27 oil and gas wells. Two wells have been sold. At December 31, 2000, 25 wells were producing.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 6,811 outstanding limited partnership interests held of record by 525 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$434,802 and \$152,818, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 65% to \$806,344 for 2000 as compared to \$488,752 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 18,065 barrels of oil, 10,454 barrels of natural gas liquids ("NGLs") and 38,570 mcf of gas were sold, or 34,947 barrel of oil equivalents ("BOEs"). In 1999, 17,702 barrels of oil, 11,546 barrels of NGLs and 43,302 mcf of gas were sold, or 36,465 BOEs. Due to the decline characteristics of the Partnership's oil and gas

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.26, or 72% from \$17.06 in 1999 to \$29.32 in 2000. The average price received per barrel of NGLs increased \$6.04, or 63% from \$9.58 in 1999 to \$15.62 in 2000. The average price received per mcf of gas increased 67% in 2000 to \$2.94 compared to \$1.76 in 1999. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$9,419 was recognized during 2000 resulting from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$433,960 as compared to \$394,007 in 1999, an increase of \$39,953, or 10%. This increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$329,608 in 2000 and \$269,017 in 1999, resulting in an increase of \$60,591, or 23%. The increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 36% from \$20,244 in 1999 to \$27,629 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$24,038 in 2000 and \$14,514 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$76,723 in 2000 compared to \$104,746 in 1999, representing a decrease of \$28,023, or 27%. This decrease was primarily due to a 33,982 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 11% to \$488,752 from \$441,480 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 17,702 barrels of oil, 11,546 barrels of NGLs and 43,302 mcf of gas were sold, or 36,465 BOEs. In 1998, 21,587 barrels of oil, 11,328 barrels of NGLs and 47,086 mcf of gas were sold, or 40,763 BOEs.

The average price received per barrel of oil increased \$3.86, or 29% from \$13.20

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in 1998 to \$17.06 in 1999. The average price received per barrel of NGLs increased \$2.56, or 36% from \$7.02 in 1998 to \$9.58 in 1999. The average price received per mcf of gas increased 7% in 1999 to \$1.76 compared to \$1.64 in 1998.

Total costs and expenses decreased in 1999 to \$394,007 as compared to \$492,078 in 1998, a decrease of \$98,071, or 20%. This decrease was primarily due to declines in depletion, the impairment of oil and gas properties and production costs, offset by an increase in G&A.

Production costs were \$269,017 in 1999 and \$282,430 in 1998, resulting in a \$13,413 decline, or 5%. The decline includes a reduction in ad valorem taxes and less well maintenance costs.

During this period, G&A increased 43% from \$14,124 in 1998 to \$20,244 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$14,514 in 1999 and \$11,560 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$34,145 related to its oil and gas properties during 1998.

Depletion was \$104,746 in 1999 compared to \$161,379 in 1998. This represented a decrease of \$56,633, or 35%. This decrease was primarily the result of an increase in proved reserves of 125,332 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 3,885 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Liquidity and capital resources

Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$223,816 during the year ended December 31, 2000 from 1999. This increase was due to increases in oil and gas sales receipts of \$321,283, offset by increases in production costs paid of \$60,591, G&A expenses paid of \$7,385 and working capital of \$29,491. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$341,604 to oil and gas receipts, offset by \$20,321 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during 2000 and 1999 were for expenditures related to oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$9,419 were recognized during 2000 from equipment credits on one fully depleted well and proceeds of \$7,220 in 1999 were from equipment credits received on one active property and one temporarily abandoned property.

Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$439,194, of which \$4,392 was distributed to the managing general partner and \$434,802 to the limited partners. In 1999, cash distributions to the partners were \$154,362 of which \$1,544 was distributed to the managing general partner and \$152,818 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 90-A, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 90-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-A, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

**Oil and gas properties** - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

**Impairment of long-lived assets** - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

**Use of estimates in the preparation of financial statements** - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

**Net income (loss) per limited partnership interest** - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

**Income taxes** - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

14

1436

**Statements of cash flows** - For purposes of reporting cash flows, cash includes depository accounts held by banks.

**General and administrative expenses** - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

**Reclassifications** - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$34,145 related to its proved oil and gas properties during 1998.

15

1437

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$315,080 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000       | 1999      | 1998        |
|---|------------|-----------|-------------|
|   | -----      | -----     | -----       |
| Net income (loss) per statements of operations  | \$ 390,714 | \$ 99,965 | \$ (44,000) |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 68,390     | 96,496    | 149,000     |
| Impairment of oil and gas properties for financial reporting purposes   | -          | -         | 34,000      |
| Other, net  | (1,209)    | 3,745     | 3,000       |

| Net oil and gas properties    | \$ 1,070,817             | \$ 1,138,717             |
|                               | =====                    | =====                    |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  |            |            |            |
|--|------------|------------|------------|
|  | 2000       | 1999       | 1998       |
|  | -----      | -----      | -----      |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 122,715 | \$ 120,620 | \$ 119,432 |
| Reimbursement of general and administrative expenses   | \$ 24,038  | \$ 14,514  | \$ 11,560  |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

16

1438

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and P&P Employees 90-A, L.P., ("EMPL"), Parker & Parsley 90-A Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|   | Pioneer USA (1) | Partnerships (2) |
|---|-----------------|------------------|

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 147 limited partner interests owned by Pioneer USA.
- (2) The allocation between the Partnership and Parker & Parsley 90-A Conv., L.P. is 74.274809% and 25.725191%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | =====     | =====     |

17

1439

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.25 per barrel of NGLs and \$7.89 per mcf of gas, discounted at 10% was approximately \$3,042,000 and undiscounted was \$5,865,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             |       |       |       |
|-----------------------------|-------|-------|-------|

| Western Gas Resources, Inc. | 2%    | 5%    | 22%   |
| Genesis Crude Oil, L.P.     | -     | -     | 57%   |

1425

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., TEPPCO Crude Oil LLC and NGTS LLC were \$37,832, \$7,318 and \$4,105, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

19

1441

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$6,811,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

1442

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name<br>-----        | Age at<br>December 31,<br>2000<br>---- | Position<br>-----   |

| Dennis E. Fagerstone | 51                                     | Executive Vice President and Director                             |
| Mark L. Withrow      | 53                                     | Executive Vice President, General<br>Counsel and Director         |
| Danny Kellum         | 46                                     | Executive Vice President - Domestic<br>Operations and Director    |
| Rich Dealy           | 34                                     | Vice President and Chief Accounting<br>Officer                    |

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 147 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |            |            |            |
|--|------------|------------|------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 122,715 | \$ 120,620 | \$ 119,432 |
| Reimbursement of general and administrative expenses   | \$ 24,038  | \$ 14,514  | \$ 11,560  |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 90-B CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 90-B Conv., L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-B Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
  
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
  
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
  
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

-----

(a) Stated in thousands.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

1458

PARKER & PARSLEY 90-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 90-B Conv., L.P. (the "Partnership") was organized as a general partnership in 1990 under the laws of the State of Texas and was converted to a Delaware limited partnership on August 1, 1991.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Item 2. Management's Discussion and Analysis of Financial Condition  
and Results of Operations(1)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Results of Operations

#### Revenues:

The Partnership's oil and gas revenues increased 28% to \$424,735 for the three months ended March 31, 2001 as compared to \$330,703 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decline in production. For the three months ended March 31, 2001, 8,755 barrels of oil, 3,239 barrels of natural gas liquids ("NGLs") and 18,996 mcf of gas were sold, or 15,160 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 8,990 barrels of oil, 3,979 barrels of NGLs and 15,621 mcf of gas were sold, or 15,573 BOEs.

7

1459

The average price received per barrel of oil increased \$1.56, or 6%, from \$27.70 for the three months ended March 31, 2000 to \$29.26 for the same period in 2001. The average price received per barrel of NGLs increased \$4.36, or 31%, from \$13.89 for the three months ended March 31, 2000 to \$18.25 for the same period in 2001. The average price received per mcf of gas increased 243% from \$1.68 during the three months ended March 31, 2000 to \$5.76 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gains on disposition of assets of \$1,975 and \$2,023 was recognized during the three months ended March 31, 2001 and 2000, respectively, from the sale of equipment on one fully depleted well.

#### Costs and Expenses:

Total costs and expenses increased to \$183,688 for the three months ended March 31, 2001 as compared to \$170,500 for the same period in 2000, an increase of \$13,188, or 8%. The increase was due to increases in production costs and general, administrative expenses ("G&A") and depletion.

Production costs were \$143,206 for the three months ended March 31, 2001 and \$133,608 for the same period in 2000, resulting in a \$9,598 increase, or 7%. The increase was primarily due to higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 34% from \$10,132 for the three months ended March 31, 2000 to \$13,562 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$26,920 for the three months ended March 31, 2001 as compared to \$26,760 for the same period in 2000, an increase of \$160. The increase was primarily due to downward revisions to proved reserves on several wells during the three months ended March 31, 2001, offset by a reduction in the Partnership's net depletable basis from charges taken in accordance with

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121") during the fourth quarter of 2000 and a decline in oil production of 235 barrels for the period ended March 31, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$110,603 during the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$94,446 in oil and gas sales receipts and a reduction in working capital of \$29,185, offset by increases in production costs of \$9,598 and G&A expenses of \$3,430. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an

8

1460

additional \$95,426 to oil and gas receipts, offset by \$980 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities for the three months ended March 31, 2001 and 2000 were for expenditures related to oil and gas equipment upgrades on active properties.

Proceeds from disposition of assets of \$1,975 and \$2,023 received during the three months ended March 31, 2001 and 2000, respectively, were derived from the sale of equipment on one fully depleted well.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$285,221, of which \$2,852 was distributed to the managing general partner and \$282,369 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$180,055, of which \$1,801 was distributed to the managing general partner and \$178,254 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

1464

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 90-B Conv., L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas. The Partnership converted to a Delaware limited partnership on August 1, 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 11,897 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 48% was attributable to sales made to Plains Marketing, L.P., 10% to TEPPCO Crude Oil LLC and 10% to Phillips Petroleum Company. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or

2

1465

other liabilities and compliance may increase the cost of the Partnership's operations. The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 104 oil and gas wells. One well has been plugged and abandoned. At December 31, 2000, the Partnership had 103 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

3

1466

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 11,897 outstanding limited partnership interests held of record by 665 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$825,165 and \$271,636, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

|                                      | 2000         | 1999       | 1998         | 1997       |

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 67% to \$1,513,122 for 2000 as compared to \$907,791 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 36,592 barrels of oil, 16,796 barrels of natural gas liquids ("NGLs") and 64,786 mcf of gas were sold, or 64,186 barrel of oil equivalents ("BOEs"). In 1999, 36,383 barrels of oil, 17,481 barrels of NGLs and 70,803 mcf of gas were sold, or 65,665 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.00, or 70%, from \$17.23 in 1999 to \$29.23 in 2000. The average price received per barrel of NGLs increased \$5.96, or 63%, from \$9.49 in 1999 to \$15.45 in 2000. The average price received per mcf of gas increased 75% from \$1.62 in 1999 to \$2.84 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$2,023 recognized in 2000 was due to equipment credits received on one fully depleted well.

Total costs and expenses decreased to \$739,327 in 2000 as compared to \$749,072

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in 1999, a decrease of \$9,745, or 1%. The decrease was due to declines in the impairment of oil and gas properties and depletion, offset by increases in production costs and general and administrative expenses ("G&A").

Production costs were \$557,245 in 2000 and \$478,183 in 1999, resulting in an increase of \$79,062, or 17%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 30% from \$35,038 in 1999 to \$45,379 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$40,368 in 2000 and \$27,181 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

5

1468

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized non-cash charges of \$31,774 and \$88,497 related to its oil and gas properties during 2000 and 1999, respectively.

Depletion was \$104,929 in 2000 compared to \$147,354 in 1999, representing a decrease of \$42,425, or 29%. The decrease was primarily due to a 27,994 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 19% to \$907,791 from \$764,787 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 36,383 barrels of oil, 17,481 barrels of NGLs and 70,803 mcf of gas were sold, or 65,665 BOEs. In 1998, 41,140 barrels of oil, 17,403 barrels of NGLs and 73,460 mcf of gas were sold, or 70,786 BOEs.

The average price received per barrel of oil increased \$4.11, or 31%, from \$13.12 in 1998 to \$17.23 in 1999. The average price received per barrel of NGLs increased \$2.89, or 44%, from \$6.60 in 1998 to \$9.49 in 1999. The average price received per mcf of gas increased 8% from \$1.50 in 1998 to \$1.62 in 1999.

Gain on disposition of assets of \$1,669 for 1998 was attributable to credits received from the disposal of oil and gas equipment on a fully depleted well and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

on one well that was plugged and abandoned in a prior year.

Total costs and expenses decreased to \$749,072 in 1999 as compared to \$1,147,349 in 1998, a decrease of \$398,277, or 35%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$478,183 in 1999 and \$517,526 in 1998, resulting in a \$39,343 decrease, or 8%. The decrease was due to declines in well maintenance costs, ad valorem taxes and workover costs, offset by an increase in production taxes due to increased oil and gas sales.

During this period, G&A increased 31% from \$26,722 in 1998 to \$35,038 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$27,181 in 1999 and \$22,923 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized non-cash SFAS 121 charges of \$88,497 and \$275,430 related to its oil and gas properties during 1999 and 1998, respectively.

6

1469

Depletion was \$147,354 in 1999 compared to \$327,671 in 1998. This represented a decrease of \$180,317, or 55%. The decrease was primarily due to an increase in proved reserves of 280,631 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 4,757 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$504,622 during the year

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$611,256, offset by increases in production costs paid of \$79,062, G&A expenses paid of \$10,341 and working capital of \$17,231. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$632,790 to oil and gas receipts, offset by \$21,534 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$2,023 recognized in 2000 were due to equipment credits received on one fully depleted well.

7

1470

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$833,500, of which \$8,335 was distributed to the managing general partner and \$825,165 to the limited partners. In 1999, cash distributions to the partners were \$274,380, of which \$2,744 was distributed to the managing general partner and \$271,636 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 90-B Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-B Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-B Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 90-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-B Conv., L.P. (the "Partnership") was organized as a general partnership in 1990 under the laws of the State of Texas and was converted to a Delaware limited partnership on August 1, 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

15

1478

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$31,774, \$88,497 and \$275,430 related to its proved oil and gas properties during 2000, 1999 and 1998, respectively.

16

1479

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$233,211 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000       | 1999       | 1998         |
|---|------------|------------|--------------|
|   | -----      | -----      | -----        |
| Net income (loss) per statements of operations  | \$ 787,438 | \$ 164,414 | \$ (373,956) |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 90,499     | 132,570    | 175,500      |
| Impairment of oil and gas properties for financial reporting purposes   | 31,774     | 88,497     | 275,430      |
| Other, net  | (1,742)    | (4,660)    | 3,987        |
|   | -----      | -----      | -----        |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000       | 1999       | 1998       |
|--|------------|------------|------------|
|  | -----      | -----      | -----      |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 211,037 | \$ 214,306 | \$ 209,549 |
| Reimbursement of general and administrative expenses   | \$ 40,368  | \$ 27,181  | \$ 22,923  |

17

1480

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90-B Conv., L.P. ("EMPL"), Parker & Parsley 90-B, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|   | Pioneer USA(1) | Partnerships(2) |
|---|----------------|-----------------|
|   | -----          | -----           |
| Revenues:   |                |                 |
| Proceeds from disposition of depreciable and depletable properties: |                |                 |
| First three years   | 14.141414%     | 85.858586%      |
| After first three years   | 19.191919%     | 80.808081%      |
| All other revenues  |                |                 |
| First three years   | 14.141414%     | 85.858586%      |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |            |            |
|--|------------|------------|
| After first three years  | 19.191919% | 80.808081% |
| Costs and expenses:  |            |            |
| Lease acquisition costs, drilling and completion costs and all other costs             | 9.090909%  | 90.909091% |
| Operating costs, reporting and legal expenses and general and administrative expenses: |            |            |
| First three years  | 14.141414% | 85.858586% |
| After first three years  | 19.191919% | 80.808081% |

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 80 limited partner interests owned by Pioneer USA.
- (2) The allocation between the Partnership and Parker & Parsley 90-B, L.P. is 26.94006% and 73.05994%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
|  | -----                  | -----        |

| Revisions                                | 435,645                | 666,249      |
| Production                               | (53,864)               | (70,803)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 791,712                | 1,195,861    |
| Revisions                                | 15,019                 | (155,368)    |
| Production                               | (53,388)               | (64,786)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 753,343                | 975,707      |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.19 per barrel of NGLs and \$7.66 per mcf of gas, discounted at 10% was approximately \$5,752,000 and undiscounted was \$11,644,000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

| Genesis Crude Oil, L.P.     | -             | -             | 58%           |
| Western Gas Resources, Inc. | 4%            | 5%            | 21%           |
| Phillips Petroleum Company  | 10%           | 5%            | 5%            |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., TEPPCO Crude Oil LLC and Phillips Petroleum Company were \$65,440, \$13,643 and \$7,386, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The

1483

majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$11,897,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

1484

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name               | Age at<br>December 31,<br>2000 | Position  |
|--------------------|--------------------------------|---|
| ----               | ----                           | -----   |
| Scott D. Sheffield | 48                             | President   |
| Timothy L. Dove    | 44                             | Executive Vice President, Chief<br>Financial Officer and Director |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                      |    |   |
|----------------------|----|---|
| Dennis E. Fagerstone | 51 | Executive Vice President and Director                       |
| Mark L. Withrow      | 53 | Executive Vice President, General Counsel and Director      |
| Danny Kellum         | 46 | Executive Vice President - Domestic Operations and Director |
| Rich Dealy           | 34 | Vice President and Chief Accounting Officer                 |

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

1485

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate

1467

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

23

1486

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

(a) Beneficial owners of more than five percent

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 80 limited partnership interests at January 1, 2001.

### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

1487

24

|  | 2000       | 1999       | 1998       |
|--|------------|------------|------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 211,037 | \$ 214,306 | \$ 209,549 |
| Reimbursement of general and administrative expenses   | \$ 40,368  | \$ 27,181  | \$ 22,923  |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

TO

PROXY STATEMENT/PROSPECTUS DATED           , 2001

-----

THE DATE OF THIS SUPPLEMENT IS           , 2001

-----

This document contains important information specific to Parker & Parsley 90-B, L.P., and supplements the proxy statement/prospectus dated           , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-B, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

| Liquidation Value per \$1,000 Limited Partner Investment  | (c), (e)                | \$     |
| Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment  | (c), (f)                | \$     |

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 90-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 90-B, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 28% to \$1,151,858 for the three months ended March 31, 2001 as compared to \$896,935 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decline in production. For the three months ended March 31, 2001, 23,737 barrels of oil, 8,809 barrels of natural gas liquids ("NGLs") and 51,504 mcf of gas were sold, or 41,130 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 24,387 barrels of oil, 10,810 barrels of NGLs and 42,382 mcf of gas were sold, or 42,261 BOEs.

7

1501

The average price received per barrel of oil increased \$1.56, or 6%, from \$27.70 for the three months ended March 31, 2000 to \$29.26 for the same period in 2001. The average price received per barrel of NGLs increased \$4.36, or 31%, from \$13.89 for the three months ended March 31, 2000 to \$18.25 for the same period in 2001. The average price received per mcf of gas increased 243% from \$1.68 during the three months ended March 31, 2000 to \$5.76 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

Gains on disposition of assets of \$5,357 and \$5,487 recognized during the three months ended March 31, 2001 and 2000, respectively, were from the sale of equipment on one fully depleted well.

##### Costs and Expenses:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses increased to \$497,655 for the three months ended March 31, 2001 as compared to \$462,446 for the same period in 2000, an increase of \$35,209, or 8%. The increase was due to increases in production costs, general and administrative expenses ("G&A") and depletion.

Production costs were \$388,370 for the three months ended March 31, 2001 and \$362,344 for the same period in 2000, resulting in a \$26,026 increase, or 7%. The increase was primarily due to higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 33% from \$27,481 for the three months ended March 31, 2000 to \$36,650 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$72,635 for the three months ended March 31, 2001 as compared to \$72,621 for the same period in 2000, an increase of \$14. The increase was primarily due to downward revisions to proved reserves on several wells during the three months ended March 31, 2001, offset by a reduction in the Partnership's net depletable basis from charges taken in accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121") during the fourth quarter of 2000 and a decline in oil production of 650 barrels for the period ended March 31, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$246,326 for the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$256,268 in oil and gas sales receipts and a reduction in working capital of \$25,253, offset by increases in production costs of \$26,026 and G&A expenses of \$9,169. The increase in oil and gas

8

1502

receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$259,260 to oil and gas receipts, offset by \$2,992 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities for the three months ended March 31, 2001 and 2000 were related to expenditures for upgrades of oil and gas equipment on active properties.

Proceeds from disposition of assets of \$5,357 and \$5,487 received during the three months ended March 31, 2001 and 2000, respectively, were derived from the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

sale of equipment on one fully depleted well.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$773,504, of which \$7,735 was distributed to the managing general partner and \$765,769 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$488,299, of which \$4,883 was distributed to the managing general partner and \$483,416 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

1506

PART I

ITEM 1. BUSINESS

Parker & Parsley 90-B, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 32,264 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 48% was attributable to sales made to Plains Marketing, L.P., 10% to TEPPCO Crude Oil LLC and 10% to Phillips Petroleum Company. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

2

1507

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 104 oil and gas wells. One well has been plugged and abandoned. At December 31, 2000, the Partnership had 103 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

1508

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 32,264 outstanding limited partnership interests held of record by 2,201 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$2,237,802 and \$736,663, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

ITEM 7. MANAGEMENT' DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 67% to \$4,103,548 for 2000 as compared to \$2,461,819 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 99,252 barrels of oil, 45,552 barrels of natural gas liquids ("NGLs") and 175,696 mcf of gas were sold, or 174,087 barrel of oil equivalents ("BOEs"). In 1999, 98,658 barrels of oil, 47,406 barrels of NGLs and 192,016 mcf of gas were sold, or

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

178,067 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.00, or 70%, from \$17.23 in 1999 to \$29.23 in 2000. The average price received per barrel of NGLs increased \$5.96, or 63%, from \$9.49 in 1999 to \$15.45 in 2000. The average price received per mcf of gas increased 75% from \$1.62 in 1999 to \$2.84 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$5,487 recognized in 2000 was due to equipment credits received on one fully depleted well.

Total costs and expenses decreased in 2000 to \$2,004,420 as compared to \$2,029,978 in 1999, a decrease of \$25,558, or 1%. The decrease was due to declines in the impairment of oil and gas properties and depletion, offset by increases in production costs and general and administrative expenses ("G&A").

Production costs were \$1,511,223 in 2000 and \$1,296,822 in 1999, resulting in an increase of \$214,401, or 17%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 31% from \$93,562 in 1999 to \$122,731 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$109,474 in 2000 and \$73,707 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

5

1510

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized non-cash charges of \$86,231 and \$240,063 related to its oil and gas properties during 2000 and 1999, respectively.

Depletion was \$284,235 in 2000 compared to \$399,531 in 1999, representing a decrease of \$115,296, or 29%. This decrease was primarily due to an 81,075 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

1999 compared to 1998

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's 1999 oil and gas revenues increased 19% to \$2,461,819 from \$2,074,056 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 98,658 barrels of oil, 47,406 barrels of NGLs and 192,016 mcf of gas were sold, or 178,067 BOEs. In 1998, 111,585 barrels of oil, 47,190 barrels of NGLs and 199,215 mcf of gas were sold, or 191,978 BOEs.

The average price received per barrel of oil increased \$4.11, or 31%, from \$13.12 in 1998 to \$17.23 in 1999. The average price received per barrel of NGLs increased \$2.89, or 44%, from \$6.60 in 1998 to \$9.49 in 1999. The average price received per mcf of gas increased 8% from \$1.50 in 1998 to \$1.62 in 1999.

A gain on disposition of assets of \$4,527 recognized during 1998 was due to credits received from the disposal of oil and gas equipment on one fully depleted well and one well that was plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$2,029,978 as compared to \$3,108,696 in 1998, a decrease of \$1,078,718, or 35%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$1,296,822 in 1999 and \$1,403,494 in 1998, resulting in a \$106,672 decrease, or 8%. The decrease was due to declines in well maintenance costs, ad valorem taxes and workover costs.

During this period, G&A increased 29% from \$72,284 in 1998 to \$93,562 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$73,707 in 1999 and \$62,152 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized non-cash SFAS 121 charges of \$240,063 and \$744,642 related to its oil and gas properties during 1999 and 1998, respectively.

6

1511

Depletion was \$399,531 in 1999 compared to \$888,276 in 1998. This represented a decrease of \$488,745, or 55%. This decrease was primarily due to an increase in proved reserves of 761,146 barrels of oil during 1999 due to higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 12,927 barrels for the period ended December 31, 1999 compared to the same period in 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$1,473,163 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$1,657,757 and a decline in working capital of \$58,976, offset by increases in production costs paid of \$214,401 and G&A expenses paid of \$29,169. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$1,715,313 to oil and gas receipts, offset by \$57,556 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$5,487 recognized in 2000 were due to equipment credits received on one fully depleted well.

7

1512

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$2,260,406, of which \$22,604 was distributed to the managing general partner and \$2,237,802 to the limited partners. In 1999, cash distributions to the partners were \$744,104, of which \$7,441 was distributed to the managing general partner and \$736,663 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 90-B, L.P.

(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-B, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-B, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

The accompanying notes are an integral part of these financial statements.

14

1519

PARKER & PARSLEY 90-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-B, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

15

1520

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$86,231, \$240,063 and \$744,642 related to its proved oil and gas properties during 2000, 1999 and

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1998, respectively.

16

1521

NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$632,807 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000<br>-----         | 1999<br>-----         |
|---|-----------------------|-----------------------|
| Net income (loss) per statements of operations  | \$ 2,136,271          | \$ 447,469            |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 246,057               | 359,438               |
| Impairment of oil and gas properties for financial reporting purposes   | 86,231                | 240,063               |
| Other, net  | (4,768)               | (12,935)              |
|   | -----                 | -----                 |
| Net income per Federal income tax returns   | \$ 2,463,791<br>===== | \$ 1,034,035<br>===== |

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000<br>-----      | 1999<br>-----      | 1998<br>-----      |
|-------------------|--------------------|--------------------|--------------------|
| Development costs | \$ 41,504<br>===== | \$ 33,486<br>===== | \$ 49,747<br>===== |

Capitalized oil and gas properties consist of the following:

|                            | 2000<br>----- | 1999<br>----- |
|----------------------------|---------------|---------------|
| Proved properties:         |               |               |
| Property acquisition costs | \$ 1,002,057  | \$ 1,002,057  |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|                               |                            |                            |
|-------------------------------|----------------------------|----------------------------|
| Completed wells and equipment | 25,108,873                 | 25,067,369                 |
|                               | -----                      | -----                      |
| Accumulated depletion         | 26,110,930<br>(21,899,717) | 26,069,426<br>(21,529,251) |

| Net oil and gas properties    | \$ 4,211,213               | \$ 4,540,175               |
|                               | =====                      | =====                      |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000       | 1999       | 1998       |
|--|------------|------------|------------|
|  | -----      | -----      | -----      |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 572,323 | \$ 581,191 | \$ 568,275 |
|  | -----      | -----      | -----      |
| Reimbursement of general and administrative expenses   | \$ 109,474 | \$ 73,707  | \$ 62,152  |

17

1522

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and P&P Employees 90-B Conv., L.P. ("EMPL"), Parker & Parsley 90-B Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|  | Pioneer USA (1) | Partnerships (2) |
|--|-----------------|------------------|
|  | -----           | -----            |
| Revenues:  |                 |                  |
| Proceeds from disposition of depreciable and depletable properties |                 |                  |
| First three years  | 14.141414%      | 85.858586%       |
| After first three years  | 19.191919%      | 80.808081%       |
| All other revenues   |                 |                  |
| First three years  | 14.141414%      | 85.858586%       |
| After first three years  | 19.191919%      | 80.808081%       |

1501

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Costs and expenses:

|   |            |            |
|---|------------|------------|
| Lease acquisition costs, drilling and completion costs and all other costs            | 9.090909%  | 90.909091% |
| Operating costs, reporting and legal expenses and general and administrative expenses |            |            |
| First three years   | 14.141414% | 85.858586% |
| After first three years   | 19.191919% | 80.808081% |

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 83 limited partner interests owned by Pioneer USA.
- (2) The allocation between the Partnership and Parker & Parsley 90-B Conv., L.P. is 73.05994% and 26.94006%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
|  | -----                  | -----        |
| Net proved reserves at January 1, 1998   | 2,481,201              | 2,344,959    |
| Revisions                                | (1,210,571)            | (517,240)    |
| Production                               | (158,775)              | (199,215)    |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 1,111,855              | 1,628,504    |
| Revisions                                | 1,181,592              | 1,807,095    |
| Production                               | (146,064)              | (192,016)    |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 2,147,383              | 3,243,583    |
| Revisions                                | 46,430                 | (419,625)    |
| Production                               | (144,804)              | (175,696)    |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 2,049,009              | 2,648,262    |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

per barrel of oil, \$13.19 per barrel of NGLs and \$7.66 per mcf of gas, discounted at 10% was approximately \$15,617,000 and undiscounted was \$31,632,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider probable reserves, anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|-----------------------------|---------------|---------------|---------------|
| Plains Marketing, L.P.      | 48%           | 46%           | -             |
| TEPPCO Crude Oil LLC        | 10%           | 11%           | -             |
| Genesis Crude Oil, L.P.     | -             | -             | 58%           |
| Western Gas Resources, Inc. | 4%            | 5%            | 22%           |
| Phillips Petroleum Company  | 10%           | 5%            | 5%            |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., TEPPCO Crude Oil LLC and Phillips Petroleum Company were \$177,462, \$37,001 and \$20,032, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The

20

1525

majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$32,264,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

21

1526

### PART III

#### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name<br>-----        | Age at<br>December 31,<br>2000<br>----- | Position<br>-----   |
|----------------------|---|---|
| Scott D. Sheffield   | 48                                      | President   |
| Timothy L. Dove      | 44                                      | Executive Vice President, Chief<br>Financial Officer and Director |
| Dennis E. Fagerstone | 51                                      | Executive Vice President and Director                             |
| Mark L. Withrow      | 53                                      | Executive Vice President, General<br>Counsel and Director         |
| Danny Kellum         | 46                                      | Executive Vice President - Domestic<br>Operations and Director    |
| Rich Dealy           | 34                                      | Vice President and Chief Accounting<br>Officer                    |

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 83 limited partnership interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

24

1529

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 572,323    | \$ 581,191    | \$ 568,275    |
| Reimbursement of general and administrative expenses   | \$ 109,474    | \$ 73,707     | \$ 62,152     |

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

PROXY STATEMENT/PROSPECTUS DATED \_\_\_\_\_, 2001

-----  
THE DATE OF THIS SUPPLEMENT IS \_\_\_\_\_, 2001  
-----

This document contains important information specific to Parker & Parsley 90-C Conv., L.P., and supplements the proxy statement/prospectus dated \_\_\_\_\_, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-C Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

results of operations, for the three months ended March 31, 2001

- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

### SUPPLEMENTAL INFORMATION TABLE

|   |        |
|---|--------|
| Aggregate Initial Investment by the Limited Partners (a)  | \$ 7,5 |
| Aggregate Historical Limited Partner Distributions through July 31, 2001 (a)  | \$ 4,9 |
| Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA (a), (b)  | \$ 1,8 |
| Merger Value per \$1,000 Limited Partner Investment (b), (c)  | \$243. |
| Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 (b), (c) | 3.     |
| Book Value per \$1,000 Limited Partner Investment:  |        |
| -- as of March 31, 2001 (c)   | \$126. |
| -- as of December 31, 2000 (c)  | \$132. |
| Going Concern Value per \$1,000 Limited Partner Investment (c), (d)   | \$226. |
| Liquidation Value per \$1,000 Limited Partner Investment (c), (e)   | \$236. |
| Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f)   | \$ 1   |

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

value or amount attributable to a single unit investment.

- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 90-C CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 90-C Conv., L.P. (the "Partnership") was organized as a general partnership in 1990 under the laws of the State of Texas and was converted to a Delaware limited partnership on August 1, 1991.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 19% to \$230,925 for the three months ended March 31, 2001 as compared to \$193,711 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decline in production. For the three months ended March 31, 2001, 5,811 barrels of oil, 859 barrels of natural gas liquids ("NGLs") and 8,151 mcf of gas were sold, or 8,029 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 5,802 barrels of oil, 1,943 barrels of NGLs and 6,434 mcf of gas were sold, or 8,817 BOEs.

7

1543

The average price received per barrel of oil increased \$.92, or 3%, from \$27.16 for the three months ended March 31, 2000 to \$28.08 for the same period in 2001. The average price received per barrel of NGLs increased \$6.00, or 46%, from \$12.95 for the three months ended March 31, 2000 to \$18.95 for the same period in 2001. The average price received per mcf of gas increased 270% from \$1.71 during the three months ended March 31, 2000 to \$6.33 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

##### Costs and Expenses:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses increased to \$117,298 for the three months ended March 31, 2001 as compared to \$103,387 for the same period in 2000, an increase of \$13,911, or 13%. This increase was primarily due increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$95,640 for the three months ended March 31, 2001 and \$83,711 for the same period in 2000, resulting in an increase of \$11,929, or 14%. The increase was primarily due to additional well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas revenues.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 38% from \$5,934 for the three months ended March 31, 2000 to \$8,175 for the same period in 2001 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$13,483 for the three months ended March 31, 2001 as compared to \$13,742 for the same period in 2000, a decrease of \$259, or 2%. This decrease was primarily due to positive revisions to proved reserves on one well during the three months ended March 31, 2001.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$39,829 during the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$37,505 in oil and gas sales receipts and a reduction in working capital of \$16,494, offset by increases in production costs of \$11,929 and G&A expenses of \$2,241. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$46,902 to oil and gas receipts, offset by \$9,397 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The increase in G&A

was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the three months ended March 31, 2001 and 2000 related to expenditures for upgrades of oil and gas equipment on active properties.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$161,186, of which \$1,612 was distributed to the managing general partner

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and \$159,574 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$103,576, of which \$1,036 was distributed to the managing general partner and \$102,540 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

-----

- (1) "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

1547

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 90-C Conv., L.P. (the "Partnership") is a general partnership organized in 1990 under the laws of the State of Texas. The Partnership converted to a Delaware limited partnership on August 1, 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 7,531 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 64% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

2

1548

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 44 oil and gas wells. One well was sold and one well was plugged and abandoned due to uneconomical operations. At December 31, 2000, the Partnership had 42 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

1549

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 7,531 outstanding limited partnership interests held of record by 505 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$492,300 and \$135,825, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 71% to \$917,184 for 2000 as compared to \$537,893 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 23,602 barrels of oil, 9,171 barrels of natural gas liquids ("NGLs") and 30,423 mcf of gas were sold, or 37,844 barrel of oil equivalentents ("BOEs"). In 1999, 23,568 barrels of oil, 9,050 barrels of NGLs and 29,399 mcf of gas were sold, or 37,518 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.21, or 71%, from \$17.13 in 1999 to \$29.34 in 2000. The average price received per barrel of NGLs increased \$5.60, or 60%, from \$9.31 in 1999 to \$14.91 in 2000. The average price received per mcf of gas increased 70% from \$1.70 in 1999 to \$2.89 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than received in 2000.

Gains on dispositions of assets of \$388 and \$104 recognized during 2000 and 1999, respectively, were due to equipment credits received on a fully depleted well in each year.

Total costs and expenses increased in 2000 to \$416,488 compared to \$405,150 in 1999, an increase of \$11,338, or 3%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

decline in depletion.

Production costs were \$334,055 in 2000 and \$297,353 in 1999, resulting in an increase of \$36,702, or 12%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period G&A increased 45% from \$20,987 in 1999 to \$30,429 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$27,439 in 2000 and \$16,060 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

5

1551

Depletion was \$52,004 in 2000 as compared to \$86,810 in 1999, representing a decrease of \$34,806, or 40%. This decrease was primarily due to a 31,374 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 25% to \$537,893 from \$430,499 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 23,568 barrels of oil, 9,050 barrels of NGLs and 29,399 mcf of gas were sold, or 37,518 BOEs. In 1998, 24,493 barrels of oil, 8,694 barrels of NGLs and 30,348 mcf of gas were sold, or 38,245 BOEs.

The average price received per barrel of oil increased \$3.89, or 29%, from \$13.24 in 1998 to \$17.13 in 1999. The average price received per barrel of NGLs increased \$2.51, or 37%, from \$6.80 in 1998 to \$9.31 in 1999. The average price received per mcf of gas increased 10% from \$1.55 in 1998 to \$1.70 in 1999.

Total costs and expenses decreased in 1999 to \$405,150 compared to \$693,871 in 1998, a decrease of \$288,721, or 42%. This decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$297,353 in 1999 and \$314,363 in 1998, resulting in a decrease of \$17,010, or 5%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes.

During this period G&A increased 39% from \$15,084 in 1998 to \$20,987 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$16,060 in 1999 and \$12,838 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$185,784 related to its oil and gas properties during 1998.

Depletion was \$86,810 in 1999 compared to \$178,640 in 1998. This represented a decrease of \$91,830, or 51%. This decrease was primarily the result of an increase in proved reserves of 207,077 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

6

1552

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$330,268 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$383,466, offset by increases in production costs paid of \$36,702, G&A expenses paid of \$9,442 and working capital of \$7,054. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$377,706 to oil and gas receipts and \$5,760 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active oil and gas properties.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Proceeds from dispositions of assets of \$388 and \$104 recognized during 2000 and 1999, respectively, were related to equipment credits received on a fully depleted well in each year.

Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$497,273, of which \$4,973 was distributed to the managing general partner and \$492,300 to the limited partners. In 1999, cash distributions to the partners were \$137,197, of which \$1,372 was distributed to the managing general partner and \$135,825 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 90-C Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-C Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners'

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-C Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 90-C CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-C Conv., L.P. (the "Partnership") is a general partnership organized in 1990 under the laws of the State of Texas. The Partnership converted to a Delaware limited partnership on August 1, 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of- production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income (loss) of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$185,784 related to its proved oil and gas properties during 1998.

15

1561

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$49,618 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income (loss) per Federal income tax returns for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|   | 2000<br>-----       | 1999<br>-----       |
|---|---------------------|---------------------|
| Net income (loss) per statements of operations  | \$ 509,518          | \$ 137,106          |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 40,369              | 76,676              |
| Impairment of oil and gas properties for financial reporting purposes   | -                   | -                   |
| Intangible development costs capitalized for financial reporting purposes and expensed for tax reporting purposes   | (385)               | -                   |
| Other, net  | (1,143)             | (1,786)             |
|   | -----               | -----               |
| Net income (loss) per Federal income tax returns  | \$ 548,359<br>===== | \$ 211,996<br>===== |

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000<br>-----      | 1999<br>-----      |
|-------------------|--------------------|--------------------|
| Development costs | \$ 22,764<br>===== | \$ 10,512<br>===== |

Capitalized oil and gas properties consist of the following:

|                               | 2000<br>-----            |
|-------------------------------|--------------------------|
| Proved properties:            |                          |
| Property acquisition costs    | \$ 226,701               |
| Completed wells and equipment | 5,571,792                |
|                               | -----                    |
| Accumulated depletion         | 5,798,493<br>(5,000,618) |
|                               | -----                    |
| Net oil and gas properties    | \$ 797,875<br>=====      |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

following related party transactions with the managing general partner during the years ended December 31:

16

1562

|  | 2000       | 1999       |
|--|------------|------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 130,806 | \$ 126,701 |
| Reimbursement of general and administrative expenses   | \$ 27,439  | \$ 16,060  |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90-C Conv., L.P. ("EMPL"), Parker & Parsley 90-C, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|   | Pioneer USA (1) |
|---|-----------------|
| <b>Revenues:</b>  |                 |
| Proceeds from disposition of depreciable and depletable properties -                    |                 |
| First three years   | 14.141414%      |
| After first three years   | 19.191919%      |
| All other revenues -  |                 |
| First three years   | 14.141414%      |
| After first three years   | 19.191919%      |
| <b>Costs and expenses:</b>  |                 |
| Lease acquisition costs, drilling and completion costs and all other costs              | 9.090909%       |
| Operating costs, reporting and legal expenses and general and administrative expenses - |                 |
| First three years   | 14.141414%      |
| After first three years   | 19.191919%      |

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 30 limited partner interests owned by Pioneer USA.
- (2) The allocation between the Partnership and Parker & Parsley 90-C, L.P. is 38.349119% and 61.650881%, respectively.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table represents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

17

1563

|  | Oil and NGLs<br>(bbls)<br>----- |
|--|---------------------------------|
| Net proved reserves at January 1, 1998   | 424,601                         |
| Revisions                                | (204,124)                       |
| Production                               | (33,187)                        |
|  | -----                           |
| Net proved reserves at December 31, 1998 | 187,290                         |
| Revisions                                | 293,912                         |
| Production                               | (32,618)                        |
|  | -----                           |
| Net proved reserves at December 31, 1999 | 448,584                         |
| Revisions                                | 50,848                          |
| Production                               | (32,773)                        |
|  | -----                           |
| Net proved reserves at December 31, 2000 | 466,659<br>=====                |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.22 per barrel of NGLs and \$7.80 per mcf of gas, discounted at 10% was approximately \$3,245,000 and undiscounted was \$6,366,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

#### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000 | 1999 |
|-----------------------------|------|------|
| Plains Marketing, L.P.      | 64%  | 62%  |
| Genesis Crude Oil, L.P.     | -    | -    |
| Western Gas Resources, Inc. | 2%   | 3%   |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$48,722 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$7,531,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

1566

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name<br>----         | Age at<br>December 31,<br>2000<br>---- | Position<br>-----   |

Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

1567

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm

of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

(a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 30 limited partner interests at January 1, 2001.

(b) Security ownership of management

The Partnership does not have any officers or directors. The managing general

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

23

1569

|  | 2000       | 1999       |
|--|------------|------------|
|  | -----      | -----      |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 130,806 | \$ 126,701 |
| Reimbursement of general and administrative expenses   | \$ 27,439  | \$ 16,060  |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 90-C, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 90-C, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-C, L.P.:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

1575

PARKER & PARSLEY 90-C, L.P.  
SUPPLEMENTAL INFORMATION TABLE

1552

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of March 31, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 90-C, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 90-C, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the

1559

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 19% to \$371,240 for the three months ended March 31, 2001 as compared to \$311,387 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decline in production. For the three months ended March 31, 2001, 9,339 barrels of oil, 1,379 barrels of natural gas liquids ("NGLs") and 13,106 mcf of gas were sold, or 12,902 barrel of oil equivalents ("BOEs"). For the three

7

1583

months ended March 31, 2000, 9,323 barrels of oil, 3,126 barrels of NGLs and 10,341 mcf of gas were sold, or 14,173 BOEs.

The average price received per barrel of oil increased \$.92, or 3%, from \$27.16 for the three months ended March 31, 2000 to \$28.08 for the same period in 2001. The average price received per barrel of NGLs increased \$6.00, or 46%, from \$12.95 for the three months ended March 31, 2000 to \$18.95 for the same period in 2001. The average price received per mcf of gas increased 270% from \$1.71 during the three months ended March 31, 2000 to \$6.33 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

##### Costs and Expenses:

Total costs and expenses increased to \$188,490 for the three months ended March 31, 2001 as compared to \$166,213 for the same period in 2000, an increase of \$22,277, or 13%. This increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$153,745 for the three months ended March 31, 2001 and \$134,566 for the same period in 2000, resulting in an increase of \$19,179, or 14%. The increase was primarily due to additional well maintenance costs incurred to stimulate well production and higher production taxes associated

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 37% from \$9,539 for the three months ended March 31, 2000 to \$13,096 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual of tax preparation fees.

Depletion was \$21,649 for the three months ended March 31, 2001 as compared to \$22,108 for the same period in 2000, a decrease of \$459, or 2%. This decrease was primarily due to positive revisions to proved reserves on one well during the three months ended March 31, 2001.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$67,747 during the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$60,337 in oil and gas sales receipts and a reduction in working capital of \$30,146, offset by increases in production costs of \$19,179 and G&A expenses of \$3,557. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which

8

1584

contributed an additional \$75,502 to oil and gas receipts, offset by \$15,165 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual of tax preparation fees.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the three months ended March 31, 2001 and 2000 were related to expenditures for upgrades of oil and gas equipment on active properties.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$259,063, of which \$2,591 was distributed to the managing general partner and \$256,472 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$166,511, of which \$1,665 was distributed to the managing general partner and \$164,846 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

Business" for a description of various factors that could materially affect the ability of the Partnership to achieve the anticipated results described in the forward looking statements.

1588

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 90-C, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 12,107 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 64% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that

2

1589

its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 44 oil and gas wells. One well was sold and one well was plugged and abandoned due to uneconomical operations. At December 31, 2000, the Partnership had 42 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

1590

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 12,107 outstanding limited partnership interests held of record by 901 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$791,434 and \$218,354, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

| 2000 | 1999 | 1998 | 1997 | 1996 |

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 71% to \$1,474,499 for 2000 as compared to \$864,722 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 37,944 barrels of oil, 14,742 barrels of natural gas liquids ("NGLs") and 48,907 mcf of gas were sold, or 60,837 barrel of oil equivalents ("BOEs"). In 1999, 37,886 barrels of oil, 14,547 barrels of NGLs and 47,265 mcf of gas were sold, or 60,311 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.21, or 71%, from

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$17.13 in 1999 to \$29.34 in 2000. The average price received per barrel of NGLs increased \$5.60, or 60%, from \$9.31 in 1999 to \$14.91 in 2000. The average price received per mcf of gas increased 70% from \$1.70 in 1999 to \$2.89 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gains on disposition of assets of \$624 and \$167 recognized during 2000 and 1999, respectively, were due to equipment credits received on a fully depleted well in each year.

Total costs and expenses increased in 2000 to \$669,449 as compared to \$650,544 in 1999, an increase of \$18,905, or 3%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$537,048 in 2000 and \$477,835 in 1999, resulting in an increase of \$59,213, or 12%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period G&A increased 47% from \$33,223 in 1999 to \$48,801 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$44,112 in 2000 and \$25,818 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$83,600 in 2000 compared to \$139,486 in 1999, representing a decrease of \$55,886, or 40%. This decrease was primarily due to a 50,718 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 25% to \$864,722 from \$692,090 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 37,886 barrels of oil, 14,547 barrels of NGLs and 47,265 mcf of gas were sold, or 60,311 BOEs. In 1998, 39,380 barrels of oil, 13,978 barrels of NGLs and 48,787 mcf of gas were sold, or 61,489 BOEs.

The average price received per barrel of oil increased \$3.89, or 29%, from \$13.24 in 1998 to \$17.13 in 1999. The average price received per barrel of NGLs increased \$2.51, or 37%, from \$6.80 in 1998 to \$9.31 in 1999. The average price

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

received per mcf of gas increased 10% from \$1.55 in 1998 to \$1.70 in 1999.

Total costs and expenses decreased in 1999 to \$650,544 as compared to \$1,115,454 in 1998, a decrease of \$464,910, or 42%. This decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$477,835 in 1999 and \$505,571 in 1998, resulting in a \$27,736 decrease, or 5%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes

During this period G&A increased 37% from \$24,190 in 1998 to \$33,223 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$25,818 in 1999 and \$20,639 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$298,622 related to its oil and gas properties during 1998.

Depletion was \$139,486 in 1999 compared to \$287,071 in 1998. This represented a decrease of \$147,585, or 51%. This decrease was primarily the result of an increase in proved reserves of 332,733 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998,

weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

Net Cash Provided by Operating Activities

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net cash provided by operating activities increased \$532,008 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$616,371, offset by increases in production costs paid of \$59,213, G&A expenses paid of \$15,578 and working capital of \$9,572. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$607,017 to oil and gas receipts and an increase of \$9,354 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$624 and \$167 recognized during 2000 and 1999, respectively, were related to equipment credits received on a fully depleted well in each year.

Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$799,428, of which \$7,994 was distributed to the managing general partner and \$791,434 to the limited partners. In 1999, cash distributions to the partners were \$220,560, of which \$2,206 was distributed to the managing general partner and \$218,354 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 90-C, L.P.

(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-C, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-C, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 90-C, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-C, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income (loss) of the Partnership is included in the individual Federal income tax returns of the respective partners.

14

1601

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$298,622 related to its proved oil and gas properties during 1998.

15

1602

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$81,171 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income (loss) per Federal income tax returns for the years ended December 31:

|   | 2000       | 1999       | 1998         |
|---|------------|------------|--------------|
|   | -----      | -----      | -----        |
| Net income (loss) per statements of operations  | \$ 818,778 | \$ 220,855 | \$ (416,064) |
| Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes | 64,630     | 123,267    | 81,152       |
| Impairment of oil and gas properties for financial reporting purposes   | --         | --         | 298,622      |
| Intangible development costs capitalized for financial reporting purposes and expensed for tax reporting purposes   | (619)      | --         | --           |
| Other, net  | (1,775)    | (4,424)    | 4,552        |
|   | -----      | -----      | -----        |
| Net income (loss) per Federal income tax return   | \$ 881,014 | \$ 339,698 | \$ (31,738)  |
|   | =====      | =====      | =====        |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000      | 1999      | 1998      |
|-------------------|-----------|-----------|-----------|
| Development costs | \$ 36,595 | \$ 16,900 | \$ 21,456 |

Capitalized oil and gas properties consist of the following:

|                               | 2000         |    | 1999         |    | 1998         |
|-------------------------------|--------------|----|--------------|----|--------------|
| Proved properties:            |              |    |              |    |              |
| Property acquisition costs    | \$ 364,450   | \$ | 8,957,333    | \$ | 8,957,333    |
| Completed wells and equipment | 9,321,783    |    | (8,040,111)  |    | (7,957,333)  |
| Accumulated depletion         | \$ 1,281,672 |    | \$ 1,281,672 |    | \$ 1,281,672 |
| Net oil and gas properties    |              |    |              |    |              |

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000       |    | 1999    |    | 1998    |
|--|------------|----|---------|----|---------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 210,287 | \$ | 203,686 | \$ | 203,686 |
| Reimbursement of general and administrative expenses   | \$ 44,112  | \$ | 25,818  | \$ | 25,818  |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and P&P Employees 90-C Conv., L.P. ("EMPL") (the "Entities"), Parker & Parsley 90-C Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

|  | Pioneer USA (1) | Partnerships (2) |
|--|-----------------|------------------|
| Revenues:  |                 |                  |
| Proceeds from disposition of depreciable and depletable properties:                    |                 |                  |
| First three years  | 14.141414%      | 85.858586%       |
| After first three years  | 19.191919%      | 80.808081%       |
| All other revenues:  |                 |                  |
| First three years  | 14.141414%      | 85.858586%       |
| After first three years  | 19.191919%      | 80.808081%       |
| Costs and expenses:  |                 |                  |
| Lease acquisition costs, drilling and completion costs and all other costs             | 9.090909%       | 90.909091%       |
| Operating costs, reporting and legal expenses and general and administrative expenses: |                 |                  |
| First three years  | 14.141414%      | 85.858586%       |
| After first three years  | 19.191919%      | 80.808081%       |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 27 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 90-C Conv., L.P. is 61.650881% and 38.349119%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|

|  |          |          |
|--|----------|----------|
| Production                               | (52,686) | (48,907) |
|  | -----    | -----    |
| Net proved reserves at December 31, 2000 | 750,194  | 751,917  |
|  | =====    | =====    |

17

1604

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.22 per barrel of NGLs and \$7.80 per mcf of gas, discounted at 10% was approximately \$5,217,000 and undiscounted was \$10,234,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  | 1999  | 1998  |
|-----------------------------|-------|-------|-------|
|                             | ----- | ----- | ----- |
| Plains Marketing, L.P.      | 64%   | 62%   | -     |
| Genesis Crude Oil, L.P.     | -     | -     | 69%   |
| Western Gas Resources, Inc. | 2%    | 3%    | 13%   |

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$78,327 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

19

1606

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$12,107,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

1607

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Age at

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers or

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

employees of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 27 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000       | 1999       | 1998      |
|--|------------|------------|-----------|
|  | -----      | -----      | -----     |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 210,287 | \$ 203,686 | \$199,461 |
| Reimbursement of general and administrative expenses   | \$ 44,112  | \$ 25,818  | \$ 20,639 |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data",

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

THE DATE OF THIS SUPPLEMENT IS , 2001

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-----

This document contains important information specific to Parker & Parsley Private Investment 90, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Private Investment 90, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

5

1622

PARKER & PARSLEY PRIVATE INVESTMENT 90, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley Private Investment 90, L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition and  
Results of Operations(1)

### Results of Operations

#### Revenues:

The Partnership's oil and gas revenues increased 18% to \$396,909 for the three months ended March 31, 2001 as compared to \$337,608 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decline in production. For the three months ended March 31, 2001, 9,409 barrels of oil, 2,026 barrels of natural gas liquids ("NGLs") and 14,913 mcf of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

gas were sold, or 13,921 barrel of oil equivalents ("BOEs"). For the three

6

1623

months ended March 31, 2000, 9,901 barrels of oil, 3,207 barrels of NGLs and 12,754 mcf of gas were sold, or 15,234 BOEs.

The average price received per barrel of oil increased \$1.00, or 4%, from \$27.27 for the three months ended March 31, 2000 to \$28.27 for the same period in 2001. The average price received per barrel of NGLs increased \$5.75, or 41%, from \$14.06 for the three months ended March 31, 2000 to \$19.81 for the same period in 2001. The average price received per mcf of gas increased 244% from \$1.77 during the three months ended March 31, 2000 to \$6.09 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$154,949 for the three months ended March 31, 2001 as compared to \$154,508 for the same period in 2000, an increase of \$441. This increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$120,499 for the three months ended March 31, 2001 and \$112,552 for the same period in 2000 resulting in a \$7,947 increase, or 7%. The increase was primarily due to higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 16% from \$10,128 for the three months ended March 31, 2000 to \$11,777 for the same period in 2001 primarily due to an increase in the accrual for tax preparation fees

Depletion was \$22,673 for the three months ended March 31, 2001 as compared to \$31,828 for the same period in 2000, a decrease of \$9,155, or 29%. This decrease was due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices and a decline in oil production of 492 barrels for the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$101,717 during the three months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$59,795 and a reduction in working capital of \$51,518, offset by increases in production costs of \$7,947 and G&A expenses of \$1,649. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an

7

1624

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

additional \$83,969 to oil and gas receipts, offset by \$24,174 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to an increase in the accrual for tax preparation fees.

### Net Cash Used in Investing Activities

For the three months ended March 31, 2001 and 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$304,619, of which \$3,047 was distributed to the managing general partner and \$301,572 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$166,714, of which \$1,667 was distributed to the managing general partner and \$165,047 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

-----

- (1) "Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1626

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley Private Investment 90, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley Private Investment 90, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Private Investment 90, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY PRIVATE INVESTMENT 90, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Private Investment 90, L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

1632

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally discounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$49,757 and \$373,422 related to its proved oil and gas properties during 2000 and 1998, respectively.

8

1633

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$139,996 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|   | 2000<br>-----       | 1999<br>-----       |          |
|---|---------------------|---------------------|----------|
| Net income (loss) per statements of operations                        | \$ 824,583          | \$ 230,882          | \$ (     |
| Depletion and depreciation for tax reporting purposes                 |                     |                     |          |
| less than amounts for financial reporting purposes                    | 93,056              | 131,771             |          |
| Impairment of oil and gas properties for financial reporting purposes | 49,757              | -                   |          |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000<br>-----      | 1999<br>-----      | 1998<br>-----      |
|-------------------|--------------------|--------------------|--------------------|
| Development costs | \$ 25,378<br>===== | \$ 14,048<br>===== | \$ 11,793<br>===== |

Capitalized oil and gas properties consist of the following:

|                               | 2000<br>-----                     | 1999<br>-----                     |
|-------------------------------|-----------------------------------|-----------------------------------|
| Proved properties:            |                                   |                                   |
| Property acquisition costs    | \$ 98,110                         | \$ 98,110                         |
| Completed wells and equipment | 8,366,256<br>-----                | 8,340,878<br>-----                |

| Net oil and gas properties    | \$ 1,391,117<br>=====             | \$ 1,522,025<br>=====             |

9

1634

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000<br>----- | 1999<br>----- | 1998<br>----- |
|--|---------------|---------------|---------------|
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 186,568    | \$ 174,796    | \$ 187,435    |
| Reimbursement of general and administrative expenses   | \$ 37,554     | \$ 23,205     | \$ 16,483     |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90 Private Conv., L.P. ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|   | Pioneer USA (1) |
|---|-----------------|
| Revenues:   |                 |
| Proceeds from disposition of depreciable and depletable properties -                    |                 |
| First three years   | 14.141414%      |
| After three years   | 19.191919%      |
| All other revenues -  |                 |
| First three years   | 14.141414%      |
| After three years   | 19.191919%      |
| Costs and expenses:   |                 |
| Lease acquisition costs, drilling and completion costs                                  | 9.090909%       |
| Operating costs, reporting and legal expenses and general and administrative expenses - |                 |
| First three years   | 14.141414%      |
| After three years   | 19.191919%      |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
| Net proved reserves at January 1, 1998   | 745,340                | 883,417      |

|  | =====       | =====       |

10

1635

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.49 per barrel of NGLs and \$7.81 per mcf of gas, discounted at 10% was approximately \$5,749,000 and undiscounted was \$12,495,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  | 1999  | 1998  |
|-----------------------------|-------|-------|-------|
|                             | ----- | ----- | ----- |
| Plains Marketing, L.P.      | 71%   | 69%   | -     |
| Genesis Crude Oil, L.P.     | -     | -     | 64%   |
| Western Gas Resources, Inc. | 3%    | 4%    | 17%   |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$93,082 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. The managing general partner is also responsible for 1% of guaranty and loan commitment fees. In return, it is allocated 1% of the Partnership's revenues.

12

1637

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$10,970,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission, organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent that its share of revenues does not cover such costs.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 94% to \$1,508,541 for 2000 as compared to \$776,849 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 39,040 barrels of oil, 13,873 barrels of natural gas liquids ("NGLs") and 49,484 mcf of gas were sold, or 61,160 barrel of oil equivalents ("BOEs"). In 1999, 32,789 barrels of oil, 13,546 barrels of NGLs and 47,331 mcf of gas were sold, or 54,224 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.05, or 70%, from \$17.30 in 1999 to \$29.35 in 2000. The average price received per barrel of NGLs increased \$6.36, or 67%, from \$9.46 in 1999 to \$15.82 in 2000. The average price received per mcf of gas increased 69% from \$1.72 in 1999 to \$2.90 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$700,691 as compared to \$553,188 in 1999, an increase of \$147,503, or 27%. The increase was primarily due to increases in the impairment of oil and gas properties, production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$502,676 in 2000 and \$379,923 in 1999, resulting in a \$122,753 increase, or 32%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 39% from \$29,997 in 1999 to \$41,729 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$37,554 in 2000 and \$23,205 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$49,757 related to its oil and gas properties during 2000.

Depletion was \$106,529 in 2000 as compared to \$143,268 in 1999, representing a decrease of \$36,739, or 26%. This decrease was primarily due to a 148,753

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices, offset by an increase in oil production of 6,251 barrels for the period ended December 31, 2000 compared to the same period in 1999.

1639

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 20% to \$776,849 from \$648,378 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 32,789 barrels of oil, 13,546 barrels of NGLs and 47,331 mcf of gas were sold, or 54,224 BOEs. In 1998, 35,555 barrels of oil, 13,913 barrels of NGLs and 54,218 mcf of gas were sold, or 58,504 BOEs.

The average price received per barrel of oil increased \$4.11, or 31%, from \$13.19 in 1998 to \$17.30 in 1999. The average price received per barrel of NGLs increased \$2.69, or 40%, from \$6.77 in 1998 to \$9.46 in 1999. The average price received per mcf of gas increased 10% from \$1.57 in 1998 to \$1.72 in 1999.

Total costs and expenses decreased in 1999 to \$553,188 as compared to \$1,100,322 in 1998, a decrease of \$547,134, or 50%. The decrease was primarily due to declines in the impairment of oil and gas properties, production costs and depletion, offset by an increase in G&A.

Production costs were \$379,923 in 1999 and \$481,924 in 1998, resulting in a \$102,001 decrease, or 21%. The decrease was due to declines in well maintenance costs and ad valorem taxes.

During this period, G&A increased 49% from \$20,196 in 1998 to \$29,997 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$23,205 in 1999 and \$16,483 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$373,422 related to its oil and gas properties during 1998.

Depletion was \$143,268 in 1999 compared to \$224,780 in 1998, representing a decrease of \$81,512, or 36%. This decrease was the result of an increase in proved reserves of 266,736 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

1640

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$559,243 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$738,819, offset by increases in production costs paid of \$122,753, G&A expenses paid of \$11,732 and working capital of \$45,091. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$543,958 to oil and gas receipts and an increase of \$194,861 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active properties.

Proceeds from asset dispositions of \$2,385 and \$2,124 recognized during 2000 and 1999, respectively, were due to equipment credits received on active properties.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$870,242, of which \$8,702 was distributed to the managing general partner and \$861,540 to the limited partners. In 1999, cash distributions to the partners were \$255,913, of which \$2,559 was distributed to the managing general partner and \$253,354 to the limited partners.

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 90 Spraberry Private Development, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90 Spraberry Private Development, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

5

1649

PARKER & PARSLEY 90 SPRABERRY PRIVATE DEVELOPMENT, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley 90 Spraberry Private Development, L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of Parker & Parsley 90 Spraberry Private Development, L.P. (the "Partnership") as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year.

Certain information and footnote disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition and  
Results of Operations(1)

Results of Operations

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Revenues:

The Partnership's oil and gas revenues increased 37% to \$183,614 for the three months ended March 31, 2001 as compared to \$133,917 for the same period in 2000. The increase in revenues resulted from higher average prices received and an increase in production. For the three months ended March 31, 2001, 4,046 barrels of oil, 1,147 barrels of natural gas liquids ("NGLs") and 8,177 mcf of gas were

6

1650

sold, or 6,556 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 4,139 barrels of oil, 1,076 barrels of NGLs and 3,949 mcf of gas were sold, or 5,873 BOEs.

The average price received per barrel of oil increased \$.97, or 4%, from \$26.99 for the three months ended March 31, 2000 to \$27.96 for the same period in 2001. The average price received per barrel of NGLs increased \$4.80, or 33%, from \$14.49 for the three months ended March 31, 2000 to \$19.29 for the same period in 2001. The average price received per mcf of gas increased 252% from \$1.68 during the three months ended March 31, 2000 to \$5.91 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

### Costs and Expenses:

Total costs and expenses decreased to \$68,475 for the three months ended March 31, 2001 as compared to \$76,232 for the same period in 2000, a decrease of \$7,757, or 10%. This decrease was primarily due to declines in depletion and production costs, offset by an increase in general and administrative expenses ("G&A").

Production costs were \$53,740 for the three months ended March 31, 2001 and \$58,485 for the same period in 2000 resulting in a \$4,745 decrease, or 8%. The decrease was due to lower well maintenance costs, offset by higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 46% from \$4,365 for the three months ended March 31, 2000 to \$6,374 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual for tax preparation fees.

Depletion was \$8,361 for the three months ended March 31, 2001 as compared to \$13,382 for the same period in 2000, a decrease of \$5,021, or 38%. This decrease was primarily due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices and a decline in oil production of 93 barrels for the period ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$44,947 during the three

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

months ended March 31, 2001 from the same period ended March 31, 2000. This increase was due to an increase in oil and gas sales receipts of \$49,637 and a

7

1651

decrease in production costs of \$4,745, offset by an increase in G&A expenses of \$2,009 and working capital of \$7,426. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$25,873 to oil and gas receipts and \$23,764 resulting from an increase in production during 2001 as compared to the same period in 2000. The decrease in production costs was due to lower well maintenance costs, offset by higher production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in the accrual of tax preparation fees.

### Net Cash Used in Investing Activities

For the three months ended March 31, 2000, the Partnership's investing activities included expenditures related to equipment upgrades on active oil and gas properties.

### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$107,338, of which \$1,073 was distributed to the managing general partner and \$106,265 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$87,613, of which \$876 was distributed to the managing general partner and \$86,737 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, the majority approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

1653

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 90 Spraberry Private Development, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90 Spraberry Private Development, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90 Spraberry Private Development, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

1658

PARKER & PARSLEY 90 SPRABERRY PRIVATE DEVELOPMENT, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90 Spraberry Private Development, L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

**Oil and gas properties** - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

**Impairment of long-lived assets** - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

1659

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$90,823 related to its proved oil and gas properties during 1998.

8

1660

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$43,760 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

|  | 2000<br>-----       | 1999<br>-----       | 1998<br>-----       |
|--|---------------------|---------------------|---------------------|
| Net income (loss) per statements of operations   | \$ 345,899          | \$ 72,722           | \$ (133,234)        |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|  | 2000     | 1999     | 1998     |
|--|----------|----------|----------|
|  | -----    | -----    | -----    |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$88,496 | \$85,512 | \$81,995 |
| Reimbursement of general and administrative expenses   | \$18,935 | \$11,455 | \$ 9,241 |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90 Spraberry Private Conv., L.P. ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|           | Pioneer USA (1) | Partnership |
|-----------|-----------------|-------------|
|           | -----           | -----       |
| Revenues: |                 |             |

| After three years   | 19.191919% | 80.808081% |

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

| Production                               | (20,688)               | (19,579)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 317,345                | 385,531      |
| Revisions                                | 122,969                | 18,001       |
| Production                               | (22,593)               | (22,121)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 417,721                | 381,411      |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.12 per barrel of NGLs and \$7.64 per mcf of gas, discounted at 10% was approximately \$2,575,000 and undiscounted was \$5,966,000.

1633

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

### NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000  | 1999  | 1998  |
|-----------------------------|-------|-------|-------|
|                             | ----- | ----- | ----- |
| Plains Marketing, L.P.      | 56%   | 50%   | -     |
| TEPPCO Crude Oil LLC        | 10%   | 10%   | -     |
| Genesis Crude Oil, L.P.     | -     | -     | 47%   |
| Phillips Petroleum Company  | 17%   | 14%   | 12%   |
| Western Gas Resources, Inc. | 2%    | 3%    | 9%    |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., Phillips Petroleum Company and TEPPCO Crude Oil LLC were \$29,695, \$12,633 and \$4,023, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being

1664

paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating, general and administrative expenses. The managing general partner is also responsible for 1% of guaranty and loan commitment fees. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$5,200,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent that its share of revenues does not cover such costs.

1665

PARKER & PARSLEY 90 SPRABERRY PRIVATE DEVELOPMENT, L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In September 2000, restated financial statements for 1999 and 1998 were issued to the partners to correct a revenue allocation error for one well in the Partnership. The 1999 and 1998 amounts contained in the following discussion of financial condition and the results of operation are based on the restated amounts.

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 85% to \$638,385 from 2000 as compared to \$345,743 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 16,344 barrels of oil, 6,249 barrels of natural gas liquids ("NGLs") and 22,121 mcf of gas were sold, or 26,280 barrel of oil equivalents ("BOEs"). In 1999, 15,384 barrels of oil, 5,304 barrels of NGLs and 19,579 mcf of gas were sold, or 23,951 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.13, or 71%, from \$17.04 in 1999 to \$29.17 in 2000. The average price received per barrel of NGLs increased \$5.86, or 60%, from \$9.70 in 1999 to \$15.56 in 2000. The average price received per mcf of gas increased 76% from \$1.65 in 1999 to \$2.91 in 2000. The

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$297,927 as compared to \$276,234 in 1999, an increase of \$21,693, or 8%. The increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$235,823 in 2000 and \$177,422 in 1999, resulting in a \$58,401 increase, or 33%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 42% from \$14,767 in 1999 to \$20,910 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$18,935 in 2000 and \$11,455 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$41,194 in 2000 as compared to \$84,045 in 1999, representing a decrease of \$42,851, or 51%. This decrease was primarily due to a 106,156 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1666  
1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 25% to \$345,743 from \$275,856 in 1998. The increase in revenues resulted from higher average prices received and an increase in production. In 1999, 15,384 barrels of oil, 5,304 barrels of NGLs and 19,579 mcf of gas were sold, or 23,951 BOEs. In 1998, 15,196 barrels of oil, 5,639 barrels of NGLs and 24,095 mcf of gas were sold, or 24,851 BOEs.

The average price received per barrel of oil increased \$3.98, or 30%, from \$13.06 in 1998 to \$17.04 in 1999. The average price received per barrel of NGLs increased \$2.81, or 41%, from \$6.89 in 1998 to \$9.70 in 1999. The average price received per mcf of gas increased 3% from \$1.60 in 1998 to \$1.65 in 1999.

Gain on disposition of assets of \$213 recognized during 1998 was related to equipment salvage received on a well plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$276,234 as compared to \$413,082 in 1998, a decrease of \$136,848, or 33%. The decrease was due to reductions in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$177,422 in 1999 and \$184,952 in 1998, resulting in a \$7,530 decrease, or 4%. The decrease was due to reductions in well maintenance costs and ad valorem taxes.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

During this period, G&A increased 35% from \$10,935 in 1998 to \$14,767 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$11,455 in 1999 and \$9,241 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$90,823 related to its oil and gas properties during 1998.

Depletion was \$84,045 in 1999 compared to \$126,372 in 1998, representing a decrease of \$42,327, or 33%. This decrease was primarily due to an increase in proved reserves of 151,444 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

1667

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$102,509 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$294,870, offset by increases in production costs paid of \$58,401, G&A expenses paid of \$6,143 and working capital of \$127,817. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$244,760 to oil and gas receipts and an increase of \$50,110 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active properties.

Proceeds from asset dispositions of \$3,269 in 1999 were due to equipment credits received on active wells.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$308,005, of which \$3,080 was distributed to the managing general partner and \$304,925 to the limited partners. In 1999, cash distributions to the partners were \$140,741, of which \$1,407 was distributed to the managing general partner and \$139,334 to the limited partners.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 91-A, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 91-A, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 91-A, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  
- the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
  
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
  
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
  
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
  
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
  
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
  
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-- as of March 31, 2001(c) \$

-- as of December 31, 2000(c) \$

Going Concern Value per \$1,000 Limited Partner Investment(c), (d) \$

Liquidation Value per \$1,000 Limited Partner Investment(c), (e) \$

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f) \$

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

(f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2041, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

1677

PARKER & PARSLEY 91-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

Note 1. Organization and nature of organization

Parker & Parsley 91-A, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

#### Results of Operations

##### Revenues:

The Partnership's oil and gas revenues increased 7% to \$452,460 for the three months ended March 31, 2001 as compared to \$424,423 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the three months ended March 31, 2001, 10,545 barrels of oil, 2,575 barrels of natural gas liquids ("NGLs") and 19,051 mcf of gas were sold, or 16,295 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 11,360 barrels of oil, 4,839 barrels of NGLs and 22,979 mcf of gas were sold, or 20,029 BOEs.

7

1678

The average price received per barrel of oil increased slightly from \$27.88 for the three months ended March 31, 2000 to \$27.99 for the same period in 2001. The average price received per barrel of NGLs increased \$1.21, or 9%, from \$13.65 for the three months ended March 31, 2000 to \$14.86 for the same period in 2001. The average price received per mcf of gas increased 245% from \$1.81 during the three months ended March 31, 2000 to \$6.25 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

##### Costs and Expenses:

Total costs and expenses increased to \$215,473 for the three months ended March 31, 2001 as compared to \$206,441 for the same period in 2000, an increase of \$9,032, or 4%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$160,852 for the three months ended March 31, 2001 and \$147,769 for the same period in 2000 resulting in a \$13,083 increase, or 9%. This increase was primarily due to additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 101% from \$10,466 for the three months ended March 31, 2000 to \$21,056 for the same period in 2001. The G&A increase was primarily due to an increase in the accrual for tax preparation and monitoring service fees.

Depletion was \$33,565 for the three months ended March 31, 2001 as compared to \$48,206 for the same period in 2000, a decrease of \$14,641, or 30%. This decrease was primarily due to positive revisions to proved reserves during the three months ended March 31, 2001 as a result of higher commodity prices, a

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

reduction in the Partnership's net depletable basis from charges taken in accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121") during the fourth quarter of 2000 and a decline in oil production of 815 barrels for the three months ended March 31, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$74,334 for the three months ended March 31, 2001 from the same period in 2000. The increase was primarily attributable to an increase of \$28,204 in oil and gas sales receipts and a reduction in working capital of \$69,803, offset by increases in production costs of \$13,083 and G&A expenses of \$10,590. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$109,197 to oil and gas receipts, offset by \$80,993 resulting from the decline in production during 2001 as compared to the same period in 2000.

8

1679

The increase in production costs was primarily due to increased well maintenance costs incurred to stimulate well production. The G&A increase was primarily due to the accrual for tax preparation and monitoring service fees.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during the three months ended March 31, 2001 and 2000 were related to the upgrades of oil and gas equipment on active properties.

Proceeds from asset dispositions of \$8,812 recognized during 2000 were from equipment credits received on one active well.

#### Net Cash Used in Financing Activities

For the three months ended March 31, 2001, cash distributions to the partners were \$320,327, of which \$3,203 was distributed to the managing general partner and \$317,124 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$243,701, of which \$2,437 was distributed to the managing general partner and \$241,264 to the limited partners.

#### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, requires a 66-2/3% approval of the limited partnership interests in each partnership and the resolution of Security and Exchange Commission review comments. No solicitation will be made using preliminary materials.

ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

1682

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 91-A, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 11,620 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 38% and 16% were attributable to sales made to Plains Marketing, L.P. and TEPPCO Crude Oil LLC, respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

1683

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 48 oil and gas wells. One well has been plugged and abandoned. At December 31, 2000, the Partnership had 47 wells producing.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

1684

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 11,620 outstanding limited partnership interests held of record by 724 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, distributions of \$1,162,365 and \$432,629, respectively, were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

1685

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 67% to \$1,899,948 for 2000 as compared to \$1,140,335 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 43,704 barrels of oil, 20,425 barrels of natural gas liquids ("NGLs") and 94,315 mcf of gas were sold, or 79,848 barrel of oil equivalents ("BOEs"). In 1999, 44,203 barrels of oil, 20,617 barrels of NGLs and 100,615 mcf of gas were sold, or 81,589 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.33, or 70%, from \$17.57 in 1999 to \$29.90 in 2000. The average price received per barrel of NGLs increased \$5.60, or 60%, from \$9.34 in 1999 to \$14.94 in 2000. The average price received per mcf of gas increased 80% from \$1.70 in 1999 to \$3.06 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$1,096 recognized during 1999 was from equipment credits received on one temporarily abandoned property.

Total costs and expenses decreased in 2000 to \$802,130 as compared to \$884,937 in 1999, a decrease of \$82,807, or 9%. The decrease was due to declines in depletion, the impairment of oil and gas properties and general and administrative expenses ("G&A"), offset by an increase in production costs.

Production costs were \$589,344 in 2000 and \$514,994 in 1999, resulting in an increase of \$74,350, or 14%. This increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 21% from \$75,454 in 1999 to \$59,962 in 2000. The Partnership paid the managing general partner \$41,213 in 2000 and \$34,110 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized non-cash charges of \$12,824 and \$66,898 related to its oil and gas properties during 2000 and 1999, respectively.

5

1686

Depletion decreased in 2000 to \$140,000 as compared to \$227,591 in 1999, representing a decrease of \$87,591, or 38%. This decrease was primarily due to a 127,977 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 19% to \$1,140,335 from \$955,645 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 44,203 barrels of oil, 20,617 barrels of NGLs and 100,615 mcf of gas were sold, or 81,589 BOEs. In 1998, 49,403 barrels of oil, 21,220 barrels of NGLs and 108,617 mcf of gas were sold, or 88,726 BOEs.

The average price received per barrel of oil increased \$4.42, or 34%, from \$13.15 in 1998 to \$17.57 in 1999. The average price received per barrel of NGLs increased \$2.90, or 45%, from \$6.44 in 1998 to \$9.34 in 1999. The average price received per mcf of gas increased 9% from \$1.56 in 1998 to \$1.70 in 1999.

A gain on disposition of assets of \$1,096 recognized during 1999 was from equipment credits received on one temporarily abandoned property.

Total costs and expenses decreased in 1999 to \$884,937 as compared to \$1,247,302 in 1998, a decrease of \$362,365, or 29%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$514,994 in 1999 and \$535,948 in 1998, resulting in a decrease of \$20,954, or 4%. This decrease resulted from declines in ad valorem taxes, well maintenance costs and workover costs, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 72% from \$43,977 in 1998 to \$75,454 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$34,110 in 1999 and \$24,415 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized non-cash SFAS 121 charges of \$66,898 and \$306,043 related to its oil and gas properties during 1999 and 1998, respectively.

Depletion decreased in 1999 to \$227,591 as compared to \$361,334 in 1998. This represented a decrease of \$133,743, or 37%. This decrease was the result of an increase in proved reserves of 281,767 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 5,200 barrels for the period ended December 31, 1999 compared to the same period in 1998.

Petroleum industry

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998,

6

1687

weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$647,967 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$767,190 and a decline in G&A expenses paid of \$15,492, offset by an increase in production costs paid of \$74,350 and working capital of \$60,365. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$804,227 to oil and gas receipts, offset by \$37,037 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

#### Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 included expenditures related to equipment upgrades on various oil and gas properties.

Proceeds from asset dispositions of \$11,549 and \$1,096 recognized during 2000 and 1999, respectively, were from the disposition of oil and gas equipment on active wells.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$1,174,106, of which \$11,741 was distributed to the managing general partner and \$1,162,365 to the limited partners. In 1999, cash distributions to the partners were \$436,999, of which \$4,370 was distributed to the managing general partner and \$432,629 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 91-A, L.P.

(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 91-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 91-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

1694

PARKER & PARSLEY 91-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 91-A, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

1664

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated, in part, to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$12,824, \$66,898 and \$306,043 related to its proved oil and gas properties during 2000, 1999 and 1998, respectively.

15

1696

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$946,627 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

2000

| Net oil and gas properties    | \$ 1,982,559             |
|                               | =====                    |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

|      |      |
|------|------|
| 2000 | 1999 |
|------|------|

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  |            |            |
|--|------------|------------|
|  | -----      | -----      |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 202,739 | \$ 213,969 |
| Reimbursement of general and administrative expenses   | \$ 41,213  | \$ 34,110  |

16

1697

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 91-A GP ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|   |                 |
|---|-----------------|
|   | Pioneer USA (1) |
|   | -----           |
| Revenues:   |                 |
| Proceeds from disposition of depreciable and depletable properties                    | 34.3434343%     |
| All other revenues  | 34.3434343%     |
| Costs and expenses:   |                 |
| Lease acquisition costs, drilling and completion costs and all other costs            | 24.2424242%     |
| Operating costs, reporting and legal expenses and general and administrative expenses | 34.3434343%     |

- (1) Includes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 45 limited partner interests owned by Pioneer USA.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

Oil and NGLs

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|  | (bbls)    |
|--|-----------|
|  | -----     |
| Net proved reserves at January 1, 1998   | 909,941   |
| Revisions                                | (333,709) |
| Production                               | (70,623)  |
|  | -----     |
| Net proved reserves at December 31, 1998 | 505,609   |
| Revisions                                | 430,559   |
| Production                               | (64,820)  |
|  | -----     |
| Net proved reserves at December 31, 1999 | 871,348   |
| Revisions                                | 171,624   |
| Production                               | (64,129)  |
|  | -----     |
| Net proved reserves at December 31, 2000 | 978,843   |
|  | =====     |

17

1698

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.72 per barrel of oil, \$12.21 per barrel of NGLs and \$7.85 per mcf of gas, discounted at 10% was approximately \$8,217,000 and undiscounted was \$17,966,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider probable reserves, anticipated

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

|                             | 2000<br>----- | 1999<br>----- |
|-----------------------------|---------------|---------------|
| Plains Marketing, L.P.      | 38%           | 36%           |
| TEPPCO Crude Oil LLC        | 16%           | 17%           |
| Genesis Crude Oil, L.P.     | -             | -             |
| Western Gas Resources, Inc. | 3%            | 5%            |

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. and TEPPCO Crude Oil LLC were \$64,973 and \$19,274, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1%

of the Partnership's acquisition, drilling and completion costs, and 1% of its operating and general and administrative expenses. In return it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$11,620,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less sales commission costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the partnership agreement to the extent its share of revenues does not cover such costs.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

### PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name<br>----         | Age at<br>December 31,<br>2000<br>---- | Position<br>-----   |
|----------------------|--|---|
| Scott D. Sheffield   | 48                                     | President   |
| Timothy L. Dove      | 44                                     | Executive Vice President, Chief<br>Financial Officer and Director |
| Dennis E. Fagerstone | 51                                     | Executive Vice President and<br>Director                          |
| Mark L. Withrow      | 53                                     | Executive Vice President, General<br>Counsel and Director         |
| Danny Kellum         | 46                                     | Executive Vice President - Director<br>Operations and Director    |
| Rich Dealy           | 34                                     | Vice President and Chief Accounting<br>Officer                    |

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

1702

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

22

1703

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 25% of the Program's acquisition, drilling and completion costs and approximately 35% of its operating and general and administrative expenses. In return, they are allocated approximately 35% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers or employees of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 45 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

23

1704

|  | 2000       | 1999       |
|--|------------|------------|
|  | -----      | -----      |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 202,739 | \$ 213,969 |
| Reimbursement of general and administrative expenses   | \$ 41,213  | \$ 34,110  |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation in oil and gas activities of the Program.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 91-B, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED , 2001

-----

THE DATE OF THIS SUPPLEMENT IS , 2001

-----

This document contains important information specific to Parker & Parsley 91-B, L.P., and supplements the proxy statement/prospectus dated , 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 91-B, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of March 31, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the three months ended March 31, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the three months ended March 31, 2001 and 2000 and the five years ended December 31, 2000

| Book Value per \$1,000 Limited Partner Investment:  |    |

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

|   |    |
|---|----|
| -- as of March 31, 2001 (c)   | \$ |
| -- as of December 31, 2000 (c)  | \$ |
| Going Concern Value per \$1,000 Limited Partner Investment (c), (d)                             | \$ |
| Liquidation Value per \$1,000 Limited Partner Investment (c), (e)                               | \$ |
| Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f) | \$ |

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on or about July 9, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) partnership level general and administrative expenses.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less liquidation expenses which are estimated to be the sum of (1) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (2) 3% of the partnership's reserve value. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained \_\_\_\_\_ of Dallas, Texas for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2041, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

1717

PARKER & PARSLEY 91-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
March 31, 2001  
(Unaudited)

## Note 1. Organization and nature of operations

Parker & Parsley 91-B, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of March 31, 2001 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the March 31, 2000 financial statements to conform to the March 31, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, 1400 Williams Square West, Irving, Texas 75039-3746.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations(1)

### Results of Operations

#### Revenues:

The Partnership's oil and gas revenues decreased 16% to \$381,877 for the three months ended March 31, 2001 as compared to \$453,588 for the same period in 2000. The decrease in revenues resulted from a decrease in production, offset by higher average prices received. For the three months ended March 31, 2001, 9,590 barrels of oil, 2,009 barrels of natural gas liquids ("NGLs") and 10,623 mcf of gas were sold, or 13,370 barrel of oil equivalents ("BOEs"). For the three months ended March 31, 2000, 12,062 barrels of oil, 4,976 barrels of NGLs and 19,802 mcf of gas were sold, or 20,338 BOEs.

7

1718

The average price received per barrel of oil increased slightly from \$28.53 for the three months ended March 31, 2000 to \$28.83 for the same period in 2001. The average price received per barrel of NGLs increased \$3.34, or 22%, from \$15.13 for the three months ended March 31, 2000 to \$18.47 for the same period in 2001.

1687

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The average price received per mcf of gas increased 272% from \$1.73 during the three months ended March 31, 2000 to \$6.43 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the three months ended March 31, 2001.

### Costs and Expenses:

Total costs and expenses decreased to \$164,549 for the three months ended March 31, 2001 as compared to \$179,125 for the same period in 2000, a decrease of \$14,576, or 8%. This decrease was primarily due to declines in production costs and depletion, offset by an increase in general and administrative expenses ("G&A").

Production costs were \$124,783 for the three months ended March 31, 2001 and \$145,956 for the same period in 2000, resulting in a \$21,173 decrease, or 15%. The decrease was primarily due to lower well maintenance and workover costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and administrative costs. During this period, G&A increased 60% from \$11,204 for the three months ended March 31, 2000 to \$17,982 for the same period in 2001, primarily due to an increase in the accrual for tax preparation and monitoring service fees.

Depletion was \$21,784 for the three months ended March 31, 2001 as compared to \$21,965 for the same period in 2000, a decrease of \$181, or 1%. The decrease was primarily due to a decrease in oil production of 2,472 barrels for the period ended March 31, 2001 compared to the same period in 2000, offset by a downward revision to one well's proved reserves during the three months ended March 31, 2001.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$80,977 during the three months ended March 31, 2001 from the same period ended March 31, 2000. The increase was primarily attributable to reductions of \$138,184 in working capital and production costs of \$21,173, offset by a decline in oil and gas sales receipts of \$71,602 and an increase in G&A expenses of \$6,778. The decrease in production costs was primarily due to lower well maintenance and workover costs. The decrease in oil and gas receipts resulted from \$185,099 from the decline in production during 2001, offset by \$113,497 from the increase in commodity prices during 2001. The increase in G&A was primarily due to an increase in the accrual for tax preparation and monitoring service fees.

8

1719

#### Net Cash Used in Investing Activities

The Partnership's investing activities during the three months ended March 31, 2001 and 2000 were related to the upgrades of oil and gas equipment on active properties.

Proceeds from disposition of assets of \$133 recognized during the three months ended March 31, 2001 were related to equipment credits on one active well.

#### Net Cash Used in Financing Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

For the three months ended March 31, 2001, cash distributions to the partners were \$281,876, of which \$2,819 was distributed to the managing general partner and \$279,057 to the limited partners. For the same period ended March 31, 2000, cash distributions to the partners were \$248,545, of which \$2,485 was distributed to the managing general partner and \$246,060 to the limited partners.

### Proposal to acquire partnerships

On April 17, 2001, Pioneer Natural Resources Company ("Pioneer") filed a preliminary proxy statement/prospectus with the Securities and Exchange Commission proposing an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and the limited partners of 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA, and the partnership interests of each such partnership will be converted into the right to receive cash and Pioneer common stock. Pioneer USA is the sole or managing general partner of the partnerships. The Partnership is one of the 46 Parker & Parsley limited partnerships being requested to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets, requires 66-2/3% approval of the limited partnership interests in each partnership and the resolution of Securities and Exchange Commission review comments. No solicitation will be made using preliminary materials.

BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

1722

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 91-B, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 11,249 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 48% and 22% were attributable to sales made to Mobil Oil Corporation and Plains Marketing, L.P., respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

2

1723

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 29 oil and gas wells. At December 31, 2000, the Partnership had 29 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

1724

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 11,249 outstanding limited partnership interests held of record by 677 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations will be distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$1,324,583 and \$481,274, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

1725

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 80% to \$2,046,224 for 2000 as compared to \$1,136,073 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 47,684 barrels of oil, 21,866 barrels of natural gas liquids ("NGLs") and 85,556 mcf of gas were sold, or 83,809 barrel of oil equivalents ("BOEs"). In 1999, 46,030 barrels of oil, 19,026 barrels of NGLs and 74,025 mcf of gas were sold, or 77,394 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.19, or 68%, from \$17.90 in 1999 to \$30.09 in 2000. The average price received per barrel of NGLs increased \$6.35, or 63%, from \$10.15 in 1999 to \$16.50 in 2000. The average price received per mcf of gas increased 82% from \$1.61 in 1999 to \$2.93 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$2,273 was recognized during 2000 from equipment credits received on one fully depleted well.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses increased in 2000 to \$713,527 as compared to \$655,625 in 1999, an increase of \$57,902, or 9%. The increase was due to an increase in production costs, offset by decreases in depletion and general and administrative expenses ("G&A").

Production costs were \$576,561 in 2000 and \$442,342 in 1999, resulting in an increase of \$134,219, or 30%. This increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 22% from \$68,860 in 1999 to \$53,623 in 2000. The Partnership paid the managing general partner \$38,999 in 2000 and \$33,982 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$83,343 in 2000 as compared to \$144,423 in 1999, representing a decrease of \$61,080, or 42%. This decrease was primarily due to a 82,084 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

5

1726

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 30% to \$1,136,073 from \$873,012 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 46,030 barrels of oil, 19,026 barrels of NGLs and 74,025 mcf of gas were sold, or 77,394 BOEs. In 1998, 49,100 barrels of oil, 17,427 barrels of NGLs and 68,244 mcf of gas were sold, or 77,901 BOEs.

The average price received per barrel of oil increased \$4.57, or 34%, from \$13.33 in 1998 to \$17.90 in 1999. The average price received per barrel of NGLs increased \$3.36, or 49%, from \$6.79 in 1998 to \$10.15 in 1999. The average price received per mcf of gas increased 10% from \$1.47 in 1998 to \$1.61 in 1999.

Gain on disposition of assets of \$197 recognized in 1998 was attributable to credits received from the disposal of oil and gas equipment on a saltwater disposal well that was plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$655,625 as compared to \$1,062,299 in 1998, a decrease of \$406,674, or 38%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$442,342 in 1999 and \$464,489 in 1998, resulting in a \$22,147 decrease, or 5%. This decrease was due to lower ad valorem taxes and well maintenance costs, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 58% from \$43,606 in 1998 to \$68,860 in 1999

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$33,982 in 1999 and \$27,503 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$295,542 related to its oil and gas properties during 1998.

Depletion was \$144,423 in 1999 compared to \$258,662 in 1998. This represented a decrease of \$114,239, or 44%. This decrease was primarily the result of an increase in proved reserves of 362,706 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

6

1727

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$766,498 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$919,054 and a decline in G&A expenses paid of \$15,237, offset by increases in production costs paid of \$134,219 and working capital of \$33,574. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$788,626 to oil and gas receipts and \$130,428 resulting from the increase in

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 were related to the addition of equipment on various oil and gas properties.

Proceeds from asset dispositions of \$2,372 recognized during 2000 were related to equipment credits on two active wells.

Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$1,337,963, of which \$13,380 was distributed to the managing general partner and \$1,324,583 to the limited partners. In 1999, cash distributions to the partners were \$486,135, of which \$4,861 was distributed to the managing general partner and \$481,274 to the limited partners.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

INDEX TO FINANCIAL STATEMENTS

Financial Statements of Parker & Parsley 91-B, L.P.:

- Independent Auditors' Report.....

INDEPENDENT AUDITORS' REPORT

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partners  
Parker & Parsley 91-B, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 91-B, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 91-B, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 91-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 91-B, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

14

1735

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$295,542 related to its proved oil and gas properties during 1998.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$367,378 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income (loss) per Federal income tax returns for the years ended December 31:

|  | 2000         |       |
|--|--------------|-------|
|  | -----        | ----- |
| Net income (loss) per statements of operations   | \$ 1,354,094 | \$    |
| Depletion and depreciation provisions for tax reporting purposes greater than amounts for financial reporting purposes | (27,307)     |       |
| Impairment of oil and gas properties for financial reporting purposes  | -            |       |
| Salvage income   |              |       |
| Intangible development costs capitalized for financial reporting purposes and expensed for tax reporting purposes      | (328)        |       |
| Other, net   | (2,832)      |       |
|  | -----        | ----- |
| Net income (loss) per Federal income tax returns   | \$ 1,323,627 | \$    |
|  | =====        | ===== |

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the net costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

|                   | 2000      |       |
|-------------------|-----------|-------|
|                   | -----     | ----- |
| Development costs | \$ 12,408 | \$    |
|                   | =====     | ===== |

Capitalized oil and gas properties consist of the following:

|                               |    | 2000         |
|-------------------------------|----|--------------|
|                               |    | -----        |

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

1737

16

|  | 2000       |       |
|--|------------|-------|
|  | -----      | ----- |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 196,507 | \$    |
| Reimbursement of general and administrative expenses   | \$ 38,999  | \$    |

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 91-B GP ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

|   |  | Pioneer U |
|---|--|-----------|
|   |  | -----     |
| Revenues:   |  |           |
| Proceeds from disposition of depreciable and depletable properties                    |  | 34.343    |
| All other revenues  |  | 34.343    |
| Costs and expenses:   |  |           |
| Lease acquisition costs, drilling and completion costs and all other costs            |  | 24.242    |
| Operating costs, reporting and legal expenses and general and administrative expenses |  | 34.343    |

- (1) Includes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 10 limited partner interests

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

owned by Pioneer USA.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

|  | Oil and NGLs<br>(bbls) | Gas<br>(mcf) |
|--|------------------------|--------------|
|  | -----                  | -----        |
| Net proved reserves at January 1, 1998   | 803,868                | 767,367      |
| Revisions                                | (224,362)              | (91,817)     |
| Production                               | (66,527)               | (68,244)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1998 | 512,979                | 607,306      |
| Revisions                                | 550,155                | 821,693      |
| Production                               | (65,056)               | (74,025)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 1999 | 998,078                | 1,354,974    |
| Revisions                                | 113,248                | (43,847)     |
| Production                               | (69,550)               | (85,556)     |
|  | -----                  | -----        |
| Net proved reserves at December 31, 2000 | 1,041,776              | 1,225,571    |
|  | =====                  | =====        |

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.59 per barrel of NGLs and \$7.73 per mcf of gas, discounted at 10% was approximately \$8,364,000 and undiscounted was \$17,283,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

### NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the periods ended December 31:

|                             | 2000  | 19    |
|-----------------------------|-------|-------|
|                             | ----- | ----- |
| Mobil Oil Corporation       | 48%   |       |
| Plains Marketing, L.P.      | 22%   |       |
| Genesis Crude Oil, L.P.     | -     |       |
| Western Gas Resources, Inc. | 4%    |       |

At December 31, 2000, the amounts receivable from Mobil Oil Corporation and Plains Marketing, L.P. were \$64,224 and \$32,862, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1740

portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs, and 1% of its operating and general and administrative expenses. In return it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$11,249,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less sales commission costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

1741

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

| Name               | Age at<br>December 31,<br>2000 |                                      |

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

1742

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate

1711

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

22

1743

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 25% of the Program's acquisition, drilling and completion costs and approximately 35% of its operating and general and administrative expenses. In return, they are allocated approximately 35% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers or employees of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

(a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

owned 10 limited partner interests at January 1, 2001.

(b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

1744

23

|  | 2000       |       |
|--|------------|-------|
|  | -----      | ----- |
| Payment of lease operating and supervision charges in accordance with standard industry operating agreements | \$ 196,507 | \$    |
| Reimbursement of general and administrative expenses   | \$ 38,999  | \$    |

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

### PART II

#### INFORMATION NOT REQUIRED IN PROSPECTUS

#### ITEM 20. INDEMNIFICATION OF OFFICERS AND DIRECTORS.

Article Twelfth of the Amended and Restated Certificate of Incorporation of Pioneer Parent provides that Pioneer Parent must indemnify its officers and directors to the extent allowed by the Delaware General Corporation Law. Pursuant to Section 145 of the Delaware General Corporation Law, Pioneer Parent generally has the power to indemnify its present and former directors and officers against expenses and liabilities incurred by them in connection with any suit to which they are, or are threatened to be made, a party by reason of their serving in those positions so long as they acted in good faith and in a manner they reasonably believed to be in, or not opposed to, the best interests of Pioneer Parent, and with respect to any criminal action, they had no reasonable cause to believe their conduct was unlawful. With respect to suits by or in the right of Pioneer Parent, however, indemnification is generally limited to attorneys' fees and other expenses and is not available if the person is adjudged to be liable to Pioneer Parent unless the court determines that indemnification is appropriate. The statute expressly provides that the power to indemnify authorized thereby is not exclusive of any rights granted under any by-law, agreement, vote of stockholders or disinterested directors, or otherwise. Pioneer Parent also has the power to purchase and maintain insurance for its directors and officers. Additionally, Article Twelfth of the Amended and Restated Certificate of Incorporation of Pioneer Parent provides that, in the event that an officer or director files suit against Pioneer Parent seeking indemnification of liabilities or expenses incurred, the burden will be on Pioneer Parent to prove that the indemnification would not be permitted under the Delaware General Corporation Law.

Pioneer Parent has entered into indemnification agreements with each of its directors and officers. These agreements provide that Pioneer Parent must, within 30 days of a request, indemnify an officer or director for liabilities

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

incurred to the fullest extent permitted by the Delaware General Corporation Law. Pioneer Parent must, within two days of a request, indemnify an officer or director for expenses incurred in the defense of a claim or other proceeding. The obligation of Pioneer Parent to provide the indemnification does not apply if, before the date on which Pioneer Parent must provide the indemnification, Pioneer Parent's board of directors, or a representative chosen by the board of directors, concludes that indemnification would be improper under the Delaware General Corporation Law.

The preceding discussion of Pioneer Parent's Amended and Restated Certificate of Incorporation, Section 145 of the Delaware General Corporation Law, and the indemnification agreements is not intended to be exhaustive and is qualified in its entirety by such Amended and Restated Certificate of Incorporation, Section 145 of the Delaware General Corporation Law, and such indemnification agreements.

 ITEM 22. UNDERTAKINGS.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of Pioneer Parent pursuant to the foregoing provisions, or otherwise, Pioneer Parent has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities, other than the payment by Pioneer Parent of expenses incurred or paid by a director, officer or controlling person of Pioneer Parent in the successful defense of any action,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

suit or proceeding, is asserted by such director, officer or controlling person in connection with the securities being registered, Pioneer Parent will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

Pioneer Parent hereby undertakes:

(1) That, for purposes of determining any liability under the Securities Act of 1933, each filing of Pioneer Parent's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof;

(2) That prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), Pioneer Parent undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form;

(3) That every prospectus: (a) that is filed pursuant to paragraph (3) immediately preceding, or (b) that purports to meet the requirements of Section 10(a)(3) of the Securities Exchange Act of 1934 and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof;

(4) To respond to requests for information that is incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11 or 13 of Form S-4, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request; and

(5) To supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.
