The financial statements of the SAVINGS AND PROFIT SHARING PLAN FOR EMPLOYEES OF FIRST INTERSTATE BANCSYSTEM, INC. as of December 31, 2000 were audited by other auditors whose report dated May 31, 2001, expressed an unqualified opinion on those statements.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and

significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2001, and the changes in net assets available for benefits for the year ended December 31, 2001 in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Assets Held for Investment Purposes at Year End is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SAVINGS AND PROFIT SHARING PLAN
FOR EMPLOYEES OF FIRST INTERSTATE BANCSYSTEM, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2001 AND 2000

NOTE 1 - DESCRIPTION OF PLAN AND SIGNIFICANT ACCOUNTING POLICIES

Description of Plan

The following description of the First Interstate BancSystem, Inc. (Company) Savings and Profit Sharing Plan for Employees of First Interstate BancSystem, Inc. (Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company's member banks who are classified as regular-status scheduled to work 20 hours or more per week, or if not classified as regular status have completed 1,000 hours of service in no more than twelve consecutive months. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to 15 percent of

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form 11-K

pre-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company makes a matching contribution of 125 percent of the first four percent of annual compensation that a participant contributes to the Plan. At its discretion, the Company may also make a quarterly profit sharing contribution.

Participant Accounts. Each participant's account is credited with the participant's contributions and allocations of the Company contributions and Plan earnings. Allocations of participant earnings are based on account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions and any rollover contributions plus allocated earnings thereon. Vesting in the Company's matching and profit sharing contribution portions of their accounts and earnings thereon is contingent upon the participant's date of hire. Employees that were hired before January 1, 2000 and participating in the plan before January 1, 2001 are 100 percent vested in the Company's matching and profit sharing contributions. Employees that were hired as regular-status working 20 hours or more per week during the fiscal year 2000 and became participants in fiscal year 2001 are also 100 percent vested in the Company's matching and profit sharing contributions. Employees hired in fiscal year 2001 or later are subject to a vesting schedule based on years of service. These participants are 100 percent vested in the Company's matching and profit sharing contributions after three years of credited service.

Participant loans. Loans are limited to the lesser of (a) 50 percent of the participant's vested account balance or (b) \$50,000, reduced by the excess, if any, of (i) the participant's highest outstanding loan balance during the previous year, over (ii) the participant's outstanding loan balance on the date the loan is made. Loan terms shall not exceed the earlier of (a) 15 years if the loan is for the purchase of a principal residence of the borrower or (b) five years for all other loans. The loans are secured by the balance in the participant's account and bear a rate of interest which is commensurate with the interest rates being charged at the time such loan is made under similar circumstances by financial institutions in the community in which the Company's principal office is then located. Interest rates on the participant loans outstanding at December 31, 2001 ranged from 6.5 percent to 10.5 percent. Principal and interest is paid ratably through biweekly payroll deductions.

Basis of Accounting

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form 11-K

The accompanying financial statements have been prepared on an accrual basis and present the net assets available for participant benefits and changes in those net assets.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in registered investment companies are valued at quoted market prices. Company Stock is valued based on an independent appraisal prepared by Alex Sheshunoff & Co. Investment Banking. The appraised fair market value of a share of Company Stock was \$42 and \$40 at September 30, 2001 and 2000, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Income Tax Status

The Plan obtained its latest determination letter dated January 9, 1998, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter and has been submitted to the IRS for a new determination letter. In the opinion of the Plan Administrator, the Plan and its underlying trust have been operated within the terms of the Plan and should remain qualified under applicable provisions of the IRC.
