BOARD OF DIRECTORS

Corporate Governance

In September 2003, our board adopted a new set of corporate governance guidelines. The corporate governance guidelines are available on our Web site at <http://www.williams.com> and are also attached as Appendix A to this proxy statement.

Our board takes corporate governance very seriously and is committed to sound corporate governance practices. The board of directors has the responsibility for establishing broad corporate policies and for the overall performance of Williams. Our directors have the responsibility of evaluating and approving our business strategies and financial objectives and for monitoring their successful execution. Our directors focus on ensuring that we have the best management processes in place to run the company legally, ethically and successfully. The board is concerned about stockholder value, employee attitudes, customers, suppliers and the communities in which we operate.

The full board met 15 times in 2004. Further, the non-management directors met six times without the chairman of the board and chief executive officer (CEO) present. No director attended less than 91 percent of the aggregate of the board and committee meetings held in 2004.

During the year, the board meets with management to discuss and approve strategic plans, financial goals, capital spending and other factors critical to successful performance. A mid-year review of progress on objectives and strategies is conducted. During board meetings, directors review key issues and financial performance. The board meets privately with the CEO six times per year and meets in executive session at each board meeting and additionally as required. The board assesses CEO performance and oversees executive officer development and succession. Further, the CEO communicates regularly (at least bi-weekly) with the members of the board via e-mail or fax on important business opportunities and developments. In 2004, the board also held one of its regularly scheduled meetings at one of our field locations to further the directors' education about our operations.

The board and each of the board committees also conduct self-assessments.

Our board members actively participate in board and committee meetings. Generally, materials are distributed to our board members one week in advance of each regular board meeting. To facilitate active participation, board members are expected to review the materials in advance of the meetings.

The chairman of the compensation committee serves as the presiding director for meetings of the non-management directors. Mr. W. R. Howell currently serves as the presiding director. The presiding director also works with our chairman of the board and our secretary to establish the agenda for each board meeting.

We have established a program for new director orientation. The orientation program includes private meetings with senior management for each business segment to ensure that the new director becomes familiar with our businesses.

We have adopted rules of conduct that are applicable to our in-house and outside attorneys who are practicing before the Securities and Exchange Commission (SEC) on our behalf.

Table of Contents

We have also established a disclosure committee that is designed to ensure full and timely disclosure of information in all public filings.

We believe the corporate governance guidelines and other steps taken by the board and the company help ensure sound governance practices.

Director Attendance at Annual Meeting of Stockholders

We have a policy regarding board member attendance at our annual meeting of stockholders. All board members are expected to attend our annual meeting of stockholders. All eleven of the then-current board members attended the 2004 annual meeting of stockholders.

Director Independence

On November 17, 2004, the board of directors adopted a set of director independence standards. The director independence standards are available on our Web site at <http://www.williams.com> and attached as Appendix B to this proxy statement.

The board of directors has affirmatively determined that each of Mr. Chapman, Ms. Hinshaw, Mr. Green, Mr. Howell, Mr. Lillis, Mr. Lowrie, Mr. Lorch, Mr. MacInnis, Ms. Stoney and Mr. Williams is an independent director under the current listing standards of the New York Stock Exchange (NYSE) and our director independence standards. In so doing, the board determined that each of these individuals met the bright line independence standards of the NYSE. In addition, the board considered transactions and relationships between each director and any member of his or her immediate family and the company and its affiliates and subsidiaries. The purpose of this review was to determine whether any such relationships or transactions were inconsistent with a determination that the director is independent. The board considered the fact that Mr. Howell also serves on the boards of American Electric Power Company, Inc. and ExxonMobil Corporation, each of which is a customer of ours or performs services for us. The board noted that, since Mr. Howell does not serve as an executive officer and does not own a significant amount of stock of either of these companies, these relationships are not required to be reported under the caption Certain Relationships and Related Transactions in this proxy statement. Accordingly, the board concluded that these relationships are not material and affirmatively determined that all of the directors mentioned above are independent. Mr. Malcolm is not considered to be independent because of his employment as an executive officer of the company.

Table of Contents

No member of our board of directors serves as an executive officer of any non-profit organization to which we made contributions within any single fiscal year of the preceding three years that exceeded the greater of \$1 million or 2 percent of such organization's consolidated gross revenues. Further, in accordance with the director independence standards, the nominating and governance committee determined that there were no discretionary contributions to a non-profit organization with which a director, or a director's spouse, has a relationship that impact the directors independence.

Compensation of Directors

Management directors receive no additional compensation for serving on the board or board committees. For their service beginning in May 2004 and ending prior to the 2005 annual meeting of stockholders, non-management directors received:

\$110,000, with 50 percent paid in cash and 50 percent in our common stock;

a stock option grant of 6,000 shares of our common stock granted at an exercise price equal to the fair market value of our common stock on the grant date and exercisable for 10 years;

reimbursement for reasonable out-of-pocket expenses incurred to attend board and committee meetings; and

for those serving as the chairman of a committee, \$5,000 for chairing the nominating and governance or finance committees and \$10,000 for chairing the audit or compensation committees.

In addition:

\$10,000 was available as a special committee project fee for members tasked with large projects, such as a major asset sale or executive search. The entire board must approve the payment. No payments were made for such projects in 2004; and

the presiding director received \$10,000.

As in prior years, a director may elect to receive all or any part of the cash fees in the form of our common stock or deferred stock. Deferred stock may be deferred for any period of time. Dividend equivalents are paid on deferred stock. The director may choose to receive the equivalents in cash or in additional deferred shares.

Non-management directors do not participate in the company's benefit programs with the exception of the company's matching gifts program. Under this program, the company matches monetary gifts to eligible organizations dollar-for-dollar up to \$10,000 per participant, per calendar year.

We also reimburse directors for reasonable out-of-pocket expenses for internet access.

Board Committees

The board has established standing committees to consider designated matters. The committees of the board are audit, compensation, executive, finance, and nominating and governance. In accordance with our by-laws, the board annually elects from its members the members and the chairman of each committee. The board has determined that each of the members of the audit committee, compensation committee, finance committee, and nominating and governance committee is independent as defined by the rules of the NYSE. The following is a description of each of the committees and committee membership as of February 28, 2005.

Information About Committees*Audit Committee*

Our board has determined that all members of the audit committee are financially literate as defined by the rules of the NYSE. The audit committee is governed by a written charter approved by the board. Among its duties and responsibilities, the audit committee is responsible for appointing, setting compensation and overseeing the work of Ernst & Young LLP, our independent auditors. It also discusses our earnings press releases and our policies with respect to risk assessment and management and has certain oversight responsibilities with respect to our internal auditor. Further, information regarding the functions performed by the audit committee is set forth in the Report of the Audit Committee included in this proxy statement and the audit committee charter. The audit committee charter is available on our Web site at <http://www.williams.com> and is attached as Appendix C to this proxy statement.

Policy on Audit Committee Pre-Approval of Audit and Non-Audit Services of Independent Auditors

The audit committee is responsible for appointing, setting compensation and overseeing the work of Ernst & Young LLP, our independent auditors. The audit committee has established a policy regarding pre-approval of all audit and non-audit services provided by Ernst & Young LLP.

On an ongoing basis, our management presents specific projects and categories of service to the audit committee for which advance approval is requested. The audit committee reviews those requests and advises management if the audit committee approves the engagement of Ernst & Young LLP. On a periodic basis, our management reports to the audit committee regarding the actual spending for such projects and services compared to the approved amounts. The audit committee may also delegate the ability to pre-approve audit and permitted non-audit services to a subcommittee of one or more committee members, provided that any such pre-approvals are reported on at a subsequent audit committee meeting.

Our audit committee's pre-approval policy with respect to audit and non-audit services is attached as Appendix D to this proxy statement.

Table of Contents

Audit Committee Financial Expert and Independence

The board has determined that Ms. Juanita H. Hinshaw and Mr. Charles M. Lillis qualify as audit committee financial experts as defined by the rules of the SEC. All members of the audit committee are independent of management as defined by the rules of the NYSE.

Simultaneous Service on Audit Committees

The board has determined that the simultaneous service on three public company audit committees by Ms. Juanita H. Hinshaw and Mr. Charles M. Lillis does not impair their service on our audit committee.

Compensation Committee

The compensation committee oversees and directs the design and implementation of strategic compensation programs for our executive officers that align the interests of our executive officers with those of our stockholders.

A copy of the governing charter of the compensation committee is available on our Web site at <http://www.williams.com> and is attached as Appendix E to this proxy statement. The charter provides that the compensation committee has full authority to engage independent advisors and consultants and provides for at least annual committee evaluations.

Executive Committee

The executive committee is authorized to act for the board in the management of the business and affairs of the company, except as such authority may be limited from time to time by the laws of the state of Delaware. The executive committee did not meet in 2004.

Finance Committee

The finance committee has the primary responsibility for overseeing appropriate alignment between our financing strategies and our business units' operating plans and acquisitions or other investment opportunities, as well as reporting to the full board, as appropriate, that the key elements of our balance sheet are structured in a manner that allow the business units' operating plans and investment opportunities to be executed.

A copy of the governing charter of the finance committee is available on our Web site at <http://www.williams.com> and is attached as Appendix F to this proxy statement. The charter provides that the finance committee has full authority to engage independent advisors and consultants and provides for at least annual committee evaluations.

Nominating and Governance Committee

The nominating and governance committee's governing charter is available on our Web site at <http://www.williams.com> and is attached as Appendix G to this proxy statement. The charter provides that the nominating and governance committee has full authority to engage independent advisors and consultants. The nominating and governance committee is responsible for identifying and recommending candidates to fill vacancies on the board as such vacancies occur, as well as the slate of nominees for election as directors by the stockholders at each annual meeting of stockholders. Additionally, the nominating and governance committee recommends to the board the individual to be the chairman of the board and CEO. The nominating and governance committee reviews and reports to the board on a periodic basis regarding matters of corporate governance. The nominating and governance committee is responsible for reviewing annually and making recommendations to the board as to whether each non-management director is independent as defined by the NYSE and our director independence standards and otherwise qualified in accordance with applicable law or regulation. The nominating and governance committee also reviews the continuing qualifications of incumbent directors including any changes to a director's primary activity and all board committee charters for effective corporate governance. The nominating and governance committee evaluates annually the performance of the

nominating and governance committee and the board as a whole. The code of business conduct and ethics is reviewed for compliance annually and changes are recommended to the board as necessary.

Nomination of Directors

Consideration of nominees. The nominating and governance committee considers the appropriate balance of experience, skills and characteristics that best suits our needs and the needs of our stockholders. The nominating and governance committee develops long-term board succession plans to ensure that the appropriate balance is maintained. The nominating and governance committee is committed to nominating candidates that are independent as defined by the rules of the NYSE and our director independence standards. The nominating and governance committee also seeks to ensure that each member of the audit committee meets the financial literacy requirements of the NYSE and that at least one audit committee member qualifies as an audit committee financial expert under the SEC's rules.

Qualifications of nominees. The nominating and governance committee seeks director candidates with the following qualifications:

an understanding of business and financial affairs and the complexities of a business organization. Although a career in business is not essential, the nominee should have a proven record of competence and accomplishments through leadership in industry, education, the professions or government and should be willing to maintain a committed relationship with the company as a director;

a representation that such stockholder intends to appear in person or by proxy at the annual meeting to nominate the persons named in its notice; and

any other information relating to such stockholder that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder.

The notice must be accompanied by a written consent of each proposed nominee to being named as a nominee and to serve as a director if elected.

Identification and evaluation of nominees. The nominating and governance committee identifies candidates who meet the qualifications for selection as a nominee and possess the specific experience, skills and characteristics being sought based on input from board members and others. The nominating and governance committee has retained a search firm to assist the committee in identifying, recruiting and evaluating director candidates meeting the committee's criteria.

In evaluating director candidates, regardless of the source of the nomination, the nominating and governance committee will consider:

the current composition of the board as a whole;

the requisite characteristics of each candidate; and

the performance and continued tenure of incumbent board members.

Director candidates are evaluated by the nominating and governance committee by reviewing all available biographical information and qualifications and checking references. Qualified candidates are interviewed by the chairman of the board and at least one member of the nominating and governance committee. Candidates may then meet with other members of the board and senior management. Using all available information, the nominating and governance committee evaluates the candidates to determine if they are qualified to serve as a director and whether they should be recommended to the full board for nomination for election by the stockholders or appointed to fill a vacancy.

To date, the company has not received any valid stockholder recommendations for director nominees. The same evaluation process will be used by the nominating and governance committee to evaluate stockholder nominees.

**PROPOSAL 1
ELECTION OF DIRECTORS**

Our restated certificate of incorporation, as amended, provides for three classes of directors of as nearly equal size as possible and further provides that the total number of directors shall be determined by resolution adopted by the affirmative vote of a majority of the board, except that the total number of directors may not be less than five nor more than 17. The term of each class of directors is normally three years, and the term of one class expires each year in rotation.

Four individuals, all of whom currently serve as directors, have been nominated for election for three-year terms as directors at the annual meeting. Seven directors will continue in office to serve pursuant to their prior elections. In accordance with the recommendation of the nominating and governance committee, the board proposes that the following nominees be elected:

Juanita H. Hinshaw;

Frank T. MacInnis;

Steven J. Malcolm; and

Janice D. Stoney.

In order to maintain balance in the three classes of directors, as required by our by-laws, Ms. Hinshaw, who was identified by an outside search firm, was appointed to the board in November 2004, and will be standing for election as a Class I director. Pursuant to our retirement policy for directors, Mr. Hugh M. Chapman will retire in conjunction with the 2005 annual meeting.

The persons named as proxies in the accompanying proxy, who have been designated by the board, intend to vote, unless otherwise instructed in such proxy, for the election of Mesdames Juanita H. Hinshaw and Janice D. Stoney and Messrs. Frank T. MacInnis and Steven J. Malcolm. Should any nominee named herein become unable for any reason to stand for election as a director, the persons named in the proxy will vote for the election of such other person or persons as the nominating and governance committee may recommend and the board may propose to replace such nominee or, if none, the nominating and governance committee will recommend that the size of the board be reduced. We know of no reason why any of the nominees will be unavailable or unable to serve.

The names of the nominees and the directors whose terms of office will continue after the 2005 annual meeting, their principal occupations during the past five years, other directorships held and certain other information are set forth below.

PROPOSAL 2
RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

Upon the recommendation of the audit committee, the board has appointed, subject to stockholder approval, the firm of Ernst & Young LLP as the independent auditors to audit our financial statements for calendar year 2005. The firm of Ernst & Young LLP has served us in this capacity for many years. A representative of Ernst & Young LLP will be present at the annual meeting and will be available to respond to appropriate questions. Although the audit firm has indicated that no statement will be made, an opportunity for a statement will be provided.

Principal Accountant Fees and Services

Fees for professional services provided by our independent auditors for each of the last two fiscal years in each of the following categories are:

	2004	2003
	(Millions)	
Audit Fees	\$ 11.8	\$ 6.5
Audit-Related Fees	1.0	2.1
Tax Fees:		
Tax Compliance	0.1	0.1
Tax Consulting		0.1
All Other Fees		0.3
	\$ 12.9	\$ 9.1

One hundred percent of the fees for services provided by our independent auditors were approved by the audit committee. We did not rely on the de minimus exception provided for by the SEC's rules for any fee approvals.

Fees for audit services in 2004 and 2003 include fees associated with the annual audit, the reviews of our quarterly reports on Form 10-Q, and services performed in connection with other filings with the SEC. Additionally, audit fees for 2004 include the audit of our assessment of internal controls as required by Section 404 of the Sarbanes-Oxley Act of 2002. Audit-related fees in 2004 and 2003 primarily include audits of investments and joint ventures, and audits of employee benefit plans. Additionally, audit-related fees in 2003 include audits in connection with the disposition of businesses. All other fees primarily include actuarial advisory services in early 2003 prior to a change in our outside actuarial firm.

Tax Services. Ernst & Young LLP does not provide tax services to our executive officers.

As required by our audit committee charter, we are asking our stockholders to ratify the selection of Ernst & Young LLP as our independent auditor. Although ratification is not required by Delaware law, our articles or our by-laws, our board of directors is submitting the selection of Ernst & Young LLP to our stockholders for ratification as a matter of good corporate governance. Even if the selection of Ernst & Young LLP is ratified, our audit committee may select a different registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the company and our stockholders.

THE BOARD OF DIRECTORS OF WILLIAMS RECOMMENDS A VOTE FOR THE RATIFICATION OF ERNST & YOUNG LLP AS AUDITORS FOR 2005.

**STOCKHOLDER PROPOSAL FOR 2005
PROPOSAL 3**

STOCKHOLDER PROPOSAL FOR A MAJORITY VOTE STANDARD FOR BOARD ELECTIONS

We have been advised that the Sheet Metal Workers National Pension Fund, 601 N. Fairfax Street, Suite 500, Alexandria, VA 22314, intends to submit the following proposal at the annual meeting:

Resolved, that the shareholders of The Williams Companies, Inc. (Company) hereby request that the Board of Directors initiate the appropriate process to amend the Company s governance documents (certificate of incorporation or bylaws) to provide that director nominees shall be elected by the affirmative vote of the majority of votes cast at an annual meeting of shareholders.

Supporting Statement: Our Company is incorporated in Delaware. Among other issues, Delaware corporate law addresses the issue of the level of voting support necessary for a specific action, such as the election of corporate directors. Delaware law provides that a company s certificate of incorporation or bylaws may specify the number of votes that shall be necessary for the transaction of any business, including the election of directors. (DGCL, Title 8, Chapter 1, Subchapter VII, Section 216). Further, the law provides that if the level of voting support necessary for a specific action is not specified in the certificate of incorporation or bylaws of the corporation, directors shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.

Our Company presently uses the plurality vote standard for the election of directors. We feel that it is appropriate and timely for the Board to initiate a change in the Company s director election vote standard. Specifically, this shareholder proposal urges that the Board of Directors initiate a change to the director election vote standard to provide that in director elections a majority vote standard will be used in lieu of the Company s current plurality vote standard. Specifically, the new standard should provide that nominees for the board of directors must receive a majority of the vote cast in order to be elected or re-elected to the Board.

Under the Company s current plurality vote standard, a director nominee in a director election can be elected or re-elected with as little as a single affirmative vote, even while a substantial majority of the votes cast are withheld from that director nominee. So even if 99.99% of the shares withhold authority to vote for a candidate or all the candidates, a 0.01% for vote results in the candidate s election or re-election to the board. The proposed majority vote standard would require that a director receive a majority of the vote cast in order to be elected to the Board.

It is our intention that the proposed majority vote standard for corporate board elections be a fair standard that will strengthen the Company s governance and the Board. Our proposal is not intended to limit the judgment of the Board in crafting the requested governance change. For instance, the Board should address the status of incumbent directors who fail to receive a majority vote when standing for re-election under a majority vote standard or whether a plurality director election standard is appropriate in contested elections.

We urge your support of this important director election reform.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE AGAINST THIS STOCKHOLDER PROPOSAL because we believe that our current plurality voting standard is well established and operates fairly in accordance with Delaware law. We also believe that we have in place an effective shareholder nomination process, as defined in this proxy statement, that addresses the concerns of the proponent.

For many years we have had a commitment to electing strong independent boards using the plurality voting standard. In each of the last three years, each director was elected by a vote of at least 92% of the votes cast.

We believe that the proposal was submitted to us as part of a broad-based campaign by the proponent and others to advance debate over existing voting standards under Delaware law and not out of any particular concern that the proponent may have with the composition or governance structure of our board of directors.

Table of Contents

The plurality voting threshold is the accepted standard for the election of directors of publicly traded companies and has been the accepted standard under Delaware law for over twenty years. The board believes that the plurality standard is fair and impartial in that it applies equally to any candidate who is nominated for election to the board of directors. Under plurality voting, the nominees that receive the most votes are elected as directors, regardless of whether the candidate is nominated by the nominating and governance committee or by a shareholder. A shareholder nominee could be elected under the plurality standard if the number of votes cast for that nominee exceeds the number of votes cast for one or more other nominees, including persons nominated by the nominating and governance committee. If the proposal were adopted, a shareholder nominee might fail to win election to the board even if the person received more votes than an incumbent director nominee, simply because the shareholder nominee failed to receive a majority of the votes cast.

Finally, the majority vote standard advocated in the proposal would not affect the outcome of uncontested annual meeting votes to re-elect incumbent directors not opposed by another nominee. Our by-laws, consistent with the provisions of Delaware General Corporation Law, provide that directors shall hold office from the date of their election until their successors have been elected and qualified. An incumbent director who did not receive a majority of the votes cast would therefore remain in office until such director's successor was elected and qualified. In such a circumstance, the board could seek the director's resignation or removal. However, those are the same actions that the board may take under the existing plurality standard if an incumbent director ever experienced a high number of withhold votes.

We believe that we already have in place a strong process designed to identify and propose director nominees who will serve the best interests of the company and all shareholders. Director nominees are evaluated and recommended for election by the nominating and governance committee with the assistance of an outside executive search firm. In recommending nominees, the nominating and governance committee considers a variety of factors, as described on pages 9 and 10 of this proxy statement. We have published in this proxy statement information on how shareholders can nominate directors. In light of the foregoing, we believe the existing plurality voting standard and the role of the nominating and governance committee provide an effective mechanism for electing an effective board that is committed to acting in the best interest of the shareholders and delivering long-term shareholder value.

FOR THESE REASONS, YOUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE AGAINST THIS STOCKHOLDER PROPOSAL.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

Committee Responsibilities

The purpose of the compensation committee, as set forth in a written charter adopted by the board of directors, is to oversee and direct the design and implementation of strategic programs that align the interests of our executive officers with those of our stockholders.

The committee is comprised of four directors, each of whom is a non-employee director, an outside director, and an independent director as defined by of Rule 16b-3 under the Exchange Act, Section 162(m) of the Internal Revenue Code of 1986, and the rules of the NYSE.

Compensation Philosophy

The committee has adopted executive compensation programs designed to:

attract, retain, and motivate key talent with the leadership and skills necessary for ensuring long-term success of our company;

maintain an appropriate balance of short, intermediate, and long-term performance by providing fair compensation based on attaining business objectives and individual contributions to our company;

Table of Contents

focus our executive officers on our company's critical goals that translate into long-term stockholder value by placing a substantial portion of our executive officers' total compensation at risk based on our long-term performance;

align the interests of our executives with stockholders by fostering an ownership culture through stock-based incentives; and

reinforce executive support of our company's business objectives and core values.

Compensation Methodology

Annually, the committee reviews our executive compensation programs, including change-in-control agreements and perquisites, to ensure their market-competitiveness and alignment with established business objectives. To assist in benchmarking the competitiveness of the programs, we participate in and use third-party executive compensation surveys and engage the services of executive consulting firms.

Components of Compensation

In setting the level of each executive compensation component (base salary, annual incentives, and long-term incentives), the committee considers each executive officer's total compensation package. The mix of components varies each year based on competitive market requirements and strategic business needs and seeks to balance the short- and long-term components of total compensation.

Base Salary. Base salary is designed to compensate executive officers for their scope of responsibility, experience, sustained individual performance, and contributions to our company. Based on an analysis of our executive officers' base salaries in early 2004, we increased the base salary of three of our executive officers.

Annual Incentives. Annual incentives are intended to provide our executive officers with a direct financial link to our company's performance and their individual performance. Specifically, the entire award is at risk for company and individual performance. Our executive officers have the opportunity to earn a competitive annual incentive award when we meet targeted business objectives and an above average award when we exceed those objectives. If targeted objectives are not met, our executive officers receive no award or a reduced award. Annual incentive awards for our executive officers are issued under the 2002 Incentive Plan, as approved by stockholders, and are intended to satisfy the requirements for performance-based compensation as defined in Section 162(m) of the Internal Revenue Code.

The committee evaluates the incentive program annually and establishes the target incentive opportunity for each of our executive officers, expressed as a percentage of base salary, using survey data for individuals in comparable positions and markets. In early 2004, the committee established the annual incentive program for 2004 that would be funded upon the company's attaining an established Economic Value Added (EVA®) improvement target. Based on the level of attainment of this measure, the committee approved funding of a 2004 annual incentive award pool for our executive officers. The annual incentive pool funds up to a maximum of 400 percent of target. Two-thirds of any award earned above 200 percent of target is placed in a reserve and is at risk based on future EVA performance. The compensation committee, along with the CEO, reviewed each executive officer's performance and contributions for the year and allocated the pool among the officers based on individual performance, business unit performance, and target opportunity for each position. The total amount of the award is shown for each named executive officer in the summary compensation table.

Long-Term Incentives. Long-term incentives are designed to align pay with stockholder return, create significant and consistent incentives for executive retention, drive performance, and promote stock ownership. In light of changing competitive practice for long-term incentive programs and the emphasis on corporate governance, the committee modified the long-term incentive program in 2004.

The modified program recognizes that utilizing a balanced approach to long-term incentives allows for the proper balance between a focus on stock price appreciation and operating and financial performance. Specifically, our executive officers were granted stock options, deferred shares, and performance-based deferred shares in 2004. The stock options represented approximately 30 percent of the long-term incentive

Table of Contents

grant value, deferred shares represented 50 percent, and performance-based deferred shares represented the remaining 20 percent.

The stock options and deferred shares will vest in equal portions over three years beginning on the first anniversary of the grant, while the performance-based deferred shares vest only upon the company's attaining specified EVA targets, in order to further strengthen the relationship between pay and performance. Our executive officers have five years to earn all, a portion, or none of the performance-based deferred shares. Any shares earned during the five years will be issued to our executive officers no earlier than February 5, 2009, which is five years from the grant date.

For 2005, an even greater portion of total equity granted to our executive officers is subject to vesting only upon the company's attaining specified business objectives and the executive officer's continued employment. With the exception of the CEO, the equity mix in 2005 in terms of value is approximately 50 percent performance-based deferred shares, 25 percent stock options, and 25 percent deferred shares.

Other Annual Compensation. The committee reviewed details of the executive perquisites utilized by each of the executive officers in 2004 and determined that the value of these perquisites did not exceed the lesser of \$50,000 or 10 percent of the total amount of salary and bonus for any named executive officer.

Chief Executive Officer Compensation

The full board meets in executive session each year to review the CEO's performance. The session, which is led by the presiding director, is conducted without the CEO present. In this session, the board reviews:

evaluations of the CEO completed by each independent board member;

the CEO's written assessment of his own performance compared with the stated goals and objectives; and

evaluations of the CEO completed by each of the other executive officers.

The results of this performance review are shared with the CEO and are used by the compensation committee in establishing a total compensation package that reflects individual performance and business results, and promotes focus on building long-term stockholder value.

The CEO participates in the same programs and receives compensation based upon the same criteria as other executive officers. However, the CEO's compensation reflects greater policy- and decision-making authority and a higher level of responsibility with respect to the strategic direction of the company and its operating results.

The 2004 compensation components for the CEO, Mr. Malcolm, were as follows:

Base Salary. The committee increased Mr. Malcolm's base salary in 2004 from \$900,000 to \$1,000,000 based on competitive data and the following 2003 accomplishments:

substantial progress in strengthening the company's finances;

refocusing the business strategy around key natural gas assets; and

significant progress toward achieving investment-grade credit characteristics.

These efforts have set the stage for building a healthy, growing company.

Annual Incentive. In the first quarter of 2004, the committee established the incentive criteria for Mr. Malcolm and set Mr. Malcolm's target at 100 percent of base salary with a maximum opportunity of 400 percent of base salary. In February 2005, the board of directors awarded Mr. Malcolm an incentive award of \$2,740,000, of which \$2,246,667 was paid in March 2005 and the remaining \$493,333 has been placed in a reserve, which is at risk for sustained performance based on the company's attaining EVA objectives. Consistent with the other executive officers, Mr. Malcolm's 2004 annual incentive was based primarily on our

Table of Contents

company's performance against EVA targets. In addition, the committee considered a number of 2004 accomplishments in determining Mr. Malcolm's 2004 annual incentive award, including:

completion of financial restructuring, including repayment of \$4 billion of debt through scheduled maturities and early extinguishment of debt;

net income of \$163.7 million, the company's first annual profit since 2000;

near doubling of net cash provided by operating activities;

strong business results for exploration and production, midstream and gas pipeline business units; and

clear and focused strategy for disciplined growth with increasing access to capital markets.

Long-Term Incentive. In 2003, Mr. Malcolm led the company in establishing a clear and focused strategy for the future: concentrating on natural gas assets in key growth markets where we have competitive advantages of scale, a low-cost position, and leadership. In early 2004, the committee approved an equity award of 300,000 stock options and 250,000 deferred shares for Mr. Malcolm consistent with the approach described under Long-Term Incentives. Twenty percent of the deferred shares were granted such that EVA targets must be met in order for the shares to vest, and the shares will be issued no earlier than the fifth anniversary of the grant.

For 2005, as Mr. Malcolm focuses the company on growing earnings and stockholder value, the committee approved an equity award for Mr. Malcolm that included stock options and performance-based deferred shares. The performance-based deferred shares represent 75 percent of the award value and the stock options represent 25 percent. The deferred shares will vest only upon the company's attaining established EVA objectives and Mr. Malcolm's continued employment.

Base salary, annual incentives, and long-term incentives for Mr. Malcolm and the other named executive officers are shown on the Summary Compensation Table.

Internal Revenue Service Limitations on Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code generally limits deductions by publicly held corporations for federal income tax purposes to \$1 million of compensation paid to each of the executive officers listed in the Summary Compensation Table, unless such excess compensation is performance-based as defined in Section 162(m). In order for compensation to qualify as performance-based, among other requirements, the performance goals must be (a) approved by stockholders and (b) set by a compensation committee consisting solely of two or more outside directors (as defined in Section 162(m)). Because stockholders approved the 2002 Incentive Plan, the committee generally intends to grant awards under this plan consistent with the terms of Section 162(m) and the performance-based exception, so that such awards will not be subject to the \$1 million limit. However, the committee may consider other factors beyond income tax treatment when making compensation decisions.

The members of the compensation committee of the board of directors have provided this report:

W. R. Howell, chairman
George A. Lorch
Frank T. MacInnis
Janice D. Stoney

The model does not take into account that the stock options are subject to vesting restrictions and that the options cannot be sold. Table of Contents**Retirement Plan***Pension Plan*

Our executive officers who have completed one year of service participate in our pension plan on the same terms as our other employees. Our pension plan is a noncontributory, tax-qualified defined benefit plan subject to the Employee Retirement Income Security Act of 1974.

Account balances are credited with an annual contribution equal to the sum of a percentage of eligible pay (salary and certain bonuses) and a percentage of eligible pay greater than the social security wage base. The percentage credited is based upon the participant's age as shown in the following table:

Age	Percentage of Eligible Pay	+	Percent of Eligible Pay Greater than the Social Security Wage Base
Less than 30	4.5%	+	1%
30-39	6%	+	2%
40-49	8%	+	3%
50 or over	10%	+	5%

In addition, interest is credited to account balances quarterly at a rate determined annually in accordance with the terms of the plan.

On April 1, 1998, we converted our pension plan from a final average pay plan to a cash balance pension plan. On that date, each participant's accrued benefit was converted to a beginning account balance. For participants who were active employees and participants under the plan on March 31, 1998, and April 1, 1998, the percentage of eligible pay is increased by 0.3 percent multiplied by the participant's total years of benefit service prior to March 31, 1998.

The monthly annuity available to those who take normal retirement is based on the participant's account balance as of the date of retirement. Normal retirement age is 65. Early retirement age is 55. At retirement, participants may choose to receive a single-life annuity or they may choose one of several other forms of payment having an actuarial value equal to that of the single-life annuity.

Supplemental Executive Retirement Plan

The Internal Revenue Code of 1986 limits the pension benefits that can be paid from tax-qualified defined benefit plans, such as our pension plan, to highly compensated individuals. Any reduction in an executive officer's pension benefit due to these limits will be compensated for under an unfunded supplemental retirement plan.

Total estimated annual retirement benefits at normal retirement age under the cash balance formula from both our pension and supplemental retirement plans are as follows:

Name	Cash Balance Formula Estimated Annual Benefits Payable at Normal Retirement Age
Steven J. Malcolm	\$ 472,674
James J. Bender	\$ 177,245
Donald R. Chappel	\$ 160,053

Change in Control Agreements

Our change in control program provides severance benefits for our executive officers if, within two years following a change in control of Williams, their employment is terminated (1) involuntarily other than for cause, death, disability, or the sale of a business, or (2) voluntarily for good reason. The severance benefit includes:

a lump sum payment equal to three times the officer's then current annual base salary and annual incentive award target;

continuation of health and welfare benefits at active employee rates for eighteen months;

calculation of pension plan benefits including supplemental retirement plan benefits with an additional three years of service and three years to age for retirement purposes;

reimbursement of legal fees and expenses incurred in enforcement of the change-in-control program; and

a gross-up payment sufficient to compensate for the amount of any excise tax imposed by Internal Revenue Code Section 4999, and for any taxes imposed on such additional payment.

Set forth below is a line graph comparing our cumulative total stockholder return on our common stock (assuming reinvestment of dividends) with the cumulative total return of the S&P 500 Stock Index and the S&P 500 Oil & Gas Refining, Marketing & Transportation Index for the period of five fiscal years commencing January 1, 2000. Last year's proxy compared our total return to Standard & Poor's Multi-Utilities and Utilities Indices, as well as the S&P 500 Stock Index. However, S&P removed Williams from the two utilities indices and placed us in the S&P 500 Oil & Gas Refining, Marketing & Transportation Index, effective April 1, 2004, necessitating the change in comparative indices. The graph below assumes an investment of \$100 at the beginning of the period.

REPORT OF THE AUDIT COMMITTEE

The audit committee oversees our financial reporting process on behalf of the board. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. The audit committee operates under a written charter approved by the board, a copy of which is attached to this proxy statement as Appendix C. The charter, among other things, provides that the audit committee has full authority to appoint and retain, oversee, evaluate and terminate when appropriate, the independent auditor. In this context, the audit committee:

reviewed and discussed the audited financial statements in the company's annual report on Form 10-K with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements;

reviewed with Ernst & Young LLP, the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality and acceptability of Williams' accounting principles and such other matters as are required to be discussed with the audit committee under generally accepted auditing standards;

received the written disclosures and the letter required by standard No. 1 of the independence standards board (independence discussions with audit committees) provided to the audit committee by Ernst & Young LLP;

discussed with Ernst & Young LLP its independence from management and Williams and considered the compatibility of the provision of nonaudit services by the independent auditors with the auditors' independence;

discussed with Ernst & Young LLP the matters required to be discussed by statement on auditing standards No. 61 (communications with audit committees);

discussed with Williams' internal auditors and Ernst & Young LLP the overall scope and plans for their respective audits. The audit committee meets with the internal auditors and Ernst & Young LLP, with and without management present, to discuss the results of their examinations, their evaluations of Williams' internal controls and the overall quality of Williams' financial reporting;

based on the foregoing reviews and discussions, recommended to the board of directors (and the board has approved) that the audited financial statements be included in the annual report on Form 10-K for the year ended December 31, 2004, for filing with the SEC; and

recommended, together with the board, subject to stockholder approval, the selection of Ernst & Young LLP to serve as Williams' independent auditors.

This report has been furnished by the members of the audit committee of the board of directors:

CODE OF ETHICS

We have adopted a code of ethics specific to the principal executive officer, principal financial officer, controller and other executive officers. The code of ethics was filed with the SEC as Exhibit 14 to our annual report on Form 10-K for the year ended December 31, 2003. In addition, we have adopted a code of business conduct that is applicable to all employees. The code of ethics and the code of business conduct and ethics are available on the company's Web site at <http://www.williams.com>.

COMPLIANCE WITH SECTION 16(a) OF THE SECURITIES EXCHANGE ACT OF 1934

Section 16(a) of the Exchange Act requires our directors, executive officers, and persons who beneficially own more than 10 percent of our stock to file certain reports with the SEC and the NYSE concerning their beneficial ownership of our equity securities. The SEC regulations also require that a copy of all such Section 16(a) forms filed must be furnished to us by the executive officers, directors, and greater than 10 percent stockholders. Based on a review of the copies of such forms in our possession, and on written representation from certain reporting persons, we believe that during fiscal 2004, all of our executive officers and directors filed the required reports on a timely basis under Section 16(a), except that a Form 3 was incorrectly filed in October 2002 by Mr. Alan S. Armstrong that did not include 414 shares held in an IRA account by him, a Form 4 was not timely filed by Hugh M. Chapman reflecting four purchases of the Company's stock totaling 325 shares facilitated by a third party manager, and a Form 4 was not timely filed by Mr. William E. Green to report a deferred stock payout of 1,364 shares in January, 2004 when the compensation department failed to provide notice of the transaction.

The non-management directors also have the opportunity to meet in executive session in connection with each regularly scheduled meeting of the Board.

E. *Frequency of Meetings; Attendance.*

The Board meets regularly at least six times each year. The Chairman of the Board, the President or any three Directors may also call special meetings from time to time as necessary. Table of Contents

F. Agenda items for Board Meetings.

The Chairman of the Board establishes the Board meeting agenda in consultation with the executive officers of the Company, the Presiding Director, and the Corporate Secretary. All directors are also encouraged to suggest agenda topics.

G. Meeting materials; Preparation; Participation.

Materials should generally be distributed to the directors one week in advance of each regular Board meeting. In some cases, due to the sensitive nature of an issue or if an issue arises without sufficient time to complete distribution of materials within this time frame, materials are presented only at the Board meeting. Directors are expected to be prepared for each Board meeting by reviewing advance materials and otherwise to participate actively in the Board's or committee's deliberations.

H. Access to Management and Employees.

The Board at all times has free access to all members of management and the employees of the Company.

I. Access to Non-Management Directors.

Interested parties wishing to communicate with the non-management directors may contact the Corporate Secretary or the Presiding Director. The Company publishes on its website a mailing address and email address for this purpose.

J. Chief Executive Officer Evaluation and Compensation.

Annually, the Board sets the Chief Executive Officer's goals and objectives and then meets in executive session to review the Chief Executive Officer's performance based on those goals and objectives. The session, which is led by the Chairman of the Compensation Committee, is conducted without the Chief Executive Officer present. The results of this performance review are shared with the Chief Executive Officer and are used by the Compensation Committee in establishing the Chief Executive Officer's compensation.

K. Management Succession.

The Board maintains a process for planning orderly succession for the position of Chairman of the Board and Chief Executive Officer as well as other senior management positions. The Board also has available, on a continuing basis, the Chief Executive Officer's recommendation of a potential successor in the event of unexpected disability.

L. Strategic Planning.

The Board reviews the strategic and financial plans of the Company annually. The Board receives frequent updates from the Chief Executive Officer regarding the implementation of the strategic plans.

II. Board Structure.

A. Independent Directors.

It is the policy of the Company that all members of the Board, except the Chief Executive Officer, shall be independent directors as defined by the rules of the New York Stock Exchange. Annually, the Board, through the Nominating and Governance Committee, reviews the independence of the directors and the Board affirmatively makes a determination as to the independence of each director. The Nominating and Governance Committee may develop and recommend that the Board adopt categorical standards for use in assessing director independence.

Table of Contents

B. Classes of Directors; Size of the Board; Term.

The Board has three classes of directors of as nearly equal size as possible and the total number of directors is determined by resolution adopted by the affirmative vote of a majority of the Board, except that the total number of directors may not be less than five nor more than 17. The term of each class of directors is normally three years, and the term of one class expires each year in rotation.

C. Selection of Directors; Board Membership Criteria.

The Nominating and Governance Committee, with input from the Chief Executive Officer and other directors, is responsible for identifying candidates for Board membership and development of a board succession plan. Qualifications sought by the Nominating and Governance Committee in independent director candidates include the following:

1. An understanding of business and financial affairs and the complexities of a business organization. Although a career in business is not essential, the nominee should have a proven record of competence and accomplishments through leadership in industry, education, the professions or government, and should be willing to maintain a committed relationship with the Company as a director.
2. A genuine interest in representing all of the shareholders and the interest of the Company overall.
3. A willingness and ability to spend the necessary time to function effectively as a director.
4. An open-minded approach to matters and the resolve to make up their own minds on matters presented for consideration.
5. A reputation for honesty and integrity beyond question.
6. Independence as defined by the New York Stock Exchange, and qualifications otherwise required in accordance with applicable law or regulation.

D. Conflicts of Interest.

All directors are expected to avoid any action, position or interest that conflicts with an interest of the Company, or even gives the appearance of a conflict.

E. Compensation of Board Members.

The Nominating and Governance Committee has the responsibility for recommending to the Board the appropriate compensation for non-management directors. The committee's goal is to fairly and reasonably compensate the directors commensurate with their duties and responsibilities. A combination of cash and Company stock may be used to compensate directors. The Nominating and Governance Committee periodically reviews the status of the Company's Board compensation in relation to other comparable U.S. companies to ensure the compensation is competitive to attract and retain the most qualified candidates.

III. Committees of the Board.

The Board has established standing committees to consider designated matters. The committees of the Board are Executive, Audit, Nominating and Governance, Finance and Compensation. The Board annually elects from its members, as recommended by the Nominating and Governance Committee, the members and the chairman of each committee. Except for the Chief Executive Officer and Chairman of the Board, who chairs the Executive Committee, all committee members shall be independent directors as determined in accordance with applicable New York Stock Exchange rules. Each committee has a written charter setting forth the duties, authority and responsibilities of the committee.

Table of Contents

IV. Other Board Practices.

A. *Director Orientation; Continuing Education.*

New directors participate in an orientation program upon joining the Board. All directors are given the opportunity to participate in continuing education programs.

APPENDIX B
Adopted November 17, 2004

THE WILLIAMS COMPANIES, INC.
DIRECTOR INDEPENDENCE STANDARDS

A. Director independence.

An independent director is a director whom the Board of Directors has determined has no material relationship with The Williams Companies, Inc. or any of its consolidated subsidiaries (collectively, Williams), either directly, or as a partner, stockholder or officer of an organization that has a relationship with Williams.

A relationship is material if, in the judgment of the Board of Directors, the relationship would interfere with the exercise of the director's independent judgment. The Board of Directors has established standards for determining when a relationship between a director (or an organization with which a director is associated) and Williams is sufficiently material that it would be viewed as interfering with the director's independent judgment. In determining whether a particular relationship would be viewed as interfering with a director's independent judgment, the Board applies the standards set forth below. Under these standards:

1. A director is presumed not to be independent if the director, or a member of the director's immediate family, receives more than \$100,000 per year in direct compensation from Williams, other than Board fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), until three years after the director or the director's immediate family member ceases to receive more than \$100,000 per year in direct compensation from Williams. Compensation received by an immediate family member for service as a non-executive employee of Williams is not counted for purposes of this standard.

2.
