AMT - Interest earned from these securities may be considered a tax preference item for purposes of the Federal Alternative Minimum Tax.

CIFG - CIFG Assurance North America, Inc.

FGIC - Financial Guaranty Insurance Company

FNMA - Federal National Mortgage Association

FSA - Financial Security Assurance, Inc.

GNMA - Government National Mortgage Association

MBIA - MBIA Insurance Corp. of Illinois

At February 28, 2009, the concentration of the Fund's investments in the various states, determined as a percentage of total investments, is as follows:

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-Q

New York	13.4%
Others, representing less than 10% individually	86.6%

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at February 28, 2009, 33.9% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 0.9% to 13.5% of total investments.

- (1) Security represents the underlying municipal bond of a tender option bond trust.
- (2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At February 28, 2009, the aggregate value of these securities is \$16,827,210 or 11.2% of the Fund's net assets applicable to common shares.
- (3) Security (or a portion thereof) has been pledged as collateral for open swap contracts or inverse floating-rate security transactions.
- (4) Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at February 28, 2009.
- (5) Security is subject to a shortfall agreement which may require the Fund to pay amounts to a counterparty in the event of a significant decline in the market value of the security underlying the inverse floater. In case of a shortfall, the maximum potential amount of payments the Fund could ultimately be required to make under the agreement is \$1,640,000. However, such shortfall payment would be reduced by the proceeds from the sale of the security underlying the inverse floater.
- (6) Security is in default with respect to scheduled principal payments.
- (7) Security is in default and is making only partial interest payments.

**Table of Contents**

A summary of financial instruments outstanding at February 28, 2009 is as follows:

**Interest Rate Swaps**

<b>Counterparty</b>	<b>Notional Amount</b>	<b>Annual Fixed Rate Paid By Fund</b>	<b>Floating Rate Paid To Fund</b>	<b>Effective Date/ Termination Date</b>	<b>Net Unrealized Depreciation</b>
JPMorgan Chase Co.	\$ 5,475,000	4.743%	3-month USD- LIBOR-BBA	September 14, 2009 / September 14, 2039	\$ (1,215,127)

The effective date represents the date on which the Fund and the counterparty to the interest rate swap contract begin interest payment accruals.

At February 28, 2009, the Fund had sufficient cash and/or securities to cover commitments under these contracts.

The Fund is subject to interest rate risk in the normal course of pursuing its investment objectives. Because the Fund holds fixed-rate bonds, the value of these bonds may decrease if interest rates rise. To hedge against this risk, the Fund may enter into interest rate swap contracts. The Fund may also purchase and sell U.S. Treasury futures contracts to hedge against changes in interest rates.

At February 28, 2009, the aggregate fair value of derivative instruments in an asset position and in a liability position and whose primary underlying risk exposure is interest rate risk was none and \$1,215,127, respectively.

The cost and unrealized appreciation (depreciation) of investments of the Fund at February 28, 2009, as determined on a federal income tax basis, were as follows:

<b>Aggregate cost</b>	<b>\$ 304,924,425</b>
Gross unrealized appreciation	\$ 4,102,256
Gross unrealized depreciation	(60,441,008)
<b>Net unrealized depreciation</b>	<b>\$ (56,338,752)</b>

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements, established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At February 28, 2009, the inputs used in valuing the Fund's investments, which are carried at value, were as follows:

	<b>Valuation Inputs</b>	<b>Investments in Securities</b>	<b>Other Financial Instruments*</b>
Level 1	Quoted Prices	\$	\$
	Other Significant Observable		
Level 2	Inputs	276,615,673	(1,215,127)
Level 3	Significant Unobservable Inputs		
<b>Total</b>		<b>\$ 276,615,673</b>	<b>\$ (1,215,127)</b>

\* Other financial instruments are swap contracts not reflected in the Portfolio of Investments, which are valued at the unrealized appreciation (depreciation) on the instrument.

The Fund held no investments or other financial instruments as of November 30, 2008 whose fair value was determined using Level 3 inputs.

For information on the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to the Fund's most recent financial statements included in its semiannual or annual report to shareholders.
