Proxy Statement

The accompanying proxy is solicited on behalf of the Board of Directors for use at the Annual Meeting of Shareholders to be held on Tuesday, May 9, 2006 in accordance with the foregoing notice. This Proxy Statement and accompanying proxy card are being mailed to shareholders on or about March 21, 2006.

Q: Who is entitled to vote?

A: All record holders of Baxter common stock (Common Stock) as of the close of business on March 13, 2006 are entitled to vote. On that day, approximately 658,213,361 shares were issued and outstanding and eligible to vote. Each share is entitled to one vote on each matter presented at the Annual Meeting.

Q: How do I vote?

A: We offer our registered shareholders three ways to vote, other than by attending the Annual Meeting and voting in person:

Using the Internet, by following the instructions on the proxy card;

By telephone, using the telephone number printed on the proxy card; or

By mail, using the enclosed proxy card and return envelope.

Q: What does it mean to vote by proxy?

A: It means that you give someone else the right to vote your shares in accordance with your instructions. In this case, we are asking you to give your proxy to our Chief Executive Officer and General Counsel (the Proxyholders). In this way, you ensure that your vote will be counted even if you are unable to attend the Annual Meeting.

If you give your proxy but do not include specific instructions on how to vote, the Proxyholders will vote your shares in the following manner:

For the election of the Board s nominees for director;

For the ratification of the appointment of PricewaterhouseCoopers LLP as Baxter s independent registered public accounting firm;

For each of the management proposals seeking approval of amendments to Baxter s Restated Certificate of Incorporation; and

Against the shareholder proposal.

Q: What if I submit a proxy and later change my mind?

A: If you have given your proxy and later wish to revoke it, you may do so by giving written notice to the Corporate Secretary, submitting another proxy bearing a later date (in any of the permitted forms), or casting a ballot in person at the Annual Meeting.

Q: What happens if other matters are raised at the meeting?

A: If other matters are properly presented at the meeting, the Proxyholders will have the discretion to vote on those matters for you in accordance with their best judgment. However, Baxter s Corporate Secretary has not received

timely and proper notice from any shareholder of any other matter to be presented at the meeting.

Q: Who will count the votes?

A: Automatic Data Processing, will serve as proxy tabulator and count the votes.

1

Q: How is it determined whether a matter has been approved?

A: Assuming a quorum is present, the approval of the matters specified in the Notice of Annual Meeting will be determined as follows.

The four persons receiving the largest number of votes cast at the Annual Meeting in person or by proxy will be elected as directors;

Amendments to Baxter's Restated Certificate of Incorporation to eliminate the classified board structure require the affirmative vote of two-thirds of holders of the outstanding shares of Common Stock;

Amendments to Baxter's Restated Certificate of Incorporation to reduce the minimum and maximum number of directors require the affirmative vote of a majority of the outstanding shares of Common Stock; and

Each other matter requires the affirmative vote of a majority of the shares of Common Stock voted at the Annual Meeting in person or by proxy.

Q: What constitutes a quorum?

A: A quorum is present if a majority of the outstanding shares of Common Stock entitled to vote is represented in person or by proxy. Broker non-votes and abstentions will be counted for purposes of determining whether a quorum is present.

Q: What are broker non-votes?

A: Broker non-votes occur when nominees, such as banks and brokers holding shares on behalf of beneficial owners, do not receive voting instructions from the beneficial holders at least ten days before the meeting. If that happens, the nominees may vote those shares only on matters deemed routine by the New York Stock Exchange, such as the election of directors, the ratification of the appointment of the independent registered public accounting firm and the amendments to Baxter's Restated Certificate of Incorporation. On non-routine matters, such as the shareholder proposal, nominees cannot vote unless they receive voting instructions from beneficial holders, resulting in so-called broker non-votes.

Q: What effect does an abstention have?

A: Abstentions or directions to withhold authority will have no effect on the outcome of the election of directors. Abstentions will have the same effect as a vote against any of the other matters specified in the Notice of Annual Meeting.

Q: What shares are covered by the proxy card?

A: The proxy card covers all shares held by you of record (*i.e.*, registered in your name), including those held in Baxter's Dividend Reinvestment Plan, Shared Investment Plan, executive compensation plans, Employee Stock Purchase Plan, and any shares credited to your Incentive Investment Plan (IIP) account or Puerto Rico Savings and Investment Plan account held in custody by the plan trustee.

If you hold your shares through a broker, bank or other nominee, you will receive separate instructions from your broker, bank or other nominee describing how to vote your shares.

If you are a current or former Baxter employee with shares credited to your account in the IIP or Puerto Rico Savings and Investment Plan, then your proxy card (or vote via the Internet or by telephone) will serve as voting instructions to the plan trustee. The trustee will vote your shares as you direct, except as may be required by the

Edgar Filing: BAXTER INTERNATIONAL INC - Form DEF 14A

Employee Retirement Income Security Act (ERISA). If you fail to give instructions to the plan trustee, the trustee may vote shares credited to your account in the IIP or Puerto Rico Savings and Investment Plan at its discretion. To allow sufficient time for voting by the plan trustee, your voting instructions must be received by May 2, 2006.

Proposal 1 Election of Directors

Baxter's Board of Directors currently consists of twelve members and is divided into three classes. The directors in each class serve three-year terms. The Board has nominated the four current directors of Baxter whose terms expire at the 2006 Annual Meeting for re-election as directors. However, if the amendments to Baxter's Restated Certificate of Incorporation eliminating the classified board structure are approved by the requisite vote of shareholders, directors, including those elected at the 2006 Annual Meeting, will be elected for one-year terms.

All of the nominees have indicated their willingness to serve if elected, but if any should be unable or unwilling to stand for election, proxies may be voted for a substitute nominee designated by the Board of Directors. The Board of Directors appointed Peter S. Hellman on March 30, 2005 to serve as a director until the 2006 Annual Meeting of Shareholders. Mr. Hellman was recommended to the Corporate Governance Committee by an independent search firm. No nominations for directors were received from shareholders, and no other candidates are eligible for election as directors at the 2006 Annual Meeting. The Proxyholders intend to vote the shares represented by proxy in favor of all of the Board's nominees, except to the extent a shareholder withholds authority to vote for the nominees.

Set forth below is information concerning the nominees for election as well as information concerning the current directors in each class continuing after the Annual Meeting of Shareholders. The Board of Directors recommends a vote **FOR** the election of all of the nominees for director.

Compensation of Directors

Under Baxter's non-employee director compensation plan (the Director Compensation Plan), non-employee director compensation consists of a combination of cash compensation, stock options and restricted stock, as described below.

Cash Compensation

Under the Director Compensation Plan, each non-employee director receives a \$45,000 annual cash retainer. In addition, each non-employee director also receives a \$1,000 fee for each Board and each committee meeting attended, and each non-employee director who acts as the chair of any committee meeting receives an additional \$1,000 for each meeting chaired by him or her. The lead director receives an additional annual cash retainer of \$25,000. Non-employee directors are eligible to participate in a deferred compensation plan that allows deferral of all or any portion of cash payments until Board service ends and provides participants with a select sub-set of investment elections available to all eligible employees under Baxter's Incentive Investment Plan (a tax-qualified section 401(k) profit sharing plan).

Each non-employee director is eligible for life insurance benefits. Life insurance premiums of \$1,080 in the aggregate were paid in 2005 for the benefit of non-employee directors.

Stock Options

Each non-employee director is entitled to receive a grant of stock options annually on the date of the annual meeting of shareholders. Under the Director Compensation Plan, the annual stock option grant to each non-employee director has a target value on the grant date based on a Black-Scholes valuation of \$60,000. The stock options become exercisable on the date of the next annual meeting of shareholders, and

may become exercisable earlier in the event of death, disability, or a change in control of Baxter. Under the Director Compensation Plan, the Board or the Compensation Committee may substitute stock appreciation rights for any outstanding stock options granted on or after May 4, 2004.

Restricted Stock

Each non-employee director also receives an annual grant of restricted shares of Baxter Common Stock on the date of the annual meeting of shareholders. The number of restricted shares to be granted to each non-employee director each year equals the quotient of \$60,000 divided by the closing sale price for a share of Baxter Common Stock on the date of the annual meeting. The restricted shares vest on the date of the next annual meeting of shareholders and will be forfeited if the non-employee director leaves the Board for any reason other than death or disability prior to that date. In the event of a change in control of Baxter, all restrictions on the shares will terminate. Until vested, the restricted stock cannot be transferred or sold. During the restriction period, the directors have all of the other rights of a shareholder, including the right to receive dividends and vote the shares.

Director Stock Ownership Guidelines

Baxter's Corporate Governance Guidelines require that after five years of Board service, each director is to hold five times the annual cash retainer provided to directors.

The following table provides information on 2005 compensation for non-employee directors who served during 2005.

Corporate Governance

Director Independence

To be considered independent, the Board must affirmatively determine that a director does not have any direct or indirect material relationship with Baxter. Pursuant to Baxter's Corporate Governance Guidelines, a director will not be independent if, within the preceding three years:

the director was employed by Baxter;

an immediate family member of the director was employed by Baxter as an executive officer;

the director was employed by or affiliated with, or an immediate family member of the director was employed in a professional capacity by or affiliated with, the independent auditor of Baxter;

a present Baxter executive officer was on the compensation committee of the board of directors of a company that concurrently employed the Baxter director, or that concurrently employed an immediate family member of the director as an executive officer; or

the director received, or an immediate family member of the director received, more than \$100,000 during any twelve-month period within the preceding three years in direct compensation from Baxter, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service).

The Corporate Governance Guidelines also provide that the following commercial or charitable relationships will not be considered to be material relationships that would impair a director's independence:

if a Baxter director or an immediate family member of a Baxter director is a partner, officer, employee or controlling shareholder of or is otherwise affiliated with another company or professional entity (including any law firm or investment banking firm) that does business with Baxter and the annual payments to, or from, Baxter in any year do not exceed (A) one percent of the consolidated gross revenue of Baxter for its most recently completed fiscal year or (B) the greater of \$1,000,000 or two percent of the consolidated gross revenue of the other company or professional entity for its most recently completed fiscal year;

if a Baxter director is a partner, executive officer or controlling shareholder of or is otherwise affiliated with another company that is indebted to Baxter, or to which Baxter is indebted, and the total amount of either company's indebtedness to the other does not exceed (A) one percent of the total consolidated assets of Baxter as of the end of its most recently completed fiscal year or (B) one percent of the total consolidated assets of the other company as of the end of its most recently completed fiscal year; and

if a Baxter director serves as an officer, director or trustee of or is otherwise affiliated with a tax-exempt organization, and Baxter's discretionary contributions to the organization are less than the greater of \$100,000 or two percent of that organization's consolidated gross revenues in any single fiscal year. Baxter's automatic matching of employee charitable contributions will not be included in the amount of Baxter's contributions for this purpose.

The relationship described under the caption entitled "Certain Relationships and Related Transactions" on page 20 of this Proxy Statement was considered in assessing the independence of Ms. Fosler and her relationship was not deemed to impair her independence in light of the criteria set forth above. For relationships not covered above, the determination of whether the director is independent or not will be made by the directors who satisfy the independence guidelines.

Corporate Governance Guidelines

Baxter's Board of Directors has long adhered to corporate governance principles designed to ensure effective corporate governance. Since 1995, the Board of Directors has had in place a set of corporate governance guidelines reflecting these principles. Baxter's current Corporate Governance Guidelines cover topics including, but not limited to, director qualification standards, director responsibilities, director access to management and independent advisors, director compensation, director orientation and continuing education, succession planning and the annual evaluations of the Board and its committees. Baxter's Corporate Governance Guidelines, amended as of February 22, 2005, are available on Baxter's website at www.baxter.com under Corporate Governance Guidelines and in print upon request by writing to: Corporate Secretary, Baxter International Inc., One Baxter Parkway, Deerfield, Illinois 60015.

Global Business Practice Standards and Corporate Responsibility Office

Baxter has adopted a code of business conduct and ethics, called the Global Business Practice Standards, that applies to all members of Baxter's Board of Directors and all employees of the company, including the Chief Executive Officer, Chief Financial Officer, Controller and other senior financial officers. Any amendment to, or waiver from, a provision of its Global Business Practice Standards that applies to Baxter's Chief Executive Officer, Chief Financial Officer, Controller or persons performing similar functions will be disclosed on the company's website, at www.baxter.com under Corporate Governance. Baxter's Global Business Practice Standards are available on Baxter's website at www.baxter.com under Corporate Governance Business Practices and in print upon request by writing to: Business Practices, Baxter International Inc., One Baxter Parkway, Deerfield, Illinois 60015.

The Corporate Responsibility Office, which was established by the Board in 1993, is responsible for communicating the company's Global Business Practice Standards, maintaining multiple channels for employees to report concerns, providing guidance and training to employees and directors (including, for directors, both one-on-one orientation to Baxter's business practice processes as well as the same on-line Business Practice Standards Awareness Training course for employees), and monitoring compliance. Permanent members of the Corporate Responsibility Office include the company's Vice President of Business Practices, who reports to the Public Policy Committee, and the Vice President of Corporate Audit, who reports to the Audit Committee.

Executive Sessions

The non-employee directors of the Board met in executive session without management at every regularly scheduled meeting during 2005 pursuant to Baxter's Corporate Governance Guidelines. The Audit Committee is required by its charter to hold separate sessions during at least five committee meetings with each of the internal auditor, the independent auditor and management. The Compensation Committee also meets in executive session as it deems appropriate.

Lead Director

Baxter's lead director is currently Thomas T. Stallkamp. Baxter's Corporate Governance Guidelines provide that the lead director is responsible for presiding at all executive sessions of the Board and acting as the liaison between the non-management directors and the Chair of the Board. In addition, the lead director serves as the contact person to facilitate communications by Baxter employees and shareholders directly with the non-management members of the Board. The Corporate Governance Committee recommends a lead director to the full Board for approval on an annual basis.

Communicating with the Board of Directors

Shareholders and other interested parties may contact any of Baxter's directors, including the lead director or the non-management directors as a group, by writing a letter to Baxter Director c/o Corporate Secretary, Baxter International Inc., One Baxter Parkway, Deerfield, Illinois 60015 or by sending an e-mail

to boardofdirectors@baxter.com. Communications will be forwarded by Baxter's Corporate Secretary directly to the lead director, unless a different director is specified.

Nomination of Directors

It is the policy of Baxter's Corporate Governance Committee to consider shareholder recommendations for candidates for the Board. The Corporate Governance Committee also considers candidates recommended by members of the Board, management and the independent search firm retained by the Board of Directors to help identify and evaluate potential director nominees. The Corporate Governance Committee evaluates all candidates for director in the same manner regardless of the source of the recommendation. In evaluating individual director candidates, the Corporate Governance Committee applies the membership criteria set forth in Exhibit A to Baxter's Corporate Governance Guidelines, a copy of which is attached as Appendix A. Once a candidate has been identified, the Corporate Governance Committee may collect and review publicly available information regarding the person to assess whether the person should be considered further. If the Corporate Governance Committee or its chair determines that the candidate warrants further consideration, the Corporate Governance Committee and the external search firm retained by the Committee will engage in a process that includes a thorough investigation of the candidate, an examination of his or her business background and education, research on the individual's accomplishments and qualifications, an in-person interview and extensive reference checking. If this process generates a positive indication, the lead director, the members of the Committee and the Chairman of the Board will meet separately with the candidate and then confer with each other regarding their respective impressions of the candidate. If the individual was positively received, the Committee will then recommend the individual to the full Board for election. If the full Board agrees, the Chairman of the Board is then authorized to extend an offer to the individual candidate.

Shareholder recommendations for candidates for the Board must be submitted in writing to the Corporate Secretary, Baxter International Inc., One Baxter Parkway, Deerfield, Illinois 60015 and include the following information: (1) the name and address of the shareholder making the recommendation and evidence of his or her ownership of Baxter Common Stock, including the number of shares and period of ownership; (2) the name and address of the director candidate, and his or her resume or listing of qualifications, taking into account the criteria described in Appendix A; and (3) the candidate's signed consent to serve as a director if elected and to be named in the proxy statement. For a candidate to be considered by the Corporate Governance Committee as a nominee for election at the next annual meeting of shareholders, the shareholder's recommendation must be received by the Corporate Secretary not less than 120 days before the anniversary date of the company's most recent annual meeting of shareholders. In addition, the Bylaws provide that nominations for director may only be made by a shareholder entitled to vote at the relevant meeting who sends notice to the Corporate Secretary not fewer than 60 nor more than 90 days before the anniversary date of the previous year's annual meeting. Any nomination by a shareholder also must comply with the procedures specified in Article I Section 2 of Baxter's Bylaws.

Compensation Committee Report

The Compensation Committee of the Board of Directors (the Committee) makes recommendations to the independent directors of the Board concerning compensation for the Chief Executive Officer and determines compensation for other officers. The Committee also exercises the authority of the Board with respect to Baxter's employee benefit plans. During 2005, the Compensation Committee held five meetings and met in executive session as it deemed appropriate.

Overview of Compensation Philosophy and Practices

The Committee's compensation philosophy provides a framework for aligning compensation with business objectives. The Committee's philosophy is to provide compensation opportunities that are structured to: (i) recognize performance by basing compensation on the achievement of pre-established performance goals for Baxter as well as individual performance and (ii) be competitive when compared to

healthcare and non-healthcare companies of similar size and scope. This philosophy is intended to assist Baxter in retaining, motivating, and attracting executives with superior leadership and management abilities. The Committee considers the total annual compensation received by the officers, including salary, cash bonuses, long-term incentives and perquisites, in establishing each element of compensation. The Committee also conducts a total compensation, or Tally Sheet, review of all elements of compensation for Mr. Parkinson.

To promote a pay-for-performance philosophy, employee compensation is based on the performance of both Baxter and the individual. The Committee believes that management should be motivated and compensated based on both financial and non-financial measures. For this reason, the Committee emphasizes the financial measures of sales growth, earnings per share, return on invested capital, and total shareholder return when determining compensation for all officers. In terms of non-financial measures, the Committee focuses on such areas as integrity, quality, leadership, customer satisfaction, innovation, and talent management. The Committee believes that a combination of financial and non-financial measures were the appropriate focus for 2005.

In order to appropriately reward individual performance in a manner that differentiates among the members of management, a performance differentiation framework is used to determine each officer's compensation, including salary, cash bonus and long-term incentives. This approach is designed to strengthen the link between an individual's compensation and his or her personal performance as measured by the officer's performance compared to the goals and objectives set for the executive at the beginning of the year. Using these measurements, adjustments are made to each officer's compensation that differentiate individual compensation based on relative performance.

The Committee also considers compensation survey data from selected companies in the pharmaceutical, medical device, and biotech industries included in the Standard & Poor's 500 Health Care Index, as well as other large non-healthcare companies of similar size and scope (comparable companies). Based on the survey data from the comparable companies, the Committee determines the competitiveness of the total compensation structure for each officer, including Mr. Parkinson. The Committee engages independent compensation consultants to assist in obtaining survey data from the comparable companies and determining the competitiveness of Baxter's total compensation structure. The consultants report to the Committee.

Section 162(m) of the Internal Revenue Code of 1986, as amended, imposes a \$1 million limit on the amount that a public company may deduct for compensation paid to the company's chief executive officer or other named executive officers. This limitation does not apply to compensation that meets the requirements under Section 162(m) for qualifying performance-based compensation. Baxter's philosophy with respect to the \$1 million limit is to maximize the benefit of tax laws for Baxter's shareholders.

Elements of Executive Compensation

Baxter's compensation structure for executive officers consists of the following components:

Base Salaries

The Committee establishes base salaries each year based on each officer's individual performance within a structure intended to be competitive with the 50th percentile of salaries paid to officers in the comparable companies. The Committee approved increases in officer salaries at its meeting in February 2005, to reflect individual performance relative to the 50th percentile of salaries paid to their counterparts in the comparable companies.

Cash Bonuses

Cash bonuses are intended to provide officers with an opportunity to receive additional cash compensation, but only if it is earned through achievement of specified performance goals. Cash bonus targets for 2005 were intended to be competitive with the 60th percentile of cash bonuses paid to officers

in the comparable companies. The Committee establishes annual performance goals for the company under the officer cash bonus plan. The Committee also establishes annual bonus targets for each officer by utilizing the market data from the comparable companies. After year-end results are reported, the Committee determines each officer's bonus based on the achievement of the specified annual performance goals and the officer's individual performance. Individual performance is assessed using the performance differentiation framework discussed above.

Baxter exceeded its earnings per share, sales, and return on invested capital goals established by the Committee as the performance measures under the officer cash bonus plan for 2005. Based on these financial results, the Committee approved officer cash bonus funding of 131% of each officer's target bonus. Actual bonus amounts for 2005 were adjusted to reflect each officer's individual performance and ranged from 40% to 140% of funded bonus targets.

Long-Term Incentives

To further align management and shareholder interests and to continue to promote a pay-for-performance philosophy, Baxter maintains a Long-Term Incentive (LTI) Plan for its senior managers, including the Chief Executive Officer and the other officers. For 2005, the LTI Plan was structured to provide a mix of stock options (70%) and restricted stock units (30%). The competitive positioning of the LTI Plan ranks at the 60th percentile of the long-term incentive opportunities provided to LTI participants' counterparts in the comparable companies. Grants to senior management from the LTI Plan are made in March of each year.

To motivate participants to achieve superior total shareholder return (TSR) compared to Baxter's competitors, the LTI Plan contains a TSR Multiplier that increases or decreases a participant's stock option and restricted stock unit targets, depending on Baxter's relative TSR performance. The TSR Multiplier measures the annual percentage change in Baxter's TSR compared to the TSR for the Standard & Poor's 500 Health Care Index. Based on this comparison, a participant's target LTI award for 2005 could increase up to a maximum of 150% or decrease to a minimum of 75% of target. Actual awards are based on a combination of the participant's target award, the TSR Multiplier and the participant's individual performance.

Baxter's strong relative TSR performance in 2004 drove enhanced LTI grants for 2005. For the period of January to December 2004, Baxter's TSR was 15.08% compared to a TSR of 1.68% for the Standard & Poor's 500 Health Care Index. In accordance with the TSR Multiplier incorporated in the LTI Plan, the participants' stock option and restricted stock unit targets for 2005 were adjusted to the maximum of 150% of target. Actual stock option and restricted stock unit awards for executive officers who continued employment during 2005, ranged from 100% to 130% of adjusted targets due to individual performance.

Perquisites

Baxter also provides its officers with certain perquisites that Baxter believes are reasonable, competitive and consistent with Baxter's overall compensation philosophy. These perquisites include: car and financial planning allowances, executive physical exams, airline club memberships and certain subscription dues. Officers may use the company aircraft for personal travel on a limited basis and only if such aircraft usage is pre-approved by the Chief Executive Officer. No named executive officer used the company aircraft for personal travel in 2005. In addition, if circumstances warrant, Baxter may provide home security systems for certain officers. In 2005, the value of these perquisites did not exceed \$25,000 for any named executive officer.

Basis for Chief Executive Officer Compensation

In 2005, Mr. Parkinson participated in the same compensation programs provided to Baxter's other executive officers as described above. The Committee's general approach to setting Mr. Parkinson's compensation was to be competitive with the comparable companies, while ensuring that his compensation was dependent upon achievement of Baxter's financial performance goals and personal performance

objectives, both of which are reviewed and approved by the Board. The Board has an established process through which the Corporate Governance and Compensation Committees work together to establish a link between Mr. Parkinson's performance and decisions regarding his compensation. All compensation actions relating to Mr. Parkinson are subject to the approval of the independent directors of the Board.

In February 2005, the Board increased Mr. Parkinson's salary by 3.6% from \$1,100,000 to \$1,140,000, in recognition of his strong performance and leadership. In addition, this increase more closely aligned Mr. Parkinson's base salary with the 50th percentile of salaries paid to chief executive officers at the comparable companies.

In March 2005, pursuant to the terms of the LTI Plan described above, Mr. Parkinson was granted an option to purchase 750,750 shares of Baxter stock at an exercise price of \$34.85. The option vests 100% after three years. On that same day, he was also granted 80,438 restricted stock units, which vest 1/3 per year for three years. These awards represented 165% of his target, or 110% of his target as adjusted for strong TSR performance.

Baxter exceeded its earnings per share, sales, and return on invested capital goals established by the Committee as the performance measures under the officer cash bonus plan for 2005. In February 2006, the Board determined that for 2005 Mr. Parkinson earned a cash bonus of \$1,941,420. This amount represented 131% of Mr. Parkinson's target bonus, or 100% of the bonus funded based upon Baxter's exceeding of its earnings per share, sales and return on invested capital performance measures.

Stock Ownership Guidelines

In July 2005, the Committee adopted stock ownership guidelines to better align the interests of our executive officers with the interests of shareholders and to further promote our commitment to sound corporate governance. Under the guidelines, our Chief Executive Officer is required to achieve ownership of Baxter common stock valued at six times annual base salary, while Baxter's other executive officers' multiple is four times annual base salary. All executive officers are expected to comply with their respective guidelines within five years of becoming an executive officer. Mr. Parkinson is currently at approximately 95% of his stock ownership goal and will exceed his goal in 2006 with his anticipated 2006 LTI Plan restricted stock unit grant to be made later in March. All other executive officers are currently at or on track to meet their stock ownership requirement within the five-year period.

Pension Plan, Excess Plans and Supplemental Plans

The table on the following page shows estimated annual retirement benefits payable to participants in Baxter's United States pension plan (Pension Plan) whose employment terminates at normal retirement (age 65). The normal retirement benefit equals (i) 1.75 percent of a participant's Final Average Pay multiplied by the employee's number of years of Pension Plan participation, minus (ii) 1.75 percent of a participant's estimated primary social security benefit, multiplied by the employee's years of Pension Plan participation. The Final Average Pay is equal to the average of a participant's five highest consecutive calendar years of earnings out of his or her last ten calendar years of earnings. In general, the compensation considered in determining the pension payable to the named executive officer includes salary and cash bonuses awarded under the Officer Incentive Compensation Plan. The figures shown include benefits payable under the Pension Plan, Baxter's related defined benefit excess pension plan and supplemental plans for certain individuals. The estimates assume that benefit payments begin at age 65 under a single life annuity form. The figures are net of the Social Security offset specified by the Pension Plan's benefit formula and therefore do not include Social Security benefits payable from the federal government. The estimated primary Social Security benefit used in the calculations is that payable for an individual attaining age 65 in 2005.

Although age 65 is the normal retirement age under the Pension Plan, the Pension Plan has early retirement provisions based on a point system. Under the point system, each participant is awarded one point for each year of Pension Plan participation and one point for each year of age. Participants who terminate employment after accumulating at least 65 points, and who wait to begin receiving their Pension Plan benefits until they have 85 points, receive an unreduced Pension Plan benefit regardless of their actual age when they begin receiving their Pension Plan benefits.

Employment Agreements

On April 19, 2004, Baxter entered into an employment agreement with Robert L. Parkinson, Jr. Mr. Parkinson was appointed Chief Executive Officer and was elected as Chairman of the Board in April 2004. There are no other employment agreements between Baxter and its named executive officers.

Term. The agreement provides for Mr. Parkinson's employment through April 19, 2007, subject to an automatic day-to-day extension after April 19, 2006, such that at any time after April 19, 2006, the agreement term shall be two years (subject to earlier termination as described below).

Salary and Incentive Bonus. Under the agreement, Mr. Parkinson is to receive an annual base salary of not less than \$1,100,000, subject to possible increase by the independent directors of the Board of Directors. On February 22, 2005, the independent directors of the Board set Mr. Parkinson's 2005 base salary at \$1,140,000. Mr. Parkinson is also eligible to participate in the annual officer bonus program, which provides for payment of a cash bonus amount equal to up to 200% of Mr. Parkinson's annual salary.

if maximum performance levels are achieved for the performance period, 125% of Mr. Parkinson's annual salary if target performance levels are achieved for the performance period and such lesser amounts as provided in the program document. For performance periods in 2004 and 2005, Mr. Parkinson earned a bonus of not less than the target level for each performance period. On February 14, 2006, the independent directors of the Board of Directors approved Mr. Parkinson's 2005 annual bonus of \$1,941,420. On the same date, the independent directors of the Board of Directors set Mr. Parkinson's 2006 target bonus at 135% of his 2006 annual salary for the 2006 performance period.

Options and Restricted Stock. Under the agreement, Mr. Parkinson is eligible for equity awards under the Long-Term Incentive (LTI) Plan, including for calendar year 2005, an option for a minimum of 455,000 shares of company stock and a restricted stock award for a minimum of 48,750 shares. After 2005, all such awards to Mr. Parkinson shall be commensurate with his position as Chief Executive Officer as determined by the independent directors of the Board of Directors.

Benefits and Perquisites. The agreement also provides for benefits to the same extent and on the same terms as those benefits provided by the company to its other senior executives including, but not limited to, health, disability, insurance and retirement benefits. Under the agreement, if Mr. Parkinson remains employed for at least three years, his pension benefit will be determined as if he had completed an additional two years of service. If Mr. Parkinson remains employed for at least five years, his pension benefit will be determined as if he had completed an additional four years of service. Mr. Parkinson is also entitled to perquisites that are customarily provided in connection with his position.

Termination of Employment. Upon written notice, the agreement may be terminated by either Baxter or Mr. Parkinson. The agreement with Mr. Parkinson provides for termination in the event of his death, permanent disability, termination for Cause (as defined in the agreement), or Constructive Discharge (as defined in the agreement). The agreement also allows for termination by the company or by Mr. Parkinson, including in the event of a Change in Control as defined in the company's 2003 Incentive Compensation Program.

In the event of termination, Mr. Parkinson is entitled to his salary for the period ending on his termination date, payment for any unused vacation days as determined in accordance with company policy, any other payments or benefits due from the company in accordance with the terms of any employee benefit plans or arrangements, and any pension benefit earned (base benefits).

In the event of termination due to death or disability, in addition to the base benefits previously described, all restricted stock awards and stock options shall fully vest immediately, with the stock options remaining exercisable for the lesser of five years or the term of the grant. Mr. Parkinson and his family members will be entitled to 18 months (36 months in the case of death) of paid COBRA coverage. In the case of disability, Mr. Parkinson will be entitled to the payment of his salary through the commencement of any payments to him under the company's long-term disability plan.

In the event of termination of employment without Cause, or due to Constructive Discharge, Change in Control or non-renewal of the employment agreement, in addition to the base benefits, Mr. Parkinson would be eligible for an annual bonus payment for the performance period in which such termination of employment occurs. In addition, Mr. Parkinson would receive severance payments from the company equal to his annual salary in effect on the date immediately prior to the date of his termination of employment plus the target annual bonus amount for the year in which the termination occurs for a period of at least two years from his date of termination or the last day of his agreement, whichever is greater. All exercise restrictions with respect to stock options would lapse and become fully vested and fully exercisable as of the date of the termination of employment, and all restricted stock awards would fully vest immediately and all restrictions would lapse. The stock options would remain exercisable for the greater of five years after his termination date or the number of days that Mr. Parkinson was employed prior to his termination; however, in no event would the exercise period be greater than the original expiration date of the grant. Mr. Parkinson and his family members would be entitled to 18 months of paid COBRA coverage.

Non-Competition and Non-Solicitation. Mr. Parkinson has agreed that he will not, directly or indirectly, for a period of two years after the termination of his employment, render services to any competing organization in connection with any competing product within such geographic limits as the company and such competing organization are, or would be, in actual competition when such rendering of services might potentially involve the disclosure or use of confidential information or trade secrets. Similarly, Mr. Parkinson may not provide advice as to investment in a competitive business. During his employment, and for a period of two years after the termination of his employment, Mr. Parkinson may not solicit or attempt to solicit any party who is then, or during the twelve-month period prior to such solicitation was, a customer or supplier of the company, nor may Mr. Parkinson solicit, entice, persuade or induce any individual who is employed by the company or subsidiaries to terminate or refrain from renewing or extending such employment or to become employed by or enter into contractual relations with any other individual or entity other than the company.

Donation to Loyola University Chicago. As an additional condition of his employment, the company agreed to make a \$1.5 million donation to Loyola University Chicago over a three-year period. These funds will support certain capital improvements to the School of Business Administration and the development of new curriculum initiatives in the Graduate School of Business.

Audit Committee Report

Management is responsible for the preparation, presentation and integrity of Baxter's consolidated financial statements and Baxter's internal control over financial reporting. The independent registered public accounting firm of PricewaterhouseCoopers LLP (PwC) is responsible for performing an independent integrated audit of Baxter's consolidated financial statements, management's assessment of Baxter's internal control over financial reporting and the effectiveness of Baxter's internal control over financial reporting. The Audit Committee's responsibility is to monitor and oversee these processes.

In this context, the Audit Committee reports as follows:

1. The Audit Committee has reviewed and discussed with management Baxter's audited financial statements for the year ended December 31, 2005;
2. The Audit Committee has discussed with representatives of PwC the matters required to be discussed by Statement on Auditing Standards No. 61 (*Communication with Audit Committees*), as amended;
3. The Audit Committee has received the written disclosures and the letter from PwC required by Independence Standards Board Standard No. 1 (*Independence Discussions with Audit Committees*), as amended, and has discussed PwC's independence from Baxter and management with representatives of PwC; and
4. The Audit Committee also has considered whether the provision by PwC of non-audit services to Baxter is compatible with maintaining PwC's independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that Baxter's audited financial statements referred to above be included in Baxter's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 for filing with the Securities and Exchange Commission.

Pre-approval of Audit and Permissible Non-Audit Services

The Audit Committee must separately pre-approve the engagement of the independent registered public accounting firm to audit the company's consolidated financial statements. Prior to the engagement, the Audit Committee reviews and approves a list of services, including estimated fees, expected to be rendered during that year by the independent registered public accounting firm. Reports on projects and services are presented to the Audit Committee on a regular basis.

The Audit Committee has established a pre-approval policy for engaging the independent registered public accounting firm for other audit and permissible non-audit services. Under the policy, the Audit Committee has identified specific audit, audit-related, tax and forensic services that may be performed by the independent registered public accounting firm. The engagement for these services specified in the policy requires the further, separate pre-approval of the chair of the Audit Committee or the entire Audit Committee if specific dollar thresholds set forth in the policy are exceeded. Any project approved by the chair under the policy must be reported to the Audit Committee at the next meeting. Services not specified in the policy as well as the provision of internal control-related services by the independent registered public accounting firm require separate pre-approval by the Audit Committee.

All audit, audit-related, tax and other services provided by PwC in 2005 were pre-approved by the Audit Committee in accordance with its pre-approval policy.

Proposal 2 Ratification of Independent Registered Public Accounting Firm

In accordance with its charter, the Audit Committee of the Board of Directors has appointed PricewaterhouseCoopers LLP (PwC) as the independent registered public accounting firm for Baxter in 2006. The Audit Committee requests that the shareholders ratify the appointment. PwC served as the independent registered public accounting firm for Baxter in 2005. If the shareholders do not ratify the appointment of PwC, the Audit Committee will consider the selection of another independent registered public accounting firm for 2007 and future years.

Before selecting PwC, the Audit Committee carefully considered PwC's qualifications as an independent registered public accounting firm. This included a review of its performance in prior years as well as its reputation for integrity and competence in the fields of accounting and auditing. The Audit Committee's review also included matters required to be considered under rules of the Securities and Exchange Commission on auditor independence, including the nature and extent of non-audit services, to ensure that the provision of such services will not impair the independence of the auditors. The Audit Committee expressed its satisfaction with PwC in all of these respects.

One or more representatives of PwC will be present at the Annual Meeting to respond to appropriate questions and to make a statement if they so desire.

The Proxyholders intend to vote the shares represented by proxy in favor of the ratification of the appointment of PwC as the company's independent registered public accounting firm, except to the extent a shareholder votes against or abstains from voting on this proposal.

The Audit Committee of the Board of Directors recommends a vote **FOR** the ratification of the appointment of PwC as independent registered public accounting firm for Baxter in 2006.

Management Proposals
Proposal 3 Proposed Amendments to Article SIXTH of the
Restated Certificate of Incorporation Eliminating the Classified Structure
of the Board of Directors

At Baxter's Annual Meeting of Shareholders held on May 3, 2005, shareholders approved a proposal requesting that the Board of Directors adopt and implement a bylaw requiring each director to be elected annually. In the proxy statement related to the 2005 Annual Meeting, the Board undertook that if this shareholder proposal was approved at the 2005 Annual Meeting, the Board would present for a vote at the 2006 Annual Meeting an amendment to Baxter's Restated Certificate of Incorporation that, if approved, would eliminate the classified board. Accordingly, the Board of Directors has adopted resolutions approving amendments to Article SIXTH to eliminate the classified board structure and is now recommending such amendments to Baxter's shareholders.

If the proposed amendments are approved by our shareholders, the classified Board structure will be eliminated, and all directors will thereafter be elected for one-year terms at each annual meeting of shareholders. Furthermore, any director chosen as a result of a newly created directorship or to fill a vacancy on the Board of Directors will hold office until the next annual meeting of shareholders.

If the proposed amendments are not approved by shareholders, the Board of Directors will remain classified, and the four directors elected at the 2006 Annual Meeting will be elected for a three-year term expiring in 2009. All other directors will continue in office for the remainder of their full three-year terms, subject to their earlier retirement, resignation, removal or death.

The amendments to the Restated Certificate of Incorporation to implement this proposal are set forth in Appendix B, which shows the changes to Article SIXTH resulting from the amendments with deletions indicated by strike-outs and additions indicated by underlining. If approved, this proposal will become effective upon the filing of an Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware containing these amendments, which the company would cause to occur promptly after it is determined that the proposed amendments have been approved by the requisite vote of shareholders at the 2006 Annual Meeting.

Required Vote

This proposal requires the affirmative vote of at least two-thirds of the holders of Baxter Common Stock. If this amendment is approved, all of the Board members, including those voted on at the 2006 Annual Meeting, will serve until the 2007 Annual Meeting of Shareholders. Abstentions will have the effect of a vote against this proposal. Nominees such as banks and brokers holding shares on behalf of beneficial owners who do not provide voting instructions may vote such shares with respect to this proposal.

The Board of Directors recommends that the shareholders vote **FOR** the amendments to Article SIXTH to eliminate the classified structure of the Board of Directors and provide for the annual election of directors.

Proposal 4 Proposed Amendments to Article FIFTH of the
Restated Certificate of Incorporation Reducing the
Minimum and Maximum Number of Directors

Baxter's Restated Certificate of Incorporation currently provides that the number of directors that shall constitute the Board of Directors will not be less than twelve or more than twenty. The Board of Directors proposes to amend Article FIFTH to reduce the minimum number of directors from twelve to nine. The Board also proposes to amend Article FIFTH to reduce the maximum number of directors from twenty to seventeen in order to maintain the same relative range of directors as contained in the existing Restated Certificate of Incorporation. The Board of Directors has unanimously adopted resolutions

approving such amendments, declaring their advisability and recommending such amendments to our shareholders.

The Board believes these amendments are in the best interest of Baxter and its shareholders because they will provide the Board with the flexibility to act in a timely manner in the event of unexpected resignations or other vacancies in the Board. The Board of Directors currently is, and historically has been, composed of twelve directors. If one director were to become unable to serve for reasons outside of Baxter's control, Baxter would not be operating in accordance with the terms of its certificate of incorporation until a new director was appointed. Reducing the minimum number of directors to nine would be consistent with Section 141 of the Delaware General Corporation Law, which only requires a minimum number of one director. A vacancy may be created by many factors outside of Baxter's control such as the unexpected death or prolonged illness of a director. In addition, a vacancy may be created by the unexpected resignation of a director. For example, if a director were to accept employment with an organization that would cause the director to no longer be independent from Baxter, best practices would require the director to offer to resign at the effective time of his or her employment rather than waiting until the next annual meeting. Reducing the minimum number of directors protects Baxter in the event of such unexpected vacancies on the Board.

The amendments to the Restated Certificate of Incorporation to implement this proposal are set forth in Appendix C, which shows the changes to Article FIFTH resulting from the amendments with deletions indicated by strike-outs and additions indicated by underlining. If approved, this proposal will become effective upon the filing of an Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware containing these amendments, which the company would cause to occur promptly after it is determined that the proposed amendments have been approved by the requisite vote of shareholders at the 2006 Annual Meeting.

Required Vote

Approval of this proposal requires the affirmative vote of a majority of the outstanding shares of Baxter Common Stock. Abstentions will have the effect of a vote against the approval of this proposal. Nominees such as banks and brokers holding shares on behalf of beneficial owners who do not provide voting instructions may vote such shares with respect to this proposal.

The Board of Directors recommends that the shareholders vote **FOR** the amendments to Article FIFTH to reduce the minimum and maximum number of directors to nine and seventeen, respectively.

Shareholder Proposal

Proposal 5 Shareholder Proposal Relating to the Redemption of the Shareholder Rights Plan

Baxter has been advised that John Chevedden, as representative for Charles Miller, 23 Park Circle, Great Neck, NY 10024, owner of 1000 shares of Baxter Common Stock, intends to present the following resolution at the Annual Meeting. The following shareholder proposal contains assertions about Baxter that we believe are incorrect. Rather than refuting these inaccuracies, however, the Board has recommended a vote against this proposal for broader policy reasons as set forth below.

Shareholder Proposal

5 - Redeem or Vote Poison Pill

RESOLVED, Shareholders request that our Board redeem any current or future poison pill, unless such poison pill is subject to a shareholder vote as a separate ballot item, to be held as soon as may be practicable. Charter or bylaw inclusion if practicable.

Shareholder s Statement Supporting the Proposed Resolution

Thus there would be no loophole to allow exceptions to override the a shareholder vote as soon as practicable. Since a vote would be as soon as practicable, it accordingly could take place within 4-months of the adoption of a new poison pill. To give our board valuable insight on our views of their poison pill, a vote would occur even if our board had promptly terminated a new poison pill because our board could turnaround and readopt their poison pill.

58% yes-vote

Twenty (20) shareholder proposals on this topic won an impressive 58% average yes-vote in 2005 through late-September. The Council of Institutional Investors www.cii.org formally recommends adoption of this proposal topic. Yet in 2005 our management was still protected by a poison pill with a 15% trigger.

It is important to take one forward step in our corporate governance and adopt the above RESOLVED statement since there are questions on whether our 2005 governance was focused in the right direction. For example are the most qualified candidates being selected as new directors.

We could not locate any previous public corporate board experience for our new director Mr. Devitt Qualification concern.

Another new director Mr. Hellman had public board experience yet it was on boards rated D or F by The Corporate Library (TCL) <http://www.thecorporatelibrary.com/> a pro-investor research firm:

Also there is a question on why Ms. Fosler, who has a non-director link to our company, was on our key Audit Committee where impeccable independence is a priority. Especially when our company s accounting was rated F by The Corporate Library.

Pills Entrench Current Management

Poison pills . . . prevent shareholders, and the overall market, from exercising their right to discipline management by turning it out. They entrench the current management, even when it s doing a poor job. They water down shareholders votes.

Board of Directors Statement Regarding Shareholder Resolution

The Board has continued to maintain a shareholder rights plan because it believes, based on its collective experience and the advice of outside experts, that the plan protects shareholders interests. A shareholder rights plan is integral to the Board s ability to fulfill its duties to shareholders and decisions concerning shareholder rights plans properly belong to the Board. Accordingly, the Board recommends a vote **AGAINST** the proposal for the reasons discussed below.

The purpose of Baxter s shareholder rights plan is to provide protection from abusive and coercive tactics that frequently occur in takeover attempts. The shareholder rights plan is designed to ensure that Baxter s shareholders receive fair and equal treatment in the event of an unsolicited attempt to take over Baxter and to guard against partial tender offers and other abusive takeover tactics designed to gain control of Baxter without paying all of the shareholders the fair value of their shares. The shareholder rights plan does not prevent potential purchasers from making offers, nor is it a deterrent to a shareholder s initiation of a proxy contest. Instead, it encourages any potential purchaser to negotiate directly with the Board and thus strengthens the Board s bargaining position vis-a-vis such bidder. In addition, the shareholder rights plan gives the Board a greater period of time within which it can review a takeover proposal in a careful

and rational manner. The Board gains the opportunity and additional time to determine if an offer reflects the full value of Baxter and is fair to all shareholders, and if the offer is not fair, to reject the offer or to seek an alternative that is fair.

The Board has a fiduciary duty to act in the best interest of the shareholders. The current Board is composed entirely of independent directors, except for the Chairman and Chief Executive Officer. In the event of a takeover attempt triggering the shareholder rights plan, the Board is in the best possible position to be free from self-interest in discharging its fiduciary duty to determine whether the proposed offer is in the best interests of shareholders.

The economic benefits of a shareholder rights plan have been validated in several studies. A February 2004 Corporate Governance Study commissioned by Institutional Shareholder Services (ISS) revealed that companies with strong takeover defenses including shareholder rights plans achieved: higher shareholder returns over three-, five- and ten-year periods; higher return on equity; higher return on sales; higher net profit margins; higher dividend payouts; higher dividend yields; and higher interest coverage and operating cash flow to liability ratios.

These recent findings are consistent with what studies about shareholder rights plans have historically revealed. Georgeson & Company Inc. a nationally recognized proxy solicitor and investor relations firm retained to aid in our proxy solicitation analyzed takeover data between 1992 and 1996 to determine whether rights plans had any measurable impact on stockholder value. Their findings were as follows:

Premiums paid to acquire target companies with rights plans were on average eight percentage points higher than premiums paid to target companies without rights plans;

Rights plans contributed an additional \$13 billion in shareholder value during the last five years and shareholders of acquired companies without rights plans gave up \$14.5 billion in potential premiums;

The presence of a rights plan did not increase the likelihood of withdrawal of a friendly takeover bid nor the defeat of a hostile one; and

Rights plans did not reduce the likelihood of a company becoming a takeover target.

Georgeson's two pioneering Poison Pill Impact Studies in 1998 and a 1995 report from JP Morgan reached the same conclusions. For these reasons, plans similar to our shareholder rights plan have been adopted by a majority of the companies in the S&P 500 index.

Redeeming the rights would remove an important tool that the Board now has for the protection of shareholders. The decision to redeem the rights should be made only by the Board in the context of a specific takeover proposal. To do so in the absence of such a proposal at this time would be to deny Baxter's shareholders protection in the event of an unsolicited offer and potentially reduce the long-term value for all shareholders.

This proposal requires the approval of holders of a majority of the shares voting at the Annual Meeting. Because the proposal is only a recommendation, however, its approval would not effectuate the changes it references. Redemption of the existing rights under the shareholder rights plan would require Board action. Implementation of a requirement for shareholder approval of future shareholder rights plans would require either Board action or a shareholder amendment of either Baxter's Restated Certificate of Incorporation or Bylaws, which in turn requires the affirmative vote of the holders of a majority of the issued and outstanding shares of Baxter Common Stock.

The Board recommends a vote **AGAINST** redemption of the shareholder rights plan.

Shareholder Proposals for the 2007 Annual Meeting

Any shareholder who intends to present a proposal at Baxter's annual meeting to be held in 2007, and who wishes to have a proposal included in Baxter's proxy statement for that meeting, must deliver the proposal to the Corporate Secretary. All proposals must be received by the Corporate Secretary no later than November 20, 2006 and must satisfy the rules and regulations of the Securities and Exchange Commission to be eligible for inclusion in the proxy statement for that meeting.

Shareholders may present proposals that are proper subjects for consideration at an annual meeting, even if the proposal is not submitted by the deadline for inclusion in the proxy statement. To do so, the shareholder must comply with the procedures specified by Baxter's Bylaws. The Bylaws require all shareholders who intend to make proposals at an annual meeting of shareholders to submit their proposals to the Corporate Secretary not fewer than 60 and not more than 90 days before the anniversary date of the previous year's annual meeting.

To be eligible for consideration at the 2007 annual meeting, proposals which have not been submitted by the deadline for inclusion in the proxy statement and any nominations for director must be received by the Corporate Secretary between February 8 and March 10, 2007. This advance notice period is intended to allow all shareholders an opportunity to consider all business and nominees expected to be considered at the meeting.

All submissions to, or requests from, the Corporate Secretary should be made to Baxter's principal executive offices at One Baxter Parkway, Deerfield, Illinois 60015.

Cost of Proxy Solicitation

Baxter will bear the costs of soliciting proxies. Copies of proxy solicitation materials will be mailed to shareholders, and employees of Baxter may communicate with shareholders to solicit their proxies. Banks, brokers and others holding stock in their names, or in the names of nominees, may request and forward copies of the proxy solicitation material to beneficial owners and seek authority for execution of proxies, and Baxter will reimburse them for their expenses in doing so at the rates approved by the New York Stock Exchange.

In addition, Baxter has retained Georgeson Shareholder Communications Inc., 17 State Street, New York, New York 10004 to assist in the distribution and solicitation of proxies. Baxter has agreed to pay Georgeson a fee of \$10,000 plus expenses for these services.
