### BRAINWORKS VENTURES, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### NOTE A - THE COMPANY AND BASIS OF PRESENTATION

Brainworks Ventures, Inc., a Nevada corporation ("BWV"), together with its wholly-owned subsidiaries, Brainworks Ventures Labs, Inc ("BVL") and Executive Ventures Partners, Inc. ("EVP"), referred to herein collectively as the "Company", develops, invests in and operates internet and other technology companies located primarily in the southeastern United States.

On February 14, 2001, BWV completed the acquisition of BVL, which is a venture development company that provides business consulting services to early stage technology companies. On May 8, 2001 BWV acquired EVP, a consulting company that specializes in the development and implementation of corporate venturing programs. EVP's target clients are Fortune 2000 companies and government research laboratories. EVP works with clients to identify undervalued assets that can be commercialized and provides the resources and management talent to build a business around those assets. EVP also works with businesses to establish corporate venturing programs that manage corporate venture capital funds designed to make strategic investments.

The accompanying unaudited, consolidated, financial statements include the accounts of the Company and its wholly-owned subsidiaries EVP and BVL from their respective dates of acquisition. All intercompany balances and transactions have been eliminated. These unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and in accordance with the instructions to Form 10-QSB for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, such statements include all adjustments (consisting of normally recurring accruals) considered necessary for fair presentation. Operating results for the six-month period ended September 30, 2001 are not necessarily indicative of the results that may be expected for the year ended March 31, 2002. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's 2001 Annual Report on Form 10-KSB.

The Company has sustained a significant operating loss for the six-month period ended September 30, 2001 and the Company's operations have generated negative cash flow. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company has implemented cost controls to reduce operating expenses. Management's plans include raising additional capital and/or debt financing or the sale of the Company. If the company raises additional funds by issuing additional equity securities, then the percentage ownership of the Company's current stockholders will be diluted. There is no assurance that such capital and/or debt financing will be available on terms acceptable to the Company. The consolidated financial statements do not include any adjustments that might result from the outcome of these uncertainties.

#### NET LOSS PER SHARE

Basic and diluted loss per share for the three-month and six-month periods ended

## Edgar Filing: BRAINWORKS VENTURES INC - Form 10QSB

September 30, 2001 and September 30, 2000 is computed based on the weighted average number of common shares outstanding. Common shares issuable on the exercise of options are not included in the calculation of net loss per share because their effect would be antidilutive.

### NOTE B - ACQUISITION

On May 8, 2001, BWV acquired EVP. All of the outstanding common stock of EVP was exchanged for 500,000 shares of BWV's common stock with a fair value of \$554,000. The stock issued in the acquisition includes a provision for "piggy-back" registration rights. Certain shareholders of EVP were also shareholders or directors of the Company prior to the acquisition and received 390,000 shares of the total shares exchanged. The transaction was accounted for as a purchase pursuant to Accounting Principle Board No. 16, Accounting for Business Combinations.

6

The assets acquired, liabilities assumed and the cost of the acquisition were as follows:

Assets acquired:	
Current assets, principally accounts and unbilled receivables	\$122,000
Fixed assets	5,000
Intangible assets	497,000
	-----
	\$624,000
	=====
Liabilities assumed:	
Accounts payable and accrued liabilities	\$ 35,000
Due to stockholder	35,000
Common stock issued to EVP stockholders at fair value	554,000
	-----
	\$624,000
	=====

In addition, the Company incurred acquisition costs of approximately \$78,000 in connection with the acquisition, which costs are being amortized over a 36-month period.

The following unaudited pro forma condensed statements of operations assume the Company's acquisition of EVP occurred on April 1, 2001. In the opinion of management, all adjustments necessary to present fairly such unaudited pro forma statements have been made.

	Six months ended September 30,

	-----	-----
Revenue	\$ 487,000	\$ 16,000,000

Such forward-looking statements reflect management's beliefs and assumptions and are based on information currently available to management. The forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of Brainworks Ventures, Inc. to differ materially from those expressed or implied in such statements. There can be no assurance that such factors or other factors will not affect the accuracy of such forward-looking statements

and a non-cash compensation charge of \$787,000 related to the amortization of stock options granted to consultants and advisors. Selling, general and administrative expenses for the six months period ended September 30, 2000 included a non-cash compensation charge of \$1,521,000 related to the stock options granted for services.

### LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2001, working capital was a \$4,000 deficit compared to \$653,000 at March 31, 2001. This decrease was principally due to cash used in operations resulting from the current period loss.

For the six months ended September 30, 2001, net cash used in operating activities was \$352,000 and net cash used in investing activities was \$78,000. Net cash provided by financing activities was \$227,000. Current assets as of September 30, 2001 was \$565,000, a decrease of \$391,000 from the March 31, 2001 and a decrease of \$782,000 from September 30, 2000. Total assets as of September 30, 2001 of \$3,655,000 represents a decrease of \$309,000 in total assets from the March 31, 2001 and an increase in total assets from September 30, 2000 of \$2,103,000. This increase in total assets was primarily due to the acquisition by the Company of BVL and EVP, which acquisitions occurred on February 14, 2001 and May 8, 2001, respectively.

While management believes that these acquisitions should assist the Company in pursuing its business direction, management's plans included seeking additional capital or debt financing or the possible sale of the Company.
