AVATAR HOLDINGS INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Unaudited)
September 30, 2007

(Dollars in thousands except share and per share data)

Basis of Financial Statement Presentation and Summary of Significant Accounting Policies

The accompanying consolidated financial statements include the accounts of Avatar Holdings Inc. and all subsidiaries, partnerships and other entities in which Avatar Holdings Inc. (Avatar , we , us or our) has a controlling interest. Our investments in unconsolidated joint ventures in which we have less than a controlling interest are accounted for using the equity method. All significant intercompany accounts and transactions have been eliminated in consolidation.

The consolidated balance sheets as of September 30, 2007 and December 31, 2006, and the related consolidated statements of income for the nine and three months ended September 30, 2007 and 2006 and the consolidated statements of cash flows for the nine months ended September 30, 2007 and 2006 have been prepared in accordance with United States generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by United States generally accepted accounting principles for complete financial statement presentation. In the opinion of management, all adjustments necessary for a fair presentation of such financial statements have been included. Such adjustments consisted only of normal recurring items. Interim results are not necessarily indicative of results for a full year.

The preparation of the consolidated financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates. Due to Avatar's normal operating cycle being in excess of one year, we present unclassified balance sheets.

The consolidated balance sheet as of December 31, 2006 was derived from audited consolidated financial statements included in our 2006 Annual Report on Form 10-K but does not include all disclosures required by United States generally accepted accounting principles. These consolidated financial statements should be read in conjunction with our December 31, 2006 audited consolidated financial statements included in our 2006 Annual Report on Form 10-K and the notes to the consolidated financial statements included therein.

Reclassifications

Certain 2006 financial statement items have been reclassified to conform to the 2007 presentation. We reclassified from Land and other inventories to Property and equipment, net on the accompanying Consolidated Balance Sheet as of December 31, 2006, capitalized costs of \$8,145 and \$4,579, respectively, related to (1) the Parkway (as defined below) and (2) additional amenities under construction, to conform with the presentation as of September 30, 2007. As a result of these reclassifications on the Consolidated Balance Sheet, \$4,696 of capital expenditures related to the Parkway and additional amenities were reclassified from Operating Activities to Investing Activities on the accompanying Consolidated Statement of Cash Flows for the nine months ended September 30, 2006. These reclassifications had no impact on reported net income.

Impairment of Long-Lived Assets

In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* , we carry long-lived assets at the lower of the carrying amount or fair value. We evaluate an asset for impairment when indicators of impairment are present. Impairment is evaluated by estimating the sum of future undiscounted cash flows against the carrying amount of the assets. If the sum of

Table of Contents**Notes to Consolidated Financial Statements (dollars in thousands except share and per share data) (Unaudited)**
continued**Impairment of Long-Lived Assets continued**

future undiscounted cash flows is less than the carrying amount of the assets, then the assets are not recoverable and an impairment loss is recognized. Fair value, for purposes of calculating impairment, is measured based on estimated future cash flows, discounted at a market rate of interest. During the first quarter of 2007, the continued deterioration of market conditions at a community in Florida in which we and other builders are selling homes and the increase of our speculative inventory at this community caused us to evaluate the carrying amount of the long-lived assets, consisting of homes completed and under construction, for impairment. Based on this evaluation, we recognized during the first quarter of 2007 an impairment loss of \$2,000 on the carrying value of the inventory in this community. This impairment loss is included under the caption Real Estate Expenses in the consolidated statement of income for the nine months ended September 30, 2007 and is included in the Primary Residential reportable segment in accordance with SFAS No. 131 *Disclosure about Segments of an Enterprise and Related Information*. During the third quarter of 2007, the continued deterioration of conditions in the Florida and Arizona housing markets caused us to evaluate the carrying value of our long-lived assets in several of our communities. Based on this evaluation, no additional impairment losses have been recognized.

Land and Other Inventories

Inventories consist of the following:

	September 30, 2007 (Unaudited)	December 31, 2006
Land developed and in process of development	\$ 244,841	\$ 220,403
Land held for future development or sale	95,623	96,214
Homes completed or under construction	74,552	126,482
Other	1,029	726
	\$ 416,045	\$ 443,825

During the nine and three months ended September 30, 2007, pre-tax profits from sales of commercial, industrial and other land were \$16,116 and \$8,979, respectively, on revenues of \$19,136 and \$10,087, respectively. During the nine months ended September 30, 2007, pre-tax profits from sales of commercial and industrial land were \$15,046 on aggregate revenues of \$17,768. Pre-tax profits on sales of other land during the nine months ended September 30, 2007 were \$1,070 on aggregate revenues of \$1,368. During the three months ended September 30, 2007, we realized pre-tax profits of \$7,886 on revenues of \$8,946 from sales of commercial and industrial land. Pre-tax profits on sales of other land during the three months ended September 30, 2007 were \$1,093 on aggregate revenues of \$1,141. During the nine and three months ended September 30, 2006, pre-tax profits from sales of commercial, industrial and other land were \$33,676 and \$5,487, respectively, on revenues of \$44,810 and \$5,863, respectively. During the nine months ended September 30, 2006, pre-tax profits on sales of commercial and industrial land were \$28,443 on aggregate sales of \$30,657. Pre-tax profits on sales of other land during the nine months ended September 30, 2006 were \$906 on aggregate sales of \$968. During the three months ended September 30, 2006, we realized pre-tax profits of \$5,169 on revenues of \$5,524 from sales of commercial and industrial land. Pre-tax profits on sales of other land during the three months ended September 30, 2006 were \$318 on aggregate sales of \$339. We also realized, during the nine months ended September 30, 2006, pre-tax profits of \$4,327 from the collection of \$13,185 on a promissory note and accrued interest from the sale of our equity interest in the Regalia Joint Venture which was sold on June 30, 2005.

See Financial Information Relating to Industry Segments below.

Table of Contents

Notes to Consolidated Financial Statements (dollars in thousands except share and per share data) (Unaudited)
continued

Property and Equipment, net

The increase in property and equipment, net as of September 30, 2007 compared to December 31, 2006 is primarily due to capitalized expenditures incurred during the nine months ended September 30, 2007 related to the Poinciana Parkway (the Parkway) and amenities under construction.

In December 2006, we entered into agreements with Osceola and Polk Counties in Florida for us to develop and construct a 9.66 mile four-lane road in Osceola and Polk Counties, to be known as the Parkway. It will include a 4.15 mile segment to be operated as a private toll road. We will pay the costs associated with the right-of-way acquisition, development and construction of the Parkway. Except for the toll road, the Parkway will be owned, maintained and operated by the Counties upon completion. We will own the private toll road, and under our agreements we have the right to sell it to a third party together with our rights to operate the toll road. Under our agreements with the Counties, the Parkway was to be complete by October 31, 2008, subject to delays beyond our control, including permitting delays. We have notified the counties that the completion of construction will be delayed at least until August 31, 2009 because we still have not obtained all necessary permits to construct the Parkway. It is our understanding that the delays that we have encountered are contemplated by the agreements and entitle us to the extension.

We are working to resolve concerns about the environmental impact of the Parkway with environmental groups and governmental agencies as we seek to secure the remaining permits necessary to construct the Parkway. Our estimates of the cost to complete the Parkway take into account permit conditions that may be imposed.

Our preliminary estimates of our right-of-way acquisition, development and construction costs for the Parkway approximate \$140,000 to \$200,000. However no assurance of the ultimate amount can be given at this stage. As of September 30, 2007, \$30,087 has been expended.

Notes, Mortgage Notes and Other Debt

On March 30, 2004, we issued \$120,000 aggregate principal amount of 4.50% Convertible Senior Notes due 2024 (the 4.50% Notes) in a private, unregistered offering, subsequent to which we filed, for the benefit of the 4.50% Notes holders, a shelf registration statement covering resales of the 4.50% Notes and the shares of our common stock issuable upon the conversion of the 4.50% Notes. Interest is payable semiannually on April 1 and October 1. The 4.50% Notes are senior, unsecured obligations and rank equal in right of payment to all of our existing and future unsecured and senior indebtedness. However, the 4.50% Notes are effectively subordinated to all of our existing and future secured debt to the extent of the collateral securing such indebtedness, and to all existing and future liabilities of our subsidiaries.

Each \$1 in principal amount of the 4.50% Notes is convertible, at the option of the holder, at a conversion price of \$52.63, or 19.0006 shares of our common stock, upon the satisfaction of one of the following conditions: a) during any calendar quarter (but only during such calendar quarter) commencing after June 30, 2004 if the closing sale price of our common stock for at least 20 trading days in a period of 30 consecutive trading days ending on the last trading day of the preceding calendar quarter is more than 120% of the conversion price per share of common stock on such last day; or b) during the five business day period after any five-consecutive-trading-day period in which the trading price per \$1 principal amount of the 4.50% Notes for each day of that period was less than 98%

Table of Contents**Notes to Consolidated Financial Statements (dollars in thousands except share and per share data) (Unaudited) continued****Notes, Mortgage Notes and Other Debt continued**

of the product of the closing sale price for our common stock for each day of that period and the number of shares of common stock issuable upon conversion of \$1 principal amount of the 4.50% Notes, provided that if on the date of any such conversion that is on or after April 1, 2019, the closing sale price of Avatar's common stock is greater than the conversion price, then holders will receive, in lieu of common stock based on the conversion price, cash or common stock or a combination thereof, at our option, with a value equal to the principal amount of the 4.50% Notes plus accrued and unpaid interest, as of the conversion date. The closing price of Avatar's common stock exceeded 120% (\$63.156) of the conversion price for 20 trading days out of 30 consecutive trading days as of the last trading day of the fourth quarter of 2006, as of the last trading day of the first quarter of 2007 and as of the last trading day of the second quarter of 2007. Therefore, the 4.50% Notes became convertible for the quarter beginning January 1, 2007, for the quarter beginning April 1, 2007 and for the quarter beginning July 1, 2007. During the third quarter of 2007, the closing price of Avatar's common stock did not exceed 120% (\$63.156) of the conversion price for 20 trading days out of 30 consecutive trading days; therefore, the 4.50% Notes are not convertible for the quarter beginning October 1, 2007. During 2007, \$200 principal amount of the 4.50% Notes have been converted into 3,800 shares of Avatar common stock.

We may, at our option, redeem for cash all or a portion of the 4.50% Notes at any time on or after April 5, 2011. Holders may require us to repurchase the 4.50% Notes for cash on April 1, 2011, April 1, 2014 and April 1, 2019; or in certain circumstances involving a designated event, as defined in the indenture for the 4.50% Notes, holders may require us to purchase all or a portion of their 4.50% Notes. In each case, we will pay a repurchase price equal to 100% of their principal amount, plus accrued and unpaid interest, if any.

In September 2005, we entered into a Credit Agreement and a Guaranty Agreement for a \$100,000 (expandable up to \$175,000), four-year senior unsecured revolving credit facility (the Unsecured Credit Facility), by and among our wholly-owned subsidiary, Avatar Properties Inc. (as Borrower), Wachovia Bank, National Association (as Administrative Agent and Lender), and certain other financial institutions as lenders. Payments of all amounts due under the Unsecured Credit Facility are guaranteed by Avatar Holdings Inc. pursuant to the Restated Guaranty Agreement dated as of October 21, 2005. Interest on borrowings under the Unsecured Credit Facility ranges from LIBOR plus 1.75% to 2.25%. Our borrowing rate under the Unsecured Credit Facility was 6.87% as of September 30, 2007.

The total amount of the Unsecured Credit Facility, as amended, is \$125,000; however, so long as no default or event of default has occurred and is continuing, increases may be requested, subject to lender approval, up to \$175,000. This Unsecured Credit Facility, as amended, includes a \$7,500 swing line commitment and has a \$50,000 sublimit for the issuance of standby letters of credit. The Unsecured Credit Facility contains customary representations, warranties and covenants limiting liens, guaranties, mergers and consolidations, substantial asset sales, investments and loans. In addition, the Unsecured Credit Facility contains covenants to the effect that we (i) will maintain a minimum consolidated tangible net worth (as defined in the Unsecured Credit Facility), (ii) shall maintain an adjusted EBITDA/debt service ratio (as defined in the Unsecured Credit Facility) of not less than 2.75 to 1.0, (iii) will not permit the leverage ratio (as defined in the Unsecured Credit Facility) to exceed 2.0 to 1.0, and (iv) the sum of the net book value of unentitled land, entitled land, land under development and finished lots shall not exceed 150% of consolidated tangible net worth. Borrowings under the Unsecured Credit Facility may be limited based on the amount of borrowing base available. We are in compliance with these covenants as of September 30, 2007. The Unsecured Credit Facility also contains a covenant whereby the sum of speculative homes and models cannot exceed 25% of the aggregate number of unit sales for the trailing twelve month period. As of September 30, 2007, we exceeded this limitation. However, during the fourth quarter of 2006, we obtained a waiver of this requirement through the entirety of 2007 and during the third quarter of 2007, we obtained an extension of this waiver through December 31, 2008.

Table of Contents**Notes to Consolidated Financial Statements (dollars in thousands except share and per share data) (Unaudited)**
continued**Notes, Mortgage Notes and Other Debt continued**

The maturity date of the Unsecured Credit Facility is September 20, 2010. As of September 30, 2007, we had no borrowings outstanding under the Unsecured Credit Facility, had issued letters of credit totaling \$22,348 and had \$102,652 in availability for borrowing under the Unsecured Credit Facility, all of which we could have borrowed without violating any of our debt covenants.

We made interest payments of \$3,572 and \$4,023 for the nine months ended September 30 2007 and 2006, respectively. Interest costs incurred and capitalized for the nine months ended September 30, 2007 and 2006, respectively, were \$5,516 and \$5,891.

Warranty Costs

Warranty reserves for houses are established to cover potential costs for materials and labor with regard to warranty-type claims to be incurred subsequent to the closing of a house. Reserves are determined based on historical data and other relevant factors. We may have recourse against subcontractors for claims relating to workmanship and materials. Warranty reserves are included in Accrued and Other Liabilities in the consolidated balance sheets.

During the nine and three months ended September 30, 2007 and 2006 changes in the warranty reserve consisted of the following (unaudited):

	Nine Months		Three Months	
	2007	2006	2007	2006
Accrued warranty reserve, beginning of period	\$ 2,319	\$ 1,616	\$ 1,649	\$ 1,874
Estimated warranty expense	1,458	2,882	353	1,052
Amounts charged against warranty reserve	(2,589)	(2,512)	(814)	(940)
Accrued warranty reserve, end of period	\$ 1,188	\$ 1,986	\$ 1,188	\$ 1,986

Earnings Per Share

We present earnings per share in accordance with SFAS No. 128, *Earnings Per Share*. Basic earnings per share is computed by dividing earnings available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of Avatar.

The weighted average number of shares outstanding in calculating basic earnings per share includes the issuance of 111,981 and 9,194 shares of our common stock for the nine and three months ended September 30, 2007, respectively, due to the exercise of stock options, restricted stock units, stock units and conversion of 4.50% Notes. The weighted average number of shares outstanding in calculating basic earnings per share includes the issuance of 14,273 and 0 shares of our common stock for the nine and three months ended September 30, 2006, respectively, due to the exercise of stock options, restricted stock units and stock units.

Table of Contents**Notes to Consolidated Financial Statements (dollars in thousands except share and per share data) (Unaudited)**

Repurchase and Exchange of Common Stock

During the nine and three months ended September 30, 2007, we repurchased \$965 of our common stock representing 19,409 shares of our common stock under previous authorizations by the Board of Directors to make purchases of common stock and/or the 4.50% Notes from time to time, in the open market, through privately negotiated transactions or otherwise, depending on market and business conditions and other factors. We did not repurchase any of the 4.50% Notes. As of September 30, 2007, the remaining authorization is \$14,864.

Comprehensive Income

Net income and comprehensive income are the same for the nine and three months ended September 30, 2007 and 2006.

Share-Based Payments and Other Executive Compensation

The Amended and Restated 1997 Incentive and Capital Accumulation Plan (2005 Restatement), as amended, (the Incentive Plan) provides that stock options, including incentive stock options and non-qualified stock options; stock appreciation rights; stock awards; performance-conditioned stock awards (restricted stock units); and stock units may be granted to officers, employees and directors of Avatar. The exercise prices of stock options may not be less than the market value of our common stock on the date of grant. Stock option awards under the Incentive Plan generally expire 10 years after the date of grant.

As of September 30, 2007, an aggregate of 1,197,648 shares of our Common Stock, subject to certain adjustments, were reserved for issuance under the Incentive Plan, which represents an aggregate of 707,877 options and stock units granted and 489,771 shares available for grant, including stock awards under earnings participation award agreements with certain executive officers.

Table of Contents**Notes to Consolidated Financial Statements (dollars in thousands except share and per share data) (Unaudited)**
continued**Share-Based Payments and Other Executive Compensation continued**

Compensation expense related to the stock option and restricted stock unit awards during the nine months ended September 30, 2007 and 2006 was \$3,073 and \$2,342, respectively, of which \$215 and \$215, respectively, related to stock options and \$2,857 and \$2,127, respectively, related to restricted stock units. Compensation expense related to stock option and restricted stock unit awards during the three months ended September 30, 2007 and 2006 was \$1,288 and \$777, respectively, of which \$72 and \$72 related to stock options and \$1,215 and \$705, respectively, related to restricted stock units. During the nine months ended September 30, 2007, we granted 30,520 restricted stock units which have a weighted average grant date fair value of \$77.86 per share. During the nine months ended September 30, 2006, we granted 3,200 restricted stock units which have a weighted average grant date fair value of \$57.54 per share. No stock options were granted during the nine months ended September 30, 2007 and 2006.

As of September 30, 2007, there was \$7,729 of unrecognized compensation expense related to unvested restricted stock units and unvested stock options, of which \$7,657 relates to restricted stock units and \$72 relates to stock options. That expense is expected to be recognized over a weighted-average period of 1.9 years.

During March 2003, we entered into earnings participation award agreements with certain executive officers providing for stock awards relating to achievement of performance goals. These agreements were amended and restated as of April 15, 2005 and further amended and restated as of December 26, 2006. As amended and restated, the stock award entitles the executives to receive a number of shares of our Common Stock having a fair market value (as defined) equal to a percentage of the excess of actual gross profit (as defined) from January 1, 2003 through December 31, 2007 over minimum levels established. The amendment on December 26, 2006 provides for the issuance of the stock award on two separate dates as opposed to a single issuance date as previously provided. The first date of issuance of the stock award is based on Avatar's financial results through September 30, 2007 and will occur in the fourth quarter of 2007. The second date of issuance of the stock award, which is expected to occur during the first quarter of 2008, is based on Avatar's financial results through December 31, 2007, provided that the excess of actual gross profit (as defined) through December 31, 2007 exceeds the actual gross profit (as defined) through September 30, 2007. However, if the calculation of the stock award based on results through December 31, 2007 is less than the value determined for the first date of issuance, then repayment in cash will be required by the executive in an amount equal to the difference of such amounts. As of September 30, 2007, because the excess of actual gross profit (as defined) was known, the number of shares to become issuable based on the fair market value (as defined) of our Common Stock as of September 30, 2007 became estimatable. During the three months ended September 30, 2007, we reversed compensation expense previously recognized of \$930 to adjust the amount of the stock award to the estimated number of shares as of September 30, 2007, in accordance with SFAS No. 123(R). The reduction of compensation expense was a result of the decline of our stock price during the third quarter of 2007 attributable to this stock award. Consequently, for the nine and three months ended September 30, 2007, there was negative compensation expense attributable to the stock award of \$359 and \$930, respectively. Compensation expense related to the stock awards of \$5,405 and \$1,729 was recognized for the nine and three months ended September 30, 2006, respectively. The income tax benefit was reduced in the consolidated statements of income during the nine and three months ended September 30, 2007 for these awards by \$136 and \$353, respectively. The income tax benefit recognized in the consolidated statements of income for the same periods in 2006 for these awards was \$2,054 and \$657, respectively.

Table of Contents**Notes to Consolidated Financial Statements (dollars in thousands except share and per share data) (Unaudited)**
continued**Income Taxes**

The exercise and issuance of restricted stock units and stock options for the nine months ended September 30, 2007 generated additional income tax benefits of \$1,897 which is reflected as an increase to additional paid-in capital.

Income tax expense was provided for at an effective tax rate of 38.0% and 52.9% for the nine and three months ended September 30, 2007, respectively, compared to 36.2% and 39.2% for the nine and three months ended September 30, 2006, respectively. The variance in the effective tax rate for the three months ended September 30, 2007 as compared to the federal and state statutory rate of 38% is primarily due to revisions made to the expected income tax expense for the entire fiscal year 2007. The variance in the effective tax rate for the nine months ended September 30, 2006 as compared to the federal and state statutory rate of 38% is primarily attributable to a reduction to the valuation allowance for deferred tax assets of \$2,086.

We made income tax payments of approximately \$22,850 and \$59,350 for the nine months ended September 30, 2007 and 2006, respectively.

On January 1, 2007, we adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

Based on our evaluation of tax positions, we have concluded that there are no significant uncertain tax positions requiring recognition in our financial statements. Our evaluation was performed for the open tax years ended December 31, 2003, 2004, 2005 and 2006 which remain subject to examination and adjustment by major tax jurisdictions as of September 30, 2007. FIN 48 did not have an impact on our financial position and results of operations.

Any interest or penalties that have been assessed in the past have been minimal and immaterial to our financial results. In the event we are assessed any interest or penalties in the future, we plan to include them in our financial statements as income tax expense.

Investments in Unconsolidated Joint Ventures

The FASB issued Interpretation No. 46(R) (FIN 46(R)) (which further clarified and amended FIN 46, *Consolidation of Variable Interest Entities*), which requires the consolidation of entities in which an enterprise absorbs a majority of the entity's expected losses, receives a majority of the entity's expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity.

As of September 30, 2007, we own an equity interest in a joint venture formed for the acquisition and/or development of land in which we do not have a controlling interest. This entity meets the criteria of VIEs under FIN 46(R). We evaluated the impact of FIN 46(R) as it relates to this joint venture and determined that we are not the primary beneficiary since we are not the entity that will absorb a majority of the losses and/or receive a majority of the expected residual returns (profits). Therefore, this joint venture is recorded using the equity method of accounting. Our investment in this entity as of September 30, 2007 and December 31, 2006 is the amount invested

Table of Contents**Notes to Consolidated Financial Statements (dollars in thousands except share and per share data) (Unaudited) continued****Investments in Unconsolidated Joint Ventures continued**

of \$7,772 and \$7,686, respectively. The primary activity of this joint venture is to develop lots on land acquired by the joint venture. This entity has assets consisting primarily of land and land development totaling approximately \$15,488 as of September 2007 and has had minimal operations to date.

In December 2002, our subsidiary, Avatar Ocean Palms, Inc., entered into a joint venture for the development of Ocean Palms (the Ocean Palms Joint Venture), a 38-story, 240-unit highrise condominium on a 3.5-acre oceanfront site in Hollywood, Florida. We are accounting for our investment in the Ocean Palms Joint Venture under the equity method of accounting. Closings of units commenced during February 2006 and were completed during the second quarter of 2006. Net income (loss) for the Ocean Palms Joint Venture was \$71 and \$3,359 for the nine months ended September 30, 2007 and 2006, respectively, and (\$12) and \$367 for the three months ended September 30, 2007 and 2006, respectively. Our share of the net income (loss) from the Ocean Palms Joint Venture was \$36 and \$1,952 for the nine months ended September 30, 2007, and 2006, respectively, and (\$5) and \$182 for the three months ended September 30, 2007 and 2006, respectively.

As of September 30, 2007, these unconsolidated joint ventures are financed by partner equity and do not have third-party debt. In addition, we have not provided any guarantees to these joint ventures or our joint venture partners.

Recently Issued Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, which is January 1, 2008 for us, and interim periods within those fiscal years. We are currently evaluating the provisions of SFAS No. 157 and assessing the impact it may have on our financial position and results of operations.

In November 2006, the FASB issued Emerging Issues Task Force Issue No. 06-8, *Applicability of the Assessment of a Buyer's Continuing Investment under FASB Statement No. 66, Accounting for Sales of Real Estate, for Sales of Condominiums* (EITF 06-8). EITF 06-8 establishes that a company should evaluate the adequacy of the buyer's continuing investment in determining whether to recognize profit under the percentage-of-completion method. EITF 06-8 is effective for the first annual reporting period beginning after March 15, 2007, which is January 1, 2008 for us. The effect of EITF 06-8 is not expected to be material to our financial position and results of operations.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159). SFAS No. 159 provides companies with an option to report selected financial assets and liabilities at fair value. SFAS No. 159's objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS No. 159 is effective for the first fiscal year that begins after November 15, 2007, which is January 1, 2008 for us. We have not yet determined what, if any, impact SFAS No. 159 may have on our financial position or results of operations.

Table of Contents**Notes to Consolidated Financial Statements (dollars in thousands except share and per share data) (Unaudited)**
continued**Estimated Development Liability for Sold Land**

The estimated development liability consists primarily of utilities improvements in Poinciana and Rio Rico for more than 8,000 homesites previously sold and is summarized as follows:

	September 30, 2007 (Unaudited)	December 31, 2006
Gross estimated unexpended costs	\$ 27,947	\$ 31,045
Less costs relating to unsold homesites	(5,931)	(6,352)
Estimated development liability for sold land	\$ 22,016	\$ 24,693

The estimated development liability for sold land is reduced by actual expenditures and is evaluated and adjusted, as appropriate, to reflect management's estimate of anticipated costs. In addition, we obtain quarterly third-party engineer evaluations and adjust this liability to reflect changes in the estimated costs. During the nine and three months ended September 30, 2007, we recognized charges of \$99 and \$1, respectively. During the nine and three months ended September 30, 2006, we recognized charges of \$1,098 and \$276, respectively. Future increases or decreases of costs for construction, material and labor as well as other land development and utilities infrastructure costs may have a significant effect on the estimated development liability.

Commitments and Contingencies

We are involved in various pending litigation matters primarily arising in the normal course of our business. Although the outcome of these matters cannot be determined, management believes that the resolution of these matters will not have a material effect on our business or financial statements.

Performance bonds, issued by third party entities, are used primarily to guarantee our performance to construct improvements in our various communities. As of September 30, 2007, we had outstanding performance bonds of approximately \$20,254. We do not believe that it is likely any of these outstanding performance bonds will be drawn upon.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data)

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the consolidated financial statements and notes thereto included elsewhere in this Form 10-Q.

In the preparation of our financial statements, we apply United States generally accepted accounting principles. The application of generally accepted accounting principles may require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying results. For a description of our accounting policies, refer to Avatar Holdings Inc.'s 2006 Annual Report on Form 10-K.

Certain statements discussed under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Form 10-Q constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of results, to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. Such risks, uncertainties and other important factors include, among others: the successful implementation of Avatar's business strategy; shifts in demographic trends affecting demand for active adult and primary housing; the level of immigration and in-migration into the areas in which we conduct real estate activities; the level of competition in geographic areas in which we do business; the number of investor and speculator resale homes for sale in our communities and in the geographic areas in which we develop and sell homes; international (in particular Latin America), national and local economic conditions and events, including employment levels, income levels, interest rates, mortgage rates, consumer confidence, the availability and terms of residential mortgage financing and subprime mortgage financing and demand for new and existing housing; Avatar's access to financing; geopolitical risks; changes in, or the failure or inability to comply with, government regulations; and other factors as are described in Avatar's filings with the Securities and Exchange Commission, including under the caption "Risk Factors" included in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2006. Active adult homes are intended for occupancy by at least one person 55 years or older.

EXECUTIVE SUMMARY

We are engaged in the business of real estate operations in Florida and Arizona. Our principal real estate operations are conducted at Poinciana, Solivita and Bellalago in central Florida near Orlando; Terralargo in Lakeland, Florida; Cory Lake Isles in Tampa, Florida; Sterling Hill in Hernando County, Florida; and at Rio Rico, south of Tucson, Arizona. Our residential community development activities include the development of active adult and primary residential communities. Our primary business strategy continues to be the development of lifestyle communities, including active adult and primary residential communities, as well as development and construction of housing on scattered lots. We also engage in a variety of other real estate related activities, such as the operation of amenities, the sale for third-party development of commercial and industrial land and the operation of a title insurance agency. From time to time we dispose of non-core assets. We are actively pursuing other business opportunities. Future opportunities may be in those real estate businesses in which we are presently engaged or may extend to other real estate activities or unrelated businesses.

Our current real estate operations include the following segments: the development, sale and management of an active adult community; the development and sale of primary residential communities; and the sale of commercial, industrial or other land. In accordance with SFAS No. 131, our homebuilding operations in Arizona and our title insurance agency do not qualify as separate reportable segments and are included in "Primary Residential" and "Other Operations", respectively.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued

EXECUTIVE SUMMARY continued

We generate the majority of our revenues from our homebuilding operations which are conducted in our active adult and primary residential communities. During 2007 our homebuilding results reflect the continued deterioration of conditions in the Florida and Arizona housing markets characterized by record levels of new and existing homes available for sale, reduced affordability and diminished buyer confidence. The number of investor-owned units for sale, the tightening of mortgage underwriting standards, the availability of significant incentives, the difficulty of potential purchasers in selling their existing homes at prices they are willing to accept and the significant amount of standing inventory continue to adversely affect both the number of homes we have been able to sell and the prices at which we are able to sell them. As a result, our communities continue to experience lower traffic, increased cancellations, higher incentives and lower margins as compared to prior years. We have experienced additional tightening of the availability of mortgage financing for buyers in our communities. If this situation continues it could result in additional downward pressure on the selling price of homes and a reduction in the number of homes sold by us which could adversely affect our operations.

In order to adjust to changing market conditions, during 2006, we began designing new homes with lower square footage and smaller lots to enable us to sell lower priced houses at meaningful profit margins. We introduced a new multi-family product at Solivita in the fourth quarter of 2006, a smaller product for our Poinciana scattered lot program in February 2007 and anticipate introducing smaller lots and smaller houses in Bellalago late in the fourth quarter 2007. Additionally, we have taken measures to adjust our overhead, which includes the consolidation of field operations and a reduction of staff. As of September 30, 2007, we reduced our headcount by 36.8% from 585 employees as of December 31, 2005 to 370 employees as of September 30, 2007.

We continue to manage Avatar and its assets for the long-term benefit of our shareholders. Our strategy includes the monetization of commercial and industrial land from our holdings, and the possible sale of certain residential land to bring forward future cash flows from what would otherwise constitute long-term residential developments. We do not believe it is in the best interest of our shareholders to sacrifice the long-term value of our assets, including our communities, for short-term earnings. As a result, we currently do not believe that it is an appropriate strategy for us to artificially create demand for our products by aggressively discounting our homes and adding additional supply to our markets to compete with other builders for volume. In our opinion, our balance sheet strategy will allow us to react to opportunities that may arise in the future. While the level and duration of the downturn cannot currently be predicted, we anticipate that these conditions will continue to have an adverse effect on our earnings for the remainder of 2007 and for 2008. Nevertheless, we continue to anticipate that we will be profitable for 2007.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued****RESULTS OF OPERATIONS**

The following table provides a comparison of certain financial data related to our operations for the nine and three months ended September 30, 2007 and 2006:

	Nine Months		Three Months	
	2007	2006	2007	2006

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued****RESULTS OF OPERATIONS continued**

Data from single-family primary residential and active adult homebuilding operations for the nine and three months ended September 30, 2007 and 2006 is summarized as follows:

	Nine Months		Three Months	
	2007	2006	2007	2006
<u>Closings</u>				
Number of units	603	1,449	151	477
Revenues	\$ 189,990	\$ 418,511	\$ 40,252	\$ 145,779
Average price per unit	\$ 315	\$ 289	\$ 267	\$ 306
<u>Contracts signed, net of cancellations</u>				
Number of units	346	737	77	67
Dollar value	\$ 82,084	\$ 260,720	\$ 17,064	\$ 21,123
Average price per unit	\$ 237	\$ 354	\$ 222	\$ 315
<u>Backlog at September 30</u>				
Number of units	292	1,353		
Dollar value	\$ 81,386	\$ 476,689		
Average price per unit	\$ 279	\$ 352		

The number of net housing contracts signed during the nine months ended September 30, 2007 compared to the same period in 2006 declined by 53.1%, while the dollar value of housing contracts signed declined by 68.5% and 19.2%, for the nine and three months ended September 30, 2007, respectively. The decline in housing contracts signed for the nine months ended September 30, 2007 continues to reflect the weak market for new residences in the geographic areas in which our developments are located.

We have not experienced any improvement in the market for new homes in the first nine months of 2007. Our communities are located in areas of Florida and Arizona where there is an excess of investor and speculator-owned units for sale and an increasing use of various sales incentives by residential builders in our markets, including Avatar. We continue to experience significant cancellations of home sales contracts. During the nine and three months ended September 30, 2007, cancellations of previously signed contracts totaled 219 and 61, respectively, compared to 249 and 98 for the nine and three month periods ended September 30, 2006.

During the third quarter of 2007, we implemented a sales program designed to generate sales activity by building speculative homes in certain of our communities. As of September 30, 2007, our inventory of unsold (speculative) homes, both completed and under construction, was 210 units compared to 310 units as of December 31, 2006. As of September 30, 2007, approximately 50% of unsold homes was completed compared to approximately 100% as of December 31, 2006.

During the nine and three months ended September 30, 2007 compared to the nine and three months ended September 30, 2006, the number of homes closed decreased by 58.4% and 68.3%, respectively, and the related revenues decreased by 54.6% and 72.4%, respectively. We anticipate that we will close in excess of 80% of the homes in backlog as of September 30, 2007 during the subsequent 12-month period, subject to cancellations by purchasers prior to scheduled delivery dates. We do not anticipate a meaningful improvement in our markets in the near term. It is not our intention to implement programs which may offer some short-term earnings advantage, but which could compromise our long-term objectives.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued****RESULTS OF OPERATIONS continued**

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, we carry long-lived assets at the lower of the carrying amount or fair value. We evaluate an asset for impairment when indicators of impairment are present. Impairment is evaluated by estimating the sum of future undiscounted cash flows against the carrying amount of the assets. If the sum of future undiscounted cash flows is less than the carrying amount of the assets, then the assets are not recoverable and an impairment loss is recognized. Fair value, for purposes of calculating impairment, is measured based on estimated future cash flows, discounted at a market rate of interest. During the first quarter of 2007, the continued deterioration of market conditions at a community in Florida in which we and other builders are selling homes and the increase of our speculative inventory at this community caused us to evaluate the carrying amount of the long-lived assets, consisting of homes completed and under construction, for impairment. Based on this evaluation, we recognized during the first quarter of 2007 an impairment loss of \$2,000, on the carrying value of the inventory in this community. This impairment loss is included under the caption Real Estate Expenses in the consolidated statement of income for the nine months ended September 30, 2007 and is included in the Primary Residential reportable segment in accordance with SFAS No. 131 *Disclosure about Segments of an Enterprise and Related Information*. During the third quarter of 2007, the continued deterioration of conditions in the Florida and Arizona housing markets caused us to evaluate the carrying value of our long-lived assets in several of our communities. Based on this evaluation, no additional impairment losses have been recognized.

Net income for the nine and three months ended September 30, 2007 was \$19,463 or \$1.98 per diluted share (\$2.35 per basic share) and \$3,084 or \$0.35 per diluted share (\$0.37 per basic share), respectively, compared to net income of \$74,672 or \$7.22 per diluted share (\$9.12 per basic share) and \$22,853 or \$2.21 per diluted share (\$2.79 per basic share), respectively. The decrease in net income for the nine months ended September 30, 2007 compared to the same period in 2006 was primarily due to decreased profitability of primary residential operations, active adult operating results and commercial and industrial and other land sales. This decrease was partially mitigated by increases in interest income as well as decreases in general and administrative expenses and other real estate expenses. The decrease in net income for the three months ended September 30, 2007 compared to the same period in 2006 was primarily due to decreased profitability of primary residential operations and active adult operating results. This decrease was partially mitigated by increases in commercial and industrial and other land sales and interest income as well as decreases in general and administrative expenses and other real estate expenses.

Revenues from primary residential operations decreased \$139,319 or 50.8% and \$63,940 or 69.0%, respectively, for the nine and three months ended September 30, 2007 compared to the same periods in 2006. Expenses from primary residential operations decreased \$90,627 or 44.6% and \$39,273 or 58.8%, respectively, for the nine and three months ended September 30, 2007, compared to the same periods in 2006. The decreases in revenues are attributable to decreased closings at Poinciana, Bellalago, Cory Lake Isles and Rio Rico and were partially mitigated by higher average closing prices. During the same periods, the decrease in expenses is attributable to lower volume of closings partially mitigated by the impairment loss of \$2,000 recognized on the carrying value of inventory (as discussed above).

Revenues from active adult operations decreased \$89,965 or 57.4% and \$42,610 or 74.1%, respectively, for the nine and three months ended September 30, 2007 compared to the same periods in 2006. Expenses from active adult operations decreased \$65,121 or 53.2% and \$29,429 or 67.5%, respectively, for the nine and three months ended September 30, 2007 compared to the same periods in 2006. The decreases in revenues are attributable to decreased closings partially mitigated by higher average closing prices. The decreases in expenses are attributable to lower volume of closings.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued****RESULTS OF OPERATIONS continued**

Revenues from commercial and industrial and other land sales decreased \$25,674 for the nine months ended September 30, 2007 and increased \$4,224 for the three months ended September 30, 2007 compared to the same periods in 2006. During the nine and three months ended September 30, 2007, pre-tax profits from sales of commercial, industrial and other land were \$16,116 and \$8,979, respectively, on revenues of \$19,136 and \$10,087, respectively. For the nine months ended September 30, 2007, pre-tax profits from commercial and industrial land were \$15,046 on aggregate revenues of \$17,768. Pre-tax profits on sales of other land during the nine months ended September 30, 2007 were \$1,070 on aggregate revenues of \$1,368. During the three months ended September 30, 2007, we realized pre-tax profits of \$7,886 on revenues of \$8,946 from sales of commercial and industrial land. Pre-tax profits on sales of other land during the three months ended September 30, 2007 were \$1,093 on aggregate revenues of \$1,141. During the nine and three months ended September 30, 2006, pre-tax profits from sales of commercial, industrial and other land were \$33,676 and \$5,487, respectively, on revenues of \$44,810 and \$5,863, respectively. During the nine months ended September 30, 2006, pre-tax profits on sales of commercial and industrial land were \$28,443 on aggregate sales of \$30,657. Pre-tax profits on sales of other land during the nine months ended September 30, 2006 were \$906 on aggregate sales of \$968. During the three months ended September 30, 2006, we realized pre-tax profits of \$5,169 on revenues of \$5,524 from sales of commercial and industrial land. Pre-tax profits on sales of other land during the three months ended September 30, 2006 were \$318 on aggregate sales of \$339. We also realized, during the nine months ended September 30, 2006, pre-tax profits of \$4,327 from the collection of \$13,185 on a promissory note and accrued interest from the sale of our equity interest in the Regalia Joint Venture which was sold on June 30, 2005. Expenses from commercial and industrial and other land sales decreased \$8,114 for the nine months ended September 30, 2007 and increased by \$732 for the three months ended September 30, 2007 compared to the same periods in 2006. Included in the caption Expenses are cost of land sold, commissions related to these sales and consulting and legal fees. The amount and types of commercial and industrial and other land sold vary from year to year depending upon demand, ensuing negotiations and the timing of the closings of these sales.

Revenues from other operations decreased \$2,889 or 53.0% and \$716 or 50.7%, respectively, for the nine and three months ended September 30, 2007 compared to the same periods in 2006. Expenses from other operations decreased \$1,299 or 40.3% and \$467 or 49.1%, respectively, for the nine and three months ended September 30, 2007 compared to the same periods in 2006. The decreases in revenues and expenses are primarily attributable to decreased operating results from our title insurance agency operations due to reduced closings.

Equity in earnings (loss) from unconsolidated joint ventures represents our proportionate share of profits and losses from our investment in unconsolidated joint ventures whereby we account for our investment under the equity method. The decline as compared to the corresponding periods in the prior year was primarily attributable to the substantial completion of the Ocean Palms Joint Venture during 2006.

Interest income increased \$4,218 or 197.9% and \$1,498 or 244.0% for the nine and three months ended September 30, 2007, respectively, compared to the same periods in 2006. The increases were primarily attributable to higher balances of cash and cash equivalents during 2007 as compared to 2006 as well as higher interest rates earned on these balances.

General and administrative expenses decreased \$2,480 or 11.9% and \$1,895 or 26.7% for the nine and three months ended September 30, 2007, respectively, compared to the same periods in 2006. The decrease was primarily due to decreases in share-based compensation expense partially mitigated by increases in professional fees.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued****RESULTS OF OPERATIONS continued**

Other real estate expenses, represented by real estate taxes and property maintenance not allocable to specific operations, decreased by \$2,254 or 32.8% and \$384 or 20.9%, respectively, for the nine and three months ended September 30, 2007 compared to the same period in 2006. The decrease is primarily attributable to a goodwill impairment loss of \$654 recognized during the nine months ended September 30, 2006. Also contributing to the decrease was a reduction in charges related to the required utilities improvements of more than 8,000 residential homesites in Poinciana and Rio Rico substantially sold prior to the termination of the retail homesite sales programs in 1996. During the nine and three months ended September 30, 2007, we recognized charges of \$99 and \$1, respectively. During the nine and three months ended September 30, 2006, we recognized charges of \$1,098 and \$276, respectively. These charges were based on third-party engineering evaluations.

Income tax expense was provided for at an effective tax rate of 38.0% and 52.9% for the nine and three months ended September 30, 2007, respectively, compared to 36.2% and 39.2% for the nine and three months ended September 30, 2006, respectively. The variance in the effective tax rate for the three months ended September 30, 2007 as compared to the federal and state statutory rate of 38% is primarily due to revisions made to the expected income tax expense for the entire fiscal year 2007. The variance in the effective tax rate for the nine months ended September 30, 2006 as compared to the federal and state statutory rate of 38% is primarily attributable to a reduction to the valuation allowance for deferred tax assets of \$2,086.

LIQUIDITY AND CAPITAL RESOURCES

Our real estate business strategy is designed to capitalize on our competitive advantages and emphasize higher profit margin businesses by concentrating on the development and management of active adult communities and primary residential communities, and utilizing third-party commercial and industrial development to maximize the value of our residential community developments. We also seek to identify additional sites that are suitable for development consistent with our business strategy and anticipate that we will acquire or develop them directly or through joint venture, partnership or management arrangements. Our primary business activities are capital intensive in nature. Our significant uses of capital include: homebuilding construction in process; community infrastructure; property and equipment; selling, general and administrative expenses; and funding of debt service requirements.

As of September 30, 2007, the amount of cash available totaled \$192,030, substantially generated through homebuilding operations, sales of commercial and industrial properties, and sales of other properties, including the sale of the Ocala property in December 2006.

Our operating cash flows fluctuate relative to the status of development within existing communities, expenditures for land, new developments or other real estate activities, and sales of various homebuilding product lines within those communities and other developments. From time to time we have generated, and may continue to generate, additional cash flow through sales of non-core assets.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued**
LIQUIDITY AND CAPITAL RESOURCES continued

For the nine months ended September 30, 2007, net cash provided by operating activities amounted to \$14,242, primarily as a result of the decrease in receivables of \$9,247, a decrease in land and other inventories of \$13,132 and net income of \$19,463. Partially offsetting net cash provided by operating activities is a reduction in customer deposits of \$9,586 and decreases in accounts payable and accrued liabilities of \$26,667. Net cash used in investing activities amounted to \$27,734 as a result of expenditures of \$27,598 for investments in property and equipment primarily resulting from expenditures of \$21,943 on the Parkway and expenditures of \$136 for investments in unconsolidated joint ventures. Net cash provided by financing activities of \$1,762 resulted from proceeds of \$2,100 from the exercise of stock options and \$1,897 as a result of excess income tax benefits from the exercise of stock options and restricted stock units. Partially offsetting net cash provided by financing activities is the purchase of \$965 of treasury stock, the repayment of \$690 in real estate debt and payment of \$580 for withholding taxes related to restricted stock units withheld.

For the nine months ended September 30, 2006, net cash used in operating activities amounted to \$15,416, primarily as a result of an increase in expenditures on land and other inventories of \$114,470, a reduction in customer deposits of \$11,650 and decreases in accounts payable and accrued liabilities of \$7,987. Contributing to the increase in inventories for the nine months ended September 30, 2006 were land acquisitions of approximately \$18,300 and expenditures on construction and land development of \$96,170. These expenditures were partially offset by net income of \$74,672, distributions of earnings from an unconsolidated joint venture of \$29,315, and proceeds from the collection of a promissory note and accrued interest totaling \$13,185 from the sale of our equity interest in the Regalia Joint Venture. Net cash provided by investing activities amounted to \$11,993 primarily as a result of distributions of capital from an unconsolidated joint venture of \$19,973 and return of advances of \$4,910 from a promissory note to our Ocean Palms Joint Venture member offset by expenditures of \$12,100 for investments in property and equipment, as well as expenditures of \$790 for investments in unconsolidated joint ventures. Net cash used in financing activities of \$5,725 resulted from repayment of \$16,115 in real estate debt, partially offset by borrowings of \$10,000 from a revolving line of credit and proceeds of \$250 from the exercise of stock options.

As of September 30, 2007, the amount of our borrowings totaled \$136,035 compared to our borrowings of \$136,925 as of December 31, 2006. At September 30, 2007, our borrowings of \$136,035 included \$119,800 of 4.50% Convertible Senior Notes due 2024 (the 4.50% Notes), \$15,730 of 6% purchase money mortgage due 2009 and \$505 of 5.50% community development district term bond obligations due 2010.

On March 30, 2004, we issued \$120,000 aggregate principal amount of 4.50% Convertible Senior Notes due 2024 (the 4.50% Notes) in a private, unregistered offering, subsequent to which we filed, for the benefit of the 4.50% Notes holders, a shelf registration statement covering resales of the 4.50% Notes and the shares of our common stock issuable upon the conversion of the 4.50% Notes. Interest is payable semiannually on April 1 and October 1. The 4.50% Notes are senior, unsecured obligations and rank equal in right of payment to all of our existing and future unsecured and senior indebtedness. However, the 4.50% Notes are effectively subordinated to all of our existing and future secured debt to the extent of the collateral securing such indebtedness, and to all existing and future liabilities of our subsidiaries.

Each \$1 in principal amount of the 4.50% Notes is convertible, at the option of the holder, at a conversion price of \$52.63, or 19.0006 shares of our common stock, upon the satisfaction of one of the following conditions: a) during any calendar quarter (but only during such calendar quarter) commencing after June 30, 2004 if the closing sale price of our common stock for at least 20 trading days in a period of 30 consecutive trading days ending on the

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued**
LIQUIDITY AND CAPITAL RESOURCES continued

last trading day of the preceding calendar quarter is more than 120% of the conversion price per share of common stock on such last day; or b) during the five business day period after any five-consecutive-trading-day period in which the trading price per \$1 principal amount of the 4.50% Notes for each day of that period was less than 98% of the product of the closing sale price for our common stock for each day of that period and the number of shares of common stock issuable upon conversion of \$1 principal amount of the 4.50% Notes, provided that if on the date of any such conversion that is on or after April 1, 2019, the closing sale price of Avatar's common stock is greater than the conversion price, then holders will receive, in lieu of common stock based on the conversion price, cash or common stock or a combination thereof, at our option, with a value equal to the principal amount of the 4.50% Notes plus accrued and unpaid interest, as of the conversion date. The closing price of Avatar's common stock exceeded 120% (\$63.156) of the conversion price for 20 trading days out of 30 consecutive trading days as of the last trading day of the fourth quarter of 2006, as of the last trading day of the first quarter of 2007 and as of the last trading day of the second quarter of 2007. Therefore, the 4.50% Notes became convertible for the quarter beginning January 1, 2007, for the quarter beginning April 1, 2007 and for the quarter beginning July 1, 2007. During the third quarter of 2007, the closing price of Avatar's common stock did not exceed 120% (\$63.156) of the conversion price for 20 trading days out of 30 consecutive trading days; therefore, the 4.50% Notes are not convertible for the quarter beginning October 1, 2007. During 2007, \$200 principal amount of the 4.50% Notes have been converted into 3,800 shares of Avatar common stock.

We may, at our option, redeem for cash all or a portion of the 4.50% Notes at any time on or after April 5, 2011. Holders may require us to repurchase the 4.50% Notes for cash on April 1, 2011, April 1, 2014 and April 1, 2019; or in certain circumstances involving a designated event, as defined in the indenture for the 4.50% Notes, holders may require us to purchase all or a portion of their 4.50% Notes. In each case, we will pay a repurchase price equal to 100% of their principal amount, plus accrued and unpaid interest, if any.

In September 2005, we entered into a Credit Agreement and a Guaranty Agreement for a \$100,000 (expandable up to \$175,000), senior unsecured revolving credit facility (the Unsecured Credit Facility), by and among our wholly-owned subsidiary, Avatar Properties Inc. (as Borrower), Wachovia Bank, National Association (as Administrative Agent and Lender), and certain other financial institutions as lenders. Payments of all amounts due under the Unsecured Credit Facility are guaranteed by Avatar Holdings Inc. pursuant to the Restated Guaranty Agreement dated as of October 21, 2005. Interest on borrowings under the Unsecured Credit Facility ranges from LIBOR plus 1.75% to 2.25%. Our borrowing rate under the Unsecured Credit Facility was 6.87% as of September 30, 2007.

The total amount of the Unsecured Credit Facility, as amended, is \$125,000; however, so long as no default or event of default has occurred and is continuing, increases may be requested, subject to lender approval, up to \$175,000. This Unsecured Credit Facility, as amended, includes a \$7,500 swing line commitment and has a \$50,000 sublimit for the issuance of standby letters of credit. The Unsecured Credit Facility contains customary representations, warranties and covenants limiting liens, guaranties, mergers and consolidations, substantial asset sales, investments and loans. In addition, the Unsecured Credit Facility contains covenants to the effect that we (i) will maintain a minimum consolidated tangible net worth (as defined in the Unsecured Credit Facility), (ii) shall maintain an adjusted EBITDA/debt service ratio (as defined in the Unsecured Credit Facility) of not less than 2.75 to 1.0, (iii) will not permit the leverage ratio (as defined in the Unsecured Credit Facility) to exceed 2.0 to 1.0, and (iv) the sum of the net book value of unentitled land, entitled land, land under development and finished lots shall not exceed 150% of consolidated tangible net worth. Borrowings under the Unsecured Credit Facility may be limited based on the amount of borrowing base available. We are in compliance with these covenants as of September 30, 2007. The Unsecured Credit Facility also contains a covenant whereby the sum of speculative

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued**
LIQUIDITY AND CAPITAL RESOURCES continued

homes and models cannot exceed 25% of the aggregate number of unit sales for the trailing twelve month period. As of September 30, 2007, we exceeded this limitation. However, during the fourth quarter of 2006, we obtained a waiver of this requirement through the entirety of 2007 and during the third quarter of 2007, we obtained an extension of this waiver through December 31, 2008.

The maturity date of the Unsecured Credit Facility is September 20, 2010. As of September 30, 2007, we had no borrowings outstanding under the Unsecured Credit Facility, had issued letters of credit totaling \$22,348 and had \$102,652 in availability for borrowing under the Unsecured Credit Facility, all of which we could have borrowed without violating any of our debt covenants.

Performance bonds, issued by third party entities, are used primarily to guarantee our performance to construct improvements in our various communities. As of September 30, 2007, we had outstanding performance bonds of approximately \$20,254. We do not believe that it is likely any of these outstanding performance bonds will be drawn upon.

During the nine and three months ended September 30, 2007, we repurchased \$965 of our common stock representing 19,409 shares of our common stock under previous authorizations by the Board of Directors to make purchases of common stock and/or the 4.50% Notes from time to time, in the open market, through privately negotiated transactions or otherwise, depending on market and business conditions and other factors. We did not repurchase any of the 4.50% Notes. As of September 30, 2007, the remaining authorization is \$14,864.

In December 2006, we entered into agreements with Osceola and Polk Counties in Florida for us to develop and construct a 9.66 mile four-lane road in the Osceola and Polk Counties, to be known as the Poinciana Parkway (the Parkway). It will include a 4.15 mile segment to be operated as a private toll road. We will pay the costs associated with the right-of-way acquisition, development and construction of the Parkway. Except for the toll road, the Parkway will be owned, maintained and operated by the Counties upon completion. We will own the private toll road, and under our agreements we have the right to sell it to a third party together with our rights to operate the toll road. Under our agreements with the Counties, the Parkway was to be complete by October 31, 2008, subject to delays beyond our control, including permitting delays. We have notified the counties that the completion of construction will be delayed at least until August 31, 2009 because we still have not obtained all necessary permits to construct the Parkway. It is our understanding that the delays that we have encountered are contemplated by the agreements and entitle us to the extension.

We are working to resolve concerns about the environmental impact of the Parkway with environmental groups and governmental agencies as we seek to secure the remaining permits necessary to construct the Parkway. Our estimates of the cost to complete the Parkway take into account permit conditions that may be imposed.

Our preliminary estimates of our right-of-way acquisition, development and construction costs for the Parkway approximate \$140,000 to \$200,000. However no assurance of the ultimate amount can be given at this stage. As of September 30, 2007, approximately \$30,087 has been expended.

Assuming that no significant adverse changes in our business or capital and credit markets occur, we anticipate that cash on hand, cash flow generated through homebuilding and related operations, sales of commercial and industrial land, sales of non-core assets and external borrowings, positions us to be able to continue to acquire new development opportunities and expand operations at our existing communities, fund the right-of-way acquisition, development and construction of the Parkway, as well as to commence appropriate development of new projects on properties currently owned and/or to be acquired.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (dollars in thousands except share and per share data) continued****CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

On January 1, 2007, we adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

Based on our evaluation of tax positions, we have concluded that there are no significant uncertain tax positions requiring recognition in our financial statements. Our evaluation was performed for the open tax years ended December 31, 2003, 2004, 2005 and 2006 which remain subject to examination and adjustment by major tax jurisdictions as of September 30, 2007. FIN 48 did not have an impact on our financial position and results of operations.

Any interest or penalties that have been assessed in the past have been minimal and immaterial to our financial results. In the event we are assessed any interest or penalties in the future, we plan to include them in our financial statements as income tax expense.

There have been no other significant changes to our critical accounting policies and estimates during the nine and three months ended September 30, 2007 as compared to those we disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2006 Annual Report on Form 10-K.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, which is January 1, 2008 for us, and interim periods within those fiscal years. We are currently evaluating the provisions of SFAS No. 157 and assessing the impact it may have on our financial position and results of operations.

In November 2006, the FASB issued Emerging Issues Task Force Issue No. 06-8, *Applicability of the Assessment of a Buyer's Continuing Investment under FASB Statement No. 66, Accounting for Sales of Real Estate, for Sales of Condominiums* (EITF 06-8). EITF 06-8 establishes that a company should evaluate the adequacy of the buyer's continuing investment in determining whether to recognize profit under the percentage-of-completion method. EITF 06-8 is effective for the first annual reporting period beginning after March 15, 2007, which is January 1, 2008 for us. The effect of EITF 06-8 is not expected to be material to our financial position and results of operations.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159). SFAS No. 159 provides companies with an option to report selected financial assets and liabilities at fair value. SFAS No. 159's objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS No. 159 is effective for the first fiscal year that begins after November 15, 2007, which is January 1, 2008 for us. We have not yet determined what, if any, impact SFAS No. 159 may have on our financial position or results of operations.

Table of Contents

Item 3. Quantitative and Qualitative Disclosure About Market Risk

There have been no material changes in Avatar's market risk during the nine months ended September 30, 2007. For additional information regarding Avatar's market risk, refer to Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in our 2006 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective for the purpose of ensuring that material information required to be in this report is made known to our management, including our Chief Executive Officer and Chief Financial Officer, and others, as appropriate, to allow timely decisions regarding required disclosures and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have determined that, during the fiscal quarter ended September 30, 2007, there were no changes in our internal control over financial reporting (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) that have affected, or are reasonably likely to affect, materially, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds (dollars in thousands except share and per share data)****Repurchases of Equity Securities**

The following table represents shares repurchased by Avatar under the stock repurchase authorizations for the nine months ended September 30, 2007:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of a Publicly Announced Plan or Program (1)	Maximum Amount That May Yet Be Purchased Under the Plan or Program (1)
July 1, 2007 to July 31, 2007		\$		\$ 15,829
August 1, 2007 to August 31, 2007		\$		\$ 15,829
September 1, 2007 to September 30, 2007	19,409	\$ 49.73		\$ 14,864
Total	19,409	\$ 49.73		

(1) On March 20, 2003, Avatar's Board of Directors authorized the expenditure of up to \$30,000 to purchase, from time to time, shares of Avatar's common stock and/or 7% Convertible Subordinated Notes due April 2005 (which were subsequently called for redemption), in the open market, through

privately negotiated transactions or otherwise, depending on market and business conditions and other factors. On June 29, 2005, Avatar's Board of Directors amended the March 20, 2003 repurchase authorization to include the 4.50% Notes in addition to shares of common stock. During the three months ended September 30, 2007, Avatar repurchased \$965 of our common stock representing 19,409 shares of our common stock. During the three months ended September 30, 2007, Avatar did not repurchase any of the 4.50% Notes. As of September 30, 2007, the remaining authorization for purchase of shares of Avatar's common stock and 4.50% notes was \$14,864.
