DATATRAK INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2002
(Unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of DATATRAK International, Inc. and subsidiaries (DATATRAK or the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended March 31, 2002 are not necessarily indicative of the results that may be expected for the year ending December 31, 2002. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Form 10-K for the year ended December 31, 2001 (File No. 000-20699).

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that might affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Net Loss per Share

The following table sets forth the computation of basic and diluted loss per share.

	Three Months Ended March 31,	
	2002	2001
Net loss used in the calculation of basic and diluted earnings per share	\$(1,771,161)	\$(1,590,853)

3. Comprehensive loss

The following table sets forth comprehensive loss.

	Three Months Ended March 31,	
	2002	2001
Net loss	\$(1,771,161)	\$(1,590,853)
Foreign currency translation (9,317) 16,989		
Comprehensive loss	\$(1,780,478)	\$(1,573,864)

4. Shareholders' Equity

In January 2002, the Company completed a private placement of its common shares with certain outside investors. The Company sold 1,922,514 of its common shares at a price of \$2.25 per share. Net of expenses, the Company raised approximately \$3.8 million in cash. In conjunction with this private placement, DATATRAK issued 192,252 warrants to purchase common shares at a price of \$2.25 per share. The warrants are fully vested as of the grant date and expire five years from the date of grant. A non-cash charge of \$371,589 to shareholders' equity was recorded as a result of stock options and warrants that were granted and vested due to the Company's private placement of common shares.

5. Restricted Cash

The Company is party to an agreement with an unaffiliated third party to lease certain computer equipment. The lease has been recorded as a capital lease. Terms of the lease agreement require the Company to maintain a restricted cash balance equal to the outstanding balance payable on the lease. The restricted cash balance was \$260,238 at March 31, 2002.

6. Common Share Warrants

At March 31, 2002, the Company had outstanding warrants to purchase 192,252 common shares at a price of \$2.25 per share. The warrants became exercisable on January 4, 2002 and will expire on January 4, 2007.

7. Reclassification

Certain prior year amounts have been reclassified to conform to the current year presentation.

Table of Contents

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

The information set forth and discussed below for the three months ended March 31, 2002 is derived from the Condensed Consolidated Financial Statements included elsewhere herein. The financial information set forth and discussed below is unaudited, but in the opinion of management, reflects all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of such information. The Company's results of operations for a particular quarter may not be indicative of results expected during the other quarters or for the entire year.

General

DATATRAK is a provider of software and other related services, commonly referred to as an application service provider, or ASP. DATATRAK's customers use the software known as DATATRAK EDC to collect and transmit clinical trial data, commonly referred to as electronic data capture, or EDC. The Company's services assist companies in the clinical pharmaceutical, biotechnology, contract research organization (CRO) and medical device research industries, in accelerating the completion of clinical trials. Approximately 74% of the Company's assets, or approximately \$7.6 million, are held in cash, cash equivalents and short-term investments. The Company has recognized minimal revenue and has experienced significant losses and negative cash flow from operations since commencing EDC operations in 1997. The Company is continuing to enhance and commercialize the DATATRAK EDC software and anticipates that its operating results will fluctuate significantly from period to period. There can be no assurance of the Company's long-term future prospects.

The Company's contracts provide a fixed price for each component or service to be delivered, and revenue is recognized as these components or services are delivered. Services provided by DATATRAK that are in addition to those provided for in its contracts are billed on a fee for service basis as completed. Generally, these contracts range in duration from one to three years. The ultimate contract value is dependent upon the length of the customer's use of DATATRAK EDC and the services provided by DATATRAK. As services are performed over the life of the contract, revenue is recognized per the specific terms of each contract. Costs associated with contract revenues are recognized as incurred. These contracts can be terminated by the customer with or without cause. DATATRAK is entitled to payment for all work performed through the date of notice of termination and for recovery of some or all costs incurred to terminate a contract. The termination of a contract will not result in a material adjustment to revenue or costs previously recognized.

Since its purchase of the DATATRAK EDC software in January 1998, DATATRAK has recorded revenue related to a small number of contracts. At March 31, 2002, DATATRAK's backlog was \$14.1 million. Backlog includes a \$2.4 million contract that has been placed on hold, by the clinical trial sponsor, for a minimum of twelve months. Due to DATATRAK's early stage of development and its low level of backlog, there can be no assurance as to its future levels of revenue.

Critical Accounting Policies

The Company has identified the most critical accounting principles upon which its financial status depends. Critical principles were determined by considering accounting policies that involve the most complex or subjective decisions or assessments. The significant accounting policies which the Company believes are the most critical to aid in fully understanding and evaluating the reported consolidated results include the following:

Revenue Recognition

DATATRAK's contracts provide a fixed price for each component or service to be delivered, and revenue is recognized as these components or services are delivered. Services provided by DATATRAK that

Table of Contents

are in addition to those provided for in its contracts are billed on a fee for service basis as services are completed. As services are performed over the life of the contract, revenue is recognized per the specific terms of each contract. Costs associated with contract revenue are recognized as incurred. Pass-through costs that are paid directly by the Company's clients, and for which the Company does not bear the risk of economic loss, are excluded from revenue. The termination of a contract will not result in a material adjustment to the revenue or costs previously recognized. DATATRAK is also a seller and licensor of software. Generally, revenue is recognized upon delivery of sold software. Licensing revenue is recognized ratably over the life of the license. To date, DATATRAK has not recognized any revenue from software sales.

Software Development Costs

Development costs incurred in the research and development of new software products and enhancements to existing software products are expensed as incurred until technological feasibility has been established. After technological feasibility is established, any additional costs are capitalized in accordance with Statement of Financial Accounting Standards No. 86, "Accounting for the Costs of Computer Software to be Sold, Leased, or Otherwise Marketed". Such costs are amortized over the lesser of three years or the economic life of the related product. The Company performs an annual review of the recoverability of such capitalized software costs. At the time a determination is made that capitalized amounts are not recoverable based on the estimated cash flows to be generated from the applicable software, any remaining capitalized amounts are expensed.

Results of Operations

Three months ended March 31, 2002 compared with three months ended March 31, 2001

Revenue for the three months ended March 31, 2002 increased 22.4% to \$820,000 as compared to \$670,000 for the three months ended March 31, 2001. The increase was the result of the Company's growth in backlog in 2001 and the resulting increase in the number of clinical trials using the DATATRAK EDC software.

Direct costs of revenue, mainly personnel costs, were \$430,000 during each of the three month periods ended March 31, 2002 and 2001. The addition of new employees caused personnel costs to increase by \$50,000 during the three months ended March 31, 2002. Other direct costs, primarily travel and other costs billed directly to DATATRAK's customers decreased by \$50,000 during the three months ended March 31, 2002.

Selling, general and administrative expenses (SG&A) include all administrative personnel costs, business development costs, and all other expenses not directly chargeable to a specific contract. SG&A expenses increased by 11.8% to \$1.9 million from \$1.7 million for the three months ended March 31, 2002 and 2001. The \$200,000 increase was due to increased personnel costs caused by an increase in sales and marketing and software development personnel.

Depreciation and amortization expense increased to \$260,000 during the three months ended March 31, 2002 from \$230,000 during the three months ended March 31, 2001. The increase was the result of depreciating capital expenditures associated with the development of DATATRAK's information technology infrastructure.

Other income decreased \$110,000 during the three months ended March 31, 2002 compared to the three months ended March 31, 2001. Other income includes interest income which decreased \$130,000 for the three months ended March 31, 2002 compared to March 31, 2001, due to the Company's use of cash to fund its operating losses and other working capital needs.

Table of Contents

Liquidity and Capital Resources

Since its inception, the Company's principal sources of cash have been cash flow from operations and proceeds from the sale of equity securities. During 1999, the Company also generated \$15.6 million in cash through the sale of its Clinical Business and \$1.3 million in cash from a favorable legal settlement. The Company's investing activities primarily reflect capital expenditures and net purchases of short-term investments. In 1999, DATATRAK repurchased 3.3 million of its common shares at a cost of \$20.2 million. In January 2002 the Company raised approximately \$3.8 million in cash with the completion of its private placement of common shares.

The Company's contracts usually require a portion of the contract amount to be paid at the time the contract is initiated. Additional payments are generally received upon completion of negotiated performance milestones throughout the life of the contract. All amounts received are recorded as a liability (deferred revenue) until work has been completed and revenue is recognized. Cash receipts do not necessarily correspond to costs incurred or revenue recognized. The Company typically receives a low volume of large-dollar receipts. Accounts receivable will fluctuate due to the timing and size of cash receipts. Accounts receivable (net of allowance for doubtful accounts) was \$490,000 at March 31, 2002 and \$430,000 at December 31, 2001. Deferred revenue was \$1.1 million at March 31, 2002 and \$470,000 at December 31, 2001.

Cash and cash equivalents decreased \$90,000 during the three months ended March 31, 2002. This was the result of \$780,000 provided by investing and financing activities, offset by \$870,000 used in operating activities. Investing activities included net purchases of short-term investments of \$2.5 million and \$540,000 used to purchase property and equipment. Financing activities include \$3.8 million received from the Company's private placement of its common shares. Cash used for operating activities resulted from the funding of net operating losses and other working capital needs.

At March 31, 2002, the Company had working capital of \$6.0 million, and its cash, cash equivalents and short-term investments totaled \$7.6 million. The Company's working capital increased by \$1.7 million since December 31, 2001. The increase was primarily the result of the \$2.4 million increase in cash, cash equivalents and short-term investments, which was offset by the \$630,000 increase in deferred revenue.

The Company is responsible for funding the future enhancement and testing of the DATATRAK EDC software. The Company will continue to invest in the development of the DATATRAK® process. The Company's operations and the EDC market are still in a developmental stage. DATATRAK has experienced marginal revenue growth, however, the Company anticipates negative cash flow from operations during 2002, as it continues to build its operational and business development infrastructure. The Company anticipates capital and related expenditures of approximately \$900,000 through the end of the current year for continued commercialization and product development of DATATRAK EDC, which the Company expects to fund from existing cash and cash equivalents, maturities of short-term investments and cash flow from operations. The Company believes that its cash and cash equivalents, maturities of short-term investments and cash flow from operations, together with its existing sources of equity, will be sufficient to meet its working capital and capital expenditure requirements through the end of the current year. However, at the current rates of negative cash flows, capital and related expenditures and revenue growth, the Company anticipates that it may need to raise additional funds for working capital by selling debt or equity securities or through other arrangements. Additional capital may not be available on acceptable terms, if at all.

Inflation

To date, the Company believes the effects of inflation have not had a material adverse effect on its results of operations or financial condition.

Table of Contents

Information About Forward-Looking Statements

Certain statements made in this Form 10-Q, other SEC filings or written materials or orally by the Company or its representatives may constitute forward-looking statements that are based on management's current beliefs, estimates and assumptions concerning the operations, future results and prospects of the Company and the clinical pharmaceutical research industry in general. All statements that address operating performance, events or developments that management anticipates will occur in the future, including statements related to future revenue, profits, expenses, income and earnings per share or statements expressing general optimism about future results, are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 (Exchange Act). In addition, words such as expects, anticipates, intends, plans, believes, estimates, variations of such words, and similar expressions are intended to identify forward-looking statements. Forward-looking statements are subject to the safe harbors created in the Exchange Act. Factors that may cause actual results to differ materially from those in the forward-looking statements include the ability of the Company to absorb corporate overhead and other fixed costs in order to successfully market the DATATRAK EDC software; the development of and fluctuations in the market for electronic data capture technology; the degree of the Company's success in obtaining new contracts; the timing of payments from customers and the timing of clinical trial sponsor decisions to conduct new clinical trials or cancel or delay ongoing trials; governmental regulation; the early stage of the Company's ASP operations; and general economic conditions such as the rate of employment, inflation, interest rates and the condition of capital markets. This list of factors is not exclusive. In addition, the Company's success depends on the outcome of various strategic initiatives it has undertaken, all of which are based on assumptions made by the Company concerning trends in the clinical research market and the health care industry.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to market risk from changes in interest rates and foreign currency exchange rates since it funds its operations through short-term investments and has business transactions in Euros. A summary of the Company's market risk exposures is presented below.

Interest Rate Risk

DATATRAK has fixed income investments consisting of cash equivalents and short-term investments, which may be affected by changes in market interest rates. The Company does not use derivative financial instruments in its investment portfolio. The Company places its cash equivalents and short-term investments with high-quality financial institutions, limits the amount of credit exposure to any one institution and has established investment guidelines relative to diversification and maturities designed to maintain safety and liquidity. Investments are reported at amortized cost, which approximates fair value. A 1.0% change in interest rates during the three months ended March 31, 2002, would have resulted in a \$16,000 change in DATATRAK's interest income during the quarter.

Foreign Currency Risk

DATATRAK's foreign sales and results of operations are subject to the impact of foreign currency fluctuations. Approximately 13% of the Company's revenue for the three months ended March 31, 2002 was earned by the Company's German subsidiary. The Company manages its risk to foreign currency exchange rates by maintaining foreign currency bank accounts in currencies in which it regularly transacts business. DATATRAK does not currently hedge against the risk of exchange rate fluctuations. A 1.0% fluctuation in the exchange rate between United States dollars and the Euro at March 31, 2002, would have resulted in a \$19,000 change in the foreign currency translation amount recorded on the Company's balance sheet and had a negligible effect on its net income.

Part II. Other Information

Item 1. Legal Proceedings

None.

Item 2. Changes in Securities and Use of Proceeds

No securities of the Company that were not registered under the Securities Act of 1933, as amended, have been issued or sold by the Company for the period covered by this Quarterly Report on Form 10-Q other than the following:

On January 4, 2002, the Company issued 1,922,514 common shares in connection with the consummation of a private placement to a total of twelve purchasers at a purchase price of \$2.25 per common share. The purchasers included 80/20 Fund L.P., Apollo Capital Management Group LP, Boston Partners Small Cap Value Fund II, Contrarian Opportunities Fund, L.P., Dolphin Offshore Partners, L.P., Matador Microcap Fund, L.P., MidSouth Investor Fund, L.P., Kaiser Permanente Retirement Plans, State of Wisconsin Investment Board, Gary Stein, TexRock, Ltd., and White Rock Capital Partners, L.P. The terms of the private placement included the issuance of five-year warrants to purchase a total of 192,252 common shares at \$2.25 per common share to Stonegate Securities, Inc., the Company's placement agent for the private placement. The aggregate offering price of the 1,922,514 common shares was \$4,325,657, and Stonegate Securities, Inc. received a commission of \$302,000 (or 7% of the aggregate offering price) in connection with the private placement. The Company expects to use the proceeds of the private placement to expand its worldwide marketing and sales efforts, continue investing in software development and for other general working capital purposes.

Registration under the Securities Act of 1933, as amended, was not effected with respect to the private placement described above in reliance upon the exemption from registration provided by Section 4(2) of the Securities Act of 1933, as amended, for transactions by an issuer not involving any public offering.

Item 3. Defaults Upon Senior Securities
