Report of Independent Registered Public Accounting Firm

To the Financial Benefit Plans Committee of the
Cardinal Health Profit Sharing, Retirement and Savings Plan:

We have audited the accompanying statements of net assets available for benefits of Cardinal Health Profit Sharing, Retirement and Savings Plan as of December 31, 2004 and 2003, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2004 and 2003, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying Supplemental Schedule of Assets (held at end of year) as of December 31, 2004 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Cardinal Health Profit Sharing, Retirement and Savings Plan

Notes to Financial Statements

As of and for the Years Ended December 31, 2004 and 2003

1. DESCRIPTION OF PLAN

General

The Cardinal Health Profit Sharing, Retirement and Savings Plan (the Plan) is a defined contribution plan covering substantially all employees of Cardinal Health, Inc. (the Company) and certain of its subsidiaries not covered by a collective bargaining agreement who have completed one month of service, as defined. Effective January 1, 2005, the Plan was renamed as the Cardinal Health 401(k) Savings Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Cardinal Health, Inc. U.S. Qualified Plans Master Trust (formerly the Master Trust for Retirement Plans of Cardinal Health, the Master Trust) was established for the Plan and certain other plans of the Company. At December 31, 2003, certain Plan investments were not included in the Master Trust. At December 31, 2004, all of the Plan's investments were included in the Master Trust.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Administration

The Company had previously established a Benefits Policy Committee (the Committee) that was responsible for the general operation and administration of the Plan. In December 2004, the Company established a Financial Benefit Plans Committee that assumed the responsibilities for the general operation and administration of the Plan in 2005.

During 2004, the Committee authorized the change from Putnam Fiduciary Trust Company (Putnam) as the Plan trustee, record keeper and asset custodian to Fidelity Management Trust Company (Fidelity).

Contributions

Contributions to the Plan may consist of participant contributions, rollover contributions, and Company matching, special and discretionary profit sharing contributions. Participants may contribute up to 50% of their compensation (subject to certain limitations), as defined by the Plan. Participants who have or will attain at least age 50 by the end of the Plan year may contribute up to an additional \$3,000 during 2004 and \$2,000 during 2003 as a catch-up contribution. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participants direct the investment of their contributions in 1% increments into various investment options offered by the Plan. The Company's matching, discretionary profit sharing and special contributions are also invested as directed by participants.

Participant Accounts

Each participant's account is credited with the participant's elective contributions, allocations of the Company's contributions, Plan earnings and any rollover contributions made by the participant. A participant is entitled to the

benefit provided from the participant's vested account balance. All amounts in participant accounts are participant-directed.

Table of Contents

Vesting

Participants are vested immediately in their elective contributions, plus actual earnings. Vesting in the Company's contributions is based on years of continuous service. A participant is 100% vested in the Company's contributions after three years of vesting service, or if the participant dies, becomes disabled, or reaches retirement age, as defined, while employed by the Company. During 2004, the Plan was amended to provide partial vesting of Company contributions to eligible employees with more than one year, but less than three years vesting service who are terminated as part of a designated reduction in workforce, as defined in the Plan document.

Forfeitures

Non-vested account balances are generally forfeited either upon full distribution or completion of five consecutive one-year breaks in service, as defined. Forfeitures are either used to reduce Company contributions to the Plan or to pay reasonable expenses of the Plan as determined by the Committee. Forfeitures used to reduce Company contributions and pay reasonable expenses were \$9,412,241 and \$3,349,091 during 2004 and 2003, respectively. At December 31, 2004 and 2003, forfeited non-vested accounts were \$1,550,410 and \$947,786, respectively.

Administrative Expenses

Administrative expenses are paid by the Company or the Plan, except for loan fees, which are paid by the borrowing participant.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 less the highest outstanding balance during the prior 12 months or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the remaining vested balance in the participant's account and bear interest at Prime plus 1% set monthly for the life of the loan, subject to changes by the Committee. Loan repayments, including interest and applicable loan fees, are generally repaid through payroll deductions.

Payment of Benefits

Upon termination of employment, death, retirement or disability, distributions are generally made in the form of a lump-sum payment. In addition, the Plan includes a provision for participants to make withdrawals from their account under certain hardship circumstances or obtaining age 59½, as defined. Required qualified joint and survivor annuity payment options are preserved for the portion of participant accounts transferred to the Plan from a money purchase pension plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP). Certain prior year amounts have been reclassified to conform to current year presentation.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Table of Contents**Investment Valuation and Income Recognition**

Plan investments, other than participant loans, are stated at fair value. Fair value is determined by the trustee using quoted market prices. Participant loans are valued at contract value plus accrued interest, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis.

Payment of Benefits

Benefit payments are recorded when paid.

5. INCOME TAX STATUS

The Plan received a determination letter from the Internal Revenue Service dated October 8, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code), and, therefore,

the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Table of Contents**6. RISKS AND UNCERTAINTIES**

The Plan has a participant-directed investment in Cardinal Health, Inc. common shares and other investment securities that are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. PARTIES-IN-INTEREST

Certain Plan investments held by the Master Trust at December 31, 2004 were shares of mutual funds managed by Fidelity. During 2004, Fidelity became the trustee as defined by the Plan, and, therefore, transactions involving these funds were considered party-in-interest transactions.

The Plan's holdings of \$278,221,349 of Cardinal Health, Inc. common shares were held by the Master Trust at December 31, 2004. The Plan held \$320,413,646 of Cardinal Health, Inc. common shares at December 31, 2003.
