Table of Contents

Note 1. Nature of Business and Summary of Significant Accounting Policies

(Dollars in thousands, except per share amounts)

Nature of business

Western Alliance Bancorporation is a bank holding company providing a full range of banking services to commercial and consumer clientele through its wholly owned subsidiaries: Bank of Nevada and First Independent Bank of Nevada, operating in Nevada; Alliance Bank of Arizona, operating in Arizona; Torrey Pines Bank and Alta Alliance Bank, operating in California; Miller/Russell & Associates, Inc., operating in Nevada, Arizona and Southern California; Premier Trust, Inc., operating in Nevada and Arizona and Shine Investment Advisory Services, Inc., operating in Colorado. These entities are collectively referred to herein as the Company. The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America and general industry practices.

Use of estimates in the preparation of financial statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant changes in the near term relate to the determination of the allowance for loan losses; fair value of collateralized debt obligations (CDOs), synthetic CDOs and related embedded derivatives; classification of impaired securities as other than temporary; and impairment of goodwill and other intangible assets.

Principles of consolidation

With the exception of certain trust subsidiaries which do not meet the criteria for consolidation pursuant to Financial Accounting Standards Board (FASB) Interpretation No. 46 (FIN 46), *Consolidation of Variable Interest Entities*, the consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Bank of Nevada and its subsidiary BW Real Estate, Inc., Alliance Bank of Arizona, Torrey Pines Bank, Alta Alliance Bank, First Independent Bank of Nevada (collectively referred to herein as the Banks), Miller/Russell & Associates, Inc., Premier Trust, Inc., and Shine Investment Advisory Services, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

Interim financial information

The accompanying unaudited consolidated financial statements as of March 31, 2008 and 2007 have been prepared in condensed format, and therefore do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. These statements have been prepared on a basis that is substantially consistent with the accounting principles applied to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2007.

The information furnished in these interim statements reflects all adjustments which are, in the opinion of management, necessary for a fair statement of the results for each respective period presented. Such adjustments are of a normal recurring nature. The results of operations in the interim statements are not necessarily indicative of the results that may be expected for any other quarter or for the full year. The interim financial information should be read in conjunction with the Company's audited financial statements.

Table of Contents

Repurchase program

For the quarter ended March 31, 2008, the Company repurchased 20,000 shares of common stock on the open market with a weighted average price of \$17.75 per share. The Company has the remaining authority to repurchase shares with an aggregate purchase price of \$30.6 million under a share repurchase program authorized by the Board of Directors through December 31, 2008. All repurchased shares are retired as soon as is practicable after settlement.

Recent Accounting Pronouncements

In September 2007, the FASB ratified the consensus of the Emerging Issues Task Force (EITF) Issue No. 06-4, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangement*. EITF 06-4 applies to endorsement split dollar life insurance policies that provide a benefit to an employee that extends to postretirement periods and requires an employer to recognize a liability for future benefits over the service period based on the substantive agreement with the employee. EITF 06-4 is effective for fiscal years beginning after December 15, 2007, with early adoption permitted. The adoption of EITF 06-4 resulted in a cumulative effect adjustment of \$0.2 million, effective January 1, 2008.

In December 2007, the FASB issued SFAS No. 141R, *Business Combinations* (SFAS 141R), and SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS 160). These new standards significantly change the accounting for and reporting of business combination transactions and noncontrolling interests (previously referred to as minority interests) in consolidated financial statements. These Statements are effective for the Company beginning on January 1, 2009. The Company does not expect SFAS 141R and SFAS 160 to have a material impact on the financial statements. These standards will change the Company's accounting treatment for business combinations on a prospective basis.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133* (SFAS 161). SFAS 161 amends and expands the disclosure requirements of FASB Statement No. 133, requiring enhanced disclosures about (a) how and why the Company uses derivative instruments, (b) how derivative instruments and related hedge items are accounted for under FASB Statement No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect the Company's financial position, results of operations, and cash flows. SFAS 161 is effective January 1, 2009 on a prospective basis, with comparative disclosures of earlier periods encouraged upon initial adoption.

Derivative financial instruments

All derivatives are recognized on the balance sheet at their fair value, with changes in fair value reported in current-period earnings. These instruments consist primarily of interest rate swaps.

Note 2. Fair Value Accounting

For the three months ended March 31, 2008, gains and losses from fair value changes included in the Consolidated Statement of Income were as follows (in thousands):

Table of Contents

**Changes in Fair Values for the Three-Month Period
Ended March 31, 2008 for Items Measured at Fair
Value Pursuant to Election of the Fair Value Option**

Description	Unrealized Gain (Loss) on Assets and Liabilities Measured at Fair Value, Net	Interest Income on Securities	Interest Expense on Junior Subordinated Debt	Total Changes in Fair Values Included in Current- Period Earnings
Securities measured at fair value	\$(4,077)	\$ 337	\$	\$ (3,740)
Junior subordinated debt	6,148		70	\$ 6,218
Fixed-rate term borrowings	(690)			(690)
	\$ 1,381	\$ 337	\$ 70	\$ 1,788

The difference between the aggregate fair value of \$56.0 million and the aggregate unpaid principal balance of \$66.5 million of junior subordinated debt was \$10.5 million at March 31, 2008.

The difference between the aggregate fair value of \$31.5 million and the aggregate unpaid principal balance of \$30.0 million of fixed-rate term borrowings measured at fair value was \$1.5 million at March 31, 2008.

Interest income on securities measured at fair value are accounted for similarly to those classified as available for sale and held to maturity. As of January 1, 2007, a discount or premium was calculated for each security based upon the difference between the par value and the fair value at that date. These premiums and discounts will generally be recognized in interest income over the term of the securities. For mortgage-backed securities, estimates of prepayments are considered in the constant yield calculations. Interest expense on junior subordinated debt is also determined under a constant yield calculation.

The Company measures certain assets and liabilities at fair value on a recurring basis, including securities available for sale, securities measured at market value and junior subordinated debt. The fair value of these assets and liabilities were determined using the following inputs at March 31, 2008 (in thousands):

Table of Contents

Description	Fair Value Measurements at Reporting Date Using:			
	March 31, 2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Interest rate swaps	3,233		3,233	
Total	\$ 90,713	\$	\$ 34,691	\$ 56,022

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Securities Available For Sale	Securities Measured at Fair Value	Junior Subordinated Debt
Beginning balance January 1, 2008	\$ 115,921	\$ 2,787	\$ (62,240)
Total gains (losses) (realized/unrealized)			
Included in earnings	(5,671)	(2,787)	6,218
Included in other comprehensive income	(17,631)		
Purchases, issuances, and settlements, net			
Transfers in and/or out of Level 3			
Ending balance March 31, 2008	\$ 92,619	\$	\$ (56,022)
The amount of total gains (losses) for the period included in earnings attributable to the change in unrealized gains (losses) relating to assets and liabilities	\$ (5,671)	\$ (2,787)	\$ 6,218

still held at the reporting date

Note 3. Earnings Per Share

Diluted earnings per share is based on the weighted average outstanding common shares during each period, including common stock equivalents. Basic earnings per share is based on the weighted average outstanding common shares during the period.

Basic and diluted earnings per share, based on the weighted average outstanding shares, are summarized as follows:

10

Table of Contents

	Three Months Ended March 31,	
	2008	2007
	(in thousands, except per share amounts)	
Basic:		
Net income applicable to common stock	\$ 4,142	\$ 11,403
Average common shares outstanding	29,544	26,950
Earnings per share	\$ 0.14	\$ 0.42
Diluted:		
Net income applicable to common stock	\$ 4,142	\$ 11,403
Average common shares outstanding	29,544	26,950
Stock option adjustment	435	1,134
Restricted stock adjustment		104
Stock warrant adjustment	568	993
Average common equivalent shares outstanding	30,547	29,181
Earnings per share	\$ 0.14	\$ 0.39

As of March 31, 2008, approximately 978,000 stock options and 132,000 stock warrants were considered anti-dilutive and excluded for purposes of calculating diluted earnings per share because they were out of the money.

Note 4. Securities

Municipal obligations				110
Mortgage-backed securities				228,494
Debt obligations and structured securities				2,787
				\$ 240,440

At March 31, 2008, the combined unrealized loss on our adjustable rate preferred stock and debt and other structured securities portfolios classified as available for sale was \$69.8 million, compared with \$45.3 million at December 31, 2007. The increase in unrealized losses is generally due to widening interest spreads which began in the third quarter of 2007. During March 2008, the near insolvency of Bear Stearns caused the debt of almost all financial companies to decline in value. This compounded the lack of liquidity for such securities that existed since late 2007. The Company is actively monitoring these portfolios for declines in fair value that are considered other-than-temporary. These combined unrealized losses were not considered as other than temporary as of March 31, 2008.

During the quarter ended March 31, 2008, the Company recorded impairment charges totaling \$5.3 million, including \$2.2 million related to a security which suffered a significant downgrade and \$3.1 million

Table of Contents

related to an auction-rate leveraged security that was discussed in the Company's Form 10-K for the year ended December 31, 2007.

Note 5. Loans

The components of the Company's loan portfolio as of March 31, 2008 and December 31, 2007 are as follows (in thousands):

	March 31, 2008	December 31, 2007
Construction and land development	\$ 805,464	\$ 806,110
Commercial real estate	1,550,793	1,514,533
Residential real estate	519,614	492,551
Commercial and industrial	808,948	784,378
Consumer	46,234	43,517
Less: net deferred loan fees	(8,421)	(8,080)
	3,722,632	3,633,009
Less:		
Allowance for loan losses	(50,839)	(49,305)
	\$3,671,793	\$3,583,704

Changes in the allowance for loan losses for the three months ended March 31, 2008 and 2007 are as follows (in thousands):

	Three Months Ended March 31,	
	2008	2007
Balance, beginning	\$49,305	\$33,551
Acquisitions		3,706
Provision charged to operating expense	8,059	441
Recoveries of amounts charged off	103	79
Less amounts charged off	(6,628)	(258)
Balance, ending	\$50,839	\$37,519

At March 31, 2008, total impaired and non-accrual loans were \$51.3 million and \$9.8 million, respectively, compared with \$35.1 million and \$17.9 million at December 31, 2007, respectively. Included in impaired loans were loans past due 90 days or more and still accruing of \$3.2 million at March 31, 2008 and \$0.8 million at December 31, 2007.

Note 6. Borrowed funds

The Company has a line of credit available from the Federal Home Loan Bank (FHLB). Borrowing capacity is determined based on collateral pledged, generally consisting of securities and loans, at the time of the borrowing. The Company also has borrowings from other sources pledged by securities. A summary of the Company's borrowings as of March 31, 2008 and December 31, 2007 follows (in thousands):

Table of Contents

	March 31, 2008	December 31, 2007
Short Term		
FHLB Advances (weighted average rate is 2008: 2.19% and 2007: 3.30%)	\$601,000	\$447,600
Other short term debt (weighted average rate is 2008: 4.87% and 2007: 4.83%)	44,380	41,730
Due in one year or less	\$645,380	\$489,330
Long Term		
FHLB Advances (weighted average rate is 2008: 4.77% and 2007: 4.63%)	\$ 41,458	\$ 45,768
Other long term debt (weighted average rate is 8.79%)	9,571	9,601
Due in over one year	\$ 51,029	\$ 55,369

The Company was not in compliance with a loan covenant with a single lending institution. The lending institution waived this requirement as of March 31, 2008. In consideration for waiving the covenant as of March 31, 2008, the line of credit was decreased from \$50 million to \$40 million.

Note 7. Income Tax Matters

The reasons for the differences between the statutory federal income tax rate and the effective tax rate are summarized as follows:

	March 31, 2008	March 31, 2007
Computed expected tax expense	\$1,956	\$6,075
Increase (decrease) resulting from:		
State income taxes, net of federal benefit	70	179
Dividends received deductions	(147)	(58)
Bank-owned life insurance	(280)	(325)
Tax-exempt income	(125)	(16)
Nondeductible expenses	85	84
Other	(178)	13
	\$1,381	\$5,952

Note 8. Contingencies

In the normal course of business, the Company is involved in various legal proceedings. In the opinion of management, any liability resulting from such proceedings would not have a material adverse effect on the consolidated financial statements.

Financial Instruments with Off-balance Sheet Risk

A summary of the contract amount of the Company's exposure to off-balance sheet risk is as follows (in thousands):

	March 31, 2008	December 31, 2007
	\$1,157,695	\$1,193,522

Commitments to extend credit, including unsecured loan commitments of \$241,298 in 2008 and \$230,677 in 2007		
Credit card commitments and guarantees	30,598	26,507
Standby letters of credit, including unsecured letters of credit of \$14,687 in 2008 and \$14,543 in 2007	80,402	80,790
	\$1,268,695	\$1,300,819

Subsequent to the period ended March 31, 2008, the Company entered into an agreement with the Federal Reserve Bank in which certain assets may be pledged as collateral on a borrowing line.

Note 9. Stock-based Compensation

For the three months ended March 31, 2008, 423,625 stock options with a weighted average exercise price of \$15.90 per share were granted to certain key employees and directors. The Company estimates the fair value of each option award on the date of grant using a Black-Scholes valuation model. The weighted average grant date fair value of these options was \$5.07 per share. These stock options generally have a vesting period of four years and a contractual life of seven years.

Table of Contents

As of March 31, 2008 and March 31, 2007, there were 2.6 million options outstanding.

For the three months ended March 31, 2008 and March 31, 2007 the company recognized stock-based compensation expense related to all options of \$0.5 million and \$0.4 million, respectively.

During the three months ended March 31, 2008, 27,150 shares of restricted stock were also issued. The Company estimates the compensation cost for restricted stock grants based upon the grant date fair value. Generally, these restricted stock grants have a three year vesting period. The weighted average grant date fair value was \$0.4 million. There were approximately 625,000 and 399,000 restricted shares outstanding at March 31, 2008 and 2007, respectively. For the three months ended March 31, 2008 and March 31, 2007 the Company recognized stock-based compensation of \$1.7 million and \$0.9 million related to the Company's restricted stock plan.

Note 10. Segment Information

The following is a summary of selected operating segment information as of and for the periods ended March 31, 2008 and 2007:

(in thousands)	Bank of Nevada	Alliance Bank of Arizona	Torrey Pines Bank	Alta Alliance Bank	First Independent Bank	Other	Intersegmen Eliminations	Consolidated Company

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2007 and our unaudited consolidated financial statements and related footnotes in the Quarterly Report on Form 10-Q. Unless the context requires otherwise, the terms "Company", "us", "we", and "our" refer to Western Alliance Bancorporation on a consolidated basis.

Forward-Looking Information

Certain statements contained in this document, including, without limitation, statements containing the words "believes", "anticipates", "intends", "expects", "should" and words of similar import, constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Act of 1934. Such forward looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the following: general economic and business conditions in those areas in which we operate, demographic changes, competition, fluctuations in interest rates, changes in business strategy or development plans, changes in governmental regulation, credit quality, the availability of capital to fund the expansion of our business, and other factors referenced in this Report. Except as required by law, we disclaim any obligation to update any such factors or to publicly announce the results of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

Overview

During the first quarter of 2008, our earnings were challenged by difficult economic conditions in our primary markets and the economic downturn generally, causing heavy reserves to our loan portfolio and write-downs in our securities portfolio. We continue to explore and invest in new and expanded business lines and products, including cash management services, credit cards, wealth management and equipment leasing, and we believe the current economic climate presents our Company with the opportunity to differentiate ourselves from our competitors. Loan growth for the quarter ended March 31, 2008 was \$89.6 million, or 2.5%, as compared to \$40.0 million, or 1.3% for the same period in 2007. Deposit growth was \$83.3 million, including \$70.1 million of brokered deposits, or 2.3%, for the three months ended March 31, 2008, compared to \$45.9 million, or 1.3% for the same period in 2007. We reported net income of \$4.1 million, or \$0.14 per diluted share, for the quarter ended March 31, 2008, as compared to \$11.4 million, or \$0.39 per diluted share, for the same period in 2007. The decrease in earnings is primarily due to an increase of \$9.0 million in non-interest expenses related to expansion efforts, a \$5.3 million impairment charge on securities and a \$7.6 million increase in the provision for loan losses from the previous year. Non-interest income, excluding securities impairment charges and increases in fair value of financial instruments measured at fair value, for the quarter ended March 31, 2008 increased 50.6% from the same period in the prior year due to non-recurring income amounts of \$1.1 million as well as increases in trust and investment advisory fees and service charges. Non-interest expense for the quarter ended March 31, 2008 increased 31.2% from the same period in 2007, due primarily to increases in salaries and benefits and occupancy costs caused by the acquisitions of First Independent Bank of Nevada and Shine Investment Advisory Services in 2007, the establishment of the PartnersFirst affinity credit card initiative in 2007 and continued branch expansion during 2007. Branch expansion is expected to be nominal in 2008. Selected financial highlights are presented in the table below.

(1) Net interest margin represents net interest income as a percentage of average interest-earning assets.

- (2) Efficiency ratio represents noninterest expenses as a percentage of the total of net interest income plus noninterest income (tax equivalent basis).
- (3) Tangible book value per share (net of tax) represents stockholders equity less intangibles, adjusted for deferred taxes related to intangibles, as a percentage of the shares outstanding at the end of the period.
- (4) Return on average tangible assets represents net income as a percentage of average total assets less average intangible assets.
- (5) Return on average tangible stockholders equity represents net income as a percentage of average total stockholders equity less

average
intangible
assets.

Table of Contents

Primary Factors in Evaluating Financial Condition and Results of Operations

As a bank holding company, we focus on several factors in evaluating our financial condition and results of operations, including:

Return on Average Equity (ROE) and Return on Tangible Average Equity (ROTE);

Return on Average Assets (ROA) and Return on Average Tangible Assets (ROTA);

Asset Quality;

Asset and Deposit Growth; and

Operating Efficiency.

Return on Average Equity. Our net income for the three months ended March 31, 2008 decreased 63.7% to \$4.1 million compared to \$11.4 million for the three months ended March 31, 2007. The decrease in net income was due primarily to a \$5.3 million securities impairment charge and a \$7.6 million increase to the provision for loan losses caused by challenging economic conditions in our primary markets, partially offset by \$1.4 million in gains on financial instruments measured at fair value. Basic earnings per share decreased to \$0.14 per share for the three months ended March 31, 2008 compared to \$0.42 per share for the same period in 2007. Diluted earnings per share was \$0.14 per share for the three month period ended March 31, 2008, compared to \$0.39 per share for the same period in 2007. Stockholders' equity decreased \$7.6 million from the quarter ended December 31, 2007 due primarily to a \$14.0 million increase in net unrealized losses on available for sale securities, offset by \$4.1 million in net income for the quarter ended March 31, 2008. The decrease in net income and equity resulted in an ROE of 3.28% for the three months ended March 31, 2008 compared to 11.17% for the three months ended March 31, 2007. ROTE decreased 63.5% to 6.25%.

Return on Average Assets. Our ROA for the three months ended March 31, 2008 decreased to 0.33% compared to 1.13% for the same period in 2007. The decrease in ROA is primarily due to the decreases in net income discussed above. ROTA decreased to 0.34% from 1.16% for the same period in 2007.

Asset Quality. For all banks and bank holding companies, asset quality plays a significant role in the overall financial condition of the institution and results of operations. We measure asset quality in terms of non-accrual and restructured loans and assets as a percentage of gross loans and assets, and net charge-offs as a percentage of average loans. Net charge-offs are calculated as the difference between charged-off loans and recovery payments received on previously charged-off loans. As of March 31, 2008, impaired loans, including non-accrual loans, were \$62.7 million compared to \$2.6 million at March 31, 2007. Non-accrual loans as a percentage of gross loans as of March 31, 2008 were 0.26% compared to less than 0.05% as of March 31, 2007. For the three months ended March 31, 2008 and March 31, 2007, net charge-offs as a percentage of average loans were 0.70% and 0.02%, respectively.

Asset Growth. The ability to produce loans and generate deposits is fundamental to our asset growth. Our assets and liabilities are comprised primarily of loans and deposits, respectively. Total assets increased 9.9% to \$5.2 billion as of March 31, 2008 from \$4.7 billion as of March 31, 2007. Gross loans grew 11.6% to \$3.7 billion as of March 31, 2008 from \$3.3 billion as of March 31, 2007. Total deposits decreased 5.7% to \$3.6 billion as of March 31, 2008 from \$3.8 billion as of March 31, 2007.

Operating Efficiency. Operating efficiency is measured in terms of how efficiently income before income taxes is generated as a percentage of revenue. Our tax-equivalent efficiency ratio (non-

Table of Contents

interest expenses divided by the sum of net interest income and non interest income, tax adjusted) was 68.2% for the three months ended March 31, 2008, compared to 62.0% for the same period in 2007. The increase was primarily driven by increases in salaries and benefits and occupancy costs associated with the acquisitions of First Independent Bank of Nevada and Shine Investment Advisory Services in 2007, the establishment of the PartnersFirst affinity credit card initiative in 2007 and continued branch expansion during 2007.

Critical Accounting Policies

The Notes to Audited Consolidated Financial Statements for the year ended December 31, 2007 contain a summary of our significant accounting policies, including discussions on recently issued accounting pronouncements, our adoption of them and the related impact of their adoption. We believe that certain of these policies, along with various estimates that we are required to make in recording our financial transactions, are important to have a complete picture of our financial position. In addition, these estimates require us to make complex and subjective judgments, many of which include matters with a high degree of uncertainty. The discussion of these critical accounting policies and significant estimates can be found in Note 1 of the Audited Consolidated Financial Statements filed with the Company's Annual Report on Form 10-K.

Results of Operations

Our results of operations depend substantially on net interest income, which is the difference between interest income on interest-earning assets, consisting primarily of loans receivable, securities and other short-term investments, and interest expense on interest-bearing liabilities, consisting primarily of deposits and borrowings. Our results of operations are also dependent upon our generation of non-interest income, consisting primarily of income from trust and investment advisory services and banking service fees. Other factors contributing to our results of operations include our provisions for loan losses, gains or losses on sales of securities and income taxes, as well as the level of our non-interest expenses, such as compensation and benefits, occupancy and equipment and other miscellaneous operating expenses.

The following table sets forth a summary financial overview for the three months ended March 31, 2008 and 2007.

Table of Contents

	Three Months Ended March 31,		Increase
	2008	2007	
(in thousands, except per share amounts)			
Consolidated Statement of Earnings Data:			
Interest income	\$76,792	\$67,313	\$ 9,479
Interest expense	29,930	26,457	3,473
Net interest income	46,862	40,856	6,006
Provision for loan losses	8,059	441	7,618
Net interest income after provision for loan losses	38,803	40,415	(1,612)
Investment security gains, net	161	284	(123)
Derivative gains	43		43
Securities impairment charges	(5,280)		(5,280)
Net unrealized losses on assets and liabilities measured at fair value	1,381	(13)	1,394
Other income, excluding security and fair value gains/(losses)	8,418	5,590	2,828
Non-interest expense	37,938	28,921	9,017
Net income before income taxes	5,588	17,355	(11,767)
Minority interest	65		65
Income tax expense	1,381	5,952	(4,571)
Net income	\$ 4,142	\$ 11,403	\$ (7,261)
Diluted earnings per share	\$ 0.14	\$ 0.39	\$ (0.25)

The 63.7% decrease in net income was due primarily to a \$5.3 million securities impairment charge and a \$7.6 million increase to the provision for loan losses caused by challenging economic conditions in our primary markets, partially offset by \$1.6 million in realized and unrealized gains on financial instruments. The increase in net interest income for the three months ended March 31, 2008 over the same period 2007 was the result of an increase in the volume of interest-earning assets, primarily loans.

Net Interest Income and Net Interest Margin. The 14.7% increase in net interest income for the three months ended March 31, 2008 compared to the same period in 2007 was due to an increase in interest income of \$9.5 million, reflecting the effect of an increase of \$891.0 million in average interest-bearing assets which was funded primarily with an increase of \$292.0 million in average deposits and \$707.1 million in average short-term borrowings.

The average yield on our interest-earning assets was 6.85% for the three months ended March 31, 2008, compared to 7.52% for the same period in 2007. The decrease in the yield on our interest-earning assets is a result of a decrease in market rates, repricing on our adjustable rate loans, and new loans originated with lower interest rates because of the lower interest rate environment.

The cost of our average interest-bearing liabilities decreased to 3.32% in the three months ended March 31, 2008, from 4.12% in the three months ended March 31, 2007, which is a result of lower rates paid on deposit accounts and borrowings due to a lower interest rate environment.

Average Balances and Average Interest Rates. The tables below set forth balance sheet items on a daily average basis for the three months ended March 31, 2008 and 2007 and present the daily average interest rates earned on assets and the daily average interest rates paid on liabilities for

Table of Contents

such periods. Non-accrual loans have been included in the average loan balances. Securities include securities available for sale, securities held to maturity and securities carried at market value pursuant to SFAS 159 elections. Yields on tax-exempt securities and loans are computed on a tax equivalent basis.

Table of Contents

Table of Contents

Net Interest Income. The table below demonstrates the relative impact on net interest income of changes in the volume of earning assets and interest-bearing liabilities and changes in rates earned and paid by us on such assets and liabilities. For purposes of this table, non-accrual loans have been included in the average loan balances.

	Three Months Ended March 31, 2008 v. 2007		
	Volume	Rate Increase (Decrease) Due to Changes in (1)	Total
		(in thousands)	
Interest on securities:			
Taxable	\$ 2,251	\$ 449	\$ 2,700
Tax-exempt	386	(55)	331

Total interest expense	8,581	(5,108)	3,473
Net increase	\$ 6,452	\$ (446)	\$ 6,006

(1) Changes due to both volume and rate have been allocated to volume changes.

(2) Changes due to mark-to-market gains/losses under SFAS 159 have been allocated to volume

changes.

Provision for Loan Losses. The provision for loan losses in each period is reflected as a charge against earnings in that period. The provision is equal to the amount required to maintain the allowance for loan losses at a level that, in our judgment, is adequate to absorb probable loan losses inherent in the loan portfolio.

Our provision for loan losses was \$8.1 million for the three months ended March 31, 2008, compared to \$0.4 million for the same period in 2007. Factors that impact the provision for loan losses are net charge-offs or recoveries, changes in the size and mix of the loan portfolio, the recognition of changes in current risk factors and specific reserves on impaired loans.

Table of Contents

Non-Interest Income. We earn non-interest income primarily through fees related to:

Trust and investment advisory services,

Services provided to deposit customers, and

Services provided to current and potential loan customers.

The following tables present, for the periods indicated, the major categories of non-interest income:

	Three Months Ended		Increase (Decrease)
	2008	March 31, 2007	
		(in thousands)	
Trust and investment advisory services	\$2,796	\$2,105	\$ 691
Service charges	1,427	1,069	358
Income from bank owned life insurance	800	928	(128)
Other	3,395	1,488	1,907
Total non-interest income, excluding securities and fair value gains (losses)	\$8,418	\$5,590	\$2,828

The \$2.8 million, or 50.6%, increase in non-interest income, excluding net investment securities gains and net unrealized gain/loss on assets and liabilities measured at fair value, from the three months ended March 31, 2007 to the same period in 2008 was due to increases in investment advisory revenues, increases in service-related charges and non-recurring income amounts of approximately \$1.1 million.

Assets under management at Miller/Russell and Associates were \$1.38 billion at March 31, 2008, down 7.7% from \$1.49 billion at March 31, 2007. This decline is due primarily to lower market valuations. At Premier Trust, assets under management increased 30.3% from \$251 million to \$327 million from March 31, 2007 to March 31, 2008. On July 31, 2007, we acquired a majority interest in Shine Investment Advisory Services. Assets under management were \$410 million as of the acquisition date and \$408 million on March 31, 2008. Overall growth in assets under management resulted in a 32.8% increase in trust and advisory fee revenue for the three month period ending March 31, 2008 as compared to the three month period ending March 31, 2007.

Service charges increased 33.5%, or \$0.4 million from 2007 to 2008, due to higher deposit balances and the growth in our customer base.

Other income increased 128.2%, or \$1.9 million from 2007 to 2008, due to the growth of the Company and its operations and non-recurring income amounts of approximately \$1.1 million, including a gain on the sale of a foreclosed property of approximately \$0.4 million.

Unrealized gains/losses on assets and liabilities measured at fair value. During the three month period ended March 31, 2008, we recognized net unrealized gains on assets and liabilities measured at fair value of \$1.4 million.

These gains and losses are primarily the result of losses

Table of Contents

caused by changes in market yields on securities similar to those in our portfolio, offset by a gain on our trust preferred liabilities due to a widening of interest rate spreads. We view the majority of these gains and losses as temporary in nature since the changes in value on most of our financial instruments were not related to a change in credit profile, but rather such gains and losses were the result of fluctuations in market yields.

Non-Interest Expense. The following table presents, for the periods indicated, the major categories of non-interest expense:

	Three Months Ended		Increase (Decrease)
	2008	March 31, 2007	
	(in thousands)		
Salaries and employee benefits	\$21,934	\$17,033	\$4,901
Occupancy	5,028	4,239	789
Advertising and other business development	2,100	1,462	638
Customer service	1,200	1,323	(123)
Insurance	972	298	674
Legal, professional and director fees	931	1,044	(113)
Intangible amortization	789	257	532
Data processing	769	435	334
Audits and exams	648	531	117
Telephone	401	340	61
Supplies	371	509	(138)
Travel and automobile	338	287	51
Correspondent and wire transfer costs	301	418	(117)
Other	2,156	745	1,411
Total non-interest expense	\$37,938	\$28,921	\$9,017

Non-interest expense grew \$9.0 million from the three months ended March 31, 2007 compared to the same period in 2008. This increase is attributable to our overall growth, and specifically to merger and acquisition activity and the opening of new branches. At March 31, 2008, we had 979 full-time equivalent employees compared to 959 at March 31, 2007.

Insurance expense increased \$0.7 million from the three months ended March 31, 2007 to the same period in 2008 primarily due to significant FDIC depository insurance rate increases assessed for the 2008 period.

Intangible amortization increased \$0.5 million from the three months ended March 31, 2007 to the same period in 2008 as a result of decreases in the estimated amortizable lives of the core deposit intangibles acquired through prior acquisitions.

Other non-interest expense increased, in general, as a result of the growth in assets and operations of our banking subsidiaries, including the acquisitions of First Independent and Shine.

Table of Contents**Financial Condition***Total Assets*

On a consolidated basis, our total assets as of March 31, 2008 and December 31, 2007 were \$5.2 billion and \$5.0 billion, respectively. Assets experienced growth from the period ending March 31, 2007 to the period ending March 31, 2008 of \$469.7 million, or 9.9%, including loan growth of \$386.6 million, or 11.6%.

Loans

Our gross loans including deferred loan fees on a consolidated basis as of March 31, 2008 and December 31, 2007 were \$3.7 billion and \$3.6 billion, respectively. Our overall growth in loans from December 31, 2007 to March 31, 2008 is a result of targeting quality credit customers in our markets.

The following table shows the amounts of loans outstanding by type of loan at the end of each of the periods indicated.

	March 31, 2008	December 31, 2007
	(in thousands)	
Construction and land development	\$ 805,464	\$ 806,110
Commercial real estate	1,550,793	1,514,533
Residential real estate	519,614	492,551
Commercial and industrial	808,948	784,378
Consumer	46,234	43,517
Less: Net deferred loan fees	(8,421)	(8,080)
Gross loans, net of deferred fees	3,722,632	3,633,009
Less: Allowance for loan losses	(50,839)	(49,305)
	\$ 3,671,793	\$ 3,583,704

Non-Performing Assets

Non-performing assets include loans past due 90 days or more and still accruing interest, non-accrual loans, and other real estate owned, or OREO. In general, loans are placed on non-accrual status when we determine timely recognition of interest to be in doubt due to the borrower's financial condition and collection efforts. Restructured loans have modified terms to reduce either principal or interest due to deterioration in the borrower's financial condition. OREO results from loans where we have received physical possession of the borrower's assets that collateralized the loan.

Impaired loans are loans for which it is probable that the Company will not be able to collect all amounts due according to the original contractual terms of the loan agreement. Other impaired loans include certain loans for which the original terms have been extended or modified, but which are well collateralized and for which no loss is expected.

Table of Contents

The following table summarizes the loans for which the accrual of interest has been discontinued, loans past due 90 days or more and still accruing interest, restructured loans, other impaired loans and OREO.

	March 31, 2008	December 31, 2007
	(\$ in thousands)	
Total non-accrual loans	\$ 9,750	\$ 17,873
Loans past due 90 days or more and still accruing	3,235	779
Total non-performing loans	12,985	18,652
Restructured loans	3,706	3,782
Impaired loans acquired through merger	2,720	2,760
Other impaired loans, excluding restructured loans	31,862	9,920
Total impaired loans, including non-performing loans	\$ 51,273	\$ 35,114
Other real estate owned (OREO)	\$ 6,901	\$ 3,412
Non-accrual loans to gross loans	0.26%	0.49%
Loans past due 90 days or more and still accruing to total loans	0.09	0.02
Interest income received on nonaccrual loans	\$ 34	\$ 30
Interest income that would have been recorded under the original terms of the loans	\$ 205	\$ 765

As of March 31, 2008 and December 31, 2007, non-accrual loans totaled \$9.8 million and \$17.9 million, respectively. Non-accrual loans at March 31, 2008 consisted of 49 loans.

Allowance for Loan Losses

Like all financial institutions, we must maintain an adequate allowance for loan losses. The allowance for loan losses is established through a provision for loan losses charged to expense. Loans are charged against the allowance for loan losses when we believe that collectibility of the principal is unlikely. Subsequent recoveries, if any, are credited to the allowance. The allowance is an amount that we believe will be adequate to absorb probable losses on existing loans that may become uncollectible, based on evaluation of the collectibility of loans and prior credit loss experience, together with the other factors noted earlier.

Our allowance for loan loss methodology incorporates several quantitative and qualitative risk factors used to establish the appropriate allowance for loan loss at each reporting date. Quantitative factors include our historical loss experience, peer group experience, delinquency and charge-off trends, collateral values, changes in non-performing loans, other factors, and information about individual loans including the borrower's sensitivity to interest rate movements. Qualitative factors include the economic condition of our operating markets and the state of certain industries. Specific changes in the risk factors are based on perceived risk of similar groups of loans classified by collateral type, purpose and terms. Statistics on local trends, peers, and an internal five-year loss history are also incorporated into the allowance. Due to the credit concentration of our loan portfolio in real estate secured loans, the value of collateral is heavily dependent on real estate values in Nevada, Arizona and California. While management

Table of Contents

uses the best information available to make its evaluation, future adjustments to the allowance may be necessary if there are significant changes in economic or other conditions. In addition, the Federal Deposit Insurance Corporation, or FDIC, and state banking regulatory agencies, as an integral part of their examination processes, periodically review the Banks allowance for loan losses, and may require us to make additions to the allowance based on their judgment about information available to them at the time of their examinations. Management periodically reviews the assumptions and formulae used in determining the allowance and makes adjustments if required to reflect the current risk profile of the portfolio.

The allowance consists of specific and general components. The specific allowance relates to impaired loans. For such loans that are classified as impaired, an allowance is established when the discounted cash flows (or collateral value or observable market price) of the impaired loan are lower than the carrying value of that loan, pursuant to SFAS 114, Accounting by Creditors for Impairment of a Loan. The general allowance covers non-impaired loans and is based on historical loss experience adjusted for the various qualitative and quantitative factors listed above, pursuant to SFAS 5, Accounting for Contingencies. Loans graded Watch List/Special Mention and below are individually examined closely to determine the appropriate loan loss reserve.

The following table summarizes the activity in our allowance for loan losses for the period indicated.

Table of Contents

	Three months ended March 31,	
	2008	2007
	(\$ in thousands)	
Allowance for loan losses:		
Balance at beginning of period	\$49,305	\$33,551
Provisions charged to operating expenses	8,059	441
Acquisitions		3,706
Recoveries of loans previously charged-off:		
Construction and land development		
Commercial real estate		
Residential real estate		
Commercial and industrial	95	71
Consumer	8	8
Total recoveries	103	79
Loans charged-off:		
Construction and land development	3,323	
Commercial real estate	182	
Residential real estate	970	
Commercial and industrial	2,084	91
Consumer	69	167
Total charged-off	6,628	258
Net charge-offs	6,525	179
Balance at end of period	\$50,839	\$37,519
Net charge-offs to average loans outstanding	0.70%	0.02%
Allowance for loan losses to gross loans	1.37	1.12

Net charge-offs totaled \$6.6 million for the three months ended March 31, 2008, compared to net charge-offs of \$0.2 million during the same period in 2007. The provision for loan losses totaled \$8.1 million for the three months ended March 31, 2008, compared to \$0.4 million in the three months ended March 31, 2007. The increase in the provision for loan losses is due to an increase in loan charge-offs, changes in the size and mix of the loan portfolio and specific reserves on impaired loans.

Investments

Securities are identified as either held-to-maturity, available-for-sale, or measured at fair value based upon various factors, including asset/liability management strategies, liquidity and profitability objectives, and regulatory requirements. Held-to-maturity securities are carried at cost, adjusted for amortization of premiums or accretion of discounts. Available-for-sale securities are securities that may be sold prior to maturity based upon asset/liability management decisions. Securities identified as available-for-sale are carried at fair value. Unrealized gains or losses on available-for-sale securities are recorded as accumulated other comprehensive income in stockholders equity. Amortization of premiums or accretion of discounts on mortgage-backed securities is periodically adjusted for estimated prepayments. Securities measured at fair value are reported at fair value, with unrealized gains and losses included in current earnings.

Table of Contents

We use our investment securities portfolio to ensure liquidity for cash requirements, manage interest rate risk, provide a source of income and to manage asset quality. The carrying value of our investment securities as of March 31, 2008 totaled \$731.1 million, compared to \$736.1 million at December 31, 2007.

In 2007 and 2008 we maintained a high level of investment in mortgage-backed securities while shifting from U.S. Government agency obligations to higher yielding debt obligations (primarily collateralized debt obligations secured by bank and other financial company trust preferred liabilities) and adjustable rate preferred stock of bank and other financial companies.

The carrying value of our portfolio of investment securities at March 31, 2008 and December 31, 2007 was as follows:

	Carrying Value	
	At March 31, 2008	At December 31, 2007
	(in thousands)	
U.S. Treasury securities	\$ 5,984	\$
U.S. Government-sponsored agencies	10,456	24,128
Mortgage-backed obligations	530,295	502,496
State and Municipal obligations	21,617	22,211
Adjustable rate preferred stock	31,966	29,710
Debt obligations and structured securities	115,869	142,127
Other	14,936	15,528
 Total investment securities	 \$731,123	 \$ 736,200

At March 31, 2008, the combined unrealized loss on our adjustable rate preferred stock and debt and other structured securities portfolios classified as available for sale was \$69.8 million, compared with \$45.3 million at December 31, 2007. The increase in unrealized losses is generally due to widening interest spreads which began in the third quarter of 2007. During March 2008, the near insolvency of Bear Stearns caused the debt of almost all financial companies to decline in value. This compounded the lack of liquidity for such securities that existed since late 2007. We are actively monitoring these portfolios for declines in fair value that are considered other-than-temporary. If current market conditions persist, we may have impairment charges against earnings in a future period for declines in securities fair values that are considered other-than-temporary.

During the quarter ended March 31, 2008, we recorded impairment charges totaling \$5.3 million, including \$2.2 million related to a security which suffered a significant downgrade and \$3.1 million related to an auction-rate leveraged security that was discussed in our Form 10-K for the year ended December 31, 2007.

Goodwill

The Company recorded \$217.8 million of goodwill from its merger-related activities during 2006 and 2007. In accordance with SFAS No. 141, goodwill is not amortized but rather tested for impairment annually on October 1. Impairment testing consists of comparing the fair value of the acquired reporting units with their carrying amounts, including goodwill. An impairment loss

Table of Contents

would be recorded to the extent the carrying value of the goodwill exceeds the fair value of the goodwill. At March 31, 2008, the Company's market capitalization was less than the total shareholders' equity, which is one factor that is considered when determining goodwill impairment. If current market conditions persist, it is possible that we will have a goodwill impairment charge against earnings in a future period.

Deposits

Deposits have historically been the primary source for funding our asset growth. As of March 31, 2008, total deposits were \$3.6 billion, compared to \$3.5 billion as of December 31, 2007. Our deposits related to customer relationships increased approximately \$13 million, and we acquired third party brokered certificates of deposit totaling approximately \$70 million. We do not anticipate utilizing brokered deposits as a significant source of funding in future periods.

Although we expect deposit growth to continue to be the primary source of funding the asset growth of the Company, we are augmenting our liquidity through the use of alternative sources of funding, including overnight and term advances from the Federal Home Loan Bank, repurchase agreements, subordinated debt and lines of credit.

The following table provides the average balances and weighted average rates paid on deposits for the three months ended March 31, 2008.

	Three months ended March 31, 2008		Three months ended March 31, 2007	
	Average Balance/Rate		Average Balance/Rate	
	(\$ in thousands)			
Interest checking (NOW)	\$ 263,576	1.93%	\$ 250,219	2.61%
Savings and money market	1,575,957	2.72	1,383,863	3.79
Time	699,658	4.37	613,084	4.84
Total interest-bearing deposits	2,539,191	3.09	2,247,166	3.95
Non-interest bearing demand deposits	965,866		1,037,158	
Total deposits	\$ 3,505,057	2.24%	\$ 3,284,324	2.70%

Our customer repurchases declined \$50.3 million from December 31, 2007 to March 31, 2008 due primarily to the transfer of customer funds to other products offered by our banks.

Capital Resources

Current risk-based regulatory capital standards generally require banks and bank holding companies to maintain three minimum capital ratios. Tier 1 risk-based capital ratio compares Tier 1 or core capital, which consists principally of common equity, and risk-weighted assets for a minimum ratio of at least 4%. Tier 1 capital ratio compares Tier 1 capital to adjusted total assets for a minimum ratio of at least 4%. Total risk-based capital ratio compares total capital, which consists of Tier 1 capital, certain forms of subordinated debt, a portion of the allowance for loan losses, and preferred stock, to risk-weighted assets for a minimum ratio of at least 8%. Risk-weighted assets are calculated by multiplying the balance in each category of assets by a risk

Table of Contents

factor, which ranges from zero for cash assets and certain government obligations to 100% for some types of loans, and adding the products together.

The following table provides a comparison of our risk-based capital ratios and leverage ratios to the minimum regulatory requirements as of March 31, 2008.

As of March 31, 2008	Actual		Adequately-Capitalized Requirements (\$ in thousands)		Minimum For Well-Capitalized Requirements	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Total Capital (to Risk Weighted Assets)	468,249	10.1%	369,809	8.0%	462,261	10.0%
Tier I Capital (to Risk Weighted Assets)	357,118	7.7	184,904	4.0	277,356	6.0
Leverage ratio (to Average Assets)	357,118	7.3	195,646	4.0	244,557	5.0

The Company and each of its banking subsidiaries met the well capitalized guidelines under regulatory requirements as of March 31, 2008. The Company is currently pursuing additional subordinated debt financing in order to increase its total capital ratio, and we expect to raise approximately \$50 million.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss in a financial instrument arising from adverse changes in market prices and rates, foreign currency exchange rates, commodity prices and equity prices. Our market risk arises primarily from interest rate risk inherent in our lending, investing and deposit taking activities. To that end, management actively monitors and manages our interest rate risk exposure.

There have not been any material changes in the market risk disclosure contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

ITEM 4. Controls and Procedures*Evaluation of Disclosure Controls*

Based on their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, the Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. Additionally, our disclosure controls and procedures were also effective in ensuring that information required to be disclosed in our Securities Exchange Act reports is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer to allow timely decisions regarding required disclosures.

Table of Contents*Changes in Internal Control over Financial Reporting*

There have not been any changes in the Company's internal control over financial reporting during the quarter ended March 31, 2008, which have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. Other Information**Item 1. Legal Proceedings**
