Superior Industries International, Inc. issued a press release on August 19, 2008, announcing the planned closure of its wheel manufacturing facility located in Pittsburg, Kansas, that will result in a lay off of approximately 600 employees. The planned closure of the Pittsburg facility, which will be effective December 19, 2008, was decided upon during the Board of Directors meeting on August 15, 2008. Also included in this announcement was the elimination of 90 open positions and 65 filled positions at our other U.S. facilities. These two actions will result in a reduction of 755 positions, or 29% of Superior's U.S. workforce. These actions are the result of our recently completed review of our strategic initiatives to reduce costs and balance our manufacturing capacity in the face of reduced demand for SUVs and light trucks. We expect to incur severance and other costs related to the closure of this facility of approximately \$1.8 million over the next six months. An additional \$296,000 of severance costs from the reductions at our other U.S. facilities is expected to be recorded in the current quarter ending on September 30, 2008. Impairment charges, if any, associated with the closing of the Pittsburg facility will be recorded in the third quarter ending on September 30, 2008.
