TENNANT COMPANY  
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
(In thousands, except shares and per share data)

1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the Securities and Exchange Commission (“SEC”) requirements for interim reporting, which allows certain footnotes and other financial information normally required by accounting principles generally accepted in the United States of America to be condensed or omitted. In our opinion, the Condensed Consolidated Financial Statements contain all adjustments (consisting of only normal recurring adjustments) necessary for the fair presentation of our financial position and results of operations.

These statements should be read in conjunction with the Consolidated Financial Statements and Notes included in our annual report on Form 10-K for the year ended December 31, 2011. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

2. Newly Adopted Accounting Pronouncements

Fair Value Measurements and Disclosures

In May 2011, the Financial Accounting Standards Board (“FASB”) issued new accounting guidance for fair value measurements providing common fair value measurement and disclosure requirements in U.S. GAAP and IFRS. While the guidance is largely consistent with existing fair value measurement principles in U.S. GAAP, it expands existing disclosure requirements for fair value measurements and makes other amendments. Key additional disclosures include quantitative disclosures about unobservable inputs in Level 3 measures, qualitative information about sensitivity of Level 3 measures and valuation process, and classification within the fair value hierarchy for instruments where fair value is only disclosed in the footnotes but carrying amount is on some other basis. We adopted this guidance January 1, 2012. This guidance did not have an impact on our results of operations or financial position.

Comprehensive Income

In June 2011, the FASB issued guidance on the presentation of comprehensive income that will require us to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This guidance eliminates the option to present the components of other comprehensive income as part of the statement of equity. In December 2011, the FASB issued an amendment to this standard which defers the requirement that companies present reclassification adjustments for each component of accumulated other comprehensive income in both net income and other comprehensive income on the face of the financial statements and requires retrospective application. We adopted this guidance January 1, 2012. Since this standard impacts presentation and disclosure requirements only, this adopted guidance did not have an impact on our results of operations or financial position.

## 4. Acquisitions

On May 31, 2011, we acquired Water Star, Inc. ("Water Star"), a Newbury, Ohio firm specializing in electrochemistry for \$4,456. The first installment payment was made on May 31, 2012. These installment payments are not contingent on any future services or other financial targets. This acquisition is consistent with our strategy to expand our intellectual property in support of our long-term vision to deliver sustainable, breakthrough innovations.

The components of the purchase price of the business combination described above have been allocated as follows:

Our most restrictive covenants are part of our 2011 Credit Agreement (as defined below) with JPMorgan (as defined below), which are the same covenants in the Shelf Agreement (as defined below) with Prudential (as defined below), and require us to maintain an indebtedness to EBITDA ratio of not greater than 3.00 to 1 and to maintain an EBITDA to interest expense ratio of no less than 3.50 to 1 as of the end of each quarter. As of June 30, 2012, our indebtedness to EBITDA ratio was 0.47 to 1 and our EBITDA to interest expense ratio was 30.35 to 1.

## Credit Facilities

## JPMorgan Chase Bank, National Association

On May 5, 2011, we entered into a Credit Agreement (the "2011 Credit Agreement") with JPMorgan Chase Bank, N. A. ("JPMorgan"), as administrative agent and collateral agent, U.S. Bank National Association, as syndication agent, Wells

Fargo Bank, National Association, and RBS Citizens, N.A., as co-documentation agents, and the Lenders (including JPMorgan) from time to time party thereto. Upon entry into the 2011 Credit Agreement, we repaid and terminated our June 19, 2007 Credit Agreement. The 2011 Credit Agreement provides us and certain of our foreign subsidiaries access to a senior unsecured credit facility until May 5, 2016, in the amount of \$125,000, with an option to expand by up to \$62,500 to a total of \$187,500. Borrowings may be denominated in U.S. Dollars or certain other currencies. The 2011 Credit Agreement contains a \$100,000 sublimit on borrowings by foreign subsidiaries.

The fee for committed funds under the 2011 Credit Agreement ranges from an annual rate of 0.25% to 0.40%, depending on our leverage ratio. Borrowings under the 2011 Credit Agreement bear interest at a rate per annum equal to the greatest of (a) the prime rate, (b) the federal funds rate plus 0.50% and (c) the adjusted LIBOR rate for a one month period plus 1.0%, plus, in any such case, an additional spread of 0.50% to 1.10%, depending on our leverage ratio.

The 2011 Credit Agreement gives the lenders a pledge of 65% of the stock of certain first tier foreign subsidiaries. The obligations under the 2011 Credit Agreement are also guaranteed by our first tier domestic subsidiaries.

## Table of Contents

The 2011 Credit Agreement contains customary representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and merge or consolidate with another entity. Further, the 2011 Credit Agreement contains the following covenants:

- a covenant requiring us to maintain an indebtedness to EBITDA ratio as of the end of each quarter of not greater than 3.00 to 1;
- a covenant requiring us to maintain an EBITDA to interest expense ratio as of the end of each quarter of no less than 3.50 to 1;
- a covenant restricting us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50,000 to \$75,000 during any fiscal year based on our leverage ratio after giving effect to such payments; and
- a covenant restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25,000.

As of June 30, 2012, we were in compliance with all covenants under the 2011 Credit Agreement. There was \$10,000 in outstanding borrowings under this facility at June 30, 2012, with a weighted average interest rate of 1.74%.

Prudential Investment Management, Inc.

On May 5, 2011, we entered into Amendment No. 1 to our Private Shelf Agreement (“Amendment No. 1”), which amends the Private Shelf Agreement, dated as of July 29, 2009, with Prudential Investment Management, Inc. (“Prudential”) and Prudential affiliates from time to time party thereto (the “Shelf Agreement”). The Shelf Agreement provides us and our subsidiaries access to an uncommitted, senior unsecured, maximum aggregate principal amount of \$80,000 of debt capital.

Amendment No. 1 principally provides the following changes to the Shelf Agreement:

- elimination of the security interest in our personal property and subsidiaries;
- an amendment to the Maximum Leverage Ratio to not greater than 3.00 to 1 for any period ending on or after March 31, 2011;

## 8. Warranty

We record a liability for warranty claims at the time of sale. The amount of the liability is based on the trend in the historical ratio of claims to sales, the historical length of time between the sale and resulting warranty claim, new product introductions and other factors. Warranty terms on machines generally range from one to four years.

The changes in warranty reserves for the six months ended June 30, 2012 and 2011 were as follows:

	Six Months Ended June 30

## 9. Fair Value Measurements

Estimates of fair value for financial assets and financial liabilities are based on the framework established in the accounting guidance for fair value measurements. The framework defines fair value, provides guidance for measuring fair value and requires certain disclosures. The framework discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). The framework utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

Our population of assets and liabilities subject to fair value measurements at June 30, 2012 is as follows:

	Fair Value	Level 1	Level 2	Level 3
<b>Assets:</b>				
Foreign currency forward exchange contracts	16	-	16	-
<b>Total Assets</b>	<b>\$ 16</b>	<b>\$ -</b>	<b>\$ 16</b>	<b>\$ -</b>
<b>Liabilities:</b>				
Foreign currency forward exchange contracts	\$ 326	\$ -	\$ 326	\$ -
<b>Total Liabilities</b>	<b>\$ 326</b>	<b>\$ -</b>	<b>\$ 326</b>	<b>\$ -</b>

Our foreign currency forward exchange contracts are valued based on quoted forward foreign exchange prices at the reporting date.

We use derivative instruments to manage exposures to foreign currency only in an attempt to limit underlying exposures from currency fluctuations and not for trading purposes. Gains or losses on forward foreign exchange contracts to economically hedge foreign currency-denominated assets and liabilities are recognized in Other Current Assets and Other Current Liabilities within the Condensed Consolidated Balance Sheets and are recognized in Other Income (Expense), Net under Net Foreign Currency Transaction (Losses) Gains within the Condensed Consolidated Statements of Earnings. As of June 30, 2012, the fair value of such contracts outstanding was an asset of \$16 and a liability of \$326. As of June 30, 2011, the fair value of such contracts outstanding was an asset of \$26 and a liability of \$267. We recognized a net gain of \$2,032 and a net loss of \$3,567 on these contracts during the first six months of 2012 and 2011, respectively. At June 30, 2012 and 2011, the notional amounts of foreign currency forward exchange contracts outstanding were \$44,802 and \$48,503, respectively.

Table of Contents

The carrying amounts reported in the Condensed Consolidated Balance Sheets for Cash and Cash Equivalents, Accounts Receivable, Other Current Assets, Accounts Payable and Other Current Liabilities approximate fair value.

The fair value of our Long-Term Debt approximates cost based on the borrowing rates currently available to us for bank loans with similar terms and remaining maturities.

## 11. Commitments and Contingencies

Certain operating leases for vehicles contain residual value guarantee provisions, which would become due at the expiration of the operating lease agreement if the fair value of the leased vehicles is less than the guaranteed residual

value. As of June 30, 2012, of those leases that contain residual value guarantees, the aggregate residual value at lease expiration was \$7,192, of which we have guaranteed \$3,803. As of June 30, 2012, we have recorded a liability for the estimated end of term loss related to this residual value guarantee of \$564 for certain vehicles within our fleet. Our fleet also contains vehicles we estimate will settle at a gain. Gains on these vehicles will be recognized at the end of the lease term.

During the second quarter of 2012, we entered into a three year agreement with a supplier, commencing January 1, 2013, with a total commitment of \$2,102 which is still outstanding as of June 30, 2012.

## 12. Income Taxes

We and our subsidiaries are subject to U.S. federal income tax as well as income tax of numerous state and foreign jurisdictions. We are generally no longer subject to U.S. federal tax examinations for taxable years before 2008 and with limited exceptions, state and foreign income tax examinations for taxable years before 2004.

We recognize potential accrued interest and penalties related to unrecognized tax benefits in Income Tax Expense. In addition to the liability of \$3,454 for unrecognized tax benefits as of June 30, 2012 was approximately \$477 for accrued interest and penalties. The total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate as of June 30, 2012 was \$3,229. To the extent interest and penalties are not assessed with respect to uncertain tax positions, amounts accrued will be revised and reflected as an adjustment of the Income Tax Expense.

Unrecognized tax benefits were reduced by \$85 during the first six months of 2012 for expiration of the statute of limitations in various jurisdictions.

We are currently under examination by the Internal Revenue Service for the 2009 tax year. Although the outcome of this matter cannot currently be determined, we believe adequate provision has been made for any potential unfavorable financial statement impact. We are currently undergoing income tax examinations in various state and foreign jurisdictions covering 2004 to 2010 for which settlement is expected prior to year end. Although the final outcome of these examinations cannot be currently determined, we believe that we have adequate reserves with respect to these examinations.

## 13. Stock-Based Compensation

Our stock-based compensation plans are described in Note 15 of the 2011 annual report on Form 10-K. During the three months ended June 30, 2012 and 2011 we recognized total Stock-Based Compensation Expense of \$2,218 and \$1,191, respectively. During the six months ended June 30, 2012 and 2011 we recognized total Stock-Based Compensation Expense of \$3,911 and \$2,490, respectively. The total income tax benefit recognized in the income statement for share-based compensation arrangements during the six months ended June 30, 2012 and 2011 was \$1,076 and \$739, respectively.

During the first six months of 2012 we granted 33,147 restricted shares. The weighted average grant date fair value of each share awarded was \$43.15. Restricted share awards generally have a 3 year vesting period from the effective date of the grant. The total fair value of shares vested during the six months ended June 30, 2012 and 2011 was \$301 and \$623, respectively.

## 14. Earnings Per Share

These exclusions are made if the exercise prices of these options are greater than the average market price of our Common Stock for the period, if the number of shares we can repurchase exceeds the weighted shares outstanding in the options, or if we have a net loss, as the effects are anti-dilutive.

## 15. Segment Reporting

We are organized into four operating segments: North America; Latin America; Europe, Middle East, Africa; and Asia Pacific. We combine our North America and Latin America operating segments into the “Americas” for reporting Net Sales by geographic area. In accordance with the objective and basic principles of the applicable accounting guidance, we aggregate our operating segments into one reportable segment that consists of the design, manufacture and sale of products used primarily in the maintenance of nonresidential surfaces.

Net Sales attributed to each geographic area for the three and six months ended June 30, 2012 and 2011 were as follows:

	Three Months Ended June 30		Six Months Ended June 30	
	2012	2011	2012	2011
Americas	\$135,689	\$129,490	\$247,102	\$237,632

Total	\$199,493	\$201,259	\$373,205	\$373,849

Net Sales are attributed to each geographic area based on the country from which the product was shipped and are net of intercompany sales.

## 16. Related Party Transactions

Our May 31, 2011 acquisition of Water Star includes installment payments totaling \$1,500 to the former owners of Water Star, as further discussed in Note 4. The former owners of Water Star are current employees of Tennant.

We have an exclusive technology license agreement with Global Opportunities Investment Group, LLC. A current employee of Tennant owns a minority interest in Global Opportunities Investment Group, LLC. Royalties under this license agreement are not material to our financial position or results of operations.

During the second quarter of 2008, we acquired Sociedade Alfa Ltda. and entered into lease agreements for certain properties owned by or partially owned by the former owners of these entities. Some of these individuals are current employees of Tennant. Lease payments made under these lease agreements are not material to our financial position or results of operations.

## 17. Subsequent Event

On July 24, 2012, we entered into Amendment No. 2 to the Shelf Agreement as further discussed in Note 7.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

## Overview

Tennant Company is a world leader in designing, manufacturing and marketing solutions that help create a cleaner, safer, healthier world. Our products include equipment for maintaining surfaces in industrial, commercial and outdoor environments; chemical-free and other sustainable cleaning technologies; and coatings for protecting, repairing and upgrading surfaces. We sell our products through our direct sales and service organization and a network of authorized distributors worldwide. Geographically, our customers are located in North America, Latin America, Europe, the Middle East, Africa and Asia Pacific. We strive to be an innovator in our industry through our commitment to understanding our customers' needs and using our expertise to create innovative products and solutions.

Net Earnings for the second quarter of 2012 were \$13.7 million, or \$0.71 per diluted share, as compared to Net Earnings of \$5.9 million, or \$0.30 per diluted share, in the second quarter of 2011. Net Earnings during the second quarter of 2012 benefited from higher gross profit margin, driven by product mix, stable commodity costs and production efficiencies, and decreased Selling and Administrative ("S&A") Expense, due to continued tight cost controls and improved operating efficiencies. Net Earnings for the second quarter of 2012 were also impacted by \$0.9 million of net foreign currency transaction losses, versus \$0.9 million of net foreign currency transaction gains in the prior year quarter, due to the volatility of foreign exchange rates.

Net Earnings for the first six months of 2012 were \$19.0 million, or \$0.99 per diluted share, as compared to Net Earnings of \$11.7 million, or \$0.60 per diluted share, in the first six months of 2011. Net Earnings during the first six months of 2012 were favorably impacted by higher gross profit margin and lower S&A Expense.

Net Earnings for the second quarter and first six months of 2011 were impacted by our strategic decision to discontinue our two Hofmans outdoor city cleaning products in order to focus our resources on our more innovative Green Machines™ products. This decision resulted in a \$3.8 million after-tax charge, or a loss of \$0.20 per diluted share, during the second quarter of 2011, and consisted of the following items: increased inventory reserves and fixed asset write-offs of approximately \$1.5 million; write-down of intangible assets of approximately \$1.8 million; accrued severance of approximately \$1.0 million; and a tax benefit of approximately \$0.5 million. In addition, the severance due under the settlement agreement related to the departure of our Vice President of International resulted in a \$1.2 million after-tax charge, or a loss of \$0.06 per diluted share, which also impacted Net Earnings for the second quarter of 2011.

## Net Sales

Consolidated Net Sales for the second quarter of 2012 totaled \$199.5 million, a 0.9% decrease as compared to consolidated Net Sales of \$201.3 million in the second quarter of 2011. Consolidated Net Sales for the first six months of 2012 totaled \$373.2 million, a decrease of 0.2% as compared to consolidated Net Sales of \$373.8 million in the same period of 2011.

The components of the consolidated Net Sales change for the three and six months ended June 30, 2012 as compared to the same periods in 2011 were as follows:

Growth Elements	2012 v. 2011	
	Three Months Ended June 30	Six Months Ended June 30
Organic Growth:		
Volume	1.1%	0.3%
Price	1.5%	2.0%
Organic Growth	2.6%	2.3%
Foreign Currency	(3.5%)	(2.5%)
Total	(0.9%)	(0.2%)

The 0.9% decrease in consolidated Net Sales in the second quarter of 2012 as compared to the same period in 2011 was driven by:

- an organic sales increase of approximately 2.6%, excluding the effects of acquisitions and foreign currency exchange, primarily due to an approximate 1.5% increase in pricing and an approximate 1.1% volume increase primarily in equipment sales; and
  - an unfavorable direct foreign currency exchange impact of approximately 3.5%.

The 0.2% decrease in consolidated Net Sales in the first six months of 2012 as compared to the same period in 2011 was driven by:

- an organic sales increase of approximately 2.3%, excluding the effects of acquisitions and foreign currency exchange, primarily due to an approximate 2.0% increase in pricing and an approximate 0.3% volume increase primarily in equipment sales; and
  - an unfavorable direct foreign currency exchange impact of approximately 2.5%.

The following table sets forth the Net Sales by geographic area for the three and six months ended June 30, 2012 and 2011 and the percentage change from the prior year (in thousands, except percentages):

	Three Months Ended June 30			Six Months Ended June 30

Americas

Net Sales in the Americas were \$135.7 million and \$247.1 million for the second quarter and six months ended June 30, 2012, an increase of 4.8% and 4.0%, respectively, from the second quarter and six months ended June 30, 2011. Net Sales in the second quarter and six months ended June 30, 2012 benefited from sales to strategic account customers and sales of industrial scrubbers equipped with ec-H2O™ technology and increased selling prices in North America. The direct impact of foreign currency translation exchange effects within the Americas unfavorably impacted Net Sales by approximately 2.0% during the second quarter and 1.0% during the first six months of 2012. Organic sales growth was approximately 6.8% in the second quarter and 5.0% in the first six months of 2012.

## Table of Contents

### Europe, Middle East and Africa

In our markets within Europe, the Middle East and Africa (“EMEA”), Net Sales decreased 12.1% and 8.2% to \$43.4 million and \$87.2 million, respectively, for the second quarter and six months ended June 20, 2012, compared to the second quarter and six months ended June 30, 2011. Direct foreign currency exchange fluctuations unfavorably impacted EMEA Net Sales by approximately 8.5% and 6.0%, respectively, in the second quarter and first six months of 2012. Organic sales declined approximately 3.6% and 2.2%, respectively, in the second quarter and first six months of 2012. EMEA Net Sales in the second quarter and six months ended June 30, 2012 were unfavorably impacted by the uncertain economic conditions in Europe and a continued tight credit environment that made it difficult for customers to obtain financing to purchase our equipment. This was somewhat offset by higher sales of outdoor city cleaning equipment.

### Asia Pacific

Net Sales in the Asia Pacific market for the second quarter and six months ended June 30, 2012 totaled \$20.4 million and \$38.9 million, respectively, a decrease of 8.9% and 5.7%, respectively, from the second quarter and six months ended June 30, 2011. Direct foreign currency translation exchange effects unfavorably decreased sales by approximately 1.0% in the second quarter and favorably increased sales by approximately 1.0% during the first six months of 2012. Organic sales declined approximately 7.9% and 6.7%, respectively, in the second quarter and the first six months of 2012. Net Sales in the second quarter and first six months of 2012 benefited from robust volume growth in China, but this was not sufficient to offset equipment volume declines in mature markets due to softer economic conditions.

### Gross Profit

Gross margin was 44.6% and 44.0% for the second quarter and first six months of 2012, as compared with 41.5% and 41.6%, respectively, for the same periods of 2011. Gross margin increased by 310 and 240 basis points in the second quarter and the first six months of 2012, respectively, primarily driven by product mix, stable commodity costs and production efficiencies.

Gross margin for the second quarter and first six months of 2011 was impacted by increased inventory reserves and fixed asset write-offs of \$1.5 million related to the Hofmans product discontinuance, which unfavorably impacted gross margin by 70 and 40 basis points, respectively, in the second quarter and first six months of 2011.

### Operating Expense

#### Research & Development Expense

Research and Development (“R&D”) Expense in the second quarter of 2012 was up 3.2% to \$6.9 million as compared with \$6.7 million in the second quarter of 2011. R&D Expense as a percentage of Net Sales was 3.5% for the second quarter of 2012, an increase as compared to 3.3% of Net Sales for R&D Expense in the second quarter of 2011, primarily from continued investment in developing innovative new products for our traditional core business, as well as our Orbio business.

R&D Expense for the six months ended June 30, 2012 was \$14.2 million, up 9.3% from \$13.0 million in the same period in 2011. R&D Expense as a percentage of Net Sales was 3.8% for the first six months of 2012 as compared to 3.5% for the first six months of 2011.

#### Selling & Administrative Expense

S&A Expense in the second quarter of 2012 was \$60.4 million as compared to \$66.5 million in the second quarter of 2011. The decrease in S&A Expense was primarily attributable to continued tight cost controls and improved operating efficiencies. S&A Expense as a percentage of Net Sales was 30.3% for the second quarter of 2012, down 270 basis points from 33.0% in the comparable 2011 quarter.

For the six months ended June 30, 2012, S&A Expense decreased to \$120.1 million from \$124.0 million in the comparable period last year due to continued tight cost controls and improved operating efficiencies. S&A Expense as a percentage of Net Sales was 32.2% for the first half of 2012 versus 33.2% in the comparable period last year.

S&A Expense in the second quarter and first six months of 2011 was impacted by \$4.0 million of charges related to the Hofmans product discontinuance and international executive severance.

Other Income (Expense), Net

Interest Income

Interest Income increased \$0.1 million and \$0.4 million in the second quarter and first six months of 2012, respectively, as compared to the same periods in 2011. The increase between 2012 and 2011 is due to higher interest rates on higher average levels of cash and cash equivalents.

## Table of Contents

### Interest Expense

Interest Expense increased \$0.1 million and \$0.4 million in the second quarter and first six months of 2012, respectively, as compared to the same periods in 2011. The increase in Interest Expense between periods was primarily due to a higher interest rate in the current period as compared to the same period in 2011.

### Net Foreign Currency Transaction (Losses) Gains

Net Foreign Currency Transaction Losses in the second quarter and first six months of 2012 were \$0.9 million and \$1.1 million, respectively, as compared to Net Foreign Currency Transaction Gains of \$0.9 million and \$1.4 million in the same periods in the prior year. The unfavorable change in the impact from foreign currency transactions in the second quarter and first six months of 2012 was due to fluctuations in foreign currency rates in the normal course of business.

### Other Income, Net

There was no significant change in Other Income, Net in the second quarter and the first six months of 2012 as compared to the same periods in 2011.

### Income Taxes

The effective tax rate in the second quarter of 2012 was 33.0% compared to the effective rate in the second quarter of the prior year of 45.4%. The tax expense for the second quarter of 2011 only included a \$0.5 million tax benefit associated with the \$5.5 million one-time expense related to the Hofmans product obsolescence and international executive severance which materially increased the overall effective rate. Excluding these charges, the 2011 second quarter overall effective tax rate would have been 33.0%.

The year-to-date overall effective tax rate was 32.5% for 2012 compared to 38.7% for 2011. Excluding the charges described above, the 2011 overall effective tax rate would have been 32.0%. The increase in the overall year-to-date effective rate, excluding the effect of these charges, was primarily related to the mix in expected full year taxable earnings by country and changes related to the Federal R&D tax credits. The 2012 second quarter tax rate did not include any benefit for Federal R&D tax credits as we are not allowed to consider these credits in our tax rate until they are formally reenacted.

We do not have any plans to repatriate the undistributed earnings of non-U.S. subsidiaries. Any repatriation from foreign subsidiaries that would result in incremental U.S. taxation is not being considered. It is management's belief that reinvesting these earnings outside the U.S. is the most efficient use of capital.

### Liquidity and Capital Resources

#### Liquidity

Cash and Cash Equivalents totaled \$38.4 million at June 30, 2012, as compared to \$52.3 million as of December 31, 2011. Wherever possible, cash management is centralized and intercompany financing is used to provide working capital to subsidiaries as needed. Our current ratio was 2.3 as of June 30, 2012 and 2.2 as of December 31, 2011, based on working capital of \$148.6 million and \$148.1 million, respectively. Our debt-to-capital ratio was 13.3% and 14.2% at June 30, 2012 and December 31, 2011, respectively.

## Operating Activities

Operating activities provided \$12.5 million of cash for the six months ended June 30, 2012. Cash provided by operating activities was driven primarily from Net Earnings of \$19.0 million and the \$4.0 million increase in Accounts Payable partially offset by payment of Employee Compensation and Benefits liabilities and increases in our Accounts Receivable and Inventories. The increase in Accounts Payable is primarily due to timing of payments. The increases in our Accounts Receivable and Inventories are a result of increased sales during the second quarter of 2012.

Operating activities provided \$12.7 million of cash for the six months ended June 30, 2011. Cash provided by operating activities was driven primarily by Net Earnings of \$11.7 million and increased Accounts Payable of \$14.5 million, offset by increased Accounts Receivable and Inventories. The increase in Accounts Payable is primarily due to increased production in our manufacturing facilities as a result of the unit volume increase in sales as well as timing of payments. The increase in Accounts Receivable and Inventories is a result of increased sales during the second quarter of 2011.

Management evaluates how effectively we utilize two of our key operating assets, Accounts Receivable and Inventories, using Accounts Receivable “Days Sales Outstanding” (DSO) and “Days Inventory on Hand” (DIOH), on a FIFO basis. The metrics are calculated on a rolling three month basis in order to more readily reflect changing trends in the business. These metrics for the quarters ended were as follows (in days):

	June 30, 2012	December 31, 2011	June 30, 2011
DSO	60	58	60
DIOH	82	88	81

As of June 30, 2012, DSO remained the same as compared to June 30, 2011 due to continued management of our receivables by enforcing tight credit limits and continuing to successfully collect past due balances. As of June 30, 2012, DSO increased 2 days as compared to December 31, 2011, primarily due to higher levels of accounts receivable related to mix of business.

As of June 30, 2012, DIOH increased 1 day as compared to June 30, 2011, primarily due to starting the second quarter of 2012 with higher than usual inventory levels to support pre-price increase orders. As of June 30, 2012, DIOH decreased 6 days as compared to December 31, 2011, primarily due to shipping orders earlier in the second quarter of 2012 versus shipping orders later in the fourth quarter of 2011.

## Investing Activities

Investing activities during the six months ended June 30, 2012 used \$6.0 million in cash. Net capital expenditures used \$6.9 million and the installment payment to the former owners of Water Star used \$0.8 million. This was partially offset by decreases in restricted cash which provided \$1.7 million. Capital expenditures included investments in tooling related to new product development and manufacturing; and information technology process improvement projects.

Investing activities during the six months ended June 30, 2011 used \$6.7 million in cash. Net capital expenditures used \$3.8 million and our acquisition of Water Star used \$2.9 million. Capital expenditures included investments in tooling related to new product development and manufacturing; and information technology and infrastructure upgrades.

## Financing Activities

Net cash used by financing activities was \$20.4 million during the first six months of 2012. The purchases of our Common Stock per our authorized repurchase program used \$15.3 million, dividend payments used \$6.4 million and the payment of Long-Term Debt used \$1.8 million, partially offset by proceeds from the issuance of Common Stock of \$2.0 million and the tax benefit on stock plans of \$1.1 million.

Net cash used by financing activities was \$5.4 million during the first six months of 2011. Repayment of Long-Term Debt used \$12.3 million, purchases of Common Stock used \$9.1 million and dividend payments used \$6.5 million, partially offset by issuance of Long-Term Debt of \$20.0 million, proceeds from issuance of Common Stock of \$1.8 million and a \$0.7 million tax benefit on stock plans.

As of June 30, 2012, we had committed lines of credit totaling \$125.0 million and uncommitted lines of credit totaling \$87.5 million. There was \$10.0 million in outstanding borrowings under our JPMorgan facility and \$20.0 million in outstanding borrowings under our Prudential facility as of June 30, 2012. In addition, we had stand alone letters of credit of \$1.8 million outstanding and bank guarantees in the amount of \$1.0 million. ### Credit Facilities

#### JPMorgan Chase Bank, National Association

On May 5, 2011, we entered into a Credit Agreement (the “2011 Credit Agreement”) with JPMorgan Chase Bank, N. A. (“JPMorgan”), as administrative agent and collateral agent, U.S. Bank National Association, as syndication agent, Wells Fargo Bank, National Association, and RBS Citizens, N.A., as co-documentation agents, and the Lenders (including JPMorgan) from time to time party thereto. Upon entry into the 2011 Credit Agreement, we repaid and terminated our June 19, 2007 Credit Agreement. The 2011 Credit Agreement provides us and certain of our foreign subsidiaries access to a senior unsecured credit facility until May 5, 2016, in the amount of \$125.0 million, with an option to expand by up to \$62.5 million to a total of \$187.5 million. Borrowings may be denominated in U.S. Dollars or certain other currencies. The 2011 Credit Agreement contains a \$100.0 million sublimit on borrowings by foreign subsidiaries.

The fee for committed funds under the 2011 Credit Agreement ranges from an annual rate of 0.25% to 0.40%, depending on our leverage ratio. Borrowings under the 2011 Credit Agreement bear interest at a rate per annum equal to the greatest of (a) the prime rate, (b) the federal funds rate plus 0.50% and (c) the adjusted LIBOR rate for a one month period plus 1.0%, plus, in any such case, an additional spread of 0.50% to 1.10%, depending on our leverage ratio.

The 2011 Credit Agreement gives the lenders a pledge of 65% of the stock of certain first tier foreign subsidiaries. The obligations under the 2011 Credit Agreement are also guaranteed by our first tier domestic subsidiaries.

The 2011 Credit Agreement contains customary representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and merge or consolidate with another entity. Further, the 2011 Credit Agreement contains the following covenants:

- a covenant requiring us to maintain an indebtedness to EBITDA ratio as of the end of each quarter of not greater than 3.00 to 1;
- a covenant requiring us to maintain an EBITDA to interest expense ratio as of the end of each quarter of no less than 3.50 to 1;
- a covenant restricting us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50.0 million to \$75.0 million during any fiscal year based on our leverage ratio after giving effect to such payments; and
- a covenant restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25.0 million.

As of June 30, 2012, we were in compliance with all covenants under the 2011 Credit Agreement. There was \$10.0 million in outstanding borrowings under this facility at June 30, 2012, with a weighted average interest rate of 1.74%.

Prudential Investment Management, Inc.

On May 5, 2011, we entered into Amendment No. 1 to our Private Shelf Agreement (the “Amendment No. 1”), which amends the Private Shelf Agreement, dated as of July 29, 2009, with Prudential Investment Management, Inc. (“Prudential”) and Prudential affiliates from time to time party thereto (the “Shelf Agreement”). The Shelf Agreement provides us and our subsidiaries access to an uncommitted, senior unsecured, maximum aggregate principal amount of \$80.0 million of debt capital.

The Amendment principally provides the following changes to the Shelf Agreement:

- elimination of the security interest in our personal property and subsidiaries;
- an amendment to the Maximum Leverage Ratio to not greater than 3.00 to 1 for any period ending on or after March 31, 2011;
- an amendment to our restriction regarding the payment of dividends or repurchase of stock to restrict us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50.0 million to \$75.0 million during any fiscal year based on our leverage ratio after giving effect to such payments; and
- an amendment to Permitted Acquisitions restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25.0 million.

## Table of Contents

On July 24, 2012, we entered into Amendment No. 2 to our Private Shelf Agreement (“Amendment No. 2”), which amends the Shelf Agreement. The principal change effected by Amendment No. 2 is an extension of the Issuance Period for Shelf Notes under the Shelf Agreement. The Issuance Period now expires on July 24, 2015.

As of June 30, 2012, there was \$20.0 million in outstanding borrowings under this facility; the \$10.0 million Series A notes issued in March 2011 with a fixed interest rate of 4.00% and a 7 year term serially maturing from 2014 to 2018; and the \$10.0 million Series B notes issued in June 2011 with a fixed interest rate of 4.10% and a 10 year term serially maturing from 2015 to 2021. Contractual Obligations

During the second quarter of 2012, we entered into a three year agreement with a supplier, commencing January 1, 2013, with a total commitment of \$2,102 which is still outstanding as of June 30, 2012.

Except as noted above, there have been no material changes with respect to contractual obligations as disclosed in our 2011 annual report on Form 10-K.

Any such expectations or forecasts of future events are subject to a variety of factors. Particular risks and uncertainties presently facing us include: geopolitical and economic uncertainty throughout the world; the competition in our business; our ability to effectively manage organizational changes; our ability to comply with laws and regulations; our ability to effectively maintain and manage the data in our computer systems; unforeseen product liability claims or product quality issues; our ability to develop and fund new innovative products and services; our ability to attract and retain key personnel; our ability to successfully upgrade and evolve the capabilities of our computer systems; the occurrence of a significant business interruption; fluctuations in the cost or availability of raw materials and purchased components; our ability to acquire, retain and protect proprietary intellectual property rights; and the relative strength of the U.S. dollar, which affects the cost of our materials and products purchased and sold.

internationally. We caution that forward-looking statements must be considered carefully and that actual results may differ in material ways due to risks and uncertainties both known and unknown. Information about factors that could materially affect our results can be found in Part I, Item 1A. ## Item 4. Controls and Procedures

## Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Principal Financial and Accounting Officer, have evaluated the effectiveness of our disclosure controls and procedures for the period ended June 30, 2012 (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”). Based on that evaluation, our Chief Executive Officer and our Principal Financial and Accounting Officer have concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our principal executive and our principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

## Changes in Internal Controls

There were no changes in our internal controls over financial reporting during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II – OTHER INFORMATION

## Item 1. Legal Proceedings

There are no material pending legal proceedings other than ordinary routine litigation incidental to the Company’s business.

## Item 1A. Risk Factors

We documented our risk factors in Item 1A of Part I of our annual report on Form 10-K for our fiscal year ended December 31, 2011. There have been no material changes to our risk factors since the filing of that report.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On April 25, 2012, the Board of Directors authorized the repurchase of 1,000,000 shares of our common stock. This was in addition to the 618,050 shares remaining under our prior repurchase program as of March 31, 2012. Share repurchases are made from time to time in the open market or through privately negotiated transactions, primarily to offset the dilutive effect of shares issued through our stock-based compensation programs. Our 2011 Credit Agreement and Shelf Agreement restrict the payment of dividends or repurchasing of stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50.0 million to \$75.0 million during any fiscal year.
