**Re: BlueLinx Holdings Inc.  
Registration Statement on Form S-1 (the "Registration Statement")  
File No. 333-118750**

Dear Ms. Lippmann and Ms. Salik:

On behalf of BlueLinx Holdings Inc. (the "**Registrant**"), we are responding to the comments of the Staff set forth in its letter dated October 27, 2004, concerning the Registration Statement. At the request of the Staff, we are submitting certain supplemental information in response to comments 11 and 36:

1.

In response to comment 11, information on the Registrant's market share within the industry (Annex A). The Registrant's market share is based on data published annually by the Home Channel News ("**HCN**"), a Lebhar-Friedman publication. Each year HCN publishes a distributor scorecard ranking the Top 150 lumber and building material distributors by their revenue. A copy of the most recent ranking from the July 5, 2004 issue and the market share analysis file are attached.

The published list is modified to isolate the Registrant's competitors. Adjustments to the published list include the following:

- a. the elimination of all hardlines distributors because the Registrant is not a distributor in this product category;
- b. the elimination of all hardlines cooperatives also because the Registrant is not a distributor in this product category;
- c. the elimination of 25% of building material cooperatives reported sales because these cooperatives source an estimated 25% of their material directly from the Registrant and other distributors resulting in an over-statement of total industry sales;
- d. the elimination of only 50% of Do It Best's reported sales despite being categorized as a hardlines cooperative because this company is a significant distributor of wood-based building materials that competes with the Registrant in its markets; and
- e. the elimination of 40% of Lumberman's Merchandising Corp.'s reported sales because this building materials cooperative sources an estimated 40% of its material from the Registrant.

The resulting list is re-ranked using each company's modified sales total to determine each competitor's relevant market share. This methodology is applied consistently by the Registrant to each of the past three published rankings to determine relative market shares.

2.

In response to comment 36, valuation information for the \$5 million supply agreement (Annex B).

To facilitate the Staff's review of this report, we have tabbed page 12 of the report that addresses the methodology used by Deloitte & Touche LLP in performing its valuation of the supply agreement as well as Appendix III, Exhibit 11 which sets forth the actual calculation.

Pursuant to Rule 418(b), we respectfully request that the supplemental information attached to this letter be returned to the Registrant upon completion of its review.

Very truly yours,
