VOTING AT ANNUAL MEETING

1.

Record Date. The Board of Directors of the Company has fixed the close of business on August 31, 2004 as the record date for the purpose of determining Shareholders of the Company entitled to notice of and to vote at the Annual Meeting. At the close of business on that date, the Company had 7,615,970 shares of Common Stock issued and outstanding. A majority of such shares will constitute a quorum for the transaction of business at the Annual Meeting. Proxies that are submitted but are not voted for or against (whether by abstentions, broker nonvotes, or otherwise) will be treated as present for all matters considered at the meeting.

2.

Solicitation of Proxies. The accompanying Proxy is solicited on behalf of the Board of Directors of the Company and the cost of solicitation will be borne by the Company. Following the original mailing of the Proxies and soliciting materials, directors, officers and employees of the Company may, but do not presently intend to, solicit Proxies by mail, telephone, telegraph, or personal interviews. The Company may request brokers, custodians, nominees, and other record holders to forward copies of the Proxies and soliciting materials to persons for whom they hold shares of the Company and to request authority for the exercise of Proxies. In such cases the Company will reimburse such holders for their reasonable expenses. The Company intends to utilize the services of Columbia Transfer Company, to assist in proxy solicitation.

3.

Revocation of Proxy. Any Proxy delivered in the accompanying form may be revoked by the person executing the Proxy by written notice to that effect received by the Secretary of the Company at any time before the authority thereby granted is exercised, by execution of a Proxy bearing a later date presented at the meeting or by attendance of such person at the Annual Meeting.

4.

How Proxies will be Voted. Proxies received by the Board of Directors in the accompanying form will be voted at the Annual Meeting as specified therein by the person giving the Proxy. If no specification is made with respect to the matters to be voted upon at the meeting, the shares represented by such Proxy will be voted FOR the nominees to the Board of Directors in the election of Directors; FOR the approval of the 2003 Stock Plan; and For the amendment to and restatement of the Articles of Incorporation. All shares represented by valid Proxy will be voted at the discretion of the proxy holders on any other matters that may properly come before the meeting. However, the Board of Directors does not know of any matters to be considered at the meeting other than those specified in the Notice of Meeting.

5.

7.

Required Approvals. By unanimous consent the Board of Directors of the Company has adopted resolutions (1) electing Robert L. Russell, John B. Benjamin, Norman A. Radford, Gene W. Pierson, R. David Russell, Richard Nanna, Glenn M. Dobbs and R. Llee Chapman to the board of directors of the Company to serve for a one-year term or until their respective successors are elected and have qualified; (2) approving the Stock Plan; (3) approving the amended and restated Articles of Incorporation; and (4) recommending that the Company's Shareholders vote to approve the above matters submitted to the Shareholders for consideration at the Annual Meeting of Shareholders.

Directors are elected by a plurality of the votes cast by the holders of the Common Stock meeting at which a quorum is present. Plurality means that the individuals who receive the largest number of votes cast are elected as Directors up to the maximum number of Directors to be chosen at the meeting. Consequently, any shares not voted (whether by abstentions, broker nonvotes or otherwise) have no impact in the election of Directors, except to the extent the failure to vote for an individual results in another individual receiving a larger number of votes. The election of Directors will be accomplished by determining the eight nominees receiving the highest total votes.

The approval of the Company's Stock Plan and the amendments to and restatement of the Articles of Incorporation require the favorable vote of the holders of a majority of the shares of Common Stock present at the meeting, providing a quorum is present: abstentions would have the effect of negative votes for this matter; broker nonvotes are not counted for the purposes of determining the number of shares present and thus would have no effect on this matter.

8.

Dissenters Rights. There are no dissenters' rights applicable to any matters to be considered at the Annual Meeting.

Board Recommendation

The Board of Directors recommends a vote FOR each nominee to the Board of Directors.

2.

APPROVAL OF STOCK PLAN

The Board of Directors has adopted the Idaho General Mines, Inc. Stock Plan. The purpose of the Plan is to give the Company greater ability to attract, retain, and motivate its officers, key employees, directors and consultants; and is intended to provide the Company with the ability to provide incentives more directly linked to the success of the Company's business and increases in Shareholder value.

The Plan provides for awards of restricted stock, Incentive Stock Options (ISOs) (pursuant to Internal Revenue code § 422) and Nonqualified Stock Options (NSOs). In general, ISOs have more favorable tax consequences to employees than NSOs. Assuming that option shares are held for the requisite period, employees will be taxed at the capital gain rates on exercise of an ISO, rather than the ordinary income tax rates, plus employment taxes, on exercise of a NSOs.

In addition, the time at which taxes must be paid on exercise of an ISO is deferred until sale of the underlying shares, resulting in further time-based savings if such shares are not sold. On the other hand, NSOs have some tax benefits to the corporation, in the form of a tax deduction to the corporation at the time of exercise by the employee, but the corporation does have withholding tax obligations for NSOs and shares in employment taxes. The following is a non-exhaustive list of some of the characteristics of ISOs and NSOs:

ISOs:

*

Eligible: only employees

*

Additional Limits: must be granted pursuant to an option plan, which must be approved by the shareholders within 12 months of adoption

*

Exercise Price: must be at least fair market value (FMV) (110% of FMV if employee owns more than 10% of corporation)

*

Termination of Employment: exercise must be within six (6) months of termination of employment

*

Option Term: cannot exceed 10 years (5 years if employee owns more than 10% of the corporation)

*

Restrictions on Amounts for Vesting: not more than \$100,000 of stock can vest in any calendar year (determined at the date of grant)

*

Holding: if stock is sold within 1 year of exercise or 2 years of date of grant, option will be taxed much like a NSO

NSOs:

*

Eligible: employees and certain non-employees (e.g., consultants/advisors)

*

Exercise Price: can be more than, less than or equal to FMV (although discounted options may have adverse accounting consequences)

In addition to meeting the requirements of the Internal Revenue Code as an incentive stock option, the Plan also meets the requirements of rule 16(b)-3 of the Securities and Exchange Commission. Officers and directors of a corporation that has adopted an employee stock plan that meets the requirements of Rule 16(b)-3 may undertake transactions pursuant to the plan without having to be concerned about short-swing profit liability under Section 16(b) of the Exchange Act of 1934.

The plan provides that it shall be approved by the shareholders of the Company within 12 months after the date the plan is adopted by the board of directors. Although shareholder approval of the plan is not required under the Idaho Business Corporation Act, it is required under Section 422 of the Internal Revenue Code of 1986.

Options are exercisable for a maximum of fifteen (15) years (ten years in the case of an Incentive Stock Option). Transferability is prohibited except for limited circumstances regarding the demise of an Optionee.

The option exercise price for Incentive Stock Options may be no less than the fair market value on the date of grant of the Option, except that the exercise price for any ten percent (10%) shareholder must be 110% of the fair market value on the date of grant. The option price for the Non-Qualified Stock Options is the lowest allowable price under applicable law.

The maximum number of shares available for issue under the Plan adopted by the Company shall not exceed 3,000,000 shares.

Board Recommendation

The Board of Directors recommends a vote FOR the approval of the Stock Plan.

3.

APPROVE AND ADOPT AMENDED AND RESTATED ARTICLES OF INCORPORATION

The Board of Directors proposes to amend and restate the Company's Articles of Incorporation.

Over a number of years the Company's Articles of Incorporation have been amended numerous times. The purpose of the Restatement of the Articles of Incorporation is to have one document setting forth the Articles of Incorporation rather than the number of documents containing various amendments that have been made since the date of the Company's incorporation.

The following is a discussion of the material differences between the Company's current Articles of Incorporation and the amendments which will be contained in the Restated and Amended Articles of Incorporation. A copy of the Amended and Restated Articles of Incorporation are set forth in Exhibit A attached to this Proxy Statement.

Purpose

The purpose of this corporation shall be to transact any and all lawful business for which corporations may be incorporated under the Idaho Business Corporation Act, in general, to have and exercise all the powers conferred by the laws of Idaho upon corporations formed under the Idaho Business Corporation Act and to do any and all things hereinbefore set forth to the same extent as natural persons might or could do.

Discussion: The reason for this amendment is to streamline the language setting forth the Company's purpose. This amendment does not change the purpose of the Company. This amendment is not intended to alter the Company's purpose in any manner. Its purpose is merely for the sake of corporate flexibility and simplification of the Amended Articles of Incorporation. The new language eliminates many of the specific purposes set forth in the original Articles of Incorporation that related to the mineral industry. Since the time the Company was first incorporated the trend in stating business purpose has been to give a broad charter to companies to engage in any lawful business. The original language gave such broad powers but also included many specific powers that are not needed and are eliminated by this amendment.

Directors

The number of directors constituting the Board of Directors of this corporation may be increased or decreased from time to time in the manner specified in the Bylaws of this corporation; provided, however, that the number shall not be less than one (1) or more than nine (9). In case of a vacancy in the Board of Directors because of a director's resignation, removal or other departure from the board, or because of an increase in the number of directors, the remaining directors, by majority vote, may elect a successor to hold office for the unexpired term of the director whose position is vacant, and until the election and qualification of a successor.

Discussion: This amendment sets a wider range in the number of directors and provides for appointment of a Director by the Board in the event that the number of Directors is increased.

Capitalization

The authorized capital stock of the corporation shall consist of two classes of stock, designated as Common Stock and Preferred Stock.

The total number of shares of Common Stock that the corporation will have authority to issue is Two Hundred Million (200,000,000). The shares shall have a par value of \$0.001 per share. All of the Common Stock authorized herein shall have equal voting rights and powers without restrictions in preference.

The total number of shares of Preferred Stock that the corporation will have authority to issue is Ten Million (10,000,000). The Preferred Stock shall have a stated value of \$0.001 per share. The authorized but unissued shares of Preferred Stock may be divided into and issued in designated series from time to time by one or more resolutions adopted by the Board of Directors. The Directors in their sole discretion shall have the power to determine the relative powers, preferences, and rights of each series of Preferred Stock.

Discussion: The Company is currently authorized to issue 25,000,000 shares of its \$0.10 par value Common Stock, of which 7,615,970 shares were issued and outstanding as August 31, 2004. The Board of Directors has determined that it would be advisable and in the best interest of the Company to increase the number of authorized shares of Common Stock from 25,000,000 shares to 200,000,000 shares in order to provide the Company with an adequate supply of authorized but unissued shares of Common Stock for general corporate needs including obtaining additional financing, possible stock dividends, employee incentive and benefit plans or consummation of acquisitions at times when the Board, in its discretion, deems it advantageous to do so. At present, the Company has no commitments to issue additional shares of its Common Stock.

All shares of Common Stock are equal to each other with respect to voting, liquidation, dividend and other rights. Owners of shares of Common Stock are entitled to one vote for each share they own at any Shareholders' meeting. Holders of shares of Common Stock are entitled to receive such dividends as may be declared by the Board of Directors out of funds legally available therefore, and upon liquidation are entitled to participate pro rata in a distribution of assets available for such a distribution to Shareholders. Although the Board of Directors would authorize the issuance of additional shares of Common Stock based on its judgment as to the best interests of the Company and its Shareholders, the issuance of authorized shares of Common Stock could have the effect of diluting the voting power and book value per share of the outstanding Common Stock.

Authorized shares of Common Stock in excess of those shares outstanding (including, if authorized, the additional Common Stock provided for in the Proposal) will remain available for general corporate purposes, may be privately placed and could be used to make a change in control of the Company more difficult. Under certain circumstances, the Board of Directors could create impediments to, or frustrate, persons seeking to effect a takeover or transfer in control of the Company by causing such shares to be issued to a holder or holders who might side with the Board of Directors in opposing a takeover bid that the Board of Directors determines is not in the best interests of the Company.

and its stockholders, but in which unaffiliated stockholders may wish to participate. In this connection, the Board of Directors could issue authorized shares of Common Stock to a holder or holders which, when voted together with the shares held by members of the Board of Directors and the executive officers and their families, could prevent the majority stockholder vote required by the Company's Restated Articles of Incorporation to effect certain matters.

Furthermore, the existence of such shares might have the effect of discouraging any attempt by a person, through the acquisition of a substantial number of shares of Common Stock, to acquire control of the Company, since the issuance of such shares should dilute the Company's book value per share and the Common Stock ownership of such person.

One of the effects of the proposal, if approved, might be to make a tender offer more difficult to accomplish. This may be beneficial to management in a hostile tender offer, thus having an adverse impact on stockholders who may want to participate in such tender offer.

If the proposal is approved, the additional, authorized Common Stock, as well as the currently authorized but unissued Common Stock, would be available for issuance in the future for such corporate purposes as the Board of Directors deems advisable from time to time without the delay and expense incident to obtaining shareholder approval, unless such action is required by applicable law or by the rules of the National Association of Securities Dealers, Inc., or of any stock exchange upon which the Company's shares may then be listed. It should be noted that subject to the limitations discussed above, all of the types of Board action with respect to the issuance of additional shares of Common Stock that are described in the preceding paragraphs can currently be taken and that the power of the Board of Directors to take such actions would not be enhanced by the proposal, although the proposal would increase the number of shares of Common Stock that are available for the taking of such action.

The Company will have authority to issue up to Ten Million (10,000,000) shares of newly created Preferred Stock (Preferred Stock). The Preferred Stock will have a stated value of \$0.001 per share. The Preferred Stock shall be entitled to preference over the Common Stock with respect to the distribution of assets of the Company in the event of liquidation, dissolution, or winding-up of the Company, whether voluntarily or involuntarily, or in the event of any other distribution of assets of the Company among its shareholders for the purpose of winding-up its affairs. The authorized, but unissued shares of Preferred Stock, may be divided into and issued in designated series from time to time by one or more resolutions adopted by the Board of Directors. The Directors, in their sole discretion, shall have the power to determine the relative powers, preferences, and rights of each series of Preferred Stock.

If approved, the Board of Directors would be empowered without the necessity of further action or authorization by the Company's Shareholders (unless such action or authorization is required in a specific case by applicable laws or regulations or stock exchange rules) to authorize the issuance of the Preferred Shares from time to time in one or more series or classes, and to fix by resolution the designations, preferences, limitations, and relative rights of each such series or class. Each series of Preferred Shares would, as determined by the Board of Directors at the time of issuance, rank senior to the Company's shares of Common Stock with respect to dividends and redemption and liquidation rights.

The Preferred Shares will provide authorized and unissued shares of Preferred Stock, which may be used by the Company for any proper corporate purpose. Such purpose might include, without limitation, issuance as part or all of the consideration required to be paid by the Company in the acquisition of other businesses or properties, or issuance in public or private sales for cash as a means of obtaining additional capital for use in the Company's business and operations. There are no transactions currently under review by the Board of Directors which contemplate the issuance of Preferred Shares.

It is not possible to state the precise effects of the authorization of the Preferred Shares upon the rights of the holders of the Company's Common Stock until the Board of Directors determines the respective preferences, limitations, and relative rights of the holders of each class or series of the Preferred Shares. Such effects might include, however: (a) reduction of the amount otherwise available for payment of dividends on Common Stock to the extent dividends are payable on any issued Preferred Shares; (b) restrictions on dividends on the Common Stock; (c) dilution of the voting power of the Common Stock to the extent that the Preferred Shares had voting rights; (d) conversion of the Preferred

Shares into Common Stock at such prices as the Board of Directors determines, which could include issuance at below the fair market value or original issue price of the Common Stock; and (e) the holders of Common Stock not being entitled to share in the Company's assets upon liquidation until satisfaction of any liquidation preference granted to holders of the Preferred Shares.

In addition, the Preferred Shares could, in certain instances, render more difficult or discourage a merger, tender offer or proxy contest and thus potentially have an "anti-takeover" effect, especially if Preferred Shares were issued in response to a potential takeover. In addition, issuances of authorized Preferred Shares can be implemented, and have been implemented by some companies in recent years, with voting or conversion privileges intended to make acquisition of the Company more difficult or more costly. Such an issuance could deter the types of transactions which may be proposed or could discourage or limit Shareholders' participation in certain types of transactions that might be proposed (such as a tender offer), whether or not such transactions were favored by the majority of the Shareholders, and could enhance the ability of officers and directors to retain their positions.

Although the Board of Directors would authorize the issuance of additional Preferred Shares based on its judgment as to the best interests of the Company and its Shareholders, the issuance of authorized Preferred Shares could have the effect of diluting the voting power and book value per share of the outstanding Common Stock.

Indemnification of Directors

The corporation is authorized to indemnify, agree to indemnify or obligate itself to advance or reimburse expenses incurred by its Directors, Officers, employees or agents in any Proceeding (as defined in the Idaho Business Corporation Code) to the full extent of the laws of the State of Idaho as may now or hereafter exist.

Discussion: These indemnification provisions did not exist under Idaho law when the Company was incorporated. Indemnification and limitation of liabilities are now permitted under Idaho law and is considered "state of the art" under corporate laws of most states. These provisions are being proposed to conform the Articles of Incorporation to contemporary corporate law and to enable the Company to more effectively attract and retain competent management personnel.

The Idaho Business Corporations Act Sections 30-1-850 through 30-1-859, permits the Company to indemnify its officers and directors against liabilities they incur in such positions. Pursuant to the Idaho Business Corporations Act, both permissible and mandatory indemnification is provided for officers and directors of the Company.

Permissive Indemnification

(1)

Except as otherwise provided by law, a corporation may indemnify an individual who is a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative, arbitative or investigative and whether formal or informal (a Proceeding) because he is a director against liability incurred in the proceeding if:

(a)

(i)

He conducted himself in good faith; and

(ii)

He reasonably believed:

(A)

In the case of conduct in his official capacity, that his
conduct was in the best interest of the corporation, and

(B)

In all cases, that his conduct was at least not opposed to the best interests of the corporation; and

(iii)

In the case of any criminal proceeding, he had no reasonable cause to believe his conduct was unlawful; or

(b)

He engaged in conduct for which broader indemnification has been made permissible or obligatory under a provision of the articles of incorporation, as authorized by section 30-1-202(2)(e), Idaho Code.

(2)

A director's conduct with respect to an employee plan for a purpose he reasonably believed to be in the best interests of the participants in, and the beneficiaries of, the plan is conduct that satisfies the requirement of subsection (1)(a)(ii)(B) above.

(3)

The termination of a proceeding by judgment, order, settlement or conviction, or upon a plea of nolo contendere or its equivalent, is not, of itself, determinative that the director did not meet the relevant standard of conduct described in this section.

(4)

Unless ordered by a court under section 30-1-854(1)(c), Idaho Code, a corporation may not indemnify a director:

(a)

In connection with a proceeding by or in the right of the corporation, except for reasonable expenses incurred in connection with the proceeding if it is determined that the director has met the relevant standard of conduct under subsection (1) of this section; or

(b)

In connection with any proceeding with respect to conduct for which he was adjudged liable on the basis that he received a financial benefit to which he was not entitled, whether or not involving action in his official capacity.

Mandatory Indemnification

A corporation shall indemnify a director who was wholly successful, on the merits or otherwise, in the defense of any proceeding to which he was a party because he was a director of the corporation against reasonable expenses incurred by him in connection with the proceeding.

Public Policy

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act") may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Securities and Exchange Commission such

indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

The Board of Directors recommends a vote FOR the approval of the Amended and Restated Articles of Incorporation.

If an Option expires or becomes unexercisable without having been exercised in full, the unpurchased Shares which were subject thereto shall become available for future grant or sale under the Plan (unless the Plan has terminated).

However, Shares that have actually been issued under the Plan, upon exercise of an Option, shall not be returned to the Plan and shall not become available for future distribution under the Plan, except that if Shares of restricted stock issued pursuant to an Option are repurchased by the Company at their original purchase price, such Shares shall become available for future grant under the Plan. However, except as adjusted pursuant to Section 13, in no event shall more than three million (3,000,000) Shares be available for issuance pursuant to the exercise of Incentive Stock Options (the *ISO Share Issuance Limit*).

The Plan shall be administered by the Board or a Committee appointed by the Board, which Committee shall be constituted to comply with Applicable Laws.

(b)

Powers of the Administrator. Subject to the provisions of the Plan and, in the case of a Committee, the specific duties delegated by the Board to such Committee, and subject to the approval of any relevant authorities, the Administrator shall have the authority in its discretion:

(i) to determine the Fair Market Value;

(ii) to select the Service Providers to whom Options may from time to time be granted hereunder;

(iii)

to determine the number of Shares to be covered by each such Option granted hereunder;

(iv) to approve forms of agreement for use under the Plan;

(v)

to determine the terms and conditions of any Option granted hereunder. Such terms and conditions include, but are not limited to, the exercise price, the time or times when Options may be exercised (which may be based on performance criteria), any vesting, acceleration or waiver of forfeiture restrictions, and any restriction or limitation regarding any Option or the Common Stock relating thereto, based in each case on such factors as the Administrator, in its sole discretion, shall determine;

(vi) to prescribe, amend and rescind rules and regulations relating to the Plan, including rules and regulations relating to sub-plans established for the purpose of satisfying applicable foreign laws;

(vii) to allow Optionees to satisfy withholding tax obligations by electing to have the Company withhold from the Shares to be issued upon exercise of an Option that number of Shares having a Fair Market Value equal to the

minimum amount required to be withheld. The Fair Market Value of the Shares to be withheld shall be determined on the date that the amount of tax to be withheld is to be determined. All elections by Optionees to have Shares withheld for this purpose shall be made in such form and under such conditions as the Administrator may deem necessary or advisable; and

(viii) to construe and interpret the terms of the Plan and Options granted pursuant to the Plan.

(c)

Effect of Administrator's Decision. All decisions, determinations and interpretations of the Administrator shall be final and binding on all Optionees.

5.

Eligibility. Nonstatutory Stock Options may be granted to Service Providers. Incentive Stock Options may be granted only to Employees.

6.

Limitations.

(a)

Incentive Stock Option Limit. Each Option shall be designated in the Option Agreement as either an Incentive Stock Option or a Nonstatutory Stock Option. However, notwithstanding such designation, to the extent that the aggregate Fair Market Value of the Shares with respect to which Incentive Stock Options are exercisable for the first time by the Optionee during any calendar year (under all plans of the Company and any Parent or Subsidiary) exceeds \$100,000, such Options shall be treated as Nonstatutory Stock Options. For purposes of this Section 6(a), Incentive Stock Options shall be taken into account in the order in which they were granted. The Fair Market Value of the Shares shall be determined as of the time the Option with respect to such Shares is granted.

(b)

At-Will Employment. Neither the Plan nor any Option shall confer upon any Optionee any right with respect to continuing the Optionee's relationship as a Service Provider with the Company, nor shall it interfere in any way with his or her right or the Company's right to terminate such relationship at any time, with or without cause, and with or without notice.

7.

Term of Plan. Subject to shareholder approval in accordance with Section 19, the Plan shall become effective upon its adoption by the Board. Unless sooner terminated under Section 15, it shall continue in effect for a term of ten (10) years from the later of (i) the effective date of the Plan, or (ii) the date of the most recent Board approval of an increase in the number of shares reserved for issuance under the Plan.

8.

Term of Option. The term of each Option shall be stated in the Option Agreement; provided, however, that the term shall be no more than fifteen (15) years in the case of a NonQualified Option and ten (10) years from the date of grant thereof in the case of an Incentive Stock Option. In the case of an Incentive Stock Option granted to an Optionee who, at the time the Option is granted, owns stock representing more than ten percent (10%) of the voting power of all

classes of stock of the Company or any Parent or Subsidiary, the term of the Option shall be five (5) years from the date of grant or such shorter term as may be provided in the Option Agreement.

9.

Option Exercise Price and Consideration.

(a)

Exercise Price. The per share exercise price for the Shares to be issued upon exercise of an Option shall be such price as is determined by the Administrator, but shall be subject to the following:

(i)

In the case of an Incentive Stock Option

(A)

granted to an Employee who, at the time of grant of such Option, owns stock representing more than ten percent (10%) of the voting power of all classes of stock of the Company or any Parent or Subsidiary, the exercise price shall be no less than 110% of the Fair Market Value per Share on the date of grant.

(B)

granted to any other Employee, the per Share exercise price shall be no less than 100% of the Fair Market Value per Share on the date of grant.

(ii)

In the case of a Nonstatutory Stock Option, the per Share exercise price shall be determined by the Administrator.

(iii) Notwithstanding the foregoing, Options may be granted with a per Share exercise price other than as required above pursuant to an assumption or substitution of another option in connection with a merger or other corporate transaction.

(b)

Forms of Consideration. The consideration to be paid for the Shares to be issued upon exercise of an Option, including the method of payment, shall be determined by the Administrator (and, in the case of an Incentive Stock Option, shall be determined at the time of grant). Such consideration may consist of, without limitations, (1) cash, (2) check, (3) promissory note, (4) other Shares, provided any Shares acquired from the Company, either directly or indirectly, (x) have been owned by the Optionee for more than six months on the date of surrender, and (y) have a Fair Market Value on the date of surrender equal to the aggregate exercise price of the Shares as to which such Option shall be exercised, (5) consideration received by the Company under a cashless exercise program implemented by the Company in connection with the Plan, or (6) any combination of the foregoing methods of payment. In making its determination as to the type of consideration to accept, the Administrator shall consider if acceptance of such consideration may be reasonably expected to benefit the Company. Notwithstanding the foregoing, the Administrator may permit an Optionee to exercise his or her Option by delivery of a full-recourse promissory note secured by the purchased Shares. The terms of such promissory note shall be determined by the Administrator in its sole discretion.

10.

Exercise of Option.

(a)

Procedure for Exercise; Rights as a Shareholder. Any Option granted hereunder shall be exercisable according to the terms hereof at such times and under such conditions as determined by the Administrator and set forth in the Option Agreement. Unless the Administrator provides otherwise, vesting of Options granted hereunder shall be suspended during any unpaid leave of absence. An Option may not be exercised for a fraction of a Share.

An Option shall be deemed exercised when the Company receives: (i) written or electronic notice of exercise (in accordance with the Option Agreement) from the person entitled to exercise the Option, and (ii) full payment for the Shares with respect to which the Option is exercised. Full payment may consist of any consideration and method of payment authorized by the Administrator and permitted by the Option Agreement and the Plan. Shares issued upon exercise of an Option shall be issued in the name of the Optionee or, if requested by the Optionee, in the name of the Optionee and his or her spouse. Until the Shares are issued (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company), no right to vote or receive dividends or any other rights as a shareholder shall exist with respect to the Shares, notwithstanding the exercise of the Option. The Company shall issue (or cause to be issued) such Shares promptly after the Option is exercised. No adjustment will be made for a dividend or other right for which the record date is prior to the date the Shares are issued, except as provided in Section 13 of the Plan.

Exercise of an Option in any manner shall result in a decrease in the number of Shares thereafter available, both for purposes of the Plan and for sale under the Option, by the number of Shares as to which the Option is exercised.

(b)

Termination of Relationship as a Service Provider. If an Optionee ceases to be a Service Provider, such Optionee may exercise his or her Option within such period of time as is specified in the Option Agreement to the extent that the Option is vested on the date of termination (but in no event later than the expiration of the term of the Option as set forth in the Option Agreement). In the absence of a specified time in the Option Agreement, the Option shall remain exercisable for three (3) months following the Optionee's termination. If, on the date of termination, the Optionee is not vested as to his or her entire Option, the Shares covered by the unvested portion of the Option shall revert to the Plan. If, after termination, the Optionee does not exercise his or her Option within the time specified by the Administrator, the Option shall terminate, and the Shares covered by such Option shall revert to the Plan.

(c)

Disability of Optionee. If an Optionee ceases to be a Service Provider as a result of the Optionee's Disability, the Optionee may exercise his or her Option within such period of time as is specified in the Option Agreement to the extent the Option is vested on the date of termination (but in no event later than the expiration of the term of such Option as set forth in the Option Agreement). In the absence of a specified time in the Option Agreement, the Option shall remain exercisable for twelve (12) months following the Optionee's termination. If, on the date of termination, the Optionee is not vested as to his or her entire Option, the Shares covered by the unvested portion of the Option shall revert to the Plan. If, after termination, the Optionee does not exercise his or her Option within the time specified herein, the Option shall terminate, and the Shares covered by such Option shall revert to the Plan.

(d)

Death of Optionee. If an Optionee dies while a Service Provider, the Option may be exercised within such period of time as is specified in the Option Agreement (but in no event later than the expiration of the term of such Option as set forth in the Option Agreement), by the Optionee's designated beneficiary, provided such beneficiary has been

designated prior to Optionee's death in a form acceptable to the Administrator. If no such beneficiary has been designated by the Optionee, then such Option may be exercised by the personal representative of the Optionee's estate or by the person(s) to whom the Option is transferred pursuant to the Optionee's will or in accordance with the laws of descent and distribution. If, at the time of death, the Optionee is not vested as to his or her entire Option, the Shares covered by the unvested portion of the Option shall immediately revert to the Plan. If the Option is not so exercised within the time specified herein, the Option shall terminate, and the Shares covered by such Option shall revert to the Plan.

11.

Limited Transferability of Options. Unless determined otherwise by the Administrator, Options may not be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner other than by will or the laws of descent and distribution, and may be exercised during the lifetime of the Optionee, only by the Optionee. Notwithstanding the foregoing, to the extent permitted by the Administrator, in its discretion, and set forth in the Option Agreement evidencing such Option, a Nonstatutory Stock Option shall be assignable or transferable subject to the applicable limitations, if any, described in Rule 701 under the Securities Act and the General Instructions to Form S-8 Registration Statement under the Securities Act. In addition, any transferable Option shall contain additional terms and conditions as the Administrator deems appropriate.

12.

Common Stock.

(a)

Restricted Stock Agreement. Each grant of Restricted Common Stock under the Plan shall be evidenced by a Restricted Stock Agreement between the recipient and the Company. Such Restricted Shares shall be subject to all applicable terms of the Plan and may be subject to any other terms that are not inconsistent with the Plan. The provisions of the various Restricted Stock Agreements entered into under the Plan need not be identical.

(b)

Payment for Awards. Subject to the following sentence, Restricted Shares may be sold or awarded under the Plan for such consideration as the Committee may determine, including (without limitation) cash, cash equivalents and past services. To the extent that an Award consists of newly issued Restricted Shares, the consideration shall consist exclusively of cash, cash equivalents or past services rendered to the Company.

(c)

Vesting Conditions. Each award of Restricted Shares may or may not be subject to vesting. Vesting shall occur, in full or in installments, upon satisfaction of the conditions specified in the Restricted Stock Agreement. A Restricted Stock Agreement may provide for accelerated vesting in the event of the Participant's death, disability or retirement or other events. The Committee may determine, at the time of granting Restricted Shares or thereafter, that all or part of such Restricted Shares shall become vested in the event that a Change in Control occurs with respect to the Company or in the event that the Participant is subject to an Involuntary Termination after a Change in Control.

(d)

Voting and Dividend Rights. The holders of Restricted Shares awarded under the Plan shall have the same voting, dividend and other rights as the Company's other stockholders. A Restricted Stock Agreement, however, may require that the holders of Restricted Shares invest any cash dividends received in additional Restricted Shares. Such

additional Restricted Shares shall be subject to the same conditions and restrictions as the Award with respect to which the dividends were paid.

13.

Adjustments Upon Changes in Capitalization, Merger or Change in Control.

(a)

Changes in Capitalization. Subject to any required action by the shareholders of the Company, the number and type of Shares which have been authorized for issuance under the Plan but as to which no Options have yet been granted or which have been returned to the Plan upon cancellation or expiration of an Option, the ISO Share Issuance Limit, and the number and type of Shares covered by each outstanding Option, as well as the price per Share covered by each such outstanding Option, shall be proportionately adjusted for any increase or decrease in the number or type of issued Shares resulting from a stock split, reverse stock split, stock dividend, combination or reclassification of the Common Stock, or any other increase or decrease in the number of issued shares of Common Stock effected without receipt of consideration by the Company. The conversion of any convertible securities of the Company shall not be deemed to have been effected without receipt of consideration. Such adjustment shall be made by the Board, whose determination in that respect shall be final, binding and conclusive. Except as expressly provided herein, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number, type or price of Shares subject to an Option.

(b)

Dissolution or Liquidation. In the event of the proposed dissolution or liquidation of the Company, the Administrator shall notify each Optionee as soon as practicable prior to the effective date of such proposed transaction. The Administrator in its discretion may provide for an Optionee to have the right to exercise his or her Option until fifteen (15) days prior to such transaction as to all of the Optioned Stock covered thereby, including Shares as to which the Option would not otherwise be exercisable. In addition, the Administrator may provide that any Company repurchase option applicable to any Shares purchased upon exercise of an Option shall lapse as to all such Shares, provided the proposed dissolution or liquidation takes place at the time and in the manner contemplated. To the extent it has not been previously exercised, an Option will terminate immediately prior to the consummation of such proposed action.

(c)

Change in Control. In the event of a Change in Control, each outstanding Option shall be assumed or an equivalent option substituted by the successor corporation or a Parent or Subsidiary of the successor corporation. If, in such event, the Option is not assumed or substituted, then the Optionee shall fully vest in and have the right to exercise this Option as to all of the Optioned Stock, including Shares as to which it would not otherwise be vested or exercisable. If this Option becomes fully vested and exercisable in lieu of assumption or substitution in the event of a Change in Control, the Administrator shall notify the Optionee in writing or electronically that this Option shall be fully exercisable for a period of fifteen (15) days from the date of such notice, and this Option shall terminate upon the expiration of such period. For the purposes of this paragraph, the Option shall be considered assumed if, following the Change in Control, the Option confers the right to purchase or receive, for each Share of Optioned Stock subject to the Option immediately prior to the Change in Control, the consideration (whether stock, cash, or other securities or property) received in the Change in Control by holders of Common Stock for each Share held on the effective date of the transaction (and if holders were offered a choice of consideration, the type of consideration chosen by the holders of a majority of the outstanding Shares); provided, however, that if such consideration received in the Change in Control is not solely common stock of the successor corporation or its Parent, the Administrator may, with the consent of the successor corporation, provide for the consideration to be received upon the exercise of the Option, for each

Share of Optioned Stock subject to the Option, to be solely common stock of the successor corporation or its Parent equal in fair market value to the per share consideration received by holders of Common Stock in the Change in Control.

14.

Time of Granting Options. The date of grant of an Option shall, for all purposes, be the date on which the Administrator makes the determination granting such Option, or such later date as is determined by the Administrator. Notice of the determination shall be given to each Service Provider to whom an Option is so granted within a reasonable time after the date of such grant.

15.

Amendment and Termination of the Plan.

(a)

Amendment and Termination. The Board may at any time amend, alter, suspend or terminate the Plan.

(b)

Shareholder Approval. The Board shall obtain shareholder approval of any Plan amendment to the extent necessary and desirable to comply with Applicable Laws.

(c)

Effect of Amendment or Termination. No amendment, alteration, suspension or termination of the Plan shall impair the rights of any Optionee, unless mutually agreed otherwise between the Optionee and the Administrator, which agreement must be in writing and signed by the Optionee and the Company. Termination of the Plan shall not affect the Administrator's ability to exercise the powers granted to it hereunder with respect to Options granted under the Plan prior to the date of such termination.

16.

Conditions Upon Issuance of Shares.

(a)

Legal Compliance. Shares shall not be issued pursuant to the exercise of an Option unless the exercise of such Option and the issuance and delivery of such Shares shall comply with Applicable Laws and shall be further subject to the approval of counsel for the Company with respect to such compliance.

(b)

Investment Representations. As a condition to the exercise of an Option, the Administrator may require the person exercising such Option to represent and warrant at the time of any such exercise that the Shares are being purchased only for investment and without any present intention to sell or distribute such Shares if, in the opinion of counsel for the Company, such a representation is required.

17.

Inability to Obtain Authority. The inability of the Company to obtain authority from any regulatory body having jurisdiction, which authority is deemed by the Company's counsel to be necessary to the lawful issuance and sale of any Shares hereunder, shall relieve the Company of any liability in respect of the failure to issue or sell such Shares as to which such requisite authority shall not have been obtained.

18.

Reservation of Shares. The Company, during the term of this Plan, shall at all times reserve and keep available such number of Shares as shall be sufficient to satisfy the requirements of the Plan.

19.

Shareholder Approval. The Plan shall be subject to approval by the shareholders of the Company within twelve (12) months after the date the Plan is adopted. Such shareholder approval shall be obtained in the degree and manner required under Applicable Laws.

IN WITNESS WHEREOF, the undersigned Secretary of the Company certifies that the foregoing sets forth the Idaho General Mines, Inc. 2003 Stock Option Plan as duly adopted by the Board on _____.
