## RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the following risk factors, other information included in this prospectus and information in our periodic reports filed with the SEC. If any of the following developments described as risks actually occur, our business, financial condition or results of operations could be materially and adversely affected and you may lose some or all of your investment.

### SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that involve risks and uncertainties. We generally use words such as "believe," "may," "could," "will," "intend," "expect," "anticipate," "plan," and similar expressions to identify forward-looking statements. You should not place undue reliance on these forward-looking statements. Our actual results could differ materially from those anticipated in the forward-looking statements for many reasons, including the risks described below and elsewhere in this report. Although we believe the expectations reflected in the forward-looking statements are reasonable, they relate only to events as of the date on which the statements are made, and our future results, levels of activity, performance or achievements may not meet these expectations. We do not intend to update any of the forward-looking statements after the date of this document to conform these statements to actual results or to changes in our expectations, except as required by law.

**Risks Related To Our Business.** In addition to the other information contained in this report, including risks and uncertainties described elsewhere, the following risk factors should be considered in evaluating the Company. The risks and uncertainties described below or elsewhere in this report are not the only ones the Company faces. Additional risks and uncertainties not presently known to the Company or that the Company currently deems immaterial also may impair the Company's business and operations. If any of the risks described below or elsewhere in this report materialize, the Company's business, financial condition, operating results and cash flows could be materially affected. Stockholders or investors considering the purchase of shares of the Company's common stock should carefully consider the following risk factors, in addition to the other information contained in this report.

You should not rely on the Company's past results to predict its future performance because its operating results fluctuate due to factors which are difficult to forecast and often out of the Company's control. The Company's past

revenues and other operating results may not be accurate indicators of the Company's future performance. The factors that may contribute to these fluctuations include: fluctuations in aggregate capital spending, cyclical and other economic conditions in one or more markets in which we sell our products; changes or reductions in demand in the markets we serve; a change in market acceptance of the Company's products or a shift in demand for the Company's products; new product introductions by the Company or by the Company's competitors; changes in product mix and pricing by the Company, its suppliers or its competitors; pricing and related availability of raw materials for the Company's products; the Company's failure to manufacture a sufficient volume of products in a timely and cost-effective manner; the Company's failure to anticipate changing product requirements of its customers; changes in the mix of sales by distribution channels; exchange rate fluctuations; and extraordinary events such as litigation or acquisitions.

**Loss of Licenses.** A substantial portion of the Company's revenue is derived from its licensing program and Company owned brands. The Company is a party to numerous licensing agreements to utilize "branded" logos for its products. Licenses from colleges and universities comprise the greatest segment of the Company's licenses and these licenses are grouped into master licenses. All of these master license arrangements have a duration of one to three years and may not contain automatic renewal options. Although the Company has had no difficulty renewing these license arrangements in the past and obtaining new licenses, there can be no assurance that the Company will be able to do so in the future. The loss of any one group of licenses or any master license may have a material adverse effect on the Company's financial conditions and results of operations.

**Competition.** The principal competitive factors affecting the market for the Company's products include product functionality, performance, quality, reliability, delivery, price, compatibility and conformance with customer and licensor standards. Several of the Company's existing and potential competitors are larger than the Company and may have substantially greater financial, sourcing and other resources than does the Company. In addition, the Company may in the future face competition from new entrants in its markets and there can be no assurance that these competitors will not offer better price points for competitive products or offer better terms to the Company's customers than those offered by the Company to obtain greater market share or cause the Company to lower prices for its products, any of which could harm the Company's business.

**Dependence Upon Key Personnel.** The Company depends to a significant degree on the continued contribution of key executive management and key operations and sales management. The loss of the services of one or more key executives could have a material adverse effect on the Company. The Company's success also depends on its ability to attract and retain additional highly qualified management personnel to meet the needs of future expansion. Competition for these individuals is intense and they are often subject to offers from competing employers, some of whom may be better able to offer more lucrative compensation incentives than those offered by the Company. Although most of the Company's key employees have been with the Company for an extended period of time, there can be no assurance that the Company will be able to retain its key employees, or that it will be able to attract or retain additional skilled personnel as needed. The Company's key executive management, senior operational, finance and sales management personnel have entered into written employment contracts with the Company.

**Dependence On Non-U.S. Suppliers.** The Company sources a significant amount of its products from international suppliers. Relationships with foreign suppliers present a greater risk of disruption due to political and economic instability than relationships with domestic suppliers. Although the majority of the products used by the Company are

available from multiple sources both domestically and internationally, any disruption in availability of products and services from these foreign suppliers could lead to increases in the Company's product costs. The Company believes it can locate alternative products from several supplier sources to obtain the quality and delivery standards if a disruption in international sources should occur.

**Dependence Upon Key Customers.** Historically, the Company's customer base has been comprised primarily of national and regional mass merchandise and specialty retailers. During the past three years the Company has made a concerted effort to expand its customer base. The acquisition of CMJ Ventures, Inc., which sells to over five hundred specialty retailers, and the introduction of major product lines and distribution channels, such as the Motor Sports Division, which sells to a dealer network of approximately 9,000 auto dealers are two components of this expansion. The acquisition of Lil' Fan, Inc ("Lil' Fan") also expanded the Company's customer base with the addition of a full line of design and merchandising primarily focusing on children's licensed college and motor sports products. Lil' Fan customers are complementary to the Company and do not overlap with existing customers. The acquisition of Choice International, Inc further expands the customer base into a private label distribution network. Additionally, the acquisition of S-2-S Acquisition Corporation gave the Company access to a new customer who is a large national retailer. As a result of this effort, the Company has developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national and large regional chains to specialty retailers, corporate accounts, college book stores, motor sports, souvenir, golf and gift shops. If the Company is unable to sustain this expansion of its customer base, or if it is unable to maintain its customer base it could have a negative impact on its financial condition and results of operations.

**Possible Need For Additional Financing/Capital.** The Company is highly leveraged. Based upon the Company's current level of operations and anticipated growth, the Company believes that cash flows from operations, together with its working capital facility, will be sufficient to enable the Company to satisfy anticipated cash flow requirements for operating, investment and financing activities, including debt service. However, with the Company's expected expansion and additional acquisitions, the Company could be required to obtain additional financing and/or capital, by private placement or in the public markets, to satisfy its requirements. There can be no assurance that such alternatives would be available to the Company at all or on terms reasonably acceptable to the board of directors. If we cannot obtain adequate funds on acceptable terms or at all, we may not be able to take advantage of market opportunities, develop or enhance new products, pursue acquisitions that would complement our existing product offerings, execute our business plan or otherwise respond to competitive pressures or unanticipated requirements.

**Limited Trading Market For Common Stock.** The Company's common stock is quoted on the National Association of Securities Dealers' OTC Bulletin Board. There may be a limited trading market for the common stock.

**Volatility Of Common Stock's Market Price.** The market price of the common stock is more volatile than the price of common stock of more established companies, because of the limited number of shareholders and the low volume of trading. In addition, the price is subject to a variety of factors, including the business environment; the operating results of companies in the industries we serve; future announcements concerning the Company's business or that of its competitors or customers; the introduction of new products or changes in product pricing policies by the Company or its competitors; litigation matters; changes in analysts' earnings statements; developments in the financial markets; quarterly operating results; and perceived dilution from stock issuances for acquisitions and other transactions. Furthermore, stock prices for many companies fluctuate for reasons that may be unrelated to their operating results.

Those fluctuations and general economic, political and market conditions, such as recessions, terrorist actions or other military actions, or international currency fluctuations, as well as public perception of equity values of publicly traded companies may adversely affect the market price of our common stock.

**Additional Shares.** The Board of Directors has the authority to issue, without further action by the stockholders, up to 10,000,000 additional shares of preferred stock in one or more series and to fix the price, rights, preferences, privileges and restrictions thereof, including dividend rights, dividend rates, conversion rights, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting a series or the designation of such series. The Company has previously issued 1,750 shares of Series A Preferred Stock which have all been converted to common stock. The issuance of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of delaying, deferring or preventing a change in control of the Company without further action by the stockholders and may adversely affect the market price of, and the voting and other rights of, the holders of common stock.

## USE OF PROCEEDS

All net proceeds from the sale of the common stock covered by this Prospectus will go to the selling stockholders. The Company will not receive any proceeds from the sale of the common stock in this offering. The Company did, however, receive proceeds from the sale of the common stock and the warrants to selling stockholders and may receive proceeds from the exercise of the warrants by the selling stockholders. If all of the warrants were exercised with cash, the Company would receive proceeds of \$2,213,750. These proceeds would be used for general corporate purposes, including working capital and potential acquisitions.

## DETERMINATION OF OFFERING PRICE

The selling stockholders may sell shares from time to time in negotiated transactions, brokers' transactions or a combination of such methods at market prices prevailing at the time of the sale or at negotiated prices.

## DIVIDEND POLICY

**Edgar Filing: NEXT INC/TN - Form 424B3**

It is the Company's present policy not to pay cash dividends on its shares of common stock and to retain future earnings for use in the operations of the business and to fund future growth. Additionally, bank covenants prohibit us from paying cash dividends on our common stock. Any payment of cash dividends on our common stock in the future will be dependent upon the amount of funds legally available, earnings, financial condition, capital requirements and other factors that the Board of Directors may think are relevant. The Company does not anticipate paying any dividends on the common stock in the foreseeable future. The Company is obligated to pay certain dividends on its issued and outstanding shares of Series A Convertible Preferred Stock. Such dividends may be paid in cash or by the issuance of shares of common stock or Series A Convertible Preferred Stock.

**SELLING SECURITY HOLDERS**

The table below sets forth ownership information regarding the selling stockholders. For purposes of calculating the percentage of common stock outstanding, any securities not outstanding which are subject to options, warrants or conversion privileges are deemed outstanding for the purposes of computing the percentage of outstanding securities owned by the selling stockholders. Unless otherwise indicated, the selling stockholders have the sole power to direct the voting and investment over the shares owned by them.

Based on shares outstanding as of December 2, 2005. Assumes that all the warrants are exercised in full and all shares of common stock held and to be held by the selling stockholders being offered under this Prospectus are sold, and that none of the selling stockholders acquire any additional shares of common stock before the completion of this offering. The Company's registration of the shares of common stock does not necessarily mean that any one of the selling stockholders will sell all or any of the shares.

This prospectus also covers any additional shares of common stock that become issuable in connection with the shares being registered by reason of any stock dividend, stock split, recapitalization or other similar transaction effected without the receipt of consideration which results in an increase in the number of our outstanding shares of common stock.

**PLAN OF DISTRIBUTION**

The selling stockholders listed in the table above under Selling Security Holders (the Selling Stockholders) and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions.

These sales may be at fixed or negotiated prices. The Selling Stockholders may use any one or more of the following methods when selling shares:

ordinary brokerage transactions and transactions in which the broker dealer solicits purchasers;

block trades in which the broker dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker dealer as principal and resale by the broker dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

settlement of short sales entered into after the date of this prospectus;

agreements with broker dealers to sell a specified number of such shares at a stipulated price per share;

a combination of any such methods of sale;

the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise; or

any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell shares under Rule 144 under the Securities Act of 1933, as amended (the Securities Act ), if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with NASDR Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with NASDR IM-2440.

In connection with the sale of the Common Stock or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the Common Stock in the course of hedging the positions they assume. The Selling Stockholders may also sell shares of the Common Stock short and deliver these securities to close out their short positions, or loan or pledge the Common Stock to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be underwriters within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Stockholder has informed the Company that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the Common Stock. In no event shall any broker-dealer receive fees, commissions and markups which, in

the aggregate, would exceed eight percent (8%).

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the shares. The Company has agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because Selling Stockholders may be deemed to be underwriters within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. Each Selling Stockholder has advised us that they have not entered into any written or oral agreements, understandings or arrangements with any underwriter or broker-dealer regarding the sale of the resale shares. There is no underwriter or coordinating broker acting in connection with the proposed sale of the resale shares by the Selling Stockholders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the shares may be resold by the Selling Stockholders without registration and without regard to any volume limitations by reason of Rule 144(e) under the Securities Act or any other rule of similar effect or (ii) the date on which all of the shares have been sold pursuant to the prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to the Common Stock for a period of two business days prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of the Common Stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale.

## **LEGAL PROCEEDINGS**

The Company has pending various minor legal actions arising in the normal course of business. Management does not believe that such legal actions, individually or in the aggregate, will have a material impact on the Company's business, financial condition or operating results.

#### **DISCLOSURE OF COMMISSION'S POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES**

Section 145 of the Delaware General Corporation Law permits a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorney's fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believes to be in or not opposed to the best interest of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful.

A corporation also shall have the power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorney's fees) actually and reasonably

incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith in a manner the person reasonably believed to be in or not opposed to the best interest of the corporation and except that no such indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Article Six of the Company's Amended and Restated Certificate of Incorporation states that the Company shall, to the fullest extent permitted by Section 145 of the Delaware General Corporation Law, as amended, shall indemnify any and all persons whom it shall have the power to indemnify under said section from and against any and all of the expenses, liabilities and other matters referred to in or covered by such section and further that the indemnification provided in such Certificate of Incorporation shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise.

Insofar as indemnification for liabilities under the Securities Act of 1933 may be permitted to our directors, officers, and controlling persons, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and therefore unenforceable.

## DESCRIPTION OF BUSINESS

**BUSINESS DEVELOPMENT.** Next, Inc., a Delaware corporation, was formed January 2, 1987. It has six wholly owned operating subsidiaries: (i) Next Marketing Inc., a Delaware corporation ("Next Marketing"), (ii) Blue Sky Graphics, Inc., a Delaware corporation ("Blue Sky"), (iii) CMJ Ventures, Inc., a Florida corporation ("CMJ"), (iv) Lil' Fan, Inc., a Delaware corporation ("Lil' Fan"), (v) Choice International Inc., a Delaware corporation ("Choice"), and S-2-S Acquisition Corporation, a Delaware corporation (S-2-S). All references herein to the "Company," "we," "us," "our" or "Next" refer to Next, Inc. and its subsidiaries.

**The Company.** The Company, as it currently operates, commenced its operations on February 1, 2002, after the completion of a stock exchange between Sporting Magic, Inc., a Delaware corporation, and Next, Inc., a Delaware corporation (the "Exchange"). Following the Exchange and until December 27, 2002, the Company operated under the name Sporting Magic, Inc., at which time Next, Inc. was merged with and into Sporting Magic, Inc. and the name Sporting Magic, Inc. was changed to Next, Inc.

**The Subsidiaries.** Blue Sky and Next Marketing became indirect subsidiaries of the Company at the time of the Exchange and on December 27, 2002, following the merger between Sporting Magic, Inc. and Next, Inc., became wholly owned subsidiaries of the Company. Blue Sky and Next Marketing (and their respective predecessors) have been in existence since 1989 and 1997, respectively, and were prior to the Exchange owned and controlled by two of the Company's principal stockholders. CMJ became a subsidiary of the Company on June 1, 2002 pursuant to the

terms of an Agreement and Plan of Merger dated as of March 1, 2002, as amended on May 16, 2002 and May 15, 2003. On July 31, 2003, the Company acquired substantially all of the assets of Lil' Fan, Inc., the right to sell all items previously sold by Stan Howard & Associates, and Stan Howard & Associates, Inc. through a subsidiary that is now Lil' Fan. On October 31, 2004, the Company acquired substantially all of the assets of Choice, the right to purchase goods through an international source, and the right to sell all items through a customer base previously sold by the principals through a subsidiary that is now Choice. On August 12, 2005, the Company acquired certain assets of S-2-S, including a customer list, license agreements, and a vendor number to a large retailer.

**THE BUSINESS.** The Company is a creative and innovative sales and marketing organization that designs, develops, markets and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs.

The Company's management ("Management") believes that there are substantial growth opportunities in the promotional products and imprinted sportswear industries and that the Company is well positioned to take advantage of these growth opportunities. Management believes that the Company has an excellent reputation in the marketplace as a result of its ability to provide quality products and services and on-time delivery at competitive prices.

The Company's licensed and proprietary products include the following:

Approximately 200 licenses and agreements to distribute its **Cadre Athletic™** and **Campus Traditions USA™** line for most major colleges and universities in the U.S.;

Licensing agreements with Chevy®, Pontiac®, Hummer®, Cadillac®, Dodge®, GMC®, Chrysler®, Plymouth®, Jeep® and Ford® for their respective “branded” logos for the RPM Sports USA motor sports line, targeting the automotive dealership network, and automotive venue markets;

Proprietary designs including **American Biker**<sup>TM</sup>, **American Wildlife**<sup>TM</sup>, **Ragtops Sportswear**<sup>TM</sup>, **Campus Traditions USA**<sup>TM</sup> and **Cadre Athletic**<sup>TM</sup>, among others;

Licensing and distribution agreements with Sturgis Bike Rally, Professional Bull Riders, James Dean<sup>th</sup> 50 commemorative anniversary, the 3 Stooges, and Fellowship of Christian Athletics.

The Company is continually reviewing additional licensing programs and proprietary designs to further expand its licensing program and proprietary design portfolio.

**OPERATIONS.** The Company is one of the larger companies in the highly fragmented licensed promotional products and imprinted sportswear industries. The Company has implemented its strategy of "The Total Solution Company" to meet its customers' key requirements including: art design and development, manufacturing (for imprinted sportswear), sourcing (for distributed products), warehousing and fulfillment. We believe that the following strengths, among others, have contributed to our past success and may provide us with a distinctive ongoing competitive advantage:

.

**High quality imprinted sportswear.** Imprinted sportswear is produced both domestically and offshore. For large runs with long lead times, it is economically advantageous to produce the imprinted sportswear in countries where the cost of labor is lower than in the United States. Management believes that the Company does an excellent job of costing, and effectively sourcing its products from international suppliers. The Company's facility in Wabash, Indiana, was set-up specifically to handle situations where it is not practical to produce imprinted sportswear offshore such as: (a) for customized imprinted sportswear that, due to the uniqueness of the product, is not suited for the standardized long runs of offshore production, (b) for "hot market" reorders of just-in-time inventory such as for major sporting events, and (c) for demand that exceeds forecasts leading to the need for quick replenishment orders. The Wabash facility, with the capability to produce both imprinted and embroidered products, was organized by industry experts incorporating a sophisticated inventory management system with emphasis on automation of the manufacturing process effort, to minimize costs, cycle time and waste. The Wabash facility substantially reduces our reliance on outside sourcing, enabling us to reduce costs, shorten delivery time and enhance quality control of our products.

.

**Excellent design and merchandising staff.** We believe that licensed branded products are an established and significant growth category within our industry. The ability to deliver unique product offerings on a timely basis is key to the future success and expansion of our branded licensed revenue. The Company believes that it possesses one of the most creative and innovative design, merchandising and product development capabilities within the industry. The Company's design and merchandising staff determines, in partnership with our customers, the product strategy and is responsible for creating innovative products for our branded license and proprietary products lines. Management believes that this partnership provides stability in the design environment and consistency in our product variety and offers our customers flexibility in their product selection and timeliness of product delivery. The Company has been successful in significantly reducing the time requirements needed for the design, sourcing and delivery of products to substantially less than the industry norm. This enables us to provide a wide variety of products with greater acceptability in the marketplace within a reduced leadtime. Our partnerships with key suppliers further enhance our ability to develop and deliver our distinctive and innovative products quicker. In 2005, key suppliers included DZ Trading, Inc., American Unitech, and Gildan.

.

**Upscale brand identity.** The Company offers a style of products that is built on quality and strong imagery. Our marketing themes revolve around college and university brands, motor sports, outdoor lifestyle, motorcycle biking, fishing, water sports, and other leisure pursuits designed to appeal to many of our target customers. We reinforce our upscale brand image at the retail level with specialized piano grams and displays that present our lines as distinctive

collections. The Company's target is an upscale consumer in casual settings, college and sporting activities, or relaxed weekend environments. We believe that our consumers are seeking a refined level of product quality and distinctiveness, and our designs, manufacturing standards and marketing are structured accordingly.

**INFORMATION SYSTEMS.** We employ a fully integrated, real-time management information system that is specifically designed for our industry. The system includes important features such as manufacturing resource requirements planning, production scheduling, detailed product tracking, standard cost system planning and control, and detailed perpetual inventory systems. As our production personnel track original purchases through various factory production phases, our merchandisers track sales in order to compare purchases against availability, thereby allowing us to react quickly to changes and trends. Our product development team utilizes sophisticated computer-aided design software to meet our customers' design, collaboration and specification requirements. We also have a remote-order entry system for our sales force, allowing them to monitor and establish sales plans and communicate order specifics. Customer service personnel receive this uploaded information daily and have real-time access to inventory availability.

This comprehensive information system serves users in each of our operating areas, and is also used to create costing models, specification sheets and production scheduling. The manufacturing module integrates with the general ledger accounting and financial module. Our information system also provides detailed product gross margin information that assists us in managing product profitability. During fiscal 2004, we continued to expand the relational database capabilities of our management information system to allow us to create specialized management reports and access critical decision support data.

**COMPETITION.** The promotional products and imprinted sportswear industry is highly competitive. Dun and Bradstreet estimates that there are over 19,000 promotional product companies in North America. According to Promotional Products Association International, the top 40 companies' sales represented \$3.2 billion or less than one-fifth of the industry's total sales of \$16.3 billion in 2003, which is the most current data available. Our primary distribution channels are highly fragmented with substantial competition from other distributors of promotional products. We believe that our ability to compete effectively is based primarily on product differentiation, product quality, production flexibility and distribution capabilities, all of which Management believes enhance the Company's brands.

**CUSTOMER BASE.** During the past three years, the Company has made a concerted effort to expand its customer base. As a result of this effort, the Company has developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains to specialty retailers, corporate accounts, college book stores, motor sports, souvenir and gift shops, and golf shops. The Company believes that its customer diversification and expansion program will be evident in fiscal year 2005 and beyond. The following represent a cross section of the Company's larger customers segregated by distribution channel:

National Retail Merchants:

Goody's, Kohl's, Sears, K-Mart, Dillard's, J.C. Penney, Belk, Federated Dept. Stores

Specialty Retailers:	Dollar General, Sam's Wholesale Club
Sporting Goods Chains:	Sports Fan, MC Sports, Schuylkill Valley Sports, Academy, Football Fanatics, Scheels Sports
Corporate Accounts and College Book Stores:	Nebraska Book Company, Husker Hounds, Love's Country Stores, Marshall University
Food & Drug Chains:	Kroger's
Motor Sports:	Dodge, Pontiac, Chevy, GMC, Ford, Chrysler, Plymouth, Jeep dealer networks, and Motorcycle Dealers, Gift Shops
E-Commerce:	General public via website distribution

**GROWTH STRATEGY.** The industries in which the Company competes are highly fragmented with no single company or group of companies holding a dominant market share. As a result, Management believes that there are significant growth opportunities available to the Company that include the following:

**Expansion of the Company's Licensed Imprinted Sportswear Business.** In recent years, licensed imprinted sportswear has become very popular. Licensing agreements are available for branded products and services, amateur and professional sports teams, and many other promotional areas. According to statistics from the International Licensing Industry Merchandisers' Association, licensing revenue from collegiate licensed products increased 11.5% from 2002 to 2003. Similarly, licensing revenue from sports licensed products increased 5.7% over the same period. These two types of licenses make up a large percentage of the Company's sales base. The Company is constantly working to expand its licensing program to take gain an advantage in the competitive licensed imprint sportswear business.

**E-Commerce.** The Company has expanded its business to include e-commerce web sites through which some of the Company's most popular licensed products are marketed. The Company has been successful in establishing itself as a premier supplier under various e-commerce web sites, currently the most significant of which are [www.campustraditionsusa.com](http://www.campustraditionsusa.com)<sup>TM</sup>, [www.rpmsportswearusa.com](http://www.rpmsportswearusa.com)<sup>TM</sup>, and [www.americanbiker.com](http://www.americanbiker.com)<sup>TM</sup>, [www.americanwildlifeusa.com](http://www.americanwildlifeusa.com)<sup>TM</sup>. Another recent addition includes a corporate website, [www.nextinc.net](http://www.nextinc.net), which gives information to the general public about the Company.

**Increased Marketing of the Company's Proprietary Designs.** The Company has developed several proprietary designs that Management believes will increase its penetration into existing customer base and broaden its product offering to new accounts. The proprietary designs cover a broad spectrum of themes such as: **American Wildlife®** (outdoor activities), **American Biker®** (motorcycles), **Cadre Athletic®** and **Campus Traditions USA™** (college and athletics), among others.

**Strategic Mergers and Acquisitions.** In addition to organic growth, the Company also plans to grow through selective strategic mergers and acquisitions. Management believes that there are a number of quality merger candidates that will enable the Company to expand and diversify its presence in the marketplace. The Company's key acquisition criteria include: proven historical success, diverse customer base, and companies that possess a reputation for quality in the marketplace.

**INDUSTRY.** The Company operates in two interrelated industries - the promotional products industry and the imprinted sportswear industry:

**Promotional Products Industry.** The promotional products industry is highly fragmented consisting mainly of smaller privately held companies with no dominant positions. It is also a niche industry that is comprised of thousands of companies that distribute products bearing designs, logos, names, or catchy phrases. Examples of the products distributed by the companies in the industry include: imprinted sportswear, key chains, coffee mugs, pens, golf balls, mouse pads, clocks, etc. It is estimated that 30% or just over \$5 billion of all promotional products sold are imprinted sportswear (wearable) products, making imprinted sportswear, by far, the number one selling product of all promotional products sold.

According to Promotional Products Association International, a trade organization for the promotional products industry, the industry has experienced exceptional growth over the last ten years growing in sales from \$6.2 billion in 1993 to \$16.3 billion in 2003, which is the most current data available. Dun and Bradstreet estimates that there are over 19,000 promotional product companies in North America.

**Imprinted Sportswear Industry.** The imprinted sportswear industry is also a niche industry that entails value added embellishment (embroidering or screen-printing) of products. The items that are imprinted include: headwear, polo shirts, long-sleeve shirts, fleece wear, shorts, jackets, beach towels, souvenir blankets and t-shirts. The imprinted sportswear is sold primarily through traditional and specialty retailers ranging from large national and regional chains to sporting goods stores, casinos, golf and tennis pro shops, souvenir shops and sports stadiums.

**Trends.** A significant industry trend is the evolving requirement of customers to have suppliers provide enhanced value added services to them. A primary attribute that customers are seeking is a company's ability to be a "one-stop shop" for all products requirements. In effect, customers are now looking to their suppliers to provide enhanced value-added services: design and graphic capabilities, fulfillment and warehousing, company store planning and execution and on-line purchasing. The corporate sales market is comprised primarily of corporations that purchase imprinted sportswear bearing the corporation's logo, name, or a theme.

**SUPPLIERS.** The Company sources a significant portion of its products with international suppliers. The majority of the products used by the Company are available from multiple sources. Alternative suppliers are currently available to

the Company both domestically and internationally. In 2005, key suppliers included DZ Trading, Inc., American Unitech, and Gildan.

**EMPLOYEES.** As of November 18, 2005, the Company had one hundred seventy one employees. We consider our relations with our employees to be satisfactory.

**ACQUISITIONS AND REFINANCING.** Pursuant to the terms of an Asset Purchase Agreement (the "Agreement"), dated August 12, 2005, by and among S-2-S Acquisition Corporation, a Delaware corporation and wholly owned subsidiary of the Company, Sports-2-Schools, LLC., a Kentucky corporation, and Buck Swindle Associates, a Purchase Price Addendum Agreement dated August 12, 2005 by and among Allen Gaddis, Gaddco, Inc., S-2-S and the Company and a Purchase Price Addendum agreement dated August 12, 2005 by and among Dr. Jim Ingram, S-2-S, and the Company, through its subsidiary S-2-S Acquisition Corporation, acquired certain assets of Sports-2-Schools, LLC, including a customer list, license agreements and a vendor number to a large retailer. The Company assumed \$172,000 in debt as part of the transaction. S-2-S is in the licensed sportswear business. The Company intends to continue to operate the business of S-2-S, after the acquisition through a new independent sales staff. The S-2-S acquisition was made to expand the Company's distribution and customer base.

Pursuant to the terms of an Asset Purchase Agreement dated October 31, 2004 by and among Choice Acquisition Corporation (a wholly owned subsidiary of the Company), Choice International, Inc. ("Choice"), Mark Scyphers and William Steele, the Company, through a subsidiary, acquired all of the assets of Choice and the right to sell all items previously sold by the principals. Choice's customers, distribution networks, and purchasing channels, diversify, complement, and bolster the Company's existing customer and distribution base. The Company expects that future sales and earnings will continue to show strong growth. The Company, during fiscal 2004, fully integrated the operations of Choice into the operating facility located in Wabash, Indiana (see NOTE 14 of the Notes to Consolidated Financial Statements contained elsewhere in this document).

On September 30, 2005, the Company entered into a new agreement with First Federal Savings Bank of Wabash to refinance three existing notes totaling \$3,225,809. Two other notes on various equipment had outstanding balances, including accrued interest, of \$155,470 and \$365,479. Loan origination fees of \$31,938 were also included in the refinancing. The new loan has a term of 15 years. The Company will make principal and interest payments of \$29,263 over a 5 year term at 7.0% interest. After 5 years, the note becomes a variable rate loan and the interest rates and amounts due for principal and interest could change.

On August 12, 2005, the credit agreement between the Company and National City Bank of Indiana was amended to temporarily increase the Company's line of credit to \$9,500,000, lower the advance rate on accounts receivable to 80%, reduce limitations on advances based on eligible inventory, and increase the concentration limits for a specific national customer. On May 26, 2005, the credit agreement between the Company and National City Bank of Indiana was amended to increase the line of credit to \$9,000,000 and extend the term thereof until April 1, 2007. The amendment to the line of credit allows the Company to reduce the limitation on advances based on eligible inventory. The agreement provides for monthly payments of interest at a nationally published prime rate plus .25% (6.5% was the published rate at August 31, 2005) and the Company must comply with certain financial and other covenants. Accounts receivable, inventory, and certain personal assets and personal guarantees of the Company's Chief Executive

Officer and Chief Financial Officer collateralize borrowings under the facility.

On January 20, 2004, the Company entered into subordinated loan agreements with Next Investors, LLC for \$400,000 and First Federal Savings Bank for \$500,000. The purpose of these loans was to provide working capital to be repaid out of a future equity infusion. The loans have a 4% and 6% interest rates and maturity dates of January 20, 2006 and 2005, respectively. In April of 2004 the First Federal note of \$500,000 was paid off out of the proceeds of the equity infusion by GCA Strategic Investment Fund Limited, described below. The loan to Next Investors, LLC was repaid in the second quarter ending May 31, 2005. On July 20, 2005 the Company entered into a subordinated loan agreement with Next Investors, LLC for \$500,000. The purpose of the loan was to provide working capital due to higher seasonal sales in the third and fourth quarters. The loan has an interest rate of 7.25% and maturity is November 28, 2005.

On April 8, 2004, the Company issued, pursuant to a Securities Purchase Agreement, 1,750 shares of Series A Convertible Preferred Stock to GCA Strategic Investment Fund Limited. The Company received net proceeds of \$1,471,498, from the Preferred Stock which was utilized for working capital and debt reduction. The Company has registered these shares but will not receive proceeds related to the sale of the common stock securities. The Company also issued a Preferred Stock Warrant to GCA to purchase 358,000 shares of common stock at \$1.88, which expires April 8, 2009. The Preferred Stock has been completely converted into Common Stock as of August 31, 2005.

On April 15, 2004, the Company entered into a credit agreement with National City Bank for an \$8,000,000 revolving credit facility agreement which matures on April 1, 2006. Under the National City agreement the Company may draw up to the sum of 85% of eligible accounts receivable, as defined, and 60% of eligible raw materials and finished goods inventory. In addition, the agreement provides for monthly payments of interest at a nationally published prime rate plus .25% (.500% was the published rate at November 30, 2004) and the Company must comply with certain financial and other covenants. Accounts receivable, inventory, certain personal assets and personal guarantees of the Company's CEO and CFO collateralize the borrowings under the facility.

On July 23, 2004, the Company entered into a new loan with First Federal Saving Bank for certain production equipment in the amount of \$276,500 bearing interest at 6.5%. Principal and interest payments are made monthly and the loan matures November 2, 2009.

("Mid South") and Itasca Capital Partners LLC ("Itasca") (collectively, the "Purchasers") and raised \$2,990,000 in a private placement to the Purchasers. None of the Purchasers has any other material relationship with the Company. Pursuant to this agreement, Next issued to Bonanza, 2,000,000 shares of its common stock and a warrant to purchase 1,000,000 shares, to MidSouth, 250,000 shares and a warrant to purchase 125,000 shares, and to Itasca, 50,000 shares and a warrant to purchase 25,000 shares. The shares were issued at \$1.30 per share and the warrants are exercisable at \$1.75 per share for five years. In addition, the Company issued a warrant to purchase 115,000 shares of common stock to Dougherty & Company, LLC for its services in connection with the private placement. The warrants are exercisable at \$1.75 per share for five years.

**Future Acquisitions.** The Company is actively engaged in discussions with various potential acquisition targets and expects to grow through strategic acquisitions of complementary businesses. Management believes that additional acquisitions by the Company will allow it to further diversify its customer and distribution base, lessen its current dependence on large customers, and enhance stockholder value. Although Management believes that these acquisitions will be completed in the near future, the Company is not presently a party to any definitive agreements with respect to any acquisitions and there can be no assurances that any acquisition will be accomplished in the near future or at all.

**Business Developments in 2004.** On April 15, 2004, the Company announced a licensing agreement with James Dean, Inc. whereby Next will utilize the name, image and trademarks of James Dean in an exciting, new branded apparel offering. From commemorative programs and recognition events coordinated through city officials, to historic preservation efforts, to co-branding programs with James Dean and some of the most prestigious brands in the world, the 50th Anniversary Celebration of the death of this cultural icon promises to be a major media and publicity event.

On July 20, 2004, the Company announced a licensing agreement with Professional Bull Riders (PBR). PBR's licensed products are among the top selling licensed products at western retailers nationwide. The Company believes the consistency in demographics between PBR fans and the Company's licensed automotive apparel line and our American Wildlife line will present great cross-selling opportunities.

On September 28, 2004, the Company announced a licensing agreement with DaimlerChrysler Corp. The Company believes this rapidly growing product line will assist us in achieving our goal to minimize the seasonal aspect of the business, as automotive licensed products are less seasonal than collegiate licensed items. Additionally, in October, 2004, the Company obtained a signed licensing agreement with C3 Entertainment, Inc. for The Three Stooges©. This license could provide the Company with more opportunities for non-seasonal sales and growth.

On October 21, 2004, the Collegiate Licensing Company ("CLC") ranked the Company number fifteen of its collegiate sports wearable providers along with "major distributors" such as Nike USA©, and Champion©. CLC is the nation's leading collegiate licensing and marketing representative in the nation.

On December 28, 2004, the Company announced a licensing agreement with The Fellowship of Christian Athletes (FCA). FCA just celebrated its 50th year in existence and their supporters are extremely loyal and growing dramatically in number.

## Introduction

As noted elsewhere in this report, the Company's principal customers are large national and regional retailers. In order to maintain its relationship with these customers, enhance revenues from them and enable them to improve their revenues and margins, the Company must work closely with these customers to ensure they receive the Company's products expeditiously and economically. The Company works diligently to maintain what Management calls supply chain excellence — a way for the Company to provide value added services to its customers.

In servicing its customers, the Company faces competition from numerous other providers of licensed promotional products. Many of these competitors are larger and better capitalized than the Company. Additionally, if the Company is to continue to grow its business by adding additional products and by making strategic acquisitions, it will require additional capital. Therefore, Management may enter into negotiations with sources of equity in an effort to furnish additional capital.

In assessing the Company's performance, Management focuses on (a) increasing revenues primarily through enhancing its licensing programs and (b) protecting such revenues by diversifying its customer bases regionally and demographically. In order to enhance profitability, Management monitors and seeks to improve gross margins primarily by internal cost controls and through international purchases of raw materials. Management also strives to reduce fixed costs as a percentage of sales, improve inventory turnover and reduce receivables measured by day's sales outstanding, all in an effort to improve profitability and cash flow.

## Overview

The Company is a creative and innovative sales and marketing organization that designs, develops, markets, and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs. Management believes that there are substantial growth opportunities in the promotional products and imprinted sportswear industries. Management believes that the Company is well positioned to take advantage of such growth opportunities. Management believes that the Company has an excellent reputation in the marketplace as a result of its ability to provide quality products and services, on-time delivery, at competitive prices. In recent years, licensed imprinted sportswear has become very popular. Licensing agreements are available for branded products and services, amateur and professional sports teams, and many other promotional areas. To maximize its potential, the Company has, over the last two years, significantly expanded its license program to include the following:

Approximately 200 licenses and agreements to distribute its **Cadre Athletic™**, and **Campus Traditions USA™** line for most major colleges and universities in the U.S.;

Licensing agreements with **Chevy®**, **Pontiac®**, **Hummer®**, **Cadillac®**, **Dodge®**, **GMC®**, **Ford®** **Plymouth®**, **Jeep®**, and **Chrysler®** for their respective “branded” logos for the **RPM Sports USA™** motor sports line, targeting the automotive dealership network and automotive venue markets;

Licensing and distribution agreements with **Sturgis “Bike Rally”**, **Professional Bull Riders**, **James Dean 50 commemorative anniversary**, **the 3 Stooges**, **Fellowship of Christian Athletics**.

Proprietary designs including **American Biker™**, **American Wildlife™**, **Ragtops Sportswear™**, **Cadre Athletic™**, and **Campus Traditions USA™**, among others.

## **Operations and Expansion**

The Company is one of the significant companies in the highly fragmented licensed promotional products and imprinted sportswear industries. The Company has implemented its strategy of “The Total Solution Company” to meet its customers’ key requirements including: art design and development, manufacturing (for imprinted sportswear), sourcing (for distributed products), warehousing and fulfillment. The Company has, over the last three years, developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops.

The Company is actively engaged in discussions with various potential acquisition targets and plans to grow through strategic acquisitions of complementary businesses. The Company has embarked on an aggressive acquisition program that targets companies servicing other segments of the promotional products and imprinted sportswear industry not currently serviced by the Company. It is anticipated that such strategic acquisition targets will enable the Company to more effectively utilize its marketing and sales expertise, acquire the ability to cross-distribute its branded products and licenses throughout a wider distribution base, lessen its dependency on the seasonality of retail customers and reduce overall operating costs by consolidating its services and distribution facilities, to the extent feasible.

The Company has expanded its business to include e-commerce web sites through which some of the Company’s most popular licensed products are marketed. The Company has been successful in establishing itself as a premier supplier under various e-commerce web sites, currently the most significant of which are [www.campustraditionsusa.com](http://www.campustraditionsusa.com)™; [www.rpmsportswearusa.com](http://www.rpmsportswearusa.com)™; [www.americanwildlifeusa.com](http://www.americanwildlifeusa.com)™; and [www.americanbiker.com](http://www.americanbiker.com)™. The Company plans to establish additional e-commerce web sites as other product lines are established. Another recent addition includes a corporate website, [www.nextinc.net](http://www.nextinc.net), which gives information to the general public about the Company.

*Net Sales*

Net sales increased 39.4% to \$8,449,548 for the three months ended August 31, 2005, from \$6,059,394 for the three months ended August 31, 2004. The growth in sales is primarily attributable to an increase in one major national retail customer account that comprised 45% of total sales in the third quarter. Net sales increased 29.6% to \$17,863,143 for the nine months ended August 31, 2005, from \$13,780,929 for the nine months ended August 31, 2004. The increase in sales is twofold: 10.3% from sales related to Choice and 19.3% related to existing customers. The increase in existing sales is in three existing national retail customers that purchased increased amounts of automotive licensed and college products; partially offset by a reduction in one major national customer. Management believes that future sales growth will continue primarily through the diversification and expansion of the Company's customer base and its expanded product offerings.

*Cost of Sales*

Cost of sales was 74.2% for the three months ended August 31, 2005, compared to 70.3% of the Company's sales for the three months ended August 31, 2004. This increase in cost as a percentage of sales relates to the lower margin business from a major customer in the third quarter that comprised \$3,824,726 or 45% of total sales. Cost of sales was 72.7% for the nine months ended August 31, 2005, compared to 69.2% of the Company's sales for the nine months ended August 31, 2004. This increase in cost as a percentage of sales resulted primarily from the mix of Choice sales which has lower margins due to the nature of the product which is blank (non-decorated) garments, and the lower margin business related to one large national customer that comprises 26% of year-to-date sales.

Expenses included in cost of sales were primarily raw materials, labor, shipping supplies, and the depreciation of both the Company's principal manufacturing facility in Indiana and its equipment.

*Operating and Other Expenses*

General and administrative expenses were \$700,707 (8.3% of sales) for the three months ended August 31, 2005, compared to \$563,663 (9.3% of sales) for the three months ended August 31, 2004. The primary increase in expenses is related to the addition of the Choice office, which the Company did not have in the three months ended August 31, 2004 or \$142,037 (1.7% of sales) for the quarter ended August 31, 2005. General and administrative expenses were \$1,968,230 (11.0% of sales) for the nine months ended August 31, 2005, compared to \$1,572,663 (11.4% of sales) for the nine months ended August 31, 2004. The primary increase in expenses, \$322,672 (1.8% of sales) relates to the addition of the Choice office.

Royalty and commission expenses were \$888,008 (10.5% of sales) for the three months ended August 31, 2005, compared to \$765,724 (12.6% of sales) for the three months ended August 31, 2004. The increase in expense was directly related to a higher volume of licensed products sales. Royalty and commission expenses were \$1,775,096 (9.9% of sales) for the nine months ended August 31, 2005, compared to \$1,650,599 (11.9% of sales) for the nine months ended August 31, 2004. The increase in expense is related to higher volume of sales related to licensed products.

Corporate expenses were \$244,247 for the three months ended August 31, 2005, compared to \$235,074 for the three months ended August 31, 2004. The increase in corporate expenses was a result of increased payroll cost as an additional person has been hired for credit and collection support in the third quarter. Corporate expenses were \$692,380 for the nine months ended August 31, 2005, compared to \$751,928 for the nine months ended August, 2004. The expense reduction relates to lower banking fees and lower professional fees related to outside consultants.

Interest expense relates to the Company's short and long-term debt. Interest expense was \$181,292 for the three months ended August 31, 2005, compared to \$111,299 for the three months ended August 31, 2004. The increase in interest expense is related to higher rates than previous year and increased debt. Interest expense was \$436,514 for the

nine months ended August 31, 2005, compared to \$342,634 for the nine months ended August 31, 2004. The increase in interest relates to higher interest rates and increased debt.

Other income/expense was \$5,593 of expense for the three months ending August 31, 2005, as compared to other income of \$24,197 for the three months ended August 31, 2004. Higher amortization cost was recorded in 2005 and timing differences of other miscellaneous income were recorded in 2004 which accounts for the change. For the nine months ended August 31, 2005 the company had miscellaneous income of \$30,961. However for the nine months ended August 31, 2004 the Company had other expense of \$588,053 which related to a one time write off of fees and expenses of its former bank in the amount of \$501,000 and legal fees of \$138,000, net of miscellaneous income of \$50,947.

The provision for income taxes for the three months ended August 31, 2005, was \$60,181, which is attributable to the Company's quarterly operating income adjusted by book and income tax recognition of temporary differences. The provision for income taxes for the three-month period ended August 31, 2004, was \$38,656, which was higher related to the pre-tax loss and recognition of book and tax temporary differences. The provision for income taxes for the nine months ended August 31, 2005 was \$16,104, compared to a benefit of \$341,191 for the nine months ended August 31, 2004. The change in 2005 from 2004 for income taxes is attributable to the operating profit in the current year versus the loss in prior year adjusted by book and income tax recognition of temporary differences. Tax computations change annually as the prior year tax returns are filed within the current year; these modifications may affect the related percentage of tax to pre-tax income. The Company's 2004 tax return was filed in August 2005; therefore, computations have been updated which affect book and tax recognition of temporary difference.

### **Financial Position, Capital Resources, and Liquidity   August 31, 2005 and November 30, 2004**

At August 31, 2005, working capital was \$10,868,258 representing an increase of \$1,267,579 from working capital at November 30, 2004 of \$9,600,679. The increase in working capital was primarily due to an increase in short term debt due to the refinancing of the note on the plant, building, and equipment. The Company is subject to seasonality in its sales cycle due to the amount of college-licensed products. The seasonality of sales results in the majority of the Company's revenues being generated in the third and fourth quarters.

#### **Liquidity and Capital Resources**

The Company has historically financed its operations through a combination of earnings and debt. The Company's principal sources of debt financing are its revolving line of credit with National City Bank of Indiana and promissory notes issued by First Federal Savings Bank of Wabash. The credit facility has a maximum limit of \$9,000,000 of which the Company has drawn \$7,106,251 as of August 31, 2005. This credit facility matures on April 1, 2007, and is governed by various financial covenants. The First Federal Savings Bank Promissory Notes consist of one principal loan in the amount of \$3,225,809 payable in monthly installments of \$29,263 of principal and interest. The Company has entered into two credit agreements in 2005 to purchase a warehouse and certain production equipment; the debt instruments are \$365,000 (included in \$3.2 million loan above when refinanced) and \$250,500 (5 years at 6.75%).

The Company's principal use of cash is for operating activities and working capital. Cash used in operations in the nine months ended August 31, 2005, was \$2,017,976 as compared to \$1,853,638 of cash used in operations for the nine months ended August 31, 2004. The increase in cash used related primarily to reduced receivables, increase in deferred taxes, and reduction of accounts payable and accrued expenses offset by higher net income, and lower inventory purchases.

Cash used for investing activities was \$1,525,638 for the nine months ended August 31, 2005, compared to \$598,937 for the nine months ended August 31, 2004. The Company's investing activities during these periods were the purchase of a warehouse and corresponding improvements at \$615,360, production equipment in the amount of \$228,000, other routine capital expenditures totaling \$175,298, acquisition costs paid of \$355,513, and intangible assets acquired in

the amount of \$151,467.

Net cash provided by financing activities was \$3,345,529 for the nine months ended August 31, 2005, compared to \$2,059,033 for the nine months ended August 31, 2004. The proceeds of common stock issued in the nine month period ended August 31, 2005 of \$2,691,000 was applied against the Company's revolving credit facility as required by the loan agreement. The net change in cash provided between the nine months ending August 31, 2005, and August 31, 2004 relate to the cash received from issuance of common stock in the nine months ending August 31, 2005, and the issuance of preferred stock in the nine months ending August 31, 2004.

On August 12, 2005, the credit agreement between the Company and National City Bank of Indiana was amended to temporarily increase the Company's line of credit to \$9,500,000, reduce limitations on advances based on eligible inventory, and increase the concentration limits for a specific national customer. On May 26, 2005, the credit agreement between the Company and National City Bank of Indiana was amended to increase the line of credit to \$9,000,000 and extend the term thereof until April 1, 2007. The amendment to the line of credit allows the Company to reduce the limitation on advances based on eligible inventory. The agreement provides for monthly payments of interest at a nationally published prime rate plus .25% (6.5% was the published rate at August 31, 2005) and the Company must comply with certain financial and other covenants. Accounts receivable, inventory, and certain personal assets and personal guarantees of the Company's Chief Executive Officer and Chief Financial Officer collateralize borrowings under the facility.

On January 24, 2005, the Company entered into a Securities Purchase Agreement (the "Agreement") with Bonanza Master Fund, Ltd. ("Bonanza"), MidSouth Investor Fund, L.P. ("MidSouth") and Itasca Capital Partners LLC ("Itasca") and collectively with Bonanza and Mid South, the "Purchasers"), and raised \$2,990,000 in a private placement. None of the Purchasers has any other material relationship with the Company. Pursuant to the Agreement, the Company issued Bonanza 2,000,000 shares of its common stock and a warrant to purchase 1,000,000 shares of common stock, issued to MidSouth 250,000 shares and a warrant to purchase 125,000 shares of common stock, and issued to Itasca 50,000 shares and a warrant to purchase 25,000 shares of common stock. The shares of common stock were issued at \$1.30 per share and the warrants are exercisable at \$1.75 per share for five years. In addition, the Company has issued a warrant to purchase 115,000 shares of common stock to Dougherty & Company, LLC Investment Bankers for its services in connection with the private placement. The warrants are exercisable at \$1.75 per share for five years, but the average closing price of the Company's common stock must be equal to at least \$2.10 for ten consecutive trading days to exercise a purchase. The total offering price was \$2,990,000 in cash, less fees of \$299,000, for a net cash infusion of \$2,691,000.

On April 8, 2004, the Company issued, pursuant to a Securities Purchase Agreement, 1,750 shares of Series A Convertible Preferred Stock to GCA Strategic Investment Fund Limited. The Company received net proceeds of \$1,471,500, which was utilized for working capital and debt reduction. The Company has registered these shares but will receive no proceeds related to the sale of the securities. The Company also issued a Preferred Stock Warrant to purchase 358,000 shares of common stock at \$1.88, which expires April 8, 2009. As of August 31, 2005 GCA Strategic Investment Fund Limited had converted the entire 1,750 shares of Preferred Stock to 1,582,754 shares of Common Stock.

**NET SALES.** Net sales increased 3.1% to \$21,518,753 for 2004 from \$20,873,989 for 2003. The growth in sales is primarily attributable to increased sales volume from existing customers and new customers resulting in a net increase of \$644,764. Choice International customers from the date of acquisition generated an additional \$103,296 of sales in 2004.

**COST OF SALES.** Cost of sales was \$14,892,346 or 69.2% of the Company's net sales for 2004 compared to \$14,461,801 or 69.2% for 2003.

**OPERATING AND OTHER EXPENSES.** General and administrative expenses were \$2,241,108 (10.4% of net sales) for 2004 compared to \$2,210,045 (10.6% of net sales) for 2003. General and administrative expenses increased by \$31,063 or 1.4%, which was primarily related to cost added as a result of the Lil' Fan and Choice International operating entities.

Royalty fees associated with licensing agreements was \$1,614,481 or 7.5% of sales in 2004 and \$1,232,936 or 5.9% of sales in 2003. The increase in fees is the result of a higher percentage of our sales that are licensed products, which is the Company's primary sales and marketing focus. Commission expenses were \$1,065,981 or 5.0% of sales in 2004, and \$978,657 or 4.7% in 2003, which increased primarily due to more external sales personnel, who are commission based.

Corporate expense consists of full-time personnel, legal services, accounting fees, and investment professionals. While these services have resulted in significant costs during the current period, the Company believes that such costs are necessary for the Company to implement its strategic plan of future growth and diversification. Fiscal year 2004 expenses were \$1,026,774, however expenses for 2003 were \$1,062,764, for a decrease of \$35,990 or 3.4%.

Interest expense relates to the Company's short and long-term debt. Interest expense was \$493,588 for 2004, compared to \$455,839 for 2003. The primary reasons for the increase in interest expense were the higher interest rate on the average borrowings of the revolving credit facility and a higher average debt balance for the year.

Other expenses include an unusual one-time write off of \$640,000, offset by \$38,650 of other income. The components of the unusual item relate to \$501,000 of fees and expenses associated with the Company's former bank, LaSalle Business Credit, LLC that was terminated on April 15, 2004. It also includes \$139,000 of one-time legal fees related to a complaint filed against the former Chairman and CEO in the Southern District of New York that was dismissed on May 10, 2004.

**PROVISION FOR INCOME TAXES.** The Company recognized a tax benefit of \$136,085 in 2004 which is attributable to the recognition of deferred tax assets arising from the Company's year-to-date net operating loss adjusted by book and income tax recognition temporary differences. In 2003 the Company recognized a tax provision of \$182,356.

**FINANCIAL POSITION, CAPITAL RESOURCES, AND LIQUIDITY.** At November 30, 2004, working capital was \$9,600,679, representing an increase of \$2,974,684 from working capital at November 30, 2003, of \$6,625,995. This increase in working capital was primarily due to the increase in receivables related to fourth quarter sales, and inventory expansion due to the increase in product lines.

**Liquidity and Capital Resources.** The Company has historically financed its operations through a combination of earnings and debt. The Company's principal sources of debt financing are its revolving line of credit with National City Bank and promissory notes issued by First Federal Savings Bank. On April 15, 2004, the Company renegotiated its working capital facility with National City Bank to replace LaSalle Business Credit with an \$8,000,000 credit facility. The Company reduced its interest, fees, and extended the term to April 1, 2006. At November 30, 2004, \$6,907,787 of the credit facility had been drawn upon. The Company amended the credit facility on October 20, 2004 for 90 days to increase the line to \$9,000,000 due to higher fourth quarter sales. The amendment was voluntary terminated on December 7, 2004. The National City credit facility is governed by various financial covenants, all of which are in compliance as of the date of this report. In addition the agreement provides for monthly payment of interest of .25% over a nationally published prime rate (5% at November 30, 2004). The First Federal Savings Bank Promissory Notes consist of one principal loan in the amount of \$2,800,000 payable in monthly installments of \$26,000 of principal and interest with a balloon payment of \$2,647,805 due January 16, 2006.

Edgar Filing: NEXT INC/TN - Form 424B3

On January 20, 2004 the Company entered into subordinated loan agreements with Next Investors, LLC for \$400,000 and First Federal Savings Bank for \$500,000. The purpose of these loans was to provide working capital to be re-paid out of future equity transactions. The loans have a 4% and 6% interest rate and maturity dates of January 2006 and 2005 respectively. On April 8, 2004 the note to First Federal was paid from proceeds of the equity infusion from GCA Strategic Investment Fund.

On April 8, 2004, the Company issued, pursuant to a Securities Purchase Agreement 1,750 shares of Series A Convertible Preferred Stock to GCA Strategic Investment Fund Limited. The Company received net proceeds of \$1,471,498, from the Preferred Stock which was utilized for working capital and debt reduction. The Company has registered these shares but will not receive proceeds related to the sale of the common stock securities. The Company also issued a Preferred Stock Warrant to purchase 358,000 shares of common stock at \$1.88, which expires April 8, 2009. The Company also received a commitment letter from Global Capital Advisors, LLC for an additional \$1,250,000 under the same terms and conditions discussed above at the Company's option for a one year period which will expire on March 31, 2005. The Company has no plans to exercise this additional commitment.

On July 19, 2004 the Company entered into a note with First Federal for certain production equipment in the amount of \$276,500 with an interest rate of 6.5% which matures November 2, 2009. The monthly principal and interest payment is \$5,421.

Subsequent to the Company's fiscal year end, on January 24, 2005, the Company entered into a Securities Purchase Agreement (the "Agreement") with Bonanza Master Fund, Ltd. ("Bonanza"), MidSouth Investor Fund, L.P. ("MidSouth") and Itasca Capital Partners LLC ("Itasca") (collectively, the "Purchasers") and raised \$2,990,000 in a private placement to the Purchasers. None of the Purchasers has any other material relationship with the Company. Pursuant to the Agreement, Next issued to Bonanza, 2,000,000 shares of its common stock and a warrant to purchase 1,000,000 shares, to MidSouth, 250,000 shares and a warrant to purchase 125,000 shares, and to Itasca, 50,000 shares and a warrant to purchase 25,000 shares. The shares were issued at \$1.30 per share and the warrants are exercisable at \$1.75 per share for five years. In addition, the Company will issue a warrant to purchase 115,000 shares of common stock to a consultant for its services in connection with the private placement. The warrants are exercisable at \$1.75 per share for five years, but the average closing price must be equal to at least \$2.10 for ten consecutive trading days to exercise purchase. The total offering price was \$2,990,000 in cash.

Seasonality of sales affects the company's liquidity and profitability as the majority of sales are booked in the third and fourth quarters of the fiscal year. In 2004 and 2003 approximately 64.1% and 57.7% respectively, represent the combined third and fourth quarter sales as a percentage of total sales. This trend is in large part due to the college licensed products lines which are sold to major retail customers that occur in these periods.

The Company's principal use of cash is for operating expenses, interest and principal payments on its long-term debt, working capital and capital expenditures. Cash used in operations for 2004 was \$2,644,114 as compared to \$1,005,294 for 2003. The increase in cash used resulted primarily from increased working capital utilization and losses from operations.

Cash used for investing activities was \$762,170 for 2004, compared to \$879,651 for 2003. The Company's investing activities during these periods was primarily the purchase of new equipment, acquisition cost, and expenses related to intangible assets.

Net cash provided by financing activities was \$3,122,070 for 2004, compared to \$2,027,035 for 2003. The increase of \$1,095,035 was primarily related to proceeds from issuance of preferred stock for cash, net of cash paid for the investment transaction.

The following table represents the contractual commitments of the Company as of November 30, 2004:

<u>Contractual Obligations</u>	<u>Payments Due by Period</u>				
	<u>Total</u>	<u>Less than 1 year</u>	<u>1 - 3 years</u>	<u>4 - 5 years</u>	<u>After 5 years</u>

**CRITICAL ACCOUNTING POLICIES AND ESTIMATES, AND NEW PRONOUNCEMENTS.** Our significant accounting policies are described in NOTE 2 - Basis of Presentation and Summary of Significant Accounting Policies of the Notes to our financial statements. Our discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of the financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate the estimates that we have made. These estimates have been based upon historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Allowance for Doubtful Accounts and Returns. The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments, which is included in bad debt expense. Management determines the adequacy of this allowance by regularly reviewing our accounts receivable

aging and evaluating individual customer receivables, considering customers' financial condition, credit history and current economic conditions. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

**Inventories.** Inventories, which are predominantly blank garments or finished goods, are valued at the lower of cost or market, with cost determined using the first-in, first-out method. A detailed analysis of inventory is performed on a periodic basis throughout the year. If actual market conditions are less favorable than those projected by management, additional write-downs may be required.

**Impairment of Long-Lived Assets.** The Company reviews the carrying values of its long-lived assets whenever events or changes in circumstances indicate that such carrying values may not be recoverable. Unforeseen events, changes in circumstances, market conditions, and changes in estimates of future cash flows could negatively affect the fair value of the Company's assets and result in an impairment charge. Fair value is the amount at which the asset could be bought or sold in a current transaction between willing parties and may be estimated using a number of techniques, including quoted market prices or valuations by third parties, present value techniques based on estimates of cash flows, or multiples of earnings or revenues performance measures. The fair value of the asset could be different using different estimates and assumptions in these valuation techniques.

**Intangible Assets Valuation.** SFAS No. 142, Goodwill and Other Intangible Assets became effective for the Company during 2002. SFAS 142 requires, among other things, the discontinuance of goodwill amortization. In addition, the standard includes provisions for the reclassification of certain existing recognized intangibles such as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting units for purposes of assessing potential future impairment of goodwill. SFAS 142 also requires the Company to complete a transitional goodwill impairment test six months from the date of adoption. The provisions of these interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements. In assessing the recoverability of our investment in CMJ Ventures Inc., Lil Fan, Inc., Choice International, and other intangible assets and goodwill, we must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the asset. If these estimates or their related assumptions change in the future, we may be required to record impairment charges for such asset not previously recorded.

**Other Pronouncements.** On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123 (revised 2004), Share-Based Payment, which is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation. Statement 123(R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and amends FASB Statement No. 95, Statement of Cash Flows. The approach to accounting for share-based payments in Statement 123(R) is similar to the approach described in Statement 123. However, Statement 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values and no longer allows pro forma disclosure as an alternative to financial statement recognition. The Company will be required to adopt Statement 123(R) at the beginning of its quarter ending February 28, 2006.

**Basis of Presentation and Summary of Significant Accounting Policies**

*Basis of Presentation*

The condensed consolidated financial statements contained herein have been prepared in accordance with generally accepted accounting principles for interim financial statements, the instructions to Form 10-QSB and Item 310 of Regulation S-B. Accordingly, these financial statements do not include all the information and footnotes required by generally accepted accounting principles for annual financial statements. In addition, certain comparative figures presented have been reclassified to conform the prior year's data to the Company's current financial statements. In the opinion of management, the accompanying condensed consolidated financial statements contain all the adjustments necessary (consisting only of normal recurring accruals) to fairly present the financial position of the Company at August 31, 2005, and its results of operations and cash flows for the three and nine months ended August 31, 2004 and August 31, 2005. Operating results for the three and nine months ended August 31, 2005, are not necessarily indicative of the results that may be expected for the fiscal year ending November 30, 2005.

*Principles of Consolidation*

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated.

#### Customer Base and Credit Concentration

The Company has over the last three years, developed a large, diverse, and distinguished customer base of traditional retailers, that include national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops. This expansion has been achieved through the acquisition of CMJ, Lil Fan, Choice, S2S, and their respective customer bases, the introduction of additional major product lines and distribution channels, such as the Motor Sports Division, which sells to a national auto dealer market consisting of approximately 9,000 potential customers, as well as expansion of its traditional national retail merchant customer base. In the three months ended August 31, 2005 one large retail customer accounted for 45% of total sales. During the nine months ended August 31, 2005, the Company's sales to four customers made up 62.5% of total sales. The Company's management believes that the Company's credit risk exposure is limited based on current information available with respect to the financial strength of its customers and previously recorded reserves. Such estimates could change in the future.

#### *New Pronouncements*

Statement of Financial Accounting Standards ( SFAS ) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections," SFAS No. 141, "Business Combinations," SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities," SFAS No. 148, "Accounting for Stock Based Compensation," FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," FASB Interpretation No. 46, "Consolidation for Variable Interest Entities" all became effective for the Company during 2002. The provisions and interpretations of these pronouncements that are applicable to the Company had no material effect on the Company's financial statements.

SFAS No. 142, "Goodwill and Other Intangible Assets" became effective for the Company during 2002. SFAS 142 requires, among other things, the discontinuance of goodwill amortization. In addition, the standard includes provisions for the reclassification of certain existing recognized intangibles as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting units for purposes of assessing potential future impairment of goodwill. SFAS 142 also requires the Company to complete a transitional goodwill impairment test six months from the date of adoption. The provisions of these interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements.

FASB statement No. 123R, "Share Based Payment" becomes effective at the beginning of the quarter ending February 28, 2006 and will require all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values and no longer allow pro forma disclosure as an alternative to financial statement recognition.

**3.****Inventories**

Inventory is valued at the lower of cost or market. Cost is determined by the first-in, first-out method, and market represents the lower of replacement cost or net realizable value. Inventories as of August 31, 2005, consisted of the following:

Raw materials	\$ 5,968,399
---------------	--------------

Finished goods	2,423,508
----------------	-----------

	\$ 8,391,907
--	--------------

**4.****Deferred and Income Taxes**

Income taxes have been computed in accordance with SFAS No. 109, Accounting for Income Taxes. This standard requires, among other things, recognition of future tax expenses or benefits, measured using enacted tax rates, attributable to taxable or deductible temporary differences between financial statements and income tax reporting bases of assets and liabilities.

The ultimate realization of deferred tax assets is dependent upon the attainment of forecasted results of operations. Management has taken these and other factors into consideration in recording the deferred tax estimate. The tax effects of temporary differences that give rise to significant portions of the deferred tax asset and liabilities at August 31, 2005, are as follows:

Current asset:

Accounts receivable allowance	\$ 33,283

The Company's customer base had been comprised primarily of national and regional mass merchandise and specialty retailers. During fiscal 2004 and 2003, approximately 15% (\$3,083,468) and 23% (\$4,882,788), respectively, of the net sales of the Company were to its largest customer. Sales to four other major customers approximated \$8,982,428 (43%) in 2004 and \$7,601,330 (35%) in 2003. The Company's management believes that its credit risk exposure, based on current information available on the financial strength of its customers is limited. Such estimates could change in the future. The Company's accounts receivable are not collateralized.

In 2003, the Company began engaging itself in internet sales which approximated \$549,767 in 2004 and \$442,338 in 2003.

New Pronouncements

Recent pronouncements that potentially affect these or future financial statements include:

#### FASB Statement No. 123R Share Based Payment

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123 (revised 2004), Share-Based Payment, which is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation. Statement 123(R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and amends FASB Statement No. 95, Statement of Cash Flows. The approach to accounting for share-based payments in Statement 123(R) is similar to the approach described in Statement 123. However, Statement 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values and no longer allows pro forma disclosure as an alternative to financial statement recognition. The Company will be required to adopt Statement 123(R) at the beginning of its quarter ending February 28, 2006.

#### Property, Plant and Equipment

Property, plant, and equipment are valued at cost and are being depreciated using the straight-line method over the estimated useful lives. Upon sale or retirement, asset cost and its related accumulated depreciation are eliminated from the respective accounts and any resulting gain or loss is recognized in income. Routine maintenance and repairs are charged to expense as incurred. Expenditures, which materially increase the value or extend useful lives, are capitalized.

#### Fair Value of Financial Instruments

The carrying amounts of financial instruments included in current assets, current liabilities, and short-term debt approximate their fair values. The carrying value of the long term credit facility approximates fair value because the interest rate on that facility adjusts periodically. In addition, the note payable to Francis Slocum bank also approximates fair value based upon current interest rates available to the Company. Management has not evaluated the fair value of the note payable to Next Investors because of the related party relationship with that organization.

#### Revenue Recognition

The Company recognizes revenue when the following conditions are met: persuasive evidence of an agreement exists, the product has been delivered and legal title and all risks of ownership have been transferred, the sales price is fixed or determinable, and collectability is reasonably assured. Revenues are reduced for estimated product returns, allowances and price discounts based on past experience.

Advertising Costs

Advertising costs are expensed as incurred. For the years ended November 30, 2004 and 2003, advertising costs were \$44,381 and \$57,999, respectively.

Use of Estimates in Preparation of Consolidated Financial Statements

The preparation of the accompanying consolidated financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates that are particularly susceptible to change in the next year are those assumptions used in determining the allowance for doubtful accounts receivable, which are based upon specific evaluation related to the aging of the customer accounts.

Impairment of Long-Lived Assets and Non-Goodwill Intangibles

The Company reviews these assets held and used for possible impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Impairment of Goodwill

Goodwill is assigned to specific reporting units and is reviewed for possible impairment at least annually, or more frequently upon the occurrence of an event or when circumstances indicate that a reporting unit-carrying amount is greater than its fair value.

Stock-Based Compensation

The Company adopted the fair value based method of recording stock options consistent with SFAS No. 123, Accounting for Stock-Based Compensation, for all employee stock options granted subsequent to fiscal year end 2002. Specifically, the Company adopted SFAS No. 123 using the prospective method with guidance provided from SAFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. All employee stock option grants made since the beginning of fiscal 2003 have or will be expensed over the related stock option vesting period

Edgar Filing: NEXT INC/TN - Form 424B3

based on the fair value at the date the options are granted. Prior to fiscal 2003, the Company applied Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued to Employees, and the related interpretations in accounting for stock options. Because the Company granted stock options to employees at exercise prices equal to fair market value on the date of grant, no compensation cost was recognized for option grants.

Had compensation cost been determined on the basis of fair value pursuant to FASB Statement No. 123, using the Black-Scholes option-pricing model, the Company's net income (loss) as reported of \$278,827 in 2003 and (\$280,790) in 2004 would be increased to the pro forma amounts indicated below:

	2003	2004
Net income (loss), as reported	\$278,827	(\$280,790)
Deduct: Total stock-based employee compensation expense determined under fair value based methods for all awards, net of related tax effects	(21,288)	(78,841)
Pro-forma net income (loss)	257,539	(359,631)

#### **NOTE 4 Income Taxes**

Income taxes have been computed in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes ( SFAS 109 ). This standard requires, among other things, recognition of future tax expenses or benefits, measured using enacted tax rates, attributable to taxable or deductible temporary differences between financial statements and income tax reporting bases of assets and liabilities and for operating loss carryforwards.

The ultimate realization of deferred tax assets is dependent upon the attainment of forecasted results of operations. Management has taken these and other factors into consideration in recording the deferred tax estimate. The tax effects of temporary differences and carry forwards that give rise to significant portions of the deferred tax asset and liabilities at November 30, 2004, are as follows:

<b>Deferred tax assets:</b>	
	\$
Accounts receivable allowance	9,502
Operating loss carryforwards	528,719
	\$
Total deferred tax assets	538,221
<b>Deferred tax liabilities:</b>	
	\$
Property, plant and equipment	259,039
Goodwill and other intangibles	123,694
	\$
Total deferred tax liabilities	382,733

A reconciliation of income tax at the statutory rate to the Company's effective rate is as follows:

	<u>2003</u>	<u>2004</u>
Tax benefit computed at maximum federal statutory rate	34%	(34)%
State income taxes, net of federal benefit	6%	1 %
Income tax (benefit) expense    effective rate	40%	(33)%

At November 30, 2004, the Company had net tax operating loss carryforwards of approximately \$1,322,000, which expire through 2024. The Company has not yet filed its 2004 income tax return but estimates the portion of this loss carryforward resulting from 2004 operations to be approximately \$496,000.
