

CIRCOR INTERNATIONAL INC
Form 10-Q
November 06, 2018
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission File Number 001-14962

CIRCOR INTERNATIONAL, INC.
(Exact name of registrant as specified in its charter)

Delaware 04-3477276
(State or Other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)

c/o CIRCOR INTERNATIONAL, Inc. 01803-4238
30 Corporate Drive, Suite 200, Burlington, MA
(Address of principal executive offices) (Zip Code)
(781) 270-1200
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Emerging growth company

Non-accelerated filer Smaller reporting company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. Yes No

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 29, 2018, there were 19,843,533 shares of the registrant's Common Stock, par value \$0.01 per share, outstanding.

CIRCOR INTERNATIONAL, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

(1) Basis of Presentation

The accompanying unaudited, condensed consolidated financial statements have been prepared according to the rules and regulations of the United States (the "U.S.") Securities and Exchange Commission ("SEC") and, in the opinion of management, reflect all adjustments necessary for a fair statement of the consolidated balance sheets, consolidated statements of (loss) income, consolidated statements of comprehensive (loss) income and consolidated statements of cash flows of CIRCOR International, Inc. ("CIRCOR", the "Company", "us", "we" or "our") for the periods presented. We prepare our interim financial information using the same accounting principles we use for our annual audited consolidated financial statements. Certain information and note disclosures normally included in the annual audited consolidated financial statements have been condensed or omitted in accordance with SEC rules. We believe that the disclosures made in our condensed consolidated financial statements and the accompanying notes are adequate to make the information presented not misleading.

The consolidated balance sheet as of December 31, 2017 is as reported in our audited consolidated financial statements as of that date but does not contain all of the footnote disclosures from the annual financial statements. Our accounting policies are described in the notes to our December 31, 2017 consolidated financial statements, which were included in our Annual Report on Form 10-K for the year ended December 31, 2017, as updated by Note 2 with respect to newly adopted accounting standards. We recommend that the financial statements included in our Quarterly Report on Form 10-Q be read in conjunction with the consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2017.

We operate and report financial information using a fiscal year ending December 31. The data periods contained within our Quarterly Reports on Form 10-Q reflect the results of operations for the 13-week, 26-week and 39-week periods which generally end on the Sunday nearest the calendar quarter-end date. Operating results for the three and nine months ended September 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018 or any future quarter.

Unless otherwise indicated, all financial information and statistical data included in these notes to our condensed consolidated financial statements relate to our continuing operations, with dollar amounts expressed in thousands (except per-share data).

(2) Summary of Significant Accounting Policies

The significant accounting policies used in preparation of these condensed consolidated financial statements for the three and nine months ended September 30, 2018 are consistent with those discussed in Note 2 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2017, except as updated below with respect to newly adopted accounting standards.

New Accounting Standards - Adopted

On January 1, 2018, we adopted the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. ASU 2017-01 provides further clarification of the definition of a business with the objective to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets versus businesses. The amendments in ASU 2017-01 provide criteria to determine when a set of assets and activities is not a business. ASU 2017-01 is

effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. The adoption of ASU 2017-01 has not had a material impact on our condensed consolidated financial statements.

On January 1, 2018, we adopted the FASB issued ASU 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting, which clarifies when to account for a change to the terms or conditions of a share-based payment award as a modification. Under this guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award changes as a result of the change in terms or conditions. The amendments in this ASU also clarify that no new measurement date will be required if an award is not probable of vesting at the time a change is made and there is no change to the fair value, vesting conditions, and classification. The amendments in this ASU are effective for annual periods beginning after December 15, 2017, including interim periods within those annual periods. The adoption of ASU 2017-09 has not had a material impact on our condensed consolidated financial statements.

On January 1, 2018, we adopted the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230), which requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The amendments in this update do not provide a definition of restricted cash or restricted cash equivalents. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The adoption of ASU 2016-18 has not had a material impact on our condensed consolidated financial statements.

On January 1, 2018, we adopted the FASB issued ASU 2017-07, Compensation—Retirement Benefits (Topic 715), which improves the consistency, transparency, and usefulness of the service cost and net benefit cost financial information components. This ASU amends presentation requirements of service cost and other components of net retirement benefit costs in the income statement. In addition, the ASU allows only the service cost component of net benefit cost to be eligible for capitalization. The amendments in this ASU are effective for annual periods beginning after December 15, 2017, including interim periods within those annual periods. The amendments in this ASU are applied retrospectively for the presentation of the service cost component and the other components of net periodic pension cost and net periodic post-retirement benefit cost in the income statement and prospectively, on and after the effective date, for the capitalization of the service cost component of net periodic pension cost and net periodic post-retirement benefit in assets. We have elected to use the practical expedient that permits us to use the amounts disclosed in our pension and other post-retirement benefit plan note for the prior comparative periods as the estimation basis for applying the retrospective presentation requirements. For prospective and retroactive reclassification, service costs are recorded within the selling, general, and administrative caption of our consolidated income statement, while the other components of net benefit cost are recorded in the other expense (income), net caption of our consolidated income statement. The adoption of ASU 2017-17 did not have a material impact on our prior period condensed consolidated financial statements.

On January 1, 2018, we adopted the FASB issued ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments, which reduces the existing diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows under Topic 230, Statement of Cash Flows, and other Topics. This ASU addresses eight specific cash flow issues with the objective of enhancing consistency in presentation and classification. The amendments in this ASU are effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The adoption of ASU 2016-15 has not had a material impact on our condensed consolidated financial statements.

On January 1, 2018, we adopted the requirements of ASU 2014-09, Revenue from Contracts with Customers and all the related amendments (“ASC 606” or the “new revenue standard”) using the modified retrospective transition approach. The new revenue standard provides for a single comprehensive model to use in accounting for revenue arising from contracts with customers and replaces most existing revenue recognition guidance in U.S. Generally Accepted Accounting Principles (“GAAP”). We recognized the cumulative effect of adopting the new revenue standard as an adjustment to the opening balance of retained earnings as of January 1, 2018. The comparative periods presented have not been restated and continue to be reported under the accounting standards in effect for those periods.

The Company recognizes revenue to depict the transfer of control to the Company’s customers in an amount reflecting the consideration the Company expects to be entitled to in exchange for performance obligations. In order to apply this revenue recognition principle, the Company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when, or as, a performance obligation is satisfied. See Note 3, Revenue Recognition for further information.

The cumulative effect of the changes made to our consolidated January 1, 2018 balance sheet for the adoption of the new revenue standard were as follows (in thousands):

	As of December 31, 2017	ASC 606 Adjustments	As of January 1, 2018
Assets			
Contract assets (1)	15,019	(2,995)	12,024
Inventories	244,896	540	245,436
Deferred income taxes	22,333	1,123	23,456
Liabilities			
Contract liabilities (2)	(33,718)	(1,517)	(35,235)
Deferred income taxes	(26,122)	92	(26,030)
Equity			
Retained earnings	(274,243)	2,757	(271,486)

(1) Recorded within prepaid expenses and other current assets. Debit balances are presented as a positive and credit balances are presented as a negative herein.

(2) Recorded within accrued expenses and other current liabilities. Debit balances are presented as a positive and credit balances are presented as a negative herein.

The net impact on retained earnings under the new revenue standard is the result of offsetting amounts attributed to contracts that converted from point in time to over time recognition of \$2.5 million and contracts that converted from over time to point in time recognition of \$5.3 million.

For contracts that were modified before the effective date, we reflected the aggregate effect of all modifications when identifying performance obligations and allocating transaction price in accordance with the practical expedient method under the new revenue standard, which did not have a material effect on the adjustment to retained earnings.

The tables below illustrate the differences in our condensed consolidated statement of (loss) income and balance sheet due to the change in revenue recognition standard (in thousands):

For the three months ended
September 30, 2018

	As Reported	Balances Without Adoption of ASC 606	Effective Change
Net revenues	297,514	291,564	5,950
Cost of revenues	212,436	209,123	3,313
Provision for income taxes	2,537	1,944	593
Net (Loss) Income	(6,841)	(8,885)	2,044

For the nine months ended
September 30, 2018

	As Reported	Balances Without Adoption of ASC 606	Effective Change
Net revenues	874,462	831,479	42,983
Cost of revenues	624,829	597,903	26,926
Benefit from income taxes	(10,988)	(14,587)	3,599
Net (Loss) Income	(18,380)	(30,838)	12,458

As of September 30, 2018

	As Reported	Balances Without Adoption of ASC 606	Effective Change
Assets			
Contract assets (1)	43,791	7,702	36,089
Inventories	226,047	254,246	(28,199)
Deferred income taxes	33,130	35,623	(2,493)
Liabilities			
Contract liabilities (2)	33,416	41,583	(8,167)
Deferred income taxes	25,397	24,291	1,106
Retained earnings	253,107	239,249	13,858

(1) Recorded within prepaid expenses and other current assets.

(2) Recorded within accrued expenses and other current liabilities.

For the three and nine months ended September 30, 2018, we realized changes to our net (loss) income and in the working capital accounts as described above, with no impact on our net cash flows from operating activities.

For the three and nine months ended September 30, 2018, the only impact to comprehensive income as a result of the changes between the balances with ASC 606 and without ASC 606 related to the adjustments to net (loss) income shown in the table above.

New Accounting Standards - Not Yet Adopted

In March 2016, the FASB issued ASU 2016-02, Leases. ASU 2016-02 outlines a model for lessees by recognizing all lease-related assets and liabilities on the balance sheet. The amendments in this ASU are effective for fiscal years beginning after

December 15, 2018 and interim periods within those fiscal years. Early application is permitted. ASU 2016-02 requires a modified retrospective approach for all leases existing at, or entered into after, the date of initial application, with an option to elect to use certain transition relief. In July 2018, the FASB issued ASU 2018-11, Leases: Targeted Improvements. The amendment provides transition relief, as entities may elect not to recast the comparable periods and rather change the date of initial application to the beginning of the period of adoption.

We established a cross-functional implementation team including representatives from operations, legal, and finance. We identified potential changes to our business processes and controls to support recognition and disclosure under the new standard. We made progress toward completing our evaluation of the potential changes from adopting the new standard on our financial reporting and disclosures. Activities performed during the third quarter included collecting and reviewing our lease agreements and training our finance professionals on the new standard. We continue to gather and analyze our lease agreements to determine proper classification and accounting treatment, as well as working with finance and legal advisors on specific interpretative issues. We intend to adopt this new standard on January 1, 2019, and we are still evaluating the impact it will have on our consolidated financial statements.

(3) Revenue Recognition

Our revenue is derived from a variety of contracts. A significant portion of our revenues are from contracts associated with the design, development, manufacture or modification of highly engineered, complex and severe environment products with customers who are either in or service the energy, aerospace, defense and industrial markets. Our contracts within the defense markets are primarily with U.S. military customers. Our contracts with the U.S. military customers typically are subject to the Federal Acquisition Regulations (FAR). We account for a contract when it has approval and commitment from both parties, the rights of the parties are identified, payment terms are identified, the contract has commercial substance and collectability of consideration is probable. Contracts may be modified to account for changes in contract specifications and requirements. Contract modifications exist when the modification either creates new, or changes the existing, enforceable rights and obligations. Contract modifications for goods or services that are not distinct from the existing contract are accounted for as if they were part of that existing contract. In these cases, the effect of the contract modification on the transaction price and the measure of progress for the performance obligation to which it relates, is recognized as an adjustment to revenue (either as an increase in or a reduction of revenue) on a cumulative catch-up basis, except when such modifications relate to a performance obligation which is a series of substantially the same distinct goods or services. If the modification relates to a performance obligation for a series of substantially the same distinct goods or services, the modifications are treated prospectively. Contract modifications for goods or services that are considered distinct from the existing contract are accounted for as separate contracts.

Performance Obligations. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer, and is the unit of account in ASC 606. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, control is transferred to the customer. Consistent with historical practice, we exclude from the transaction price amounts collected on behalf of third parties (e.g. taxes). Our performance obligations are typically satisfied at a point in time upon delivery and shipping and handling costs are treated as fulfillment costs. To determine the proper revenue recognition method for contracts for highly engineered, complex and severe environment products with right of payment, which meet over-time revenue recognition criteria, we evaluate whether two or more contracts should be combined and accounted for as one single contract and whether the combined or single contract should be accounted for as more than one performance obligation. This evaluation requires significant judgment and the decision to combine a group of contracts or separate the combined or single contract into multiple performance obligations could change the amount of revenue and profit recorded in a given period. In certain instances, we accounted for contracts using the portfolio approach when the effect of accounting for a group of contracts or group of performance obligations would not differ materially from considering each contract or performance obligation separately. This determination requires the use of estimates and assumptions that reflect the

size and composition of the portfolio. For most of our over-time revenue recognition contracts, the customer contracts with us to provide custom products which serve a single project or capability (even if that single project results in the delivery of multiple products) with right of payment. In circumstances where each distinct product in the contract transfers to the customer over time and the same method would be used to measure the entity's progress toward complete satisfaction of the performance obligation to transfer each unit to the customer, we would then apply the series guidance to account for the multiple products as a single performance obligation. Hence, the entire contract is accounted for as one performance obligation. An example of these performance obligations include refinery valves or actuation components and sub-systems. Less commonly, however, we may promise to provide distinct goods or services within the over-time revenue recognition contract, in which case we separate the contract into more than one performance obligation. For all contracts with multiple performance obligations, we allocate the contract's transaction price to each performance obligation using our best estimate of the standalone selling price of each distinct good or service in the contract. Generally, the contractually stated price is the primary method used to estimate standalone selling price as the good or service

is sold separately in similar circumstances and to similar customers for a similar price and discounts are allocated proportionally to each performance obligation. The Company will not adjust the promised amount of consideration for the effects of a significant financing component as we expect, at contract inception, that the period between when the transfer of control to our customers and when the customer fully pays for the related performance obligations will be less than a year.

Revenue from products and services transferred to customers over-time accounted for 1 percent and 5 percent of our revenue for the three and nine months ended September 30, 2018, respectively. The majority of our revenue recognized over-time is related to our Refinery Valves business within our Energy segment and certain other businesses that sell customized products to customers that serve the U.S. Department of Defense within our Aerospace and Defense segment and have contract provisions guaranteeing us costs and profit upon customer cancellation. Revenue is recognized over-time using an input measure (e.g., costs incurred to date relative to total estimated costs at completion, known as the “cost-to-cost” method) to measure progress. We generally use the cost-to-cost measure of progress for our contracts because it best depicts the transfer of control to the customer which occurs as we incur costs on our contracts. Under the cost-to-cost measure of progress, revenues are recorded proportionally as costs are incurred. Contract costs include labor, materials and subcontractors’ costs, other direct costs and an allocation of overhead, as appropriate.

On September 30, 2018, we had \$557.0 million of revenue related to remaining performance obligations. We expect to recognize approximately 42 percent of our remaining performance obligations as revenue during the remainder of 2018, 48 percent in 2019, and the remaining 10 percent in 2020 and thereafter.

Contract Balances. The timing of revenue recognition, billings and cash collections results in billed accounts receivable, unbilled receivables (contract assets), and customer advances and deposits (contract liabilities) on the consolidated balance sheet. Contract assets include unbilled amounts typically resulting from over-time contracts when the cost-to-cost method of revenue recognition is utilized and revenue recognized exceeds the amount billed to the customer, and right to payment is not just subject to the passage of time. Amounts may not exceed their net realizable value. Contract assets are generally classified as current. Generally, payment terms are based on shipment and billing occurs subsequent to revenue recognition, resulting in contract assets for over-time revenue recognition products. However, we sometimes receive advances or deposits from our customers, before revenue is recognized, resulting in contract liabilities. Contract liabilities are generally classified as current. These assets and liabilities are reported net on the consolidated balance sheet on a contract-by-contract basis at the end of each reporting period. Consistent with historical practice, we elected to expense the incremental costs of obtaining a contract when the amortization period for such contracts would have been one year or less.

In order to determine revenue recognized in the period from contract liabilities, we first allocate revenue to the individual contract liabilities balances outstanding at the beginning of the period until the revenue exceeds that balance. If additional advances are received on those contracts in subsequent periods, we assume all revenue recognized in the reporting period first applies to the beginning contract liabilities as opposed to a portion applying to the new advances for the period.

The opening and closing balances of the Company’s contract assets and contract liabilities balances as of September 30, 2018 are as follows (in thousands):

	With ASC 606		
	September 30, 2018	January 1, 2018	Increase/(Decrease)
Trade accounts receivables, net	192,110	223,922	(31,812)
Contract assets (1)	43,791	12,024	31,767

Contract liabilities (2) 33,416 35,235 (1,819)

(1) Recorded within prepaid expenses and other current assets.

(2) Recorded within accrued expenses and other current liabilities

The difference in the opening and closing balances of the contract assets and contract liabilities primarily result from the timing difference between the Company's performance and the customer's payment.

Trade account receivables, net decreased \$31.8 million, or 14%, to \$192.1 million as of September 30, 2018, primarily driven by cash collections during the nine months ended September 30, 2018.

Contract assets increased \$31.8 million, or 264%, to \$43.8 million, as of September 30, 2018, primarily related to unbilled revenue recognized during the nine months ended September 30, 2018 within our Refinery Valves business (+106%), U.S. Defense business (+57%), and North American Valves business (+45%).

Contract liabilities decreased \$1.8 million, or 5%, to \$33.4 million as of September 30, 2018, primarily driven by revenue recognized over time during the nine months ended September 30, 2018 within our Refinery Valves business (-11%), partially offset by customer advance payments within our U.S. Defense Business (+4%).

Contract Estimates. Accounting for over-time contracts requires reliable estimates in order to estimate total contract revenue and costs. For these contracts, we have a Company-wide standard and disciplined quarterly Estimate at Completion ("EAC") process in which management reviews the progress and execution of our performance obligations. As part of this process, management reviews information including, but not limited to, any outstanding key contract matters, progress towards completion and the related program schedule, identified risks and opportunities and the related changes in estimates of revenues and costs. The risks and opportunities include management's judgment about the ability and cost to achieve the delivery schedule (e.g., the timing of shipments), technical requirements (e.g., a highly engineered product requiring sub-contractors) and other contract requirements. Management must make assumptions and estimates regarding labor productivity and availability, the complexity of the work to be performed, the availability of materials, the length of time to complete the performance obligation (e.g. to estimate increases in wages and prices for materials and related support cost allocations), execution by our subcontractors, the availability and timing of funding from our customer and overhead cost rates, among other variables. Based on all of these factors, we estimate the profit on a contract as the difference between the total estimated revenue and EAC costs and recognize the resultant profit over the life of the contract, using the cost-to-cost EAC input method to measure progress.

The nature of our contracts gives rise to several types of variable consideration, including penalties. We include in our contract estimates a reduction to revenue for customer agreements, primarily in our large projects business, which contain late shipment penalty clauses whereby we are contractually obligated to pay consideration to our customers if we do not meet specified shipment dates. We generally estimate the variable consideration at the most likely amount to which the customer expects to be entitled. We include estimated amounts in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. The variable consideration for estimated penalties is based on several factors including historical customer settlement experience, contractual penalty percentages, and facts surrounding the late shipment.

A change in one or more of these estimates could affect the profitability of our contracts. We review and update our contract-related estimates regularly. We recognize adjustments in estimated profit on contracts under the cumulative catch-up method. Under this method, the impact of the adjustment on profit recorded to date is recognized in the period the adjustment is identified. Revenue and profit in future periods of contract performance is recognized using the adjusted estimate. If at any time the estimate of contract profitability indicates an anticipated loss on the contract, we recognize the total loss in the quarter it is identified.

The impact of adjustments in contract estimates on our operating earnings can be reflected in either operating expenses or revenue. There have been no significant changes in estimates in the three months ended September 30, 2018.

Disaggregation of Revenue. The following table presents our revenue disaggregated by major product line (in thousands):

	September 30, 2018	
	Three Months Ended	Nine Months Ended
Energy Segment		
Oil & Gas - Upstream, Midstream & Other	\$63,810	\$166,688
Oil & Gas - Downstream	57,213	167,110
Total	121,023	333,798
Aerospace & Defense Segment		
Commercial Aerospace & Other	28,571	81,420
Defense	29,186	92,314
Total	57,757	173,734
Industrial Segment		
Pumps & Valves EMEA	74,193	240,415
Pumps & Valves North America	44,541	126,515
Total	118,734	366,930
Net Revenue	\$297,514	\$874,462

(4) Inventories

Inventories consisted of the following (in thousands):

	September 30, December	
	2018	31, 2017
Raw materials	\$ 79,321	\$82,372
Work in process	109,591	121,709
Finished goods	37,135	40,815
Total inventories	\$ 226,047	\$244,896

(5) Business Acquisition

Fluid Handling

On September 24, 2017, CIRCOR entered into a Purchase Agreement (the "Purchase Agreement") with Colfax Corporation ("Colfax"). Pursuant to the Purchase Agreement, on December 11, 2017, the Company acquired the fluid handling business of Colfax ("FH") for consideration consisting of \$542.0 million in cash, 3,283,424 unregistered shares of the Company's common stock, with a fair value of approximately \$143.8 million at closing, and the assumption of net pension and post-retirement liabilities of FH. The cash consideration is subject to customary working capital adjustments. The Company financed the cash consideration through a combination of committed debt financing and cash on hand. During the second quarter of 2018, the shares were registered and sold with all proceeds going to Colfax.

FH is a leader in the engineering, development, manufacturing, distribution, service and support of fluid handling systems. With a history dating back to 1860, FH is a leading supplier of screw pumps for high demand, severe service applications across a range of markets including general industry, commercial marine, defense, and oil & gas. FH leverages differentiated technology, and provides critical aftermarket customer support, to maintain leading positions in high demand niche markets.

Effective January 1, 2018, the operating results of FH have been split between each of our operating segments, Energy, Aerospace & Defense, and Industrial based upon the end markets of the sub-businesses within FH.

The purchase price allocation is based upon a preliminary valuation of assets and liabilities that was prepared with assistance from a third party valuation specialist. The estimates and assumptions are subject to change as we obtain additional information during the measurement period (up to one year from the acquisition date). The purchase accounting is expected to be finalized in the fourth quarter of 2018. The assets and liabilities pending finalization include the valuation of acquired

tangible and intangible assets, certain operating liabilities, and the evaluation of income taxes. Differences between the preliminary and final valuation could have a material impact on our future results of operations and financial position.

The following table summarizes the preliminary fair value of the assets acquired and the liabilities assumed, at the date of acquisition:

(in thousands)

Cash and cash equivalents (a)	\$63,403
Restricted cash (a)	1,911
Accounts receivable	76,111
Inventory	78,240
Prepaid expenses and other current assets	17,044
Deferred income taxes	41,454
Property, plant and equipment	122,128
Identifiable intangible assets	383,178
Other assets	338
Accounts payable	(46,011)
Cash payable to seller (a)	(65,314)
Accrued and other expenses	(69,969)
Long-term post-retirement liabilities	(143,067)
Other long-term liabilities	(11,215)
Deferred tax liabilities	(48,776)
Total identifiable net assets	\$399,455
Goodwill	298,132
Total purchase price	\$697,587
Consideration	
Base purchase price	\$542,000
Net working capital and other purchase accounting adjustments	11,821
Common Stock	143,766
Total	\$697,587

(a) Cash acquired and returned to seller by the second quarter of 2018.

During the first nine months of 2018, we identified certain uncollectible accounts receivables (\$1.4 million), obsolete inventories (\$0.4 million), and obligations (\$0.7 million). Additionally, we received cash from Colfax to settle customary working capital adjustments (\$6.3 million) and recorded a liability for a loss customer contract ("Loss Contract") of \$9.6 million, including \$1.7 million for liquidated damages. We also identified certain working capital adjustments (\$0.2 million). These all required further adjustment to our December 11, 2017 opening balance sheet, and have been recorded during the nine months ended September 30, 2018.

The excess of purchase price paid over the fair value of FH's net assets was recorded to goodwill, which is primarily attributable to projected future profitable growth, market penetration, as well as an expanded customer base for the acquired businesses. As of September 30, 2018, approximately 63% of goodwill is projected to be deductible for income tax purposes.

The FH acquisition resulted in the preliminary identification of the following identifiable intangible assets (in thousands):

	Original Estimate	Measurement Period Adjustment	Fair Value	Weighted average amortization period (in years)
Customer relationships	\$215,000	\$ (7,000)	\$208,000	19
Acquired technologies	107,000	6,000	113,000	20
Trade names	44,000	2,000	46,000	Indefinite-life
Backlog	22,000	(6,000)	16,000	4
Total intangible assets	\$388,000	\$ (5,000)	\$383,000	

During the measurement period, with the help of third party specialists, we adjusted the fair value of the acquired FH intangibles based upon better information regarding discount rates, royalty rates, and more detailed business unit forecasts that was determinable at the time of acquisition. The revised fair value of acquired FH intangibles have been recorded against our FH opening balance sheet during the first quarter of 2018.

The fair value of the intangible assets was based on variations of the income approach, which estimates fair value based on the present value of cash flows that the assets are expected to generate. These approaches included the relief-from-royalty method and multi-period excess earnings method, depending on the intangible asset being valued. Customer relationships, backlog, and existing technology are amortized on a cash flow basis which reflects the economic benefit consumed. The trade name was assigned an indefinite life based on the Company's intention to keep the trade names for an indefinite period of time. Refer to Note 6, Goodwill and Intangibles, net for future expected amortization to be recorded.

(6) Goodwill and Intangibles, net

The following table shows goodwill by segment as of December 31, 2017 and September 30, 2018 (in thousands):

	Energy	Aerospace & Defense	Industrial	Total
Goodwill as of December 31, 2017	\$154,058	\$62,548	\$289,156	\$505,762
Adjustments to preliminary purchase price allocation	(5,479)	(6,050)	16,317	4,788
Currency translation adjustments	(1,440)	(33)	(4,439)	(5,912)
Goodwill as of September 30, 2018	\$147,139	\$56,465	\$301,034	\$504,638

During the first nine months of 2018, we identified certain uncollectible accounts receivables, obsolete inventories, a liability for a loss contract, and other obligations which required further adjustment to our December 11, 2017 opening balance sheet. The identified adjustments have been recorded against our FH opening balance sheet during the first, second, and third quarters of 2018 and are reflected in the line "adjustments to preliminary purchase price allocation" listed in the table above.

During the first quarter ended April 1, 2018, we realigned our organizational structure under three reportable business segments: Energy, Aerospace & Defense and Industrial. Our realignment was a triggering event for goodwill impairment testing. During the first quarter of 2018, we evaluated our reporting units for goodwill impairment and determined no impairments existed.

The table below presents gross intangible assets and the related accumulated amortization as of September 30, 2018 (in thousands):

	Gross Carrying Amount	Accumulated Amortization
Patents	\$5,399	\$ (5,399)
Customer relationships	311,846	(54,971)
Backlog	23,494	(15,457)
Acquired technology	141,305	(21,401)
Other	5,258	(4,882)
Total Amortized Assets	\$487,302	\$ (102,110)
Non-amortized intangibles (primarily trademarks and trade names)	\$85,530	\$ —
Total Non-Amortized Intangibles	\$85,530	\$ —
Net carrying value of intangible assets	\$470,722	

The table below presents estimated remaining amortization expense for intangible assets recorded as of September 30, 2018 (in thousands):

	Remainder of 2018	2019	2020	2021	2022	After 2022
Estimated amortization expense	\$ 12,248	\$49,851	\$45,742	\$43,574	\$38,161	\$195,616

(7) Segment Information

Our Chief Operating Decision Maker evaluates segment operating performance using segment operating income. Segment operating income is defined as GAAP operating income excluding intangible amortization and amortization of fair value step-ups of inventory and fixed assets from acquisitions completed subsequent to December 31, 2011, the impact of restructuring related inventory write-offs, impairment charges and special charges or gains. The Company also refers to this measure as adjusted operating income. The Company uses this measure because it helps management understand and evaluate the segments' core operating results and facilitate comparison of performance for determining incentive compensation achievement.

As of December 31, 2017 we had organized our reporting structure into three segments: CIRCOR Energy ("Energy segment" or "Energy"), CIRCOR Advanced Flow Solutions ("Advanced Flow Solutions segment" or "AFS"), and CIRCOR Fluid Handling ("Fluid Handling").

Effective January 1, 2018, we realigned our businesses with end markets to simplify the business, clarify customer and channel relationships and help us exploit growth synergy opportunities across the organization. The new reporting segments are Energy, Aerospace & Defense and Industrial. The Energy segment remains unchanged except for the addition of Reliability Services, a business from the FH acquisition. The Aerospace & Defense segment includes the Aerospace business out of our AFS segment, as well as the Pumps Defense business of Fluid Handling. The Industrial segment includes the remaining portion of Fluid Handling as well as the industrial solutions and power and process businesses (mainly control valves) that were part of AFS. In addition, a number of smaller product lines were realigned as part of this change to better manage and serve our customers. The current and prior periods are reported under the new segment structure.

The following table presents certain reportable segment information (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2018	October 1, 2017	September 30, 2018	October 1, 2017
Net revenues				
Energy	\$ 121,023	\$ 88,569	\$ 333,799	\$ 243,055

Edgar Filing: CIRCOR INTERNATIONAL INC - Form 10-Q

Aerospace & Defense	57,757	41,117	173,734	126,022
Industrial	118,734	30,007	366,929	87,054
Consolidated net revenues	\$297,514	\$159,693	\$874,462	\$456,131

(Loss) Income from operations before income taxes				
Energy - Segment Operating Income	\$9,163	\$6,936	\$24,101	\$21,512
Aerospace & Defense - Segment Operating Income	8,709	4,333	24,631	12,492
Industrial - Segment Operating Income	14,609	5,675	42,592	14,960
Corporate expenses	(8,034)	(5,067)	(22,284)	(15,942)
Subtotal	24,447	11,877	69,040	33,022
Restructuring charges, net	1,348	341	11,807	5,366
Special charges (recoveries), net	1,408	1,978	5,395	(5,809)
Special and restructuring charges (recoveries), net	2,756	2,319	17,202	(443)
Restructuring related inventory charges	—	—	1,538	—
Amortization of inventory step-up	—	—	6,600	—
Acquisition amortization	11,734	2,694	35,299	7,843
Acquisition depreciation of fixed assets step-up	1,742	—	5,314	—
Acquisition amortization and other costs, net	13,476	2,694	48,751	7,843
Consolidated Operating Income	8,216	6,864	3,088	25,622
Interest expense, net	14,100	2,445	39,656	6,298
Other (income) expense, net	(1,580)	823	(7,200)	2,022
(Loss) Income from operations before income taxes	\$(4,304)	\$3,596	\$(29,368)	\$17,302

Three Months Ended
September 30, 2018
October 1, 2017
Nine Months Ended
September 30, 2018
October 1, 2017

Capital expenditures				
Energy	\$2,572	\$1,202	\$6,852	\$2,699
Aerospace & Defense	1,320	909	3,161	2,379
Industrial	910	901	6,760	2,035
Corporate	187	39	574	782
Consolidated capital expenditures	\$4,989	\$3,051	\$17,347	\$7,895

Depreciation and amortization				
Energy	\$4,061	\$3,147	\$12,408	\$9,342
Aerospace & Defense	2,716	1,073	8,244	3,253
Industrial	12,337	2,266	37,158	6,765
Corporate	171	328	592	1,022
Consolidated depreciation and amortization	\$19,285	\$6,814	\$58,402	\$20,382

Identifiable assets	September 30, 2018	December 31, 2017
Energy	\$905,708	\$837,492
Aerospace & Defense	642,431	375,094
Industrial	1,020,849	1,408,217
Corporate	(756,138)	(714,004)
Consolidated identifiable assets	\$1,812,850	\$1,906,799

The total assets for each reportable segment have been reported as the Identifiable Assets for that segment, including inter-segment intercompany receivables, payables and investments in other CIRCOR companies. Identifiable assets reported in Corporate include both corporate assets, such as cash, deferred taxes, prepaid and other assets, fixed assets, as well as the elimination of all inter-segment intercompany assets. The elimination of intercompany assets results in negative amounts reported in Corporate for Identifiable Assets. Corporate Identifiable Assets excluding intercompany assets were \$28.2 million and \$51.5 million as of September 30, 2018 and October 1, 2017, respectively.

(8) Financial Instruments

Fair Value

The company utilizes fair value measurement guidance prescribed by accounting standards to value its financial instruments. The guidance establishes a fair value hierarchy based on the inputs used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows:

Level One: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level Two: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level Three: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The fair value measurements of the Company's financial instruments as of September 30, 2018 are summarized in the table below:

	Significant Other Observable Inputs Level 2
Current Liabilities	\$ (102)
Derivative Assets	3,449
Total Financial Instruments	\$ 3,347

The carrying amounts of cash and cash equivalents, trade receivables and trade payables approximate fair value because of the short maturity of these financial instruments. Cash equivalents are carried at cost which approximates fair value at the balance sheet date and is a Level 1 financial instrument. As of September 30, 2018 and December 31, 2017, the outstanding balance of the Company's debt approximated fair value based on current rates available to the Company for debt of the same maturity and is a Level 2 financial instrument.

Effective April 12, 2018, the Company entered into an interest rate swap pursuant to an International Swaps and Derivatives Association ("ISDA") Master Agreement with Citizens Bank, National Association ("interest rate swap"). The four-year interest rate swap has a fixed notional value of \$400.0 million with a 1% LIBOR floor and a maturity

date of April 12, 2022. The fixed rate of interest paid by the Company is comprised of our current credit spread of 350 basis points plus 2.6475% for a total interest rate of 6.1475%. The ISDA Master Agreement, together with its related schedules, contain customary representations, warranties and covenants. This hedging agreement was entered into to mitigate the interest rate risk inherent in the Company's variable rate debt and is not for speculative trading purposes.

The Company has designated the interest rate swap as a qualifying hedging instrument and is treating it as a cash flow hedge for accounting purposes pursuant to ASC 815, Derivatives and Hedging. The net fair value of the interest rate swap was \$3.3 million and is recorded in Other assets of \$3.7 million and Accrued expenses and other current liabilities of \$0.4 million on our condensed consolidated balance sheet as of September 30, 2018. The unrealized gains recognized in other comprehensive

income (loss) were \$1.6 million and \$2.2 million for the three and nine months ended September 30, 2018, respectively. The realized loss of \$0.6 million and \$1.2 million were reclassified from other comprehensive income (loss) to interest expense as interest expense was accrued on the swap during the three and nine months ended September 30, 2018, respectively. Amounts expected to be reclassified from other comprehensive income into interest expense in the coming 12 months is a loss of \$0.2 million. Interest expense (including the effects of the cash flow hedges) related to the portion of the Company's term loan subject to the aforementioned interest-rate swap agreement was \$6.2 million and \$17.5 million for the three and nine months ended September 30, 2018, respectively.

(9) Guarantees and Indemnification Obligations

As permitted under Delaware law, we have agreements whereby we indemnify certain of our officers and directors for certain events or occurrences while the officer or director is, or was, serving at our request in such capacity. The term of the indemnification period is for the officer's or director's lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited. However, we have directors' and officers' liability insurance policies that insure us with respect to certain events covered under the policies and should enable us to recover a portion of any future amounts paid under the indemnification agreements. We have no liabilities recorded from those agreements as of September 30, 2018.

We record provisions for the estimated cost of product warranties, primarily from historical information, at the time product revenue is recognized. We also record provisions with respect to any significant individual warranty issues as they arise. While we engage in extensive product quality programs and processes, our warranty obligation is affected by product failure rates, utilization levels, material usage, service delivery costs incurred in correcting a product failure, and supplier warranties on parts delivered to us. Should actual product failure rates, utilization levels, material usage, service delivery costs or supplier warranties on parts differ from our estimates, revisions to the estimated warranty liability would be required.

The following table sets forth information related to our product warranty reserves for the nine months ended September 30, 2018 (in thousands):

Balance beginning December 31, 2017	\$4,623
Provisions	1,488
Claims settled	(1,570)
Currency translation adjustment	(57)
Balance ending September 30, 2018	\$4,484

Warranty obligations decreased \$0.1 million from \$4.6 million as of December 31, 2017 to \$4.5 million as of September 30, 2018, primarily driven by net claims settled and quarterly provisions within each of our operating segments.

(10) Commitments and Contingencies

We are subject to various legal proceedings and claims pertaining to matters such as product liability or contract disputes, including issues arising under certain customer contracts with aerospace and defense customers. We are also subject to other proceedings and governmental inquiries, inspections, audits or investigations pertaining to issues such as tax matters, patents and trademarks, pricing, business practices, governmental regulations, employment and other matters. Although the results of litigation and claims cannot be predicted with certainty, we expect that the ultimate disposition of these matters, to the extent not previously provided for, will not have a material adverse effect, individually or in the aggregate, on our business, financial condition, results of operations or liquidity.

On February 21, 2018, the Company entered into a mediated settlement regarding a wage and hour action in California by a former employee. In October 2016, the plaintiff alleged non-compliance with California State labor law, including missed or late meal breaks, for hourly employees of CIRCOR Aerospace, Inc. in Corona, California. The total settlement amount of \$2.4 million has been recorded as a liability as of September 30, 2018 and December 31, 2017. This settlement resolves all wage/hour claims by all potentially affected employees through the settlement date and was approved by the California Superior Court during 2018. The Company has yet to fund the settlement as of September 30, 2018.

Asbestos-related product liability claims continue to be filed against two of our subsidiaries: Spence Engineering Company, Inc. (“Spence”), the stock of which we acquired in 1984; and CIRCOR Instrumentation Technologies, Inc. (f/k/a Hoke, Inc.) (“Hoke”), the stock of which we acquired in 1998. Due to the nature of the products supplied by these entities, the markets they

serve and our historical experience in resolving these claims, we do not expect that these asbestos-related claims will have a material adverse effect on the financial condition, results of operations or liquidity of the Company.

Standby Letters of Credit

We execute standby letters of credit, which include bid bonds and performance bonds, in the normal course of business to ensure our performance or payments to third parties. The aggregate notional value of these instruments was \$70.0 million at September 30, 2018. We believe that the likelihood of demand for a significant payment relating to the outstanding instruments is remote. These instruments generally have expiration dates ranging from less than 1 month to 5 years from September 30, 2018.

The following table contains information related to standby letters of credit instruments outstanding as of September 30, 2018 (in thousands):

Term Remaining	Maximum Potential Future Payments
0–12 months	\$ 38,741
Greater than 12 months	31,245
Total	\$ 69,986

(11) Retirement Plans

The following table sets forth the components of total net periodic benefit cost (income) of the Company's defined benefit pension plans and other post-retirement employee benefit plans (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2018	October 1, 2017	September 30, 2018	October 1, 2017
Pension Benefits - U.S. Plans				
Service cost	\$—	\$ —	\$—	\$ —
Interest cost	1,762	426	5,285	1,278
Expected return on plan assets	(3,771)	(576)	(11,313)	(1,726)
Amortization	146	184	439	551
Net periodic benefit (income) cost	\$(1,863)	\$ 34	\$(5,589)	\$ 103
Pension Benefits - Non-U.S. Plans				
Service cost	\$736	\$ —	\$2,271	\$ —
Interest cost	523	—	1,617	—
Expected return on plan assets	(243)	—	(755)	—
Amortization	—	—	—	—
Net periodic benefit cost	\$1,016	\$ —	\$3,133	\$ —
Other Post-Retirement Benefits				
Service cost	\$—	\$ —	\$1	\$ —
Interest cost	86	—	259	—
Amortization	—	—	—	—
Net periodic benefit cost	\$86	\$ —	\$260	\$ —

There were no international pension plans or other post-retirement benefits for the period ended October 1, 2017.

The periodic benefit service costs are included in the selling, general, and administrative costs, while the remaining net periodic benefit costs are included in other (income) expense, net in our condensed consolidated statements of (loss) income for the three and nine months ended September 30, 2018 and October 1, 2017, respectively.

Employer contributions to the Company's U.S. and non- U.S. based pension plans during the three and nine months ended September 30, 2018 were \$0.0 million and \$0.6 million, respectively.

(12) Income Taxes

As of September 30, 2018 and December 31, 2017, we had \$1.1 million and \$3.0 million of unrecognized tax benefits, respectively, of which \$1.0 million and \$2.6 million, respectively, would affect our effective tax rate if recognized in any future period.

The Company files income tax returns in U.S. federal, state and local jurisdictions and in foreign jurisdictions. The Company is no longer subject to examination by the Internal Revenue Service (the "IRS") for years prior to 2015 and is no longer subject to examination by the tax authorities in foreign and state jurisdictions prior to 2006. The Company is currently under examination for income tax filings in various foreign jurisdictions.

The Company has a net U.S. deferred tax asset and a net foreign deferred tax liability. Due to uncertainties related to our ability to utilize certain foreign deferred income tax assets, we maintained a total valuation allowance of \$23.6 million at September 30, 2018 and \$22.1 million at December 31, 2017. The valuation allowance is based on estimates of income in each of the jurisdictions in which we operate and the period over which our deferred tax assets will be recoverable. If future results of operations exceed our current expectations, our existing tax valuation allowances may be adjusted, resulting in future tax

benefits. Alternatively, if future results of operations are less than expected, future assessments may result in a determination that some or all of the deferred tax assets are not realizable. Consequently, we may need to establish additional tax valuation allowances for all or a portion of the deferred tax assets, which may have a material adverse effect on our business, results of operations and financial condition.

In connection with the enactment of the Tax Cuts and Jobs Act (the "Tax Act") on December 22, 2017, we recorded provisional estimates for certain provisions of the Tax Act as of December 31, 2017. We have not made any changes to these provisional estimates as of September 30, 2018.

In addition, the Tax Act created a new requirement that certain income, the Global Intangible Low-Taxed Income ("GILTI"), earned by a controlled foreign corporation must be included in the gross income of its U.S. shareholder, effective January 1, 2018. The Tax Act also created the base erosion anti-abuse tax ("BEAT"), a new minimum tax, effective January 1, 2018. We have included the impact of the GILTI provision in the calculation of our 2018 effective tax rate. We do not believe that BEAT will have a material impact on our financial position or results of operations.

(13) Share-Based Compensation

As of September 30, 2018, there were 882,164 stock options and 330,428 Restricted Stock Unit Awards ("RSU Awards") and Restricted Stock Unit Management Stock Plans Awards ("RSU MSPs") outstanding. In addition, there were 397,381 shares available for grant under the 2014 Stock Option and Incentive Plan (the "2014 Plan") as of September 30, 2018.

During the nine months ended September 30, 2018, we granted 127,704 stock options compared with 142,428 stock options granted during the nine months ended October 1, 2017.

The average fair value of stock options granted during the first nine months of 2018 and 2017 was \$14.68 and \$19.36 per share, respectively, and was estimated using the following weighted-average assumptions:

	September 30, 2018		October 1, 2017	
Risk-free interest rate	2.5	%	1.7	%
Expected life (years)	4.4		4.5	
Expected stock volatility	37.2	%	35.1	%
Expected dividend yield	—	%	0.3	%

For additional information regarding the historical issuance of stock options, refer to our Annual Report on Form 10-K for the year ended December 31, 2017.

During the nine months ended September 30, 2018 and October 1, 2017, we granted 160,604 and 56,948 RSU Awards with approximate fair values of \$43.11 and \$60.76 per RSU Award, respectively. During the first nine months of 2018 and 2017, we granted performance-based RSU Awards as part of the overall mix of RSU Awards. These performance-based RSU Awards include metrics for achieving Return on Invested Capital and Adjusted Operating Margin with target payouts ranging from 0% to 200%. Of the 160,604 RSU Awards granted during the nine months ended September 30, 2018, 48,080 are performance-based RSU Awards. This compares to 31,369 performance-based RSU Awards granted during the nine months ended October 1, 2017.

RSU MSPs totaling 34,937 and 26,726 with per unit discount amounts representing fair values of \$14.06 and \$20.13 per share were granted during the nine months ended September 30, 2018 and October 1, 2017, respectively.

Compensation expense related to our share-based plans for the nine months ended September 30, 2018 and October 1, 2017 was \$4.3 million and \$2.7 million, respectively. The primary reason for lower expense during 2017 relates to a change in estimate of \$1.1 million for anticipated below-threshold achievement of performance-based RSU Awards granted in both February 2015 and February 2016. In addition, 2018 compensation expense includes amounts related to employees from the FH acquisition completed on December 11, 2017. Compensation expense for both periods was recorded as selling, general and administrative expenses. As of September 30, 2018, there was \$10.4 million of total unrecognized compensation costs related to our outstanding share-based compensation arrangements. That cost is expected to be recognized over a weighted average period of 2.1 years.

The weighted average contractual term for stock options outstanding and options exercisable as of September 30, 2018 was 4.9 years and 4.2 years, respectively. The aggregate intrinsic value of stock options exercised during the nine months ended September 30, 2018 was \$0.2 million and the aggregate intrinsic value of stock options outstanding and options exercisable as of September 30, 2018 was \$3.1 million and \$2.0 million, respectively.

The aggregate intrinsic value of RSU Awards settled during the nine months ended September 30, 2018 was \$1.2 million and the aggregate intrinsic value of RSU Awards outstanding and RSU Awards vested and deferred as of September 30, 2018 was \$12.1 million and \$0.1 million, respectively.

The aggregate intrinsic value of RSU MSPs settled during the nine months ended September 30, 2018 was \$0.4 million and the aggregate intrinsic value of RSU MSPs outstanding and RSU MSPs vested and deferred as of September 30, 2018 was \$1.1 million and less than \$0.1 million, respectively.

International participants are issued Cash Settled Stock Unit Awards. As of September 30, 2018, there were 51,476 Cash Settled Stock Unit Awards outstanding compared to 40,469 as of December 31, 2017. During the nine months ended September 30, 2018, the aggregate cash used to settle Cash Settled Stock Unit Awards was \$0.3 million. As of September 30, 2018, we had \$1.2 million of accrued expenses in current liabilities associated with these Cash Settled Stock Unit Awards compared with \$0.9 million as of December 31, 2017. Cash Settled Stock Unit Award related compensation costs for the nine months ended September 30, 2018 and October 1, 2017 was \$0.6 million and \$0.2 million, respectively, and was recorded as selling, general, and administrative expenses.

(14) Accumulated Other Comprehensive Loss

The following table summarizes the changes in accumulated other comprehensive loss, net of tax, which is reported as a component of shareholders' equity, for the nine months ended September 30, 2018 (in thousands):

	Foreign Currency Translation Adjustments	Pension, net	Derivative	Total
Balance as of December 31, 2017	\$ (28,584)	\$(8,146)	\$ —	\$(36,730)
Other comprehensive income	(15,380)	—	3,449	(11,930)
Balance as of September 30, 2018	\$ (43,964)	\$(8,146)	\$ 3,449	\$(48,660)

(15) Earnings (Loss) Per Common Share ("EPS")

(in thousands, except per share amounts)

	Three Months Ended September 30, 2018			October 1, 2017		
	Net Income	Shares	Per Share Amount	Net Income	Shares	Per Share Amount
Basic EPS	\$(6,841)	19,843	\$(0.34)	\$3,617	16,503	\$0.22
Dilutive securities, common stock options	—	—	—	—	206	—
Diluted EPS	\$(6,841)	19,843	\$(0.34)	\$3,617	16,709	\$0.22

	Nine Months Ended September 30, 2018			October 1, 2017		
	Net Loss	Shares	Per Share Amount	Net Income	Shares	Per Share Amount
Basic EPS	\$(18,380)	19,829	\$(0.93)	\$17,359	16,486	\$1.05

Edgar Filing: CIRCOR INTERNATIONAL INC - Form 10-Q

Dilutive securities, common stock options	—	—	—	—	235	(0.01)
Diluted EPS	\$(18,380)	19,829	\$(0.93)	\$17,359	16,721	\$ 1.04

Stock options, RSU Awards, and RSU MSPs covering 371,017 and 253,664 shares of common stock, for the nine months ended September 30, 2018 and October 1, 2017, respectively, were not included in the computation of diluted EPS because their effect would be anti-dilutive.

(16) Special & Restructuring Charges (Recoveries), net

Special and Restructuring Charges (Recoveries), net

Special and restructuring charges, net consist of restructuring costs (including costs to exit a product line or program) as well as certain special charges such as significant litigation settlements and other transactions (charges or recoveries) that are described below. All items described below are recorded in Special and restructuring charges, net on our consolidated statements of (loss) income. Certain other special and restructuring charges such as inventory related items may be recorded in cost of revenues given the nature of the item.

The table below (in thousands) summarizes the amounts recorded within the special and restructuring charges (recoveries), net line item on the condensed consolidated statements of (loss) income for the three and nine months ended September 30, 2018 and October 1, 2017:

	Special & Restructuring Charges (Recoveries), net			
	Three Months Ended		Nine Months Ended	
	September 2018	October 1, 2017	September 2018	October 1, 2017
Special charges (recoveries), net	\$1,408	\$1,978	\$5,395	\$(5,809)
Restructuring charges, net	1,348	341	11,807	5,366
Total special and restructuring charges (recoveries), net	\$2,756	\$2,319	\$17,202	\$(443)

Special Charges (Recoveries), net

The table below (in thousands) outlines the special charges, net recorded for the three and nine months ended September 30, 2018:

	Special Charges, net For the three months ended September 30, 2018				
	Aerospace		Industrial & Defense	Corporate	Total
	Energy				
Brazil closure	\$198	\$—	\$—	\$—	\$198
Acquisition related charges	—	—	—	1,210	1,210
Total special charges, net	\$198	\$—	\$—	\$1,210	\$1,408

	Special Charges, net For the nine months ended September 30, 2018

	Energy				
Brazil closure	\$730	\$—	\$—	\$—	\$730
Acquisition related charges	—	—	—	4,665	4,665
Total special charges, net	\$730	\$—	\$—	\$4,665	\$5,395

Acquisition related charges: On December 11, 2017, we acquired FH. In connection with our acquisition, we recorded \$1.2 million and \$4.7 million during the three and nine months ended September 30, 2018, respectively, related to

internal costs and external professional fees to separate the FH business from Colfax and integrate the FH business into our legacy structure.

Brazil Closure: On November 3, 2015, our Board of Directors approved the closure and exit of our Brazil manufacturing operations due to the economic realities in Brazil and the ongoing challenges with our only significant end customer, Petrobras.

CIRCOR Brazil reported substantial operating losses every year since it was acquired in 2011 while the underlying market

conditions and outlook deteriorated. In connection with the closure, we recorded \$0.2 million and \$0.7 million of charges within the Energy segment during the three and nine months ended September 30, 2018, respectively, which relates to losses incurred subsequent to our closure of manufacturing operations during the first quarter of 2016.

The table below (in thousands) outlines the special charges (recoveries), net recorded for the three and nine months ended October 1, 2017:

	Special Charges (Recoveries), net				Total
	For the three months ended October 1, 2017				
	Energy	Aerospace & Defense	Industrial	Corporate	
Acquisition related charges	\$—	\$ —	\$	—\$ 1,786	\$ 1,786
Brazil closure	192	—	—		192
Total special charges, net	\$ 192	\$ —	\$	—\$ 1,786	\$ 1,978

	Special (Recoveries) Charges, net				Total
	For the nine months ended October 1, 2017				
	Energy	Aerospace & Defense	Industrial	Corporate	
Acquisition related charges	\$—		\$	—\$ 1,923	\$ 1,923
Brazil closure	619	—	—	—	619
Divestiture	—	3,748	—	101	3,849
Contingent consideration revaluation	(12,200)	—	—	—	(12,200)
Total special (recoveries) charges, net	\$(11,581)	\$ 3,748	\$	—\$ 2,024	\$(5,809)

Acquisition related charges:

- On October 12, 2016, we acquired Critical Flow Solutions ("CFS"). In connection with our acquisition, we recorded \$0.1 million of acquisition related professional fees during the nine months ended October 1, 2017. No CFS professional fees were recorded during the three months ended October 1, 2017.

On September 24, 2017, we entered into the Purchase Agreement to purchase FH. In connection with the Purchase Agreement, we recorded \$1.8 million of acquisition related professional fees, primarily for legal services, during the three and nine months ended October 1, 2017.

Brazil Closure: In connection with the closure, we recorded \$0.2 million and \$0.6 million of charges within the Energy segment during the three and nine months ended October 1, 2017, respectively.

Divestiture: On July 7, 2017, we divested our French non-core aerospace build-to-print business within our Aerospace & Defense segment as part of our simplification strategy. We considered this business as non-core because the products or services did not fit our strategy and the long-term profitable growth prospects were below our expectations. Divestiture of this non-core business enables us to focus resources on businesses where there is greater opportunity to achieve sales growth, higher margins, and market leadership. We measured the disposal group at its fair value less cost to sell, which was lower than its carrying value, and recorded a \$3.8 million charge during the second quarter of 2017. Also, in connection with this disposition we recorded \$1.5 million of severance included as a restructuring charge.

Contingent Consideration Revaluation: The fair value of the earn-out in connection with our October 2016 acquisition of CFS decreased \$12.2 million during the nine months ended October 1, 2017. The change in fair value was recorded as a special gain during the nine months ended October 1, 2017. Accordingly, the revised fair value assessment indicated an earn-out of zero as of October 1, 2017.

Restructuring Charges (Recoveries), net

The tables below (in thousands) outline the charges (or any recoveries) associated with restructuring actions recorded for the three and nine months ended September 30, 2018 and October 1, 2017. A description of the restructuring actions is provided in the section titled "Restructuring Programs Summary" below.

Restructuring Charges

As of and for the three months ended September 30, 2018

	Energy	Aerospace & Defense	Industrial	Corporate	Total

Charges paid / settled, net	(5,117)
Accrued restructuring charges as of October 1, 2017	\$1,867

Restructuring Programs Summary

As specific restructuring programs are announced, the amounts associated with that particular action may be recorded in periods other than when announced to comply with the applicable accounting rules. For example, total cost associated with 2017 Actions (as discussed below) will be recorded in 2017 and 2018. The amounts shown below reflect the total cost for that restructuring program.

During 2018 and 2017, we initiated certain restructuring activities, under which we continued to simplify our business ("2018 Actions" and "2017 Actions", respectively). Under these restructurings, we reduced expenses, primarily through reductions in force and closing a number of smaller facilities.

Charges associated with the 2018 Actions were recorded during 2018. Charges associated with the 2017 Actions were finalized in 2017.

2018 Actions Restructuring Charges, net as of
September 30, 2018

	Energy	Aerospace & Defense	Industrial	Corporate	Total
Facility related expenses - incurred to date	\$2,091	\$ —	—\$	\$ —	—\$2,091

Edgar Filing: CIRCOR INTERNATIONAL INC - Form 10-Q

Employee related expenses - incurred to date	7,491	—	1,464	—	8,955
Total restructuring related special charges - incurred to date	\$9,582	\$	—\$ 1,464	\$	—\$11,046

28

Additional Restructuring Charges

In conjunction with the restructuring action noted above, we incurred certain inventory costs that are recorded in cost of revenues instead of special and restructuring charges. For the quarter ended September 30, 2018 we recorded no inventory related restructuring charges. During the nine months ended September 30, 2018 we recorded \$1.6 million of inventory related restructuring charges within our Energy segment for restructuring actions with our Reliability Services and Engineered Valves businesses.

(17) Subsequent Events

During the fourth quarter of 2018, the Company announced the closure and discontinuance of manufacturing operations at the Energy Group's Oklahoma City site, as manufacturing operations will move primarily to Monterrey, Mexico. This is consistent with the restructuring action plan initiated during 2016. The timing of the closure of the Oklahoma City manufacturing facility is expected to be finalized in the first half of 2019. There is no restructuring charge recorded during the third quarter of 2018.

On November 6, 2018, we announced the divestiture of our Rosscor B.V. and SES International B.V. subsidiaries (the "Delden Business") for a nominal amount. The Delden Business was our Netherlands-based fluid handling skids and systems business, primarily for the Oil and Gas end market. We maintain a 19.9% interest in the Delden Business, as well as the intellectual property rights to our two-screw pump product line. In addition, we entered into a supply agreement allowing us to continue to supply two-screw pumps on a contract-by-contract basis. The Delden Business was reported as part of the Industrial segment and contributed approximately \$15 million of annual sales. The accounting for this transaction is not expected to be material to our consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q contains certain statements that are "forward-looking statements" as that term is defined under the Private Securities Litigation Reform Act of 1995 (the "Act"). The words "may," "hope," "should," "expect," "plan," "anticipate," "intend," "believe," "estimate," "predict," "potential," "continue," and other expressions which are predictive or indicate future events and trends and which do not relate to historical matters, identify forward-looking statements. We believe that it is important to communicate our future expectations to our stockholders, and we, therefore, make forward-looking statements in reliance upon the safe harbor provisions of the Act. However, there may be events in the future that we are not able to accurately predict or control and our actual results may differ materially from the expectations we describe in our forward-looking statements. Forward-looking statements, including statements about the integration and impact of our acquisition of fluid handling business of Colfax Corporation ("Colfax"), involve known and unknown risks, uncertainties and other factors, which may cause our actual results, performance or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, changes in the price of and demand for oil and gas in both domestic and international markets, our ability to successfully integrate acquired businesses, as contemplated, the possibility that expected benefits related to the acquisition of the fluid handling business of Colfax may not materialize as expected, any adverse changes in governmental policies, variability of raw material and component pricing, changes in our suppliers' performance, fluctuations in foreign currency exchange rates, changes in tariffs or other taxes related to doing business internationally, our ability to hire and retain key personnel, our ability to operate our manufacturing facilities at efficient levels including our ability to prevent cost overruns and reduce costs, our ability to generate increased cash by reducing our working capital, our prevention of the accumulation of excess inventory, our ability to successfully implement our restructuring or simplification strategies, fluctuations in interest rates, our ability to successfully defend

product liability actions, as well as the uncertainty associated with the current worldwide economic conditions and the continuing impact on economic and financial conditions in the United States and around the world, including as a result of natural disasters, terrorist attacks, current Middle Eastern conflicts and related matters. We advise you to read further about these and other risk factors set forth in Part I, Item 1A, "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2017, which is filed with the Securities and Exchange Commission ("SEC") and is available on the SEC's website at www.sec.gov. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Company Overview

We design, manufacture and market differentiated technology products and sub-systems for markets including industrial, oil & gas, aerospace and defense, and commercial marine. CIRCOR has a diversified flow and motion control product portfolio with recognized, market-leading brands that fulfill its customers' mission critical needs.

As of December 31, 2017 we organized our reporting structure into three segments: CIRCOR Energy ("Energy segment" or "Energy"), CIRCOR Advanced Flow Solutions ("Advanced Flow Solutions segment" or "AFS"), and CIRCOR Fluid Handling ("Fluid Handling" or "FH").

Effective January 1, 2018, we realigned our business segments with end markets to simplify the business, clarify customer and channel relationships and help us exploit growth synergy opportunities across the organization. The new reporting segments are Energy, Aerospace & Defense and Industrial. The Energy segment remains unchanged except for the addition of the Reliability Services business ("Reliability Services"), a business from the FH acquisition. The Aerospace & Defense segment includes the Aerospace business out of our AFS segment, as well as the Pumps Defense business of FH. The Industrial segment includes the remaining portion of FH as well as the Industrial Solutions and Power and Process businesses (essentially control valves products) that were part of AFS. In addition, a number of smaller product lines were realigned as part of this change to better manage and serve our customers. The current and prior periods are reported under the new segments.

Basis of Presentation

All significant intercompany balances and transactions have been eliminated in consolidation.

We operate and report financial information using a fiscal year ending December 31. The data periods contained within our Quarterly Reports on Form 10-Q reflect the results of operations for the 13-week, 26-week and 39-week periods which generally end on the Sunday nearest the calendar quarter-end date.

Critical Accounting Policies

Critical accounting policies are those that are both important to the accurate portrayal of a company's financial condition and results and require subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. There have been no significant changes from the methodology applied by management for critical accounting estimates previously disclosed in our most recent Annual Report on Form 10-K, except as updated by Note 2 with respect to newly adopted accounting standards. The expenses and accrued liabilities or allowances related to certain of our accounting policies are initially based on our best estimates at the time of original entry in our accounting records. Adjustments are recorded when our actual experience, or new information concerning our expected experience, differs from underlying initial estimates. These adjustments could be material if our actual or expected experience were to change significantly in a short period of time. We make frequent comparisons of actual experience and expected experience in order to mitigate the likelihood of material adjustments.

Results of Operations

Third Quarter 2018 Compared With Third Quarter 2017

Consolidated Operations

(in thousands)	Three Months Ended		Total Change	Acquisitions	Operations	Foreign Exchange
	September 30, 2018	October 1, 2017				
Net Revenues						
Energy	\$121,023	\$88,569	\$32,454	\$16,579	\$16,186	\$(311)
Aerospace & Defense	57,757	41,117	16,640	10,862	5,935	(157)
Industrial	118,734	30,007	88,727	89,280	(307)	(246)
Consolidated Net Revenues	\$297,514	\$159,693	\$137,821	\$116,721	\$21,814	\$(714)

Net revenues for the three months ended September 30, 2018 were \$297.5 million, an increase of \$137.8 million (+86%) as compared to the three months ended October 1, 2017, primarily driven by our December 2017 acquisition of the Fluid Handling business (+73%) and, organic growth driven by our Energy and Aerospace & Defense businesses (+14%), slightly offset by unfavorable foreign currency translation (-1%).

Segment Results

The Chief Operating Decision Maker ("CODM") is the function that allocates the resources of the enterprise and assesses the performance of the Company's reportable operating segments. CIRCOR has determined that the CODM is solely comprised of its Chief Executive Officer ("CEO"), as the CEO has the ultimate responsibility for CIRCOR strategic decision-making and resource allocation.

Our CODM evaluates segment operating performance using segment operating income. Segment operating income is defined as GAAP operating income excluding intangible amortization and amortization of fair value step-ups of inventory and fixed assets from acquisitions completed subsequent to December 31, 2011, the impact of restructuring related inventory write-offs, impairment charges and special charges or gains. The Company also refers to this measure as adjusted operating income. The Company uses this measure because it helps management understand and evaluate the segments' core operating results and facilitate comparison of performance for determining incentive compensation achievement.

The following table presents certain reportable segment information:

(in thousands, except percentages)	Three Months Ended		
	September 30, 2018	October 1, 2017

(1) See Special & Restructuring Charges (Recoveries), net in Note 16 to the condensed consolidated financial statements for additional details.

(2) Acquisition amortization and depreciation is recorded in either cost of revenues or selling, general, and administrative expenses depending upon the nature of the underlying asset.

Energy Segment

(in thousands, except percentages)	Three Months Ended		
	September 30, 2018	October 1, 2017	Change
Net Revenues	\$121,023	\$88,569	\$32,454
Segment Operating Income	9,163	6,936	2,227
Segment Operating Margin	7.6	% 7.8	%

Energy segment net revenues increased \$32.5 million, or 37%, for the three months ended September 30, 2018 compared to the three months ended October 1, 2017. The increase was primarily driven by the addition of the Reliability Services business acquired with the FH acquisition (+19%), our Refinery Valves business (+12%), our North American Distributed Valves business (+3%), and our Instrumentation & Sampling business (+3%). Energy segment orders increased \$26.1 million, or 31%, for the three months ended September 30, 2018 compared to the three months ended October 1, 2017, primarily driven by our capital project and maintenance, repair, and overhaul

orders within our Refinery Valves business (+30%) and Reliability

32

Services business (+22%), partially offset by lower orders within our North American Distributed Valves business (-15%) and Engineered Valves business (-9%).

Segment operating income increased \$2.2 million, or 32%, to \$9.2 million for the three months ended September 30, 2018 compared to \$6.9 million for the three months ended October 1, 2017. The increase was primarily driven by our recently acquired Reliability Services business (+42%) and operational improvements within our Refinery Valves business (+18%), partially offset by operational losses within our North American Distributed Valves business (-32%).

The decrease in Segment Operating Margin from 7.8% to 7.6% was primarily driven by lower profitability in Distributed Valves, attributed to start-up costs associated with our Monterrey, Mexico facility, as well as an operating loss in our Engineered Valves business.

Aerospace & Defense Segment

(in thousands, except percentages)	Three Months Ended		
	September 30, 2018	October 1, 2017	Change
Net Revenues	\$57,757	\$41,117	\$16,640
Segment Operating Income	8,709	4,333	4,376
Segment Operating Margin	15.1	% 10.5	%

Aerospace & Defense segment net revenues increased by \$16.6 million, or 40%, to \$57.8 million for the three months ended September 30, 2018 compared to the three months ended October 1, 2017. The increase was primarily driven by the defense-related business ("Pumps Defense") we acquired in the FH acquisition (+26%) and, price and volume increases in our United States ("U.S.") actuation and fluid controls business (+11%), our U.K. defense business (+2%) and our French business (+1%). Aerospace & Defense segment orders increased \$35.6 million, or 77%, for the three months ended September 30, 2018 compared to the three months ended October 1, 2017, primarily driven by our U.S. fluid controls business (+37%), our Pumps Defense business (+25%), our U.K. business (+6%), our French business (+5%) and our U.S. actuation business (+4%). The increase in our Pumps Defense business is attributed to the timing of orders received for the Joint Strike Fighter program.

Segment operating income doubled to \$8.7 million for the three months ended September 30, 2018 compared to the three months ended October 1, 2017. The increase in operating income was primarily driven by the Pumps Defense business (+42%), our U.S. actuation business (+30%), our fluid control business (+22%) and lower headquarter costs (+12%), partially offset by declines in our French business (-4%) and unfavorable foreign currency fluctuations (-1%).

The increase in Segment Operating Margin from 10.5% to 15.1% was primarily driven by the addition of the higher margin Pumps Defense business as well as improved operations and higher pricing.

Industrial Segment

(in thousands, except percentages)	Three Months Ended		
	September 30, 2018	October 1, 2017	Change
Net Revenues	\$118,734	30,007	\$88,727
Segment Operating Income	14,609	5,675	8,934
Segment Operating Margin	12.3	% 18.9	%

Industrial segment net revenues increased \$88.7 million to \$118.7 million for the three months ended September 30, 2018 compared to the three months ended October 1, 2017. The increase was primarily driven by the European and North American Pumps Businesses ("Pumps Businesses") we acquired in the FH acquisition (+298%), which was slightly offset by decreases in the Valves businesses (-1%). The Pumps Businesses saw a significant increase in orders in the general industrial sector in Europe. Demand in North America was largely driven by the timing of certain Navy orders, bookings in Oil & Gas end markets, and strength in general industrial sectors. Industrial segment orders increased \$87.6 million, or 321%, for the three months ended September 30, 2018 compared to the three months ended October 1, 2017, mainly due to the FH acquisition.

Segment operating income increased \$8.9 million for the three months ended September 30, 2018 compared to the three months ended October 1, 2017, primarily driven by the Pumps Businesses (+154%) and Valves businesses (+4%), partially offset by unfavorable foreign currency fluctuations (-1%).

The decrease in segment operating margin from 18.9% to 12.3% was driven by the addition of the relatively lower margin acquired businesses.

Corporate Expenses

Corporate expenses were \$8.0 million for the three months ended September 30, 2018 compared to \$5.1 million for the three months ended October 1, 2017 primarily driven by higher variable compensation, professional fees and integration costs.

Special and Restructuring Charges (Recoveries), net

During the three months ended September 30, 2018 and October 1, 2017, the Company recorded a net charge of \$2.8 million and a net charge of \$2.3 million, respectively, within our condensed consolidated statements of (loss) income caption "Special and restructuring charges (recoveries), net". These special and restructuring charges (recoveries), net are described in further detail in Note 16 to the condensed consolidated financial statements.

Acquisition amortization

During the three months ended September 30, 2018 and October 1, 2017, the Company recorded amortization expense of \$11.7 million and \$2.7 million, respectively, for intangibles acquired in acquisitions completed subsequent to December 31, 2011. These amortization expenses are recorded in either cost of revenues or selling, general, and administrative expenses depending upon the nature of the underlying asset.

Acquisition step-up depreciation

During the three months ended September 30, 2018, the Company recorded depreciation expense of \$1.7 million related to the step-up to fair value of the plant, property, and equipment related to the FH acquisition.

Interest Expense, net

Interest expense increased \$11.7 million to \$14.1 million in the three months ended September 30, 2018 compared to the three months ended October 1, 2017. The change in interest expense was primarily due to higher outstanding debt balances as a result of our purchase of FH during the fourth quarter of 2017.

Other (Income) Expense, net

During the three months ended September 30, 2018, we had other income, net of \$1.6 million, as compared to other expense, net of \$0.8 million for the three months ended October 1, 2017. The difference primarily relates to net pension income for the retirement plans we acquired as part of the FH acquisition. Effective January 1, 2018 all non-service pension gains and losses are to be recorded in the Other (Income) Expense, net caption on our condensed consolidated statement of (loss) income.

Comprehensive (Loss) Income

During the three months ended September 30, 2018 we had a comprehensive loss of \$1.5 million, as compared to other comprehensive income of \$13.1 million for the three months ended October 1, 2017. The decrease primarily relates to the decrease in net income of \$10.5 million and unfavorable foreign currency fluctuations of \$6.4 million, which were partially offset by an increase in interest rate swap adjustments of \$2.2 million.

(Provision for)/ Benefit from Income Taxes

The table below outlines the change in effective tax rate for the three months ended September 30, 2018 as compared to the three months ended October 1, 2017 (in thousands, except percentages).

	Three months ended			
	September 30, 2018		October 1, 2017

(1) See Special & Restructuring Charges (Recoveries), net in Note 16 to the condensed consolidated financial statements for additional details.

(2) Acquisition amortization and depreciation is recorded in either cost of revenues or selling, general, and administrative expenses depending upon the nature of the underlying asset.

Energy Segment

	Nine Months Ended		
(in thousands, except percentages)	September 30, 2018	October 1, 2017	Change
Net Revenues	\$333,799	\$243,055	\$90,744
Segment Operating Income	24,101	21,512	2,589
Segment Operating Margin	7.2	% 8.9	%

Energy segment net revenues increased \$90.7 million, or 37%, for the nine months ended September 30, 2018 compared to the nine months ended October 1, 2017. The increase was primarily driven by the addition of the Reliability Services business acquired with the FH acquisition (+20%), our Refinery Valves business (+9%), our North American Distributed Valves business (+7%), and favorable foreign currency fluctuations (+1%), partially

offset by declines in our Engineered Valves business (-2%). Energy segment orders increased \$95.8 million, or 37%, for the nine months ended September 30, 2018 compared to the nine months ended October 1, 2017, primarily driven by capital project and maintenance, repair, and overhaul orders within our

Refinery Valves business (+24%), our Reliability Services business (+21%), and our Engineered Valves business (+5%), partially offset by lower orders within our North American Distributed Valves business (-13%).

Segment operating income increased \$2.6 million, or 12%, to \$24.1 million, for the nine months ended September 30, 2018 compared to \$21.5 million for the nine months ended October 1, 2017. The increase was primarily driven by our recently acquired Reliability Services business (+23%), increased volume within our Refinery Valves business (+21%), and lower headquarter costs (+6%), partially offset by operational declines within our Engineered Valves business (-19%), operational inefficiencies in our North American Distributed Valves business (-17%), and unfavorable foreign currency translation (-1%).

The decrease in Segment Operating Margin from 8.9% to 7.2% was primarily driven by operating losses within our Engineered Valves business and operational inefficiencies within our Distributed Valves businesses.

Aerospace and Defense Segment

(in thousands, except percentages)	Nine Months Ended		
	September 30, 2018	October 1, 2017	Change
Net Revenues	\$173,734	\$126,022	\$47,712
Segment Operating Income	24,631	12,492	12,139
Segment Operating Margin	14.2	% 9.9	%

Aerospace & Defense segment net revenues increased by \$47.7 million, or 38%, to \$173.7 million for the nine months ended September 30, 2018 compared to the nine months ended October 1, 2017. The increase was primarily driven by our Pumps Defense business (+29%), price and volume increases in our U.S. actuation and U.S. fluid controls businesses (+8%), and favorable foreign currency fluctuations (+2%), partially offset by declines in our French business (-2%). Aerospace & Defense segment orders increased \$58.5 million, or 41%, for the nine months ended September 30, 2018 compared to the nine months ended October 1, 2017, primarily driven by our Pumps Defense business (+27%) and our U.S. fluid control and actuation business (+12%).

Segment operating income increased \$12.1 million, or 97%, to \$24.6 million for the nine months ended September 30, 2018 compared to the nine months ended October 1, 2017. The increase in operating income was primarily driven by our Pumps Defense business (+55%), our U.S. fluid control and actuation businesses (+22%), lower headquarter costs (+20%) primarily driven by the realignment of segment structures in the current year as well as decreased sales & marketing expenses, favorable foreign currency translation (+3%), and our French business (+2%), partially offset by declines in our U.K. defense businesses (-5%).

The increase in Segment Operating Margin from 9.9% to 14.2% was driven by the addition of the higher margin Pumps Defense business as well as price and productivity improvements across the legacy Aerospace & Defense businesses.

Industrial Segment

(in thousands, except percentages)	Nine Months Ended		
	September 30, 2018	October 1, 2017	Change
Net Revenues	366,929	87,054	\$279,875
Segment Operating Income	42,592	14,960	27,632
Segment Operating Margin	11.6	% 17.2	%

Industrial segment net revenue increased \$279.9 million to \$366.9 million for the nine months ended September 30, 2018 compared to the nine months ended October 1, 2017. The increase was primarily driven by the Pumps Businesses (+321%), and favorable foreign currency translation (+3%), partially offset by declines in our North American Valves business (-2%) . The Pumps Businesses saw a significant increase in orders in the general industrial and commercial marine sectors in Europe. Demand in North America was largely driven by the timing of certain Navy orders, bookings in Oil & Gas end markets, and strength in general industrial sectors. Industrial segment orders increased \$303.4 million, or 358%, for the nine months ended September 30, 2018 compared to the nine months ended October 1, 2017, mainly due to the FH acquisition.

Segment operating income increased \$27.6 million, or 185%, for the nine months ended September 30, 2018 compared to the nine months ended October 1, 2017, primarily driven by the Pumps Businesses (+186%) and favorable foreign currency translation (+2%), partially offset by operational declines in our Valves businesses (-4%).

The decrease in Segment Operating Margin from 17.2% to 11.6% was driven by the addition of the relatively lower margin of the acquired businesses.

Corporate Expenses

Corporate expenses increased \$6.33 million to \$22.3 million for the nine months ended September 30, 2018. The increase was primarily driven by higher variable compensation, professional fees and integration costs.

Special and Restructuring Charges (Recoveries), net

During the nine months ended September 30, 2018 and October 1, 2017, the Company recorded a net charge of \$17.2 million and a net recovery of \$0.4 million, respectively, within our condensed consolidated statements of (loss) income caption "Special and restructuring charges (recoveries), net". These special and restructuring charges (recoveries), net are described in further detail in Note 16 to the condensed consolidated financial statements.

Interest Expense, net

Interest expense increased \$33.4 million, to \$39.7 million in the nine months ended September 30, 2018. The change in interest expense was primarily due to higher outstanding debt balances as a result of our acquisition of FH during the fourth quarter of 2017.

Other (Income) Expense, net

Other income, net, was \$7.2 million for the nine months ended September 30, 2018 compared to other expense, net of \$2.0 million for the nine months ended October 1, 2017. The difference primarily relates to net pension income for the retirement plans we acquired as part of the FH acquisition. Effective January 1, 2018 all pension gains and losses are to be recorded in the Other (Income) Expense, net caption on our condensed consolidated statement of (loss) income. In addition, we had gains related to changes in foreign currency for the nine months ended September 30, 2018 whereas in the nine months ended October 1, 2017, we had losses.

Comprehensive (Loss) Income

Comprehensive income decreased from \$45.5 million for the nine months ended October 1, 2017 to a \$30.3 million loss for the nine months ended September 30, 2018. The decrease primarily relates to lower net income of \$35.7 million and unfavorable foreign currency fluctuations of \$43.5 million which were slightly offset by \$3.5 million in interest rate swap adjustments.

As of September 30, 2018, we have a cumulative currency translation adjustment of \$18.2 million regarding our Brazil entity. If we were to cease to have a controlling financial interest in the Brazil legal entity, we would incur a non-cash charge of \$18.2 million, which would be included as a special charge within the results of operations.

Benefit from Income Taxes

The table below outlines the change in effective tax rate for the nine months ended September 30, 2018 as compared to the nine months ended October 1, 2017 (in thousands, except percentages).

	Nine Months Ended			
	September 30,		October 1,	
	2018		2017	
(LOSS) INCOME BEFORE INCOME TAXES	\$(29,368)		\$17,302	
U.S. tax rate	21.0	%	35.0	%
State taxes	3.7	%	0.5	%
U.S. permanent differences	4.6	%	(0.9))%
Foreign Tax rate differential	(3.8))%	(3.4))%
Unbenefited foreign losses	(4.2))%	0.4	%
Intercompany financing	13.1	%	(1.1))%
Non-taxable Refinery Valves purchase consideration	—	%	(24.6))%
Other	3.0	%	(6.2))%
Effective tax rate	37.4	%	0.3	%
Benefit from income taxes	\$10,988		\$57	

Restructuring Actions

During 2018 and 2017, we initiated "the 2018 Actions" and "the 2017 Actions". Under these restructurings, we reduced costs, primarily through reductions in workforce and closing a number of smaller facilities. In the fourth quarter, the Company announced the closure and discontinuance of manufacturing operations at the Energy Group's Oklahoma City site ("OKC Closure"), as manufacturing will move primarily to Monterrey, Mexico.

The table below (in millions) outlines the cumulative effects on past and future earnings resulting from our announced restructuring plans.

	Cumulative		Expected Periods of Savings Realization
	Planned Savings	Projected Savings	
OKC Closure (Note 1)	\$ 1.0	\$ 1.0	Q4 2018 - Q4 2019
2018 Actions	8.2	8.2	Q2 2018 - Q3 2019
2017 Actions	6.9	6.9	Q2 2017 - Q4 2018
Total Savings	\$ 16.1	\$ 16.1	

Note 1 - Savings figures above represent only the structural savings as a result of the closure and exit of the manufacturing facility at the Energy Group's Oklahoma City site. As part of this action, we expect margin expansion within our Energy Group primarily due to the lower labor rates in Mexico as we deliver on the volume. The savings amounts above do not include the benefit from the anticipated margin expansion.

As shown in the table above, our projected cumulative restructuring savings are aligned with our cumulative planned savings amounts. The expected periods of realization of the restructuring savings are fairly consistent with our original plans. Our restructuring actions are funded by cash generated by operations.

We expect to incur restructuring related special charges between \$1.0 million and \$1.2 million to complete the 2018 Actions during the fourth quarter of 2018 and first quarter of 2019. We expect to incur net restructuring related charges between \$3.7 million and \$4.5 million to complete the OKC Closure starting in the fourth quarter of 2018 and ending by the first half of 2019. The OKC Closure net restructuring charge projection does not contemplate the potential benefit of selling the facility. The 2017 Actions were finalized during the fourth quarter of 2017.

Liquidity and Capital Resources

Our liquidity needs arise primarily from capital investment in machinery, equipment and the improvement of facilities, funding working capital requirements to support business growth initiatives, acquisitions, and debt service costs. We have historically generated cash from operations and remain in a strong financial position, with resources available for reinvestment in existing businesses, strategic acquisitions and managing our capital structure on a short and long-term basis.

The following table summarizes our cash flow activities for the nine month periods indicated (in thousands):

	September 30, 2018	October 1, 2017
Cash flow provided by (used in):		
Operating activities	\$23,463	\$2,008
Investing activities	(10,523)	(6,037)
Financing activities	(47,785)	15,039
Effect of exchange rate changes on cash, cash equivalents and restricted cash	(5,154)	6,338
(Decrease) / Increase in cash, cash equivalents and restricted cash	\$(39,999)	\$17,348

During the nine months ended September 30, 2018, we provided \$23.5 million of cash from operations compared to \$2.0 million during the same period in 2017. The \$21.5 million increase in cash provided by operating activities was primarily driven by higher cash related earnings of \$25.4 million, partially offset by cash outflows from working capital of \$4.0 million.

During the nine months ended September 30, 2018, we used cash of \$10.5 million in investing activities as compared to using cash of \$6.0 million in investing activities during the same period in 2017. The \$4.5 million year over year increase in cash usage was primarily driven by additions to property, plant and equipment (\$9.3 million) primarily related to upgrade projects in the FH businesses that were in process when we acquired them, partially offset by \$4.8 million higher net working capital adjustments for the FH acquisition during 2018 as compared to the Critical Flow Solutions acquisition during 2017.

During the nine months ended September 30, 2018, we used cash of \$47.8 million from financing activities as compared to \$15.0 million cash provided from financing activities during the same period in 2017. The \$62.8 million year over year decrease in cash generated from financing activities relates to \$61.2 million of cash returned to the seller of the FH business and a decrease of \$4.2 million of net borrowings under our revolving credit facility, partially offset by dividends paid of \$1.9 million and debt issuance costs of \$0.7 million in the prior year.

As of September 30, 2018, total debt (including current portion) was \$831.6 million compared to \$795.2 as of December 31, 2017. Total debt as a percentage of total shareholders' equity was 145% as of September 30, 2018 compared to 131% as of December 31, 2017. As of September 30, 2018, we had available capacity to borrow an additional \$61.9 million under our revolving credit facility.

We completed the acquisition of FH on December 11, 2017. The total consideration paid to acquire FH consisted of \$542.0 million in cash, 3,283,424 shares of our common stock (the "Shares") and the assumption of net pension and post-retirement liabilities of FH. We financed the cash consideration through a combination of committed debt financing and cash on hand. Refer to Note 5, "Business Acquisition," to the condensed consolidated financial statements for details. As a result of the transaction we incurred significant debt, including secured indebtedness, as described below. In the second quarter of 2018, Colfax sold all the Shares in an underwritten public offering in which the Company did not receive any proceeds.

We entered into a secured Credit Agreement, dated as of December 11, 2017 ("2017 Credit Agreement"), which provides for a \$150.0 million revolving line of credit with a five year maturity and a \$785.0 million term loan with a seven year maturity which was funded at closing of the FH acquisition in full. We entered into the 2017 Credit Agreement to fund acquisitions, such as the acquisition of FH, to support our operational growth initiatives and working capital needs, and for general corporate purposes. As of September 30, 2018, we had borrowings of \$831.6 million outstanding under the 2017 Credit Agreement and \$70.0 million outstanding under letters of credit.

The 2017 Credit Agreement contains covenants that require, among other items, maintenance of certain financial ratios and also limits our ability to: enter into secured and unsecured borrowing arrangements; issue dividends to shareholders; acquire and dispose of businesses; invest in capital equipment; transfer assets among domestic and international entities; participate in certain higher yielding long-term investment vehicles; and issue additional shares of our stock which limits our ability to borrow under the credit facility. The primary financial covenant is first lien net leverage, a ratio of total secured debt (less cash

and cash equivalents) to total adjusted earnings before interest expense, taxes, depreciation, and amortization based on the 12 months ended at the testing period. We were in compliance with all financial covenants related to our existing debt obligations at September 30, 2018 and we believe it is likely that we will continue to meet such covenants for at least the next twelve months from date of issuance of the financial statements.

Our ratio of current assets to current liabilities was 2.3:1 as of September 30, 2018, which reflected no change from December 31, 2017.

As of September 30, 2018, cash, cash equivalents, and short-term investments totaled \$71.3 million. These cash and cash equivalent balances are substantially all held in foreign bank accounts. This compares to \$110.4 million of cash, cash equivalents, and short-term investments as of December 31, 2017, substantially all of which was held in foreign bank accounts. The December 31, 2017 balance included \$64.5 million which was to be returned to Colfax. The cash and cash equivalents located at our foreign subsidiaries may not be repatriated to the U.S. or other jurisdictions without certain tax implications. On a provisional basis, the Company does not expect to owe the one-time transition tax liability, based on foreign tax pools that are in excess of U.S. tax rates. We believe that our U.S. based subsidiaries, in the aggregate, will generate positive operating cash flows and in addition we may utilize our 2017 Credit Agreement for U.S. based cash needs.

We expect to generate positive cash flow from operating activities sufficient to support our capital expenditures and service our debt. Based on our expected cash flows from operations and contractually available borrowings under our credit facility, we expect to have sufficient liquidity to fund working capital needs and future growth over at least the next twelve months from date of filing the quarterly financial statements. On February 28, 2018, we announced the suspension of our nominal dividend, as part of our capital deployment strategy.

There is currently significant uncertainty about the future relationship between the United States and China, including with respect to trade policies, treaties, government regulations and tariffs. The current U.S. administration has called for substantial changes to U.S. foreign trade policy including greater restrictions on international trade and significant increases in tariffs on good imported into the U.S. Under the current status, we expect that tariff increases will primarily impact Distributed Valves product lines. The annual impact of the tariff increase will result in higher costs of imported material, which we do not currently expect to be material.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that is material to investors.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

Business performance in the Oil & Gas refining sector is largely tied to refining margins, which are also driven by the market price of crude oil and gasoline demand. Seasonal factors such as hurricanes and peak gasoline demand in the summer months may also drive high crack spread margins. During periods when high crack spread margins exist, refineries prefer to operate continuously at full capacity. Refiners may decide to delay planned maintenance (commonly called “unit turnarounds”) during these periods to maximize their returns. Refining crack spread margins remained high for most of 2017, which resulted in delayed unit turnarounds, especially in the Gulf of Mexico region. As a result, the timing of major capital projects in our severe service Refinery Valves business were impacted. While planned maintenance and unit turnarounds are necessary for safe and efficient operation of the refineries, project

timing driven by these factors may continue to create fluctuations in our performance.

The commercial marine market experienced a historically unprecedented decade-long increase in new ship builds beginning in 2004 to meet the increase in global trade demand. This created an over-supply of capacity that resulted in a slowdown of new ship contracts between 2015 to 2017. The pumps that we supply to the commercial marine market are first supplied during commissioning of a new vessel, with aftermarket business over the lifetime of that vessel. While we have experienced increased aftermarket business during the past decade as the global shipping fleet has expanded, the downturn in new ship builds starting in 2015 has negatively impacted our new equipment commercial marine business. Any extended downturn in the commercial marine market could have a material adverse effect on our business.

Foreign Currency Exchange Risk

The Company is exposed to certain risks relating to its ongoing business operations including foreign currency exchange rate risk and interest rate risk.

Interest Rate Risk

Loans under our credit facility bear interest at variable rates which reset every 30 to 180 days depending on the rate and period selected by the Company.

Effective April 12, 2018, we entered into an interest rate swap pursuant to an International Swaps and Derivatives Association ("ISDA") Master Agreement with Citizens Bank, National Association ("interest rate swap"). The four-year swap has a fixed notional value of \$400.0 million with a 1% LIBOR floor and a maturity date of April 12, 2022. The fixed rate of interest paid by us is comprised of our current credit spread of 350 basis points plus 2.6475% for a total interest rate of 6.1475%. The ISDA Master Agreement, together with its related schedules, contain customary representations, warranties and covenants. This hedging agreement was entered into to mitigate the interest rate risk inherent in our variable rate debt and is not for speculative trading purposes. See Note 8 to the condensed consolidated financial statements for additional information on the interest rate swap we have executed.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") (our principal executive officer and principal financial officer, respectively), has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our CEO and CFO concluded that, as of September 30, 2018, the Company's disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For information regarding our legal proceedings refer to the first three paragraphs of Note 10 to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q, which disclosure is referenced herein.

ITEM 1A. RISK FACTORS

We have not identified any material changes from the risk factors as previously disclosed in Item 1A to Part I of our Annual Report on Form 10-K for the year ended December 31, 2017 with the exception of the additional risk factor set forth below:

If we incur higher costs as a result of trade policies, treaties, government regulations or tariffs, we may become less profitable.

There is currently significant uncertainty about the future relationship between the United States and China, including with respect to trade policies, treaties, government regulations and tariffs. The current U.S. administration has called for substantial changes to U.S. foreign trade policy including greater restrictions on international trade and significant increases in tariffs on goods imported into the U.S. Under the current status, we expect that tariff increases will primarily impact Distributed Valves product lines. We are unable to predict whether or when additional tariffs will be imposed or the impact of any such future tariff increases.

ITEM 6. EXHIBITS

Exhibit No.	Description and Location
<u>31.1*</u>	Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
<u>31.2*</u>	Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
<u>32**</u>	Certification of Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
101	The following financial statements (Unaudited) from CIRCOR International, Inc.'s Quarterly Report on Form 10-Q for the quarter ended September 30, 2018, as filed with the Securities and Exchange Commission on November 6, 2018, formatted in XBRL (eXtensible Business Reporting Language), as follows: <ul style="list-style-type: none"> (i) Condensed Consolidated Balance Sheets as of September 30, 2018 and December 31, 2017 (ii) Condensed Consolidated Statements of (Loss) Income for the Three and Nine Months Ended September 30, 2018 and October 1, 2017 (iii) Condensed Consolidated Statements of Comprehensive (Loss) Income for the Three and Nine Months Ended September 30, 2018 and October 1, 2017 (iv) Condensed Consolidated Statements of Cash Flows for the Nine Months Ended September 30, 2018 and October 1, 2017 (v) Notes to Condensed Consolidated Financial Statements
*	Filed with this report.
