Item 8.01 Other Events.

FDA 510(k) Marketing Clearance Letter

On April 14, 2009, BSD Medical Corporation (“BSD”) issued a press release announcing that it received a letter from the United States Food and Drug Administration granting BSD 510(k) clearance to market its MicroThermX-100 Microwave Ablation System. A copy of the press release is attached as Exhibit 99.1 and incorporated by reference herein.

Stock Purchase Agreement

Based on a prior agreement, the company executives and directors, Hyrum A. Mead and Paul F. Turner, have agreed, subject to the satisfaction of certain closing conditions, to exercise stock options and sell up to an aggregate of four hundred fifty thousand shares from among their vested stock options in an off-market transaction to institutional investors at this time. The sale is subject to certain closing conditions, including (1) the achievement of Food and Drug Administration marketing clearance for the company’s MicroThermX®-100, and (2) requirements relating to the trading volume and share price of BSD Medical’s common stock. More than half of the stock options anticipated for use in this off-market sale have been held for approximately nine years since granting, and are due to expire in between approximately eleven and sixteen months. Together Mr. Turner and Mr. Mead beneficially own approximately 2.9 million shares in the form of common stock and stock options. BSD Medical has traditionally used stock options as a primary means of recognizing its employees and executives for their contributions to the company.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

99.1 Press Release of BSD Medical Corporation dated April 14, 2009.
