NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars shown in thousands except per share amounts)

(Unaudited)

NOTE 1. GENERAL

The accompanying consolidated financial statements include the accounts of The Seibels Bruce Group, Inc. (the Company) and its wholly-owned subsidiaries and have been prepared, without audit, in conformity with accounting principles generally accepted in the United States (GAAP) pursuant to the rules and regulations of the Securities and Exchange Commission. All significant intercompany balances and transactions have been eliminated in consolidation and, in the opinion of management, all adjustments necessary for the fair presentation of the Company's unaudited interim financial position, results of operations and cash flows have been recorded. These financial statements should be read in conjunction with the financial statements and notes thereto contained in the Company's annual report on Form 10-K for the year ended December 31, 2002 filed with the Securities and Exchange Commission. The results of operations for the interim period are not necessarily indicative of the results for a full year. Certain prior year balances have been reclassified to conform with the current year presentation.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

On August 21, 2002, the South Carolina Department of Insurance (the SCDOI) issued an Order Imposing Administrative Supervision and Appointing Supervisor (the Order) that placed the Company's South Carolina domiciled insurance subsidiaries under administrative supervision as a result of disputes associated with the workers' compensation program of two of those insurance subsidiaries. The Order was lifted by the SCDOI on May 20, 2003.

NOTE 2. INVESTMENTS

On April 14, 2003, the Company announced a stock tender program allowing shareholders owning fewer than 100 shares of its stock to sell their shares to the Company for \$2.50 per share. Approximately 2,000 shareholders, representing approximately 57,000 shares are eligible for the stock tender program. Through June 30, 2003, approximately 8,000 shares have been tendered to the Company under this program.

NOTE 6. SEGMENT REPORTING

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Reportable segments are determined based on management's internal reporting approach, which is based on product line and complementary coverages. The reportable segments are comprised of Automobile, Flood, Commercial, Adjusting Services and All Other. While the majority of revenues and expenses are captured directly by each reportable segment, the Company does have shared income and expenses. Shared income comprised approximately 13% and 71% of all other income for the six months ended June 30, 2003 and 2002, respectively, and approximately 14% and 47% of all other income for the three months ended June 30, 2003 and 2002, respectively. The gain on the sale of the Company's investment in Insurance Services Offices, Inc. (ISO) accounted for 61% of shared all other income for the six months ended June 30, 2002. Shared expenses comprised approximately 1% of all other expenses for the six months ended June 30, 2003 and 2002, and approximately 1%, and 5% of all other expenses for the three months ended June 30, 2003 and 2002, respectively. These shared amounts were allocated on a basis proportionate with each reportable segment's total net loss and LAE and unearned premium reserves. The results of the reportable segments are included in the following tables:

PART I. - FINANCIAL INFORMATION

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS.**

(Dollars shown in thousands except per share amounts)

FORWARD LOOKING STATEMENTS

Some of the statements discussed or incorporated by reference in this quarterly report on Form 10-Q are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding management's current knowledge, expectations, estimates, beliefs and assumptions. All forward-looking statements included in this document or incorporated by reference are based on information available to the Company on the date hereof, and the Company assumes no obligation to update any such forward-looking statements. Results may differ materially because of both known and unknown risks and uncertainties which the Company faces. Factors which could cause results to differ materially from our forward-looking statements include, but are not limited to:

the possibility that the Company will be unable to meet its cash flow requirements; the Company has previously incurred net operating losses and/or negative cash flows from operations and the Company may experience these trends in the future;

the costs of defending pending litigation and administrative proceedings and the risk of material adverse outcomes of pending and potential litigation and administrative proceedings involving the Company;

the impact of exiting the National Flood Insurance Program;

the ability to satisfy dividend obligations related to the Company's Adjustable Rate Cumulative Nonvoting Preferred Special Stock;

the ability to secure additional sources of revenue;

the ability to secure and maintain long-term relationships with customers and agents;

the effects of economic conditions and conditions which affect the market for property and casualty insurance, including, but not limited to, interest rate fluctuations and flood zone determination services;

the effects and impact of laws, rules and regulations which apply to insurance companies;

the effects if estimated reserves for losses and LAE established by the Company are deficient, including reserves associated with the Company's runoff lines of business;

geographic concentrations of loss exposure, causing revenues and profitability to be subject to prevailing regulatory, demographic and other conditions in the areas in which the Company operates;

the availability of reinsurance and the ability of the Company's reinsurance arrangements to balance the geographical concentrations of the Company's risks;

the impact of competition from new and existing competitors, many of which have superior financial and marketing resources than the Company;

the continuing impact of the decisions to exit the Nashville, Tennessee and South Carolina nonstandard automobile operations;

the risk that current initiatives may not be successful;

restrictions on the Company's ability to declare and pay dividends;

the fact that the Company has experienced, and can be expected in the future to experience, storm and weather-related losses, which may result in a material adverse effect on the Company's results of operations, financial condition and cash flows;

the uncertainty associated with estimating loss reserves, and the adequacy of such reserves, capital resources and other financial items;

the risk of loss of one or more key servicing contracts and the related risk that the contracts could not be replaced;

control of the Company by a principal shareholder that has the ability to exert significant influence over the policies and affairs of the Company;

risks the Company faces in diversifying the services it offers and entering new markets, including risks associated with the Company's development and deployment of new management information systems to develop and deploy new strategies; and

other risk factors listed from time to time in the Company's Securities and Exchange Commission filings.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Accordingly, there can be no assurance that the actual results will conform to the forward-looking statements discussed or incorporated by reference in this quarterly report on Form 10-Q.

The unaudited consolidated financial statements and notes thereto should be read in conjunction with the following discussion as they contain important information for evaluation of the Company's financial condition and operating results.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's financial statements are prepared in accordance with GAAP. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management bases its estimates and assumptions on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. In its Form 10-K for the year ended December 31, 2002, management identified a number of accounting policies as critical in understanding and evaluating the Company's reported financial results.

OVERVIEW

The Company conducts its business in two primary categories, fee-based property and casualty insurance operations and risk-bearing property and casualty insurance operations, and reports its operations through five distinct business segments. Following is a summary of the Company's reporting segments with indications of whether the included lines of business are risk-bearing or fee-based operations, whether the included lines of business are ongoing operations or in runoff, and the included lines of business' total revenues for the three and six months ended June 30, 2003 and 2002:

The Company's net income (loss) by business segment for the three and six months ended June 30, 2003 and 2002 is as follows:

RESULTS OF OPERATIONS

Six months ended June 30, 2003 and 2002

Commission and Service Income

Total commission and service income decreased \$8,553, or 50.5%, for the six months ended June 30, 2003 as compared to the same period of 2002. The automobile segment accounted for \$982 of the overall net decrease, primarily as a result of the continuing runoff of the South Carolina Reinsurance Facility (SC Facility) and the South Carolina Associated Auto Insurers Plan (SCAAIP). Commission and service income earned through the SC Facility and the SCAAIP amounted to only \$193 for the six months ended June 30, 2003 as compared to \$796 for the same period of 2002. The North Carolina nonstandard automobile line of business (NC Auto) accounted for the remaining \$379 decrease in commission and service income of the automobile segment as a result of a decrease in premiums written and ceded to the North Carolina Reinsurance Facility (NC Facility). Premiums written and ceded to the NC Facility for the six months ended June 30, 2003 amounted to \$10,310 as compared to \$11,365 for the same period of 2002. The Company believes that the decrease is largely attributable to increased competition and suspension of coverage requests received from members of the United States armed forces stationed in North Carolina as they deployed for military operations in the Middle East.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The flood segment reported a decrease in commission and service income of \$7,152 for the six months ended June 30, 2003 as compared to the same period of 2002. Effective November 15, 2002, The Hartford Financial Services Group, Inc. (The Hartford) acquired the right to renew or assume all of the Company's in-force flood business written through the National Flood Insurance Program (NFIP). The underlying sales agreement, as approved by the Federal Emergency Management Administration, provided for The Hartford to administer and report the Company's business to the NFIP over the transition period that ends September 30, 2003. As a result of this transaction, premiums written through the NFIP and the related commission and service income decreased \$22,888 and \$7,282, respectively, for the six months ended June 30, 2003 as compared to the same period of 2002. Furthermore, in June 2003 and March 2002 the Company received marketing bonuses from the NFIP of \$699 and \$615, respectively, as a result of previous premium growth and retention of its NFIP book of business. The Company will not receive any marketing bonuses or other material commission and service income from the NFIP in the future. Therefore, the only continuing source of commission and service income for the flood segment is the Company's subsidiary, AFS, which offers flood zone determinations and flood zone mapping services to customers located throughout the United States.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The adjusting services segment reported a decrease in commission and service income of \$422 for the six months ended June 30, 2003 as compared to the same period of 2002. In the fourth quarter of 2002, the Company undertook a profitability and viability analysis of each of INS service lines. As a result, INS has discontinued certain of its service lines and eliminated the related expenses. INS continuing operations are now substantially comprised of performance under its Claims Administration Services Agreement with QualSure Insurance Corporation.

Premiums Earned

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Net premiums earned increased \$608, or 8.6%, for the six months ended June 30, 2003 as compared to the same period of 2002. The automobile segment accounted for \$943 of the overall net increase, mostly as a result of increases reported by NC Auto. From December 31, 1999 until July 1, 2002, the retained-risk NC Auto business was subject to a 75% quota share reinsurance agreement. Effective July 1, 2002, the 75% quota share reinsurance agreement was replaced with a 60% quota share reinsurance agreement. Retaining more premium under the new quota share reinsurance agreement had a \$1,113 favorable impact on premiums earned for the six months ended June 30, 2003

as compared to the same period of 2002, net of the impact of a reduction in direct written premiums between reporting periods as a result of increased competition and suspension of coverage requests related to the retained-risk NC Auto business. Partially offsetting this increase in premiums earned was a \$107 decrease related to the nonowners automobile program as a result of the SCDOI's Order placing the Company's South Carolina domiciled insurance subsidiaries under administrative supervision. The Order was lifted on May 20, 2003. The remaining \$63 decrease in premiums earned by the automobile segment came from business the Company is required to assume from the SC Facility (\$56) and from the final premium runoff of the Company's Nashville and South Carolina nonstandard automobile operations (\$7).

Partially offsetting the net increase in premiums earned reported by the automobile segment was the \$341 decrease reported by the commercial segment due to decreased business volumes resulting from the Order issued by the SCDOI. The Order was effective in August 2002, at which time the Company was prohibited from writing new or renewal commercial lines business. Beginning in September 2002 and continuing to the present, the Company has gradually restored the pre-Order writing authority of its commercial lines operations. The authority to write new commercial lines business in the states of North Carolina and Tennessee is the only aspect left to completely restore the Company's pre-Order writing authority.

Net Investment Income

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Net investment income decreased \$183, or 16.2%, for the six months ended June 30, 2003 as compared to the same period of 2002, as a result of the decrease in the general level of market interest rates between reporting periods. For the six months ended June 30, 2003, the Company's investment portfolio yielded an average return of 4.23%, a deterioration from the 5.58% averaged for the same period of 2002. Partially offsetting the impact of the lower average return was the increase in net investment income generated from a larger portfolio of income producing investments. Total debt securities and cash and short-term investments increased \$335 between December 31, 2002 and June 30, 2003.

Net Realized Gain

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Realized gains for the six months ended June 30, 2003 amounted to \$98 and primarily resulted from the sale of debt securities that were due to mature in August 2003. The realized gain of \$2,466 for the same period of 2002 is substantially the result of the sale of the Company's previously nonmarketable investment in equity securities of ISO back to ISO (\$2,117) and the gain on the settlement of one of the key man life insurance policies maintained on certain of its former directors or officers (\$294).

Gain on Sale of NFIP Renewal Rights

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

As discussed above, in November 2002, the Company sold the renewal rights to its NFIP business to The Hartford for \$3,800. Provisions of the underlying sales agreement provide that The Hartford administer and report the Company's business to the NFIP over the transition period that ends September 30, 2003. As a result of the Company's continuing involvement with the book of business during the transition period, the gain on the transaction of \$3,499 (purchase price of \$3,800 less expenses of sale of \$301) was deferred and is being recognized as income evenly over the transition period.

Equity in Earnings (Loss) of Unconsolidated Affiliates

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The Company's equity in earnings of its unconsolidated affiliate was \$184 for the six months ended June 30, 2003 and relates to its investment in Sunshine State Holding Corporation. For the same period of 2002, the Company's equity in the loss of its unconsolidated affiliates was \$3 and relates to its investments in Sunshine State Holding Corporation and QualSure Holding Corporation. Effective October 3, 2002, the Company's total ownership interest in QualSure Holding Corporation was redeemed by QualSure Holding Corporation.

Other Income

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Other income decreased \$201, or 18.9%, for the six months ended June 30, 2003 as compared to the same period of 2002. The decrease is substantially attributable to the aforementioned discontinuation of INS service lines. Other income related to the discontinued service lines decreased \$215 for the six months ended June 30, 2003 as compared to the same period of 2002.

Losses and Loss Adjustment Expenses

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The following table sets forth the Company's reserves for unpaid losses and LAE as of June 30, 2003 and December 31, 2002, as well as a summary of the losses and LAE incurred for the six months ended June 30, 2003 and 2002, by segment:

The reserves for unpaid losses and LAE are determined using case-basis evaluations and statistical projections based on facts and circumstances currently known. An increase in average severity of claims may be caused by a number of factors that vary with the individual type of policy written. Future average severity is projected based on historical trends as adjusted for changes in underwriting standards, policy provisions, and general economic trends. These anticipated trends are monitored based on actual developments and are modified as necessary. The liabilities determined under these procedures are reduced by estimated amounts recoverable from the Company's reinsurers and an estimated amount to be received through salvage and subrogation. Management believes the Company's reserves are adequate. However, establishing reserves is an estimation process and the ultimate liability should be expected to be in excess of or less than the amount recorded. Any such changes in the estimated loss reserves are recorded in the year so determined. For example, for the six months ended June 30, 2003 and 2002, the Company incurred \$952 and \$296, respectively, related to development of losses incurred prior to January 1, 2003 and 2002, respectively. The Company's consulting actuary renders an opinion on the adequacy of its recorded reserves for unpaid losses and LAE as of December 31 of each year. As of December 31, 2002, the Company's recorded reserves for unpaid losses and LAE were within 1.4% of the consulting actuary's best estimate.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Total losses and LAE increased \$703, or 16.8%, for the six months ended June 30, 2003 as compared to the same period of 2002. The automobile segment accounted for \$641 of the overall net increase, reporting a net loss and LAE ratio of 62.1% for the six months ended June 30, 2003, as compared to 59.9% for the same period of 2002. The deterioration was primarily attributable to the Company's continuing NC Auto operations and was the result of severe weather experienced throughout the month of May 2003. The impact of the severe weather on the operation's net loss and LAE ratio was compounded by the aforementioned change in its quota share reinsurance agreement. This increase in NC Auto's losses and LAE was largely offset by favorable development in the settlement of prior accident year reserves for LAE resulting from the implementation of a direct repair program and shifting from the use of staff appraisers to independents.

For the six months ended June 30, 2003, the Company continued to experience development in its runoff environmental and general liability business originally written in the 1980's and early 1990's (reported through the all other segment). Specifically, the trend of new claims features associated with this business alleging that the Company was liable for damages continued in January and February 2003. The Company continues to be successful in defending these allegations; however, the LAE incurred in connection with defending the Company resulted in substantial adverse development during the reporting period and is the single largest contributor to the total adverse development of \$804 reported by the all other segment. Following is a summary of activity related to the Company's environmental, pollution and toxic tort claims for the six months ended June 30, 2003 and the year ending December 31, 2002:

	2003	2002
Pending, beginning of period	30	38
New claims advised for the period	9	7
Claims settled during the period	(1)	(15)
Pending, end of period	38	30

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The claims involve four Superfund sites, eleven asbestos or toxic claims, eight underground storage tanks and fifteen industrial waste clean-up sites at June 30, 2003.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Partially offsetting the increases in losses and LAE of the automobile and all other segments was the \$476 decrease in losses and LAE reported by the commercial segment, resulting in a net loss and LAE ratio of 46.4% for the six months ended June 30, 2003 as compared to 53.3% for the same period of 2002. The decrease resulted primarily from the combined effect of two factors. First, the

Company experienced a significant reduction in commercial lines business volume as a result of the aforementioned Order by the SCDOI. Second, was a decrease between reporting periods in the severity of claims related to prior accident years, resulting in development of prior year reserves totaling \$415 for the six months ended June 30, 2003. Of this total development of prior year reserves, a single claim accounted for approximately \$350.

Policy Acquisition Costs

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Policy acquisition costs decreased \$6,348, or 55.6%, for the six months ended June 30, 2003 as compared to the same period of 2002. Fluctuations in policy acquisition costs are directly correlated to fluctuations in, and the relative mix of, segmental direct written premium. Policy acquisition costs as a percentage of direct written premium was consistent between reporting periods, amounting to 22.4% and 22.1% for the six months ended June 30, 2003 and 2002, respectively.

Other Operating Costs and Expenses

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Other operating costs and expenses decreased \$1,392, or 14.7% for the six months ended June 30, 2003 as compared to the same period of 2002. In addition to the wide array of general expense reductions that would normally be associated with a decreasing revenue base there were certain other noteworthy fluctuations:

The Company experienced reductions in force between the six months ended June 30, 2003 and the six months ended June 30, 2002 that led to consolidated salary and benefit expense savings of \$832.

The adjusting services segment experienced significant reductions in revenue for the six months ended June 30, 2003 as compared to the same period of 2002 (see Other Income). Associated with this decrease in revenues are corresponding reductions in a variety of other operating costs and expenses. Most notably, claims adjusting expenses incurred decreased \$104 between periods.

In September 2001, the Compensation Committee of the Company's Board of Directors recommended, and the Board of Directors approved, the adoption of an incentive compensation program covering certain members of management. The program was terminated by the Company's Board of Directors on October 31, 2002. Expenses accrued under the program for the six months ended June 30, 2002 were \$526.

On March 28, 2002, the Company repaid all amounts outstanding on its credit facility. As a result, interest expense decreased \$154 for the six months ended June 30, 2003 as compared to the same period of 2002.

Other than various lawsuits generally arising in the normal course of their insurance and ancillary businesses, the Company or its subsidiaries were party to two significant lawsuits during the six months ended June 30, 2003 and 2002. This litigation was fully disclosed in the Company's December 31, 2002 Form 10-K. During the six months ended June 30, 2003 as compared to the same period of 2002, there was a significant decrease in activity related to each case. As a result, the Company incurred \$98 less in legal and other professional fees between the reporting periods.

The Company experienced a \$96 increase in the cost of its corporate insurance package (primarily directors and officers and errors and omissions coverage) for the six months ended June 30, 2003 as compared to the same period of 2002.

Three months ended June 30, 2003 and 2002

Commission and Service Income

Total commission and service income decreased \$4,139, or 49.2%, for the three months ended June 30, 2003 as compared to the same period of 2002. The automobile segment accounted for \$274 of the overall net decrease, primarily as a result of the aforementioned decrease in premiums written and ceded to the NC Facility by NC Auto. Premiums written and ceded to the NC Facility for the three months ended June 30, 2003 amounted to \$4,636 as compared to \$5,345 for the same period of 2002, resulting in a reduction of commission and service income of \$234.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The flood segment reported a decrease in commission and service income of \$3,310 for the three months ended June 30, 2003 as compared to the same period of 2002, primarily as a result of the Company's November 15, 2002 transaction with The Hartford. As a result of this transaction, premiums written through the NFIP and the related commission and service income decreased \$12,833 and \$4,200, respectively, for the three months ended June 30, 2003 as compared to the same period of 2002. Partially offsetting the decreased commission and service income was the \$699 marketing bonus received from the NFIP in June 2003. The Company will not receive any marketing bonuses or other material commission and service income from the NFIP in the future. The remaining \$191 increase in commission and service income reported by the flood segment is attributable to the operations of AFS and is believed to be attributable to increased mortgage lending activity as a result of lower mortgage interest rate levels between reporting periods.

The adjusting services segment reported a decrease in commission and service income of \$374 for the three months ended June 30, 2003 as compared to the same period of 2002 as a result of the discontinuation of certain of its service lines previously discussed.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Another \$168 decrease in commission and service income was reported by the Company's commercial segment. In August 2002, the SCDOI issued the Order requiring the Company's South Carolina domiciled insurance subsidiaries to cease all new and renewal insurance writings. In December 2002, the Company received approval from the North Carolina Department of Insurance for its North Carolina domiciled subsidiary, Universal Insurance Company (UIC), to renew existing commercial lines business in the state of North Carolina. UIC, however, has not received approval to write new NC Facility commercial lines business. As a result of these events, the Company began experiencing marked declines in commercial lines premiums written and ceded to the NC Facility in the second quarter of 2003.

Premiums Earned

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Net premiums earned increased \$192, or 5.4%, for the three months ended June 30, 2003 as compared to the same period of 2002. The automobile segment accounted for \$463 of the overall net increase, mostly as a result of increases reported by NC Auto attributable to the July 1, 2002 change in its quota share reinsurance retention from 25% to 40%. Retaining more premium under the new quota share reinsurance agreement had a \$516 favorable impact on premiums earned for the three months ended June 30, 2003 as compared to the same period of 2002. Partially offsetting this increase in premiums earned was a \$50 decrease related to the nonowners automobile program due to decreased business volumes resulting from the Order issued by the SCDOI.

Partially offsetting the net increase in premiums earned reported by the automobile segment was the \$276 decrease reported by the commercial segment due to decreased business volumes resulting from the Order issued by the SCDOI.

Net Investment Income

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Net investment income decreased \$88, or 15.7%, for the three months ended June 30, 2003 as compared to the same period of 2002, as a result of the decrease in the general level of market interest rates between reporting periods. For the three months ended June 30, 2003, the Company's investment portfolio yielded an average return of 4.22%, a deterioration from the 5.66% averaged for the same period of 2002.

Net Realized Gain

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Realized gains for the three months ended June 30, 2003 amounted to \$95 and primarily resulted from the sale of debt securities that were due to mature in August 2003. The realized gain of \$330 for the same period of 2002 is substantially the result of the \$294 gain on the settlement of one of the key man life insurance policies maintained on certain of the Company's former directors or officers.

Gain on Sale of NFIP Renewal Rights

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

As a result of the Company's continuing involvement with the book of business during the transition period, the gain on the Company's transaction with The Hartford was deferred and is being recognized as income evenly over the transition period that ends September 30, 2003.

Equity in Earnings (Loss) of Unconsolidated Affiliates

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The Company's equity in earnings of its unconsolidated affiliate was \$125 for the three months ended June 30, 2003 and relates to its investment in Sunshine State Holding Corporation. For the same period of 2002, the Company's equity in earnings of its unconsolidated affiliates was \$14 and relates to its investments in Sunshine State Holding Corporation and QualSure Holding Corporation.

Other Income

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Other income decreased \$90, or 18.0%, for the three months ended June 30, 2003 as compared to the same period of 2002. The decrease is substantially attributable to the aforementioned discontinuation of INS service lines. Other income related to the discontinued service lines decreased \$100 for the three months ended June 30, 2003 as compared to the same period of 2002.

Losses and Loss Adjustment Expenses

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The following table summarizes the Company's losses and LAE incurred for the three months ended June 30, 2003 and 2002, by segment:

	Current Accident Year	Prior Accident Years	Total	Current Accident Year	Prior Accident Years	Total

Automobile	\$	1,232	\$	(62)	\$	1,170	\$	891	\$	(170)	\$	721

Total	\$	2,283	\$	533	\$	2,816	\$	2,024	\$	186	\$	2,210
-------	----	-------	----	-----	----	-------	----	-------	----	-----	----	-------

Total losses and LAE increased \$606, or 27.4%, for the three months ended June 30, 2003 as compared to the same period of 2002. The automobile segment accounted for \$449 of the overall net increase, reporting a net loss and LAE ratio of 72.4% for the three months ended June 30, 2003, as compared to 62.5% for the same period of 2002. The deterioration was primarily attributable to the Company's continuing NC Auto operations and was the result of severe weather experienced throughout the month of May 2003. The impact of the severe weather on the operation's net loss and LAE ratio was compounded by the aforementioned change in its quota share reinsurance agreement. This increase in NC Auto's losses and LAE was partially offset by favorable development in the settlement of prior accident year reserves for LAE resulting from the implementation of a direct repair program and shifting from the use of staff appraisers to independents.

The commercial segment accounted for \$17 of the overall net increase, reporting a net loss and LAE ratio of 59.6% for the three months ended June 30, 2003, as compared to 52.1% for the same period of 2002. The deterioration in the loss and LAE ratio between periods was the result of an increase in the severity of claims related to prior accident years, leading to reported unfavorable development of prior year reserves of \$248 for the three months ended June 30, 2003. Of this total development of prior year reserves, a single claim accounted for approximately \$350.

The remaining increase in losses and LAE of \$140 came from the all other segment and is the result of continued adverse development in the Company's runoff environmental and general liability business originally written in the 1980's and early 1990's.

Policy Acquisition Costs

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Policy acquisition costs decreased \$3,371, or 58.9%, for the three months ended June 30, 2003 as compared to the same period of 2002. Fluctuations in policy acquisition costs are directly correlated to fluctuations in, and the relative mix of, segmental direct written premium. Policy acquisition costs as a percentage of direct written premium was 21.5% and 22.8% for the three months ended June 30, 2003 and 2002, respectively. The lower percentage of acquisition costs is primarily attributable to the decreasing premium volume of the Company's flood operations between reporting periods, as it pays much higher agent commissions than the continuing automobile and commercial segments.

Other Operating Costs and Expenses

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Other operating costs and expenses decreased \$148, or 3.3% for the three months ended June 30, 2003 as compared to the same period of 2002, substantially as a result of reduced salary and benefits expenses. The September 2001 incentive compensation program covering certain members of management was terminated by the Company's Board of Directors on October 31, 2002. Expenses accrued under the program for the three months ended June 30, 2002 were \$73. A further reduction in salary and benefits expenses of \$63 for the three months ended June 30, 2003 as compared to the same period of 2002 was the result of previously discussed reductions in force.

COMMITMENTS AND CONTINGENCIES AND OFF-BALANCE SHEET ARRANGEMENTS

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

On March 28, 2003, the HDC Group filed i) a Motion to Set and Certificate of Readiness pursuant to which the HDC Group moved that the action be set for trial and ii) an Initial Rule 26.1 Disclosure Statement disclosing its legal theories and claims, which include breach of contract, breach of the duty of good faith and fair dealing, tortious interference with contract/business relations and slander, seeking actual and punitive damages. The Company has filed an answer to the amended complaint and has presented numerous counterclaims. A hearing for various items has been set for September 12, 2003. The ultimate outcome of this litigation cannot be reasonably determined at this time.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

Estimated reserves for losses and LAE for claims arising under the HDC Program have been established by the Company net of the

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

deductible that HDC is required to pay under order of the Court. The Company has a potential off-balance sheet credit risk associated with such deductibles if the Company were required to fund the deductibles in the event that HDC cannot pay the deductible.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The Court has ordered HDC to retain an independent actuary to estimate the HDC program unpaid losses and LAE, subject to the deductible, and has ordered HDC to deposit funds in an equivalent amount in accounts collateralizing HDC's liabilities under the deductible program. The actuary retained by HDC has issued a report estimating HDC's remaining liability for such deductibles to be \$4,300. HDC has deposited funds totaling \$4,300 into a Court-restricted commercial checking account (\$3,000 on January 29, 2003 and \$1,300 on February 21, 2003). At June 30, 2003, approximately \$2,900 of the original \$4,300 remained on deposit as a result of claims payments under the program. Pursuant to court order, the Company has retained an actuary to review the work of the actuary retained by HDC. The actuary retained by the Company has raised questions regarding aspects of the methodology used by the actuary retained by HDC. The Company is yet to receive a response to those questions. The Company, in consultation with its consulting actuary, has estimated that HDC's ultimate remaining liability for such deductibles as of June 30, 2003 may be as much as \$5,500 higher than the \$2,900 remaining in the Court-restricted commercial checking account. The Company has filed a Motion to Show Cause in an effort to compel HDC to increase the funds available in the commercial checking account. Depositions of each parties' actuary occurred on August 5 and 6, 2003 and a hearing on this motion is scheduled for September 12, 2003.

LIQUIDITY AND CAPITAL RESOURCES

The Company is a legal entity separate and distinct from its subsidiaries. As a holding company, the primary sources of cash needed to meet its obligations are dividends and other permitted payments, including management fees, from its subsidiaries and affiliates. The Company's insurance subsidiaries are regulated as to their payment of dividends by their respective state of domicile's insurance laws.

Liquidity relates to the Company's ability to produce sufficient cash to fulfill its cash obligations. In developing its investment strategy, the Company determines a level of cash and short-term investments which, when combined with expected cash flow, is expected to be adequate to meet expected cash obligations.

The Company's principal sources of liquidity during 2003 include the collection of commission and service fees, including substantial amounts received from the NC Facility and QualSure Insurance Corporation; premium collections on insurance policies issued; collections of balances due from its reinsurers; and the collection of net investment income and proceeds received from the sale or maturity of investments. In addition to payments for its routine and recurring operating expenses, the Company's principal cash obligations include the payment of liabilities to its policyholders for unpaid losses, LAE and unearned premiums, the payment of dividends on its Adjustable Rate Cumulative Nonvoting Preferred Special Stock, and the future lease payments under its various operating leases.

The Company's cash outflows can vary greatly because of the uncertainties regarding settlement dates for liabilities for unpaid losses and LAE and because of the potential for large losses. Accordingly, the Company maintains investment and reinsurance programs generally intended to avoid the forced sale of investments to meet claims obligations (see Item 3. Quantitative and Qualitative Disclosures About Market Risk).

While the Company's total debt securities and cash and short-term investments remained consistent between December 31, 2002 and June 30, 2003, the relative mix of these components changed dramatically primarily as a result of releasing cash and short-term investments for longer term investing. This trend began during the first quarter of 2003 with the Company increasing its bond portfolio by \$1,863. However, the majority of the investing for the six months ended June 30, 2003 (\$4,219) occurred during the three months ended June 30, 2003 and correlated with the replacement of \$3,600 in securities maturing in August 2003 that are held on deposit by various regulatory authorities. Because the regulatory authorities require receipt of replacement securities prior to the maturity of existing securities held on deposit, the Company experienced an increase in securities held on deposit of \$4,076 between December 31, 2002 and June 30, 2003. Furthermore, as a result of the significant long term investing activities that occurred during the six months ended June 30, 2003, the average maturity of the Company's bond portfolio increased from 2.14 years at December 31, 2002 to 2.70 years at June 30, 2003.

Between December 31, 2002 and June 30, 2003, the Company reported a substantial decrease in its direct unearned premium reserves and its prepaid reinsurance premiums of \$15,304 and \$15,537, respectively. These offsetting decreases are substantially attributable to the reduction in premiums written and ceded to the NFIP that resulted from the sale of the Company's renewal rights to that business to The Hartford effective November 15, 2002.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A substantial portion of the Company's cash and investments is comprised of investments in market-rate sensitive debt securities. The

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

amortized costs and estimated fair values of these market-rate sensitive investments as of June 30, 2003 and December 31, 2002 are included in Note 2 of the unaudited Notes to Consolidated Financial Statements. The market values of these investments can fluctuate greatly according to changes in the general level of market interest rates. For example, a one percentage point increase (decrease) in the general level of market interest rates would (decrease) increase the total estimated fair value of the Company's debt securities by approximately \$(1,128) and \$982, respectively, as of June 30, 2003. In its investment strategy, the Company attempts to match the average duration of its investment portfolio with the approximate duration of its liabilities. All debt securities are considered available for sale and are carried at fair value as of June 30, 2003 and December 31, 2002. The weighted-average maturity of the fixed income investments as of June 30, 2003 and December 31, 2002 was approximately 2.70 and 2.14 years, respectively.

Edgar Filing: SEIBELS BRUCE GROUP INC - Form 10-Q

The Company pays dividends on its Adjustable Rate Cumulative Nonvoting Preferred Special Stock at a rate of 3.5% plus LIBOR (amounting to 4.6% at June 30, 2003 and 4.9% at December 31, 2002).

ITEM 4. CONTROLS AND PROCEDURES.

(a) Based on their evaluation of the issuer's disclosure controls and procedures (as defined in 17 C.F.R. Sections 240.13a-14(c) and 240.15d-14(c)) as of a date within 90 days prior to the filing of this quarterly report, the issuer's chief executive officer and treasurer and controller (principal financial officer) concluded that the effectiveness of such controls and procedures was adequate.

(b) There were no significant changes in the issuer's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II. - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

(a) On March 28, 2003, the HDC Group filed i) a Motion to Set and Certificate of Readiness pursuant to which the HDC Group moved that the action be set for trial and ii) an Initial Rule 26.1 Disclosure Statement disclosing its legal theories and claims, which include breach of contract, breach of the duty of good faith and fair dealing, tortious interference with contract/business relations and slander, seeking actual and punitive damages. The Company has filed an answer to the amended complaint and has presented numerous counterclaims. A hearing for various items has been set for September 12, 2003. The ultimate outcome of this litigation cannot be reasonably determined at this time.

(b) In February 2002, litigation was initiated in the District Court of Shelby County, Texas, in a lawsuit styled Mary Masterson, individually and on behalf of all others similarly situated, vs. America's Flood Services, Inc., et al. The litigation involves both the Company and its wholly-owned subsidiary, AFS. The pleadings allege that a putative class of persons in Texas received facsimile advertisements in violation of the federal Telephone Consumer Protection Act (TCPA). The plaintiff and the putative class sought statutory minimum damages of five hundred dollars per fax, plus additional damages of up to one thousand five hundred dollars per fax for allegedly knowingly violating the TCPA. AFS filed a third-party claim against DeBroux Marketing Co. (DeBroux) for fraud and indemnity stemming from DeBroux's transmission of the faxes at issue. The parties have agreed to a settlement pending the court's final approval. The named plaintiff has filed an unopposed preliminary application for approval of the settlement and a settlement class, which was approved by the court in June 2003. The final fairness hearing is scheduled for September 12, 2003. The Company does not believe final resolution of the litigation will have a material impact on its financial statements.

(c) The Company and its subsidiaries are parties to various other lawsuits generally arising in the normal course of their insurance and ancillary businesses. The Company does not believe that the eventual outcome of such suits will have a material effect on the financial condition or results of operations of the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

(a) The Annual Meeting of Shareholders (the Meeting) of the Company, was held on May 7, 2003. As of March 10, 2003, and for purposes of the Meeting, there were 7,831,655 shares of common stock of the Company, par value \$1.00 per share (the Common Stock), issued and outstanding. At the Meeting, there were 7,512,038 shares (95.9% of the outstanding shares entitled to vote) represented in person or by proxy.

(c) The Meeting was called for the following purpose and with the following results:

To elect three (3) directors, Frank H. Avent, Charles H. Powers and George R.P. Walker, Jr., to hold office until the 2006 Annual Meeting of Shareholders or until his successor shall be elected and shall qualify. All three Directors were elected with at least 7,193,544 votes (95.64% of the votes cast).

Nominee	Votes Cast For	Votes Withheld	Votes Abstained	Broker Nonvotes
Frank H. Avent	7,198,570	322,573	None	None
Charles H. Powers	7,193,544	327,599	None	None
George R.P. Walker, Jr.	7,203,386	317,757	None	None
