Item 2.01

Completion of Acquisition or Disposition of Assets.

On January 30, 2007, Idaho General Mines, Inc. (the "Company") completed its previously announced acquisition of all of the issued and outstanding shares of Equatorial Mining North America, Inc., a Delaware corporation ("Equatorial"), from Equatorial Mining Limited (ACN 009 199 482) ("Equatorial Mining Limited"). Equatorial holds a 12 percent net smelter royalty interest in the mineral rights of the Company's Hall-Tonopah molybdenum-copper property in Nye County, Nevada. The Company now owns a 100% interest in the two known copper and molybdenum deposits at Hall-Tonopah. This includes the copper-molybdenum open pit mine partially mined by Equatorial Mining Limited in the early 2000's and the adjacent primary molybdenum open pit deposit last mined in 1991 by Cyprus Minerals Corporation. The Company now owns the Hall-Tonopah property and all associated mineral rights without future royalty obligations.

As set forth in the Purchase Agreement, the Company paid to Equatorial Mining Limited approximately \$4.8 million in cash at closing. At first commercial production of the property, the Company has agreed to pay an additional \$6.0 million. By purchasing Equatorial, the Company also assumed an approximate \$460,000 cash reclamation bond which will continue to be held by the Nevada Department of Environmental Protection and the Bureau of Land Management and acquired cash of approximately \$1.3 million.

The Company issued a press release announcing the completion of the acquisition on February 1, 2007. The full text of the press release, a copy of which is attached hereto as Exhibit 99.1, is incorporated herein by reference.
