ITEM 11. Executive Compensation

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion and analysis provides information regarding our executive compensation objectives and principles, procedures, practices and decisions, and is provided to help give perspective to the numbers and narratives that follow in the tables in this section. This discussion will focus on our objectives, principles, practices and decisions with regards to the compensation of the following four named executive officers (the NEOs):

- Ronald R. Snyder, Chief Executive Officer and President
- John P. McCarvel, Chief Operating Officer and Executive Vice President
- Peter S. Case, Chief Financial Officer, Senior Vice President-Finance and Treasurer
- Michael C. Margolis, Vice President-Sales and Marketing
- Caryn D. Ellison, Former Chief Financial Officer, was a named NEO until April 6, 2006.

Executive Compensation Objectives and Principles

The overall objective of our executive compensation program is to create long-term value for our stockholders by attracting and retaining talented executives, rewarding superior operating and financial performance, and aligning the long-term interests of our executives with those of our stockholders. Accordingly, our executive compensation program incorporates the following principles:

- Compensation should be based on individual job responsibility, demonstrated leadership ability, management experience, individual performance and our performance. Employees in positions of leadership and broad responsibility are generally compensated by elements that are linked to our overall performance and stockholder returns.
- Compensation should reflect the fair market value of the services received. We believe that a fair and competitive pay package for the NEOs is essential to attract and retain talented executives in key positions.
- Compensation is designed to reward NEOs based on both our short-term and long-term performance. Base pay is tied to individual performance and market conditions for similar positions. Bonuses are tied to achievement of short-term quantitative performance goals that we believe closely correlate to share value. Long-term performance is rewarded through equity-based awards such as stock options, the value of which depends on future share prices, and the realization of which is contingent on satisfaction of vesting schedules requiring continued service with us.
- Compensation should foster long-term focus. Compensation is designed to align executives' interests with those of the stockholders. A significant percentage of total compensation is allocated to non-cash compensation as a result of this philosophy. We do not use an exact formula for allocating between cash and non-cash compensation.

The Compensation Committee forms its judgments regarding the levels and component mix of executive compensation by considering the market competition for executive talent, the risk to an executive inherent in employment with a company that has a relatively short operating history, and our financial goals. Several specific financial metrics were used by the Compensation Committee in determining the final 2006 compensation for executives include the following:

- Revenues increased 226.6% to \$354.7 million in 2006 from \$108.6 million in 2005.
- Net income increased 278.8% to \$64.4 million in 2006 from \$17.0 million in 2005.

- Diluted earnings per share increased 215.7% to \$1.61 in 2006 from \$0.51 in 2005.

Executive Compensation Procedures

To attain our executive compensation objectives and implement the underlying compensation principles, we follow the procedures described below.

Role of the Compensation Committee. The Compensation Committee has responsibility for establishing and monitoring the executive compensation programs and for making decisions regarding the compensation of the NEOs. The agenda for meetings of the Compensation Committee is determined jointly by the Chairman of the Compensation Committee and the Chief Executive Officer. Compensation Committee meetings are held regularly and attended by the Chief Executive Officer. The Compensation Committee also meets in executive session. The Compensation Committee sets the Chief Executive Officer's compensation. The Compensation Committee also reviews the recommendations of the Chief Executive Officer with respect to compensation of the other NEOs and, after reviewing such recommendations, sets the compensation of the other NEOs. The Compensation Committee also monitors, administers and approves awards under our various incentive compensation plans for all levels of our employees, including awards under our incentive bonus plan and stock option plan.

The Compensation Committee relies on its judgment in making compensation decisions after reviewing our performance and evaluating each executive's performance against established goals, leadership ability and responsibilities, and current compensation arrangements. When setting total compensation for each of the NEOs, the Compensation Committee reviews the NEO's current compensation, including equity and non-equity based compensation. The Compensation Committee also evaluates surveys and other available data regarding the executive compensation programs of comparative companies. The compensation program for NEOs and the Compensation Committee assessment process are designed to be flexible so as to better respond to the evolving business environment and individual circumstances.

Role of Consultants. Neither the Compensation Committee nor management has contracted with a third party consultant for determining the amount or particular form of any NEO compensation, but may seek the advice of such persons in the future.

No Employment and Severance Agreements. The current NEOs do not have employment, severance or change-in-control agreements, although unvested options and restricted stock may become vested on a change in control pursuant to individual option or restricted stock award agreements. The NEOs serve at the will of the Board, which enables us to terminate their employment with discretion and to determine the terms of any severance. This is consistent with our performance-based employment and compensation philosophy.

Elements of Compensation

Our executive compensation objectives and principles are implemented through the use of the following elements of compensation, each discussed more fully below:

- Base Pay
- Performance-Based Bonus
- Long-Term Equity Awards
- Other Personal Benefits

Our executive compensation program seeks to attract, retain, and motivate exemplary executive talent able to succeed in our fast paced high growth company. Our executive compensation program also seeks to

hold our executives accountable and reward them appropriately for successful business results. We are firmly committed to our stockholders and our executive compensation program is structured to align our executives with our stockholders' interests. To meet each of these objectives, our core executive compensation program encompasses base salaries, annual performance-based incentive compensation, and long-term equity incentive awards. We believe the total compensation opportunities offered to our executives are sufficient to reduce the need for anything other than limited executive perquisites (which are detailed later in this report) or enhanced benefit programs beyond those that are typically available to all other employees.

The Compensation Committee does not utilize an exact calculation in determining the break down of NEO compensation between base pay, annual performance-based bonus, and long-term equity awards. However, the Compensation Committee takes into consideration all forms of compensation and because we are a rapidly growing company, we believe that a substantial portion of each NEO's compensation should be in the form of annual performance-based bonus and equity awards.

Base Pay. For 2006, the Compensation Committee established base pay by considering the size of our operations, the responsibilities of the NEOs and the competitive marketplace for executive talent in similar positions. In general, base pay of the NEOs is set at levels where we are competitive with our market peers of the S&P 600 Footwear Index (Peers), with the expectation that shortfalls in base pay, if any, will be recouped through performance bonuses should our performance warrant the NEO to receive performance bonuses. The Compensation Committee sets the base pay of the Chief Executive Officer. Base pay for other NEOs is set by the Compensation Committee after reviewing the recommendation of the Chief Executive Officer. Annual adjustments are influenced by growth of our operations, revenues and profitability, individual performance, changes in responsibility and other factors.

Performance-Based Bonuses. We maintained a performance-based bonus program (the 2006 Bonus Plan) for our NEOs. Under the 2006 Bonus Plan, NEOs were eligible to receive cash bonuses, contingent on the attainment during that year of our predetermined performance goals.

In an effort to encourage achievement of our performance objectives, the amount of bonus paid to the NEOs for the year was set at a level which the Compensation Committee believes was in excess of our Peers. The combination of base pay and performance-based bonuses was intended to result in an aggregate rate of salary and bonus compensation exceeding competitive, market standards when we exceeded the performance objectives set by the Compensation Committee. The Compensation Committee believes that a compensation plan exceeding competitive, market standards offered NEOs additional incentive to outperform our market peers.

Under the 2006 Bonus Plan, the targeted bonus amount for each NEO was expressed as a percentage of the NEO's base pay. The Compensation Committee determined the minimum, target and maximum bonus levels for the NEOs. The target bonus level for the NEOs in 2006 were between 50% and 100% of base pay and were contingent on us achieving diluted earnings per share of \$0.78, excluding share-based compensation expense. The maximum bonus levels for NEOs in 2006 were between 90% and 200% and were contingent on us achieving diluted earnings per share of \$0.98, excluding share-based compensation expense.

The full amount of the targeted bonus was earned by the NEOs only if we met the targeted financial objectives approved by the Compensation Committee. If we exceeded or failed to meet the targeted financial objectives set by the Compensation Committee, the amount of bonuses paid to the NEOs would be increased or decreased, as applicable. For NEOs, the 2006 financial targets were based on our diluted earnings per share, with the exception of Michael Margolis's incentive bonus where 75% was contingent on us achieving revenues of at least \$240 million for the year ended December 31, 2006. The diluted earnings per share targets were established by the Compensation Committee based on our internal forecast for the year. The payment of target bonuses to the NEOs in 2006 were made quarterly based on quarterly results,

because those results were in line with the target bonus level performance objectives. Any unpaid earned bonuses are paid soon after the close of the fiscal year to which the bonuses relate, once the Compensation Committee has determined the amount actually earned and payable. For 2006, our performance entitled the NEOs to the maximum bonus levels under the 2006 Bonus Plan.

The Compensation Committee and Board have discretion to depart from the formula in approving the bonus and increase or decrease bonuses after general results are known. In addition to bonuses paid under the 2006 Bonus Plan, the Compensation Committee approved a discretionary bonus for the NEOs due to operating results that significantly exceeded the maximum bonus level performance objectives. The discretionary bonuses approved ranged between 25% and 100% of base pay. The percentages were determined by the Compensation Committee based on the extent to which our operating results exceeded the maximum bonus level performance objectives and the estimated contribution and responsibility of the individual NEO. Bonuses earned under the 2006 Bonus Plan and discretionary bonuses are reported under the headings Non-Equity Incentive Plan Compensation and Bonuses, respectively, in the Summary Compensation Table below.

In March 2007, the Compensation Committee approved the 2007 Bonus Plan with several differences in calculation from the 2006 Bonus Plan. The 2007 Bonus Plan is still based on the achievement of diluted earnings per share. However, instead of the target objective based on the internal forecast for the year, the plan is based on achieving earnings per share growth of between 10% to 175% over our fully diluted earnings per share for the year ended December 31, 2006. The 2007 Bonus Plan awards a bonus expressed as a percentage of 2007 base salary ranging from 25% to 800% depending on the particular executive and the growth rate achieved. If we do not reach the minimum earnings per share target of 10%, the NEOs will not be eligible for bonuses under the plan. The percentages were determined by the Compensation Committee based on the estimated contribution and responsibility of the individual NEO. The Compensation Committee also took into consideration the inherent employment risk accepted by an officer of a rapidly growing company with a limited operating history.

Long-Term Equity Awards. Discretionary long-term equity awards, in the form of stock options and restricted stock, are granted at the Compensation Committee's discretion to the NEOs annually in order to provide long-term performance-based compensation, to encourage the NEOs to continue their employment throughout the vesting periods of the awards, to align management and stockholder interests, and to retain executives through the vesting periods. In making such awards, the Compensation Committee considers grant size and the appropriate combination of equity-based awards in making NEO grant decisions. The amount of long-term equity awards granted to NEOs in 2006 was based on the Compensation Committee's assessment of each NEO's expected future contributions and award levels of our market peers. We intend to grant long-term equity awards at the Compensation Committee meeting held in connection with our annual meeting of stockholders or meetings held at the conclusion of each year. In 2006, the grant was made on February 7, in conjunction with our initial public offering. In 2007, the Compensation Committee approved stock option grants in January and February for the NEOs, as listed below;

Name and Principal Position	2007 Stock Option Awards:			2006 Stock Option Awards:		
	Number of Securities Underlying Options (#)			Number of Securities Underlying Options (#)		
Ronald R. Snyder		175,000			467,240	
John P. McCarvel		125,000			60,043	
Peter S. Case		40,000			120,000	
Michael Margolis		30,000				

We compared our long-term equity award program for 2006 against the equity-based compensation programs of our market peers to assist in determining both the structure and amount of awards to be made in 2007. The Compensation Committee believes that the awards made to NEOs in 2007 were made at levels consistent with those of our market peers and the anticipated contribution and responsibility of the NEO in future years.

Options are granted with an exercise price equal to the closing price per share on the date of grant and vest over four-years with the first year a cliff basis and monthly vesting for the remaining three years. Beginning in 2006, we did not grant options with an exercise price below 100% of the trading price of the underlying shares of common stock on the date of grant or grant options that are priced on a date other than the date of grant. Stock options only have economic value to the grantee to the extent the market price of the underlying shares on the exercise date exceeds the exercise price. Accordingly, options provide compensation only if the underlying share price increases over the option term and the NEO's employment continues until the vesting date. In 2006, the Compensation Committee only granted stock option awards as the component of equity compensation. The Compensation Committee believes the granting of stock options with an exercise price equal to the market value on the date of grant represents a preferred method of equity incentive compensation when compared to stock awards because the value of the award to the NEO is based solely on future increases in the market value of our stock.

Other Benefits. Other benefits are provided to the NEOs in order to achieve a competitive pay package as detailed in the Summary Compensation Table below. The Compensation Committee believes that those benefits, which are detailed in the Summary Compensation Table under the heading All Other Compensation, are reasonable, competitive and consistent with our overall executive compensation program. Those benefits consist principally of employer-paid premiums on health insurance and country club dues.

Deductibility of Executive Compensation

Section 162(m) of the Code imposes a \$1 million annual limit on the amount that a public company may deduct for compensation paid to the company's chief executive officer during a tax year or to any of the company's four other most highly compensated executive officers who are still employed at the end of the tax year. The limit does not apply to compensation that meets the requirements of Code Section 162(m) for qualified performance-based compensation (i.e., compensation paid only if the executive meets pre-established, objective goals based on performance criteria approved by the company's stockholders).

The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code. In certain situations, the Compensation Committee may approve compensation that does not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. Stock option grants in 2006 were intended to constitute qualified performance-based compensation under Section 162(m). Our 2006 annual performance bonuses, however, were not qualified performance-based compensation.

Summary Compensation Table

The following summary compensation table indicates the cash and non-cash compensation paid to our Chief Executive Officer, and Chief Financial Officer, our two other most highly compensated executive officers and our former Chief Financial Officer collectively referred to as the NEOs during our fiscal year ended December 31, 2006. for fiscal year 2006 are reported in the Summary Compensation Table as Non-Equity Incentive Plan Compensation. Executives must have been employed on the date the payments were made to have been eligible for a payment. The target payments were based on achieving the target level of performance with ranges from 50% to 100% of salary. The maximum payments were based on the plan maximum, which ranges from 75% to 200% of salary.

(2) Grant date fair value for stock options was determined pursuant to FAS 123R. Assumptions used in the calculations of these amounts are included in Footnote 5 to our Consolidated Financial Statements for the year ended December 31, 2006.

Narrative to Summary Compensation Table and Grants of Plan-Based Awards Table

Employment Arrangements

We have entered into employment agreements with Mr. Case and Ms. Ellison as set forth below.

On February 2, 2005, we entered into an at-will employment arrangement with Mr. Case, our Chief Financial Officer, Senior Vice President Finance, and Treasurer, pursuant to which we paid Mr. Case a monthly salary of \$22,917, as well as a performance based bonus target of \$41,250 per quarter, prorated for the first quarter. Under the terms of the arrangement, on February 7, 2006, we granted Mr. Case options to purchase 120,000 shares of our common stock at \$21.00 per share, which was the initial public offering price of our common stock and the fair market value of our common stock at the time of grant.

On October 18, 2004, we entered into an at-will employment arrangement with Caryn Ellison, our Vice President Finance. The arrangement called for Ms. Ellison to be compensated at a rate of \$16,000 per month and provides that we will pay six months severance in the event Ms. Ellison's employment is terminated by us.

Awards

On February 7, 2006, the Compensation Committee granted stock option awards to several of our NEOs. The awards vest one-fourth after the first anniversary of the grant date with the remainder vesting in 36 equal and successive monthly installments after the applicable initial vesting date.

No other restricted stock or stock options were awarded to NEOs in the year ended December 31, 2006, however, we issued shares of our common stock pursuant to the vesting terms of restricted stock awards made prior to 2006.

Salary and Bonus in Proportion to Total Compensation

In 2006, our NEOs received less than 57% of their total compensation reported in the Summary Compensation Table in the form of base salary and cash incentive awards. As noted in Compensation Discussion and Analysis above, we believe that a substantial portion of each NEOs compensation should be in the form of equity awards. Our Compensation Committee believes that our current program substantially aligns our NEOs compensation with our peers, while also permitting our Compensation Committee to provide incentives to the NEOs to pursue performance that increases stockholder value. Please see Compensation Discussion and Analysis for a description of the objectives of our compensation program and overall compensation philosophy.

ITEM 13. Certain Relationships and Related Transactions, and Director Independence

Related Transactions

On January 1, 2005, we entered into a separation and release agreement with George B. Boedecker, Jr., relating to his resignation as our Chief Executive Officer. In exchange for certain releases granted by Mr. Boedecker, we agreed to pay him a severance amount of \$600,000, less all legally required deductions and withholdings, in 16 equal quarterly installments at the beginning of each calendar quarter for a four year period. The agreement provides that Mr. Boedecker is entitled to participate in our standard medical benefits package until December 31, 2009, and that Mr. Boedecker is entitled to a reimbursement of business expenses he incurred before January 1, 2005. In accordance with the terms of the agreement, Mr. Boedecker remained on our Board of Directors, but there is no agreement requiring us to nominate him to the board in any future period. Mr. Boedecker resigned from our Board of Directors in May 2006.

Under the terms of the separation and release agreement, on April 1, 2005, we entered into a distribution agreement with Crocodile Distribution, LLC, an entity controlled by Mr. Boedecker, which granted Crocodile Distribution the exclusive rights to distribute our products in Mexico, the Dominican Republic, Costa Rica and, to the extent it complies with United States law in the future, Cuba. The initial term of the agreement is 10 years from July 1, 2005 and it is renewable on a non-exclusive basis for an additional five year term. The exclusivity portion of the agreement may be terminated by us if Crocodile Distribution fails to purchase certain minimum amounts of our products. Crocodile Distribution will receive a discount from our standard wholesale list price for the purchase of our products. In addition, on July 1, 2005, we entered into a kiosk agreement with Crocodile Kiosk, LLC, an entity controlled by Mr. Boedecker, which granted Crocodile Kiosk exclusive rights to license or sell certain crocs-related franchises to third parties. The license or franchise rights will give the licensee or franchisee the right to establish retail kiosks in airport locations. The term of the license agreement is 10 years but the termination of the kiosk agreement will not have an effect on a licensee's or franchisee's right to operate the kiosk for a term of up to 15 years. If Crocodile Kiosk fails to license or franchise a minimum number of kiosks during the term, the agreement will become non-exclusive. In 2006, we recognized \$2.3 million of revenue related to these agreements.

In May 2005, we subleased an office building from Flextronics USA, Inc. Two of our directors, Messrs. Marks and Sharp, also serve as directors of Flextronics and Messrs. Smach serves as its Chief Financial Officer. We paid Flextronics \$215,000 and \$91,000 for lease payments and common area maintenance charges for the years ended December 31, 2006 and 2005, respectively. This lease expired on March 31, 2007. We paid \$40,000 in lease payments in 2007.

Policy on Transactions with Related Persons

Our Audit Committee has adopted a written policy which requires that any transaction involving us in which one of our directors, nominees for director, executive officers, or greater than five percent stockholders, or their immediate family members, have a material interest be approved or ratified by the

Audit Committee if the amount involved exceeds \$100,000. The full Board reviews ordinary course of business transactions in which directors have an interest as part of the Board's annual director independence review. In determining whether to approve or ratify any such transaction, the Audit Committee must consider, in addition to other factors it deems appropriate, whether the transaction is on terms no less favorable to us than those involving unrelated parties.

All transactions disclosed above were reviewed and approved or ratified in accordance with this policy.

Director and Officer Indemnification

We have entered into agreements to indemnify our directors and executive officers, in addition to the indemnification provided for in our certificate of incorporation and bylaws. These agreements, among other things, provide for indemnification of our directors and executive officers for certain expenses (including attorneys' fees), judgments, fines and settlement amounts incurred by any such person in any action or proceeding, including any action by or in the right of the Company, arising out of such person's services as a director or executive officer of ours, any subsidiary of ours or any other company or enterprise to which the person provided services at our request. We believe that these provisions and agreements are necessary to attract and retain qualified persons as directors and executive officers.

Board Composition

Our Board of Directors consists of seven members. Under our bylaws, each of our directors holds office until their successors have been elected and qualified or until their earlier death, resignation, disqualification or removal. We have divided the terms of office of the directors into three classes. Class I consists of Mr. Frasch and Ms. Holman-Rao, whose terms will expire at the annual meeting of stockholders to be held in 2009. Class II consists of Messrs. Croghan, Marks and Sharp, whose terms will expire at the annual meeting of stockholders to be held in 2007. Class III consists of Messrs. Smach and Snyder, whose terms will expire at the annual meeting of stockholders to be held in 2008.

Rules of the NASDAQ Global Select Market require that our Board of Directors have a majority of independent directors. The Board of Directors determined that Messrs. Croghan, Frasch, Marks, Sharp, Smach and Ms. Holman-Rao are independent directors as defined by Rule 4200(a)(15) of the NASDAQ listing standards.

Director Independence

The Board of Directors believes that a majority of our members should be independent directors. The Board reviews all relationships that directors have with us to affirmatively determine whether the directors are independent. If a director has a material relationship with us, that director is not independent. The listing standards of the NASDAQ Global Select Market set forth certain relationships which, if present, preclude a finding of independence. Based on these standards, the Board determined all directors are independent with the exception of Mr. Snyder.

ITEM 14. Principal Accountant Fees and Services

Deloitte & Touche LLP, which was our independent registered public accounting firm for the year ended December 31, 2006, has been selected by our Audit Committee to be the independent registered public accounting firm of Crocs, Inc. and its subsidiaries for the year ended December 31, 2007.

The following table sets forth the aggregate fees we paid to Deloitte & Touche LLP, our independent registered public accounting firm, and other member firms of Deloitte Touche Thomatsu and their respective affiliates, which we refer to collectively as Deloitte entities, for professional services provided during 2006 and 2005. Our Audit Committee is required to preapprove all services performed by Deloitte & Touche LLP. All fees paid to the Deloitte entities were pre-approved by the Audit Committee, which concluded that the provision of such services by the Deloitte entities was compatible with the maintenance of that firm's independence in the conduct of its auditing functions.
