GP STRATEGIES CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

March 31, 2007
(Unaudited)

(1) Basis of Presentation

GP Strategies Corporation (the "Company") was incorporated in Delaware in 1959. The Company's business consists of its training, engineering, and consulting business operated by General Physics Corporation ("General Physics" or "GP"). General Physics is a workforce development company that seeks to improve the effectiveness of organizations by providing training, management consulting, e-learning solutions and engineering services that are customized to meet the specific needs of clients.

On January 23, 2007, General Physics completed the acquisition of certain operating assets and the business of Sandy Corporation ("Sandy"), a leader in custom product sales training and part of the ADP Dealer Services division of ADP, Inc. ("ADP"). Sandy, which is run as an unincorporated division of General Physics, offers custom sales training and print-based and electronic publications primarily to the automotive industry. The final purchase price consisted of \$4,393,000 in cash paid to ADP from cash on hand and the assumption of certain liabilities by General Physics to complete contracts. In addition, General Physics may be required to pay ADP up to an additional \$8,000,000, contingent upon Sandy achieving certain revenue targets, as defined in the purchase agreement, during the two twelve-month periods following the completion of the acquisition. Sandy is reported as a separate business segment for reporting purposes and its results of operations are included in the Company's condensed consolidated financial statements since the date of acquisition. See notes 3 and 10 for further details.

On February 3, 2006, General Physics completed the acquisition of Peters Management Consultancy Ltd. (PMC), a performance improvement and training company in the United Kingdom. General Physics acquired 100% ownership of PMC for a purchase price of \$1.3 million in cash. PMC is included in the Company's Manufacturing & BPO segment and its results are included in the condensed consolidated financial statements since the date of acquisition.

The accompanying condensed consolidated balance sheet as of March 31, 2007 and the condensed consolidated statements of operations and cash flows for the three months ended March 31, 2007 and 2006 have not been audited, but have been prepared in conformity with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2006, as presented in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006. In the opinion of management, this interim information includes all material adjustments, which are of a normal and recurring nature, necessary for a fair presentation. The results for the 2007 interim period are not necessarily indicative of results to be expected for the entire year.

The condensed consolidated financial statements include the operations of the Company and its subsidiaries. All significant intercompany balances and transactions have been eliminated.

(2) Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net income by the weighted average number of common shares outstanding during the periods. Diluted EPS reflects the potential dilution of common stock equivalent shares that could occur if securities or other contracts to issue common stock were exercised or converted into common stock.

The Company's dilutive common stock equivalent shares consist of stock options, restricted stock units, and warrants to purchase shares of common stock computed under the treasury stock method, using the average market price during the period. The following table presents instruments which were not dilutive and were excluded from the computation of diluted EPS in each period, as well as the dilutive common stock equivalent shares which were included in the computation of diluted EPS:

	Three months ended March 31,	
	2007	2006
	(In thousands)	
Non-dilutive instruments	579	585
Dilutive common stock equivalents	654	901

(3) Acquisition

On January 23, 2007, General Physics completed the acquisition of Sandy, a leader in custom product sales training and part of the ADP Dealer Services division of ADP. Sandy, which is run as an unincorporated division of General Physics, offers custom sales training and print-based and electronic publications primarily to the automotive industry. General Physics acquired certain assets and the business of Sandy for a final purchase price of \$4,393,000 cash paid to ADP from cash on hand and the assumption of certain liabilities to complete contracts. In addition, General Physics may be required to make payments of up to an additional \$8,000,000, contingent upon Sandy achieving certain revenue targets, as defined in the purchase agreement, during the two twelve-month periods following completion of the acquisition. In connection with the acquisition and in accordance with Statement of Financial Accounting Standard (SFAS) No. 141, *Business Combinations*, the Company recorded \$1,020,000 of goodwill, representing the excess of the purchase price over the net tangible and intangible assets acquired and \$924,000 of third party acquisition costs. Sandy is reported as a separate business segment and the results of its operations have been included in the condensed consolidated financial statements since the date of acquisition.

The preliminary estimated purchase price consists of the following (in thousands):

Cash purchase price	\$ 4,393
Estimated acquisition costs	924
Total estimated purchase price	\$ 5,317

The Company's preliminary purchase price allocation for the net assets acquired is as follows (in thousands):

Inventory	\$ 783
Prepaid expenses and other current assets	76
Property, plant and equipment, net	134
Intangible assets	6,006
Goodwill	1,020
Total assets	8,019
Accounts payable, accrued expenses and other liabilities	1,090
Billings in excess of costs and estimated earnings on uncompleted contracts	1,612
Total liabilities assumed	2,702
Net assets acquired	\$ 5,317

The Company recorded customer-related intangible assets as a result of the acquisition, which included \$4,701,000 relating to customer lists and relationships acquired to be amortized over an estimated useful life of 12 years, and \$1,305,000 relating to contract backlog for future services under firm contracts to be amortized over 14 months subsequent to the acquisition in proportion to the amount of related backlog to be recognized in revenue. During the three months ended March 31, 2007, the Company recognized \$463,000 of amortization expense for these intangible assets, which was comprised of \$398,000 of amortization related to the contract backlog intangible asset and \$65,000 of amortization related to the customer lists and relationships intangible asset.

The following unaudited pro forma condensed consolidated results of operations assume that the acquisition of Sandy was completed as of January 1 for each of the interim periods shown below:

	Three months ended March 31, 2007 2006 (In thousands, except per share amounts)	
Revenue	\$ 57,491	\$ 59,774
Net income	2,143	1,718
Basic earnings per share	0.13	0.11
Diluted earnings per share	0.13	0.10

The pro forma data above may not be indicative of the results that would have been obtained had the acquisition actually been completed at the beginning of the periods presented, nor does it intend to be a projection of future results.

(4) Inventory

Sandy produces brand specific glovebox portfolios, brochures and accessory kits for its customers, which are installed in new cars and trucks at the time of vehicle assembly. Sandy designs these items and outsources their manufacture to suppliers which provide the raw materials, bind and/or sew the portfolio, assemble its contents, and ship the finished product to its customers' assembly plants. Although the inventory is kept at third party suppliers, the Company has title to the inventory and bears the risk of loss. As of March 31, 2007, the Company had inventories of \$760,000, which primarily consisted of raw materials for the glovebox portfolios, brochures and accessory kits.

(5) Stock-Based Compensation

The Company accounts for its stock-based compensation awards under SFAS No. 123R, *Share-Based Payment* (SFAS No. 123R) which requires companies to recognize compensation expense for all equity-based compensation awards issued to employees that are expected to vest. Compensation cost is based on the fair value of awards as of the grant date.

The following table summarizes the pre-tax stock-based compensation expense included in reported net income (in thousands):

	Three months ended March 31,	
	2007	2006
Non-qualified stock options	\$ 11	\$ 75
Restricted stock units	75	75
Board of Director stock grants	23	6
Total stock-based compensation expense (pre-tax)	\$ 109	\$ 156

Pursuant to the Company's 1973 Non-Qualified Stock Option Plan, as amended (the "Non-Qualified Plan"), and 2003 Incentive Stock Plan (the "2003 Plan"), the Company may grant awards of non-qualified stock options, incentive stock options, restricted stock, stock units, performance shares, performance units and other incentives payable in cash or in shares of the Company's common stock to officers, employees or members of the Board of Directors. As of March 31, 2007, the Company had non-qualified stock options, restricted stock, and restricted stock units outstanding under these plans as discussed below.

Non-Qualified Stock Options

Summarized information for the Company's non-qualified stock options is as follows:

Stock Options	Number of options	Weighted average exercise price	Weighted average remaining years	Aggregate intrinsic value
Outstanding at December 31, 2006	572,108	\$ 5.48		
Granted				
Exercised	(124,332)	4.91		
Cancelled/expired	(14,379)	5.32		
Outstanding at March 31, 2007	433,397	5.65	1.69	\$ 1,440,000
Exercisable at March 31, 2007	423,756	5.63	1.70	\$ 1,413,000

Restricted Stock Units

In addition to stock options, the Company issues restricted stock units to key employees and members of the Board of Directors based on meeting certain service goals. The stock units vest to the recipients at various dates, up to five years, based on fulfilling service requirements. In accordance with SFAS No. 123R, the Company recognizes the value of the market price of the underlying stock on the date of grant to compensation expense over the requisite service period. Upon vesting, the stock units may be settled in shares of the Company's common stock. Summarized share information for the Company's restricted stock units is as follows:

	Three months ended March 31, 2007 (In shares)	Weighted average grant date fair value (In dollars)
Outstanding and unvested, December 31, 2006	181,000	\$ 7.53
Granted	74,000	8.96
Vested	(2,000)	7.42
Forfeited	(3,000)	7.54
Outstanding and unvested, March 31, 2007	250,000	\$ 7.95

During the first quarter of 2007, the Company granted 74,000 restricted stock units to key employees in connection with the acquisition of Sandy. The awards had a grant date fair value of \$8.96, and vest over a weighted average period of 4.4 years.

(6) Short-Term Borrowings

General Physics has a \$25 million Financing and Security Agreement (the Credit Agreement), as amended, with a bank that expires on August 12, 2007 with annual renewal options. The Credit Agreement is secured by certain assets of General Physics and provides for an unsecured guaranty from the Company.

The interest rate on the Credit Agreement is the daily LIBOR market index rate plus 3.0%. Based upon the financial performance of General Physics, the interest rate can be reduced. As of March 31, 2007, the rate was reduced to LIBOR plus 2.50%, which resulted in a rate of approximately 7.8%. The Credit Agreement contains covenants with respect to General Physics' minimum tangible net worth, total liabilities ratio, leverage ratio, interest coverage ratio and its ability to make capital expenditures. The Credit Agreement also contains certain restrictive covenants regarding future acquisitions, incurrence of debt and the payment of dividends. In connection with the acquisition of Sandy, the bank provided a waiver in which it consented to the acquisition and agreed not to test the tangible net worth and total liabilities covenants as of March 31, 2007. General Physics was in compliance with all other loan covenants under the Credit Agreement as of March 31, 2007. In addition, General Physics is currently restricted from paying dividends or management fees to the Company in excess of \$1,000,000 in any year, with the exception of a waiver by the lender provided in January 2006 which permits General Physics to provide cash to the Company to repurchase up to \$5 million of shares of its outstanding common stock in the open market.

As of March 31, 2007, General Physics had \$3,852,000 of outstanding borrowings under the Credit Agreement and there was approximately \$18,049,000 of available borrowings based upon 80% of eligible accounts receivable and 80% of eligible unbilled receivables. As of December 31, 2006, General Physics had no amounts outstanding under the Credit Agreement.

(7) Long-Term Debt

Long-term debt consists of the following (in thousands):

	March 31, 2007	December 31, 2006
6% conditional subordinated notes due 2008 (a)	\$ 4,070	\$ 6,483
ManTech Note (b)	5,251	5,251
Capital lease obligations	138	30
	9,459	11,764
Less warrant related discount, net of accretion	(450)	(838)
	9,009	10,926
Less current maturities	(137)	(30)
	\$ 8,872	\$ 10,896

(a) In August 2003, the Company issued and sold to four Gabelli Funds \$7,500,000 aggregate principal amount of 6% Conditional Subordinated Notes due 2008 (the Gabelli Notes) and 937,500 warrants (GP Warrants), each entitling the holder thereof to purchase (subject to adjustment) one share of the Company's Common Stock at an exercise price of \$8.00. The aggregate purchase price for the Gabelli Notes and GP Warrants was \$7,500,000.

The Gabelli Notes bear interest at 6% per annum payable semi-annually commencing on December 31, 2003 and mature in August 2008. The Gabelli Notes are secured by a mortgage on the Company's former property located in Pawling, New York which was distributed to National Patent Development Corporation (NPDC) in connection with its spin-off by the Company on November 24, 2004. In addition, at any time that less than \$1,875,000 of the principal amount of the Gabelli Notes is outstanding, the Company may defease the obligations secured by the mortgage and obtain a release of the mortgage by depositing with an agent for the Noteholders bonds or government securities with an investment grade rating by a nationally recognized rating agency which, without reinvestment, will provide cash on the maturity date of the Gabelli Notes in an amount not less than the outstanding principal amount of the Gabelli Notes.

Subsequent to the spin-off of NPDC in 2004 and GSE Systems, Inc. (GSE) in 2005, and in accordance with the anti-dilution provisions of the warrant agreement for stock splits, reorganizations, mergers and similar transactions, the number of GP Warrants was adjusted to 984,116 and the exercise price was adjusted to \$5.85 per share. The GP warrants are exercisable at any time until August 2008. The exercise price may be paid in cash, by delivery of the Gabelli Notes, or a combination of the two. During the year ended December 31, 2006, Gabelli exercised 197,823 GP Warrants for a total exercise price of \$1,157,000 which was paid in the form of \$140,000 cash and delivery of \$1,017,000 of the Gabelli Notes. During the three months ended March 31, 2007, Gabelli exercised 412,431 GP Warrants for a total exercise price of \$2,413,000 which further reduced the principal balance of the Gabelli Notes. As of March 31, 2007, there were 373,862 GP Warrants with an exercise price of \$5.85 outstanding and exercisable.

The fair value of the GP Warrants at the date of issuance was \$2,389,000, which reduced long-term debt in the accompanying condensed consolidated balance sheets and is being accreted as additional interest expense using the effective interest rate over the term of the Gabelli Notes. The Gabelli Notes have a yield to maturity of 15.436% based on the discounted value. Accretion charged as interest expense was approximately \$75,000 and \$119,000 for the three months ended March 31, 2007 and 2006, respectively. The exercises of the GP Warrants during 2007 resulted in a decrease of \$2,099,000 in the carrying value of the Gabelli Notes, which was reclassified to equity to reflect the issuance of shares of common stock upon exercise.

(b) In October 2003, the Company issued a five-year 5% note due in full in October 2008 in the principal amount of \$5,250,955 to ManTech International. Interest is payable quarterly. Each year during the term of the note, the holder of the note has the option to convert up to 20% of the original principal amount of the note into common stock of the Company at the then market price of the Company's common stock, but only in the event that the Company's common stock is trading at \$10 per share or more. In the event that less than 20% of the principal amount of the note is not

converted in any year, such amount not converted will be eligible for conversion in each subsequent year until converted or until the note is repaid in cash.

(8) Comprehensive Income

The following are the components of comprehensive income (in thousands):

	Three months ended March 31,	
	2007	2006
Net income	\$ 2,054	\$ 1,369
Other comprehensive income (loss) foreign currency translation	33	(33)
Comprehensive income	\$ 2,087	\$ 1,336

As of March 31, 2007 and December 31, 2006, accumulated other comprehensive loss was \$607,000 and \$640,000, respectively, and consisted of foreign currency translation adjustments.

(9) Income Taxes

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109* (FIN No. 48). FIN No. 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition of a tax position taken or expected to be taken on a tax return. Under FIN No. 48, a tax benefit from an uncertain tax position may be recognized only if it is more likely than not that the position is sustainable upon examination, based on its technical merits. The tax benefit of a qualifying position under FIN No. 48 would equal the largest amount of tax benefit that is greater than 50 percent likely of being realized upon ultimate settlement with a taxing authority having full knowledge of all relevant information. FIN No. 48 was effective as of January 1, 2007 for calendar-year companies. In applying the new accounting model prescribed by FIN No. 48, the Company was required to determine and assess all material positions existing as of the adoption date, including all significant uncertain positions, in all tax years, that were still subject to assessment or challenge under relevant tax statutes.

Upon adoption on January 1, 2007, the Company recorded a net decrease of \$98,000 to retained earnings to reflect the cumulative effect adjustment for FIN No. 48. As of January 1, 2007, the Company had \$2,218,000 of unrecognized tax benefits, all of which would impact the effective tax rate if recognized. The Company recognizes interest and penalties related to unrecognized tax benefits as a component of income tax expense. As of January 1, 2007, the Company had no accrued interest or penalties. The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. With few exceptions, the Company is no longer subject to U. S. federal, state and local, or non-U.S. income tax examination by tax authorities for years prior to 2002.

(10) Business Segments

Prior to the acquisition of Sandy on January 23, 2007, the Company had two reportable business segments. Subsequent to the acquisition, Sandy is being run as an unincorporated operating group of General Physics. The Company determined that the operations of Sandy constitute a separate reportable business segment and its results of operations are included in the Sandy Sales Training & Marketing segment since the effective date of the acquisition. As of March 31, 2007, the Company's three reportable business segments are: 1) Process, Energy & Government; 2) Manufacturing & Business Process Outsourcing (BPO); and 3) Sandy Sales Training & Marketing. The Company is organized by operating group primarily based upon the markets served by each group and the services performed. The Process, Energy & Government and Manufacturing & BPO segments represent an aggregation of the Company's operating segments in accordance with the aggregation criteria in SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information* (SFAS No. 131), and the Sandy Sales Training & Marketing segment represents one operating segment as defined in SFAS No. 131. Below is a description of each of the Company's reportable business segments.

Edgar Filing: GP STRATEGIES CORP - Form 10-Q

- **Process, Energy & Government** this segment primarily serves federal and state governmental agencies, large government contractors, petroleum and chemical refining companies, and electric power utilities and provides engineering consulting, design and evaluation services regarding facilities, the environment, processes and systems, and staff augmentation, curriculum design and development, and training and technical services.
- **Manufacturing & BPO** this segment primarily serves large companies in the automotive, steel, pharmaceutical, electronics, and other industries as well as certain governmental clients and provides training, curriculum design and development, staff augmentation, e-learning services, system hosting, integration and help desk support, business process and training outsourcing, and consulting and technical services.
- **Sandy Sales Training & Marketing** this segment provides custom sales training and print-based and electronic publications primarily to the automotive industry.

For the three months ended March 31, 2007 and 2006, sales to the United States government and its agencies represented approximately 20% and 33%, respectively, of the Company's revenue. Revenue from the Department of the Army, which is included in the Process, Energy & Government segment, accounted for approximately 10% and 16% of the Company's revenue for the three months ended March 31, 2007 and 2006, respectively.

Subsequent to the acquisition of Sandy, the Company has a concentration of revenue from General Motors and its affiliates as well as a market concentration in the automotive sector. Revenue from General Motors and its affiliates accounted for approximately 20% of the Company's revenue for the three months ended March 31, 2007, and revenue from the automotive industry accounted for approximately 25% of the Company's revenue for the three months ended March 31, 2007.

The Company does not allocate the following corporate items to the segments: other income and interest expense; selling, general and administrative expense; and income tax expense. Inter-segment revenue is eliminated in consolidation and is not significant.

The following tables set forth the revenue and operating income of each of the Company's operating segments and includes a reconciliation of segment revenue to consolidated revenue and operating income to consolidated income before income tax expense (in thousands):

	Three months ended March 31,	
	2007	2006
Revenue:		
Process, Energy & Government	\$ 16,778	\$ 19,673
Manufacturing & BPO	24,563	23,855
Sandy Sales Training & Marketing	12,202	
	\$ 53,543	\$ 43,528
Operating income:		
Process, Energy & Government	\$ 1,931	\$ 1,488
Manufacturing & BPO	1,461	1,632
Sandy Sales Training & Marketing	539	
Corporate and other general and administrative expenses	(508)	(730)
	3,423	2,390
Interest expense	(272)	(414)
Other income	371	404
Income before income tax expense	\$ 3,522	\$ 2,380

(11) Related Party Transactions

Prior to the spin-off of NPDC in 2004, NPDC was a wholly-owned subsidiary of the Company. In connection with the spin-off, NPDC entered into a separate management agreement with the Company pursuant to which the Company provides certain general corporate services to NPDC and is reimbursed for such services. The term of the agreement extends for three years from the date of the spin-off, or through November 24, 2007, and may be terminated by either NPDC or the Company on or after July 30, 2006 with 180 days prior written notice. For the three months ended March 31, 2007 and 2006, the Company charged NPDC approximately \$213,000 and \$228,000, respectively, for services under the management agreement, which is included as a reduction of selling, general and administrative expense.

(12) Guarantees

Subsequent to the spin-off of NPDC, the Company continues to guarantee certain obligations of NPDC's subsidiaries, Five Star Products, Inc. (Five Star) and MXL Industries, Inc. (MXL). The Company guaranteed certain operating leases for Five Star's New Jersey and Connecticut warehouses, totaling approximately \$1,589,000 per year through March 31, 2007. The Company also guarantees the repayment of one debt obligation of MXL, which is secured by property and certain equipment of MXL. The aggregate outstanding balance of MXL's debt obligation as of March 31, 2007 was \$1,080,000. The Company's guarantee expires upon the maturity of the debt obligation in March 2011.

(13) Litigation

In November 2004, an arbitrator awarded the Company \$12,274,000 in damages and \$6,016,000 in interest in connection with the Company's 1998 acquisition of Learning Technologies from various subsidiaries (Systemhouse) of MCI Communications Corporation (MCI) which were subsequently acquired by Electronic Data Systems Corporation (EDS). EDS made a payment of \$18,428,000 which included post-award interest of \$139,000 to satisfy its obligation under the arbitration award. The Company recognized a gain on arbitration settlement, net of legal fees and expenses of \$13,660,000 in 2004.

In November 2005, the Company settled its remaining fraud claims against EDS and Systemhouse in connection with the acquisition of Learning Technologies. Pursuant to the settlement, EDS made a cash payment to the Company in the amount of \$9,000,000 in December 2005. The Company recognized a gain on the litigation settlement, net of legal fees and expenses, of approximately \$5,552,000 in the fourth quarter of 2005. In accordance with a spin-off agreement with NPDC, the Company made an additional capital contribution to NPDC of approximately \$1,201,000 of the settlement proceeds.

The Company's original fraud action included MCI as a defendant. The fraud action against MCI had been stayed as a result of MCI's bankruptcy filing in 2002, and the Company's claims against MCI were not tried or settled with the claims against EDS and Systemhouse. On December 13, 2005, the Bankruptcy Court heard arguments on a summary judgment motion that MCI had made before filing for bankruptcy. On September 12, 2006, the Bankruptcy Court asked the parties to submit further briefs concerning whether the summary judgment motion should be decided based on the standard applicable to such motions under state or federal law. A decision on the motion for summary judgment has not been issued. Pursuant to the spin-off agreement with NPDC, the Company will contribute to NPDC 50% of any proceeds received, net of legal fees and taxes, with respect to the litigation claims.

The Company is not a party to any legal proceeding, the outcome of which is believed by management to have a reasonable likelihood of having a material adverse effect upon the financial condition and operating results of the Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

General Overview

The Company's business consists of its core operating subsidiary, General Physics, a global training, engineering, and consulting company that seeks to improve the effectiveness of organizations by providing training, management consulting, e-learning solutions and engineering services and products that are customized to meet the specific needs of clients. Clients include Fortune 500 companies and manufacturing, process and energy companies and other commercial and governmental customers. General Physics is a global leader in performance improvement, with four decades of experience in providing solutions to optimize workforce performance.

Prior to the acquisition of Sandy Corporation (Sandy) on January 23, 2007, the Company had two reportable business segments. Subsequent to the acquisition, Sandy is being run as an unincorporated operating group of General Physics. The Company determined that the operations of Sandy constitute a separate reportable business segment and its results of operations are included in the Sandy Sales Training & Marketing segment since the effective date of the acquisition. As of March 31, 2007, the Company's three reportable business segments are: 1) Process, Energy & Government; 2) Manufacturing & Business Process Outsourcing (BPO); and 3) Sandy Sales Training & Marketing. The Company is organized by operating group primarily based upon the markets served by each group and the services performed. The Process, Energy & Government and Manufacturing & BPO segments represent an aggregation of the Company's operating segments in accordance with the aggregation criteria in Statement of Financial Accounting Standards (SFAS) No. 131, *Disclosures about Segments of an Enterprise and Related Information* (SFAS No. 131), and the Sandy Sales Training & Marketing segment represents one operating segment as defined in SFAS No. 131.

The following is a description of the Company's three reportable business segments:

- **Process, Energy & Government** - this segment primarily serves federal and state governmental agencies, large government contractors, petroleum and chemical refining companies, and electric power utilities and provides engineering consulting, design and evaluation services regarding facilities, the environment, processes and systems, and staff augmentation, curriculum design and development, and training and technical services.
- **Manufacturing & BPO** - this segment primarily serves large companies in the automotive, steel, pharmaceutical, electronics, and other industries as well as certain governmental clients and provides training, curriculum design and development, staff augmentation, e-learning services, system hosting, integration and help desk support, business process and training outsourcing, and consulting and technical services.
- **Sandy Sales Training & Marketing** - this segment provides custom sales training and print-based and electronic publications primarily to the automotive industry.

Significant Events

Acquisition

On January 23, 2007, General Physics completed the acquisition of certain operating assets and the business of Sandy, a leader in custom product sales training and part of the ADP Dealer Services division of ADP. The Sandy business is run as an unincorporated division of General Physics. Sandy offers custom sales training and print-based and electronic publications primarily to the automotive industry. The final purchase price consisted

of approximately \$4.4 million in cash paid to ADP from cash on hand and the assumption of certain liabilities by General Physics to complete contracts. In addition, General Physics may be required to pay ADP up to an additional \$8.0 million, contingent upon Sandy achieving certain revenue targets, as defined in the purchase agreement, during the two twelve-month periods following the completion of the acquisition.

The preliminary estimated purchase price consists of the following (in thousands):

Cash purchase price	\$ 4,393
Estimated acquisition costs	924
Total estimated purchase price	\$ 5,317

The Company's preliminary purchase price allocation for the net assets acquired is as follows (in thousands):

Inventory	\$ 783
Prepaid expenses and other current assets	76
Property, plant and equipment, net	134
Intangible assets	6,006
Goodwill	1,020
Total assets	8,019
Accounts payable, accrued expenses and other liabilities	1,090
Billings in excess of costs and estimated earnings on uncompleted contracts	1,612
Total liabilities assumed	2,702
Net assets acquired	\$ 5,317

The Company recorded customer-related intangible assets as a result of the acquisition, which included \$4,701,000 relating to customer lists and relationships acquired to be amortized over an estimated useful life of 12 years, and \$1,305,000 relating to contract backlog for future services under firm contracts to be amortized over 14 months subsequent to the acquisition in proportion to the amount of related backlog to be recognized in revenue. During the three months ended March 31, 2007, the Company recognized \$463,000 of amortization expense for these intangible assets, which was comprised of \$398,000 of amortization related to the contract backlog intangible asset and \$65,000 of amortization related to the customer lists and relationships intangible asset.

The following unaudited pro forma condensed consolidated results of operations assume that the acquisition of Sandy was completed as of January 1 for each of the interim periods shown below:

	Three months ended March 31, 2007 (In thousands, except per share amounts)	
		2006
Revenue	\$ 57,491	\$ 59,774
Net income	2,143	1,718
Basic earnings per share	0.13	0.11
Diluted earnings per share	0.13	0.10

The pro forma data above may not be indicative of the results that would have been obtained had the acquisition actually been completed at the beginning of the periods presented, nor does it intend to be a projection of future results.

Operating Highlights

Three Months ended March 31, 2007 compared to the Three Months ended March 31, 2006

For the three months ended March 31, 2007, the Company had income before income tax expense of \$3.5 million compared to \$2.4 million for the three months ended March 31, 2006. The improved results were primarily due to increased operating income of \$1.0 million, the components of which are discussed below. In connection with its share repurchase program, the Company repurchased 107,500 shares of common stock in the open market during the three months ended March 31, 2007 for approximately \$1.0 million in cash. As of March 31, 2007, there was approximately \$0.9 million remaining to be used for repurchases under the original \$5 million buyback program which was authorized in January 2006.

Revenue

(Dollars in thousands)

	Three months ended March 31, 2007 2006	
Process, Energy & Government	\$ 16,778	\$ 19,673
Manufacturing & BPO	24,563	23,855
Sandy Sales Training & Marketing	12,202	
	\$ 53,543	\$ 43,528

Process, Energy & Government revenue decreased \$2.9 million or 14.7% during the first quarter of 2007 compared to the same period in 2006. The decrease in revenue is primarily due to a decrease in revenue of \$2.7 million largely due to the completion of chemical demilitarization projects during 2006 and a \$0.6 million decline in revenue funding for the Domestic Preparedness Equipment Technical Assistance Program (DPETAP) during the first quarter of 2007. In addition, there was a \$1.1 million decrease in hurricane recovery services and a \$0.6 million net decline in products and services for the energy sector primarily due to contracts concluding in 2007. These decreases were offset by an increase of \$0.9 million for construction jobs primarily for liquefied natural gas (LNG) facilities, and an increase of \$1.2 million in engineering and training services for the petroleum and refining industry.

Manufacturing & BPO revenue increased \$0.7 million or 3.0% during the first quarter of 2007 compared to the same period in 2006. The increase in revenue is due to a \$0.6 million net increase in the expansion of business process outsourcing services with new and existing customers. This net increase is comprised of \$2.0 million of increases with new and existing customers, offset by a decrease in revenue of \$1.4 million from a BPO client in 2007 due to a reduction in volume. In addition, revenue from our operations in the United Kingdom increased \$0.3 million due to expansion of BPO and technical training services, and revenue related to training and consulting services with steel customers increased by \$0.5 million. These net increases in revenue were offset by a \$0.7 million net revenue decrease in e-learning implementation and content development services due to contracts concluding in 2007.

The acquisition of Sandy resulted in an increase in revenue of \$12.2 million during the first quarter of 2007. The results of Sandy's operations have been included in the Company's consolidated statements of operations since the completion of the acquisition on January 23, 2007. Subsequent to the acquisition of Sandy, the Company increased its concentration of revenue from General Motors and its affiliates as well as its market concentration in the automotive sector. Revenue from General Motors and its affiliates accounted for approximately 20% of the Company's revenue for the three months ended March 31, 2007, and revenue from the automotive industry accounted for approximately 25% of the Company's revenue for the three months ended March 31, 2007.

Gross Profit

(Dollars in thousands)

	Three months ended March 31, 2007			2006		
		% Revenue			% Revenue	
Process, Energy & Government	\$ 3,101	18.5	%	\$ 2,708	13.8	%
Manufacturing & BPO	3,164	12.9	%	3,054	12.8	%
Sandy Sales Training & Marketing	1,777	14.6	%			
	\$ 8,042	15.0	%	\$ 5,762	13.2	%

Process, Energy & Government gross profit of \$3.1 million or 18.5% of revenue for the first quarter of 2007 increased by \$0.4 million or 14.5% when compared to gross profit of approximately \$2.7 million or 13.8% of revenue for the first quarter of 2006. This increase in gross profit is primarily attributable to revenue and margin increases in construction and petroleum and refining related projects which more than offset the margin decrease in those areas with declining revenue discussed above. The increase in margin on these projects was due to higher labor utilization, and overhead costs increasing at a lower rate than the revenue growth, on these projects during the first quarter of 2007 compared to the same period in 2006.

Manufacturing & BPO gross profit of \$3.2 million or 12.9% of revenue for the first quarter of 2007 increased by \$0.1 million or 3.6% when compared to gross profit of approximately \$3.1 million or 12.8% of revenue for the first quarter of 2006. This increase in gross profit is primarily attributable to an increase in revenue from business process outsourcing customers, as contract costs have not increased at the same rate as our revenue growth in this area, resulting in increased profitability as compared to other contracts in this segment.

Sandy Sales Training and Marketing gross profit was \$1.8 million or 14.6% of revenue for the first quarter of 2007. The results of Sandy's operations have been included in the Company's consolidated statements of operations since the completion of the acquisition on January 23, 2007.

Selling, General and Administrative Expenses

SG&A expenses increased \$1.2 million or 37.0% from \$3.4 million for the first quarter of 2006 to \$4.6 million for the same period in 2007. The increase is primarily due to the following: an increase in amortization expense of \$0.5 million related to intangible assets recorded in connection with the acquisition of Sandy, an increase in labor, benefits and facilities expense of \$0.3 million due to the Sandy acquisition, an increase in accounting fees of approximately \$0.1 million, and the effect of a bad debt recovery of \$0.3 million in the first quarter of 2006 which reduced SG&A expense in 2006 and did not recur in 2007.

Interest Expense

Interest expense decreased \$0.1 million from \$0.4 million for the first quarter of 2006 to \$0.3 million for the first quarter of 2007. The decrease is primarily due to a decrease in interest expense related to the Gabelli Notes as a result of warrant exercises by Gabelli during 2007 and 2006 which resulted in a decrease in the principal balance of the debt (see Note 7 to the accompanying condensed consolidated financial statements), as well as a decrease in amortization of deferred financing costs during the first quarter of 2007 compared to the same period in 2006.

Other Income

Other income was \$0.4 million for both the first quarters of 2007 and 2006, and primarily consisted of income from a joint venture, interest income and investment income.

Income Tax Expense

Income tax expense was \$1.5 million for the first quarter of 2007 compared to \$1.0 million for the first quarter of 2006. The increase is due to increased income before income tax expense for the first quarter of 2007 compared to the same period in 2006. The effective income tax rate was 41.7% and 42.5% for the three months ended March 31, 2007 and 2006, respectively. Income tax expense for the quarterly periods is based on an estimated annual effective tax rate which includes the federal and state statutory rates, permanent differences, and other items that may have an impact on income tax expense.

Liquidity and Capital Resources

Working Capital

The Company had cash and cash equivalents totaling \$0.3 million as of March 31, 2007, compared to \$8.7 million as of December 31, 2006. The decrease in cash from December 31, 2006 is primarily due to the completion of the acquisition of Sandy during the first quarter of 2007 in which the Company paid ADP a cash purchase price of approximately \$4.4 million from cash on hand and incurred costs to complete contracts in progress as of the acquisition date. In addition, the Company may be required to pay ADP up to an additional \$8.0 million, contingent upon Sandy achieving certain revenue targets, as defined in the purchase agreement, during the two twelve-month periods following the completion of the acquisition. The Company also used approximately \$1.0 million of cash to repurchase 107,500 shares of its common stock in the open market during the first quarter of 2007. In addition, the Company's working capital and cash balance decreased due to the fact that the Company did not acquire Sandy's accounts receivable and contract-related unbilled balances as of the acquisition date, which resulted in a short-term investment by the Company to complete contracts and a delay in the collection of billings (see *Cash Flows* section below).

The Company believes that cash generated from operations and borrowing availability under the Credit Agreement (described below), will be sufficient to fund the working capital and other requirements of the Company for the foreseeable future.

For the quarter ended March 31, 2007, the Company's working capital decreased \$2.8 million from \$23.1 million at December 31, 2006 to \$20.3 million at March 31, 2007. The decrease is primarily due to the use of cash in connection with the Sandy acquisition and share repurchases discussed above.

Cash Flows

Three months ended March 31, 2007 compared to the Three Months ended March 31, 2006

The Company's cash balance decreased \$8.4 million from \$8.7 million as of December 31, 2006 to \$0.3 million at March 31, 2007. The decrease in cash and cash equivalents during the first quarter of 2007 resulted from cash used in operating activities of \$6.4 million and cash used in investing activities of \$5.4 million, offset by cash provided by financing activities of \$3.5 million.

Cash used in operating activities was \$6.4 million for the first quarter of 2007 compared to cash provided by operating activities of \$2.4 million for the same period in 2006. The decrease in cash compared to the prior period is primarily due to unfavorable changes in operating assets and liabilities during the first quarter of 2007 compared to the same period in 2006, primarily due to an increase in costs and estimated earnings in excess of billings on uncompleted contracts as a result of costs incurred for Sandy contracts which had not yet been billed as of March 31, 2007.

Cash used in investing activities was \$5.4 million for the first quarter of 2007 compared to \$0.8 million for the same period in 2006. The increase in cash used in investing activities is primarily due to \$5.3 million of cash paid in connection with the acquisition of Sandy, which included the final cash purchase price of \$4.4 million and third party acquisition costs of \$0.9 million (see Note 3 to the accompanying condensed consolidated financial statements for further details and the preliminary estimated purchase price allocation), compared to \$0.6 million of cash used in the first quarter of 2006 for the acquisition of Peters Management Consultancy Ltd. (PMC) in the United Kingdom.

Cash provided by financing activities was \$3.5 million for the first quarter of 2007 compared to cash used in financing activities of \$18.7 million for the same period in 2006. The increase in cash is primarily due to \$20.8 million of cash used in connection with the capital stock restructuring in 2006 which did not recur in 2007, an increase in short-term borrowings during the first quarter of 2007 of \$2.1 million compared to the same period in 2006, and an increase in cash received from the exercise of stock options of \$0.6 million during the first quarter of 2007 compared to the same period in 2006, offset by an increase of \$0.9 million of cash used during the first quarter of 2007 for repurchases of common stock in the open market.

Short-term Borrowings and Long-term Debt

General Physics has a \$25 million Credit Agreement with a bank that expires on August 12, 2007, as amended, with annual renewal options, and is secured by certain assets of General Physics and provides for an unsecured guaranty from the Company. The interest rate on borrowings under the Credit Agreement is the daily LIBOR Market Index Rate plus 3.00%. Based upon the financial performance of General Physics, the interest rate can be reduced. As of March 31, 2007, the rate was reduced to LIBOR plus 2.50%, which resulted in a rate of approximately 7.8%. The Credit Agreement contains covenants with respect to General Physics' minimum tangible net worth, total liabilities ratio, leverage ratio, interest coverage ratio and its ability to make capital expenditures. The Credit Agreement also contains certain restrictive covenants regarding future acquisitions,

inurrence of debt and the payment of dividends. In connection with the acquisition of Sandy, the bank provided a waiver in which it consented to the acquisition and agreed not to test the tangible net worth and total liabilities covenants as of March 31, 2007. General Physics was in compliance with all other loan covenants under the Credit Agreement as of March 31, 2007. General Physics is also currently restricted from paying dividends and management fees to the Company in excess of \$1.0 million in any fiscal year, with the exception of a waiver by the lender which permits General Physics to provide cash to the Company to repurchase up to \$5 million of additional shares of its outstanding common stock. As of March 31, 2007, the Company had \$3,852,000 of outstanding borrowings under the Credit Agreement and there was approximately \$18,049,000 of available borrowings based upon 80% of eligible accounts receivable and 80% of eligible unbilled receivables. As of December 31, 2006, the Company had no amounts outstanding under the Credit Agreement.

In August 2003, the Company issued and sold to four Gabelli funds \$7.5 million aggregate principal amount of 6% Conditional Subordinated Notes due 2008 (Gabelli Notes) and 937,500 warrants (GP Warrants), each entitling the holder thereof to purchase (subject to adjustment) one share of the Company's common stock at an exercise price of \$8.00. The aggregate purchase price for the Gabelli Notes and GP Warrants was \$7.5 million. The Gabelli Notes are secured by a mortgage on the Company's former property located in Pawling, New York which was distributed to National Patent Development Corporation (NPDC) in connection with its spin-off in 2004. In addition, at any time that less than \$1,875,000 million principal amount of the Gabelli Notes is outstanding, the Company may defease the obligations secured by the mortgage and obtain a release of the mortgage. Subsequent to the spin-offs of NPDC and GSE Systems, Inc. and in accordance with the anti-dilution provisions of the warrant agreement, the number of GP Warrants was adjusted to 984,116 and the exercise price was adjusted to \$5.85 per share. During the year ended December 31, 2006, Gabelli exercised 197,823 GP Warrants for a total exercise price of \$1,157,000, which was paid in the form of \$140,000 cash and delivery of \$1,017,000 of the Gabelli Notes. During the three months ended March 31, 2007, Gabelli exercised an additional 412,431 warrants for a total exercise price of \$2,413,000, which further reduced the principal balance of the Gabelli Notes. As of March 31, 2007, there were 373,862 warrants with an exercise price of \$5.85 outstanding and exercisable.

In October 2003, the Company issued a five-year 5% note due in full in October 2008 in the principal amount of \$5,250,955 to ManTech International (ManTech). Interest is payable quarterly. Each year during the term of the note, ManTech has the option to convert up to 20% of the original principal amount of the note into common stock of the Company at the then market price of the Company's common stock, but only in the event that the Company's common stock is trading at \$10 per share or more. In the event that less than 20% of the principal amount of the note is not converted in any year, such amount not converted will be eligible for conversion in each subsequent year until converted or until the note is repaid in cash.

Management Discussion of Critical Accounting Policies

The preparation of our consolidated financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Our estimates, judgments and assumptions are continually evaluated based on available information and experience. Because of the use of estimates inherent in the financial reporting process, actual results could differ from those estimates.

Certain of our accounting policies require higher degrees of judgment than others in their application. These include revenue recognition, impairment of intangible assets, including goodwill, and valuation of deferred tax assets. We discuss our accounting policies for impairment of intangible assets and valuation of deferred tax assets in Note 2 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2006. As a result of

the acquisition of Sandy during the first quarter of 2007, we have updated our accounting policy with respect to revenue recognition below.

Revenue Recognition

The Company provides services under time-and-materials, cost-reimbursable, fixed-price and fixed-fee per transaction contracts to both government and commercial customers. Each contract has different terms based on the scope, deliverables and complexity of the engagement, requiring the Company to make judgments and estimates about recognizing revenue. Revenue is recognized as services are performed.

Under time-and-materials contracts, as well as certain government cost-reimbursable and certain fixed-price contracts, the contractual billing schedules are based on the specified level of resources the Company is obligated to provide. As a result, for these level-of-effort contracts, the contractual billing amount for the period is a measure of performance and, therefore, revenue is recognized in that amount.

Revenue under government fixed price and certain commercial contracts is recognized using the percentage of completion method in accordance with the American Institute of Certified Public Accountants Statement of Position 81-1, *Accounting for Performance of Construction-Type and Certain Production-Type Contracts*. Under the percentage-of-completion method, management estimates the percentage-of-completion based upon costs incurred as a percentage of the total estimated costs. When total cost estimates exceed revenues, the estimated losses are recognized immediately. The use of the percentage-of-completion method requires significant judgment relative to estimating total contract revenues and costs, including assumptions relative to the length of time to complete the project, the nature and complexity of the work to be performed, and anticipated changes in estimated salaries and other costs. Estimates of total contract revenues and costs are continuously monitored during the term of the contract, and recorded revenues and costs are subject to revision as the contract progresses. When revisions in estimated contract revenues and costs are determined, such adjustments are recorded in the period in which they are first identified.

For certain commercial fixed-fee per transaction contracts, revenue is recognized during the period in which services are delivered in accordance with the pricing outlined in the contracts. For other commercial fixed price contracts which typically involve a discrete project, such as development of training content and materials, design of training processes, software implementation, or engineering projects, the contractual billing schedules are not based on the specified level of resources the Company is obligated to provide. These discrete projects generally do not contain milestones or other reliable measures of performance. As a result, revenue on these arrangements is recognized using the percentage-of-completion method based on the relationship of costs incurred to total estimated costs expected to be incurred over the term of the contract. The Company believes this methodology is a reasonable measure of proportional performance since performance primarily involves personnel costs and services are provided to the customer throughout the course of the projects through regular communications of progress toward completion and other project deliverables. In addition, the customer typically is required to pay the Company for the proportionate amount of work and cost incurred in the event of contract termination.

For certain fixed-fee per transaction and fixed price contracts in which the output of the arrangement is measurable, such as for the shipping of publications and print materials, revenue is recognized when the deliverable is met and the product is delivered based on the output method of performance. The customer is required to pay for the cost incurred in the event of contract termination.

Certain of the Company's fixed price commercial contracts contain revenue arrangements with multiple deliverables. The Company applies the separation guidance in Emerging Issues Task Force (EITF) 00-21, *Revenue Arrangements with Multiple Deliverables* (EITF 00-21), for these types of contracts. Revenue

arrangements with multiple deliverables are evaluated to determine if the deliverables can be divided into more than one unit of accounting. For contracts determined to have more than one unit of accounting, the Company recognizes revenue for each deliverable based on the revenue recognition policies discussed above; that is, the Company recognizes revenue in accordance with work performed and costs incurred, with fee being allocated proportionately over the service period. Within each multiple deliverable project, there is objective and reliable fair value across all units of the arrangement, as discounts are not offered or applied to one deliverable versus another, and the rates bid across all deliverables are consistent.

As part of the Company's on-going operations to provide services to its customers, incidental expenses, which are commonly referred to as "out-of-pocket" expenses, are billed to customers, either directly as a pass-through cost or indirectly as a cost estimated in proposing on fixed-price contracts. Out-of-pocket expenses include expenses such as airfare, mileage, hotel stays, out-of-town meals and telecommunication charges. The Company's policy provides for these expenses to be recorded as both revenue and direct cost of services in accordance with the provisions of EITF 01-14, *Income Statement Characterization of Reimbursements Received for Out-of-Pocket Expenses Incurred*.

In connection with its delivery of products, primarily for publications delivered by the Sandy Sales Training & Marketing segment, the Company incurs shipping and handling costs which are billed to customers directly as a pass-through cost. The Company's policy provides for these expenses to be recorded as both revenue and direct cost of revenue in accordance with the provisions of EITF 00-10, *Accounting for Shipping and Handling Fees and Costs*.

Accounting Standard Adopted

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109* (FIN No. 48). FIN No. 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition of a tax position taken or expected to be taken on a tax return. Under FIN No. 48, a tax benefit from an uncertain tax position may be recognized only if it is "more likely than not" that the position is sustainable upon examination, based on its technical merits. The tax benefit of a qualifying position under FIN No. 48 would equal the largest amount of tax benefit that is greater than 50 percent likely of being realized upon ultimate settlement with a taxing authority having full knowledge of all relevant information. FIN No. 48 was effective as of January 1, 2007 for calendar-year companies. In applying the new accounting model prescribed by FIN No. 48, the Company was required to determine and assess all material positions existing as of the adoption date, including all significant uncertain positions, in all tax years, that are still subject to assessment or challenge under relevant tax statutes. The Company adopted FIN No. 48 effective January 1, 2007. See Note 9 to the accompanying condensed consolidated financial statements for further details regarding the impact of adoption of FIN No. 48 on the Company's consolidated financial statements.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. Forward-looking statements are not statements of historical facts, but rather reflect our current expectations concerning future events and results. We use words such as "expects", "intends", "believes", "may", "will", "should", "could", "anticipates" and similar expressions to indicate forward-looking statements, but their absence does not mean a statement is not forward-looking. Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements, including, but not limited to, those factors set forth under Item 1A - Risk Factors of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006 and those

other risks and uncertainties detailed in the Company's periodic reports and registration statements filed with the Securities and Exchange Commission. We caution that these risk factors may not be exhaustive. We operate in a continually changing business environment, and new risk factors emerge from time to time. We cannot predict these new risk factors, nor can we assess the effect, if any, of the new risk factors on our business or the extent to which any factor or combination of factors may cause actual results to differ from those expressed or implied by these forward-looking statements.

If any one or more of these expectations and assumptions proves incorrect, actual results will likely differ materially from those contemplated by the forward-looking statements. Even if all of the foregoing assumptions and expectations prove correct, actual results may still differ materially from those expressed in the forward-looking statements as a result of factors we may not anticipate or that may be beyond our control. While we cannot assess the future impact that any of these differences could have on our business, financial condition, results of operations and cash flows or the market price of shares of our common stock, the differences could be significant. We do not undertake to update any forward-looking statements made by us, whether as a result of new information, future events or otherwise. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in this report.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

The Company has no material changes to the disclosure on this matter made in its Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We maintain a comprehensive set of disclosure controls and procedures (as defined in Rules 13a-15(e) and under the Securities Exchange Act of 1934 ("Exchange Act")) designed to provide reasonable assurance that information required to be disclosed in our filings under the Exchange Act is recorded, processed, summarized and reported accurately and within the time periods specified in the SEC's rules and forms. Under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures are effective in providing reasonable assurance of the achievement of the objectives described above.

Internal Control Over Financial Reporting

During the first quarter ended March 31, 2007, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**Item 1. Legal Proceedings**

None.

Item 1A. Risk Factors

The Company has no material changes to the disclosure on this matter made in its Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information about the Company's share repurchase activity for the three months ended March 31, 2007:

Month	Issuer Purchases of Equity Securities			Total number of shares purchased as part of publicly announced program		Approximate dollar value of shares that may yet be purchased under the program	
	Total number of shares purchased	Average price paid per share					
January 1 - 31, 2007							
February 1 - 28, 2007							
March 1 - 31, 2007	122,090	(1)	\$ 9.06	107,500	(2)	\$ 902,000	

- (1) Represents 107,500 shares repurchased in the open market in connection with the Company's share repurchase program, 4,400 shares surrendered by an employee to satisfy the statutory tax withholding obligations upon the vesting of restricted stock units, and 10,190 shares repurchased from the Trustee of the GP Retirement Savings Plan to correct an imbalance of cash and stock in a unitized fund containing only cash and Company stock (the repurchased stock was subsequently included in Company contributions to the Plan after the imbalance had been corrected).
- (2) Represents shares repurchased in the open market in connection with the Company's share repurchase program under which the Company may repurchase up to \$5 million of its common stock from time to time in the open market subject to prevailing business and market conditions and other factors. This program was authorized by the Company's Board of Directors and was publicly announced on January 19, 2006. There is no expiration date for the repurchase program.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

None.

Item **Exhibits**

6.

- 31.1 Certification of Chief Executive Officer of the Company dated May 10, 2007 pursuant to Securities and Exchange Act Rule 13d-14(a)/15(d-14(a), as adopted pursuant to Section 302 and 404 of the Sarbanes-Oxley Act of 2002.*
- 31.2 Certification of Executive Vice President and Chief Financial Officer of the Company dated May 10, 2007 pursuant to Securities and Exchange Act Rule 13d-14(a)/15(d-14(a), as adopted pursuant to Section 302 and 404 of the Sarbanes-Oxley Act of 2002.*
- 32.1 Certification of Chief Executive Officer and Chief Financial Officer of the Company dated May 10, 2007 pursuant to 18 U.S.C. Section 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.*
