Release 30 June 2008, Lisbon

## **Preliminary decision awards victory in TDT contest**

Portugal Telecom ( PT ) announces that it has been notified of the Draft Final Decision of the Committee of Evaluation of the proposals submitted within the public tender procedure on the Digital Terrestrial Television (DTT) concerning the Muxes B to F (pay-TV service). In such Draft Final Decision, PT 's proposal, submitted through its subsidiary PT Comunicações, SA, has earned the best classification by an independent jury.

PT, through PT Comunicações, has delivered two proposals to participate in the DTT public tenders: the public tender related to Mux A transport of the free-to-air (FTA) signal (four existing FTA channels plus a fifth FTA channel to be attributed in 2009); and the public tender on Muxes B to F allocation of rights to use five frequencies (two nationwide and three regional) and the licensing of a pay-TV operator.

This preliminary decision of the Public Tender Committee, which will be subject to prior hearing of the interested parties, thus awards PT the victory in the DTT public tender related with the pay-TV service. The licenses to be attributed will be valid for a 15-year period, as from the date of the respective attribution. The procedure for the evaluation of PT 's proposal related to the Mux A (transport of the free-to-air signal) is in progress and PT is the only bidder for this public tender.

The participation of PT in both DTT tenders and the preliminary decision of the Public Tender Committee for Mux B to F confirm PT 's commitment towards the successful rollout of DTT in Portugal as well as towards the implementation of its multi-platform pay-TV strategy, which aims to be a growth lever of the domestic operations of PT.

**FORWARD-LOOKING STATEMENTS**

This document may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words anticipates, believes, estimates, expects, plans and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
