NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2009 and 2010

(unaudited)

1. Description of the business and recent developments:

Description of business

Cogent Communications Group, Inc. (the Company) is a Delaware corporation and is headquartered in Washington, DC. The Company is a facilities-based provider of low-cost, high-speed Internet access and Internet Protocol (IP) communications services. The Company's network is specifically designed and optimized to transmit data using IP. The Company delivers its services to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations in North America and Europe.

The Company offers on-net Internet access services exclusively through its own facilities, which run all the way to its customers' premises. Because of its integrated network architecture, the Company is not dependent on local telephone companies to serve its on-net customers. The Company provides on-net Internet access to its net centric customers which include certain bandwidth-intensive users such as universities, other Internet service providers, telephone companies, cable television companies and commercial content providers at speeds up to 10 Gigabits per second. These customers generally receive service in colocation facilities and the Company's data centers. The Company also offers Internet access services to its corporate customers in multi-tenant office buildings typically serving law firms, financial services firms, advertising and marketing firms and other professional services businesses. The Company operates data centers throughout North America and Europe that allow customers to collocate their equipment and access the Company's network.

In addition to providing on-net services, the Company also provides Internet connectivity to customers that are not located in buildings directly connected to its network. The Company serves these off-net corporate customers using other carriers' facilities to provide the last mile portion of the link from its customers' premises to the Company's network. The Company also provides certain non-core services that resulted from acquisitions. The Company continues to support but does not actively sell these non-core services.

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the unaudited condensed consolidated financial statements reflect all normal recurring adjustments that the Company considers necessary for the fair presentation of its results of operations and cash flows for the interim periods covered, and of the financial position of the Company at the date of the interim condensed consolidated balance sheet. Certain information and footnote disclosures normally included in the annual consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. The operating results for interim periods are not necessarily indicative of the operating results for the entire year. While the Company believes that

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

the disclosures are adequate to not make the information misleading, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in its 2009 annual report on Form 10-K.

The accompanying unaudited consolidated financial statements include all wholly-owned subsidiaries. All inter-company accounts and activity have been eliminated.

Use of estimates

The preparation of consolidated financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

Foreign currency translation adjustment and comprehensive income (loss)

The Company's only component of other comprehensive income (loss) is the currency translation adjustment for all periods presented.

	Three months ended September 30, 2009	Three months ended September 30, 2010	Nine months ended September 30, 2009	Nine months ended September 30, 2010
Net loss	\$ (3,279)	\$ (462)	\$ (15,892)	\$ (1,915)
Currency translation	1,313	3,781	1,545	(275)
Comprehensive (loss) income	\$ (1,966)	\$ 3,319	\$ (14,347)	\$ (2,190)

Table of Contents

Financial instruments

At December 31, 2009 and September 30, 2010, the carrying amount of cash and cash equivalents, accounts receivable, prepaid and other current assets, accounts payable, and accrued expenses approximated fair value because of the short-term nature of these instruments. The Company measures its cash equivalents at fair value based upon quoted (Level 1) market prices and at amortized cost, which approximates fair value. Based upon the quoted (Level 1) market price at September 30, 2010, the fair value of the Company's \$92.0 million convertible senior notes was approximately \$74.8 million.

The Company was party to letters of credit totaling approximately \$0.4 million as of December 31, 2009 and September 30, 2010. These letters of credit are secured by investments totaling approximately \$0.5 million at December 31, 2009 and September 30, 2010 that are restricted and included in other assets.

Basic and diluted net (loss) income per common share

Basic earnings per share (EPS) excludes dilution for common stock equivalents and is computed by dividing net income or (loss) available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS is based on the weighted-average number of shares of common stock outstanding during each period, adjusted for the effect of common stock equivalents, if dilutive.

Shares of restricted stock are included in the computation of basic EPS as they vest and are included in diluted EPS, to the extent they are dilutive, determined using the treasury stock method. As of September 30, 2009 and September 30, 2010, 0.6 million and 1.2 million unvested shares of restricted common stock, respectively, are not included in the computation of diluted (loss) per share, as the effect would be anti-dilutive.

Using the if-converted method, the shares issuable upon conversion of the Company's 1.00% Convertible Senior Notes (the Notes) were anti-dilutive for the three and nine months ended September 30, 2009 and 2010. Accordingly, the impact has been excluded from the computation of diluted (loss) per share. The Notes are convertible into shares of the Company's common stock at an initial conversion price of \$49.18 per share, yielding 1.9 million shares at September 30, 2009 and September 30, 2010, subject to certain adjustments set forth in the indenture.

The Company computes the dilutive effect of outstanding common stock options using the treasury stock method. For the three and nine months ended September 30, 2009 and 2010, options to purchase 0.7 million and 0.4 million shares of common stock, respectively, at weighted-average exercise prices of \$7.67 and \$12.81 per share, respectively, are not included in the computation of diluted (loss) per share as the effect would be anti-dilutive. For the three and nine months ended September 30, 2009 and 2010, the Company's employees exercised options for approximately 159,000, 365,000, 11,000 and 23,000 common shares, respectively.

2. Property and equipment:

Depreciation and amortization expense related to property and equipment and capital leases was \$15.2 million and \$14.7 million for the three months ended September 30, 2009 and 2010, respectively, and was \$44.9 million and \$42.2 million for the nine months ended September 30, 2009 and 2010, respectively. In the three months ended March 31, 2010, the Company recorded an impairment charge for certain property and equipment totaling \$0.6 million that is included in depreciation and amortization expense. There were no such charges in the three months ended September 30, 2010 or the three or nine months ended September 30, 2009.

Capitalized network construction labor and related costs

The Company capitalized salaries and related benefits of employees working directly on the construction and build-out of its network of \$0.9 million and \$1.5 million for the three months ended September 30, 2009 and 2010, respectively, and \$3.5 million and \$4.4 million for the nine months ended September 30, 2009 and 2010, respectively.

Asset Retirement Obligations

In the first quarter of 2010, the Company determined that its estimates of restoration costs for its leased facility asset retirement obligations were too high based on current costs to restore and changes in the expected timing of the payment of those costs due to the extensions of lease terms. As a result, in the first quarter of 2010, the Company revised its estimates of the cash flows that it believes will be required to settle its leased facility asset retirement obligations at the end of the respective lease terms, which resulted in a reduction to the Company's asset retirement obligation liability. As a result of the revisions in the estimated amount and timing of cash flows for its asset retirement obligations, in the three months ended March 31, 2010, the Company reduced its asset retirement obligation liability by \$0.9 million with an offsetting reduction to depreciation and amortization of \$0.7 million and selling, general and administrative expenses of \$0.2 million.

Table of Contents**3. Long -term debt:***Convertible Senior Notes*

In June 2007, the Company issued 1.00% Convertible Senior Notes (the Notes) due June 15, 2027, for an aggregate principal amount of \$200.0 million in a private offering for resale to qualified institutional buyers pursuant to Rule 144A of the Securities Act of 1933, as amended (the Securities Act). The Notes are unsecured and bear interest at 1.00% per annum. Interest is payable in cash semiannually in arrears on June 15 and December 15, of each year, beginning on December 15, 2007. The Company received proceeds of approximately \$195.1 million, after deducting the original issue discount of 2.25% and issuance costs. In 2008, the Company purchased an aggregate of \$108.0 million of face value of the Notes for \$48.6 million in cash in a series of transactions.

The Notes are convertible into shares of the Company's common stock at an initial conversion price of \$49.18 per share, or 20.3355 shares for each \$1,000 principal amount of Notes, subject to adjustment for certain events as set forth in the indenture. Upon conversion of the Notes, the Company has the right to deliver shares of the Company's common stock, cash or a combination of cash and shares of the Company's common stock. The Notes are convertible (i) during any fiscal quarter after the fiscal quarter ending September 30, 2007, if the closing sale price of the Company's common stock for 20 or more trading days in a period of 30 consecutive trading days ending on the last trading day of the immediately preceding fiscal quarter exceeds 130% of the conversion price in effect on the last trading day of the immediately preceding fiscal quarter, or (ii) specified corporate transactions occur, or (iii) the trading price of the Notes falls below a certain threshold, or (iv) if the Company calls the Notes for redemption, or (v) on or after April 15, 2027, until maturity. In addition, following specified corporate transactions, the Company will increase the conversion rate for holders who elect to convert Notes in connection with such corporate transactions, provided that in no event may the shares issued upon conversion, as a result of adjustment or otherwise, result in the issuance of more than 35.5872 common shares per \$1,000 principal amount. The Notes include an Irrevocable Election of Settlement whereby the Company may choose, in its sole discretion, and without the consent of the holders of the Notes, to waive the Company's right to settle the conversion feature in either cash or stock or in any combination. The Notes may be redeemed by the Company at any time after June 20, 2014 at a redemption price of 100% of the principal amount plus accrued interest. Holders of the Notes have the right to require the Company to repurchase for cash all or some of their notes on June 15, 2014, 2017 and 2022 and upon the occurrence of certain designated events at a redemption price of 100% of the principal amount plus accrued interest.

The debt and equity components for the Notes were as follows (in thousands):

	December 31, 2009	September 30, 2010
Principal amount of convertible senior notes	\$ 91,978	\$ 91,978
Unamortized discount	(25,708)	(22,036)
Net carrying amount	66,270	69,942
Additional paid-in capital	74,933	74,933

At September 30, 2010, the unamortized discount had a remaining recognition period of 3.8 years. The amount of interest expense recognized and effective interest rate for the three and nine months ended September 30 was as follows (in thousands):

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

	Three Months Ended September 30, 2009	Three Months Ended September 30, 2010	Nine months Ended September 30, 2009	Nine months Ended September 30, 2010
Contractual coupon interest	\$ 230	\$ 230	\$ 690	\$ 690
Amortization of discount and costs on Notes	1,151	1,254	3,382	3,683
Interest expense	\$ 1,381	\$ 1,484	\$ 4,072	\$ 4,373
Effective interest rate	8.7%	8.7%	8.7%	8.7%

Table of Contents

4. Contingencies:

Current and potential litigation

In the normal course of business the Company is involved in other legal activities and claims. Because such matters are subject to many uncertainties and the outcomes are not predictable with assurance, the liability related to these legal actions and claims cannot be determined with certainty. Management does not believe that such claims and actions will have a material impact on the Company's financial condition or results of operations.

Revolving line of credit

In October 2009, the Company entered into a \$20.0 million revolving line of credit facility with a bank. There have been no borrowings under the revolving facility and the Company was in compliance with its covenants. The facility expired on October 14, 2010.

Incentive Award Plan

The Company has an award plan, the 2004 Incentive Award Plan, as amended (the Award Plan), under which grants of restricted stock and options are made. On April 15, 2010, the Company's stockholders approved a 1.3 million increase to the authorized shares in the Award Plan. In the second quarter of 2010, the Company granted approximately 1.0 million restricted shares to certain of its employees that will vest over a three year period. These restricted shares were valued at approximately \$9.8 million and will be recognized as equity-based compensation expense on a straight-line basis over the three year service period. The Company also granted an additional 0.2 million restricted shares that are subject to certain performance conditions including designated revenue growth, EBITDA margin, as adjusted, and capital expenditures targets. In November 2010, the performance conditions were modified. The Company expects to record approximately \$0.5 million of equity-based compensation expense related to the modified conditions in the fourth quarter of 2010 since it is considered probable that the conditions will be met.

5. Related party transactions:

Office lease

The Company's headquarters is located in an office building owned by a partnership (6715 Kenilworth Avenue Partnership). The two owners of the partnership are the Company's Chief Executive Officer, who has a 51% interest in the partnership and his wife, Ruth Schaeffer, who has a 49% interest in the partnership. The Company paid \$0.5 million for each of the nine month periods ended September 30, 2009 and 2010 in rent and related costs (including taxes and utilities) to this partnership under a lease that expires in August 2012. The dollar value of the Company's

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

Chief Executive Officer's interest in the lease payments for each of the nine month periods ended September 30, 2009 and 2010 was \$0.25 million. The dollar value of his wife's interest in the lease payment for each of the nine month periods ended September 30, 2009 and 2010 was \$0.25 million. If the Company's Chief Executive Officer's interest is combined with that of his wife then the total dollar value of his interest in the lease payments for each of the nine month periods ended September 30, 2009 and 2010 was \$0.5 million.

In the nine months ended September 30, 2010, the Company purchased approximately \$96,000 of equipment from an equipment vendor. One of the Company's directors is also a director of the equipment vendor.

6. Segment information:

The Company operates as one operating segment. Below are the Company's service revenue and long lived assets by geographic region (in thousands):

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis together with our condensed consolidated financial statements and related notes included in this report. The discussion in this report contains forward-looking statements that involve risks and uncertainties, such as statements of our plans, objectives, expectations and intentions. The cautionary statements made in this report should be read as applying to all related forward-looking statements wherever they appear in this report. Our actual results could differ materially from those discussed here. Factors that could cause or contribute to these differences include, but are not limited to:

Future economic instability in the global economy, which could affect spending on Internet services; the impact of changing foreign exchange rates (in particular the Euro-USD and Canadian USD exchange rates) on the translation of our non-USD denominated revenues, expenses, assets and liabilities; legal and operational difficulties in new markets; the imposition of a requirement that we contribute to the Universal Service Fund; changes in government policy and/or regulation, including pending net neutrality rules by the United States Federal Communications Commission and in the area of data protection; increasing competition leading to lower prices for our services; our ability to attract new customers and to increase and maintain the volume of traffic on our network; the ability to maintain our Internet peering arrangements on favorable terms; our reliance on an equipment vendor, Cisco Systems Inc., and the potential for hardware or software problems associated with such equipment; the dependence of our network on the quality and dependability of third-party fiber providers; our ability to retain certain customers that comprise a significant portion of our revenue base; the management of network failures and/or disruptions; and outcomes in litigation as well as other risks discussed from time to time in our filings with the Securities and Exchange Commission, including, without limitation, our annual report on Form 10-K for the fiscal year ended December 31, 2009.

General Overview

We are a leading facilities-based provider of low-cost, high-speed Internet access and IP communications services. Our network is specifically designed and optimized to transmit data using IP. IP networks are significantly less expensive to operate and are able to achieve higher performance levels than the traditional circuit-switched networks used by many of our competitors when providing Internet access services, thus, we believe, giving us cost and performance advantages. We deliver our services to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations through approximately 24,060 customer connections in North America and Europe.

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

We provide on-net Internet access to our net centric customers, which include certain bandwidth-intensive users such as universities, other Internet service providers, telephone companies, cable television companies and commercial content providers at speeds up to 10 Gigabits per second. These customers generally receive service in colocation facilities and in our data centers. We also provide on-net Internet access services to our corporate customers in multi-tenant office buildings typically serving law firms, financial services firms, advertising and marketing firms and other professional services businesses.

Our on-net service consists of high-speed Internet access and IP connectivity ranging from 0.5 Megabits per second to 10 Gigabits per second of bandwidth. We offer our on-net services to customers located in buildings that are physically connected to our network. Off-net services are sold to businesses that are connected to our network primarily by means of "last mile" access service lines obtained from other carriers, primarily in the form of point-to-point TDM, POS, SDH and/or Carrier Ethernet circuits. Our non-core services, which consist primarily of legacy services of companies whose assets or businesses we have acquired primarily include dial-up Internet access services and voice services (only provided in Toronto, Canada). We do not actively market these non-core services and expect the service revenue associated with them to continue to decline.

Our network is comprised of in-building riser facilities, metropolitan optical fiber networks, metropolitan traffic aggregation points and inter-city transport facilities. Our network is physically connected entirely through our facilities to 1,539 buildings in which we provide our

Table of Contents

on-net services, including 1,086 multi-tenant office buildings. We also provide on-net services in carrier-neutral colocation facilities, Cogent controlled data centers and single-tenant office buildings. Because of our integrated network architecture, we are not dependent on local telephone companies to serve our on-net customers. We emphasize the sale of on-net services because we believe we have a competitive advantage in providing these services and these services generate gross profit margins that are greater than the gross profit margins on our off-net and non-core services.

We also provide Internet connectivity to customers that are not located in buildings directly connected to our network. We serve these off-net customers using other carriers facilities to provide the last mile (local loop) portion of the link from our customers premises to our network. We also provide certain non-core services which are legacy services which we acquired and continue to support but do not actively sell.

We believe our key growth opportunity is provided by our high-capacity network, which provides us with the ability to add a significant number of customers to our network with minimal direct incremental costs. Our focus is to add customers to our network in a way that maximizes its use and at the same time provides us with a profitable customer mix. We are responding to this opportunity by increasing our sales and marketing efforts including increasing our number of sales representatives. In addition, we may add customers to our network through strategic acquisitions.

We are expanding our network to locations that we believe can be economically integrated and represent significant concentrations of Internet traffic. One of our keys to developing a profitable business will be to carefully match the expense of extending our network to reach new customers with the revenue expected to be generated by those customers.

We believe two of the most important trends in our industry are the continued long-term growth in Internet traffic and a decline in Internet access prices within carrier neutral data centers. As Internet traffic continues to grow and prices per unit of traffic continue to decline, we believe our ability to load our network and gain market share from less efficient network operators will continue to expand. However, continued erosion in Internet access prices will likely have a negative impact on the rate at which we can increase our revenues and our profitability. Our revenue may also be negatively affected if we are unable to grow our Internet traffic or if the rate of growth of Internet traffic does not offset the expected decline in per unit pricing. We do not know if Internet traffic will increase or decrease, or the rate at which it will grow or decrease. Changes in Internet traffic will be a function of the number of users, the applications for which the Internet is used, the pricing of Internet services, and other factors.

The growth in Internet traffic has a more significant impact on our net centric customers who represent the majority of the traffic on our network and who tend to consume the majority of their allocated bandwidth on their connections. Net centric customers tend to purchase their service on a price per megabit basis. Our corporate customers tend to utilize a small portion of their allocated bandwidth on their connections and tend to purchase their service on a per connection basis.

Due to our strategic acquisitions of network assets and equipment, we believe we are positioned to grow our revenue base. We continue to purchase and deploy network equipment to parts of our network to maximize the utilization of our assets and to expand our network. Our future capital expenditures will be based primarily on our planned expansion of our network, the addition of on-net buildings and the concentration and growth of our customer base. We plan to continue to expand our network and to increase our number of on-net buildings by approximately 120 buildings by December 31, 2010 from 1,451 buildings at December 31, 2009. Many factors can affect our ability to add buildings to our network. These factors include the willingness of building owners to grant us access rights, the availability of optical fiber networks to serve those buildings, and equipment availability.

Results of Operations

Three Months Ended September 30, 2009 Compared to the Three Months Ended September 30, 2010

Our management reviews and analyzes several key financial measures in order to manage our business and assess the quality of and potential variability of our service revenues and cash flows. The following summary table presents a comparison of our results of operations for the three months ended September 30, 2009 and 2010 with respect to certain key financial measures. The comparisons illustrated in the table are discussed in greater detail below.

		Three months ended September 30,		
	2009		2010	Percent Change
		(in thousands)		
Service revenue	\$	60,229	\$ 66,783	10.9%
On-net revenue		48,050	51,513	7.2%
Off-net revenue		11,127	14,509	30.4%
Non-core revenue		1,052	761	(27.7)%
Network operations expenses (1)		26,375	30,535	15.8%
Selling, general, and administrative expenses (2)		16,847	15,964	(5.2)%
Equity-based compensation expense		1,267	1,799	42.0%
Depreciation and amortization expenses		15,282	14,736	(3.6)%

Table of Contents

(1) Excludes equity-based compensation expenses of \$25 and \$104 in the three months ended September 30, 2009 and 2010, respectively, which, if included would have resulted in a period-to-period change of 16.1%.

(2) Excludes equity-based compensation expenses of \$1,242 and \$1,695 in the three months ended September 30, 2009 and 2010, respectively, which, if included would have resulted in a period-to-period change of (2.4)%.

Service Revenue. Our service revenue increased 10.9% from \$60.2 million for the three months ended September 30, 2009 to \$66.8 million for the three months ended September 30, 2010. The impact of exchange rates resulted in a decrease of revenues for the three months ended September 30, 2010 of approximately \$1.3 million. All foreign currency comparisons herein reflect our third quarter 2010 results translated at the average foreign currency exchange rates for the third quarter of 2009. For the three months ended September 30, 2009 and 2010, on-net, off-net and non-core revenues represented 79.8%, 18.5% and 1.7% and 77.1%, 21.7% and 1.2% of our service revenues, respectively.

Revenues from our corporate and net centric customers represented 47.2% and 52.8%, respectively, for the three months ended September 30, 2009 and represented 50.1% and 49.9%, respectively, for the three months ended September 30, 2010. Revenues from corporate customers increased 17.9% from \$28.4 million for the three months ended September 30, 2009 to \$33.5 million for the three months ended September 30, 2010. Revenues from our net centric customers increased 4.7% from \$31.8 million for the three months ended September 30, 2009 to \$33.3 million for the three months ending September 30, 2010.

Our on-net revenues increased 7.2% from \$48.1 million for the three months ended September 30, 2009 to \$51.5 million for the three months ended September 30, 2010. Our on-net revenues increased as we increased the number of our on-net customer connections by 19.5% from approximately 16,600 at September 30, 2009 to approximately 19,900 at September 30, 2010. On-net customer connections increased at a greater rate than on-net revenues due to a decline in the average revenue per on-net customer connection, primarily from our net centric customers. This decline is partly attributed to volume and term-based pricing discounts. Additionally, on-net customers who cancel their service from our installed base of customers, in general, have greater average revenue per connection than new customers. These trends resulted in a reduction to our average revenue per on-net connection.

Our off-net revenues increased 30.4% from \$11.1 million for the three months ended September 30, 2009 to \$14.5 million for the three months ended September 30, 2010. Our off-net revenues increased as we increased the number of our off-net customer connections by 5.3% from approximately 3,300 at September 30, 2009 to approximately 3,400 at September 30, 2010. Off-net revenues increased at a greater rate than off-net customer connections due to an increase in the average revenue per off-net customer connection from off-net customers buying larger connections. Off-net customers who cancel their service, in general, have an average revenue per connection that is less than new off-net customers who generally purchase higher-bandwidth connections.

Our non-core revenues decreased 27.7% from \$1.1 million for the three months ended September 30, 2009 to \$0.8 million for the three months ending September 30, 2010. The number of our non-core customer connections decreased 31.5% from approximately 1,070 at September 30, 2009 to approximately 730 at September 30, 2010. We do not actively market these acquired non-core services and expect that the associated service revenue will continue to decline.

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

Network Operations Expenses. Our network operations expenses, excluding equity-based compensation expense, increased 15.8% from \$26.4 million for the three months ended September 30, 2009 to \$30.5 million for the three months ended September 30, 2010. The impact of exchange rates resulted in a decrease of network operations expenses for the three months ended September 30, 2010 of approximately \$0.6 million. The increase is primarily attributable to an increase in costs related to our network and facilities expansion activities and increase in our off-net revenues, which is partly offset by the decline in network operations expenses associated with the decline in our non-core revenues.

Selling, General, and Administrative (SG&A) Expenses. Our SG&A expenses, excluding equity-based compensation expense, decreased 5.2% from \$16.8 million for the three months ended September 30, 2009 to \$16.0 million for the three months ended September 30, 2010. The impact of exchange rates resulted in a decrease of SG&A expenses for the three months ended September 30, 2010 of approximately \$0.3 million. SG&A expenses decreased primarily from a decrease in SG&A expense related to our European operations and a decrease in bad debt expense.

Equity-based Compensation Expense. Equity-based compensation expense results from grants of restricted stock and stock options. Equity-based compensation expense increased 42.0% from \$1.3 million for the three months ended September 30, 2009 to \$1.8 million for the three months ending September 30, 2010. The increase is primarily due to the impact of granting of restricted shares to certain of our employees in the second quarter of 2010. In the second quarter of 2010, we granted approximately 1.0 million restricted shares to certain of our employees that will vest over a three year period. These restricted shares were valued at approximately \$9.8 million and will be recognized as equity-based compensation expense on a straight line basis over the service period.

Depreciation and Amortization Expenses. Our depreciation and amortization expense decreased 3.6% from \$15.3 million for the three months ended September 30, 2009 to \$14.7 million for the three months ended September 30, 2010. The decrease is primarily due to the decline in depreciation expense from fully depreciated fixed assets. The impact of exchange rates resulted in a decrease of depreciation and amortization expenses for the three months ended September 30, 2010 of approximately \$0.2 million.

Table of Contents

On-net Buildings. As of September 30, 2009 and 2010, we had a total of 1,421 and 1,539 on-net buildings connected to our network, respectively.

Nine Months Ended September 30, 2009 Compared to the Nine months Ended September 30, 2010

The following summary table presents a comparison of our results of operations for the nine months ended September 30, 2009 and 2010 with respect to certain key financial measures. The comparisons illustrated in the table are discussed in greater detail below.

	Nine months ended September 30,		Percent Change
	2009	2010	
	(in thousands)		
Service revenue	\$ 173,295	\$ 193,955	11.9%
On-net revenue	138,795	151,402	9.1%
Off-net revenue	31,556	40,196	27.4%
Non-core revenue	2,944	2,357	(19.9)%
Network operations expenses (1)	75,004	87,715	16.9%
Selling, general, and administrative expenses (2)	50,877	49,752	(2.2)%
Equity-based compensation expense	7,430	4,760	(35.9)%
Depreciation and amortization expenses	45,128	42,306	(6.3)%

(1) Excludes equity-based compensation expenses of \$149 and \$246 in the nine months ended September 30, 2009 and 2010, respectively, which, if included would have resulted in a period-to-period change of 17.0%.

(2) Excludes equity-based compensation expenses of \$7,281 and \$4,514 in the nine months ended September 30, 2009 and 2010, respectively, which, if included would have resulted in a period-to-period change of (6.7)%.

Service Revenue. Our service revenue increased 11.9% from \$173.3 million for the nine months ended September 30, 2009 to \$194.0 million for the nine months ended September 30, 2010. The impact of exchange rates resulted in a decrease of revenues for the nine months ended September 30, 2010 of approximately \$0.1 million. All foreign currency comparisons herein reflect our results for the nine months ended September 30, 2010 translated at the average foreign currency exchange rates for the nine months ended September 30, 2009. For the nine months ended September 30, 2009 and 2010, on-net, off-net and non-core revenues represented 80.1%, 18.2% and 1.7% and 78.1%, 20.7% and 1.2% of our service revenues, respectively.

Revenues from our corporate and net centric customers represented 47.6% and 52.4%, respectively, for the nine months ended September 30, 2009 and represented 49.0% and 51.0%, respectively, for the nine months ended September 30, 2010. Revenues from corporate customers increased 15.1% from \$82.5 million for the nine months ended September 30, 2009 to \$95.0 million for the nine months ended September 30, 2010. Revenues from our net centric customers increased 9.0% from \$90.8 million for the nine months ended September 30, 2009 to \$98.9 million for the nine months ending September 30, 2010.

Our on-net revenues increased 9.1% from \$138.8 million for the nine months ended September 30, 2009 to \$151.4 million for the nine months ended September 30, 2010. Our on-net revenues increased as we increased the number of our on-net customer connections by 19.5% from approximately 16,600 at September 30, 2009 to approximately 19,900 at September 30, 2010. On-net customer connections increased at a greater rate than on-net revenues due to a decline in the average revenue per on-net customer connection, primarily from our net centric customers. This decline is partly attributed to volume and term based pricing discounts. Additionally, on-net customers who cancel their service from our installed base of customers, in general, have greater average revenue per connection than new customers. These trends resulted in a reduction to our average revenue per on-net connection.

Our off-net revenues increased 27.4% from \$31.6 million for the nine months ended September 30, 2009 to \$40.2 million for the nine months ended September 30, 2010. Our off-net revenues increased as we increased the number of our off-net customer connections by 5.3% from approximately 3,300 at September 30, 2009 to approximately 3,400 at September 30, 2010. Off-net revenues increased at a greater rate than off-net customer connections due to an increase in the average revenue per off-net customer connection from off-net customers buying larger connections. Off-net customers who cancel their service, in general, have an average revenue per connection that is less than new off-net customers who generally purchase higher-bandwidth connections

Our non-core revenues decreased 19.9% from \$2.9 million for the nine months ended September 30, 2009 to \$2.4 million for the nine months ending September 30, 2010. The number of our non-core customer connections decreased 31.5% from approximately 1,070 at September 30, 2009 to approximately 730 at September 30, 2010. We do not actively market these acquired non-core services and expect that the associated service revenue will continue to decline.

Network Operations Expenses. Our network operations expenses, excluding equity-based compensation expense, increased 16.9% from \$75.0 million for the nine months ended September 30, 2009 to \$87.7 million for the nine months ended September 30, 2010. The impact of exchange rates resulted in a decrease of network operations expenses for the nine months ended September 30, 2010 of approximately \$0.4

Table of Contents

million. The net increase is primarily attributable to an increase in costs related to our network and facilities expansion activities and increase in our off-net revenues partly offset by the decline in network operations expenses associated with the decline in our non-core revenues and the impact of exchange rates.

Selling, General, and Administrative (SG&A) Expenses. Our SG&A expenses, excluding equity-based compensation expense, decreased 2.2% from \$50.9 million for the nine months ended September 30, 2009 to \$49.8 million for the nine months ended September 30, 2010. The impact of exchange rates resulted in a decrease of SG&A expenses for the nine months ended September 30, 2010 of approximately \$0.2 million. SG&A expenses decreased primarily from a decrease in SG&A expense related to our European operations and a decrease in bad debt expense.

Equity-based Compensation Expense. Equity-based compensation expense results from grants of restricted stock and stock options. Equity-based compensation expense decreased 35.9% from \$7.4 million for the nine months ended September 30, 2009 to \$4.8 million for the nine months ending September 30, 2010. The decrease is primarily due to the completion of the service period in April 2009 of certain restricted stock grants made to our employees in April 2007 partly offset by the impact of grants of restricted shares to certain of our employees in the second quarter of 2010. In the second quarter of 2010, we granted approximately 1.0 million restricted shares to certain of our employees that will vest over a three year period. These restricted shares were valued at approximately \$9.8 million and will be recognized as equity-based compensation expense on a straight line basis over the three year service period.

Depreciation and Amortization Expenses. Our depreciation and amortization expense decreased 6.3% from \$45.1 million for the nine months ended September 30, 2009 to \$42.3 million for the nine months ended September 30, 2010. The decrease is primarily due to the decline in depreciation expense from fully depreciated fixed assets and an adjustment to our asset retirement obligations, discussed below, more than offsetting depreciation expense associated with the increase in deployed fixed assets and the impact of a \$0.6 million impairment charge for certain property and equipment that was recorded in the nine months ended September 30, 2010. There were no such impairment charges or adjustments to our asset retirement obligations recorded in the nine months ended September 30, 2009. The impact of exchange rates had no material impact on depreciation and amortization expenses for the nine months ended September 30, 2010.

In the first quarter of 2010, we determined that our estimates of restoration costs for our leased facility asset retirement obligations were too high based on current costs to restore and changes in the expected timing of the payment of those costs due to the extensions of lease terms. As a result, in the first quarter of 2010, we revised our estimates of the cash flows that we believed will be required to settle our leased facility asset retirement obligations at the end of the respective lease terms, which resulted in a reduction to our asset retirement obligation liability. These revisions in the estimated amount and timing of cash flows for asset retirement obligations reduced our asset retirement obligation liability by \$0.9 million with an offsetting reduction to depreciation and amortization of \$0.7 million and selling, general and administrative expenses of \$0.2 million.

On-net Buildings. As of September 30, 2009 and 2010, we had a total of 1,421 and 1,539 on-net buildings connected to our network, respectively.

Liquidity and Capital Resources

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

In assessing our liquidity, management reviews and analyzes our current cash balances, short-term investments, accounts receivable, accounts payable, accrued liabilities, capital expenditure commitments, and required capital lease and debt payments and other obligations.

Cash Flows

The following table sets forth our consolidated cash flows for the nine months ended September 30, 2009 and nine months ended September 30, 2010.

(in thousands)	Nine months ended September 30,	
	2009	2010
Net cash provided by operating activities	\$ 40,598	\$ 49,511
Net cash used in investing activities	(41,887)	(40,606)
Net cash used in financing activities	(19,598)	(16,990)
Effect of exchange rates on cash	710	(9)
Net decrease in cash and cash equivalents during period	\$ (20,177)	\$ (8,094)

Net Cash Provided by Operating Activities. Our primary sources of operating cash are receipts from our customers who are billed on a monthly basis for our services. Our primary uses of operating cash are payments made to our vendors and employees. Net cash provided by operating activities was \$40.6 million for the nine months ended September 30, 2009 compared to net cash provided by operating activities of \$49.5 million for the nine months ended September 30, 2010. The increase in cash provided by operating activities is due to an increase in our operating profit.

Net Cash Used In Investing Activities. Net cash used in investing activities was \$41.9 million for the nine months ended September 30, 2009 and \$40.6 million for the nine months ended September 30, 2010. Our primary use of investing cash for the nine months ended September 30, 2009 and nine months ended September 30, 2010 was \$41.8 million and \$41.0 million, respectively, for the purchases of property and equipment.

Table of Contents

Net Cash Used In Financing Activities. Net cash used in financing activities was \$19.6 million for the nine months ended September 30, 2009 and \$17.0 million for the nine months ended September 30, 2010. Our primary uses of financing cash for the nine months ended September 30, 2009 were \$19.2 million of principal payments under our capital lease obligations and \$0.7 million for the purchases of shares of our common stock. Our primary use of financing cash for the nine months ended September 30, 2010 was \$17.1 million of principal payments under our capital lease obligations.

Cash Position and Indebtedness

Our total indebtedness, net of discount, at September 30, 2010 was \$181.2 million and our total cash and cash equivalents were \$47.8 million. Our total indebtedness, net of discount, at September 30, 2010 includes \$111.3 million of capital lease obligations for dark fiber primarily under 15-25 year indefeasible right of use lease agreements (IRUs), of which approximately \$6.7 million is considered a current liability.

Convertible Senior Notes

In June 2007, we issued 1.00% Convertible Senior Notes (the Notes) due June 15, 2027, for an aggregate principal amount of \$200.0 million in a private offering for resale to qualified institutional buyers pursuant to Rule 144A of the Securities Act. The Notes are unsecured and bear interest at 1.00% per annum. The Notes will rank equally with any future senior debt and senior to any future subordinated debt and will be effectively subordinated to all of our subsidiary's existing and future liabilities and to any secured debt that we may issue to the extent of the value of the collateral. Interest is payable in cash semiannually in arrears on June 15 and December 15, of each year, beginning on December 15, 2007. We received proceeds of approximately \$195.1 million after deducting the original issue discount of 2.25% and issuance costs.

In the fourth quarter of 2008, we purchased an aggregate of \$108.0 million of face value of the Notes for \$48.6 million in cash in a series of transactions. These transactions resulted in a gain of \$23.1 million for the year ended December 31, 2008. After these transactions, there is \$92.0 million of face value of the Notes outstanding. We may purchase additional Notes.

The Notes are convertible into shares of our common stock at an initial conversion price of \$49.18 per share, or 20.3355 shares for each \$1,000 principal amount of Notes, subject to adjustment for certain events as set forth in the indenture. Upon conversion of the Notes, we will have the right to deliver shares of our common stock, cash or a combination of cash and shares of our common stock. The Notes are convertible (i) during any fiscal quarter after the fiscal quarter ending September 30, 2007, if the closing sale price of our common stock for 20 or more trading days in a period of 30 consecutive trading days ending on the last trading day of the immediately preceding fiscal quarter exceeds 130% of the conversion price in effect on the last trading day of the immediately preceding fiscal quarter, or (ii) specified corporate transactions occur, or (iii) the trading price of the Notes falls below a certain threshold, or (iv) if we call the Notes for redemption, or (v) on or after April 15, 2027, until maturity. In addition, following specified corporate transactions, we will increase the conversion rate for holders who elect to convert Notes in connection with such corporate transactions, provided that in no event may the shares issued upon conversion, as a result of adjustment or otherwise, result in the issuance of more than 35.5872 common shares per \$1,000 principal amount. The Notes include an Irrevocable Election of Settlement whereby we may choose, in our sole discretion, and without the consent of the holders of the Notes, to waive our right to settle the conversion feature in either cash or stock or in any combination, at our option.

Edgar Filing: COGENT COMMUNICATIONS GROUP INC - Form 10-Q

The Notes may be redeemed by us at any time after June 20, 2014 at a redemption price of 100% of the principal amount plus accrued interest. Holders of the Notes have the right to require us to repurchase for cash all or some of their Notes on June 15, 2014, 2017 and 2022 and upon the occurrence of certain designated events at a redemption price of 100% of the principal amount plus accrued interest.

Revolving line of credit

In October 2009, we entered into a \$20.0 million revolving line of credit facility with a bank. There were no borrowings under the revolving facility and we have been in compliance with its covenants. The facility expired on October 14, 2010.

Contractual Obligations and Commitments

There have been no material changes to our contractual obligations and commitments included in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our annual report on Form 10-K for the year ended December 31, 2009.

Future Capital Requirements

We believe that our cash on hand and cash generated from our operating activities will be adequate to meet our working capital, capital expenditure, debt service, and other cash requirements if we execute our business plan.

Any future acquisitions or other significant unplanned costs or cash requirements may require that we raise additional funds through the issuance of debt or equity. Such financing may not be available on terms acceptable to us or our stockholders, or at all. Insufficient funds may require us to delay or scale back the number of buildings and markets that we add to our network, reduce our planned increase in our sales and marketing efforts, or require us to otherwise alter our business plan or take other actions that could have a material adverse effect on our

business, results of operations and financial condition. If issuing equity securities raises additional funds, substantial dilution to existing stockholders may result.

Off-Balance Sheet Arrangements

We do not have relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. In addition, we do not engage in trading activities involving non-exchange traded contracts. As such, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in these relationships.

Income taxes

We have recorded a valuation allowance for the substantial majority of our net deferred tax asset due to the uncertainty surrounding its realization. As of December 31, 2009, we had worldwide net operating loss carry-forwards of approximately \$1.1 billion. This amount includes U.S. federal and state, Canadian and European net operating loss carry-forwards of approximately \$400 million, \$4 million and \$680 million, respectively. Section 382 of the United States Internal Revenue Code potentially limits the utilization of net operating losses when ownership changes, as defined by that section, occur. We have performed an analysis of our Section 382 ownership changes and have determined that the utilization of certain of our net operating loss carryforwards in the United States may be limited. Any restricted amount includes the limitation on annual utilization related to the remaining \$183 million of federal and state net operating loss carry-forwards of Allied Riser Communications Corporation acquired by us via a 2002 merger. The United States net operating loss carry-forwards will expire, if unused, between 2024 and 2030. The net operating loss carry-forwards related to our Canadian operations expire in 2027. The net operating loss carry-forwards related to our European operations include \$527 million that do not expire and \$153 million that expire between 2010 and 2016.

We are subject to income taxes in the United States and numerous foreign jurisdictions. Our effective income tax rate in the future could be adversely affected by a number of factors, including: changes in the mix of earnings in countries with differing statutory tax rates, changes in tax laws, the outcome of income tax audits in various jurisdictions around the world, and any repatriation of non-U.S. earnings for which we have not previously provided for U.S. taxes. We regularly assess all of these matters to determine the adequacy of our tax provision, which is subject to significant discretion.

Critical Accounting Policies and Significant Estimates

Management believes that as of September 30, 2010, there have been no material changes to our critical accounting policies and significant estimates from those listed in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our annual report on Form 10-K for the year ended December 31, 2009 except for our estimates related to our asset retirement obligations discussed in Note 2 to these interim condensed consolidated financial statements.

Recent Accounting Pronouncements to be Adopted

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-13, Multiple Element Arrangements. ASU 2009-13 addresses the determination of when the individual deliverables included in a multiple arrangement may be treated as separate units of accounting. ASU 2009-13 also modifies the manner in which the transaction consideration is allocated across separately identified deliverables and establishes definitions for determining fair value of elements in an arrangement. This standard must be adopted by us no later than January 1, 2011 with earlier adoption permitted. We are currently evaluating the impact, if any, that this standard update will have on our consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

For quantitative and qualitative disclosures about market risk see Item 7A Quantitative and Qualitative Disclosures About Market Risk, of our annual report on Form 10-K for the year ended December 31, 2009. Our exposures to market risk have not changed materially since December 31, 2009. Based upon the quoted market price at September 30, 2010, the fair value of our Notes was approximately \$74.8 million.

ITEM 4. CONTROLS AND PROCEDURES.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, (the Exchange Act) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) of the Exchange Act, an evaluation was performed under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by

Table of Contents

this report. Based upon that evaluation, our management, including our principal executive officer and our principal financial officer, concluded that the design and operation of these disclosure controls and procedures were effective at the reasonable assurance level.

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We are involved in legal proceedings in the normal course of our business that we do not expect to have a material impact on our operations or results of operations. Note 4 of our interim condensed consolidated financial statements includes information on these proceedings and other disputes.

ITEM 5. OTHER INFORMATION

On November 3, 2010 the board of directors awarded to Thaddeus Weed, our Chief Financial Officer, 20,000 shares of restricted stock that will vest 25% on the first anniversary of the grant and quarterly thereafter in equal increments until fully vested on the fourth anniversary of the grant. The award is subject to the provisions of the 2004 Incentive Award Plan and the provisions of the company's standard restricted stock award agreement. Simultaneously, the option to purchase 50,000 shares of the company's stock granted to Mr. Weed on April 30, 2007 was cancelled.

ITEM 6. EXHIBITS.
