## Edgar Filing: BRUKER CORP - Form 8-K

The 2018 Short-Term ICP provides that quantitative financial factors will provide 70% of total cash incentive award potential for each of the named executive officers, with the remaining 30% allocated to individual qualitative factors established by the Compensation Committee.

The quantitative portion of the cash incentive award to Dr. Laukien will be determined based on achievement of specified 2018 performance goals allocated to the following corporate financial objectives: currency-adjusted organic revenue growth, non-GAAP operating profit improvement, non-GAAP earnings per share growth and reduction in the Company's working capital ratio.

The quantitative portion of the cash incentive award to Dr. Munch will be determined based on achievement of specified 2018 financial performance goals for the Bruker Nano Group, as well as corporate financial performance relative to the Company's non-GAAP earnings per share growth objective. Performance goals for the Bruker Nano Group, which represent approximately 85% of Dr. Munch's target bonus opportunity based on quantitative goals (i.e., 60% of his total target bonus opportunity), are allocated to the following Bruker Nano Group objectives: currency-adjusted revenue growth, non-GAAP gross profit improvement, non-GAAP operating profit improvement and working capital ratio improvement. Approximately 15% of Dr. Munch's target bonus opportunity allocated to quantitative goals (i.e., 10% of his total target bonus opportunity) will be determined based on the Company's non-GAAP earnings per share growth.

The quantitative portion of the cash incentive award to Mr. Srega under the Plan will be determined based on achievement of specified 2018 financial performance goals for the Bruker CALID Group, as well as corporate financial performance relative to the Company's non-GAAP earnings per share growth objective. Performance goals for the Bruker CALID Group, which represent approximately 85% of Mr. Srega's target bonus opportunity based on quantitative goals (i.e., 60% of his total target bonus opportunity), are allocated to the following Bruker CALID Group objectives: currency-adjusted revenue growth, non-GAAP gross profit improvement, non-GAAP operating profit improvement and working capital ratio improvement. Approximately 15% of Mr. Srega's target bonus opportunity allocated to quantitative goals (i.e., 10% of his total target bonus opportunity) will be determined based on the Company's non-GAAP earnings per share growth.

The quantitative portion of the cash incentive award to Dr. Prause under the Plan will be determined based on achievement of specified 2018 financial performance goals for the BEST operating segment, as well as corporate financial performance relative to the Company's non-GAAP earnings per share growth objective. Performance goals for the BEST segment, which represent approximately 85% of Dr. Prause's target bonus opportunity based on quantitative goals (i.e., 60% of his total target bonus opportunity), are allocated to the following BEST segment objectives: currency-adjusted revenue growth, non-GAAP gross profit improvement, non-GAAP operating profit improvement and working capital ratio improvement. Approximately 15% of Dr. Prause's target bonus opportunity allocated to quantitative goals (i.e., 10% of his total target bonus opportunity) will be determined based on the Company's non-GAAP earnings per share growth.

Portions of the incentive awards linked to the achievement of quantitative performance goals will be calculated based on percentage achievement of each quantitative target goal, with no threshold or maximum. However, the incentive award payout for performance attributable to quantitative performance goals is subject to a maximum aggregate payout of 200% of the respective executive officer's total target bonus opportunity linked to such goals.

The qualitative portion of the cash incentive payments to be awarded under the 2018 Short-Term ICP will be determined based on measures of the respective executive officer's contributions to the achievement of certain strategic and operational management objectives. Under the 2018 Short-Term ICP, payments for qualitative goals will be made in a range of 0% to 125% of their respective targets, subject to satisfaction of certain minimum performance expectations.
