Table of Contents**ZUMIEZ INC.****FORM 10-K****PART I.**

This Form 10-K contains forward-looking statements. These statements relate to our expectations for future events and future financial performance. Generally, the words anticipates, expects, intends, may, should, plans, believes, predicts, potential, continue and expressions identify forward-looking statements. Forward-looking statements involve risks and uncertainties, and future events and circumstances could differ significantly from those anticipated in the forward-looking statements. These statements are only predictions. Actual events or results may differ materially. Factors which could affect our financial results are described in Item 1A below and in Item 7 of Part II of this Form 10-K. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Moreover, neither we nor any other person assume responsibility for the accuracy and completeness of the forward-looking statements. We undertake no duty to update any of the forward-looking statements after the date of this report to conform such statements to actual results or to changes in our expectations.

We use a fiscal calendar widely used by the retail industry that results in a fiscal year consisting of a 52- or 53-week period ending on the Saturday closest to January 31. Each fiscal year consists of four 13-week quarters, with an extra week added to the fourth quarter every five or six years. Fiscal 2016 will be the 52 week period ending January 28, 2017. Fiscal 2015 was the 52 week period ending January 30, 2016. Fiscal 2014 was the 52-week period ending January 31, 2015. Fiscal 2013 was the 52-week period ending February 1, 2014. Fiscal 2012 was the 53-week period ending February 2, 2013. Fiscal 2011 was the 52-week period ending January 28, 2012.

Zumiez, the Company, we, us, its, our and similar references refer to Zumiez Inc. and its wholly-owned subsidiaries.

Item 1. BUSINESS

Zumiez Inc., including its wholly-owned subsidiaries, is a leading specialty retailer of apparel, footwear, accessories and hardgoods for young men and women who want to express their individuality through the fashion, music, art and culture of action sports, streetwear, and other unique lifestyles. Zumiez Inc. was formed in August 1978 and is a Washington State corporation.

At January 30, 2016, we operated 658 stores; 592 in the United States (U.S.), 42 in Canada and 24 in Europe. We operate under the names Zumiez and Blue Tomato. Additionally, we operate ecommerce websites at www.zumiez.com and www.blue-tomato.com.

We completed the acquisition of Snowboard Dachstein Tauern GmbH and Blue Tomato Graz Handel GmbH (collectively, Blue Tomato) during fiscal 2012. Blue Tomato is one of the leading European specialty retailers of apparel, footwear, accessories and hardgoods.

We employ a sales strategy that integrates our stores with our ecommerce platform. There is significant interaction between our store sales and our ecommerce sales channels and we believe that they are utilized in tandem to serve our customers. Our selling platforms bring the look and feel of an independent specialty shop through a distinctive store environment and high-energy sales personnel. We seek to staff our stores with store associates who are knowledgeable users of our products, which we believe provides our customers with enhanced customer service and supplements our ability to identify and react quickly to emerging trends and fashions. We design our selling platforms to appeal to teenagers and young adults and to serve as a destination for our customers. We believe that our distinctive selling platforms concepts and compelling economics will provide continued opportunities for growth in both new and existing markets.

Table of Contents

We believe that our customers desire authentic merchandise and fashion that is rooted in the fashion, music, art and culture of action sports, streetwear, and other unique lifestyles to express their individuality. We strive to keep our merchandising mix fresh by continuously introducing new brands, styles and categories of product. Our focus on a diverse collection of brands allows us to quickly adjust to changing fashion trends. We believe that our strategic mix of apparel, footwear, accessories and hardgoods, including skateboards, snowboards, bindings, components and other equipment, allows us to strengthen the potential of the brands we sell and helps to affirm our credibility with our customers. In addition, we supplement our merchandise mix with a select offering of private label apparel and products as a value proposition that we believe complements our overall merchandise selection.

Over our 37-year history, we have developed a corporate culture based on a passion for action sports, streetwear and other unique lifestyles. We have increased our store count from 400 as of the end of fiscal 2010 to 658 as of the end of fiscal 2015, representing a compound annual growth rate of 10.5%; increased net sales from \$478.8 million in fiscal 2010 to \$804.2 million in fiscal 2015, representing a compound annual growth rate of 10.9%; and been profitable in every fiscal year of our 37-year history.

Competitive Strengths

We believe that the following competitive strengths differentiate us from our competitors and are critical to our continuing success.

Attractive Lifestyle Retailing Concept. We target a large population of young men and women, many of whom we believe are attracted to action sports, streetwear, and other unique lifestyles and desire to express their personal independence and style through the apparel, footwear and accessories they wear and the equipment they use. We believe we have developed a brand image that our customers view as consistent with their attitudes, fashion tastes and identity that should allow us to benefit and differentiates us in our market.

Differentiated Merchandising Strategy. We have created a highly differentiated retailing concept by offering an extensive selection of current and relevant lifestyle brands encompassing apparel, footwear, accessories and hardgoods. The breadth of merchandise offered through our sales channels exceeds that offered by many of our competitors and includes some brands and products that are available only at our stores within many malls or shopping areas. Many of our customers desire to update their wardrobes and equipment as fashion trends evolve or the season dictates, providing us the opportunity to shift our merchandise selection seasonally. We believe that our ability to quickly recognize changing brand and style preferences and transition our merchandise offerings allows us to continually provide a compelling offering to our customers.

Deep-rooted Culture. We believe our culture and brand image enable us to successfully attract and retain high quality employees who are passionate and knowledgeable about the products we sell. We place great emphasis on customer service and satisfaction, and we have made this a defining feature of our corporate culture. To preserve our culture, we strive to promote from within and we provide our employees with the knowledge and tools to succeed through our comprehensive training programs and the empowerment to manage their stores to meet localized customer demand.

Distinctive Customer Experience. We strive to provide a convenient shopping environment that is appealing and clearly communicates our distinct brand image. We seek to integrate our store and digital shopping experiences to serve our customers whenever, wherever, and however they choose to engage with us. We seek to attract knowledgeable sale associates who identify with our brand and are able to offer superior customer service, advice and product expertise. We believe that our distinctive shopping experience enhances our image as a leading source for apparel and equipment for action sports, streetwear, and other unique lifestyles.

Disciplined Operating Philosophy. We have an experienced senior management team. Our management team has built a strong operating foundation based on sound retail principles that underlie our unique culture. Our

Table of Contents

philosophy emphasizes an integrated combination of results measurement, training and incentive programs, all designed to drive sales productivity to the individual store associate level. Our comprehensive training programs are designed to provide our employees with enhanced product knowledge, selling skills and operational expertise. We believe that our merchandising teams' immersion in the lifestyles we represent, supplemented with feedback from our customers, store associates and omni-channel leadership, allows us to consistently identify and react to emerging fashion trends. We believe that this, combined with our inventory planning and allocation processes and systems, helps us better manage markdown and fashion risk.

High-Impact, Integrated Marketing Approach. We seek to build relationships with our customers through a multi-faceted marketing approach that is designed to integrate our brand images with the lifestyles we represent. Our marketing efforts focus on reaching our customers in their environment and feature extensive grassroots marketing events. Our marketing efforts also incorporate local sporting and music event promotions, advertising in magazines popular with our target market, interactive contest sponsorships that actively involve our customers with our brands and products and various social network channels. Events and activities such as these provide opportunities for our customers to develop a strong identity with our culture and brands. We believe that our immersion in the lifestyles we represent allows us to build credibility with our customers and gather valuable feedback on evolving customer preferences.

Growth Strategy

We intend to expand our presence as a leading specialty retailer of action sports, streetwear, and other unique lifestyles by:

Opening New Store Locations. We believe our brand has appeal that provides store expansion opportunities throughout the U.S., Canada and Europe. During the last three fiscal years, we have opened 172 new stores consisting of 57 stores in fiscal 2015, 56 stores in fiscal 2014 and 59 stores in fiscal 2013. We have successfully opened stores in diverse markets throughout the U.S. and internationally, which we believe demonstrates the portability and growth potential of our concepts. To take advantage of what we believe to be a compelling economic store model, we plan to open approximately 34 new stores in fiscal 2016, including stores in our existing markets and in new markets domestically and internationally. The number of anticipated store openings may increase or decrease due to market conditions and other factors.

Continuing to Generate Sales Growth through Existing Channels. We seek to maximize our comparable sales by continuing to integrate our store and on-line shopping experiences and offering our customers a broad and relevant selection of brands and products.

Enhancing our Brand Awareness through Continued Marketing and Promotion. We believe that a key component of our success is the brand exposure that we receive from our marketing events, promotions and activities that embody the unique lifestyles of our customers. These are designed to assist us in increasing brand awareness in our existing markets and expanding into new markets by strengthening our connection with our target customer base. We believe that our marketing efforts have also been successful in generating and promoting interest in our product offerings. In addition, we use our ecommerce presence to further increase our brand awareness. We plan to continue to expand our integrated marketing efforts by promoting more events and activities in our existing and new markets. We also benefit from branded vendors marketing.

Merchandising and Purchasing

Our goal is to be viewed by our customers as the definitive source of merchandise for their unique lifestyles across all channels in which we operate. We believe that the breadth of merchandise that we offer our customers, which includes apparel, footwear, accessories and hardgoods, exceeds that offered by many other specialty stores at a single location, and makes us a single-stop purchase destination for our target customers.

Table of Contents

We seek to identify fashion trends as they develop and to respond in a timely manner with a relevant product assortment. We strive to keep our merchandising mix fresh by continuously introducing new brands or styles in response to the evolving desires of our customers. Our merchandise mix may vary by region, country, and season, reflecting the preferences and seasons in each market.

We believe that offering an extensive selection of current and relevant brands in sports, fashion, music, and art is integral to our overall success. No single brand that we carry accounted for more than 9.8%, 8.7% and 7.6% of our net sales in fiscal 2015, 2014 and 2013. We believe that our strategic mix of apparel, footwear, accessories and hardgoods allows us to strengthen the potential of the brands we sell and affirms our credibility with our customers.

We believe that our ability to maintain an image consistent with the unique lifestyles of our customers is important to our key vendors. Given our scale and market position, we believe that many of our key vendors view us as an important retail partner. This position helps ensure our ability to procure a relevant product assortment and quickly respond to the changing fashion interests of our customers. Additionally, we believe we are presented with a greater variety of products and styles by some of our vendors, as well as certain specially designed items that we exclusively distribute. We supplement our merchandise assortment with a select offering of private label products across many of our product categories. Our private label products complement the branded products we sell, and some of our private label brands allow us to cater to the more value-oriented customer. For fiscal 2015, 2014 and 2013, our private label merchandise represented 21.0%, 19.9% and 17.7% of our net sales.

We have developed a disciplined approach to buying and a dynamic inventory planning and allocation process to support our merchandise strategy. We utilize a broad vendor base that allows us to shift our merchandise purchases as required to react quickly to changing consumer demands and market conditions. We manage the purchasing and allocation process by reviewing branded merchandise lines from new and existing vendors, identifying emerging fashion trends and selecting branded merchandise styles in quantities, colors and sizes to meet inventory levels established by management. We also coordinate inventory levels in connection with individual stores' sales strength, our promotions and seasonality.

Our merchandising staff remains in tune with the fashion, music, art and culture of action sports, streetwear, and other unique lifestyles by participating in action sports, attending relevant events and concerts, watching related programming and reading relevant publications and social network channels. In order to identify evolving trends and fashion preferences, our staff spends considerable time analyzing sales data, gathering feedback from our stores and customers, shopping in key markets and soliciting input from our vendors.

We source our private label merchandise from primarily foreign manufacturers around the world. We have cultivated our private label sources with a view towards high quality merchandise, production reliability and consistency of fit. We believe that our knowledge of fabric and production costs combined with a flexible sourcing base enables us to source high-quality private label goods at favorable costs.

Table of Contents**Stores**

Store Locations. At January 30, 2016, we operated 658 stores in the following locations:

United States and Puerto Rico - 592 Stores

Alabama	4	Indiana	10	Nebraska	2	Rhode Island	2
Alaska	3	Iowa	4	New Hampshire	6	South Carolina	4
Arizona	13	Kansas	3	New Jersey	20	South Dakota	2
Arkansas	3	Kentucky	4	New Mexico	5	Tennessee	8
California	89	Louisiana	6	New York	33	Texas	52
Colorado	19	Maine	3	Nevada	9	Utah	14
Connecticut	9	Maryland	11	North Carolina	12	Vermont	1
Delaware	4	Massachusetts	11	North Dakota	3	Virginia	14
Florida	32	Michigan	13	Ohio	11	Washington	25
Georgia	12	Minnesota	11	Oklahoma	6	West Virginia	2
Hawaii	6	Mississippi	1	Oregon	13	Wisconsin	14
Idaho	6	Missouri	7	Pennsylvania	21	Wyoming	2
Illinois	19	Montana	5	Puerto Rico	3		

Canada - 42 Stores

Alberta	6	New Brunswick	1	Saskatoon	2
British Columbia	9	Nova Scotia	2		
Manitoba	2	Ontario	20		

Europe - 24 Stores

Austria	12
Germany	12

The following table shows the number of stores (excluding temporary stores that we operate from time to time for special or seasonal events) opened, acquired and closed in each of our last three fiscal years:

Fiscal Year	Stores		Total Number of Stores End of Year
	Opened	Closed	
2015	57	2	658
2014	56	4	603
2013	59	6	551

Store Design and Environment. We design our stores to create a distinctive and engaging shopping environment that we believe resonates with our customers. Our stores feature an industrial look, dense merchandise displays, lifestyle focused posters and signage and popular music, all of which are consistent with the look and feel of an independent specialty shop. Our stores are designed to encourage our customers to shop for longer periods of time, to interact with each other and our store associates and to visit our stores more frequently. Our stores are constructed and finished to allow us to efficiently shift merchandise displays throughout the year as the season dictates. At January 30, 2016, our stores averaged approximately 2,941 square feet. All references in this Annual Report on Form 10-K to square footage of our stores refers to gross square footage, including retail selling, storage and back-office space. In fiscal 2016, we plan on opening new stores with square footage similar to this average.

Expansion Opportunities and Site Selection. In selecting a location for a new store, we target high-traffic locations with suitable demographics and favorable lease terms. For mall locations, we seek locations near busy areas of the mall such as food courts, movie theaters, game stores and other popular teen and young adult

Table of Contents

retailers. We generally locate our stores in malls in which other teen and young adult-oriented retailers have performed well. We also focus on evaluating the market and mall-specific competitive environment for potential new store locations. We seek to diversify our store locations regionally and by caliber of mall.

Store Management, Operations and Training. We believe that our success is dependent in part on our ability to attract, train, retain and motivate qualified employees at all levels of our organization. We have developed a corporate culture that we believe empowers the individual store managers to make store-level business decisions and consistently rewards their success. We are committed to improving the skills and careers of our workforce and providing advancement opportunities for employees.

We believe we provide our managers with the knowledge and tools to succeed through our comprehensive training programs and the flexibility to manage their stores to meet customer demands. While general guidelines for our merchandise assortments, store layouts and in-store visuals are provided by our home offices, we give our managers substantial discretion to tailor their stores to the individual market and empower them to make store-level business decisions. We design group training programs for our managers to improve both operational expertise and supervisory skills.

Our store associates generally have an interest in the fashion, music, art and culture of the action sports lifestyle and are knowledgeable about our products. Through our training, evaluation and incentive programs, we seek to enhance the productivity of our store associates. These programs are designed to promote a competitive, yet fun, culture that is consistent with the unique lifestyles we seek to promote.

Marketing and Advertising

We seek to reach our target customer audience through a multi-faceted marketing approach that is designed to integrate our brand image with the lifestyles we represent. Our marketing efforts focus on reaching our customers in their environment, and feature extensive grassroots marketing events, which give our customers an opportunity to experience and participate in the lifestyles we offer. Our grassroots marketing events are built around the demographics of our customer base and offer an opportunity for our customers to develop a strong identity with our brands and culture.

We have a customer loyalty program, the Zumiez STASH, which allows members to earn points for purchases or performance of certain activities. The points can be redeemed for a broad range of rewards, including product and experiential rewards. Our marketing efforts also incorporate local sporting and music event promotions, advertising in magazines popular with our target market, interactive contest sponsorships that actively involve our customers with our brands and products, the Zumiez STASH, catalogs and various social network channels. We believe that our immersion in action sports, streetwear, and other unique lifestyles allows us to build credibility with our target audience and gather valuable feedback on evolving customer preferences.

Distribution and Fulfillment

Timely and efficient distribution of merchandise to our stores is an important component of our overall business strategy. Domestically, our distribution center is located in Corona, California. At this facility, merchandise is inspected, allocated to stores and distributed to our stores and customers. Each store is typically shipped merchandise five times a week, providing our stores with a steady flow of new merchandise.

During fiscal 2015, we closed our ecommerce fulfillment center located in Edwardsville, Kansas moving to fully localized fulfillment strategy in which we use our domestic store network to provide fulfillment services for the vast majority of customer purchases.

Internationally, we operate a combined distribution and ecommerce fulfillment center located in Graz, Austria that supports our Blue Tomato ecommerce and store operations in Europe and we operate a distribution center located in Delta, British Columbia, Canada to distribute merchandise to our Canadian stores.

Table of Contents

Management Information Systems

Our management information systems provide integration of store, on-line, merchandising, distribution, financial and human resources functions. The systems include applications related to point-of-sale, inventory management, supply chain, planning, sourcing, merchandising and financial reporting. We continue to invest in technology to align these systems with our business requirements and to support our continuing growth.

Competition

The teenage and young adult retail apparel, hardgoods, footwear and accessories industry is highly competitive. We compete with other retailers for vendors, customers, suitable store locations and qualified store associates and management personnel. In the softgoods market, which includes apparel, footwear and accessories, we currently compete with other teenage and young adult focused retailers. In addition, in the softgoods markets we compete with independent specialty shops, department stores and direct marketers that sell similar lines of merchandise and target customers through catalogs and ecommerce. In the hardgoods markets, which includes skateboards, snowboards, bindings, components and other equipment, we compete directly or indirectly with the following categories of companies: other specialty retailers that compete with us across a significant portion of our merchandising categories, such as local snowboard and skate shops; large-format sporting goods stores and chains and ecommerce retailers.

Competition in our sector is based on, among other things, merchandise offerings, store location, price and the ability to identify with the customer. We believe that our ability to compete favorably with many of our competitors is due to our differentiated merchandising strategy, compelling store environment and deep-rooted culture.

Seasonality

Historically, our operations have been seasonal, with the largest portion of net sales and net income occurring in the third and fourth fiscal quarters, reflecting increased demand during the back-to-school and winter holiday selling seasons. During fiscal 2015, approximately 56% of our net sales occurred in the third and fourth quarters combined, similar to previous years. As a result of this seasonality, any factors negatively affecting us during the last half of the year, including unfavorable economic conditions, adverse weather or our ability to acquire seasonal merchandise inventory, could have a material adverse effect on our financial condition and results of operations for the entire year. Our quarterly results of operations may also fluctuate based upon such factors as the timing of certain holiday seasons, the popularity of seasonal merchandise offered, the timing and amount of markdowns, competitive influences and the number and timing of new store openings, remodels and closings.

Trademarks

The Zumiez and Blue Tomato trademarks and certain other trademarks, have been registered, or are the subject of pending trademark applications, with the U.S. Patent and Trademark Office and with the registries of certain foreign countries. We regard our trademarks as valuable and intend to maintain such marks and any related registrations and vigorously protect our trademarks. We also own numerous domain names, which have been registered with the Corporation for Assigned Names and Numbers.

Employees

At January 30, 2016, we employed approximately 2,300 full-time and approximately 4,700 part-time employees globally. However, the number of part-time employees fluctuates depending on our seasonal needs and generally increases during peak selling seasons, particularly the back-to-school and the winter holiday seasons. None of our employees are represented by a labor union and we believe that our relationship with our employees is positive.

Table of Contents

Financial Information about Segments

See Note 17, Segment Reporting, in the Notes to Consolidated Financial Statements found in Part IV Item 15 of this Form 10-K, for information regarding our segments, product categories and certain geographical information.

Available Information

Our principal website address is www.zumiez.com. We make available, free of charge, our proxy statement, annual report to shareholders, annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission (SEC) at <http://ir.zumiez.com>. Information available on our website is not incorporated by reference in, and is not deemed a part of, this Form 10-K. The SEC maintains a website that contains electronic filings by Zumiez and other issuers at www.sec.gov. In addition, the public may read and copy any materials Zumiez files with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330.

Item 1A. RISK FACTORS

Investing in our securities involves a high degree of risk. The following risk factors, issues and uncertainties should be considered in evaluating our future prospects. In particular, keep these risk factors in mind when you read forward-looking statements elsewhere in this report.

Forward-looking statements relate to our expectations for future events and time periods. Generally, the words anticipates, expects, intends, may, should, plans, believes, predicts, potential, continue and similar expressions identify forward-looking statements. Forward-looking statements involve risks and uncertainties, and future events and circumstances could differ significantly from those anticipated in the forward-looking statements. Any of the following risks could harm our business, operating results or financial condition and could result in a complete loss of your investment. Additional risks and uncertainties that are not yet identified or that we currently think are immaterial may also harm our business and financial condition in the future.

Our ability to attract customers to our stores depends heavily on the success of the shopping malls in which many of our stores are located; any decrease in consumer traffic in those malls could cause our sales to be less than expected.

In order to generate customer traffic we depend heavily on locating many of our stores in prominent locations within successful shopping malls. Sales at these stores are derived, in part, from the volume of traffic in those malls. Our stores benefit from the ability of a mall's other tenants to generate consumer traffic in the vicinity of our stores and the continuing popularity of malls as shopping destinations. Our sales volume and mall traffic generally may be adversely affected by, among other things, economic downturns in a particular area, competition from ecommerce retailers, non-mall retailers and other malls, increases in gasoline prices, fluctuations in exchange rates in border or tourism-oriented locations and the closing or decline in popularity of other stores in the malls in which we are located. An uncertain economic outlook could curtail new shopping mall development, decrease shopping mall traffic, reduce the number of hours that shopping mall operators keep their shopping malls open or force them to cease operations entirely. A reduction in mall traffic as a result of these or any other factors could have a material adverse effect on our business, results of operations and financial condition.

Our business is dependent upon our being able to anticipate, identify and respond to changing fashion trends, customer preferences and other fashion-related factors; failure to do so could have a material adverse effect on us.

Customer tastes and fashion trends in our market are volatile and tend to change rapidly. Our success depends on our ability to effectively anticipate, identify and respond to changing fashion tastes and consumer

Table of Contents

preferences, and to translate market trends into appropriate, saleable product offerings in a timely manner. If we are unable to successfully anticipate, identify or respond to changing styles or trends and misjudge the market for our products or any new product lines, our sales may be lower than predicted and we may be faced with a substantial amount of unsold inventory or missed opportunities. In response to such a situation, we may be forced to rely on markdowns or promotional sales to dispose of excess or slow-moving inventory, which could have a material adverse effect on our results of operations.

Our growth strategy depends on our ability to open and operate new stores each year, which could strain our resources and cause the performance of our existing stores to suffer.

Our growth largely depends on our ability to open and operate new stores successfully. However, our ability to open new stores is subject to a variety of risks and uncertainties, and we may be unable to open new stores as planned, and any failure to successfully open and operate new stores could have a material adverse effect on our results of operations. We intend to continue to open new stores in future years while remodeling a portion of our existing store base annually. In addition, our proposed expansion will place increased demands on our operational, managerial and administrative resources. These increased demands could cause us to operate our business less effectively, which in turn could cause deterioration in the financial performance of our individual stores and our overall business. To the extent our new store openings are in markets where we already have stores, we may experience reduced net sales in existing stores in those markets. In addition, successful execution of our growth strategy may require that we obtain additional financing, and we may not be able to obtain that financing on acceptable terms or at all.

In addition, we plan to open new stores in regions of the U.S. or international locations in which we currently have few, or no, stores. The expansion into these markets may present competitive, merchandising, hiring and distribution challenges that are different from those currently encountered in our existing markets. Any of these challenges could adversely affect our business and results of operations.

Failure to successfully integrate any businesses or stores that we acquire could have an adverse impact on our results of operations and financial performance.

We may, from time to time, acquire other retail stores or businesses, such as our acquisition of Blue Tomato, one of the leading European specialty retailers of apparel, footwear, accessories, and hardgoods. We may experience difficulties in integrating any stores or businesses we may acquire, including their facilities, personnel, financial systems, distribution, operations and general operating procedures, and any such acquisitions may also result in the diversion of our capital and our management's attention from other business issues and opportunities. If we experience difficulties in integrating acquisitions or if such acquisitions do not provide the benefits that we expect to receive, we could experience increased costs and other operating inefficiencies, which could have an adverse effect on our results of operations and overall financial performance.

Our plans for international expansion include risks that could have a negative impact on our results of operations.

In fiscal 2011, we opened our first store locations in Canada and we plan to continue to open new stores in Canada. During fiscal 2012, we acquired Blue Tomato, which operates primarily in the European market, and we plan to open new stores in Europe in the future. We may continue to expand internationally, either organically, or through additional acquisitions. International markets may have different competitive conditions, consumer tastes and discretionary spending patterns than our existing U.S. market. As a result, operations in international markets may be less successful than our operations in the U.S. Additionally, consumers in international markets may not be familiar with us or the brands we sell, and we may need to build brand awareness in the markets. Furthermore, we have limited experience with the legal and regulatory environments and market practices outside of the U.S. and cannot guarantee that we will be able to penetrate or successfully operate in international markets. We also expect to incur additional costs in complying with applicable foreign laws and regulations as they pertain to both our products and our operations.

Table of Contents

Additionally, the results of operations of our international subsidiaries are exposed to foreign exchange rate fluctuations. Upon translation, operating results may differ materially from expectations. As we expand our international operations, our exposure to exchange rate fluctuations will increase.

The current uncertainty surrounding the U.S. and global economies, including the European economy, coupled with cyclical economic trends in retailing could have a material adverse effect on our results of operations.

Our retail market historically has been subject to substantial cyclicity. As the U.S. and global economic conditions change, the trends in discretionary consumer spending become unpredictable and discretionary consumer spending could be reduced due to uncertainties about the future. When discretionary consumer spending is reduced, purchases of apparel and related products may decline. The current uncertainty in the U.S. and global economies and increased government debt may have a material adverse impact on our results of operations and financial position.

Because of this cycle, we believe the value message has become more important to consumers. As a retailer that sells approximately 80% branded merchandise, this trend may negatively affect our business, as we generally will have to charge more than vertically integrated private label retailers.

Our sales and inventory levels fluctuate on a seasonal basis, leaving our operating results particularly susceptible to changes in back-to-school and winter holiday shopping patterns. Accordingly, our quarterly results of operations are volatile and may fluctuate significantly.

Our quarterly results of operations have fluctuated significantly in the past and can be expected to continue to fluctuate significantly in the future. Our sales and profitability are typically disproportionately higher in the third and fourth fiscal quarters of each fiscal year due to increased sales during the back-to-school and winter holiday shopping seasons. Sales during these periods cannot be used as an accurate indicator of annual results. As a result of this seasonality, any factors negatively affecting us during the last half of the year, including unfavorable economic conditions, adverse weather or our ability to acquire seasonal merchandise inventory, could have a material adverse effect on our financial condition and results of operations for the entire year. In addition, in order to prepare for the back-to-school and winter holiday shopping seasons, we must order and keep in stock significantly more merchandise than we carry during other times of the year. Any unanticipated decrease in demand for our products during these peak shopping seasons could require us to sell excess inventory at a substantial markdown, which could have a material adverse effect on our business, results of operations and financial condition.

Our quarterly results of operations are affected by a variety of other factors, including:

the timing of new store openings and the relative proportion of our new stores to mature stores;

whether we are able to successfully integrate any new stores that we acquire and the presence of any unanticipated liabilities in connection therewith;

fashion trends and changes in consumer preferences;

calendar shifts of holiday or seasonal periods;

changes in our merchandise mix;

timing of promotional events;

Edgar Filing: Majoras Deborah P - Form 4

general economic conditions and, in particular, the retail sales environment;

actions by competitors or mall anchor tenants;

weather conditions;

the level of pre-opening expenses associated with our new stores; and

inventory shrinkage beyond our historical average rates.

Table of Contents

Significant fluctuations and volatility in the price of cotton, foreign labor costs and other raw materials used in the production of our merchandise may have a material adverse effect on our business, results of operations and financial conditions.

Increases in the cost of cotton, other raw materials, foreign labor costs and transportation costs used in the production of our merchandise can result in higher costs in the price we pay for this merchandise. The costs for cotton are affected by weather, consumer demand, speculation on the commodities market and other factors that are generally unpredictable and beyond our control. Our gross profit and results of operations could be adversely affected to the extent that the selling prices of our products do not increase proportionately with the increases in the costs of cotton or other materials. Increasing labor costs and oil-related product costs, such as manufacturing and transportation costs, could also adversely impact gross profit. Additionally, significant changes in the relationship between carrier capacity and shipper demand could increase transportation costs, which could also adversely impact gross profit.

Most of our merchandise is produced by foreign manufacturers; therefore, the availability and costs of these products may be negatively affected by risks associated with international trade and other international conditions.

Most of our merchandise is produced by manufacturers around the world. Some of these facilities are located in regions that may be affected by natural disasters, political instability or other conditions that could cause a disruption in trade. Trade restrictions such as increased tariffs or quotas, or both, could also increase the cost and reduce the supply of merchandise available to us. Any reduction in merchandise available to us or any increase in its cost due to tariffs, quotas or local issues that disrupt trade could have a material adverse effect on our results of operations. Our business could be adversely affected by disruptions in the supply chain, such as strikes, work stoppages, or port closures. Although the prices charged by vendors for the merchandise we purchase are primarily denominated in U.S. dollars, a decline in the relative value of the U.S. dollar to foreign currencies could lead to increased merchandise costs, which could negatively affect our competitive position and our results of operations.

The regulatory requirements regarding conflict minerals could have a negative impact on our results of operations.

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, the SEC promulgated final rules regarding disclosure of the use of certain minerals (tantalum, tin, gold and tungsten) known as conflict minerals, which are mined from the Democratic Republic of the Congo and adjoining countries, as well as procedures regarding a manufacturer's efforts to prevent the sourcing of such minerals and metals produced from those minerals. We conducted the required due diligence activities for the 2014 calendar year and filed our second Form SD report with the SEC in May 2015. Additional requirements under the rule could affect sourcing at competitive prices and availability in sufficient quantities of certain of the minerals used in the manufacture of our products, which could have a material adverse effect on our ability to purchase these products in the future. The costs of compliance, including those related to supply chain research, the limited number of suppliers and possible changes in the sourcing of these minerals, could have a material adverse effect on our results of operations or cash flow.

Our business is susceptible to weather conditions that are out of our control, including the potential risks of unpredictable weather patterns and any weather patterns associated with naturally occurring global climate change, and the resultant unseasonable weather could have a negative impact on our results of operations.

Our business is susceptible to unseasonable weather conditions. For example, extended periods of unseasonably warm temperatures during the winter season or cool weather during the summer season (including any weather patterns associated with global warming and cooling) could render a portion of our inventory incompatible with those unseasonable conditions. These prolonged unseasonable weather conditions could have a material adverse effect on our business and results of operations.

Table of Contents

We may be unable to compete favorably in the highly competitive retail industry, and if we lose customers to our competitors, our sales could decrease.

The teenage and young adult retail apparel, footwear, accessories and hardgoods industry is highly competitive. We compete with other retailers for vendors, teenage and young adult customers, suitable store locations, qualified store associates and management personnel. Some of our competitors are larger than we are and have substantially greater financial, marketing, including advanced ecommerce marketing capabilities, and other resources than we do. Additionally, some of our competitors may offer more options for free and/or expedited shipping for ecommerce sales. Direct competition with these and other retailers may increase significantly in the future, which could require us, among other things, to lower our prices and could result in the loss of our customers. Current and increased competition could have a material adverse effect on our business, results of operations and financial condition.

If we fail to maintain good relationships with vendors or if a vendor is otherwise unable or unwilling to supply us with adequate quantities of their products at acceptable prices, our business and financial performance could suffer.

Our business is dependent on continued good relations with our vendors. In particular, we believe that we generally are able to obtain attractive pricing and terms from vendors because we are perceived as a desirable customer, and deterioration in our relationship with our vendors could have a material adverse effect on our business. There can be no assurance that our vendors will provide us with an adequate supply or quality of products or acceptable pricing. Our vendors could discontinue selling to us, raise the prices they charge at any time or allow their merchandise to be discounted by other retailers. There can be no assurance that we will be able to acquire desired merchandise in sufficient quantities on terms acceptable to us in the future. In addition, certain of our vendors sell their products directly to the retail market and therefore compete with us directly and other vendors may decide to do so in the future. There can be no assurance that such vendors will not decide to discontinue supplying their products to us, supply us only less popular or lower quality items, raise the prices they charge us or focus on selling their products directly. In addition, a number of our vendors are smaller, less capitalized companies and are more likely to be impacted by unfavorable general economic and market conditions than larger and better capitalized companies. These smaller vendors may not have sufficient liquidity during economic downturns to properly fund their businesses and their ability to supply their products to us could be negatively impacted. Any inability to acquire suitable merchandise at acceptable prices, or the loss of one or more key vendors, could have a material adverse effect on our business, results of operations and financial condition.

Our ecommerce operations subject us to numerous risks that could have an adverse effect on our results of operations.

Our ecommerce operations subject us to certain risks that could have an adverse effect on our operational results, including:

rapid technological change;

liability for online content; and

risks related to the computer systems that operate our website and related support systems, including computer viruses, electronic break-ins and similar disruptions.

In addition, risks beyond our control, such as governmental regulation of ecommerce, entry of our vendors in the ecommerce business in competition with us, online security breaches and general economic conditions specific to ecommerce could have an adverse effect on our results of operations.

Table of Contents

If we lose key executives or are unable to attract and retain the talent required for our business, our financial performance could suffer.

Our performance depends largely on the efforts and abilities of our key executives. If we lose the services of one or more of our key executives, we may not be able to successfully manage our business or achieve our growth objectives. As our business grows, we will need to attract and retain additional qualified personnel in a timely manner and we may not be able to do so.

Our failure to meet our staffing needs could adversely affect our ability to implement our growth strategy and could have a material impact on our results of operations.

Our success depends in part upon our ability to attract, motivate and retain a sufficient number of qualified employees who understand and appreciate our culture and our brand and are able to adequately represent this culture to our customers. Qualified individuals of the requisite caliber, skills and number needed to fill these positions may be in short supply in some areas, and the employee turnover rate in the retail industry is high. Competition for qualified employees could require us to pay higher wages to attract a sufficient number of suitable employees. If we are unable to hire and retain store managers and store associates capable of consistently providing a high level of customer service, as demonstrated by their enthusiasm for our culture and knowledge of our merchandise, our ability to open new stores may be impaired and the performance of our existing and new stores could be materially adversely affected. We are also dependent upon temporary personnel to adequately staff our stores and our distribution and fulfillment operations particularly during busy periods such as the back-to-school and winter holiday seasons. There can be no assurance that we will receive adequate assistance from our temporary personnel, or that there will be sufficient sources of temporary personnel. Although none of our employees are currently covered by collective bargaining agreements, we cannot guarantee that our employees will not elect to be represented by labor unions in the future, which could increase our labor costs and could subject us to the risk of work stoppages and strikes. Any such failure to meet our staffing needs, any material increases in employee turnover rates, any increases in labor costs or any work stoppages, interruptions or strikes could have a material adverse effect on our business or results of operations.

Our business could suffer with the closure or disruption of our home office or our distribution centers.

Domestically, we rely on a single distribution center located in Corona, California to receive, store and distribute the vast majority of our merchandise to our domestic stores. Internationally, we operate a combined distribution and ecommerce fulfillment center located in Graz, Austria that supports our Blue Tomato ecommerce and store operations in Europe and we operate a distribution center located in Delta, British Columbia, Canada to distribute our merchandise to our Canadian stores. Additionally, we are headquartered in Lynnwood, Washington. As a result, a natural disaster or other catastrophic event that affects one of the regions where we operate these centers could significantly disrupt our operations and have a material adverse effect on our business, results of operations and financial condition.

We are required to make substantial rental payments under our operating leases and any failure to make these lease payments when due could have a material adverse effect on our business and growth plans.

Payments under operating leases account for a significant portion of our operating expenses and has historically been our third largest expense behind cost of sales and employee related costs. Total rent expense, including contingent rent based on sales of some of our stores, was \$71.1 million, \$64.6 million and \$53.4 million for fiscal 2015, 2014 and 2013. Total rent expense amounts do not include real estate taxes, insurance, common area maintenance charges and other executory costs, which were \$38.6 million, \$35.6 million and \$32.0 million for fiscal 2015, 2014 and 2013.

At January 30, 2016, we were committed to property owners for minimum lease payments of \$425.4 million. In addition to minimum lease payments, substantially all of our store leases provide for contingent rent payments based on sales of the respective stores, as well as real estate taxes, insurance, common

Table of Contents

area maintenance charges and other executory costs. These amounts generally escalate each year. We expect that any new stores we open will also be leased by us under operating leases, which will further increase our operating lease expenses and obligations.

Our substantial operating lease obligations could have significant negative consequences, including:

increasing our vulnerability to general adverse economic and industry conditions;

limiting our ability to obtain additional financing;

requiring that a substantial portion of our available cash be applied to pay our rental obligations, thus reducing cash available for other purposes; and

limiting our flexibility in planning for or reacting to changes in our business or in the industry in which we compete, and placing us at a disadvantage with respect to some of our competitors.

We depend on cash flow from operations to pay our lease expenses and to fulfill our other cash needs. If our business does not generate sufficient cash flow from operating activities, and sufficient funds are not otherwise available to us from borrowings under bank loans or from other sources, we may not be able to service our operating lease expenses, grow our business, respond to competitive challenges or fund our other liquidity and capital needs, which could have a material adverse effect on our business.

The terms of our primary credit facility impose certain restrictions on us that may impair our ability to respond to changing business and economic conditions. These restrictions could have a significant adverse impact on our business. Additionally, our business could suffer if our ability to acquire financing is reduced or eliminated.

Subsequent to January 30, 2016, we entered into an asset-based revolving credit agreement with Wells Fargo Bank, N.A., which provides for a senior secured revolving credit facility (ABL Facility) of up to \$100 million. The ABL Facility replaces the above mentioned secured credit agreement. The ABL Facility contains various representations, warranties and restrictive covenants that, among other things and subject to specified circumstances and exceptions, restrict our ability to incur indebtedness (including guarantees), grant liens, make investments, pay dividends or distributions with respect to capital stock, make prepayments on other indebtedness, engage in mergers, dispose of certain assets or change the nature of their business. In addition, excess availability equal to at least 10% of the loan cap must be maintained under the ABL Facility. The ABL Facility does not otherwise contain financial maintenance covenants. These restrictions could (1) limit our ability to plan for or react to market conditions or meet capital needs or otherwise restrict our activities or business plans; and (2) adversely affect our ability to finance our operations, strategic acquisitions, investments or other capital needs or to engage in other business activities that would be in our interest.

The ABL Facility includes customary events of default including non-payment of principal, interest or fees, violation of covenants, inaccuracy of representations or warranties, cross-default to other material indebtedness, bankruptcy and insolvency events, invalidity or impairment of guarantees or security interests, material judgments and change of control.

Additionally, we cannot be assured that our borrowing relationship with our lenders will continue or that our lenders will remain able to support their commitments to us in the future. If our lenders fail to do so, then we may not be able to secure alternative financing on commercially reasonable terms, or at all.

Our business could suffer if a manufacturer fails to use acceptable labor practices.

We do not control our vendors or the manufacturers that produce the products we buy from them, nor do we control the labor practices of our vendors and these manufacturers. The violation of labor or other laws by any of our vendors or these manufacturers, or the divergence of the labor practices followed by any of our vendors or

Table of Contents

these manufacturers from those generally accepted as ethical in the U.S., could interrupt, or otherwise disrupt, the shipment of finished products to us or damage our reputation. Any of these, in turn, could have a material adverse effect on our financial condition and results of operations. In that regard, most of the products we sell are manufactured overseas, primarily in Asia and Central America, which may increase the risk that the labor practices followed by the manufacturers of these products may differ from those considered acceptable in the U.S.

Additionally, our products are subject to regulation of and regulatory standards set by various governmental authorities with respect to quality and safety. Regulations and standards in this area are currently in place. These regulations and standards may change from time to time. Our inability to comply on a timely basis with regulatory requirements could result in significant fines or penalties, which could adversely affect our reputation and sales. Issues with the quality and safety of merchandise we sell, regardless of our culpability, or customer concerns about such issues, could result in damage to our reputation, lost sales, uninsured product liability claims or losses, merchandise recalls and increased costs.

Our failure to adequately anticipate a correct mix of private label merchandise may have a material adverse effect on our business.

Sales from private label merchandise account for approximately 20% of our net sales and generally carry higher gross margins than our other merchandise. We may take steps to increase the percentage of net sales of private label merchandise in the future, although there can be no assurance that we will be able to achieve increases in private label merchandise sales as a percentage of net sales. Our failure to anticipate, identify and react in a timely manner to fashion trends with our private label merchandise, could have a material adverse effect on our comparable sales, financial condition and results of operations.

If our information systems hardware or software fails to function effectively or does not scale to keep pace with our planned growth, our operations could be disrupted and our financial results could be harmed.

We are continuing to make investments to improve our information systems infrastructure. If our information systems, including software, do not work effectively, this could adversely impact the promptness and accuracy of our transaction processing, financial accounting and reporting and our ability to manage our business and properly forecast operating results and cash requirements. Additionally, we rely on third-party service providers for certain information systems functions. If a service provider fails to provide the data quality, communications capacity or services we require, the failure could interrupt our services and could have a material adverse effect on our business, financial condition and results of operations. To manage the anticipated growth of our operations and personnel, we may need to continue to improve our operational and financial systems, transaction processing, procedures and controls, and in doing so could incur substantial additional expenses that could impact our financial results.

The security of our databases that contain personal information of our retail customers could be breached, which could subject us to adverse publicity, litigation and expenses. In addition, if we are unable to comply with security standards created by the credit card industry, our operations could be adversely affected.

Database privacy, network security and identity theft are matters of growing public concern. In an attempt to prevent unauthorized access to our network and databases containing confidential, third-party information, we have installed privacy protection systems, devices and activity monitoring on our networks. Nevertheless, if unauthorized parties gain access to our networks or databases, they may be able to steal, publish, delete or modify our private and sensitive third-party information. In such circumstances, we could be held liable to our customers or other parties or be subject to regulatory or other actions for breaching privacy rules and we may be exposed to reputation damage and loss of customers' trust and business. This could result in costly investigations and litigation, civil or criminal penalties and adverse publicity that could adversely affect our financial condition, results of operations and reputation. Further, if we are unable to comply with the security standards established by banks and the credit card industry, we may be subject to fines, restrictions and expulsion from card acceptance programs, which could adversely affect our retail operations.

Table of Contents

Our inability or failure to protect our intellectual property or our infringement of other s intellectual property could have a negative impact on our operating results.

We believe that our trademarks and domain names are valuable assets that are critical to our success. The unauthorized use or other misappropriation of our trademarks or domain names could diminish the value of the Zumiez or Blue Tomato brands, our store concepts, our private label brands or our goodwill and cause a decline in our net sales. Although we have secured or are in the process of securing protection for our trademarks and domain names in a number of countries outside of the U.S., there are certain countries where we do not currently have or where we do not currently intend to apply for protection for certain trademarks or at all. Also, the efforts we have taken to protect our trademarks may not be sufficient or effective. Therefore, we may not be able to prevent other persons from using our trademarks or domain names outside of the U.S., which also could adversely affect our business. We are also subject to the risk that we may infringe on the intellectual property rights of third parties. Any infringement or other intellectual property claim made against us, whether or not it has merit, could be time-consuming, result in costly litigation, cause product delays or require us to pay royalties or license fees. As a result, any such claim could have a material adverse effect on our operating results.

The effects of war or acts of terrorism, or other types of mall violence, could adversely affect our business.

Most of our stores are located in shopping malls. Any threat of terrorist attacks or actual terrorist events, or other types of mall violence, such as shootings in malls, particularly in public areas, could lead to lower customer traffic in shopping malls. In addition, local authorities or mall management could close shopping malls in response to security concerns. Mall closures, as well as lower customer traffic due to security concerns, could result in decreased sales. Additionally, the armed conflicts in the Middle East, or the threat, escalation or commencement of war or other armed conflict elsewhere, could significantly diminish consumer spending, and result in decreased sales for us. Decreased sales could have a material adverse effect on our business, financial condition and results of operations.

The outcome of litigation could have a material adverse effect on our business, and may result in substantial costs and could divert management s attention.

We are involved, from time to time, in litigation incidental to our business including complaints filed by investors. This litigation could result in substantial costs, and could divert management s attention and resources, which could harm our business. Risks associated with legal liability are often difficult to assess or quantify, and their existence and magnitude can remain unknown for significant periods of time. There can be no assurance that the actual outcome of pending or future litigation will not have a material adverse effect on our results of operations or financial condition. Additionally, while we maintain director and officer liability insurance for litigation surrounding investor lawsuits, the amount of insurance coverage may not be sufficient to cover a claim and the continued availability of this insurance cannot be assured.

Our operations expose us to the risk of litigation, which could lead to significant potential liability and costs that could harm our business, financial condition or results of operations.

We employ a substantial number of full-time and part-time employees, a majority of whom are employed at our store locations. As a result, we are subject to a large number of federal, state and foreign laws and regulations relating to employment. This creates a risk of potential claims that we have violated laws related to discrimination and harassment, health and safety, wage and hour laws, criminal activity, personal injury and other claims. We are also subject to other types of claims in the ordinary course of our business. Some or all of these claims may give rise to litigation, which could be time-consuming for our management team, costly and harmful to our business.

In addition, we are exposed to the risk of class action litigation. The costs of defense and the risk of loss in connection with class action suits are greater than in single-party litigation claims. Due to the costs of defending against such litigation, the size of judgments that may be awarded against us, and the loss of significant

Table of Contents

management time devoted to such litigation, we cannot assure you that such litigation will not disrupt our business or impact our financial results.

Our failure to comply with federal, state, local or foreign laws, or changes in these laws, could have an adverse impact on our results of operations and financial performance.

Our business is subject to a wide array of laws and regulations. Changes in the regulations, the imposition of additional regulations, or the enactment of any new legislation including those related to health care, taxes, privacy, environmental issues and trade, could adversely affect our results of operations or financial condition.

Our business could be adversely affected by increased labor costs, including costs related to an increase in the minimum wage and new health care laws.

Labor is a primary component in the cost of operating our business. Increased labor costs, whether due to competition, unionization, increased minimum wage, state unemployment rates, employee benefits costs or otherwise, may adversely impact our operating expenses. A considerable amount of our store team members are paid at rates related to the federal or state minimum wage and any changes to the minimum wage rate may increase our operating expenses. Furthermore, inconsistent increases in state and or city minimum wage requirements limits our ability to increase prices across all markets and channels. Additionally, we are self-insured with respect to our health care coverage in the U.S. and do not purchase third party insurance for the health insurance benefits provided to employees with the exception of pre-defined stop loss coverage, which helps limit the cost of large claims. In March 2010, The Patient Protection and Affordable Care Act was enacted requiring employers such as us to provide health insurance for all qualifying employees or pay penalties for not providing coverage. These costs were incurred in fiscal 2015, however, there is no assurance that we will be able to absorb and/or pass through the costs of future health care legislation in a manner that will not adversely impact our results or operations.

Failure to maintain adequate financial and management processes and controls could lead to errors in our financial reporting and could harm our ability to manage our expenses.

Reporting obligations as a public company and our anticipated growth, both domestically and internationally, are likely to place a considerable strain on our financial and management systems, processes and controls, as well as on our personnel. In addition, we are required to document and test our internal controls over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 so that our management can certify as to the effectiveness of our internal controls and our independent registered public accounting firm can render an opinion on the effectiveness of our internal control over financial reporting on an annual basis. This process requires us to document our internal controls over financial reporting and to potentially make significant changes thereto, if applicable. As a result, we have incurred and expect to continue to incur substantial expenses to test our financial controls and systems, and we have been and in the future may be required to improve our financial and managerial controls, reporting systems and procedures, to incur substantial expenses to make such improvements and to hire additional personnel. If our management is ever unable to certify the effectiveness of our internal controls or if our independent registered public accounting firm cannot render an opinion on the effectiveness of our internal control over financial reporting, or if material weaknesses in our internal controls are ever identified, we could be subject to regulatory scrutiny and a loss of public confidence, which could have a material adverse effect on our business and our stock price. In addition, if we do not maintain adequate financial and management personnel, processes and controls, we may not be able to accurately report our financial performance on a timely basis, which could cause a decline in our stock price and adversely affect our ability to raise capital.

Changes to accounting rules or regulations could significantly affect our financial results.

Our consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP). New accounting rules or regulations and changes to

Table of Contents

existing accounting rules or regulations have occurred and may occur in the future. Future changes to accounting rules or regulations, such as changes to lease accounting guidance or a requirement to convert to international financial reporting standards, could negatively affect our results of operations and financial condition through increased cost of compliance.

We may fail to meet analyst expectations, which could cause the price of our stock to decline.

Our common stock is traded publicly and various securities analysts follow our financial results and issue reports on us. These reports include information about our historical financial results as well as the analysts' estimates of our future performance. The analysts' estimates are based upon their own independent opinions and can be different from our estimates or expectations. If our operating results are below the estimates or expectations of public market analysts and investors, our stock price could decline. In December 2007, a securities class action litigation and associated derivative lawsuits were brought against us and such actions are frequently brought against other companies following a decline in the market price of their securities. These lawsuits were dismissed with prejudice in March 2009. If our stock price is volatile, we may become involved in this type of litigation in the future. Any litigation could result in substantial costs and a diversion of management's attention and resources that are needed to successfully run our business.

The reduction of total outstanding shares through the execution of the share repurchase program of common stock may increase the risk that a group of shareholders could form a group to become a controlling shareholder.

We do not have a controlling shareholder, nor are we aware of any shareholders that have formed a group (defined as when two or more persons agree to act together for the purposes of acquiring, holding, voting or otherwise disposing of the equity securities of an issuer). The reduction of total outstanding shares through the execution of the share repurchase program of common stock may increase the risk that a group of shareholders could form a group to become a controlling shareholder.

A controlling shareholder would have significant influence over, and may have the ability to control, matters requiring approval by the Company's shareholders, including the election of directors and approval of mergers, consolidations, sales of assets, recapitalizations and amendments to the Company's articles of incorporation. Furthermore, a controlling shareholder may take actions with which other shareholders do not agree, including actions that delay, defer or prevent a change of control of the company and that could cause the price that investors are willing to pay for the company's stock to decline.

The value of our investments may fluctuate.

We have our excess cash primarily invested in state and local municipal securities and variable-rate demand notes. These investments have historically been considered very safe investments with minimal default rates. At January 30, 2016, we had \$33.2 million of investments in state and local government securities and variable-rate demand notes. These securities are not guaranteed by the U.S. government and are subject to additional credit risk based upon each local municipality's tax revenues and financial stability. As a result, we may experience a reduction in value or loss of liquidity of our investments, which may have a negative adverse effect on our results of operations, liquidity and financial condition.

A decline in the market price of our stock and/or our performance may trigger an impairment of the goodwill and other indefinite-lived intangible assets recorded on the consolidated balance sheets.

Goodwill and other indefinite-lived intangible assets are required to be tested for impairment at least annually or more frequently if management believes indicators of impairment exist. Any reduction in the carrying value of our goodwill or other indefinite-lived intangible assets as a result of our impairment analysis could result in a non-cash impairment charge, which could have a significant impact on our results of operations.

Table of Contents

Reduced operating results and cash flows may cause us to incur impairment charges.

We review the carrying value of our fixed assets for impairment whenever events or changes in circumstances indicate that the carrying value of such asset may not be recoverable. The review could result in a non-cash impairment charge related to underperforming stores, which could impact our results of operations.

Item 1B. UNRESOLVED STAFF COMMENTS

None.

Item 2. PROPERTIES

All of our stores are occupied under operating leases and encompassed approximately 1.9 million total square feet at January 30, 2016.

We own approximately 356,000 square feet of land in Lynnwood, Washington, and completed construction of a 63,071 square foot home office in fiscal 2012. Additionally, we lease 14,208 square feet of office space in Schladming, Austria for our European home office. This lease is set to expire in 2017.

We own a 168,450 square foot building in Corona, California that serves as our domestic warehouse and distribution center.

We lease a 85,390 square feet combined distribution and ecommerce fulfillment center in Graz, Austria that supports our Blue Tomato ecommerce and store operations in Europe. This lease is set to expire in 2019. We lease 17,168 square feet of a distribution facility in Delta, British Columbia, Canada that supports our store operations in Canada. This lease is set to expire in 2018.

Item 3. LEGAL PROCEEDINGS

We are involved from time to time in litigation incidental to our business. We believe that the outcome of current litigation is not expected to have a material adverse effect on our results of operations or financial condition.

See Note 10, Commitments and Contingencies, in the Notes to Consolidated Financial Statements found in Part IV Item 15 of this Form 10-K, for additional information related to legal proceedings.

Item 4. MINE SAFETY DISCLOSURES

Not applicable.

Table of Contents**PART II****Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES****Market Information**

Our common stock is traded on the Nasdaq Global Select Market under the symbol ZUMZ. At January 30, 2016, there were 25,708,017 shares of common stock outstanding. The following table sets forth the high and low sales prices for our common stock on the Nasdaq Global Select Market.

Fiscal 2015	High	Low
First Fiscal Quarter (February 1, 2015 - May 2, 2015)	\$ 40.64	\$ 30.89
Second Fiscal Quarter (May 3, 2015 - August 1, 2015)	\$ 32.29	\$ 23.51
Third Fiscal Quarter (August 2, 2015 - October 31, 2015)	\$ 26.32	\$ 13.75
Fourth Fiscal Quarter (November 1, 2015 - January 30, 2016)	\$ 18.49	\$ 11.53
Fiscal 2014	High	Low
First Fiscal Quarter (February 2, 2014 - May 3, 2014)	\$ 26.50	\$ 20.68
Second Fiscal Quarter (May 4, 2014 - August 2, 2014)	\$ 30.75	\$ 24.25
Third Fiscal Quarter (August 3, 2014 - November 1, 2014)	\$ 34.64	\$ 27.21
Fourth Fiscal Quarter (November 2, 2013 - January 31, 2015)	\$ 41.81	\$ 32.68

Table of Contents**Performance Measurement Comparison**

The following graph shows a comparison for total cumulative returns for Zumiez, the Nasdaq Composite Index and the Nasdaq Retail Trade Index during the period commencing on January 29, 2011 and ending on January 30, 2016. The comparison assumes \$100 was invested on January 29, 2011 in each of Zumiez, the Nasdaq Composite Index and the Nasdaq Retail Trade Index, and assumes the reinvestment of all dividends, if any. The comparison in the following graph and table is required by the SEC and is not intended to be a forecast or to be indicative of future Company common stock performance.

	1/29/11	1/28/12	2/2/13	2/1/14	1/31/15	1/30/16
Zumiez	100.00	126.98	94.62	96.46	167.14	81.17
NASDAQ Composite	100.00	105.66	119.44	159.71	181.15	180.76
NASDAQ Retail Trade	100.00	109.43	134.51	169.09	189.62	223.63

Holder of the Company's Capital Stock

We had 530 shareholders of record as of February 26, 2016.

Dividends

No cash dividends have been declared on our common stock to date nor have any decisions been made to pay a dividend in the foreseeable future. Payment of dividends is evaluated on a periodic basis.

Table of Contents**Recent Sales of Unregistered Securities**

Issuer Purchases of Equity Securities

The following table presents information with respect to purchases of our common stock made during the thirteen weeks ended January 30, 2016 (in thousands, except average price paid per share):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Dollar Value of Shares that May Yet be Repurchased Under the Plans or Programs (1)
November 1, 2015 - November 28, 2015		\$		\$
November 29, 2015 - January 2, 2016	546	15.26	546	61,674
January 3, 2016 - January 30, 2016	443	16.42	443	54,395
Total	989		989	

- (1) The share repurchase program is conducted under authorizations made from time to time by our Board of Directors. In December 2014, our Board of Directors authorized us to repurchase \$30.0 million shares of our common stock. This superseded and replaced any previously authorized share repurchase program. In June 2015, our Board of Directors superseded and replaced this program with a \$50.0 million share repurchase program that was completed in August 2015. In December 2015, our Board of Directors authorized us to repurchase up to \$70.0 million of our common stock. This program is expected to continue through January 28, 2017, unless the time period is extended or shortened by the Board of Directors.

Table of Contents**Item 6. SELECTED FINANCIAL DATA**

The following selected consolidated financial information has been derived from our audited Consolidated Financial Statements. The data should be read in conjunction with our Consolidated Financial Statements and the notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations included elsewhere herein.

	Fiscal 2015 (1)	Fiscal 2014 (2)	Fiscal 2013 (3)	Fiscal 2012 (4)	Fiscal 2011

Table of Contents

- (1) Included in the results for fiscal 2015 is \$1.2 million for the exit costs associated with the closure of our Kansas fulfillment center, \$0.6 million for the expense associated with the incentive payments to be paid in conjunction with our acquisition of Blue Tomato and an expense of \$0.9 million of amortization of intangible assets.
- (2) Included in the results for fiscal 2014 is \$6.4 million for the expense associated with the future incentive payments to be paid in conjunction with our acquisition of Blue Tomato and an expense of \$2.3 million of amortization of intangible assets.
- (3) Included in the results for fiscal 2013 are the following charges: a) a benefit of \$2.7 million representing the correction of an error related to our calculation to account for rent expense on a straight-line basis, b) a benefit of \$2.6 million for the reversal of the previously recorded expense associated with the future incentive payments to be paid in conjunction with our acquisition of Blue Tomato, c) an expense of \$2.3 million for the amortization of intangible assets, d) an expense of \$1.3 million for a litigation settlement and e) a benefit of \$0.4 million for the release of a valuation allowance to net operating losses in foreign subsidiaries.
- (4) Fiscal 2012 consisted of 53 weeks. All other fiscal years presented consisted of 52 weeks. In fiscal 2012, we acquired Blue Tomato for cash consideration of 59.5 million Euros (\$74.8 million). Additionally, included in the results for fiscal 2012 are the following charges: a) an expense of \$2.3 million associated with the future incentive payments to be paid in conjunction with our acquisition of Blue Tomato, b) an expense of \$2.2 million related to a step-up in inventory to estimated fair value in conjunction with our acquisition of Blue Tomato, c) an expense of \$2.1 million associated with the relocation of our ecommerce fulfillment center and home office, d) an expense of \$1.9 million in transaction costs incurred in conjunction with our acquisition of Blue Tomato and e) an expense of \$1.3 million for the amortization of intangible assets.
- (5) See Management's Discussion and Analysis of Financial Condition and Results of Operations - General for more information about how we compute comparable sales.
- (6) Net sales per store represents net sales, including ecommerce sales, for the period divided by the average number of stores open during the period. For purposes of this calculation, the average number of stores open during the period is equal to the sum of the number of stores open as of the end of each month during the fiscal year divided by the number of months in the fiscal year.
- (7) Total store square footage includes retail selling, storage and back office space at the end of the fiscal year.
- (8) Average square footage per store is calculated based on the total store square footage at the end of the fiscal year, including retail selling, storage and back office space, of all stores open at the end of the fiscal year.
- (9) Net sales per square foot represents net sales, including ecommerce sales, for the period divided by the average square footage of stores open during the period. For purposes of this calculation, the average square footage of stores open during the period is equal to the sum of the total square footage of the stores open as of the end of each month during the fiscal year divided by the number of months in the fiscal year.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this document. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those discussed in Item 1A Risk Factors. See the cautionary note regarding forward-looking statements set forth at the beginning of Part I of the Annual Report on Form 10-K.

Fiscal 2015 A Review of This Past Year

In fiscal 2015 teen retail in general faced a challenging sales environment with many mall based teen retailers experiencing declining sales. Following a 2014 annual comparable sales increase of 4.6% and a fourth

Table of Contents

quarter 2014 comparable sales increase of 8.3%, Zumiez sales remained positive in the first quarter of 2015 at 3%. By the second quarter of 2015, sales had begun to slow and remained soft through the remainder of the year with the absence of a strong fashion trend or key item to drive traffic resulting in a negative 5.3% comparable sales decrease for the year. Operating margins and earnings declined from the prior year due primarily to deleveraging of fixed costs on negative comparable sales results and to a lesser extent a decline in product margins as a result of efforts to keep inventory healthy. Throughout the year, we continued to make investments in our North America store footprint focused on expanding in the United States and Canada by adding 51 new stores during fiscal 2015. We also added 6 new stores to our Blue Tomato operations in Europe which showed strong sales growth in 2015.

As a leading lifestyle retailer we continue to differentiate ourselves through our distinctive brand offering and diverse product selection, as well as the unique customer experience our sales associates provide. We also believe that investments made in our omni-channel platform focused on creating a seamless shopping experience for our customer between the physical and digital channels is critical for our long-term financial performance. At the end of fiscal 2015 we took another major step toward creating a seamless shopping experience by closing our Kansas fulfillment operations and transitioning to a fully localize fulfillment model with stores shipping all but a small fraction of on-line orders. In store fulfillment is a key part of our omni-channel strategy that we believe will drive long term market share by leveraging the strengths of our store sales team, providing better and faster service to customers, improving product margins, and providing additional selling opportunities.

The following table shows net sales, operating profit, operating margin, and diluted earnings per share for fiscal 2015 compared to fiscal 2014. The fiscal 2015 results include \$1.5 million of charges associated with the acquisition of Blue Tomato made up of \$0.6 million for incentive payments related to the transaction and \$0.9 million for the amortization of intangible assets and \$1.2 million associated with exit charges related to our Kansas fulfillment center. The fiscal 2014 results include \$8.7 million of charges associated with the acquisition of Blue Tomato made up of \$6.4 million for incentive payments related to the transaction and \$2.3 million for the amortization of intangible assets.

	Fiscal 2015	Fiscal 2014	% Change
Net sales (in thousands)	\$ 804,183	\$ 811,551	-1%
Operating profit (in thousands)	\$ 46,165	\$ 71,571	-35%
Operating margin	5.7%	8.8%	
Diluted earnings per share	\$ 1.04	\$ 1.47	-29%

The decrease in net sales was primarily driven by a 5.3% comparable sales decrease partially offset by the net addition of 55 stores (57 new stores offset by 2 store closures). The decrease in comparable sales was driven by a decrease in transactions partially offset by an increase in dollars per transaction. Dollars per transaction increased primarily due to an increase in average unit retail, and to a lesser extent an increase in units per transaction. Operating margin was down in fiscal 2015 compared to fiscal 2014 primarily as a result of deleveraging operating costs partially offset by a decline in unique charges as discussed above.

Fiscal 2016 A Look At the Upcoming Year

Entering 2016 we remain cautious with our expectations. Our focus will be on continued execution of our core strategies as well as strategic investments centered on long-term quality growth. These investments will be largely focused on continued store growth, both domestically and international, the roll-out of our new Customer Engagement Suite and continued investments in our people through acquisition, retention, and statutory wage increases around the country. As we are closer to our targeted number of stores in North America, we expect that store growth in fiscal 2016 will be less than in fiscal 2015 with an estimated 34 stores opening during the fiscal year compared with 57 stores in fiscal 2015. This includes 7 additional stores in Europe, an increase from the 6 stores added in 2015. In 2016 we will invest in the roll-out of our Customer Engagement Suite focused on

Table of Contents

integrating our on-line and in-store point of sale (POS) systems, order management system (OMS), and transportation management system (TMS) improving our efficiency and further enhancing our omni-channel capabilities.

In fiscal 2016, excluding 2015 costs associated with the acquisition of Blue Tomato and one-time costs associated with the closing of our Kansas Facility, we expect our cost structure will grow at a higher rate than 2015. We anticipate inventory levels per square foot to be flat or grow slightly. Excluding any possible share buy-backs, we expect cash, short-term investments and working capital to increase, and do not anticipate any new borrowings during the year. Long-term we aim to grow sales annually and grow operating profit at a faster rate than sales by focusing on the changing consumer environment while managing our cost structure.

General

Net sales constitute gross sales (net of actual and estimated returns and deductions for promotions) and shipping revenue. Net sales include our store sales and our ecommerce sales. We record the sale of gift cards as a current liability and recognize revenue when a customer redeems a gift card. Additionally, the portion of gift cards that will not be redeemed (gift card breakage) is recognized in net sales after 24 months, at which time the likelihood of redemption is considered remote based on our historical redemption data.

We report comparable sales based on net sales beginning on the first anniversary of the first day of operation of a new store or ecommerce business. We operate a sales strategy that integrates our stores with our ecommerce platform. There is significant interaction between our store sales and our ecommerce sales channels and we believe that they are utilized in tandem to serve our customers. Therefore, our comparable sales also include our ecommerce sales. Changes in our comparable sales between two periods are based on net sales of store or ecommerce businesses which were in operation during both of the two periods being compared and, if a store or ecommerce business is included in the calculation of comparable sales for only a portion of one of the two periods being compared, then that store or ecommerce business is included in the calculation for only the comparable portion of the other period. Any change in square footage of an existing comparable store, including remodels and relocations, does not eliminate that store from inclusion in the calculation of comparable sales. Any store or ecommerce business that we acquire will be included in the calculation of comparable sales after the first anniversary of the acquisition date. Current year foreign exchange rates are applied to both current year and prior year comparable sales to achieve a consistent basis for comparison. There may be variations in the way in which some of our competitors and other apparel retailers calculate comparable sales. As a result, data herein regarding our comparable sales may not be comparable to similar data made available by our competitors or other retailers.

Cost of goods sold consists of branded merchandise costs and our private label merchandise costs including design, sourcing, importing and inbound freight costs. Our cost of goods sold also includes shrinkage, buying, occupancy, ecommerce fulfillment, distribution and warehousing costs (including associated depreciation) and freight costs for store merchandise transfers. This may not be comparable to the way in which our competitors or other retailers compute their cost of goods sold. Cash consideration received from vendors is reported as a reduction of cost of goods sold if the inventory has sold, a reduction of the carrying value of the inventory if the inventory is still on hand, or a reduction of selling, general and administrative expense if the amounts are reimbursements of specific, incremental and identifiable costs of selling the vendors products.

With respect to the freight component of our ecommerce sales, amounts billed to our customers are included in net sales and the related freight cost is charged to cost of goods sold.

Selling, general and administrative expenses consist primarily of store personnel wages and benefits, administrative staff and infrastructure expenses, freight costs for merchandise shipments from the distribution centers to the stores, store supplies, depreciation on fixed assets at our home office and stores, facility expenses, training expenses and advertising and marketing costs. Credit card fees, insurance, public company expenses, legal expenses, amortization of intangibles, and other miscellaneous operating costs are also included in selling,

Table of Contents

general and administrative expenses. This may not be comparable to the way in which our competitors or other retailers compute their selling, general and administrative expenses.

Key Performance Indicators

Our management evaluates the following items, which we consider key performance indicators, in assessing our performance:

Comparable sales. As previously described in detail under the caption General, comparable sales provide a measure of sales growth for stores and ecommerce businesses open at least one year over the comparable prior year period.

We consider comparable sales to be an important indicator of our current performance. Comparable sales results are important to achieve leveraging of our costs, including store payroll and store occupancy. Comparable sales also have a direct impact on our total net sales, operating profit, cash and working capital.

Gross profit. Gross profit measures whether we are optimizing the price and inventory levels of our merchandise. Gross profit is the difference between net sales and cost of goods sold. Any inability to obtain acceptable levels of initial markups or any significant increase in our use of markdowns could have an adverse effect on our gross profit and results of operations.

Operating profit. We view operating profit as a key indicator of our success. Operating profit is the difference between gross profit and selling, general and administrative expenses. The key drivers of operating profit are comparable sales, gross profit, our ability to control selling, general and administrative expenses and our level of capital expenditures affecting depreciation expense.

Results of Operations

The following table presents selected items on the consolidated statements of income as a percent of net sales:

	Fiscal 2015	Fiscal 2014	Fiscal 2013
Net sales	100.0%	100.0%	100.0%
Cost of goods sold	66.6%	64.6%	63.9%
Gross profit	33.4%	35.4%	36.1%
Selling, general and administrative expenses	27.7%	26.6%	26.0%
Operating profit	5.7%	8.8%	10.1%
Interest and other (expenses) income, net	0.0%	0.0%	-0.2%
Earnings before income taxes	5.7%	8.8%	9.9%
Provision for income taxes	2.1%	3.5%	3.6%
Net income	3.6%	5.3%	6.3%

Fiscal 2015 Results Compared With Fiscal 2014*Net Sales*

Net sales were \$804.2 million for fiscal 2015 compared to \$811.6 million for fiscal 2014, a decrease of \$7.4 million or 0.9%. The decrease reflected a \$42.1 million decrease due to comparable sales for fiscal 2015 and a decrease of \$19.6 million due to the impact of changes in foreign exchange rates, partially offset by the net addition of 55 stores (made up of 51 new stores in North America and 6 new stores in Europe offset by 2 store closures in North America). By region, North America sales decreased \$19.0 million or 2.5% and European sales increased \$11.6 million or 18.0% during fiscal 2015 compared to fiscal 2014.

Table of Contents

The 5.3% decrease in comparable sales was primarily driven by a decrease in comparable transactions partially offset by an increase in dollars per transaction. Dollars per transaction increased due to an increase in average unit retail and to a lesser extent an increase in units per transaction. Comparable sales decreases in accessories, men's apparel, footwear, and junior's apparel were partially offset by a comparable sales increase in hardgoods. For information as to how we define comparable sales, see [General](#) above.

Gross Profit

Gross profit was \$268.6 million for fiscal 2015 compared to \$287.1 million for fiscal 2014, a decrease of \$18.5 million, or 6.4%. As a percentage of net sales, gross profit decreased 200 basis points in fiscal 2015 to 33.4%. The decrease was primarily driven by a 140 basis point impact due to deleveraging of our store occupancy costs, 30 basis points impact of the increase in ecommerce related costs including \$1.2 million in exit costs associated with the closure of our Kansas fulfillment center and 20 basis point decrease in product margin.

Selling, General and Administrative Expenses

Selling, general and administrative (SG&A) expenses were \$222.5 million for fiscal 2015 compared to \$215.5 million for fiscal 2014, an increase of \$7.0 million, or 3.2%. SG&A expenses as a percent of net sales increased by 110 basis points in fiscal 2015 to 27.7%. The increase was primarily driven by a 170 basis points due to deleveraging of store costs partially offset by 70 basis point decrease from the fiscal 2014 expense associated with the future incentive payments to be paid in conjunction with our acquisition of Blue Tomato. See Note 3, [Business Combination](#), in the Notes to Consolidated Financial Statements found in Part IV Item 15 of the Form 10-K, for additional information related to our incentive payments.

Net Income

Net income for fiscal 2015 was \$28.8 million, or \$1.04 per diluted share, compared with net income of \$43.2 million, or \$1.47 per diluted share, for fiscal 2014. Our effective income tax rate for fiscal 2015 was 37.2% compared to 39.7% for fiscal 2014. The decrease in the effective tax rate for fiscal 2015 compared to fiscal 2014 was primarily due to the tax impact of foreign operations and the incentive payments in fiscal 2014.

Fiscal 2014 Results Compared With Fiscal 2013

Net Sales

Net sales were \$811.6 million for fiscal 2014 compared to \$724.3 million for fiscal 2013, an increase of \$87.2 million or 12.0%. The increase reflected the net addition of 52 stores (made up of 50 new stores in North America and six new stores in Europe offset by four store closures in North America) and a \$33.2 million increase due to comparable sales for fiscal 2014. By region, North America sales increased \$71.5 million or 10.6% and European sales increased \$15.7 million or 32.4% during fiscal 2014 compared to fiscal 2013.

The 4.6% increase in comparable sales was primarily driven by an increase in comparable transactions and dollars per transaction. Dollars per transaction increased due to an increase in units per transaction and an increase in average unit retail. Comparable sales increases in hardgoods, accessories, junior's apparel, and men's apparel were partially offset by a comparable sales decrease in footwear. For information as to how we define comparable sales, see [General](#) above.

Gross Profit

Gross profit was \$287.1 million for fiscal 2014 compared to \$261.8 million for fiscal 2013, an increase of \$25.3 million, or 9.7%. As a percentage of net sales, gross profit decreased 70 basis points in fiscal 2014 to 35.4%. The decrease was primarily driven by a 40 basis points benefit from the correction of an error in our

Table of Contents

calculation to account for rent expense recorded in fiscal 2013, 30 basis point decrease in product margin, 10 basis point impact due to deleveraging of our store occupancy costs, and 10 basis points impact of the increase in ecommerce related costs due to growth in ecommerce sales as a percentage of total sales. These decreases were partially offset by 20 basis points impact due to distribution center efficiencies.

Selling, General and Administrative Expenses

Selling, general and administrative (SG&A) expenses were \$215.5 million for fiscal 2014 compared to \$188.9 million for fiscal 2013, an increase of \$26.6 million, or 14.0%. SG&A expenses as a percent of net sales increased by 60 basis points in fiscal 2014 to 26.6%. The increase was primarily driven by a 110 basis points impact from the expense associated with the future incentive payments to be paid in conjunction with our acquisition of Blue Tomato and 10 basis point impact due to an increase in incentive compensation. These increases were partially offset by a 40 basis point impact due to corporate costs savings, and 20 basis points impact due to a litigation settlement charge incurred in fiscal 2013. See Note 3, Business Combination, in the Notes to Consolidated Financial Statements found in Part IV Item 15 of the Form 10-K, for additional information related to our future incentive payments.

Net Income

Net income for fiscal 2014 was \$43.2 million, or \$1.47 per diluted share, compared with net income of \$45.9 million, or \$1.52 per diluted share, for fiscal 2013. Our effective income tax rate for fiscal 2014 was 39.7% compared to 36.1% for fiscal 2013. The increase in the effective tax rate for fiscal 2014 compared to fiscal 2013 was primarily due to the tax impact on the future incentive payments in fiscal 2013 and 2014 and the release of valuation allowance related to net operating losses and other deferred tax assets of foreign subsidiaries in fiscal 2013.

Seasonality and Quarterly Results

As is the case with many retailers of apparel and related merchandise, our business is subject to seasonal influences. As a result, we have historically experienced, and expect to continue to experience, seasonal and quarterly fluctuations in our net sales and operating results. Our net sales and operating results are typically lower in the first and second quarters of our fiscal year, while the back-to-school and winter holiday periods in our third and fourth fiscal quarters historically have accounted for the largest percentage of our annual net sales. Quarterly results of operations may also fluctuate significantly as a result of a variety of factors, including the timing of store openings and the relative proportion of our new stores to mature stores, fashion trends and changes in consumer preferences, calendar shifts of holiday or seasonal periods, changes in merchandise mix, timing of promotional events, general economic conditions, competition and weather conditions.

Table of Contents

The following table sets forth selected unaudited quarterly consolidated statements of income data. The unaudited quarterly information has been prepared on a basis consistent with the audited consolidated financial statements included elsewhere herein and includes all adjustments that we consider necessary for a fair presentation of the information shown. This information should be read in conjunction with our audited consolidated financial statements and the notes thereto. The operating results for any fiscal quarter are not indicative of the operating results for a full fiscal year or for any future period and there can be no assurance that any trend reflected in such results will continue in the future.

	Fiscal 2015			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
	(in thousands, except stores and per share data)			
Net sales	\$ 177,610	\$ 179,819	\$ 204,320	\$ 242,434
Gross profit	\$ 56,535	\$ 57,773	\$ 70,059	\$ 84,257
Operating profit	\$ 4,126	\$ 5,312	\$ 15,224	\$ 21,503
Net income	\$ 2,770	\$ 3,213	\$ 9,653	\$ 13,149
Basic earnings per share	\$ 0.10	\$ 0.11	\$ 0.36	\$ 0.50
Diluted earnings per share	\$ 0.09	\$ 0.11	\$ 0.36	\$ 0.50
Number of stores open at the end of the period	616	640	653	658
Comparable sales increase (decrease)	3.0%	-4.5%	-7.3%	-9.5%

	Fiscal 2014			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
	(in thousands, except stores and per share data)			
Net sales	\$ 162,932	\$ 176,709	\$ 213,341	\$ 258,569
Gross profit	\$ 50,533	\$ 60,912	\$ 77,860	\$ 97,778
Operating profit	\$ 3,713	\$ 11,605	\$ 24,975	\$ 31,278
Net income	\$ 2,496	\$ 7,456	\$ 15,727	\$ 17,513
Basic earnings per share	\$ 0.09	\$ 0.26	\$ 0.54	\$ 0.60
Diluted earnings per share	\$ 0.09	\$ 0.26	\$ 0.54	\$ 0.60
Number of stores open at the end of the period	558	582	602	603
Comparable sales increase (decrease)	1.8%	3.4%	3.7%	8.3%

Liquidity and Capital Resources

Our primary uses of cash are for operational expenditures, inventory purchases and capital investments, including new stores, store remodels, store relocations, store fixtures and ongoing infrastructure improvements. Additionally, we may use cash for the repurchase of our common stock. Refer to Note 12, Stockholders' Equity of the Notes to Consolidated Financial Statements for further discussion of the repurchase plan. Historically, our main source of liquidity has been cash flows from operations.

The significant components of our working capital are inventories and liquid assets such as cash, cash equivalents, current marketable securities and receivables, reduced by accounts payable and accrued expenses. Our working capital position benefits from the fact that we generally collect cash from sales to customers the same day or within several days of the related sale, while we typically have longer payment terms with our vendors.

At January 30, 2016 and January 31, 2015, cash, cash equivalents and current marketable securities were \$75.6 million and \$154.6 million. Working capital, the excess of current assets over current liabilities, was \$129.8 million at the end of fiscal 2015, a decrease of 32.2% from \$191.4 million at the end of fiscal 2014. The decrease in cash, cash equivalents and current marketable securities in fiscal 2015 were due primarily to the

Table of Contents

\$92.2 million repurchase of common stock and \$34.8 million of capital expenditures primarily related to the opening of 57 new stores in fiscal 2015 and 19 remodels and relocations, partially offset by cash provided by operating activities of \$48.6 million.

The following table summarizes our cash flows from operating, investing and financing activities (in thousands):

	Fiscal 2015	Fiscal 2014	Fiscal 2013
Total cash provided by (used in)			
Operating activities	\$ 48,607	\$ 89,937	\$ 66,894
Investing activities	64,730	(73,873)	(49,619)
Financing activities	(90,758)	(13,933)	(15,233)
Effect of exchange rate changes on cash and cash equivalents	(278)	(903)	13
Increase in cash and cash equivalents	\$ 22,301	\$ 1,228	\$ 2,055

Operating Activities

Net cash provided by operating activities decreased by \$41.3 million in fiscal 2015 to \$48.6 million from \$89.9 million in fiscal 2014. Net cash provided by operating activities increased by \$23.0 million in fiscal 2014 to \$89.9 million from \$66.9 million in fiscal 2013. Our operating cash flows result primarily from cash received from our customers, offset by cash payments we make for inventory, employee compensation, store occupancy expenses and other operational expenditures. Cash received from our customers generally corresponds to our net sales. Because our customers primarily use credit cards or cash to buy from us, our receivables from customers settle quickly. Changes to our operating cash flows have historically been driven primarily by changes in operating income, which is impacted by changes to non-cash items such as depreciation, amortization and accretion, deferred taxes and excess tax benefit from stock-based compensation, and changes to the components of working capital.

Investing Activities

Net cash provided by investing activities was \$64.7 million in fiscal 2015 related to \$99.6 million in net sales of marketable securities partially offset by \$34.8 million of capital expenditures primarily for new store openings and existing store remodels or relocations. Net cash used in investing activities was \$73.9 million in fiscal 2014 related to \$35.8 million of capital expenditures primarily for new store openings and existing store remodels or relocations and \$38.1 million in net purchases of marketable securities. Net cash used in investing activities was \$49.6 million in fiscal 2013 related to \$36.0 million of capital expenditures primarily for new store openings and existing store remodels or relocations and \$13.6 million in net purchases of marketable securities and other investments.

Financing Activities

Net cash used in financing activities in fiscal 2015 was \$90.8 million, related to \$92.2 million cash paid for repurchase of common stock, partially offset by proceeds from stock-based compensation exercises and related tax benefits of \$1.6 million. Net cash used in financing activities in fiscal 2014 was \$13.9 million, related to \$19.6 million cash paid for repurchase of common stock and \$2.1 million of net payments on revolving credit facilities, and other liabilities, partially offset by proceeds from stock-based compensation exercises and related tax benefits of \$7.7 million. Net cash used in financing activities in fiscal 2013 was \$15.2 million, primarily related to \$17.6 million cash paid for repurchase of common stock, partially offset by proceeds from stock-based compensation exercises and related tax benefits of \$2.6 million.

Table of Contents

Sources of Liquidity

Our most significant sources of liquidity continue to be funds generated by operating activities and available cash, cash equivalents and current marketable securities. We expect these sources of liquidity and available borrowings under our revolving credit facility will be sufficient to meet our foreseeable cash requirements for operations and planned capital expenditures for at least the next twelve months. Beyond this time frame, if cash flows from operations are not sufficient to meet our capital requirements, then we will be required to obtain additional equity or debt financing in the future. However, there can be no assurance that equity or debt financing will be available to us when we need it or, if available, that the terms will be satisfactory to us and not dilutive to our then-current shareholders.

As of January 30, 2016, we maintained a secured credit agreement with Wells Fargo Bank, N.A., which provides us with a secured revolving credit facility until September 1, 2016 of up to \$25.0 million, which, pursuant to an accordion feature, may be increased to \$35.0 million at our discretion. The secured revolving credit facility provides for the issuance of a standby letter of credit in an amount not to exceed \$5.0 million outstanding at any time and with a term not to exceed 365 days. The commercial line of credit provides for the issuance of a commercial letter of credit in an amount not to exceed \$10.0 million and with terms not to exceed 120 days. The amount of borrowings available at any time under our secured revolving credit facility is reduced by the amount of standby and commercial letters of credit outstanding at that time. There were no borrowings outstanding under the secured revolving credit facility at January 30, 2016 and January 31, 2015. We had no open commercial letters of credit outstanding under our secured revolving credit facility as of January 30, 2016 and \$0.3 million as of January 31, 2015. The secured revolving credit facility bears interest at the Daily Three Month LIBOR rate plus 1.00%.

Additionally, we have revolving lines of credit of up to 9.0 million Euros, the proceeds of which are used to fund certain international operations. There were no borrowings or open commercial letters of credit outstanding under these revolving lines of credit at January 30, 2016 and January 31, 2015.

Subsequent to January 30, 2016, we entered into an asset-based revolving credit agreement, which provides for a senior secured revolving credit facility of up to \$100 million. Refer to Note 18, Subsequent Event, of the Notes to Consolidated Financial Statements for further discussion.

Capital Expenditures

Our capital requirements include construction and fixture costs related to the opening of new stores and remodel and relocation expenditures for existing stores. Future capital requirements will depend on many factors, including the pace of new store openings, the availability of suitable locations for new stores and the nature of arrangements negotiated with landlords. In that regard, our net investment to open a new store has varied significantly in the past due to a number of factors, including the geographic location and size of the new store, and is likely to vary significantly in the future.

During fiscal 2015, we spent \$34.8 million on capital expenditures, which consisted of \$30.9 million of costs related to investment in 57 new stores and 19 remodeled or relocated stores, \$1.9 million associated with improvements to our websites and the customer engagement suite and \$2.0 million in other improvements.

During fiscal 2014, we spent \$35.8 million on capital expenditures, which consisted of \$31.5 million of costs related to investment in 56 new stores and 19 remodeled or relocated stores, \$1.7 million associated with improvements to our websites and \$2.6 million in other improvements.

During fiscal 2013, we spent \$36.0 million on capital expenditures, which consisted of \$30.2 million of costs related to investment in 59 new stores and 13 remodeled or relocated stores, \$3.1 million associated with improvements to our websites and \$2.7 million in other improvements.

Table of Contents

In fiscal 2016, we expect to spend approximately \$27 million to \$29 million on capital expenditures, a majority of which will relate to leasehold improvements and fixtures for the approximately 34 new stores we plan to open in fiscal 2016 and remodels or relocations of existing stores. There can be no assurance that the number of stores that we actually open in fiscal 2016 will not be different from the number of stores we plan to open, or that actual fiscal 2016 capital expenditures will not differ from this expected amount.

Critical Accounting Estimates

Our consolidated financial statements are prepared in accordance with U.S. GAAP. In connection with the preparation of our consolidated financial statements, we are required to make assumptions and estimates about future events, and apply judgments that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures. We base our assumptions, estimates and judgments on historical experience, current trends and other factors that we believe to be relevant at the time our consolidated financial statements are prepared. On a regular basis, we review the accounting policies, assumptions, estimates and judgments to ensure that our consolidated financial statements are presented fairly and in accordance with U.S. GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material.

Our significant accounting policies are discussed in Note 2, Summary of Significant Accounting Policies, in the Notes to Consolidated Financial Statements found in Part IV Item 15 of this Form 10-K. We believe that the following accounting estimates are the most critical to aid in fully understanding and evaluating our reported financial results, and they require our most difficult, subjective or complex judgments, resulting from the need to make estimates about the effect of matters that are inherently uncertain.

Table of Contents

Description	Judgments and Uncertainties	Effect If Actual Results Differ From Assumptions
Valuation of Merchandise Inventories		
<p>We value our inventory at the lower of average cost or fair market value through the establishment of write-down and inventory loss reserves.</p>	<p>Our write-down reserve contains uncertainties because the calculation requires management to make assumptions based on the current rate of sales, the age and profitability of inventory and other factors.</p>	<p>We have not made any material changes in the accounting methodology used to calculate our write-down and shrinkage reserves in the past three fiscal years. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our inventory reserves. However, if actual results are not consistent with our estimates and assumptions, we may be exposed to losses or gains that could be material.</p>
<p>Our write-down reserve represents the excess of the carrying value over the amount we expect to realize from the ultimate sales or other disposal of the inventory. Write-downs establish a new cost basis for our inventory. Subsequent changes in facts or circumstances do not result in the restoration of previously recorded write-downs or an increase in that newly established cost basis.</p>	<p>Our shrinkage reserve contains uncertainties because the calculation requires management to make assumptions and to apply judgment regarding a number of factors, including historical percentages that can be affected by changes in merchandise mix and changes in actual shrinkage trends.</p>	<p>A 10% decrease in the sales price of our inventory at January 30, 2016 would have decreased net income by \$0.1 million in fiscal 2015.</p>
<p>Our inventory loss reserve represents anticipated physical inventory losses (shrinkage reserve) that have occurred since the last physical inventory.</p>		<p>A 10% increase in actual physical inventory shrinkage rate at January 30, 2016 would have decreased net income by \$0.2 million in fiscal 2015.</p>
Valuation of Long-Lived Assets		
<p>We review the carrying value of our long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of such asset or asset group may not be recoverable.</p>	<p>Events that may result in an impairment include the decision to close a store or facility or a significant decrease in the operating performance of a long-lived asset group. Our impairment calculations contain uncertainties because they require management to make assumptions and to apply judgment to estimate future cash flows and asset fair values, including forecasting future sales, gross profit and operating expenses. In addition to historical results, current trends and initiatives, and long-term macro economic and industry factors are qualitatively considered. Additionally management seeks input from store operations related to local economic conditions.</p>	<p>We do not believe there is a reasonable likelihood that there will be a material change in the estimates or assumptions we use to calculate fixed asset impairment losses. However, if actual results are not consistent with our estimates and assumptions, our operating results could be adversely affected. Declines in projected cash flow of the assets could result in impairment.</p>
<p>Recoverability of assets to be held and used is determined by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered impaired, the impairment recognized is measured by comparing the projected discounted cash flow of the asset to the asset carrying value.</p>	<p>Our fixed assets accounting methodology contains uncertainties because it requires management to make estimates with respect to the useful lives of our fixed assets that we believe are reasonable.</p>	<p>Although management believes that the current useful life estimates assigned to our fixed assets are reasonable, factors could cause us to change our estimates, thus affecting the future calculation of depreciation.</p>
<p>The actual economic lives of our fixed assets may be different from our estimated useful lives, thereby resulting in a different carrying value. These evaluations could result in a change in the depreciable lives of these assets and therefore our depreciation expense in future periods.</p>		

Table of Contents

Description	Judgments and Uncertainties	Effect If Actual Results Differ From Assumptions
Revenue Recognition		
<p>Revenue is recognized upon purchase at our retail store locations. For our ecommerce sales, revenue is recognized upon delivery to the customer. Revenue is recorded net of sales returns and deductions for promotions.</p>	<p>Our revenue recognition accounting methodology contains uncertainties because it requires management to make assumptions regarding delivery to our customers, future sales returns and the amount and timing of gift cards projected to be redeemed by gift card recipients. Our estimate of the amount and timing of sales returns and gift cards to be redeemed is based primarily on historical transaction experience.</p>	<p>We have not made any material changes in the accounting methodology used to measure future sales returns or recognize revenue for our gift card program in the past three fiscal years. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to recognize revenue. However, if actual results are not consistent with our estimates or assumptions, we may be exposed to losses or gains that could be material.</p>
<p>Revenue is not recorded on the sale of gift cards. We record the sale of gift cards as a current liability and recognize revenue when a customer redeems a gift card. Additionally, the portion of gift cards that will not be redeemed (gift card breakage) is recognized in net sales after 24 months, at which time the likelihood of redemption is considered remote based on our historical redemption data.</p>		<p>A 10% increase in our sales return reserve at January 30, 2016 would have decreased net income by \$0.1 million in fiscal 2015.</p>
		<p>A 10% increase in our unredeemed gift card breakage life at January 30, 2016 would have decreased net income by \$0.5 million in fiscal 2015.</p>
Stock-Based Compensation		
<p>We grant restricted stock awards, restricted stock units and non-qualified stock options to employees and non-employee directors.</p>	<p>The calculation of stock-based compensation expense requires management to make assumptions and to apply judgment to estimate the number of stock awards that will ultimately vest and to determine the fair value of our stock option awards. These assumptions and judgments include estimating future employee turnover rates and the inputs to the Black-Scholes option pricing model, including expected term. Changes in these assumptions can materially affect our stock-based compensation expense.</p>	<p>We do not believe there is a reasonable likelihood there will be a material change in the future estimates or assumptions we use to determine stock-based compensation expense. However, if actual results are not consistent with our estimates or assumptions, we may be exposed to changes in stock-based compensation expense that could be material.</p>
<p>We determine the fair value of our restricted stock awards and restricted stock units based on the closing market price of our stock on the grant date. In determining the fair value of our stock options, we use the Black-Scholes option pricing model. The estimated fair value of stock-based awards is recognized as compensation expense over the vesting period, net of estimated forfeitures.</p>		

Table of Contents

Description	Judgments and Uncertainties	Effect If Actual Results Differ From Assumptions
<p data-bbox="92 312 360 333"><i>Accounting for Income Taxes</i></p> <p data-bbox="92 354 587 632">As part of the process of preparing the consolidated financial statements, income taxes are estimated for each of the jurisdictions in which we operate. This process involves estimating actual current tax exposure together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included on the consolidated balance sheets. Valuation allowances may be established when necessary to reduce deferred tax assets to the amount expected to be realized.</p> <p data-bbox="92 741 587 940">We regularly evaluate the likelihood of realizing the benefit for income tax positions we have taken in various federal, state and foreign filings by considering all relevant facts, circumstances and information available to us. If we believe it is more likely than not that our position will be sustained, we recognize a benefit at the largest amount that we believe is cumulatively greater than 50% likely to be realized.</p>	<p data-bbox="628 354 1054 730">Significant judgment is required in evaluating our tax positions and determining our provision for income taxes. During the ordinary course of business, there are many transactions and calculations for which the ultimate tax determination is uncertain. For example, our effective tax rates could be adversely affected by earnings being lower than anticipated in jurisdictions where we have lower statutory rates and higher than anticipated in jurisdictions where we have higher statutory rates, by changes in the valuation of our deferred tax assets and liabilities or by changes in the relevant tax, accounting and other laws, regulations, principles and interpretations.</p> <p data-bbox="628 842 1054 940">Unrecognized tax benefits require significant management judgment regarding applicable statutes and their related interpretation and our particular facts and circumstances.</p>	<p data-bbox="1075 354 1473 478">Although management believes that the income tax related judgments and estimates are reasonable, actual results could differ and we may be exposed to losses or gains that could be material.</p> <p data-bbox="1075 590 1473 762">Upon income tax audit, any unfavorable tax settlement generally would require use of our cash and may result in an increase in our effective income tax rate in the period of resolution. A favorable tax settlement may be recognized as a reduction in our effective income tax rate in the period of resolution.</p>
<p data-bbox="92 957 360 978"><i>Accounting for Contingencies</i></p> <p data-bbox="92 999 587 1226">We are subject to various claims and contingencies related to lawsuits, insurance, regulatory and other matters arising out of the normal course of business. We accrue a liability if the likelihood of an adverse outcome is probable and the amount is estimable. If the likelihood of an adverse outcome is only reasonably possible (as opposed to probable), or if an estimate is not determinable, we provide disclosure of a material claim or contingency.</p>	<p data-bbox="628 999 1054 1199">Significant judgment is required in evaluating our claims and contingencies, including determining the probability that a liability has been incurred and whether such liability is reasonably estimable. The estimated accruals for claims and contingencies are made based on the best information available, which can be highly subjective.</p>	<p data-bbox="1075 999 1473 1251">Although management believes that the contingency related judgments and estimates are reasonable, our accrual for claims and contingencies could fluctuate as additional information becomes known, thereby creating variability in our results of operations from period to period. Additionally, actual results could differ and we may be exposed to losses or gains that could be material.</p>

Table of Contents

Description	Judgments and Uncertainties	Effect If Actual Results Differ From Assumptions
Goodwill and Other Indefinite-lived Intangible Assets		
<p>We test goodwill and other indefinite-lived intangible assets for impairment on an annual basis, or as indicators of impairment are present.</p> <p>We have an option to first assess qualitative factors for our goodwill impairment analysis to determine whether it is necessary to perform the quantitative test based on whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If we choose not to perform the qualitative test, or we determine that it is more likely than not that the fair value of the reporting unit is less than the carrying amount, we perform a quantitative two-step impairment test.</p>	<p>Our goodwill and other indefinite-lived intangible assets impairment loss calculations contain uncertainties because they require management to make assumptions in the qualitative assessment of relevant events and circumstances and estimating the fair value of our reporting units and indefinite-lived intangible assets, including estimating future cash flows and other inputs. These calculations contain uncertainties because they require management to make assumptions and to apply judgment to estimate economic factors and the profitability of future business operations and if necessary, the fair value of a reporting units' assets and liabilities. Further, our ability to realize the future cash flows used in our fair value calculations is affected by factors such as changes in economic conditions, changes in our operating performance and changes in our business strategies.</p>	<p>We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to test for impairment on goodwill. Based on the results of our annual impairment test for goodwill and other indefinite-lived intangible assets, no impairment was recorded. We believe based on our assessment discussed above our goodwill and other indefinite-lived intangible assets are not at risk of impairment. However, if actual results are not consistent with our estimates or assumptions or there are significant changes in any of these estimates, projections and assumptions could have a material effect of the fair value of these assets in future measurement periods and result in an impairment which could materially affect our results of operations.</p>

We test our indefinite-lived assets by estimating the fair value of the asset and comparing that to the carrying value, an impairment loss is recorded for the amount that carrying value exceeds the estimated fair value. The fair value of the trade names and trademarks is determined using the relief from royalty method, which requires management to make assumptions and to apply judgment, including forecasting future sales, expenses, discount rates and royalty rates.

Contractual Obligations and Commercial Commitments

There were no material changes outside the ordinary course of business in our contractual obligations during fiscal 2015. The following table summarizes the total amount of future payments due under our contractual obligations at January 30, 2016 (in thousands):

	Total	Fiscal 2016	Fiscal 2017 and Fiscal 2018	Fiscal 2019 and Fiscal 2020	Thereafter
Operating lease obligations (1)	\$ 425,383	\$ 65,551	\$ 119,069	\$ 97,128	\$ 143,635
Purchase obligations (2)	159,651	159,651			
Total (3)	\$ 585,034	\$ 225,202	\$ 119,069	\$ 97,128	\$ 143,635

- (1) Amounts do not include contingent rent and real estate taxes, insurance, common area maintenance charges and other executory costs obligations. See Note 10, Commitments and Contingencies, in the Notes to Consolidated Financial Statements found in Part IV Item 15 of the Form 10-K, for additional information related to our operating leases.
- (2) We have an option to cancel these commitments with no notice prior to shipment, except for certain private label purchase orders in which we are obligated to repay contractual amounts upon cancellation.
- (3) The table above excludes unrecognized tax benefits of \$0.7 million, as we are unable to reasonably estimate the timing of future cash payments, if any, for these liabilities.

Off-Balance Sheet Arrangements

At January 30, 2016, we did not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K.

Table of Contents

Impact of Inflation/Deflation

We do not believe that inflation has had a material impact on our net sales or operating results for the past three fiscal years. However, substantial increases in costs, including the price of raw materials, labor, energy and other inputs used in the production of our merchandise, could have a significant impact on our business and the industry in the future. Additionally, while deflation could positively impact our merchandise costs, it could have an adverse effect on our average unit retail price, resulting in lower sales and operating results.

Recent Accounting Pronouncements

See Note 2, Significant Accounting Policies, in the Notes to Consolidated Financial Statements found in Part IV Item 15 of this Form 10-K.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our earnings are affected by changes in market interest rates as a result of our short-term and long-term marketable securities, which are primarily invested in state and local municipal securities and variable-rate demand notes, which have long-term nominal maturity dates but feature variable interest rates that reset at short-term intervals. If our current portfolio average yield rate decreased by 10% in fiscal 2015, our net income would have decreased by \$0.1 million. This amount is determined by considering the impact of the hypothetical yield rates on our cash, cash equivalents, short-term and long-term marketable securities balances and assumes no changes in our investment structure.

During different times of the year, due to the seasonality of our business, we may borrow under our revolving credit lines. To the extent we borrow under this revolving credit lines, we are exposed to the market risk related to changes in interest rates. At January 30, 2016, we had no borrowings outstanding under our revolving lines of credit.

Foreign Exchange Rate Risk

Our international subsidiaries operate with functional currencies other than the U.S. dollar. Therefore, we must translate revenues, expenses, assets and liabilities from functional currencies into U.S. dollars at exchange rates in effect during, or at the end of, the reporting period. As a result, the fluctuation in the value of the U.S. dollar against other currencies affects the reported amounts of revenues, expenses, assets and liabilities. Assuming a 10% change in foreign exchange rates, fiscal 2015 net sales could have decreased or increased by approximately \$11.5 million. As we expand our international operations, our exposure to exchange rate fluctuations will continue to increase. To date, we have not used derivatives to manage foreign currency exchange risk.

We import merchandise from foreign countries. As a result, any significant or sudden change in the financial, banking or currency policies and practices of these countries could have a material adverse impact on our financial position, results of operations and cash flows.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Information with respect to this item is set forth in Index to the Consolidated Financial Statements, found in Part IV Item 15 of this Form 10-K.

Table of Contents

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Securities Exchange Act Rule 13a-15(e)). Based on this evaluation, our CEO and CFO concluded that, as of January 30, 2016, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting. There has been no change in our internal control over financial reporting (as defined in Securities Exchange Act Rule 13a-15(f)) during the quarter ended January 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management's Annual Report on Internal Control over Financial Reporting. The management of Zumiez Inc. (the Company) is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

This process includes policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements, and can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Furthermore, because of changes in conditions, the effectiveness of internal control may vary over time.

The Company's management, with the participation of the Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the Company's internal control over financial reporting as of January 30, 2016. Management's assessment was based on criteria described in the Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management concluded that the Company's internal control over financial reporting was effective as of January 30, 2016.

The effectiveness of the Company's internal control over financial reporting as of January 30, 2016 has been audited by Moss Adams LLP, the Company's independent registered public accounting firm, as stated in their report, which is included below.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Zumiez Inc.

We have audited Zumiez Inc. s (the Company) internal control over financial reporting as of January 30, 2016, based on criteria established in *Internal Control Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management s Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Zumiez Inc. maintained, in all material respects, effective internal control over financial reporting as of January 30, 2016, based on criteria established in *Internal Control Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Zumiez Inc. as of January 30, 2016 and January 31, 2015, and the consolidated statements of income, comprehensive income, changes in shareholders equity, and cash flows for each of the three years in the period ended January 30, 2016, and our report dated March 14, 2016, expressed an unqualified opinion on those consolidated financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders

Zumiez Inc.

We have audited the accompanying consolidated balance sheets of Zumiez Inc. (the Company) as of January 30, 2016 and January 31, 2015, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for each of the three years in the period ended January 30, 2016. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Zumiez Inc. as of January 30, 2016 and January 31, 2015, and the consolidated results of its operations and its cash flows for each of the three years in the period ended January 30, 2016, in conformity with generally accepted accounting principles in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Zumiez Inc.'s internal control over financial reporting as of January 30, 2016, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 14, 2016 expressed an unqualified opinion thereon.

ZUMIEZ INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of Business and Basis of Presentation

Nature of Business Zumiez Inc., including its wholly-owned subsidiaries, (Zumiez , the Company, we, us, its and our) is a leading specialty retailer of apparel, footwear, accessories and hardgoods for young men and women who want to express their individuality through the fashion, music, art and culture of action sports, streetwear, and other unique lifestyles. At January 30, 2016, we operated 658 stores; 592 in the United States (U.S.), 42 in Canada and 24 in Europe. We operate under the names Zumiez and Blue Tomato. Additionally, we operate ecommerce websites at www.zumiez.com and www.blue-tomato.com.

Fiscal Year We use a fiscal calendar widely used by the retail industry that results in a fiscal year consisting of a 52- or 53-week period ending on the Saturday closest to January 31. Each fiscal year consists of four 13-week quarters, with an extra week added to the fourth quarter every five or six years. The fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014 were 52-week periods.

Basis of Presentation The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP). The consolidated financial statements include the accounts of Zumiez Inc. and its wholly-owned subsidiaries. All significant intercompany transactions and balances are eliminated in consolidation.

Correction of an Error Included in cost of goods sold for the fiscal year ended February 1, 2014 was a \$2.7 million benefit representing the correction of an error in prior periods related to our calculation to account for rent expense on a straight-line basis. The correction was not material to any previously reported financial period or to the fiscal year ended February 1, 2014.

Reclassification Certain balances in the consolidated financial statements as of January 31, 2015 and February 1, 2014 have been revised to conform to the current year's presentation with no impact to net income, total assets, or total stockholders' equity. This revision is not material to prior periods.

2. Summary of Significant Accounting Policies

Use of Estimates The preparation of financial statements in conformity with U.S. GAAP requires estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements as well as the reported amounts of revenues and expenses during the reporting period. These estimates can also affect supplemental information disclosed by us, including information about contingencies, risk and financial condition. Actual results could differ from these estimates and assumptions.

Fair Value of Financial Instruments We disclose the estimated fair value of our financial instruments. Financial instruments are generally defined as cash, evidence of ownership interest in an entity or a contractual obligation that both conveys to one entity a right to receive cash or other financial instruments from another entity and imposes on the other entity the obligation to deliver cash or other financial instruments to the first entity. Our financial instruments, other than those presented in Note 11, Fair Value Measurements, include cash and cash equivalents, receivables, payables and other liabilities. The carrying amounts of cash and cash equivalents, receivables, payables and other liabilities approximate fair value because of the short-term nature of these instruments. Our policy is to recognize transfers into and transfers out of hierarchy levels as of the actual date of the event or change in circumstances that caused the transfer.

Cash and Cash Equivalents We consider all highly liquid investments with original maturity of three months or less when purchased to be cash equivalents.

Table of Contents

Concentration of Risk We maintain our cash and cash equivalents in accounts with major financial institutions in the form of demand deposits, money market accounts and state and local municipal securities. Deposits in these financial institutions may exceed the amount of federal deposit insurance provided on such deposits. We have not experienced any losses on our deposits of cash and cash equivalents.

Marketable Securities Our marketable securities primarily consist of state and local municipal securities and variable-rate demand notes. Variable-rate demand notes are considered highly liquid. Although the variable-rate demand notes have long-term nominal maturity dates, the interest rates generally reset weekly. Despite the long-term nature of the underlying securities of the variable-rate demand notes, we have the ability to quickly liquidate these securities, which have an embedded put option that allows the bondholder to sell the security at par plus accrued interest.

Investments are considered to be impaired when a decline in fair value is determined to be other-than-temporary. If the cost of an investment exceeds its fair value, we evaluate information about the underlying investment that is publicly available such as analyst reports, applicable industry data and other pertinent information and assess our intent and ability to hold the security. For fixed-income securities, we also evaluate whether we have plans to sell the security or it is more likely than not we will be required to sell the security before recovery. The investment would be written down to its fair value at the time the impairment is deemed to have occurred and a new cost basis is established. Future adverse changes in market conditions, continued poor operating results of underlying investments or other factors could result in further losses that may not be reflected in an investment's current carrying value, possibly requiring an additional impairment charge in the future.

Inventories Merchandise inventories are valued at the lower of cost or fair market value. The cost of merchandise inventories are based upon an average cost methodology. Merchandise inventories may include items that have been written down to our best estimate of their net realizable value. Our decisions to write-down our merchandise inventories are based on their current rate of sale, the age of the inventory, the profitability of the inventory and other factors. We have reserved for inventory at January 30, 2016 and January 31, 2015 in the amounts of \$4.7 million and \$3.7 million. The inventory reserve includes inventory whose estimated market value is below cost and an estimate for inventory shrinkage. We estimate an inventory shrinkage reserve for anticipated losses for the period. Shrinkage refers to a reduction in inventory due to shoplifting, employee theft and other matters. The inventory related to these reserves is not marked up in subsequent periods.

Fixed Assets Fixed assets primarily consist of leasehold improvements, fixtures, land, buildings, computer equipment, software and store equipment. Fixed assets are stated at cost less accumulated depreciation utilizing the straight-line method over the assets' estimated useful lives. The useful lives of our major classes of fixed assets are as follows:

Leasehold improvements	Lesser of 10 years or the term of the lease
Fixtures	3 to 7 years
Computer equipment, software, store equipment & other	3 to 5 years
Buildings and building and land improvements	15 to 39 years

The cost and related accumulated depreciation of assets sold or otherwise disposed of is removed from the accounts and the related gain or loss is recorded in selling, general and administrative expenses on the consolidated statements of income.

Asset Retirement Obligations An asset retirement obligation (ARO) represents a legal obligation associated with the retirement of a tangible long-lived asset that is incurred upon the acquisition, construction, development or normal operation of that long-lived asset. Our AROs are primarily associated with leasehold improvements that, at the end of a lease, we are contractually obligated to remove in order to comply with certain lease agreements. The ARO balance at January 30, 2016 and January 31, 2015 is \$2.6 million and \$2.3 million and is recorded in other liabilities and other long-term liabilities on the consolidated balance sheets and will be

Table of Contents

subsequently adjusted for changes in fair value. The associated estimated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset and depreciated over its useful life.

Valuation of Long-Lived Assets We review the carrying value of long-lived assets or asset groups for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. Recoverability of assets to be held and used is determined by a comparison of the carrying amount of an asset or asset group to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered impaired, the impairment recognized is measured by comparing projected discounted cash flow of the asset to the asset carrying values. The estimation of future cash flows from operating activities requires significant judgments of factors that include forecasting future sales, gross profit and operating expenses. In addition to historical results, current trends and initiatives, and long-term macro economic and industry factors are qualitatively considered. Additionally management seeks input from store operations related to local economic conditions. Impairment charges are included in selling, general and administrative expenses on the consolidated statements of income.

Goodwill Goodwill represents the excess of purchase price over the fair value of acquired tangible and identifiable intangible net assets. We test goodwill for impairment on an annual basis or more frequently if indicators of impairment are present. We perform our annual impairment measurement test on the first day of the fourth quarter. Events that may trigger an early impairment review include significant changes in the current business climate, future expectations of economic conditions, declines in our operating results of our reporting units, or an expectation that the carrying amount may not be recoverable.

We have an option to test goodwill for impairment by first performing a qualitative assessment to determine whether it is more likely than not that the fair value of the reporting unit is less than the carrying amount. If it is more likely than not that the fair value of the reporting unit is less than the carrying amount or if we choose not to perform the qualitative assessment, we perform a quantitative two-step impairment test. The first step compares the fair value of the reporting unit with its carrying amount of net assets, including goodwill. If the carrying amount exceeds fair value, then the second step of the impairment test is performed to measure the amount of impairment loss, if any. The second step includes estimating the fair value of the reporting unit by taking all of the tangible and intangible assets of the reporting unit as if the reporting unit had been acquired in a business combination. Then, the implied fair value of the reporting unit's goodwill is compared to the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of the goodwill, we recognize an impairment loss in an amount equal to the excess, not to exceed the carrying amount.

We generally determine the fair value of each of our reporting units based on a blended analysis of the present value of future discounted cash flows and market valuation approach using a multiple of an average annual earnings. Key assumptions used in this calculation include revenue growth, operating expenses, long-term rate of growth and the probability of the reporting unit, working capital impacts and a discount rate that we believe a buyer would assume when determining a purchase price for the reporting unit. Estimates of revenue growth and operating expenses are based on internal projections considering a reporting unit's past performance and forecasted growth, local market economics and the local business environment impacting the reporting unit's performance. These estimates are highly subjective judgments and can be significantly impacted by changes in the business or economic conditions.

Intangible Assets Our intangible assets consist of trade names and trademarks with indefinite lives and certain definite-lived intangible assets. We test our indefinite-lived intangible assets for impairment on an annual basis, or more frequently if indicators of impairment are present. We test our indefinite-lived assets by estimating the fair value of the asset and comparing that to the carrying value, an impairment loss is recorded for the amount that carrying value exceeds the estimated fair value. The fair value of the trade names and trademarks is determined using the relief from royalty method. This method assumes that the trade name and trademarks have value to the extent that their owner is relieved of the obligation to pay royalties for the benefits received from

Table of Contents

them. The assumptions used in this method requires management judgment and estimates in forecasting future sales, expenses, discount rates, and royalty rates.

Definite-lived intangible assets, which consist of developed technology and customer relationships, are amortized using the straight-line method over their estimated useful lives. Additionally, we test the definite-lived intangible assets when facts and circumstances indicate that the carrying values may not be recoverable. We first assess the recoverability of our definite-lived intangible assets by comparing the undiscounted cash flows of the definite-lived asset less its carrying value. If the undiscounted cash flows are less than the carrying value, we then determine the estimated fair value of our definite-lived asset by taking the estimated future operating cash flows derived from the operation to which the asset relates over its remaining useful life, using a discounted cash flow analysis and comparing it to the carrying value. Any impairment would be measured as the difference between the carrying amount and the estimated fair value. Changes in any of these estimates, projections and assumptions could have a material effect of the fair value of these assets in future measurement periods and result in an impairment which could materially affect our results of operations.

Deferred Rent, Rent Expense and Tenant Allowances We lease our stores and certain corporate and other operating facilities under operating leases. A majority of our leases provide for ongoing co-tenancy requirements or early cancellation clauses that would further lower rental rates, or permit lease terminations, or both, in the event that co-tenants cease to operate for specific periods or if certain sales levels are not met in specific periods. Most of the store leases require payment of a specified minimum rent and a contingent rent based on a percentage of the store's net sales in excess of a specified threshold, as well as real estate taxes, insurance, common area maintenance charges and other executory costs. Most of the lease agreements have defined escalating rent provisions, which are straight-lined over the term of the related lease. We recognize rent expense over the term of the lease, plus the construction period prior to occupancy of the retail location. For certain locations, we receive tenant allowances and report these amounts as a liability, which is amortized as a reduction to rent expense over the term of the lease.

Claims and Contingencies We are subject to various claims and contingencies related to lawsuits, insurance, regulatory and other matters arising out of the normal course of business. We accrue a liability if the likelihood of an adverse outcome is probable and the amount is estimable. If the likelihood of an adverse outcome is only reasonably possible (as opposed to probable), or if an estimate is not determinable, we provide disclosure of a material claim or contingency.

Revenue Recognition Sales are recognized upon purchase at our retail store locations. For our ecommerce sales, revenue is recognized upon delivery to the customer. Taxes collected from our customers are recorded on a net basis. We record the sale of gift cards as a current liability and recognize revenue when a customer redeems a gift card. Additionally, the portion of gift cards that will not be redeemed (gift card breakage) is recognized in net sales after 24 months, at which time the likelihood of redemption is considered remote based on our historical redemption patterns. For the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014, we recorded net sales related to gift card breakage income of \$0.9 million, \$0.9 million and \$0.8 million. Revenue is recorded net of sales returns and deductions for promotions. We accrue for estimated sales returns by customers based on historical sales return results. The allowance for sales returns at January 30, 2016 and January 31, 2015 was \$2.0 million.

We have a customer loyalty program, the Zumiez STASH, which allows members to earn points for purchases or performance of certain activities. The points can be redeemed for a broad range of rewards, including product and experiential rewards. Points earned for purchases are recorded as a reduction of net sales based on the fair value of the points at the time the points are earned and the revenue is recognized upon redemption of points for rewards. Points earned for the performance of activities are recorded as marketing expense based on the estimated cost of the points.

Table of Contents

Cost of Goods Sold Cost of goods sold consists of branded merchandise costs and our private label merchandise costs including design, sourcing, importing and inbound freight costs. Our cost of goods sold also includes shrinkage, buying, occupancy, ecommerce fulfillment, distribution and warehousing costs (including associated depreciation) and freight costs for store merchandise transfers. Cash consideration received from vendors is reported as a reduction of cost of goods sold if the inventory has sold, a reduction of the carrying value of the inventory if the inventory is still on hand, or a reduction of selling, general and administrative expense if the amounts are reimbursements of specific, incremental and identifiable costs of selling the vendors' products.

Shipping Revenue and Costs We include shipping revenue related to ecommerce sales in net sales and the related freight cost is charged to cost of goods sold.

Selling, General and Administrative Expense Selling, general and administrative expenses consist primarily of store personnel wages and benefits, administrative staff and infrastructure expenses, freight costs for merchandise shipments from the distribution centers to the stores, store supplies, depreciation on fixed assets at the home office and stores, facility expenses, training expenses and advertising and marketing costs. Credit card fees, insurance, public company expenses, legal expenses, amortization of intangibles assets and other miscellaneous operating costs are also included in selling, general and administrative expenses.

Advertising We expense advertising costs as incurred, except for catalog costs, which are expensed once the catalog is mailed. Advertising expenses are net of sponsorships and vendor reimbursements. Advertising expense was \$9.5 million, \$9.4 million and \$8.7 million for the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014.

Stock-Based Compensation We account for stock-based compensation by recording the estimated fair value of stock-based awards granted as compensation expense over the vesting period, net of estimated forfeitures. Stock-based compensation expense is attributed to earnings straight-line method. We estimate forfeitures of stock-based awards based on historical experience and expected future activity.

The fair value of restricted stock awards and units is measured based on the closing price of our common stock on the date of grant. The fair value of stock option grants is estimated on the date of grant using the Black-Scholes option pricing model based on the following assumptions:

Volatility This is a measure of the amount by which a stock price has fluctuated or is expected to fluctuate. We use actual daily historical changes in the market value of our stock equal to the expected term of the option.

Risk-free interest rate This is the U.S. Treasury rate as of the grant date having a term equal to the expected term of the option.

Expected term The expected term was calculated using the simplified method. Under this method, the expected term is equal to the sum of the weighted average vesting term plus the original contractual term divided by two. We have elected this method as we have concluded that we do not have sufficient historical exercise data to provide a reasonable basis upon which to estimate expected term due to the limited period of time our equity shares have been publicly traded.

Dividend yield We do not have plans to pay dividends in the foreseeable future.

Table of Contents

The following weighted-average assumptions were used to estimate the fair value of stock options granted:

	Fiscal Year Ended		
	January 30, 2016	January 31, 2015	February 1, 2014
Dividend yield	0.0%	0.0%	0.0%
Volatility rate	53.4%	63.7%	66.4%
Weighted-average expected life (in years)	6.25	6.25	6.25
Weighted-average risk-free interest rate	1.8%	1.9%	1.1%
Weighted-average fair value per share of stock options granted	\$ 20.19	\$ 15.26	\$ 15.07

Common Stock Share Repurchases We may repurchase shares of our common stock under authorizations made from time to time by our Board of Directors. Under applicable Washington State law, shares repurchased are retired and not displayed separately as treasury stock on the consolidated financial statements. Instead, the value of repurchased shares is deducted from retained earnings.

Income Taxes We use the asset and liability method of accounting for income taxes. Using this method, deferred tax assets and liabilities are recorded based on the differences between the financial reporting and tax basis of assets and liabilities. The deferred tax assets and liabilities are calculated using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. We routinely evaluate the likelihood of realizing the benefit of our deferred tax assets and may record a valuation allowance if, based on all available evidence, it is determined that it is more likely than not that all or some portion of the deferred tax benefit will not be realized.

We regularly evaluate the likelihood of realizing the benefit for income tax positions that we have taken in various federal, state and foreign filings by considering all relevant facts, circumstances and information available. If we believe it is more likely than not that our position will be sustained, we recognize a benefit at the largest amount that we believe is cumulatively greater than 50% likely to be realized. Interest and penalties related to income tax matters are classified as a component of income tax expense. Unrecognized tax benefits are recorded in other long-term liabilities on the consolidated balance sheets.

Our tax provision for interim periods is determined using an estimate of our annual effective rate, adjusted for discrete items, if any, that are taken into account in the relevant period. As the fiscal year progresses, we periodically refine our estimate based on actual events and earnings by jurisdiction. This ongoing estimation process can result in changes to our expected effective tax rate for the full fiscal year. When this occurs, we adjust the income tax provision during the quarter in which the change in estimate occurs so that our year-to-date provision equals our expected annual rate.

Earnings per Share Basic earnings per share is based on the weighted average number of common shares outstanding during the period. The dilutive effect of stock options and restricted stock is applicable only in periods of net income. Diluted earnings per share is based on the weighted average number of common shares and common share equivalents outstanding during the period. Common share equivalents included in the computation represent shares issuable upon assumed exercise of outstanding stock options, employee stock purchase plan funds held to acquire stock and non-vested restricted stock. Potentially anti-dilutive securities not included in the calculation of diluted earnings per share are options to purchase common stock where the option exercise price is greater than the average market price of our common stock during the period reported.

Foreign Currency Translation Assets and liabilities denominated in foreign currencies were translated into U.S. dollars, the reporting currency, at the exchange rate prevailing at the balance sheet date. Revenue and expenses denominated in foreign currencies were translated into U.S. dollars at the monthly average exchange rate for the period and the translation adjustments are reported as an element of accumulated other comprehensive income on the consolidated balance sheets.

Table of Contents

Segment Reporting We identify our operating segments according to how our business activities are managed and evaluated. Our operating segments have been aggregated and are reported as one reportable segment based on the similar nature of products sold, production, merchandising and distribution processes involved, target customers and economic characteristics.

Recent Accounting Standards In February 2016, the Financial Accounting Standards Board (FASB) issued a comprehensive standard related to lease accounting to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. Most significantly, the new guidance requires lessees to recognize operating leases with a term of more than 12 months as lease assets and lease liabilities. The adoption will require a modified retrospective approach at the beginning of the earliest period presented. The new standard is effective for the fiscal year beginning after December 15, 2018, with early adoption permitted. We are evaluating the impact of this standard on our consolidated financial statements.

In January 2016, the FASB issued a new standard related primarily to accounting for equity investments, financial liabilities where the fair value option has been elected, and the presentation and disclosure requirements for financial instruments. There will no longer be an available-for-sale classification and therefore, no changes in fair value will be reported in other comprehensive income for equity securities with readily determinable fair values. The new standard will be effective for the fiscal year beginning after December 15, 2017 and early adoption is permitted. We are currently evaluating the impact of this standard on our consolidated financial statements.

In November 2015, the FASB issued guidance simplifying the presentation of deferred tax liabilities and assets requiring that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The new standard is effective for the fiscal year beginning after December 15, 2016, with early adoption permitted. We have early adopted this guidance retrospectively as of January 30, 2016. Adoption of this update resulted in the reclassification of \$7.0 million net current deferred tax assets to be presented as noncurrent on our consolidated balance sheet as of January 31, 2015.

In July 2015, the FASB issued guidance simplifying the measurement of inventory. This standard requires entities that use inventory methods other than the last-in, first-out (LIFO) or retail inventory method to measure inventory at the lower of cost or net realizable value, which is defined as the estimated selling prices in the normal course of business, less reasonably predictable costs of completion, disposal, and transportation. We are required to adopt this guidance for the fiscal year beginning after December 31, 2016. We are currently evaluating the impact of this standard on our consolidated financial statements.

In May 2015, the FASB issued guidance about a customer's accounting for fees paid in a cloud computing arrangement. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The guidance is effective for the fiscal year beginning after December 15, 2015 and may be applied on either a prospective or retrospective basis. We do not expect the adoption of this standard to have a material impact on our consolidated financial statements.

In August 2014, the FASB issued new guidance which provides details on when and how to disclose going concern uncertainties. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year and to provide certain footnote disclosures if conditions or events raise substantial doubt about an entity's ability to continue as a going concern. The new standard is effective for the fiscal year beginning after December 15, 2016, with early adoption permitted. We do not expect the adoption of this standard to have a material impact on our consolidated financial statements.

In May 2014, the FASB issued a comprehensive new revenue recognition standard. The new standard allows for a full retrospective approach to transition or a modified retrospective approach. This guidance was

Table of Contents

effective for fiscal years and interim periods within those years beginning after December 15, 2016. In August 2015, the FASB issued updated guidance deferring the effective date for the fiscal year beginning after December 15, 2017 and will permit early adoption of the standard, but not before the original effective date of December 15, 2016. We are currently evaluating the method of adoption we plan to use and the effect the standard is expected to have on our financial position, results of operations and cash flows.

In April 2014, the FASB issued guidance that changes the criteria for reporting discontinued operations, as well as requiring new disclosures about discontinued operations and disposals of components of an entity that do not qualify for discontinued operations reporting. We adopted this guidance beginning in the fiscal quarter ending May 2, 2015 and the adoption did not have a material impact on our consolidated financial statements.

3. Business Combination

Blue Tomato On July 4, 2012, we acquired 100% of the outstanding stock of Blue Tomato for cash consideration of 59.5 million Euros (\$74.8 million, using the exchange rate as of July 4, 2012). Blue Tomato is one of the leading European specialty retailers of apparel, footwear, accessories and hardgoods and the acquisition allowed us to enter into the European marketplace.

In addition, there was the possibility of future incentive payments to the sellers and certain employees of Blue Tomato in an aggregate amount of up to 22.1 million Euros (\$24.1 million, using the exchange rate on the date of payment) to the extent that certain financial metrics were met related to (i) the attainment of certain EBITDA performance of Blue Tomato for the twelve months ended April 30, 2015 and (ii) the opening and performance of certain defined incremental stores in the European market by April 30, 2015.

We determined that Blue Tomato achieved the metrics related to the opening and performance of certain defined incremental stores by April 30, 2015 and we paid 6.0 million Euros (\$6.6 million, using the exchange rate on the date of payment) of which 3.0 million Euros (\$3.3 million, using the exchange rate on the date of payment) was paid in cash and 3.0 million Euros (\$3.3 million, using the exchange rate on the date of payment) was paid in 0.1 million shares of our common stock. The incentive payment was paid during the fiscal year ended January 30, 2016. For the fiscal year ended January 30, 2016, we recorded an expense of \$0.6 million. For the fiscal year ended January 31, 2015, we recorded an expense for the incentive payments of \$6.4 million. For the fiscal year ended February 1, 2014, we estimated that we would not be obligated for future incentive payments and reversed \$5.8 million of previously recorded expense associated with the future incentive payments.

4. Goodwill and Intangible Assets

The following tables summarize the changes in the carrying amount of goodwill (in thousands):

Balance as of February 1, 2014	\$ 64,195
Effects of foreign currency translation	(8,343)
Balance as of January 31, 2015	55,852
Effects of foreign currency translation	(1,607)
Balance as of January 30, 2016	\$ 54,245

There was no impairment of goodwill for the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014.

Table of Contents

The following table summarizes the gross carrying amount, accumulated amortization and the net carrying amount of intangible assets (in thousands):

	Gross Carrying Amount	January 30, 2016 Accumulated Amortization	Intangible Assets, Net
Intangible assets not subject to amortization:			
Trade names and trademarks	\$ 11,766	\$	\$ 11,766
Intangible assets subject to amortization:			
Developed technology	3,267	3,267	
Customer relationships	2,422	2,422	
Total intangible assets	\$ 17,455	\$ 5,689	\$ 11,766

	Gross Carrying Amount	January 31, 2015 Accumulated Amortization	Intangible Assets, Net
Intangible assets not subject to amortization:			
Trade names and trademarks	\$ 12,226	\$	\$ 12,226
Intangible assets subject to amortization:			
Developed technology	3,396	2,925	471
Customer relationships	2,516	2,151	365
Total intangible assets	\$ 18,138	\$ 5,076	\$ 13,062

There was no impairment of intangible assets for the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014.

Amortization expense of intangible assets for the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014 was \$0.9 million, \$2.3 million and \$2.3 million. Amortization expense of intangible assets is recorded in selling, general and administrative expense on the consolidated statements of income.

5. Cash, Cash Equivalents and Marketable Securities

The following tables summarize the estimated fair value of our cash, cash equivalents and marketable securities and the gross unrealized holding gains and losses (in thousands):

	Amortized Cost	January 30, 2016 Gross Unrealized Holding Gains	Gross Unrealized Holding Losses	Estimated Fair Value
Cash and cash equivalents:				
Cash	\$ 33,608	\$	\$	\$ 33,608
Money market funds	9,555			9,555
State and local government securities				
Total cash and cash equivalents	43,163			43,163
Marketable securities:				
State and local government securities	32,754	8	(187)	32,575

Edgar Filing: Majoras Deborah P - Form 4

Variable-rate demand notes	644			644
Total marketable securities	\$ 33,398	\$ 8	\$ (187)	\$ 33,219
Less: Long-term marketable securities (1)				(828)
Total current marketable securities				\$ 32,391

60

Table of Contents

	January 31, 2015			Estimated
	Amortized	Gross	Gross	Fair
	Cost	Unrealized	Unrealized	Value
		Holding	Holding	
		Gains	Losses	
Cash and cash equivalents:				
Cash	\$ 10,251	\$	\$	\$ 10,251
Money market funds	7,061			7,061
State and local government securities	3,550			3,550
Total cash and cash equivalents	20,862			20,862
Marketable securities:				
State and local government securities	102,888	73	(186)	102,775
Variable-rate demand notes	31,830			31,830
Total marketable securities	\$ 134,718	\$ 73	\$ (186)	\$ 134,605
Less: Long-term marketable securities (1)				(823)
Total current marketable securities				\$ 133,782

(1) At January 30, 2016 and January 31, 2015, we held one auction rate security, classified as available-for-sale marketable securities and included in long-term other assets on the consolidated balance sheets.

All of our available-for-sale securities, excluding our auction rate security, have an effective maturity date of two years or less and may be liquidated, at our discretion, prior to maturity.

The following tables summarize the gross unrealized holding losses and fair value for investments in an unrealized loss position, and the length of time that individual securities have been in a continuous loss position (in thousands):

	Less Than Twelve Months		January 30, 2016		Total	
	Unrealized		12 Months or Greater		Unrealized	
	Fair Value	Losses	Fair Value	Losses	Fair Value	Losses
Marketable securities:						
State and local government securities	\$ 16,884	\$ (15)	\$ 853	\$ (172)	\$ 17,737	\$ (187)
Total marketable securities	\$ 16,884	\$ (15)	\$ 853	\$ (172)	\$ 17,737	\$ (187)

	Less Than Twelve Months		January 31, 2015		Total	
	Unrealized		12 Months or Greater		Unrealized	
	Fair Value	Losses	Fair Value	Losses	Fair Value	Losses
Marketable securities:						
State and local government securities	\$ 27,701	\$ (9)	\$ 823	\$ (177)	\$ 28,524	\$ (186)
Total marketable securities	\$ 27,701	\$ (9)	\$ 823	\$ (177)	\$ 28,524	\$ (186)

We did not record a realized loss for other-than-temporary impairments during the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014.

Table of Contents**6. Receivables**

Receivables consisted of the following (in thousands):

	January 30, 2016	January 31, 2015
Credit cards receivable	\$ 7,606	\$ 7,781
Tenant allowances receivable	1,201	1,555
Other receivables	4,033	3,317
Receivables	\$ 12,840	\$ 12,653

7. Fixed Assets

Fixed assets consisted of the following (in thousands):

	January 30, 2016	January 31, 2015
Leasehold improvements	\$ 164,930	\$ 151,703
Fixtures	83,467	75,683
Buildings, land and building and land improvements	28,198	28,087
Computer equipment, software, store equipment and other	30,257	33,803
Fixed assets, at cost	306,852	289,276
Less: Accumulated depreciation	(169,619)	(153,634)
Fixed assets, net	\$ 137,233	\$ 135,642

Depreciation expense on fixed assets is recognized on our consolidated income statement as follows (in thousands):

	January 30, 2016	Fiscal Year Ended	
		January 31, 2015	February 1, 2014
Cost of goods sold	\$ 1,238	\$ 1,230	\$ 1,086
Selling, general and administrative expenses	26,113	23,513	21,281
Depreciation expense	\$ 27,351	\$ 24,743	\$ 22,367

Impairment of Long-Lived Assets We review the carrying value of our long-lived assets or asset groups (defined as a store, corporate facility or distribution center) for impairment whenever events or changes in circumstances indicate that the carrying value of such asset or asset group may not be recoverable. We evaluate the performance of the asset or asset groups to determine if the carrying amount of the long-lived assets exceeds the discounted cash flows expected to result from the use and eventual disposal of the assets. We use estimated sales, gross margin, occupancy costs, including operating costs as well as other considerations, such as legal and business climate. In addition to historical results, current trends, and long-term macro economic and industry factors, we have considered qualitative factors such as local economic conditions. We recorded \$3.1 million, \$0.2 million and \$0.3 million of impairment of long-lived assets in selling, general and administrative expenses on the consolidated statements of income for the years ended January 30, 2016, January 31, 2015 and February 1, 2014.

Table of Contents**8. Other Liabilities**

Other liabilities consisted of the following (in thousands):

	January 30, 2016	January 31, 2015
Unredeemed gift cards	\$ 5,328	\$ 4,980
Accrued indirect taxes	5,136	4,691
Accrued payables	4,485	4,993
Deferred revenue	3,726	3,632
Allowance for sales returns	1,978	1,986
Accrual for repurchase of common stock	1,067	
Other current liabilities	855	1,194
Future incentive payments		3,096
Other liabilities	\$ 22,575	\$ 24,572

9. Revolving Credit Facilities and Debt

As of January 30, 2016, we maintained a secured credit agreement with Wells Fargo Bank, N.A., which provided us with a secured revolving credit facility until September 1, 2016 of up to \$25.0 million, which, pursuant to an accordion feature, may be increased to \$35.0 million at our discretion. The secured revolving credit facility provides for the issuance of a standby letter of credit in an amount not to exceed \$5.0 million outstanding at any time and with a term not to exceed 365 days. The commercial line of credit provides for the issuance of a commercial letter of credit in an amount not to exceed \$10.0 million and with terms not to exceed 120 days. The amount of borrowings available at any time under our secured revolving credit facility is reduced by the amount of standby and commercial letters of credit outstanding at that time. The secured revolving credit facility bears interest at the Daily Three Month LIBOR rate plus 1.00%. The credit agreement contains a number of restrictions and covenants that generally limit our ability to, among other things, (1) incur additional debt, (2) undergo a change in ownership and (3) enter into certain transactions. The credit agreement also contains financial covenants that require us to meet certain specified financial tests and ratios, including, a maximum net income after taxes of not less than one dollar on a trailing four-quarter basis provided, that, there shall be added to net income all charges for impairment of goodwill and other intangibles and up to an aggregate of \$5.0 million of store asset impairment, and a minimum quick ratio of 1.25. The quick ratio is defined as our cash and near cash equivalents plus certain defined receivables divided by the borrowings outstanding. Our accounts receivable, general intangibles, inventory and equipment have been pledged to secure our obligations under the credit agreement. We must also provide financial information and statements to our lender. We were in compliance with all such covenants at January 30, 2016. There were no borrowings outstanding under the secured revolving credit facility at January 30, 2016 and January 31, 2015. We had no open commercial letters of credit outstanding under our secured revolving credit facility at January 30, 2016 and \$0.3 million at January 31, 2015.

Additionally, we have revolving lines of credit of up to 9.0 million Euros, the proceeds of which are used to fund certain international operations. The revolving lines of credit bears interest at 1.50%-1.65%. There were no borrowings or open commercial letters of credit outstanding under these revolving lines of credit at January 30, 2016 and January 31, 2015.

10. Commitments and Contingencies

Operating Leases Total rent expense is as follows (in thousands):

	January 30, 2016	Fiscal Year Ended January 31, 2015	February 1, 2014
Minimum rent expense (1)	\$ 68,904	\$ 62,336	\$ 51,131
Contingent rent expense	2,196	2,219	2,312
Total rent expense (2)	\$ 71,100	\$ 64,555	\$ 53,443

Table of Contents

- (1) Included in minimum rent expense for the fiscal year ended February 1, 2014 is a benefit of \$2.7 million representing the correction of an error related to our calculation to account for rent expense on a straight-line basis.
- (2) Total rent expense does not include real estate taxes, insurance, common area maintenance charges and other executory costs, which were \$38.6 million, \$35.6 million and \$32.0 million for the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014. Future minimum lease payments at January 30, 2016 are as follows (in thousands):

Fiscal 2016	\$ 65,551
Fiscal 2017	62,088
Fiscal 2018	56,981
Fiscal 2019	50,490
Fiscal 2020	46,638
Thereafter	143,635
Total (1)	\$ 425,383

- (1) Amounts in the table do not include contingent rent and real estate taxes, insurance, common area maintenance charges and other executory costs obligations.

Purchase Commitments At January 30, 2016 and January 31, 2015, we had outstanding purchase orders to acquire merchandise from vendors of \$159.7 million and \$192.9 million. We have an option to cancel these commitments with no notice prior to shipment, except for certain private label purchase orders in which we are obligated to repay contractual amounts upon cancellation.

Litigation We are involved from time to time in claims, proceedings and litigation arising in the ordinary course of business. We have made accruals with respect to these matters, where appropriate, which are reflected in our consolidated financial statements. For some matters, the amount of liability is not probable or the amount cannot be reasonably estimated and therefore accruals have not been made. We may enter into discussions regarding settlement of these matters, and may enter into settlement agreements, if we believe settlement is in the best interest of our shareholders.

Insurance Reserves We use a combination of third-party insurance and self-insurance for a number of risk management activities including workers' compensation, general liability and employee-related health care benefits. We maintain reserves for our self-insured losses, which are estimated based on actuarial based analysis of historical claims experience. The self-insurance reserve at January 30, 2016 and January 31, 2015 was \$2.1 million and \$1.8 million.

11. Fair Value Measurements

We apply the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 Quoted prices in active markets for identical assets or liabilities;

Level 2 Quoted prices for similar assets or liabilities in active markets or inputs that are observable; and

Level 3 Inputs that are unobservable.

Table of Contents

The following tables summarize assets measured at fair value on a recurring basis (in thousands):

	January 30, 2016		
	Level 1	Level 2	Level 3
Cash equivalents:			
Money market funds	\$ 9,555	\$	\$
State and local government securities			
Marketable securities:			
State and local government securities		31,747	
Variable-rate demand notes		644	
Long-term other assets:			
Money market funds	1,510		
State and local government securities			828
Equity investments			118
Total	\$ 11,065	\$ 32,391	\$ 946

	January 31, 2015		
	Level 1	Level 2	Level 3
Cash equivalents:			
Money market funds	\$ 7,061	\$	\$
State and local government securities		3,550	
Marketable securities:			
State and local government securities		101,952	
Variable-rate demand notes		31,830	
Long-term other assets:			
State and local government securities			823
Equity investments			123
Total	\$ 7,061	\$ 137,332	\$ 946

The Level 2 marketable securities primarily include state and local municipal securities and variable-rate demand notes. Fair values are based on quoted market prices for similar assets or liabilities or determined using inputs that use readily observable market data that are actively quoted and can be validated through external sources, including third-party pricing services, brokers and market transactions. We review the pricing techniques and methodologies of the independent pricing service for Level 2 investments and believe that its policies adequately consider market activity, either based on specific transactions for the security valued or based on modeling of securities with similar credit quality, duration, yield and structure that were recently traded. We monitor security-specific valuation trends and we make inquiries with the pricing service about material changes or the absence of expected changes to understand the underlying factors and inputs and to validate the reasonableness of the pricing.

Assets measured at fair value on a nonrecurring basis include items such as long-lived assets resulting from impairment, if deemed necessary. There were no material assets measured at fair value on a nonrecurring basis for the fiscal years ended January 30, 2016 and January 31, 2015.

12. Stockholders Equity

Share Repurchase In November 2012, our Board of Directors authorized us to repurchase \$22.0 million of our common stock. This repurchase program was completed in December 2012. In December 2012, our Board of Directors authorized a stock repurchase program that provided for the repurchase of up to an additional \$20.0 million of outstanding common stock and \$7.5 million of outstanding common stock was repurchased.

Table of Contents

under that program. In December 2013, the Board of Directors authorized a stock repurchase program that provides for the repurchase of up to \$30.0 million of outstanding common stock. This stock repurchase program replaced the existing stock repurchase program that was authorized in December 2012, which had \$12.5 million remaining of the authorized amount to repurchase shares under that program. In December 2014, our Board of Directors superseded and replaced this program with a \$30.0 million share repurchase program. In June 2015, our Board of Directors superseded and replaced this program with a \$50.0 million share repurchase program that was completed in August 2015. In December 2015, our Board of Directors authorized us to repurchase up to \$70.0 million of our common stock. This program is expected to continue through January 28, 2017, unless the time period is extended or shortened by the Board of Directors.

The following table summarizes common stock repurchase activity during the fiscal year ended January 30, 2016 (in thousands except average price per repurchased shares):

Number of shares repurchased	3,965
Average price per share of repurchased shares (with commission)	\$ 23.53
Total cost of shares repurchased	\$ 93,302

At January 30, 2016, there remains \$54.4 million available to repurchase shares under the current share repurchase program.

Accumulated Other Comprehensive Income (Loss) The component of accumulated other comprehensive income (loss) and the adjustments to other comprehensive income (loss) for amounts reclassified from accumulated other comprehensive income (loss) into net income is as follows (in thousands):

	Foreign currency translation adjustments	Net unrealized gains (losses) on available-for-sale investments	Accumulated other comprehensive income (loss)
Balance at February 2, 2013	\$ 6,021	\$ (11)	\$ 6,010
Other comprehensive loss, net (1)	(1,231)	(69)	(1,300)
Balance at February 1, 2014	\$ 4,790	\$ (80)	\$ 4,710
Other comprehensive income (loss), net (1)	(15,995)	7	(15,988)
Balance at January 31, 2015	\$ (11,205)	\$ (73)	\$ (11,278)
Other comprehensive loss, net (1)	(3,931)	(38)	(3,969)
Balance at January 30, 2016	\$ (15,136)	\$ (111)	\$ (15,247)

- (1) Other comprehensive income (loss) before reclassifications is net of taxes of less than \$0.1 million for the fiscal year ended January 30, 2016, January 31, 2015 and February 1, 2014 for both net unrealized gains (losses) on available-for-sale investments and accumulated other comprehensive income (loss). Foreign currency translation adjustments are not adjusted for income taxes as they relate to permanent investments in our international subsidiaries.

13. Equity Awards

General We maintain several equity incentive plans under which we may grant incentive stock options, nonqualified stock options, stock bonuses, restricted stock awards, restricted stock units and stock appreciation rights to employees (including officers), non-employee directors and consultants.

Table of Contents

Stock-Based Compensation Total stock-based compensation expense is recognized on our consolidated income statements as follows (in thousands):

	Fiscal Year Ended		
	January 30, 2016	January 31, 2015	February 1, 2014
Cost of goods sold	\$ 1,041	\$ 1,048	\$ 990
Selling, general and administrative expenses (1)	3,955	6,472	3,104
Total stock-based compensation expense	\$ 4,996	\$ 7,520	\$ 4,094

(1) Included in stock-based compensation expense recognized in selling, general and administrative expenses is \$0.3 million and \$3.1 million of expense associated with the incentive payments paid in shares of our common stock for the fiscal year ended January 30, 2016 and January 31, 2015 and a \$0.9 million benefit associated with the reversal of the incentive payments payable in shares of our common stock associated with the Blue Tomato acquisition for the fiscal year ended February 1, 2014.

At January 30, 2016, there was \$5.7 million of total unrecognized compensation cost related to unvested stock options and restricted stock. This cost has a weighted-average recognition period of 1.6 years.

Restricted Equity Awards The following table summarizes restricted stock awards and restricted stock units, collectively defined as restricted equity awards, activity (in thousands, except grant date weighted-average fair value):

	Restricted Equity Awards	Grant Date Weighted- Average Fair Value	Intrinsic Value
Outstanding at February 2, 2013	382	\$ 23.97	
Granted	198	\$ 25.45	
Vested	(193)	\$ 19.54	
Forfeited	(26)	\$ 27.27	
Outstanding at February 1, 2014	361	\$ 26.91	
Granted	176	\$ 25.76	
Vested	(154)	\$ 26.31	
Forfeited	(40)	\$ 27.14	
Outstanding at January 31, 2015	343	\$ 26.56	
Granted	130	\$ 36.10	
Vested	(142)	\$ 27.06	
Forfeited	(45)	\$ 28.64	
Outstanding at January 30, 2016	286	\$ 30.32	\$ 5,176

Table of Contents

The following table summarizes additional information related to restricted equity awards activity (in thousands):

	January 30, 2016	Fiscal Year Ended January 31, 2015	February 1, 2014
Vest-date fair value of restricted stock vested	\$ 5,184	\$ 3,916	\$ 4,981

Stock Options The following table summarizes stock option activity (in thousands, except grant date weighted-average exercise price and weighted-average remaining contractual life):

	Stock Options	Grant Date Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (in Years)	Intrinsic Value
Outstanding at February 2, 2013	820	\$ 17.62		
Granted	47	\$ 24.81		
Exercised	(152)	\$ 6.64		
Forfeited	(24)	\$ 35.96		
Outstanding at February 1, 2014	691	\$ 19.86		
Granted	31	\$ 25.49		
Exercised	(397)	\$ 14.82		
Forfeited	(74)	\$ 32.63		
Outstanding at January 31, 2015	251	\$ 24.76		
Granted	24	\$ 38.57		
Exercised	(53)	\$ 9.61		
Forfeited	(79)	\$ 33.50		
Outstanding at January 30, 2016	143	\$ 27.86	5.3	\$ 183
Exercisable at January 30, 2016	88	\$ 25.55	3.5	\$ 183
Vested or expected to vest at January 30, 2016	98	\$ 27.70	4.5	\$ 183

The following table summarizes additional information related to stock option activity (in thousands):

	January 30, 2016	Fiscal Year Ended January 31, 2015	February 1, 2014
Aggregate intrinsic value of stock options exercised	\$ 926	\$ 6,756	\$ 3,408

The following table summarizes outstanding and exercisable options by exercise price at January 30, 2016:

Options Outstanding

Edgar Filing: Majoras Deborah P - Form 4

Exercise Price	Number of Options (in thousands)	Weighted-Average Remaining Contractual Life	Options Exercisable Number of Options (in thousands)
Under \$ 10.00	19	1.1	19
\$ 10.01-\$ 20.00	1	4.6	1
\$ 20.01-\$ 30.00	65	7.1	35
\$ 30.01-\$ 40.00	58	0.9	33
Total	143		88

68

Table of Contents

Employee Stock Purchase Plan We offer an Employee Stock Purchase Plan (the ESPP) for eligible employees to purchase our common stock at a 15% discount of the lesser of fair market value of the stock on the first business day or the last business day of the offering period, subject to maximum contribution thresholds. The number of shares issued under our ESPP was less than 0.1 million for each of the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014.

14. Income Taxes

The components of earnings before income taxes are (in thousands):

	Fiscal Year Ended		
	January 30, 2016	January 31, 2015	February 1, 2014
United States	\$ 46,868	\$ 80,449	\$ 71,288
Foreign	(1,007)	(8,798)	676
Total earnings before income taxes	\$ 45,861	\$ 71,651	\$ 71,964

The components of the provision for income taxes are (in thousands):

	Fiscal Year Ended		
	January 30, 2016	January 31, 2015	February 1, 2014
Current:			
Federal	\$ 16,186	\$ 24,639	\$ 22,925
State and local	2,591	3,386	3,544
Foreign	972	1,044	525
Total current	19,749	29,069	26,994
Deferred:			
Federal	(585)	1,706	629
State and local	(832)	291	74
Foreign	(1,256)	(2,607)	(1,681)
Total deferred	(2,673)	(610)	(978)
Provision for income taxes	\$ 17,076	\$ 28,459	\$ 26,016

The reconciliation of the income tax provision at the U.S. federal statutory rate to our effective income tax rate is as follows:

	Fiscal Year Ended		
	January 30, 2016	January 31, 2015	February 1, 2014
Expected U.S. federal income taxes at statutory rates	35.0%	35.0%	35.0%
State and local income taxes, net of federal effect	3.3	3.4	3.3
Other	(1.1)	1.3	(2.2)
Effective tax rate	37.2%	39.7%	36.1%

Table of Contents

The components of deferred income taxes are (in thousands):

	January 30, 2016	January 31, 2015
Deferred tax assets:		
Deferred rent	\$ 19,512	\$ 18,832
Net operating losses	4,384	3,053
Employee benefits, including stock based compensation	3,124	3,595
Accrued liabilities	2,125	1,971
Inventory	1,181	1,351
Other	1,516	1,508
 Total deferred tax assets	 31,842	 30,310
Deferred tax liabilities:		
Property and equipment	(19,606)	(21,197)
Goodwill and other intangibles	(6,901)	(6,424)
Other	(701)	(693)
 Total deferred tax liabilities	 (27,208)	 (28,314)
 Net deferred tax assets	 \$ 4,634	 \$ 1,996
Reported as:		
Long-term deferred tax assets	\$ 4,634	\$ 7,734
Long-term deferred tax liabilities		(5,738)
 Net deferred tax assets	 \$ 4,634	 \$ 1,996

At January 30, 2016 and January 31, 2015, we had \$16.0 million and \$12.1 million of foreign net operating loss carryovers that could be utilized to reduce future years' tax liabilities. The tax-effective foreign net operating loss carryovers were \$4.4 million and \$3.0 million at January 30, 2016 and January 31, 2015. The net operating loss carryovers have an indefinite carryforward period and currently will not expire.

We file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. Our U.S. federal income tax returns are no longer subject to examination for years before fiscal 2012, with few exceptions, we are no longer subject to U.S. state examinations for years before fiscal 2011 and we are no longer subject to examination for all foreign income tax returns before fiscal 2010.

15. Earnings per Share, Basic and Diluted

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share amounts):

	Fiscal Year Ended		
	January 30, 2016	January 31, 2015	February 1, 2014
Net income	\$ 28,785	\$ 43,192	\$ 45,948
Weighted average common shares for basic earnings per share	27,497	28,871	29,810
Dilutive effect of stock options and restricted stock	176	417	396
 Weighted average common shares for diluted earnings per share	 27,673	 29,288	 30,206
 Basic earnings per share	 \$ 1.05	 \$ 1.50	 \$ 1.54
 Diluted earnings per share	 \$ 1.04	 \$ 1.47	 \$ 1.52

Table of Contents

Total anti-dilutive common stock options not included in the calculation of diluted earnings per share were 0.1 million, 0.1 million and 0.2 million for the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014.

16. Related Party Transactions

The Zumiez Foundation is a charitable based nonprofit organization focused on meeting various needs of the under-privileged. Our Chairman of the Board is also the President of the Zumiez Foundation. We committed charitable contributions to the Zumiez Foundation of \$0.6 million, \$0.7 million and \$0.7 million for the fiscal years ended January 30, 2016, January 31, 2015 and February 1, 2014. We have accrued charitable contributions payable to the Zumiez Foundation of \$0.5 million and \$0.6 million at January 30, 2016 and January 31, 2015.

17. Segment Reporting

The following table is a summary of product categories as a percentage of merchandise sales:

	Fiscal Year Ended		
	January 30, 2016	January 31, 2015	February 1, 2014
Men's Apparel	34%	34%	34%
Accessories	20%	20%	19%
Footwear	19%	19%	22%
Hardgoods	14%	14%	13%
Junior's Apparel	13%	13%	12%
Total	100%	100%	100%

The following tables present summarized geographical information (in thousands):

	Fiscal Year Ended		
	January 30, 2016	January 31, 2015	February 1, 2014
Net sales (1):			
United States	\$ 689,582	\$ 708,279	\$ 644,362
Foreign	114,601	103,272	79,975
Total net sales	\$ 804,183	\$ 811,551	\$ 724,337

	January 30, 2016	January 31, 2015
Long-lived assets:		
United States	\$ 124,436	\$ 122,003
Foreign	25,352	23,025
Total long-lived assets	\$ 149,788	\$ 145,028

- (1) Net sales are allocated based on the location in which the sale was originated for the fiscal year ended January 30, 2016 and fulfilled for the fiscal years ended January 31, 2015 and February 1, 2014. Store sales are allocated based on the location of the store and ecommerce sales are allocated to the U.S. for sales on www.zumiez.com and to foreign for sales on www.blue-tomato.com.

18. Subsequent Event

Edgar Filing: Majoras Deborah P - Form 4

On February 5, 2016, the Company entered into an asset-based revolving credit agreement with Wells Fargo Bank, National Association as administrative agent, collateral agent, letter of credit issuer and lenders, which provides for a senior secured revolving credit facility of up to \$100 million (ABL Facility), subject to a

Table of Contents

borrowing base, with a letter of credit sub-limit of \$10 million. The ABL Facility is available for working capital and other general corporate purposes. The ABL Facility replaces our \$25.0 million (which, pursuant to an accordion feature, could have been increased to \$35.0 million at our discretion) secured revolving credit facility with Wells Fargo, which was entered into on July 9, 2014 and was scheduled to expire on September 1, 2016. The ABL Facility will mature on February 5, 2021.

The ABL Facility is secured by a first-priority security interest in substantially all of the personal property (but not the real property) of the borrowers and guarantors. Amounts borrowed under the ABL Facility bear interest, at the Company's option, at either an adjusted LIBOR rate plus a margin of 1.25% to 1.75% per annum, or an alternate base rate plus a margin of 0.25% to 0.75% per annum. The Company is also required to pay a fee of 0.25% per annum on undrawn commitments under the ABL Facility. Customary agency fees and letter of credit fees are also payable in respect of the ABL Facility.
