To our stockholders:

You are cordially invited to attend our 2019 Annual Meeting of Stockholders to be held at our headquarters located at 275 Middlefield Road, Suite 150, Menlo Park, California 94025 on Tuesday, June 4, 2019 at 10:00 a.m. Pacific Time (the Annual Meeting).

The matters expected to be acted upon at the Annual Meeting are described in the accompanying notice and proxy statement. The U.S. Securities and Exchange Commission rules allow companies to furnish proxy materials to stockholders over the internet. We have elected to do so, thus reducing the environmental impact and lowering the costs of printing and distributing proxy materials without impacting your timely access to this important information. On or about April 24, 2019, we expect to mail a Notice of Internet Availability of Proxy Materials (the Notice of Internet Availability) containing instructions on how to access our proxy statement for our Annual Meeting and our 2018 Annual Report on Form 10-K to stockholders. The Notice of Internet Availability also provides instructions on how to vote and includes instructions on how to receive paper copies of the proxy materials by mail, or an electronic copy of the proxy materials by email, if desired.

Your vote is important. Whether or not you plan to attend the Annual Meeting, please cast your vote as soon as possible by internet, telephone or by completing and returning the proxy card to ensure that your shares will be represented. Your vote by written proxy will ensure your representation at the Annual Meeting regardless of whether or not you attend in person. Returning the proxy does not deprive you of your right to attend the Annual Meeting and to vote your shares in person.

Sincerely,

Thomas G. Wiggans

Chief Executive Officer and Chairman of the Board

YOUR VOTE IS IMPORTANT

All stockholders are cordially invited to attend the Annual Meeting in person. Whether or not you plan to attend the Annual Meeting in person, please vote on the internet or by telephone, or request, sign and return a proxy card to ensure that your shares are represented at the Annual Meeting. Even if you have given your proxy, you may still vote in person if you attend the meeting. Please note, however, that if your shares are held of record by a broker, bank, trustee or other nominee and you wish to vote at the Annual Meeting, you must obtain from the record holder a proxy issued in your name. You may revoke a previously delivered proxy at any time prior to the Annual Meeting. You may do so automatically by voting in person at the Annual Meeting or by delivering to us a written notice of revocation or a duly executed proxy bearing a date later than the date of the proxy being revoked.

PROXY STATEMENT FOR THE 2019 ANNUAL MEETING OF STOCKHOLDERS

April 24, 2019

GENERAL INFORMATION

Information About Solicitation and Voting

The accompanying proxy is solicited on behalf of the board of directors of Dermira, Inc. (we, our, and us) for use at our 2019 Annual Meeting of Stockholders to be held at our headquarters located at 275 Middlefield Road, Suite 150, Menlo Park, California 94025 on Tuesday, June 4, 2019, at 10:00 a.m. Pacific Time (the Annual Meeting), and any adjournment or postponement thereof.

Internet Availability of Proxy Materials

Under rules adopted by the U.S. Securities and Exchange Commission (SEC), we are furnishing proxy materials to our stockholders primarily via the internet, instead of mailing printed copies to each stockholder. On or about April 24, 2019, we expect to send to our stockholders a Notice of Internet Availability of Proxy Materials (Notice of Internet Availability) containing instructions on how to access our proxy materials, including our proxy statement and our annual report on Form 10-K. The Notice of Internet Availability also provides instructions on how to vote and includes instructions on how to receive paper copies of the proxy materials by mail, or an electronic copy of the proxy materials by email.

This process is designed to reduce our environmental impact and lower the costs of printing and distributing our proxy materials while providing our stockholders timely access to this important information. If you would prefer to receive printed proxy materials, please follow the instructions included in the Notice of Internet Availability

General Information About the Annual Meeting

Purpose of the Meeting

You are receiving this proxy statement because our board of directors is soliciting your proxy to vote your shares at the Annual Meeting with respect to the proposals described in this proxy statement. This proxy statement includes information that we are required to provide to you pursuant to the rules and regulations of the SEC and is designed to assist you in voting your shares.

Record Date; Quorum

Only holders of record of shares of our common stock at the close of business on April 12, 2019, the record date, will be entitled to vote at the Annual Meeting. At the close of business on April 12, 2019, we had 53,667,718 shares of common stock outstanding and entitled to vote. For 10 days prior to the Annual Meeting, a complete list of the stockholders entitled to vote at the Annual Meeting will be available for examination by any stockholder for any purpose relating to the Annual Meeting during ordinary business hours at our headquarters.

Edgar Filing: Dermira, Inc. - Form DEF 14A

The holders of a majority of the voting power of the shares of our common stock entitled to vote at the Annual Meeting as of the record date must be present or represented by proxy at the Annual Meeting in order to hold the Annual Meeting and conduct business. This presence is called a quorum. Your shares are counted as present at the Annual Meeting if you are present and vote in person at the Annual Meeting or if you have properly submitted a proxy.

TABLE OF CONTENTS**Voting Rights**

In deciding all matters at the Annual Meeting, each holder of shares of common stock is entitled to one vote for each share of common stock held as of the close of business on April 12, 2019. We do not have cumulative voting rights for the election of directors. You may vote all shares owned by you as of April 12, 2019, including (1) shares held directly in your name as the stockholder of record and (2) shares held for you as the beneficial owner in street name through a broker, bank, trustee or other nominee.

Stockholder of Record: Shares Registered in Your Name. If, as of the close of business on April 12, 2019, your shares of our common stock were registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, LLC, then you are considered the stockholder of record with respect to those shares. As a stockholder of record, you may vote at the Annual Meeting or vote by telephone, through the internet or, if you request or receive paper proxy materials, by filling out and returning the proxy card by mail.

Beneficial Owner: Shares Registered in the Name of a Broker or Nominee. If, as of the close of business on April 12, 2019, your shares were held in an account with a brokerage firm, bank, trustee or other nominee, then you are the beneficial owner of the shares held in street name. As a beneficial owner, you have the right to direct your nominee on how to vote the shares held in your account and your nominee has enclosed or provided voting instructions for you to use in directing it on how to vote your shares. However, the organization that holds your shares is considered the stockholder of record for purposes of voting at the Annual Meeting. Because you are not the stockholder of record, you may not vote your shares at the Annual Meeting unless you request and obtain a valid proxy from the organization that holds your shares giving you the right to vote the shares at the Annual Meeting.

Shares for which a broker does not receive voting instructions from the beneficial owner of the shares or the broker lacks discretionary authority to vote the shares will result in broker non-votes. Broker non-votes are counted for purposes of determining whether a quorum is present and have no effect on the outcome of the matters voted upon. Note that if you are a beneficial holder and do not provide specific voting instructions to your broker, the broker that holds your shares will not be authorized to vote on the election of directors, approval of executive compensation or the frequency of future advisory votes on executive compensation. Accordingly, we encourage you to provide voting instructions to your broker, whether or not you plan to attend the Annual Meeting.

Required Vote

The voting requirements for the proposals to be considered at the Annual Meeting are as follows:

| Proposal | Vote Required | Discretionary Voting Allowed? | Effect of Abstentions | Effect of Broker Non-Votes on Outcome |

Voting Instructions; Voting of Proxies

If you are a stockholder of record, you may:

- *vote in person*—we will provide a ballot to stockholders who attend the Annual Meeting and wish to vote in person;
- *vote by telephone or through the internet*—in order to do so, please follow the instructions shown on your proxy card; or
- *vote by mail*—if you request or receive a paper proxy card and voting instructions by mail, simply complete, sign and date the enclosed proxy card and return it before the meeting in the envelope provided or, if the envelope is missing, please mail your completed proxy card to Vote Processing, c/o Broadridge Financial Solutions, Inc., 51 Mercedes Way, Edgewood, New York 11717.

Votes submitted by telephone or internet must be received by 11:59 p.m. Eastern Time on June 3, 2019. Submitting your proxy, whether by telephone, through the internet or, if you request or receive a paper proxy card, by mail, will not affect your right to vote in person should you decide to attend the Annual Meeting. If you are not the stockholder of record, please refer to the voting instructions provided by your nominee to direct it how to vote your shares. Your vote is important. Whether or not you plan to attend the Annual Meeting, we urge you to vote by proxy to ensure that your vote is counted.

All proxies will be voted in accordance with the instructions specified on the proxy card. If you sign a physical proxy card and return it without instructions as to how your shares should be voted on a particular proposal at the Annual Meeting, your shares will be voted in accordance with the recommendations of our board of directors stated above.

If you received a Notice of Internet Availability, please follow the instructions included on the notice on how to access and vote your proxy card. If you do not vote and you hold your shares in street name, and your broker does not have discretionary power to vote your shares, your shares may constitute broker non-votes (as described above) and will not be counted in determining the number of shares necessary for approval of the proposals. However, shares that constitute broker non-votes will be counted for the purpose of establishing a quorum for the Annual Meeting.

Edgar Filing: Dermira, Inc. - Form DEF 14A

If you receive more than one proxy card or Notice of Internet Availability, your shares are registered in more than one name or are registered in different accounts. To make certain all of your shares are voted, please

follow the instructions included on the Notice of Internet Availability on how to access and vote each proxy card by telephone, through the internet or by mail. If you requested or received paper proxy materials and you intend to vote by mail, please complete, sign and return each proxy card you received to ensure that all of your shares are voted.

Expenses of Soliciting Proxies

We will pay the expenses of soliciting proxies, including preparation, assembly, printing and mailing of this proxy statement, the proxy and any other information furnished to stockholders. Following the original distribution and mailing of the soliciting materials, we and our agents may solicit proxies by mail, email, telephone, facsimile, by other similar means or in person. Our directors, officers and other employees, without additional compensation, may solicit proxies personally or in writing, by telephone, email or otherwise. Following the distribution and original mailing of the soliciting materials, we will request brokers, custodians, nominees and other record holders to forward copies of the soliciting materials to persons for whom they hold shares and to request authority for the exercise of proxies. In such cases, we, upon the request of the record holders, will reimburse such holders for their reasonable expenses. If you choose to access the proxy materials and/or vote through the internet, you are responsible for any internet access charges you may incur.

Revocability of Proxies

A stockholder of record who has given a proxy may revoke it at any time before it is exercised at the Annual Meeting by:

- delivering to our Corporate Secretary (by any means, including facsimile) a written notice stating that the proxy is revoked;
- signing and delivering a proxy bearing a later date;
- voting again by telephone or through the internet; or
- attending and voting at the Annual Meeting (although attendance at the Annual Meeting will not, by itself, revoke a proxy).

Please note, however, that if your shares are held of record by a broker, bank, trustee or other nominee and you wish to revoke a proxy, you must contact that firm to revoke any prior voting instructions.

Electronic Access to the Proxy Materials

The Notice of Internet Availability will provide you with instructions regarding how to:

- view our proxy materials for the meeting through the internet;
- instruct us to mail paper copies of our future proxy materials to you; and
- instruct us to send our future proxy materials to you electronically by email.

Choosing to receive your future proxy materials by email will reduce the impact of our annual meetings of stockholders on the environment and lower the costs of printing and distributing our proxy materials. If you choose to receive future proxy materials by email, you will receive an email next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by email will remain in effect until you terminate it.

Voting Results

A representative of our mailing agent, Broadridge Financial Solutions, Inc., will tabulate the votes and act as inspector of elections for the Annual Meeting. The preliminary voting results will be announced at the Annual Meeting. The final results will be tallied by the inspector of elections and filed with the SEC in a current report on Form 8-K within

four business days of the Annual Meeting.

TABLE OF CONTENTS

CORPORATE GOVERNANCE AND BOARD OF DIRECTORS

We are strongly committed to good corporate governance practices. These practices provide an important framework within which our board of directors and management can pursue our strategic objectives for the benefit of our stockholders.

Corporate Governance Guidelines

Our board of directors has adopted Corporate Governance Guidelines that set forth expectations for directors, director independence standards, board committee structure and functions and other policies for the governance of the company. Our Corporate Governance Guidelines are available without charge on the Investors & Media section of our website located at <https://dermira.com/docsandcharters>. Our nominating and corporate governance committee reviews the Corporate Governance Guidelines periodically and changes are recommended to our board of directors as warranted.

Board Leadership Structure

Our Corporate Governance Guidelines provide that our board of directors shall be free to choose its chairperson in any way that it considers in the best interests of our company, and that the nominating and corporate governance committee shall periodically consider the leadership structure of our board of directors and make recommendations to the board of directors with respect thereto as appropriate. Our Corporate Governance Guidelines also provide that, when the positions of chairperson and chief executive officer are held by the same person, the independent directors shall designate a lead independent director. In cases in which the chairperson and chief executive officer are the same person, the chairperson schedules and sets the agenda for meetings of the board of directors in consultation with the lead independent director, and the chairperson, or if the chairperson is not present, the lead independent director, chairs such meetings. The responsibilities of the chairperson or, if the chairperson and the chief executive officer are the same person, the lead independent director, include: presiding at executive sessions of independent directors, serving as a liaison between the chairperson and the independent directors of our board of directors, consulting with the chairperson regarding the information sent to the board of directors in connection with its meetings, having the authority to call meetings of the board of directors and meetings of the independent directors and performing such other functions and responsibilities as requested by the board of directors from time to time.

Our board of directors believes that our stockholders and the company currently are best served by having Thomas G. Wiggans, our chief executive officer, serve as chairman of the board of directors and Fred B. Craves serve as our lead independent director. Our board of directors believes that the current board leadership structure, coupled with a strong emphasis on board independence, provides effective independent oversight of management while allowing the board of directors and management to benefit from Mr. Wiggans' extensive executive leadership and operational experience, including familiarity with our business as a founder and chief executive officer and his experience serving on the boards of directors, including as chairman, of other public companies. Independent directors and management sometimes have different perspectives and roles in strategy development. Our independent directors bring experience, oversight and expertise from outside of our company, while the chief executive officer brings company-specific experience and expertise. Our board of directors believes that Mr. Wiggans' combined role enables strong leadership, creates clear accountability and enhances our ability to communicate our message and strategy clearly and consistently to stockholders. Our board of directors believes that its independence and oversight of management is maintained effectively through this leadership structure, including the role and responsibilities of the lead independent director, the composition of the board of directors and sound corporate governance policies and practices.

Role of Board in Risk Oversight

Our board of directors, as a whole, has primary responsibility for risk oversight, although the committees of our board of directors oversee and review areas of risk that are particularly relevant to them. The risk oversight responsibility of our board of directors and its committees is supported by our management reporting processes, which are designed to provide visibility to the board of directors and to our personnel that are responsible for risk assessment and information about the identification, assessment and management of critical risks and management's risk mitigation strategies. These areas of focus include competitive, economic, operational, financial (accounting, credit, investment, liquidity and tax), legal, regulatory, compliance and reputational risks.

TABLE OF CONTENTS

Each committee of the board of directors meets in executive session with key management personnel and representatives of outside advisors to oversee risks associated with their respective principal areas of focus and the steps management has taken to monitor and control such exposures, including our risk assessment and risk management policies and guidelines. Our audit committee reviews our major financial risk exposures. Our compensation committee evaluates our major compensation-related risk exposures. Our nominating and corporate governance committee reviews risk exposures related to healthcare regulatory compliance and discusses the narrative disclosure regarding our board of directors' leadership structure and role in risk oversight. Our science and technology committee reviews our risk exposures in areas relating to our research and development activities, clinical development programs and intellectual property. Our commercialization and patient value committee reviews our commercialization and market risk exposures.

Independence of Directors

Our board of directors determines the independence of our directors by applying the applicable rules, regulations and listing standards of The Nasdaq Stock Market LLC ("Nasdaq"). These provide that a director is independent if, in the opinion of that company's board of directors, such person does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Applying these standards, the board of directors annually reviews the independence of our directors, taking into account all relevant facts and circumstances. In its most recent review, the board of directors considered, among other things, the relationships that each non-employee director has with our company and all other facts and circumstances our board of directors deemed relevant in determining director independence, including the beneficial ownership of our common stock by each non-employee director.

Based upon this review, our board of directors has determined that David E. Cohen, Fred B. Craves, Matthew K. Fust, Mark D. McDade, Jake R. Nunn, William R. Ringo and Kathleen Sebelius, representing seven of our nine directors, are currently independent as determined under applicable Nasdaq rules, regulations and listing standards. In making these determinations, our board of directors reviewed and discussed information provided by the directors and us with regard to each director's business and personal activities and relationships as they may relate to us and our management, including the beneficial ownership of our common stock by each non-employee director and the transactions involving them described in the section titled "Certain Relationships and Related Party Transactions."

All members of our audit committee, compensation committee and nominating and corporate governance committee must be independent directors under the applicable Nasdaq rules, regulations and listing standards. Members of the audit committee must also satisfy a separate SEC independence requirement, which provides that they may not (1) accept, directly or indirectly, any consulting, advisory or other compensatory fee from us or any of our subsidiaries other than their directors' compensation (including in connection with such member's service as a partner, member or principal of a law firm, accounting firm or investment banking firm that accepts consulting or advisory fees from us or any of our subsidiaries) or (2) be an affiliated person of us or any of our subsidiaries. Members of the compensation committee also must satisfy a separate SEC independence requirement and a related Nasdaq listing standard relating to their affiliation with us and what advisory, consulting or other fees they may have received from us. Our board of directors has determined that all members of our audit committee, compensation committee and nominating and corporate governance committee are independent and all members of our audit committee and compensation committee satisfy the relevant SEC and Nasdaq independence requirements for the members of such committees.

Board Evaluation Process

Each year, our board of directors and its committees complete an assessment of their performance, respectively. The assessment includes an evaluation of the topics covered by the board of directors or applicable committee during the

year, the effectiveness of the board and board committees in fulfilling their functions and responsibilities, the structure, composition and processes of the board of directors or applicable committee and the information received by the board of directors or applicable committee in fulfilling their functions. Our nominating and corporate governance committee oversees this assessment process.

Committees of Our Board of Directors

Our board of directors has established an audit committee, a compensation committee, a nominating and corporate governance committee, a science and technology committee and a commercialization and patient value

committee. The composition and responsibilities of each committee are described below. Each of these committees has a written charter approved by the board of directors. Audit Committee

Our audit committee is comprised of Mr. Fust, Dr. Cohen and Mr. Ringo. Mr. Fust is the chairperson of our audit committee. Each member of our audit committee meets the requirements for independence under current Nasdaq listing standards and SEC rules and regulations and is financially literate as required by Nasdaq listing standards. In addition, our board of directors has determined that Mr. Fust is an audit committee financial expert as defined in Item 407(d)(5)(ii) of Regulation S-K promulgated under the Securities Act of 1933, as amended. This designation does not impose any duties, obligations or liabilities that are greater than those generally imposed on members of our audit committee and our board of directors. Our audit committee is directly responsible for, among other things:

- selecting a firm to serve as the independent registered public accounting firm to audit our financial statements and the lead partner overseeing the audit;
- ensuring the independence of the independent registered public accounting firm;
- discussing the scope and results of the audit with the independent registered public accounting firm and reviewing, with management and that firm, our quarterly and year-end financial statements;

Our compensation committee is comprised of Dr. Craves and Messrs. Fust and Ringo. Dr. Craves is the chairperson of our compensation committee. The composition of our compensation committee meets the requirements for independence under current Nasdaq listing standards and SEC rules and regulations. Each member of our compensation committee is (i) an outside director, as defined pursuant to Section 162(m) of the Internal Revenue Code of 1986, as amended, only to the extent required in order to obtain deductibility under Section 162(m), and (ii) a non-employee director, as defined in Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act). Our compensation committee is responsible for, among other things:

regarding the compensation of our non-employee directors. The compensation committee may take into account the recommendations of the board of directors (or any member thereof) with respect to compensation of our executive officers.

The compensation committee has engaged an external compensation consultant, Radford Consulting, an Aon Hewitt company (Radford), to evaluate our executive compensation program and practices and to provide advice and ongoing assistance on executive compensation matters. Specifically, Radford was engaged to:

- provide compensation-related data for a peer group of companies to serve as a basis for assessing competitive compensation practices;
- review and assess our executive compensation policies and practices relative to market practices;
- review and assess our executive and non-employee director compensation program relative to market to
- identify any potential changes or enhancements to be brought to the attention of the compensation committee;
- review market practices on our equity incentive programs and employee stock purchase plan; and
- assist with our chief executive officer pay ratio analysis.

Other than the services described above and the provision of a subscription to surveys for executive and non-executive market data, for which we were billed approximately \$200,000 for services rendered in 2018, Radford has not provided our company or our compensation committee with any other services for the same period. Representatives of Radford attend regular meetings of the compensation committee, including independent director sessions from time to time without any members of management present. Radford works directly with our compensation committee (and not on behalf of management) to assist the compensation committee in satisfying its responsibilities and will undertake no projects for management without the compensation committee's prior approval. The compensation committee has determined that Radford does not have any conflicts of interest in advising the compensation committee under applicable SEC and Nasdaq rules and regulations.

The compensation committee has delegated, in accordance with applicable law, rules and regulations and our certificate of incorporation and bylaws, to an equity awards committee comprised of our chief executive officer and chief financial officer, the authority to make certain types of equity awards to employees other than specified officers or directors under our 2014 Equity Incentive Plan pursuant to the terms of such plan and the equity award guidelines approved by our compensation committee.

Please see the section entitled *Nominations Process and Director Qualifications—Director Compensation Program* and *Executive Compensation* for a description of our processes and procedures for the consideration and determination of executive officer and director compensation.

NOMINATIONS PROCESS AND DIRECTOR QUALIFICATIONS

Nomination to the Board of Directors

Candidates for nomination to our board of directors are selected by our board of directors based on the recommendation of the nominating and corporate governance committee in accordance with the nominating and corporate governance committee's charter, our certificate of incorporation and bylaws, our Corporate Governance Guidelines and the criteria adopted by the board of directors regarding director candidate qualifications. In recommending candidates for nomination, the nominating and corporate governance committee considers candidates recommended by directors, officers, employees, stockholders and others, using the same criteria to evaluate all candidates. Evaluations of candidates generally involve a review of background materials, internal discussions and interviews with selected candidates as appropriate and, in addition, the nominating and corporate governance committee may engage consultants or third-party search firms to assist in identifying and evaluating potential nominees.

Additional information regarding the process for properly submitting stockholder nominations for candidates for membership on our board of directors is set forth below under **Additional Information—Stockholder Proposals to Be Presented at Next Annual Meeting**.

Director Qualifications

With the goal of developing a diverse, experienced and highly-qualified board of directors, the nominating and corporate governance committee is responsible for considering and recommending to the board of directors the desired qualifications, expertise and characteristics of members of our board of directors, including any specific minimum qualifications that the committee believes must be met by a committee-recommended nominee for membership on the board of directors and any specific qualities or skills that the committee believes are necessary for one or more of the members of the board of directors to possess.

Since the identification, evaluation and selection of qualified directors is a complex and subjective process that requires consideration of many intangible factors, and will be significantly influenced by the particular needs of the board of directors from time to time, our board of directors has not adopted a specific set of minimum qualifications, qualities or skills that are necessary for a nominee to possess, other than those that are necessary to meet U.S. legal, regulatory and Nasdaq listing requirements and the provisions of our certificate of incorporation, bylaws, Corporate Governance Guidelines and charters of the committees of the board. In addition, neither the board of directors nor the nominating and corporate governance committee has a formal policy with regard to the consideration of diversity in identifying nominees. When considering nominees, the nominating and corporate governance committee may take into consideration many factors including, among other things, a candidate's independence, integrity, skills, financial and other expertise, breadth of experience, knowledge about our business or industry and ability to devote adequate time and effort to responsibilities of the board of directors in the context of its existing composition. Through the nomination process, the nominating and corporate governance committee seeks to promote board membership that reflects a diversity of business experience, expertise, viewpoints, personal backgrounds and other characteristics that are expected to contribute to the board of directors' overall effectiveness. The brief biographical description of each director set forth in Proposal No. 1 below includes the primary individual experience, qualifications, attributes and skills of each of our directors that led to the conclusion that each director should serve as a member of our board of directors at this time.

TABLE OF CONTENTS**Director Compensation Program**

The compensation committee reviews director compensation annually and recommends changes to the board of directors when appropriate. In evaluating director compensation, the compensation committee considers the information, analysis and recommendations provided by its compensation consultant, Radford, including data regarding compensation paid to non-employee directors by companies in our peer group companies (as described in Compensation Discussion and Analysis—Competitive Market Data), and seeks to align our director compensation program to market compensation levels and our overall compensation philosophy.

Our board of directors currently consists of nine directors and is divided into three classes. Each class serves for three years, with the terms of office of the respective classes expiring in successive years. Directors in Class II will stand for election at the Annual Meeting. The terms of office of directors in Class III and Class I do not expire until the annual meeting of stockholders held in 2020 and 2021, respectively. PROPOSAL NO. 2

NON-BINDING ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the **Dodd-Frank Act**), enacted on July 21, 2010, requires that we seek, on a non-binding advisory basis, stockholder approval of the compensation of our named executive officers as described in this proxy statement. This proposal, commonly known as a **say-on-pay** proposal, gives our stockholders the opportunity to express their views on the compensation of our named executive officers.

In 2018, our stockholders had the opportunity to cast an advisory vote to approve our executive compensation policies and procedures. More than 97% of the votes cast by stockholders supported our executive compensation policies and procedures. In addition, at our 2017 annual meeting of stockholders, our stockholders approved holding the advisory vote every year, which we believe will allow for a meaningful evaluation period of performance against our compensation practices. Accordingly, as required by Section 14A of the Exchange Act, we are asking our stockholders to cast an advisory vote to approve the compensation of the named executive officers identified in the Summary Compensation Table in the **Executive Compensation** section of this proxy statement.

Compensation Program and Philosophy

The primary goal of our executive compensation program is to ensure that we hire and retain talented and experienced executive officers who are motivated to achieve or exceed our short-term and long-term corporate goals. In determining the form and amount of compensation payable to our executive officers, we are guided by the following objectives and principles:

- compensation should relate to performance;
- equity awards help executive officers think like stockholders; and
- total compensation opportunities should be competitive.

Our board of directors believes that our current executive compensation program has been effective at linking executive compensation to our performance and aligning the interests of our executive officers with those of our stockholders. Stockholders are urged to read the **Executive Compensation** section of this proxy statement, which further discusses how our executive compensation policies and procedures implement our compensation philosophy and contains tabular information and narrative discussion about the compensation of our named executive officers.

Our compensation committee and our board of directors believe that these policies and procedures are effective in implementing our compensation philosophy and in achieving our goals. Accordingly, we are asking our stockholders to indicate their support for the compensation of our named executive officers as described in this proxy statement by voting in favor of the following resolution:

RESOLVED, that the stockholders approve, on a non-binding advisory basis, the compensation of Dermira, Inc.'s named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, the compensation tables, and the accompanying narrative disclosures set forth in the proxy statement relating to Dermira, Inc.'s 2019 annual meeting of stockholders.

Required Vote

The affirmative **FOR** vote of a majority of the shares present, represented and entitled to vote on the proposal is required to approve, on an advisory and non-binding basis, the compensation awarded to our named executive officers for the year ended December 31, 2018. You may vote **FOR**, **AGAINST**, or **ABSTAIN** on this proposal. Abstentions

are deemed to be votes cast and have the same effect as a vote against the proposal.

TABLE OF CONTENTS

Although this say-on-pay vote is advisory and, therefore, will not be binding on us, our compensation committee and our board of directors value the opinions of our stockholders. Accordingly, to the extent there is a significant vote against the compensation of our named executive officers, we will consider our stockholders' concerns and the compensation committee will evaluate what actions may be necessary or appropriate to address those concerns.

Recommendation

OUR BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THIS PROXY STATEMENT.

TABLE OF CONTENTS**PROPOSAL NO. 3****RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Our audit committee is responsible for the appointment, compensation, retention and oversight of the work of our independent registered public accounting firm. Our audit committee has selected Ernst & Young LLP as our principal independent registered public accounting firm to perform the integrated audit of our consolidated financial statements and our internal control over financial reporting for the year ending December 31, 2019. Ernst & Young LLP audited our financial statements and internal control over financial reporting for the year ended December 31, 2018. In determining whether to retain our current independent registered public accounting firm, the audit committee considers, among other factors, the external auditor's qualifications, independence, work quality and the impact a change in the external auditor would have on the company. Our audit committee has determined that the appointment of Ernst & Young LLP as our principal independent registered public accounting firm to perform the integrated audit of our consolidated financial statements and our internal control over financial reporting for the year ending December 31, 2019 is in the best interests of the company and our stockholders.

As a matter of good corporate governance, our audit committee has decided to submit its selection of its principal independent registered public accounting firm to stockholders for ratification. In the event that the appointment of Ernst & Young LLP is not ratified by our stockholders, the audit committee will review its future selection of Ernst & Young LLP as our principal independent registered public accounting firm.

Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting, in which case they will be given an opportunity to make a statement at the Annual Meeting if they desire to do so, and will be available to respond to appropriate questions.

Principal Accountant Fees and Services

We regularly review the services and fees from our independent registered public accounting firm. These services and fees are also reviewed with our audit committee annually. In accordance with standard policy, Ernst & Young LLP periodically rotates the individuals who are responsible for our audit, including rotation of the lead audit partner every five years.

In addition to performing the audit of our consolidated financial statements, Ernst & Young LLP provided various other services during 2017 and 2018. Our audit committee has determined that Ernst & Young LLP's provision of these services, which are described below, does not impair Ernst & Young LLP independence from the company. During 2017 and 2018, fees for services provided by Ernst & Young LLP were as follows:

| Fees Billed to Dermira, Inc. | 2017 | 2018 |
|-------------------------------------|--------------|--------------|

| Other fees | — | — |
| Total fees | \$ 1,351,280 | \$ 1,215,323 |

(1) *Audit fees* include fees for audit services primarily related to the integrated audit of our annual consolidated financial statements and our internal control over financial reporting as required by Section 404(b) of the Sarbanes-Oxley Act of 2002; the review of our quarterly consolidated financial statements; comfort letters,

consents and assistance with and review of documents relating to our securities offerings, including our shelf registration statement on Form S-3 filed with the SEC in November 2018; and other accounting and financial reporting consultation and research work billed as audit fees or necessary to comply with the standards of the Public Company Accounting Oversight Board (United States).

- Tax fees* include fees for tax compliance and advice. Tax advice fees encompass a variety of permissible tax services, including technical tax advice related to federal and state income tax matters, assistance with sales tax and assistance with tax audits.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

Our audit committee's policy is to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm, the scope of services provided by the independent registered public accounting firm and the fees for the services performed. These services may include audit services, audit-related services, tax services and other services. Pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the audit committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval and the fees for the services performed to date.

All of the services relating to the fees described in the table above were approved by our audit committee.

Required Vote

Ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2019 requires the affirmative **FOR** vote of a majority of the shares present, represented and entitled to vote on the proposal. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

This section describes our compensation program for our executive officers and specifically how it applied to our named executive officers for fiscal year 2018. Such program and the associated compensatory arrangements are further detailed in the Summary Compensation Table and other compensation tables included in this proxy statement. The discussion focuses on our executive compensation policies, decisions made by our compensation committee or our board of directors and the most important factors relevant to an analysis of these policies and decisions. We address why we believe our compensation program is appropriate for us and our stockholders and explain how executive compensation is determined.

Our named executive officers for fiscal year 2018 are as follows:

- Thomas G. Wiggins, Chief Executive Officer
- Andrew L. Guggenhime, Chief Financial Officer
- Christopher Horan, Chief Technical Operations Officer
- Lori Lyons-Williams, Chief Commercial Officer
- Luis C. Peña, Chief Development Officer

Objectives and Principles of Our Executive Compensation Program

The primary goal of our executive compensation program is to ensure that we attract, hire and retain talented and experienced executive officers who are motivated to achieve or exceed our corporate goals. We seek to incentivize our executive officers to achieve our short- and long-term goals and fairly reward our executive officers for our corporate performance, reinforcing accountability. In determining the form and amount of compensation payable to our executive officers, we are guided by the following objectives and principles:

- *Compensation should relate to performance.* We believe that executive compensation should be directly linked to corporate performance, including the achievement of annual corporate objectives and the enhancement of long-term stockholder value.
- *Equity awards help executive officers think like stockholders.* We believe that our executive officers' total compensation should have a significant equity component because stock-based awards help reinforce the executive officers' long-term interest in our overall performance and align the interests of our executive officers with those of our stockholders.
- *Total compensation opportunities should be competitive.* We believe that our total compensation programs should be competitive so that we can attract, retain and motivate talented executive officers who will help us perform better than our competitors.

For 2018, our compensation committee targeted total cash compensation for our executive officers to align with the 50th percentile of our compensation peer group and long-term incentives for our executive officers between the 50th and 75th percentiles of our compensation peer group, with any individual executive officer potentially falling above or below this range due to the executive's individual contribution, scope of responsibilities, level of experience and tenure with our company. The compensation committee utilizes the peer group information and Radford surveys as data points in determining, with the assistance of Radford, the appropriate components of and overall compensation, but it does not benchmark its compensation to any particular level or against any specific member of our compensation peer group. Except as described herein, our compensation committee has not adopted any formal or informal policies or guidelines for allocating compensation between cash and non-cash compensation, among different forms of non-cash compensation, or with respect to long-term and short-term performance. The determination of our compensation

committee as to the appropriate use and weight of each component of executive compensation is subjective, based on its views of the relative importance of each component in meeting our overall objectives.

Role of the Compensation Committee and Executive Officers in Setting Executive Compensation

The compensation committee has principal responsibility for reviewing our executive compensation structure, evaluating performance by our executive officers relative to our corporate goals and approving executive compensation. Members of the compensation committee are appointed by our board of directors. In 2018, our compensation committee consisted of Fred B. Craves (Chair), Matthew K. Fust and William R. Ringo. All of the members of the compensation committee are independent under applicable SEC and Nasdaq standards and are outside directors under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code). Our compensation committee held six meetings during 2018.

Prior to January 2018, our compensation committee had the exclusive authority and responsibility to determine all aspects of executive compensation packages for executive officers other than our chief executive officer and made recommendations to our board of directors regarding the compensation of our chief executive officer. In January 2018, the compensation committee's charter was amended by our board of directors to provide it with authority and responsibility to determine all aspects of executive compensation packages for executive officers, including our chief executive officer.

To determine each executive officer's compensation, the compensation committee examines compensation on a role-specific basis as well as positions at a similar level and for the executive team overall. Our compensation committee also considers our corporate financial performance and financial condition. Our chief executive officer meets with the compensation committee to discuss executive compensation matters and to make recommendations to the compensation committee with respect to other executive officers. The compensation committee may modify individual compensation components for executive officers and is not bound to accept the chief executive officer's recommendations. The compensation committee may take into account the recommendations of the board of directors (or any member thereof) with respect to compensation of the executive officers. Our chief executive officer does not participate in compensation committee or board deliberations regarding his own compensation.

Although we generally make many compensation decisions in the first quarter of our fiscal year, the compensation evaluation process is ongoing. Compensation discussions and decisions are designed to promote our fundamental business objectives and strategy. Evaluation of management performance and compensation is performed annually or more often as needed.

Our compensation committee also evaluates risk as it relates to our compensation programs, including our executive compensation program. As discussed under Risk Considerations below, our compensation committee does not believe that our compensation programs encourage excessive or inappropriate risk taking.

Role of Independent Compensation Consultant

Our compensation committee has the authority to engage the services of outside consultants. Our compensation committee directly engaged Radford as its compensation consultant to review our executive compensation program, assess the competitiveness of such program and advise our compensation committee on matters related to 2018 executive compensation. The only other consulting or other services that Radford or Aon plc, its parent company, performed for us in 2018 were for the company's subscription to survey data for executive and non-executive compensation to assist us in ensuring that our executive compensation programs are within market norms. We were billed approximately \$200,000 for services rendered by Radford in 2018 and Radford has not provided our company or our compensation committee with any other services for the same period. The compensation committee determined that, notwithstanding the provision of such services, Radford was an independent compensation advisor to the compensation committee for 2018, including for purposes of the Dodd-Frank Act and other applicable SEC and Nasdaq regulations.

Among other activities, Radford:

- assisted the compensation committee in identifying a peer group of companies for purposes of benchmarking our levels of compensation (the peer group companies);
- gathered and analyzed compensation data of peer group companies; and
- assisted the compensation committee in assessing the competitiveness of our executive compensation program and developing a going-forward equity strategy.

TABLE OF CONTENTS***Compensation Peer Group***

As directed by our compensation committee, in connection with its 2018 executive compensation analysis, Radford reviewed executive compensation data of publicly-traded biopharmaceutical companies that were comparable to us with respect to market capitalization, stage of product development and commercialization and organizational complexity. These metrics were then used to identify appropriate market reference points for gathering compensation data (the 2018 Radford survey).

For 2018, Radford proposed the following peer selection criteria:

- companies with a market capitalization generally between approximately one-third to three times our market capitalization, or \$350 million and \$3.5 billion, based on our market capitalization at the time of the analysis;
- biotechnology companies with products in late stages of product development, with a New Drug Application (NDA) on file with the U.S. Food and Drug Administration (FDA) or newly commercial companies;
- companies with headcount between 100 and 800 employees; and
- companies with a geographic emphasis in the San Francisco Bay Area and other biotechnology hubs that reflect our relevant recruiting market.

The compensation committee then reviewed and approved the composition of the peer group companies to ensure that the companies were relevant for comparative purposes. The peer group approved by our compensation committee for 2018 executive compensation analyses (2018 peer group companies) were:

- | | | |
|--------------------------------|------------------------------------|----------------------------------|
| • Acceleron Pharma Inc. | • Alder Biopharmaceuticals, Inc. | • Radius Health, Inc. |
| • Achaogen, Inc.* | • Atara Biotherapeutics, Inc. | • Revance Therapeutics, Inc. |
| • Aclaris Therapeutics, Inc. | • Clovis Oncology, Inc. | • Sage Therapeutics, Inc. |
| • Adamas Pharmaceuticals, Inc. | • Five Prime Therapeutics Inc. | • Spark Therapeutics, Inc. |
| • Aduro Biotech, Inc. | • Flexion Therapeutics Inc.* | • Synergy Pharmaceuticals, Inc. |
| • Aerie Pharmaceuticals, Inc. | • Global Blood Therapeutics, Inc.* | • Ultragenyx Pharmaceutical Inc. |
| • Aimmune Therapeutics, Inc. | • Portola Pharmaceuticals Inc. | • Xencor Inc. |
| • Akebia Therapeutics, Inc. | • Prothena Corporation plc* | |

Companies with an asterisk were added to the peer group for 2018. Coherus BioSciences, Inc., OncoMed Pharmaceuticals, Inc., Ophthotech Corporation and Otonomy, Inc. were included in the peer group for 2017 executive compensation analyses but were removed from the list of proposed peer group companies because they did not meet the 2018 peer selection criteria or had since been acquired.

Scope of 2018 Radford Survey

In connection with the 2018 Radford survey, Radford gathered and analyzed compensation data of our peer group companies as points for comparison with our executive compensation practices. The 2018 Radford survey was commenced in the fourth quarter of 2017 and presented to our compensation committee in December 2017. Mr. Horan joined as our chief technical operations officer in April 2018 and, therefore, the 2018 Radford survey did not gather and analyze compensation data with respect to chief technical operations officer roles at peer group companies. Accordingly, references to the results of the 2018 Radford survey relating to compensation paid to our executive officers as a group relative to compensation paid to executive officers with similar roles at peer group companies does not include data with respect to compensation of our chief technical operations officer.

Elements of Executive Compensation

The primary components of our executive compensation program are cash compensation, comprised of base salary and an annual incentive cash bonus plan, and long-term equity incentive awards. We target total cash compensation for our executive officers at the 50th percentile of our peer group companies for a particular year. We target long-term equity-based incentive compensation for our executive officers between the 50th and

TABLE OF CONTENTS

75th percentiles of our peer group, taking into account both the long-term incentive value of the award on the grant date, calculated pursuant to ASC 718 for stock option grants and calculated using our stock price on the date of grant for restricted stock unit awards, as well as the percentage of the company that the equity award represents. In addition, we provide our executive officers with health and other benefits that are generally available to all employees and have entered into severance and change of control agreements with our executive officers.

Cash Compensation***Base Salary.***

We pay an annual base salary to each of our executive officers in order to attract and retain executive talent and provide them with a fixed rate of cash compensation during the year. We set executive officer base salary at a level we believe enables us to hire and retain a management team that is superior to our peer group companies and to reward exceptional individual performance and an exceptional level of contribution to our overall corporate goals.

In February 2018, our compensation committee reviewed our executive officers' base salaries in light of the 2018 Radford survey, which concluded that the base salaries of our executive officers were generally aligned with the 25th percentile of the 2018 peer group companies, other than the base salary of our chief development officer, which was aligned with the 25th to 50th percentile of the 2018 peer group companies. Based on the 2018 Radford survey, general compensation trends in our industry and the overall performance of each of our named executive officers, our compensation committee increased our named executive officers' base salaries by approximately 7.0% to 9.0% in an effort to align base salaries at the 50th percentile of our peer group companies for 2018. The 2018 base salary increases were effective as of January 1, 2018.

A summary of the 2018 base salary increases for our named executive officers is set forth below:

| <i>Named Executive Officer</i> | <i>2018 Base Salary (\$)</i> | <i>Percentage Increase from 2017 Base Salary (%)</i> |
|-------------------------------------------------------------------------------|------------------------------|------------------------------------------------------|
| Thomas G. Wiggans <i>Chief Executive Officer</i> | 572,500 | 9.1 |
| Andrew L. Guggenhime <i>Chief Financial Officer</i> | 406,930 | 7.0 |
| Christopher Horan ⁽¹⁾ <i>Chief Technical Operations Officer</i> | 300,000 | — |
| Lori Lyons-Williams <i>Chief Commercial Officer</i> | 392,040 | 8.9 |
| Luis C. Peña <i>Chief Development Officer</i> | 409,170 | 7.0 |

(1) Mr. Horan joined as our chief technical operations officer in April 2018. The amount indicated represents prorated base salary for 2018. Mr. Horan's annual base salary in 2018 was \$400,000.

Annual Cash Incentive Bonus Plan.

Our annual cash incentive bonus plan is intended to ensure a pay-for-performance ethic by closely aligning a significant portion of our executive officers' total cash compensation in a given year to our corporate performance in that year. In contrast to the longer-term incentives of equity incentive awards, our bonus plan is designed to ensure

that our executive officers are focused on our near-term performance and on working together to achieve specific key corporate goals identified by our board of directors for the applicable fiscal year.

2018 Bonus Plan. In December 2017, our compensation committee approved a target bonus amount for each of our executive officers based on a specified percentage of each such officer's base salary, with the actual bonus payout to be based on the level of achievement of our 2018 corporate goals. The 2018 bonus plan provided that at least 60% of the 2018 corporate goals must have been achieved to receive any payout. The maximum payout

TABLE OF CONTENTS

under the 2018 bonus plan was set at 125% of the target bonus. The 2018 Radford survey concluded that, on average, annual cash incentive opportunities for our executive officers were aligned with the 25th percentile of our peer group companies. Based upon the 2018 Radford survey, in December 2017, our compensation committee increased the target bonus as a percentage of base salary for the 2018 fiscal year for Mr. Peña to 40% to be consistent with other named executive officers, while maintaining the target bonus as a percentage of base salary for the other named executive officers. The 2018 target bonus amount for each of our named executive officers based on a specified percentage of base salary is set forth below:

| <i>Named Executive Officer</i> | <i>2017</i> | <i>2018</i> | <i>2018 Target Bonus Amount (\$)</i> | <i>2018 Bonus Maximum Amount (\$)⁽¹⁾</i> |
|-------------------------------------------------------------------------------|---------------------------------------------------|---------------------------------------------------|--------------------------------------|-----------------------------------------------------|
| | <i>Target Bonus as Percent of Base Salary (%)</i> | <i>Target Bonus as Percent of Base Salary (%)</i> | | |
| Thomas G. Wiggans <i>Chief Executive Officer</i> | 60 | 60 | 343,500 | 429,375 |
| Andrew L. Guggenlime <i>Chief Financial Officer</i> | 40 | 40 | 162,772 | 203,465 |
| Christopher Horan ⁽²⁾ <i>Chief Technical Operations Officer</i> | — | 40 | 120,000 | 150,000 |
| Lori Lyons-Williams <i>Chief Commercial Officer</i> | 40 | 40 | 156,816 | 196,000 |
| Luis C. Peña <i>Chief Development Officer</i> | 35 | 40 | 163,668 | 204,585 |

(1) 125% of target bonus amount.

(2) Mr. Horan joined as our chief technical operations officer in April 2018. His target bonus of 35% of base salary was initially approved by the board of directors in February 2018 but was subsequently increased to 40% of base salary in March 2018 to be consistent with other named executive officers. The amount indicated is based on prorated base salary for 2018.

2018 Corporate Goals. In January 2018, our board of directors approved our 2018 corporate goals, which included base corporate goals relating to the achievement of: (1) product development objectives (total weighting of 40%), including the advancement of our olumacostat (formerly DRM01) and lebrizumab development programs and the selection and advancement of early-stage research programs (the product development goals); (2) regulatory and commercialization objectives relating to glycopyrronium tosylate (now QBREXZA™ (glycopyrronium) cloth) (total weighting of 40%), including obtaining FDA approval of the previously submitted NDA for QBREXZA for the treatment of primary axillary hyperhidrosis, QBREXZA commercial launch, market access and sales objectives, physician outreach and disease state awareness goals and the submission and acceptance of multiple industry presentations and publications (the QBREXZA commercialization goals); and (3) financial objectives (total weighting of 20%), including managing to the annual budget approved by our board of directors and successful capital-raising activities (the financial goals).

The 2018 corporate goals also included stretch goals relating to the achievement of: (1) certain product development goals under an accelerated timeline and certain business development objectives (total weighting of up to 23%) (the product development stretch goals); (2) certain QBREXZA commercialization goals with an increased scope (total weighting of 25%) (the QBREXZA commercialization stretch goals); and (3) a higher financing goal (total weighting of 9%) (the financing stretch goal).

The goals pertain to confidential company development and business plans, the disclosure of which in any additional granularity would result in competitive harm to the company. The board of directors believed that each of these goals would require a high level of executive officer performance in order to be achieved.

2018 Individual Performance. In February 2018, our compensation committee determined that 10% of the 2018 target cash incentive bonus amount for each named executive officer would be based upon assessment of the executive's individual performance, with such individual performance assessment to be determined by the compensation committee, taking into consideration recommendations by Mr. Wiggans (except with respect to his own performance) and Dr. Bauer.

TABLE OF CONTENTS

Accordingly, 90% of the target bonus amount would be determined based upon the achievement of the corporate and stretch goals, which were assigned an aggregate weighting of up to 157%, and 10% of the target bonus amount would be determined based upon executive individual performance, as set forth below (provided that the maximum payout under the 2018 bonus plan was set at 125% of the target bonus amount):

| <i>Named Executive Officer</i> | <i>Target Bonus as Percent of Base Salary (%)</i> | <i>Target Bonus Based on Corporate Goals as Percent of Total Target Bonus (%)</i> | <i>Target Bonus Based on Corporate Goals as Percent of Base Salary (%)</i> | <i>Target Bonus Based on Individual Performance as Percent of Total Target Bonus (%)</i> | <i>Target Bonus Based on Individual Performance as Percent of Base Salary (%)</i> |
|-------------------------------------------------------------------------------|---------------------------------------------------|-----------------------------------------------------------------------------------|----------------------------------------------------------------------------|------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| Thomas G. Wiggans <i>Chief Executive Officer</i> | 60 | 90 | 54 | 10 | 6 |
| Andrew L. Guggenhime <i>Chief Financial Officer</i> | 40 | 90 | 36 | 10 | 4 |
| Christopher Horan ⁽²⁾ <i>Chief Technical Operations Officer</i> | 40 | 90 | 36 | 10 | 4 |
| Lori Lyons-Williams <i>Chief Commercial Officer</i> | 40 | 90 | 36 | 10 | 4 |
| Luis C. Peña <i>Chief Development Officer</i> | 40 | 90 | 36 | 10 | 4 |

Modification of 2018 Corporate Goals. In June 2018, our board of directors reviewed and modified our 2018 corporate goals to better align with our business in light of the results of our olumacostat glasaretil (formerly DRM01) Phase 3 pivotal trials for moderate-to-severe acne vulgaris, which did not meet the co-primary endpoints. As modified, the weighting of our base product development goals was increased from 40% to 48%, with the additional 8% tied to QBREXZA franchise optimization, and the weighting of our base financial goals was reduced by 8%.

2018 Performance. In January 2019, our compensation committee reviewed our performance in 2018 relative to the corporate goals identified above and the individual performance of our named executive officers. The compensation committee determined that the company had achieved 61% of its 2018 base corporate goals and 39% of its stretch goals for total corporate achievement of 100%, as follows:

| <i>Corporate Goal Category</i> | <i>Total Base Weighting Available (%)</i> | <i>Total Base Weighting Achieved (%)</i> | <i>Total Stretch Weighting Available (%)</i> | <i>Total Stretch Weighting Achieved (%)</i> |
|---------------------------------|-------------------------------------------|------------------------------------------|----------------------------------------------|---------------------------------------------|
| Product development goals | 48 | 15 | 23 | 10 |
| QBREXZA commercialization goals | 40 | 34 | 25 | 20 |
| Financial goals | 12 | 12 | 9 | 9 |
| Total | 100 | 61 | 57 | 39 |

With respect to the individual performance component of the bonus plan, the compensation committee considered the March 2018 results of our investigational treatment olumacostat glasaretil (formerly DRM01) for moderate-to-severe acne vulgaris, which did not meet the co-primary endpoints in its two Phase 3 pivotal trials, as well as individual

executive performance in 2018 relating to strategic planning, business execution, management and leadership in light of challenges associated with the results of our olumacostat glasaretil clinical trials. Upon recommendation by Mr. Wiggins and Dr. Bauer, the compensation committee approved 50% of the individual performance bonus amount for each of our named executive officers.

Accordingly, 95% of the target bonus amount was achieved by our named executive officers as follows:

(1) Approximately 95% of target bonus amount.

(2) Mr. Horan joined as our chief technical operations officer in April 2018. \$300,000 is his prorated base salary for 2018 and his 2018 target bonus amount is based on his prorated base salary for 2018.

Chief Technical Operation Officer Signing Bonus. To induce Mr. Horan to join us, he received a one-time \$200,000 signing bonus, subject to repayment in full if his employment with us terminates prior to September 2018 and subject to prorated repayment if his employment with us terminates between October 1, 2018 and March 31, 2019 (unless such termination is a qualifying termination as defined in the company severance and change in control agreement, as described below under *Payments in Connection with a Termination or Change in Control*).

Long-Term Equity Incentive Awards

In addition to cash compensation, our executive compensation program includes long-term equity incentive awards. We believe that equity awards are an effective means of closely aligning the interests of executive officers and stockholders, rewarding executive officers for the company's success over the long term and providing executive officers an incentive to remain with us as their equity awards vest. We have historically granted equity awards to new executive officers upon the commencement of their employment and consider additional grants to existing executive officers annually, based on our overall corporate performance, individual performance, the equity award practices of our peer group companies and the executive officers' existing equity grants and equity holdings.

TABLE OF CONTENTS

Forms of Equity Awards. Prior to 2016, our executive officers and employees received equity awards only in the form of stock option grants. Because our executive officers are awarded stock options with an exercise price equal to 100% of the fair market value of our common stock on the date of grant, stock options will have value to our executive officers only if the market price of our common stock increases after the date of grant, creating a direct, meaningful link between stockholder value and the equity component of an executive officer's individual compensation. Upon hiring an executive officer, the initial grant of stock options typically will vest over four years at a rate of 25% of the shares subject to the option vesting and becoming exercisable on the first anniversary of the executive officer's employment commencement date, with the remaining 75% of the shares vesting and becoming exercisable ratably over the following 36 months. Annual refresh grants of stock options to our executive officers, when granted, typically are granted in the first quarter of our fiscal year and vest ratably monthly over a four-year period.

In 2016, our compensation committee determined that it was appropriate to grant restricted stock units in addition to stock options for both employees and executive officers based upon several factors, including the competitive dynamics of the markets in which we recruit, that most of our larger competitors were offering full value awards in the form of restricted stock units, and the more favorable dilutive impact of restricted stock units relative to stock option grants. To remain competitive in our market while furthering our executive compensation principles of directly linking executive compensation to our corporate performance, reinforcing our executive officers' long-term interest in our overall performance and aligning the interests of our executive officers with the interests of our stockholders, our compensation committee determined that annual refresh equity awards would be granted to executive officers with 75% of the value of the award comprised of stock options and 25% of the value of the award comprised of restricted stock units, based on a grant date value of one restricted stock unit equal to two stock options. Grants of restricted stock units to our executive officers typically vest 10% on August 15 of the year in which granted and then vest as to 30% on August 15 of each of the next succeeding three years.

2018 Annual Equity Grants. Radford reviewed the equity compensation practices of the 2018 peer group companies as well as the value of current vested and unvested equity holdings of our executive officers. The 2018 Radford survey noted that most of the 2018 peer group companies granted their executive officers a mix of stock options and restricted stock units. Radford assisted our compensation committee in developing 2018 equity grant guidelines for our executive officers, balancing grant date value and grant size as a percentage of company ownership, targeting between the 50th and 75th percentile of the 2018 peer group companies.

Based on the information provided by Radford and the considerations described above, our compensation committee approved stock option and restricted stock unit awards to our named executive officers in February 2018 (except for Mr. Horan) as set forth below:

| <i>Named Executive Officer</i> | <i>Stock Options (#)⁽¹⁾</i> | <i>Restricted Stock Units (#)⁽²⁾</i> |
|-------------------------------------------------------------------------------|----------------------------------------|-------------------------------------------------|
| Thomas G. Wiggins <i>Chief Executive Officer</i> | 150,000 | 25,000 |

1/48th of the total shares vest monthly, subject to the executive's continuous status as a service provider, with the first vesting date on February 1, 2018.

- (2) 10% of the total shares vest on August 15, 2018 and 30% of the total shares vest each of the three years thereafter, subject to the executive's continuous status as a service provider.

- (3) Mr. Horan joined as our chief technical operations officer in April 2018 and received an option to purchase 140,000 shares of our common stock and 80,000 restricted stock units in May 2018. 25% of the shares underlying the stock option will vest on April 2, 2019 and 1/48th of the shares underlying the stock option will vest each month thereafter, subject to Mr. Horan's continuous status as a service provider. 1/3 of the total shares underlying the restricted stock unit will vest on May 17, 2019 and each year thereafter, subject to Mr. Horan's continuous status as a service provider.

2018 Retention Equity Grants. In March 2018, we announced that our investigational treatment olumacostat glasaretil (formerly DRM01) for moderate-to-severe acne vulgaris did not meet the co-primary endpoints in its two Phase 3 pivotal trials. In connection with the announcement, our stock price, and consequently the retentive power of our employees' equity incentive grants was significantly diminished. The diminished retentive value of our outstanding equity awards presented a material risk to our ability to retain key employees, which could have had a material adverse impact on (i) our ability to successfully launch our first commercial product, QBREXZA, in October 2018 and (ii) the timely and successful completion of our Phase 2b dose-ranging study of lebrikizumab in adult patients with moderate-to-severe atopic dermatitis in March 2019. To maintain the necessary human resources to continue to build our commercial infrastructure and capabilities as well as to continue our Phase 2b dose-ranging study of lebrikizumab, in consultation with Radford, our compensation committee approved retention grants comprised of restricted stock units to our employees, including certain of our named executive officers, in April 2018. Our chief executive officer declined a grant of retention restricted stock units. The restricted stock units granted to our named executive officers, which were approved in April 2018 and granted in August 2018 due to available share pool limitations, are as set forth below:

| <i>Named Executive Officer</i> | <i>Restricted Stock Units (#)⁽¹⁾</i> |
|-------------------------------------------------------------------------------|-------------------------------------------------|
| Thomas G. Wiggins <i>Chief Executive Officer</i> | — |
| Andrew L. Guggenhime <i>Chief Financial Officer</i> | 50,000 |
| Christopher Horan ⁽²⁾ <i>Chief Technical Operations Officer</i> | — |
| Lori Lyons-Williams <i>Chief Commercial Officer</i> | 60,000 |
| Luis C. Peña <i>Chief Development Officer</i> | 50,000 |

(1) 50% of the total shares vest on May 17, 2019 and 50% of the total shares vest on May 17, 2020, subject to the executive's continuous status as a service provider.

(2) Mr. Horan did not receive a retention grant as he joined as our chief technical operations officer in April 2018.

Employment Agreements and Offer Letters

We have entered into at-will employment agreements or offer letters with each of our named executive officers. Each of these arrangements was approved by our then current chief executive officer, our compensation committee or our board of directors. Certain of these at-will employment agreements and offers with our named executive officers provided for certain payments and benefits in the event of a qualifying termination of employment, however, such terms have been superseded by severance and change in control agreements, as described below.

Thomas G. Wiggins. On August 18, 2010, we entered into an at-will employment agreement with Mr. Wiggins in connection with his appointment as our chief executive officer, which we subsequently amended and restated on August 4, 2011. The terms and conditions of his amended employment agreement provided for an annual base salary, subject to adjustment from time to time, eligibility for certain equity awards and eligibility for an annual bonus, health insurance and other employee benefits as we establish for our employees from time to time. Additionally, Mr. Wiggins' employment agreement included certain terms relating to severance benefits in the event of termination of employment without cause or in connection with a change in control transaction, which were superseded by the terms of a severance and change in control agreement entered into in September 2014, as described below.

Andrew L. Guggenlime. On April 24, 2014, we entered into an at-will employment offer letter with Mr. Guggenlime in connection with his appointment as our chief operating officer and chief financial officer. The terms and conditions of his employment offer letter provided for an annual base salary, subject to adjustment from time to time, eligibility for certain equity awards and eligibility for an annual bonus, health insurance and other employee benefits as we establish for our employees from time to time. Additionally, Mr. Guggenlime's employment offer letter included certain terms relating to severance benefits in the event of termination of

employment without cause or in connection with a change in control transaction, which were superseded by the terms of a severance and change in control agreement entered into in September 2014, as described below.

Christopher Horan. In March 2018, we entered into an at-will employment offer letter with Mr. Horan in connection with his appointment as chief technical operations officer, commencing in April 2018. The terms and conditions of Mr. Horan's employment offer letter provided for an annual base salary of \$400,000, subject to adjustment from time to time, eligibility for an annual bonus of up to 40% of base salary, the grant of an option to purchase 140,000 shares of our common stock, with a purchase price equal to the fair market value on the date of grant as approved by our board of directors, the grant of 80,000 restricted stock units with respect to our common stock and health insurance and other employee benefits as we establish for our employees from time to time. Mr. Horan's employment offer letter also provided him with a signing bonus of \$200,000, which would be repaid in certain amounts as described therein if Mr. Horan ceased employment with us prior to March 31, 2019. In satisfaction of the terms of the offer letter, Mr. Horan received an option grant to purchase 140,000 shares of our common stock and 80,000 restricted stock units with respect to our common stock in April 2018. Additionally, we entered into a severance and change in control agreement, as described below, with Mr. Horan in October 2018.

Lori Lyons-Williams. On December 5, 2016, we entered into an at-will employment offer letter with Ms. Lyons-Williams in connection with her appointment as chief commercial officer. The terms and conditions of Ms. Lyons-Williams' employment offer letter provided for an annual base salary, subject to adjustment from time to time, eligibility for an annual bonus, eligibility for certain equity awards and health insurance and other employee benefits as we establish for our employees from time to time. Ms. Lyons-Williams' employment offer letter also provided her with assistance with her relocation to the San Francisco Bay Area, including travel, hotel and meal expenses for Ms. Lyons-Williams and her family to make up to two house-hunting trips to the Bay Area, reasonable travel expenses in connection with the move to the Bay Area, expenses related to the shipment of household goods and automobiles to the Bay Area up to a maximum of \$25,000, reimbursement of closing costs and realtor fees (and other relocation incidentals) on the sale of Ms. Lyons-Williams' prior home and/or purchase of new home in the Bay Area up to a maximum of \$110,000, and temporary lodging for Ms. Lyons-Williams and her family in the Bay Area for up to a maximum of three months. Additionally, we entered into a severance and change in control agreement, as described below, with Ms. Lyons-Williams in December 2016.

Luis C. Peña. On June 1, 2011, we entered into an at-will employment offer letter with Mr. Peña in connection with his appointment as our vice president, product development, which we subsequently amended and restated on August 3, 2011 and July 17, 2012. The terms and conditions of his amended and restated employment offer letter provided for an annual base salary, subject to adjustment from time to time, and eligibility for an annual bonus, health insurance and other employee benefits as we establish for our employees from time to time. Additionally, Mr. Peña's employment offer letter included certain terms relating to severance benefits in the event of termination of employment without cause or in connection with a change in control transaction, which were superseded by the terms of a severance and change in control agreement entered into in September 2014, as described below.

Termination or Change in Control Arrangements

In September 2014, we adopted a severance and change in control policy applicable to our named executive officers and certain other employees, which superseded all previous severance and change of control arrangements we had entered into with our named executive officers. The severance and change in control agreement has a term of three years, which renews unless we provide written notice of non-renewal.

These arrangements are intended to attract and retain qualified executives who could have other job alternatives that may appear to them to be less risky absent these arrangements, particularly given the significant level of acquisition activity in our industry. All of our change of control arrangements are double trigger, meaning that severance

payments and acceleration of vesting of equity awards are not awarded upon a change of control unless, following the change of control, the executive's employment is terminated without cause or as a result of good reason, each as defined in the applicable agreement, in either case, within the period commencing three months prior to and ending 12 months following the transaction.

TABLE OF CONTENTS

We believe the structure of our double trigger change of control arrangements protects stockholder value by allowing us the opportunity to deliver an intact and motivated management team to any potential acquirer. If we did not offer any such change of control arrangements, our executives could be less motivated to pursue a potential acquisition even if such a transaction would benefit our stockholders, because of the possibility that they would lose the potential value of their unvested equity compensation or future cash compensation upon an acquisition. If we offered single trigger change of control arrangements, meaning that our executives would receive benefits upon an acquisition even if their employment was not terminated, we could become less attractive to potential acquirers, who may place significant value on retaining members of our executive team and who may perceive this goal to be undermined if executives receive acceleration payments in connection with such a transaction and would no longer be required to continue employment to earn the remainder of their equity awards. We believe the double trigger structure strikes an appropriate balance between these alternatives because it motivates our executives to both pursue transactional opportunities that would provide the greatest benefit to stockholders, and to continue providing services to the surviving company following such a transaction, increasing our value to potential acquirers and, as a result, to our stockholders.

In the event that payments made under any of our change of control arrangements would be considered parachute payments and subject to excise taxes under Section 280G of the Code, our change of control agreements provide that the executive officer will receive either (i) a reduced amount of severance benefits otherwise payable to the executive officer so that such severance benefits will not be subject to excise tax for purposes of Sections 280G and 4999 of the Code or (ii) the full amount of severance benefits to the executive officer (but with no tax gross-up), whichever produces the better after-tax result for the executive officer. We will not pay any gross-up or additional amount to the executive to offset the impact of the excise tax under 280G.

Additional details regarding our severance and change in control policy, including estimates of amounts payable in specified circumstances as of the last day of fiscal year 2018, are disclosed in the Executive Compensation—Potential Payments upon Termination or Change of Control table contained in this proxy statement.

Housing Assistance Arrangements

In June 2017, our compensation committee approved a housing assistance arrangement for Ms. Lyons-Williams to assist in her purchase of a permanent residence in the Bay Area. The housing assistance arrangement provides for gross cash payments to Ms. Lyons-Williams on the last day of each month beginning June 30, 2017 for a three-year period equal to \$10,000 monthly for the first 12-month period, \$9,000 monthly for the second 12-month period and \$8,000 monthly for the third 12-month period, in each case, subject to applicable tax withholdings. Ms. Lyons-Williams will be entitled to receive the payments so long as she remains employed with us in a full-time capacity. If she ceases to be employed with us in a full-time capacity prior to June 30, 2020 (other than pursuant to a qualifying termination during a change in control period (as defined in our standard form of severance and change in control agreement)), she will not receive any additional payments but will be entitled to keep all previous cash payments. In the event that Ms. Lyons-Williams remains employed with us in a full-time capacity until the beginning of the change in control period, then, in connection with Ms. Lyons-Williams qualifying termination during a change in control period, she will receive all remaining cash payments that have not yet been paid pursuant to the housing assistance arrangement in a cash lump-sum, which will be made on the 60th day following such qualifying termination, provided that Ms. Lyons-Williams has executed a general release (as provided in the severance and change in control agreement) and any rescission period applicable to the executed general release has expired.

Other Employee Benefits

Executive officers are eligible to participate in all of our employee benefit plans, such as medical, dental, vision, group life, disability, accidental death and dismemberment insurance and our 401(k) plan, in each case on the same

basis as other employees, subject to applicable law. We also provide vacation and other paid holidays to all employees, including our executive officers, which we believe are comparable to those provided at peer companies. We do not provide perquisites or other personal benefits to our executive officers, including our named executive officers, except reimbursement of relocation costs in connection with recruitment, as applicable.

TABLE OF CONTENTS

Other Compensation Policies and Tax and Accounting Considerations

Derivatives Trading and Hedging Policy. Our insider trading policy prohibits the use of puts, calls and shorts related to our shares by our directors, officers and employees.

Deductibility of Executive Compensation. Section 162(m) of the Code generally disallows public companies a tax deduction for federal income tax purposes of remuneration in excess of \$1 million paid to certain executive officers. While our Compensation Committee considers the deductibility of awards as one factor in determining executive compensation, our Compensation Committee also looks at other factors in making its decisions, as noted above, and retains the flexibility to award compensation that it determines to be consistent with the goals of our executive compensation program even if the awards are not deductible by us for tax purposes.

Recent changes to Section 162(m) in connection with the passage of the Tax Cuts and Jobs Act repealed exceptions to the deductibility limit that were previously available for qualified performance-based compensation, including stock option grants, effective for taxable years after December 31, 2017. As a result, any compensation paid to certain of our executive officers in excess of \$1 million will be non-deductible unless it qualifies for transition relief afforded to compensation payable pursuant to certain binding arrangements in effect on November 2, 2017. We believe that compensation expense incurred in respect of our stock options granted prior to November 2, 2017 will continue to be deductible pursuant to this transition rule. However, because of uncertainties in the interpretation and implementation of the changes to Section 162(m), including the scope of the transition relief, we can offer no assurance of such deductibility.

No Gross-ups of Parachute Payments and Deferred Compensation. We did not provide any executive officer, including any named executive officer, with a gross-up or other reimbursement payment for any tax liability that he or she might owe as a result of the application of Sections 280G, 4999 or 409A of the Code during the year ended December 31, 2018, and we have not agreed and are not otherwise obligated to provide any named executive officers with such a gross-up or other reimbursement.

Rule 10b5-1 Sales Plans. Certain of our directors and executive officers have adopted written plans, known as Rule 10b5-1 plans, in which they have contracted with a broker to buy or sell shares of our common stock on a periodic basis. Under a Rule 10b5-1 plan, a broker executes trades pursuant to parameters established by the director or officer when entering into the plan, without further direction from the director or officer. The director or officer may amend or terminate the plan in some circumstances. The adoption, amendment, termination and certain other actions with respect to Rule 10b5-1 plans must comply with the terms of our Insider Trading Policy.

Accounting for Stock-Based Compensation. The compensation committee takes accounting considerations into account in designing compensation plans and arrangements for our executive officers and other employees. Chief among these is Financial Accounting Standards Board Accounting Standards Codification Topic 718 (ASC Topic 718), the standard which governs the accounting treatment of certain stock-based compensation. Among other things, ASC Topic 718 requires us to record a compensation expense in our income statement for all equity awards granted to our executive officers and other employees. This compensation expense is based on the grant date fair value of the equity award and, in most cases, will be recognized ratably over the award's requisite service period (which, generally, will correspond to the award's vesting schedule). This compensation expense is also reported in the compensation tables below, even though recipients may never realize any value from their equity awards.

Risk Considerations

Our compensation committee has discussed the concept of risk as it relates to our compensation programs, including our executive compensation program, and our compensation committee does not believe that our compensation

programs encourage excessive or inappropriate risk taking. As described in further detail in this Compensation Discussion and Analysis, we structure our pay to consist of both fixed and variable compensation. In 2018, the compensation committee and management considered whether our compensation programs for employees created incentives for employees to take excessive or unreasonable risks that could materially harm our company. The compensation committee believes that our compensation plans are typical for companies in our industry and that the risks arising from our compensation policies and practices are not reasonably likely to have a material adverse effect on the company.

REPORT OF THE COMPENSATION COMMITTEE

The information contained in the following report of our compensation committee is not considered to be soliciting material, filed or incorporated by reference in any past or future filing by us under the Securities Exchange Act of 1934, as amended, or the Securities Act of 1933, as amended, unless and only to the extent that we specifically incorporate it by reference.

The compensation committee oversees our compensation policies, plans and benefit programs. The compensation committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based on such review and discussions, the compensation committee has recommended to the board of directors that the Compensation Discussion and Analysis be included in this proxy statement.

The amounts reported in the Option Awards and Stock Awards columns represent the grant date fair value of the equity awards granted to the named executive officers during the applicable year ended as computed in accordance with ASC 718. The assumptions used in calculating the grant date fair value of the awards are set

(2) forth in Notes 2 and 9 to the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2018. Note that the amounts reported in these columns reflect the accounting cost for these equity awards and do not correspond to the actual economic value that may be received by our named executive officers from the equity awards.

(3) The amounts reported in the Non-Equity Incentive Plan Compensation column for 2018 represent bonuses earned by our named executive officers under the 2018 cash incentive bonus plan approved by our compensation committee for the year ended December 31, 2018. Payments in Connection with a Termination or Change in Control

As discussed above, we have adopted a severance and change in control policy applicable to our named executive officers and certain other employees, which superseded all previous severance and change of control arrangements we had entered into with our named executive officers. The severance and change in control agreement has a term of three years, which renews unless we provide written notice of non-renewal. The potential payouts upon termination and termination in connection with a change in control include the following terms:

Termination. If we terminate the employment of a named executive officer without cause (as defined in the severance and change in control agreement), or such named executive officer resigns for good reason (as defined in the severance and change in control agreement), and such named executive officer has executed a general release of claims in a form prescribed by us, such named executive officer would be entitled to:

- severance in the amount of 12 months of his then current annual base salary for Mr. Wiggans and nine months of their then current annual base salary for each of the other named executive officers, paid in accordance with our standard payroll procedures; and
- if such named executive officer has elected to continue his or her health insurance coverage, the monthly benefits premium under COBRA for 12 months for Mr. Wiggans and for nine months for each of the other named executive officers.

Termination in Connection with a Change of Control. If, three months prior to a change in control (as defined in the severance and change in control agreement) or 12 months following a change of control, we terminate a named executive officer's employment without cause or such named executive officer resigns for good reason, and such named executive officer has executed a general release of claims in a form prescribed by us, such named executive officer would be entitled to:

- severance in the amount of (1) 18 months of his then current annual base salary for Mr. Wiggans and 15 months of his or her then current annual base salary for each of the other named executive officers, and (2) 150% of the annual target bonus for Mr. Wiggans and 125% of the annual target bonuses for each of the other named executive officers, in each case paid in a lump sum in accordance with our standard payroll procedures;
- if such named executive officer has elected to continue his or her health insurance coverage, the monthly benefits premium under COBRA for 18 months for Mr. Wiggans and for 15 months for each of the other named executive officers; and
- the shares underlying all unvested equity awards held by each such named executive officer immediately prior to such termination will become 100% vested and exercisable.

In addition, if three months prior to a change in control (as defined in the severance and change in control agreement) or 12 months following a change of control, we terminate Ms. Lyons-Williams' employment without cause or she resigns for good reason, and she has executed a general release of claims in a form prescribed by us she would be entitled to all then-remaining cash payments that have not yet been paid pursuant to the housing assistance arrangement approved by our compensation committee in June 2017, as discussed above.

TABLE OF CONTENTS

The table below presents estimated payments and benefits that would have been provided to each of our named executive officers assuming their respective qualifying terminations as of December 31, 2018:

| Luis C. Peña <i>Chief Development Officer</i> | 306,878 | 23,586 | 716,048 | 39,311 | 484,908 |

We estimate the value of the acceleration of options and RSUs held by the named executive officer based on the closing stock price of our common stock of \$7.19 per share on December 31, 2018 (the last trading day in 2018),

(1) as reported on The Nasdaq Global Select Market, the number of unvested RSUs as of December 31, 2018 and the number of unvested options held by such named executive officer as of December 31, 2018 with an exercise price below the closing stock price of our common stock on December 31, 2018.

(2) Cash severance amounts are based on annual base salary of \$400,000.

Chief Executive Officer Pay Ratio

Pursuant to Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K (Item 402(u)), we are required to disclose the ratio of our principal executive officer's annual total compensation to the annual total compensation of our median employee. As disclosed in the Summary Compensation Table, the 2018 annual total compensation for our chief executive officer was \$4,371,178. The median of the 2018 annual total compensation for all our employees was \$212,539. Accordingly, our ratio of the 2018 annual total compensation of our chief executive to the median of the 2018 annual total compensation of all our employees (excluding our chief executive officer) is 21 to 1. We believe this ratio, which was calculated in a manner consistent with Item 402(u), to be a reasonable estimate, based upon the assumptions and adjustments described below.

Identifying the Median Employee. We recalculated our median employee for 2018 given the significant growth in our employee population to support our commercial launch of QBREXZA. We identified our median employee, taking into account all 320 individuals, excluding our chief executive officer, who were employed by us on a worldwide basis as of December 31, 2018 (the employee population determination date), whether employed on a full-time, part-time, seasonal or temporary basis, including employees on a partial year leave of absence. We did not include any contractors or other non-employee workers in our employee population.

Compensation Measures and Methodology. The compensation measures used for purposes of identifying the median employee included cash compensation paid between January 1, 2018 and December 31, 2018 and the grant date fair value of equity awards granted between January 1, 2018 and December 31, 2018. Cash compensation included, as applicable, salary or wages plus overtime and payments under our annual incentive bonus plan with respect to the

2018 performance period that were paid in 2019. Equity awards included all new hire and refresh equity awards granted in 2018. For employees paid other than in U.S. dollars, we converted their compensation to U.S. dollars using foreign exchange rates in effect on the employee population determination date. For permanent employees hired during 2018, we annualized their base salary or wages as if they had been employed for the entire measurement period. We did not make any cost-of-living adjustments for employees outside of the United States.

Using this methodology, we identified two individuals at the median (because there was an even number of employees as of the determination date) but both were considered anomalous, as one was a 2018 hire that did not work the full year, and the other received an extraordinary equity grant during 2018. As a result, we

TABLE OF CONTENTS

exercised discretion permitted by the rule to identify a different employee near the median, whose compensation was closest to the estimated median compensation, based on the methodology identified above. We then calculated the annual total compensation for this individual using the same methodology we use to calculate the amount reported for our chief executive officer as set forth in the 2018 Summary Compensation Table as set forth in this proxy statement.

Because SEC rules for identifying the median of the annual total compensation of all employees allow companies to adopt a variety of methodologies, apply certain exclusions, and make reasonable estimates and assumptions that reflect their employee population and compensation practices, the pay ratio reported by other companies may not be comparable to our pay ratio, as other companies have different employee populations and compensation practices and may have used different methodologies, exclusions, estimates and assumptions in calculating their pay ratios. As explained by the SEC when it adopted these rules, the rule was not designed to facilitate comparisons of pay ratios among different companies, even companies within the same industry, but rather to allow stockholders to better understand and assess each particular company's compensation practices and pay ratio disclosures.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Review, Approval or Ratification of Transactions with Related Parties

Our board of directors has adopted a written related party transactions policy. Under this policy, the audit committee reviews transactions that may be related person transactions, which are transactions between us and related persons in which the aggregate amount involved exceeds or may be expected to exceed \$120,000 and in which a related person has or will have a direct or indirect material interest. Additionally, on an annual basis, the audit committee reviews previously approved or ratified related party transactions that remain ongoing to determine if it is in our and our stockholders' best interests to continue, modify or terminate such transaction. For purposes of the policy, a related person is a person who is, or at any time since the beginning of our last fiscal year was, a director, executive officer or nominee for director; a beneficial owner of greater than 5% of our common stock; or a member of the immediate family of any of the foregoing. Our related-party transactions policy sets forth the procedures for the identification, review, consideration and approval of related party transactions.

Other than the compensation arrangements, including employment, severance and change in control arrangements and indemnification arrangements discussed above in the section entitled Executive Compensation, since January 1, 2018, the following is the only transaction or series of similar transactions to which we were or will be a party in which the amount involved exceeds \$120,000 and in which any director, nominee for director, executive officer, beneficial holder of more than 5% of our common stock or any member of their immediate family or any entity affiliated with any of the foregoing persons had or will have a direct or indirect material interest.

MyHealthTeams Agreement

In September 2017, we entered into a service agreement (the MHT Agreement) with MyHealthTeams, Inc. (MHT) pursuant to which we agreed to pay MHT fees of approximately \$500,000 for services relating to our hyperhidrosis disease state awareness campaign (the MHT Transaction). We incurred approximately \$250,000 in fees payable to MHT under the terms of the MHT Agreement in 2017. The MHT Agreement was terminated in December 2018. Mark McDade, a member of our board of directors, currently serves as a member of the MHT board of directors and as a managing partner of Qiming Venture Capital US, which owns more than 5% of MHT's outstanding capital stock. Our audit committee reviewed and approved the MHT Transaction pursuant to the terms of our related party transactions policy.
