PROXY STATEMENT

FOR THE 2005 ANNUAL MEETING OF STOCKHOLDERS

General

MCF Corporation, a Delaware corporation, is soliciting this proxy on behalf of its Board of Directors to be voted at the 2005 annual meeting of stockholders to be held on Friday, May 6, 2005, at 1:30 p.m., Pacific standard time, or at any adjournment or postponement thereof. The 2005 annual meeting of stockholders will be held at Merriman Curhan Ford & Co., headquarters, 600 California Street, 9th Floor, San Francisco, California 94108.

Method of Proxy Solicitation

These proxy solicitation materials were mailed on or about April 8, 2005 to all stockholders entitled to vote at the meeting. MCF will pay the cost of soliciting these proxies. These costs include the expenses of preparing and mailing proxy materials for the annual meeting and reimbursement paid to brokerage firms and others for their expenses incurred in forwarding the proxy materials. Directors, officers and employees of MCF may also solicit proxies without additional compensation.

Voting of Proxies

Your shares will be voted as you direct on your signed proxy card. If you do not specify on your proxy card how you want to vote your shares, we will vote signed returned proxies:

- FOR the election of the Board's nine nominees for director; and
- FOR the approval of the addition of shares of common stock to the 2003 MCF Corporation Stock Option and Incentive Plan.

We do not know of any other business that may be presented at the annual meeting. If a proposal other than those listed in the notice is presented at the annual meeting, your signed proxy card gives authority to the persons named in the proxy to vote your shares on such matters in their discretion.

Required Vote

Record holders of shares of MCF Corporation's common stock at the close of business on April 5, 2005, the voting record date, may vote at the meeting with respect to the election of nine directors and approval of the addition of shares of common stock to the 2003 MCF Corporation stock Option and Incentive Plan. Each share of common stock outstanding on the record date has one vote. At the close of business on April 5, 2005, there were 70,244,689 shares of common stock issued and outstanding.

MCF's bylaws provide that a majority of the shares entitled to vote, represented in person or by proxy, constitutes a quorum for transaction of business. Assuming the presence of a quorum at the annual meeting, the vote of the holders of at least a majority of the stock having voting power present in person or represented by proxy is required to elect the nine directors and approve the addition of shares of common stock to the 2003 MCF Corporation stock Option and Incentive Plan. An automated system administered by MCF's transfer agent will tabulate the votes. Each is tabulated separately. Abstentions and broker non-votes are counted as present for purposes of establishing a quorum. Broker non-votes, however, will not be considered as part of the voting power present or represented at the annual meeting for purposes of any matter voted on at the meeting.

Revocability of Proxies

You may revoke your proxy by giving written notice to the Secretary of MCF Corporation or by delivering a later proxy to the Secretary, either of which must be received prior to the annual meeting, or by attending the meeting and voting in person.

PROPOSAL 1: ELECTION OF DIRECTORS

The Board of Directors has nominated nine directors for election at the 2005 annual meeting. If you elect them, they will hold office until the next annual meeting, until their respective successors are duly elected and qualified or until their earlier resignation or removal. Cumulative voting is not permitted. Unless you specify otherwise, your returned signed proxy will be voted in favor of each of the Board's nominees. In the event a nominee is unable to serve, your proxy may vote for another person nominated by the Board. The Board of Directors has no reason to believe that any of the nominees will be unavailable.

Vote Required

The affirmative vote of the holders of at least a majority of the stock having voting power present in person or represented by proxy is required to elect the nine nominees of the Board as directors.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE “FOR” EACH OF THE BOARD’S NOMINEES LISTED BELOW.

Board Meetings and Committees

In 2004, the Board of Directors held four regular meetings of the Board and one special meeting. During 2004, no incumbent director attended fewer than 75% of the aggregate of (a) the total number of meetings of the Board of Directors held during the period for which he has been a director and (b) the total number of meetings held by all committees of the Board of Directors on which he served during the period that he served. MCF has the following Board committees:

Audit Committee. The principal functions of the Audit Committee are to engage our independent accounting firm, to consult with our auditors concerning the scope of the audit and to review with them the results of their examination, to approve the services performed by the independent auditors, to review and approve any material accounting policy changes affecting our operating results and to review our financial control procedures and personnel. The following Board members served as Audit Committee members during 2004: Patrick Arbor, Raymond Minehan and Dennis Schmal. Mr. Schmal serves as the Chairman of the Audit Committee and is a Financial Expert in satisfaction of the Sarbanes-Oxley and the American Stock Exchange requirements. Raymond Minehan has also been identified as a Financial Expert. The Audit Committee held eight meetings in 2004. The Audit Committee approves the engagement of and the services to be performed by the Company's independent accountants and reviews the Company's accounting principles and its system of internal accounting controls. The Board has determined that all members of the Audit Committee are "independent" as that term is defined in Rule 121(A) of the listing standards of the American Stock Exchange.

The Audit Committee is committed to upholding the highest legal and ethical conduct in fulfilling its responsibilities and expects the Company's directors, as well as its officers and employees, to act ethically at all times and to acknowledge their adherence to the Company's policies. The Company's Board of Directors has adopted a written charter for the Audit Committee.

Compensation Committee. The Compensation Committee of the Board of Directors has exclusive authority to establish the level of compensation paid to the Company's executive officers and certain employees and administers the Company's stock option plans. The following Board members served as Compensation Committee members during 2003: Donald Sledge, Steve Town, Jon Merriman and Ray Minehan. Mr. Sledge serves as the Chairman of the Committee. Mr. Merriman was appointed to the Committee in March 2003 and recuses himself from participation regarding his personal compensation. The Compensation Committee held four meetings in 2004.

To date, the Company has not established a nominating committee, and director nominations have been considered by the Board as a whole. Given the relatively small size of the Board of Directors, the Board has not encountered administrative difficulties with this arrangement, and has felt that the advice and counsel of all of its members was of value in considering Board nominations.

Stockholder Communications with the Board of Directors. Stockholders interested in communicating with our Board of Directors may do so by writing to our General Counsel, Christopher Aguilar, at 600 California Street, 9th Floor, San Francisco, CA 94108. Our General Counsel will review all stockholder communications. Those that appear to contain subject matter reasonably related to matters within the purview of our Board of Directors will be forwarded to the entire Board or the individual Board member to whom the communication was addressed. Obscene, threatening or harassing communications will not be forwarded. We encourage the members of our Board to attend our annual meeting of stockholders, although attendance is not mandatory. All of our outside directors attended the 2004 annual meeting of stockholders.

AUDIT COMMITTEE REPORT

The information contained in this report shall not be deemed to be “soliciting material” or “filed” or incorporated by reference in future filings with the Securities and Exchange Commission, or subject to the liabilities of Section 18 of the Securities Exchange Act of 1934, except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933, as amended, or Securities Exchange Act of 1934, as amended.

The Audit Committee reviews our financial reporting process on behalf of the Board of Directors. In fulfilling its responsibilities, the Audit Committee has reviewed and discussed the audited financial statements contained in the 2004 Annual Report on Form 10-K with MCF’s management and the independent auditors. Management is responsible for the financial statements and the reporting process, including the system of internal controls. The independent auditors are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles.

The Audit Committee discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended. The audit committee has also received written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1 Independence Discussions with Audit Committees (which relates to the accountant’s independence from the Company and its related entities) and has discussed with the independent auditors their independence from the Company.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the board the inclusion of the audited financial statements in MCF’s 2004 Annual Report on Form 10-K for filing with the Securities and Exchange Commission.

EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT AND CHANGE IN CONTROL AGREEMENTS

Donald H. Sledge

Mr. Sledge's employment agreement provided for him to serve as Chairman and Chief Executive Officer of Rateexchange Corporation, now known as MCF Corporation with an annual base salary of \$300,000, an annual incentive bonus of up to 50% of base salary, a 10% interest in the subsidiary Rateexchange I, Inc., an expense reimbursement and other employee benefits. Under this agreement, Mr. Sledge's employment could be terminated for cause or upon death or disability so long as we paid all compensation owed as of the date of termination. Mr. Sledge's employment could be terminated without cause if we pay him severance pay equal to one year's annual salary and a bonus payment of \$150,000. In October 2000, Mr. Sledge resigned as Chief Executive Officer, but continued to serve as Chairman at a salary of \$120,000 per year until May of 2001. Upon his leaving our company in May 2001, we issued to Mr. Sledge a 7% convertible note, in an aggregate principal amount of \$400,000, due April 2003 as consideration for the severance terms in his employment agreement. Interest is payable at the maturity of the two-year term. The notes may be converted into shares of MCF's common stock on election of Mr. Sledge anytime before their maturity or their prior repurchase by the Company. The conversion rate is 364 shares per each \$1,000 principal amount of notes, subject to adjustment in certain circumstances. In March 2003, we modified the terms of the note payable to Mr. Sledge. The parties have agreed to convert the principle and interest due at the April 2003 maturity into a fully amortizing note payable over five years using an effective interest rate of 4.0%.

D. Jonathan Merriman

In connection with Mr. Merriman's appointment as our President and Chief Executive Officer, we entered into a three year employment agreement with Mr. Merriman during October 2000. His initial annual salary under his employment agreement was \$300,000. The agreement also included a \$200,000 bonus paid to him on January 2, 2001, expense reimbursement and other employee benefits. Effective March 15, 2001, Mr. Merriman reduced his annual salary to \$1.00, plus a bonus tied to performance. Mr. Merriman's salary was raised to \$150,000 per year after our company secured private financing. Effective May 28, 2001, Mr. Merriman was appointed Chairman of the Board and resigned his position as President of MCF Corporation. The Board ratified his appointment on June 28, 2001. In July 2002, Mr. Merriman's salary was changed to be in line with other revenue producing registered representatives of the Company such that his annual base salary is equal to \$75,000 and he receives a draw of \$75,000 per year. Mr. Merriman is also able to earn commissions based upon investment banking and trading business.

Under his employment agreement, Mr. Merriman has been awarded ten-year stock options, which are incentive options to the extent permissible under Section 422 of the Internal Revenue Code of 1986, as amended, to purchase a total of 2,000,000 shares of our common stock at an exercise price of \$3.19 per share. As of December 31, 2003, stock options to purchase 1,250,000 shares were vested. The remaining options to purchase 750,000 shares will vest as follows:

- Options to purchase 500,000 shares vested on January 1, 2005;
- Options to purchase 250,000 shares vesting on January 1, 2006, subject to acceleration of vesting immediately after the common stock has traded on AMEX at a price of \$7.00 per share or more for 30 consecutive trading days, subject, in either case, to continued employment on such date.

The vesting of the stock options will accelerate, and Mr. Merriman will additionally be entitled to receive a payment of \$1.0 million from MCF, upon:

- A sale of all or substantially all of our assets;

- A merger of our company with another entity where we are not the surviving entity or where our stockholders immediately prior to the merger own less than 50% of our voting stock following the merger; or
- A change in the membership of the Board of Directors such that individuals who, as of October 5, 2000, constituted our Board of Directors cease for any reason to constitute at least a majority of the Board of Directors; provided that any individual becoming a director subsequent to October 5, 2000 whose election, or nomination for election by our stockholders, was approved by a vote of at least a majority of the directors then comprising the incumbent Board shall be considered as though the individual were a member of the incumbent Board, but excluding, for this purpose, any individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a person other than our Board of Directors.

Under Mr. Merriman's employment agreement, Mr. Merriman's employment may be terminated for cause or upon death or disability so long as we pay all compensation owed as of the date of termination. Mr. Merriman's employment agreement may be terminated by us without cause if we pay to Mr. Merriman his base salary for twelve months following termination, any bonus that had been earned but not paid at the time of termination and all other benefits and compensation he would have been entitled to receive under the agreement had his employment not been terminated. All stock options granted to him under his employment also would immediately vest. Mr. Merriman would be entitled to receive the same payments and acceleration of the vesting of his options if he were to terminate his employment for "good reason," as that term is defined in his employment agreement.

During October 2003, the Compensation Committee approved a three month extension of Mr. Merriman's employment agreement. On January 1, 2004, Mr. Merriman entered into a new three year employment contract with MCF Corporation. A copy of this agreement is included as an exhibit to the Company's Quarterly Report on Form 10-Q filed on August 4, 2004. Under the terms of that agreement Mr. Merriman receives a base salary of \$150,000 and a bonus calculated by the following formula:

- (a) Gross revenue multiplied by 0.50% (one half of one percent), payable quarterly;
- (b) Incremental revenue in 2005 that exceeds revenue in 2004 multiplied by 0.95% (ninety five one hundredth of one percent), payable quarterly. This is calculated monthly on a cumulative year-to-date basis using total revenue in 2004 divided by twelve months. This component can either be \$0 or a positive number. If cumulative 2005 revenue does not exceed cumulative 2004 revenue, this executive bonus component will be \$0 and not a reduction to the overall executive bonus amount;
- (c) Incremental revenue in 2005 that exceeds revenue in 2004 multiplied by 0.95% (ninety five one hundredth of one percent), payable annually. This component can either be \$0 or a positive number. If 2005 revenue does not exceed 2004 revenue, this executive bonus component will be \$0 and not a reduction to the overall executive bonus amount; and
- (d) Earnings before interest, taxes, depreciation and amortization (EBITDA) multiplied by 2.50%, payable annually. This component can either be \$0 or a positive number. If 2005 EBITDA is a negative amount, this executive bonus component will be \$0 and not a reduction to the overall executive bonus amount.

During the term of this Agreement, upon (i) a sale of all or substantially all of the assets of the Company, (ii) a merger of the Company with another entity where the Company is not the surviving entity or where the stockholders of the Company immediately prior to the merger own less than fifty percent (50%) of the voting stock of the Company following the merger, or (iii) a change in the membership of the Board of Directors such that individuals who, as of January 1, 2004 constitute the Board of Directors (the "Incumbent Board") cease for any reason to constitute at least a majority of the Board of Directors; provided, however, that any individual becoming a director subsequent to the date hereof whose election, or nomination for election by the Company's shareholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board shall be considered as though the individual were a member of the Incumbent Board, but excluding, for this purpose, any individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a person other than the Company's Board of Directors, the Executive shall receive \$1,000,000 from the Company and all of the Executive's options that have been granted pursuant to the terms set forth in this Agreement shall vest immediately.

In the case of (i) any termination other than "termination for cause," or (ii) any termination by the Executive for "Good Reason" as defined below, Mr. Merriman shall continue to receive for twelve months, commencing on the date of such termination, his full base salary, any bonus that has been earned but not paid before termination of employment; and all other benefits and compensation that he would have been entitled to under the agreement in the absence of termination of employment; provided, further, that all of Mr. Merriman's options that have been granted pursuant to the terms set forth in the agreement shall vest immediately upon such termination.

Gregory S. Curhan

Mr. Gregory S. Curhan joined our company on January 9, 2002 as our Executive Vice President and Chief Financial Officer. On January 9, 2002, Mr. Curhan entered into an employment contract with Ratemax Corporation, now known as MCF Corporation. His initial salary under his employment agreement was equal to \$125,000. The agreement also included a \$50,000 bonus authorized upon signing the employment agreement. The bonus was earned in three equal payments based upon Mr. Curhan's achievement of specific performance milestones as defined in the

employment contract. Under his employment agreement, Mr. Curhan has been awarded ten-year stock options, which are incentive options to the extent permissible under Section 422 of the Internal Revenue Code of 1986, as amended, to purchase a total of 1,000,000 shares of our common stock at an exercise price of \$0.53 per share, as follows:

- An option grant to purchase 450,000 shares of common stock, that will vest 25% on the first anniversary of Mr. Curhan's employment and the remainder vesting 1/36th per month over the following three years, and
- An option grant to purchase 550,000 shares of common stock that will vest on January 1, 2007. The vesting of the shares in this grant will be accelerated in three equal sums upon the Company achieving specific financial performance milestones linked to profitability and share price, described in the employment agreement.

The vesting of Mr. Curhan's stock options will accelerate upon:

- A sale of all or substantially all of our assets;
- A merger of our company with another entity where we are not the surviving entity or where our stockholders immediately prior to the merger own less than 50% of our voting stock following the merger; or
- A change in the membership of the Board of Directors such that individuals who, as of January 9, 2002, constitute our Board of Directors cease for any reason to constitute at least a majority of the Board of Directors; provided that any individual becoming a director subsequent to January 9, 2002 whose election, or nomination for election by our stockholders, was approved by a vote of at least a majority of the directors then comprising the incumbent Board shall be considered as though the individual were a member of the incumbent Board, but excluding, for this purpose, any individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a person other than our Board of Directors.

Upon such change of control one half of Mr. Curhan's options granted shall vest, unless one half have already vested, in which case one half of the then remaining options will vest.

Under Mr. Curhan's employment agreement, Mr. Curhan's employment may be terminated for cause or upon death or disability so long as we pay all compensation owed as of the date of termination. Mr. Curhan's employment agreement may be terminated by us without cause if we pay to Mr. Curhan his base salary for six months following termination, any bonus that had been earned but not paid at the time of termination and all other benefits and compensation he would have been entitled to receive under the agreement had his employment not been terminated. Mr. Curhan would be entitled to receive the same payments and acceleration of the vesting of his options if he were to terminate his employment for "good reason," as that term is defined in his employment agreement.

On January 1, 2005, Mr. Curhan entered into a new two year employment contract with MCF Corporation. A copy of this agreement will be included as an exhibit to the Company's Quarterly Report on Form 10-Q to be filed on or about May 5, 2005. Under the terms of that agreement Mr. Curhan receives a base salary of \$150,000 and a bonus calculated by the following formula:

- (a) Gross revenue multiplied by 0.50% (one half of one percent), payable quarterly;
- (b) Incremental revenue in 2005 that exceeds revenue in 2004 multiplied by 0.85% (eighty five one hundredth of one percent), payable quarterly. This is calculated monthly on a cumulative year-to-date basis using total revenue in 2004

divided by twelve months. This component can either be \$0 or a positive number. If cumulative 2005 revenue does not exceed cumulative 2004 revenue, this executive bonus component will be \$0 and not a reduction to the overall executive bonus amount;

(c) Incremental revenue in 2005 that exceeds revenue in 2004 multiplied by 0.85% (eighty five one hundredth of one percent), payable annually. This component can either be \$0 or a positive number. If 2005 revenue does not exceed 2004 revenue, this executive bonus component will be \$0 and not a reduction to the overall executive bonus amount; and

(d) Earnings before interest, taxes, depreciation and amortization (EBITDA) multiplied by 2.50%, payable annually. This component can either be \$0 or a positive number. If 2005 EBITDA is a negative amount, this executive bonus component will be \$0 and not a reduction to the overall executive bonus amount.

During the term of this Agreement, upon (i) a sale of all or substantially all of the assets of the Company, (ii) a merger of the Company with another entity where the Company is not the surviving entity or where the stockholders of the Company immediately prior to the merger own less than fifty percent (50%) of the voting stock of the Company following the merger, or (iii) a change in the membership of the Board of Directors such that individuals who, as of January 1, 2005 constitute the Board of Directors (the "Incumbent Board") cease for any reason to constitute at least a majority of the Board of Directors; provided, however, that any individual becoming a director subsequent to the date hereof whose election, or nomination for election by the Company's shareholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board shall be considered as though the individual were a member of the Incumbent Board, but excluding, for this purpose, any individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a person other than the Company's Board of Directors, the Executive shall receive \$500,000 from the Company and all of the Executive's options that have been granted pursuant to the terms set forth in this Agreement shall vest immediately.

In the case of (i) any termination other than "termination for cause," or (ii) any termination by the Executive for "Good Reason" as defined below, Mr. Curhan shall continue to receive for six months, commencing on the date of such termination, his full base salary, any bonus that has been earned but not paid before termination of employment; and all other benefits and compensation that he would have been entitled to under the agreement in the absence of termination of employment; provided, further, that all of Mr. Curhan's options that have been granted pursuant to the terms set forth in the agreement shall vest immediately upon such termination.

Robert E. Ford

Mr. Robert E. Ford joined our company on February 19, 2001 as our Chief Operating Officer. On June 28, 2001, Mr. Ford was appointed President of Ratexchange Corporation, now known as MCF Corporation, by the Board of Directors in addition to his role as Chief Operating Officer. On January 1, 2002, Mr. Ford entered into a three year employment contract with us. His initial annual salary under his employment agreement was \$125,000, which shall be increased under the terms of the agreement to \$175,000 annually. Mr. Ford's salary will be increased upon the Company meeting specific performance milestones related to profitability and shares price. The agreement also included a \$145,000 bonus paid to him upon signing his agreement. The bonus was paid \$45,000 in cash, tied to salary deferred for fiscal year 2001, and a stock option grant to purchase 270,270 shares of the Company's common stock which number of shares were determined by dividing \$100,000 by the closing price of the Company's stock on the day the agreement was signed. The exercise price of the ten-year bonus option grant shares is \$0.62. Mr. Ford was also granted ten-year stock options, which are incentive options to the extent permissible under Section 422 of the Internal Revenue Code of 1986, as amended, to purchase a total of 400,000 shares of our common stock at an exercise price equal to the closing price of our Private Placement financing of November 2001, equal to \$0.37. These shares were awarded in three grants by the Board of Directors. The first grant of 100,000 shares vested on the date of the agreement, January 1, 2002. The second grant of 100,000 shares vested on the first anniversary of the signing of the

agreement. The third grant of 200,000 shares vests at a rate of 1/24th per month over the remaining two years following the first anniversary of the agreement, subject to continued employment.

The vesting of the stock options will accelerate, and Mr. Ford will additionally be entitled to receive a payment of \$500,000 from the Company, upon:

- A sale of all or substantially all of our assets;
- A merger of our company with another entity where we are not the surviving entity or where our stockholders immediately prior to the merger own less than 50% of our voting stock following the merger; or
- A change in the membership of the Board of Directors such that individuals who, as of January 1, 2002, constitute our Board of Directors cease for any reason to constitute at least a majority of the Board of Directors; provided that any individual becoming a director subsequent to January 1, 2002 whose election, or nomination for election by our stockholders, was approved by a vote of at least a majority of the directors then comprising the incumbent Board shall be considered as though the individual were a member of the incumbent Board, but excluding, for this purpose, any individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a person other than our Board of Directors.

Under Mr. Ford's employment agreement, Mr. Ford's employment may be terminated for cause or upon death or disability so long as we pay all compensation owed as of the date of termination. Mr. Ford's employment agreement may be terminated by us without cause if we pay to Mr. Ford his base salary for six months following termination, any bonus that had been earned but not paid at the time of termination, a lump sum payment of 50% of his full salary and all other benefits and compensation he would have been entitled to receive under the agreement had his employment not been terminated. Mr. Ford would be entitled to receive the same payments and acceleration of the vesting of his options if he were to terminate his employment for "good reason," as that term is defined in his employment agreement.

On January 1, 2005, Mr. Ford entered into a new two year employment contract with MCF Corporation. A copy of this agreement will be included as an exhibit to the Company's Quarterly Report on Form 10-Q to be filed on or about May 5, 2005. Under the terms of that agreement Mr. Ford receives a base salary of \$150,000 and a bonus calculated by the following formula:

- (a) Gross revenue multiplied by 0.50% (one half of one percent), payable quarterly;
- (b) Incremental revenue in 2005 that exceeds revenue in 2004 multiplied by 0.20% (two tenths of one percent), payable quarterly. This is calculated monthly on a cumulative year-to-date basis using total revenue in 2004 divided by twelve months. This component can either be \$0 or a positive number. If cumulative 2005 revenue does not exceed cumulative 2004 revenue, this executive bonus component will be \$0 and not a reduction to the overall executive bonus amount;
- (c) Incremental revenue in 2005 that exceeds revenue in 2004 multiplied by 0.20% (two tenths of one percent), payable annually. This component can either be \$0 or a positive number. If 2005 revenue does not exceed 2004 revenue, this executive bonus component will be \$0 and not a reduction to the overall executive bonus amount; and
- (d) Earnings before interest, taxes, depreciation and amortization (EBITDA) multiplied by 2.50%, payable annually. This component can either be \$0 or a positive number. If 2005 EBITDA is a negative amount, this executive bonus component will be \$0 and not a reduction to the overall executive bonus amount.

During the term of this Agreement, upon (i) a sale of all or substantially all of the assets of the Company, (ii) a merger of the Company with another entity where the Company is not the surviving entity or where the stockholders of the Company immediately prior to the merger own less than fifty percent (50%) of the voting stock of the Company following the merger, or (iii) a change in the membership of the Board of Directors such that individuals who, as of January 1, 2005 constitute the Board of Directors (the "Incumbent Board") cease for any reason to constitute at least a majority of the Board of Directors; provided, however, that any individual becoming a director subsequent to the date hereof whose election, or nomination for election by the Company's shareholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board shall be considered as though the individual were a member of the Incumbent Board, but excluding, for this purpose, any individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a person other than the Company's Board of Directors, the Executive shall receive \$500,000 from the Company and all of the Executive's options that have been granted pursuant to the terms set forth in this Agreement shall vest immediately.

In the case of (i) any termination other than "termination for cause," or (ii) any termination by the Executive for "Good Reason" as defined below, Mr. Ford shall continue to receive for six months, commencing on the date of such termination, his full base salary, any bonus that has been earned but not paid before termination of employment; and all other benefits and compensation that he would have been entitled to under the agreement in the absence of termination of employment; provided, further, that all of Mr. Ford's options that have been granted pursuant to the terms set forth in the agreement shall vest immediately upon such termination.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

During 2001, the Company renegotiated the severance terms included in its employment agreement with Donald Sledge, the former Chairman and CEO of the Company. Upon his leaving the Company in May 2001, the Company issued to Mr. Sledge a 7% convertible note, in an aggregate principal amount of \$400,000, due May 2003. Interest is payable at the maturity of the two-year term. In May 2003, the Company and Mr. Sledge agreed to convert the principal and interest due at maturity into a fully amortizing note payable over five years using an effective interest rate of 4.0%. As of December 31, 2004 and 2003, the remaining principal amount of the note payable was \$321,000 and \$407,000, respectively. Mr. Sledge is a member of the Company's Board of Directors.

BOARD COMPENSATION COMMITTEE 2004 REPORT ON EXECUTIVE COMPENSATION

General Compensation Policy

The Compensation Committee of the Board of Directors has exclusive authority to establish the level of compensation paid to the Company's executive officers and administers the Company's stock option plans. Compensation policies of the Committee are designed to attract, retain and motivate highly skilled executive officers by providing compensation that is comparable to that provided by our competitors for key personnel. It is the Committee's policy to offer executive officers competitive compensation that is based upon overall Company performance, individual contributions to the Company's financial success and the scope of responsibilities performed pursuant to particular offices.

During 2004, the Committee established modest base salaries for the executive officers and provided them with the opportunity to earn bonus compensation based on overall revenue and profitability of the Company. The Committee administers the executive compensation system through informal surveys of compensation programs of other similar companies and application of the subjective business judgment of each Committee member. In employing its discretion, the Committee principally considers for each component of an executive's compensation factors such as previous and anticipated Company performance, as well as demonstrated individual initiative and performance. The principal components of the Company's executive compensation include (a) annual base salary, (b) bonus compensation tied directly to key operating metrics, including revenue and profitability of the Company, (c) commission compensation for revenue production and (d) equity awards. Currently, we do not contribute to any retirement programs or pension plans on behalf of our executive officers.

Base Salaries

Annual base salaries for executive officers are initially determined by evaluating the scope of the responsibilities of the office and the experience and knowledge of the individual officer. A secondary consideration is the competitiveness of the marketplace for executive talent. The Committee establishes base salaries of its executives with the objective of ensuring that the salaries we offer remain competitive with those of similar companies.

In establishing the annual base salaries of our executive officers, the Company's Board of Directors specifically assessed the responsibilities of the officers, evaluated the officers' level of experience, skills and knowledge relevant to the Company's business objectives and informally reviewed the compensation for executive officers of comparable companies. The Committee believes that the annual base salaries of our executive officers are appropriate when compared to salaries paid by other companies for the same offices, and in light of both the scope of responsibilities and anticipated performance, as well as previous related work experience and level of skill and knowledge of our officers.

The Committee anticipates that it will periodically review the individual salaries of each of our executive officers. Adjustments to base salaries are made at the discretion of the Committee, which takes into consideration factors such as past and anticipated performance of the Company and the Committee's subjective perception of the individual's performance.

Commissions

During 2004, Mr. Ganeles was eligible to receive commissions based upon sales and trading business production. The commissions are determined based upon the level of revenue attributed to the sales and trading department and a standardized payout rate that has been established for the various revenue transactions. Commission levels are set based primarily upon the commissions paid by competitors of the Company. Commissions earned by Mr. Ganeles during 2004 amounted to \$492,164.

Bonuses

Executive officer bonuses are tied directly to key operating metrics, including revenue and profitability. These bonuses are based on mathematical formulas and paid to the executive officers on a quarterly basis. Bonuses earned by Mr. Merriman, Mr. Curhan and Mr. Ford during 2004 amounted to \$773,674, \$649,932 and \$291,224, respectively.

Management bonuses are designed to provide the Company with flexibility in devising incentives for exceptional performance by our management officers. Generally, cash bonus payouts are tied to achievement of company-wide performance goals. The amount of the performance bonus awarded, if any, is tied to both the level of our management's performance and that of the Company. Bonuses earned by Mr. Hiestand and Mr. Aguilar during 2004 amounted to \$100,000 and \$100,000, respectively.

Equity Awards

In granting stock options and restricted stock, the Company's goals are to attract, retain and motivate the highest caliber of executives by offering long-term compensation that links a meaningful portion of the executives' total compensation to the best interests of stockholders. Making stock options and restricted stock a significant component of executive compensation provides each executive officer with incentive to manage the Company from the perspective of an owner with an equity interest in the Company. The Committee also believes that, given the market in which the Company operates and the Company's early stage of development, equity-based compensation provides the greatest incentive for outstanding executive performance.

Chief Executive Officer Compensation

Mr. Merriman's 2004 compensation; including salary, bonus and equity in the Company, was based upon his function as the Chairman and Chief Executive Officer. Mr. Merriman became the Company's chief executive in October 2000 and its chairman in May 2001. Mr. Merriman's compensation was negotiated based upon the then-current compensation being given to executives in similar businesses. Mr. Merriman's equity interest in the Company is earned based upon the performance goals set forth in his employment agreement. See "Employment Contracts and Termination of Employment and Change in Control Agreements."

\$1 Million Pay Deductibility Limit

Section 162(m) of the Internal Revenue Code of 1986, as amended, prohibits publicly traded companies from taking a tax deduction for compensation in excess of \$1 million paid to the chief executive officer or any of the four most highly compensated executive officers for any fiscal year. Certain "performance-based compensation" is excluded from this \$1 million cap. At this time, none of the Company's executive officer's compensation subject to the deductibility limit exceeds \$1 million. In the Committee's view, the Company is not likely to be affected by the non-deductibility rules in the near future.

Conclusion

In conclusion, a significant portion of the Company's executive compensation was linked directly to revenue production, profitability of the Company, as well as individual performance of our executive officers as measured by the accomplishment of the Company's strategic goals. The Committee intends to continue the practice of linking executive compensation to Company performance, individual officer performance and stockholder return, realizing, of course, that the business cycle from time to time may result in an imbalance for a particular period.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During 2004, the following directors served as compensation committee members: D. Jonathan Merriman, Raymond J. Minehan, Donald Sledge and Steve Town.

During fiscal 2004, there were no Compensation Committee interlocks that were required to be reported under the rules and regulations of the Securities Exchange Act of 1934. Mr. Merriman, as Chairman and CEO, is an insider and is a member of the Compensation Committee. However, Mr. Merriman recuses himself from participation regarding his personal compensation. Additionally, Mr. Sledge was employed as our executive from September 1999 to May 2001.

PROPOSAL 2: AMENDMENT OF THE 2003 STOCK OPTION AND INCENTIVE PLAN

The Board of Directors has adopted, subject to shareholder approval, amendments to the Company's 2003 Stock Option and Incentive Plan to increase by 1,500,000 the number of shares of Common Stock available for issuance pursuant to awards granted under the Stock Option and Incentive Plan and to extend the term of the Stock Option and Incentive Plan for an additional one-year period, until March 7, 2015. As of March 31, 2005, 1,295,697 shares remained available for grant under the Stock Option and Incentive Plan. The market price of the Company's Common Stock as of the close of trading on March 31, 2004 was \$1.41. The Stock Option and Incentive Plan was initially adopted by the Board of Directors on March 7, 2003 and approved by shareholders on June 20, 2003.

Any employee, Officer, director, consultant or advisor of the Company or any subsidiary of the Company is eligible to receive awards under the Plan. Because participation and the types of awards under the 2003 Stock Option and Incentive Plan are subject to the discretion of the Compensation Committee, the benefits or amounts that will be received by any participant or groups of participants if the amendments to the 2003 Stock Option and Incentive Plan are approved are not currently determinable. The Company estimates that approximately 129 individuals were eligible to participate in the Plan as of March 31, 2005.

The Board of Directors believes that stock options have been, and will continue to be an important compensation element in attracting, motivating and retaining key employees. The granting of incentive stock options to employees is consistent with the Company's past practices, with practices in the industry, and is a factor in promoting the long-term development of the Company. The Board of Directors believes that the increase in authorized shares is necessary because of the need to continue to make awards under the Plan to attract, motivate and retain key employees.

Description of the Plan

A description of the provisions of the 2003 Stock Option and Incentive Plan, as amended, is set forth below. This summary is qualified in its entirety by the detailed provisions of the 2003 Stock Option and Incentive Plan, as amended, a copy of which is attached as Annex A to this proxy statement.

Administration. The Compensation Committee of the Board of Directors administers the 2003 Stock Option and Incentive Plan. Subject to the terms of the plan, the Compensation Committee may select participants to receive awards, determine the types of awards and terms and conditions of awards and interpret provisions of the plan.

Common Stock Reserved for Issuance under the Plan. The common stock to be issued under the 2003 Stock Option and Incentive Plan consists of authorized but unissued shares. If any shares covered by an award are not purchased or are forfeited, or if an award otherwise terminates without delivery of any common stock, then the number of shares of common stock counted against the aggregate number of shares available under the plan with respect to the award will, to the extent of any such forfeiture or termination, again be available for making awards under the 2003 Stock Option and Incentive Plan.

Eligibility. Awards may be made under the 2003 Stock Option and Incentive Plan to our directors, employees of or consultants to MCF Corporation or any of our subsidiaries or affiliates, including any such employee who is an officer or director of us or of any subsidiary or affiliate.

Amendment or Termination of the Plan. The Board of Directors may terminate or amend the plan at any time and for any reason. Unless amended, the 2003 Stock Option and Incentive Plan will terminate ten years after its effective date. Amendments will be submitted for stockholder approval to the extent required by the Internal Revenue Code or other applicable laws.

Options. The 2003 Stock Option and Incentive Plan permits the granting of options to purchase shares of common stock intended to qualify as incentive stock options under the Internal Revenue Code and stock options that do not qualify as incentive stock options.

In the case of incentive stock options, the exercise price of each stock option may not be less than 100% of the fair market value of our common stock on the date of grant. In the case of certain 10% stockholders who receive incentive stock options, the exercise price may not be less than 110% of the fair market value of the common stock on the date of grant. An exception to these requirements is made for options that we grant in substitution for options held by employees of companies that we acquire. In such a case the exercise price is adjusted to preserve the economic value of the employee's stock option from his or her former employer. In no event will the exercise price be less than the par value of a share of common stock on the date of grant.

The term of each stock option is fixed by the Compensation Committee and may not exceed 10 years from the date of grant. Options may be made exercisable in installments. The Compensation Committee may accelerate the exercisability of options.

Unless the Compensation Committee provides otherwise in the applicable option agreement, unvested options will expire immediately and vested options will expire 90 days after a grantee terminates employment with us for a reason other than for death or disability. Unless the Compensation Committee provides otherwise in the applicable option agreement, in the case of a termination of employment due to death or disability, options will fully vest and remain exercisable for a period of one year following termination of employment. In the case of a termination for cause, we may cancel the options upon the grantee's termination.

In general, a grantee may pay the exercise price of an option by cash, certified check, by tendering shares of common stock (which if acquired from us have been held by the grantee for at least six months), or by means of a broker-assisted cashless exercise.

Stock options granted under the 2003 Stock Option and Incentive Plan may not be sold, transferred, pledged or assigned other than by will or under applicable laws of descent and distribution. However, we may permit limited transfers of non-qualified options for the benefit of immediate family members of grantees to help with estate planning concerns or to co-workers or employees of grantees.

Other Awards. The Compensation Committee also may award:

- restricted stock, which are shares of common stock subject to restrictions.
- restricted stock units, which are common stock units subject to restrictions.

Effect of Certain Corporate Transactions. Certain change of control transactions involving us, such as a sale of MCF Corporation, may cause awards granted under the 2003 Stock Option and Incentive Plan to vest, unless the awards are continued or substituted for in connection with the change of control transaction.

Adjustments for Stock Dividends and Similar Events. The Compensation Committee will make appropriate adjustments in outstanding awards and the number of shares available for issuance under the 2003 Stock Option and Incentive Plan, including the individual limitations on options, to reflect common stock dividends, stock splits and other similar events.

Section 162(m) of the Internal Revenue Code. Section 162(m) of the Internal Revenue Code limits publicly-held companies such as Rateexchange to an annual deduction for federal income tax purposes of \$1 million for compensation paid to their covered employees. However, "performance-based compensation" is excluded from this limitation. The 2003 Stock Option and Incentive Plan is designed to permit the Compensation Committee to grant options that qualify as performance-based for purposes of satisfying the conditions of Section 162(m).

To qualify as performance-based:

- (a) the compensation must be paid solely on account of the attainment of one or more pre-established, objective performance goals;
- (b) the performance goal under which compensation is paid must be established by a compensation committee comprised solely of two or more directors who qualify as outside directors for purposes of the exception;
- (c) the material terms under which the compensation is to be paid must be disclosed to and subsequently approved by stockholders of the corporation before payment is made in a separate vote; and
- (d) the compensation committee must certify in writing before payment of the compensation that the performance goals and any other material terms were in fact satisfied.

In the case of compensation attributable to stock options, the performance goal requirement (summarized in (a) above) is deemed satisfied, and the certification requirement (summarized in (d) above) is inapplicable, if the grant or award is made by the compensation committee; the plan under which the option is granted states the maximum number of shares with respect to which options may be granted during a specified period to an employee; and under the terms of the option, the amount of compensation is based solely on an increase in the value of the common stock after the date of grant. The maximum number of shares of common stock subject to options that can be awarded under the 2003 Stock Option and Incentive Plan to any person is 5,000,000 shares per year.

Federal Income Tax Consequences

Incentive Stock Options. The grant of an option will not be a taxable event for the grantee or for us. A grantee will not recognize taxable income upon exercise of an incentive stock option (except that the alternative minimum tax may apply), and any gain realized upon a disposition of the common stock received pursuant to the exercise of an incentive stock option will be taxed as long-term capital gain if the grantee holds the shares of common stock for at least two years after the date of grant and for one year after the date of exercise (the “holding period requirement”). We will not be entitled to any business expense deduction with respect to the exercise of an incentive stock option, except as discussed below.

For the exercise of an option to qualify for the foregoing tax treatment, the grantee generally must be our employee or an employee of our subsidiary from the date the option is granted through a date within three months before the date of exercise of the option.

If all of the foregoing requirements are met except the holding period requirement mentioned above, the grantee will recognize ordinary income upon the disposition of the common stock in an amount generally equal to the excess of the fair market value of the common stock at the time the option was exercised over the option exercise price (but not in excess of the gain realized on the sale). The balance of the realized gain, if any, will be capital gain. We will be allowed a business expense deduction to the extent the grantee recognizes ordinary income, subject to our compliance with Section 162(m) of the Internal Revenue Code and to certain reporting requirements.

Non-Qualified Options. The grant of an option will not be a taxable event for the grantee or for us. Upon exercising a non-qualified option, a grantee will recognize ordinary income in an amount equal to the difference between the exercise price and the fair market value of the common stock on the date of exercise. Upon a subsequent sale or exchange of shares acquired pursuant to the exercise of a non-qualified option, the grantee will have taxable gain or loss, measured by the difference between the amount realized on the disposition and the tax basis of the shares of common stock (generally, the amount paid for the shares plus the amount treated as ordinary income at the time the option was exercised).

If we comply with applicable reporting requirements and with the restrictions of Section 162(m) of the Internal Revenue Code, we will be entitled to a business expense deduction in the same amount and generally at the same time as the grantee recognizes ordinary income.

A grantee who has transferred a non-qualified stock option to a family member by gift will realize taxable income at the time the non-qualified stock option is exercised by the family member. The grantee will be subject to withholding of income and employment taxes at that time. The family member's tax basis in the shares of common stock will be the fair market value of the shares of common stock on the date the option is exercised. The transfer of vested non-qualified stock options will be treated as a completed gift for gift and estate tax purposes. Once the gift is completed, neither the transferred options nor the shares acquired on exercise of the transferred options will be includable in the grantee's estate for estate tax purposes.

Restricted Stock. A grantee who is awarded restricted stock will not recognize any taxable income for federal income tax purposes in the year of the award, provided that the shares of common stock are subject to restrictions (that is, the restricted stock is nontransferable and subject to a substantial risk of forfeiture). However, the grantee may elect under Section 83(b) of the Internal Revenue Code to recognize compensation income in the year of the award in an amount equal to the fair market value of the common stock on the date of the award, determined without regard to the restrictions. If the grantee does not make such a Section 83(b) election, the fair market value of the common stock on the date the restrictions lapse will be treated as compensation income to the grantee and will be taxable in the year the restrictions lapse. If we comply with applicable reporting requirements and subject to the restrictions of Section 162(m) of the Internal Revenue Code, we will be entitled to a business expense deduction in the same amount and generally at the same time as the grantee recognizes ordinary income.

Restricted Stock Units. There are no immediate tax consequences of receiving an award of restricted stock units under the 2003 Stock Option and Incentive Plan. A grantee who is awarded restricted stock units will be required to recognize ordinary income in an amount equal to the fair market value of shares issued to such grantee at the end of the restriction period or, if later, the payment date. If we comply with applicable reporting requirements and subject to the restrictions of Section 162(m) of the Internal Revenue Code, we will be entitled to a business expense deduction in the same amount and generally at the same time as the grantee recognizes ordinary income.

Required Vote

The affirmative vote of the holders of a majority of the stock having voting power present in person or represented by proxy at the Annual Meeting is required to approve the amendments to the 2003 Stock Option and Incentive Plan. Unless otherwise indicated, properly executed proxies will be voted in favor of Proposal 2 to approve the amendments to the 2003 Stock Option and Incentive Plan.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE APPROVAL OF THE AMENDMENTS TO THE 2003 STOCK OPTION AND INCENTIVE PLAN.
