DENTSPLY International Inc. and Subsidiaries

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) and the rules of the Securities and Exchange Commission (“SEC”). The year-end consolidating balance sheet data was derived from audited financial statements, but does not include all disclosures required by US GAAP. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair statement of the results for interim periods have been included. Results for interim periods should not be considered indicative of results for a full year. These financial statements and related notes contain the accounts of DENTSPLY International Inc. and Subsidiaries (DENTSPLY or the “Company”) on a consolidated basis and should be read in conjunction with the consolidated financial statements and notes included in the Company’s most recent Form 10-K for the year ended December 31, 2009.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Company, as applied in the interim consolidated financial statements presented herein are substantially the same as presented in the Company’s Form 10-K for the year ended December 31, 2009, except as may be indicated below:

Accounts and Notes Receivable-Trade

Accounts and notes receivables – trade, net are stated net of allowances for doubtful accounts and trade discounts, which were \$10.3 million and \$13.3 million at June 30, 2010 and December 31, 2009, respectively.

Variable Interest Entities

In June 2009, the Financial Accounting Standards Board (“FASB”) issued accounting guidance for variable interest entities (“VIE”). The new guidance includes: (1) the elimination of the exemption from consolidation for qualifying special purpose entities, (2) a new approach for determining the primary beneficiary of a VIE, which requires that the primary beneficiary have both (i) the power to control the most significant activities of the VIE and (ii) either the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE, and (3) the requirement to continually reassess who should consolidate a VIE. The Company adopted this guidance on January 1, 2010, and the adoption did not have a material impact on the Company’s financial position and results of operations.

The Company consolidates all VIE where the Company has determined that it has the power to direct the activities that most significantly impact the VIE’s economic performance and shares in either the significant risks or rewards of the VIE. The Company continually reassesses VIE to determine if consolidation is appropriate.

Revisions in Classification

Certain revisions in classification have been made to prior years’ data in order to conform to current year presentation.

NOTE 2 – STOCK COMPENSATION

The Company maintains the 2010 Equity Incentive Plan (the “Plan”) under which it may grant non-qualified stock options, incentive stock options, restricted stock, restricted stock units (“RSU”) and stock appreciation rights, collectively referred to as “Awards.” Awards are granted at exercise prices that are equal to the closing stock price on

the date of grant. The Company authorized grants under the Plan of 13.0 million shares of common stock, plus any unexercised portion of cancelled or terminated stock options granted under the DENTSPLY International Inc. 2002 Equity Incentive Plan, as amended, subject to adjustment as follows: each January, if 7% of the total outstanding common shares of the Company exceed 13.0 million, the excess becomes available for grant under the Plan. No more than 2.5 million shares may be awarded as restricted stock and RSU, and no key employee may be granted restricted stock and RSU in excess of approximately 0.2 million shares of common stock in any calendar year.

- 7 -

Stock options generally expire ten years after the date of grant under these plans and grants become exercisable, subject to a service condition, over a period of three years after the date of grant at the rate of one-third per year, except when they become immediately exercisable upon death, disability or qualified retirement. RSU vest 100% on the third anniversary of the date of grant and are subject to a service condition, which requires grantees to remain employed by the Company during the three year period following the date of grant. In addition to the service condition, certain key executives are subject to performance requirements. Similar to stock options, RSU become immediately exercisable upon death, disability or qualified retirement. It is the Company's practice to issue shares from treasury stock when options are exercised.

At the date of grant, the Company uses the Black-Scholes option-pricing model to estimate the fair value of the non-qualified stock options. The assumptions used to calculate the fair value of the awards granted are evaluated and revised, as necessary, to reflect market conditions and the Company's experience.

The following table represents total stock based compensation expense and the tax related benefit for the three and six months ended June 30, 2010 and 2009:

(in millions)	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
Stock option expense	\$ 2.9	\$ 3.0	\$ 5.8	\$ 5.9
RSU expense	1.8	1.7	3.8	3.2
Total stock based compensation expense	\$ 4.7	\$ 4.7	\$ 9.6	\$ 9.1
Total related tax benefit	\$ 1.5	\$ 1.5	\$ 2.9	\$ 2.6

The remaining unamortized compensation cost related to non-qualified stock options is \$13.6 million, which will be expensed over the weighted average remaining vesting period of the options, or 1.6 years. The unamortized compensation cost related to RSU is \$10.2 million, which will be expensed over the remaining restricted period of the RSU, or 1.7 years.

The following table reflects the non-qualified stock option transactions from December 31, 2009 through June 30, 2010:

(in thousands, except per share data)	Shares	Outstanding Weighted Average Exercise Price	Aggregate Intrinsic Value	Shares	Exercisable Weighted Average Exercise Price	Aggregate Intrinsic Value
December 31, 2009	12,038	\$ 28.34	\$ 94,148	8,682	\$ 26.78	\$ 80,839

June 30, 2010	10,959	\$ 28.96	\$ 37,622	7,652	\$ 27.43	\$ 33,196

The weighted average remaining contractual term of all outstanding options is 6.3 years and the weighted average remaining contractual term of exercisable options is 5.0 years.

The following table summarizes the unvested restricted stock units and RSU dividend transactions from December 31, 2009 through June 30, 2010:

(in thousands, except per share data)	Unvested Restricted Stock and Stock Dividend Units	
	Shares	Weighted Average Grant Date Fair Value

Comprehensive (loss) income attributable to the noncontrolling interests	(5,734)	6,053	(9,157)	(187)
Comprehensive (loss) income attributable to DENTSPLY International	\$ (17,899)	\$ 120,174	\$ (4,991)	\$ 150,607

During the quarter ended June 30, 2010, foreign currency translation adjustments included currency translation losses of \$134.2 million and losses of \$3.6 million on the Company’s loans designated as hedges of net investments. During the quarter ended June 30, 2009, foreign currency translation adjustments included currency translation gains of \$95.6 million and losses of \$4.3 million on the Company’s loans designated as hedges of net investments. During the six months ended June 30, 2010, foreign currency translation adjustments included currency translation losses of \$212.3 million and losses of \$2.7 million on the Company’s loans designated as hedges of net investments. During the six months ended June 30, 2009, foreign currency translation adjustments included currency translation gains of \$5.8

million and gains of \$5.4 million on the Company's loans designated as hedges of net investments. These foreign currency translation adjustments were offset by net gains on derivative financial instruments, which are discussed in Note 10, Financial Instruments and Derivatives.

- 9 -

The balances included in AOCI, net of tax, in the consolidated balance sheets are as follows:

(in thousands)	June 30, 2010	December 31, 2009
Foreign currency translation adjustments	\$ 15,548	\$ 220,116
Net loss on derivative financial instruments	(50,128)	(113,800)
Unrecognized losses and prior year service pension cost	(21,098)	(22,774)
	\$ (55,678)	\$ 83,542

The cumulative foreign currency translation adjustments included translation gains of \$125.9 million and \$327.8 million as of June 30, 2010 and December 31, 2009, respectively, partially offset by losses of \$110.4 million and \$107.7 million, respectively, on loans designated as hedges of net investments. These foreign currency translation adjustments were offset by net losses on derivatives financial instruments, which are discussed in Note 10, Financial Instruments and Derivatives.

NOTE 4 - EARNINGS PER COMMON SHARE

The dilutive effect of outstanding options and restricted stock is reflected in diluted earnings per share by application of the treasury stock method. The following table sets forth the computation of basic and diluted earnings per common share for the three and six months ended June 30, 2010 and 2009:

Options to purchase 3.1 million and 3.2 million shares of common stock that were outstanding during the three and six months ended June 30, 2010, respectively, were not included in the computation of diluted earnings per share since the options' exercise prices were greater than the average market price of the common shares and, therefore, the effect would be antidilutive. There were 4.6 million and 7.8 million antidilutive shares of common stock outstanding during the three and six months ended June 30, 2009, respectively.

NOTE 5 – BUSINESS ACQUISITIONS

The acquisition related activity for the six months ended June 30, 2010 of \$8.3 million, net of cash acquired, was related to two acquisitions in 2010 and two earn-out payments on acquisitions from 2008 and 2005. The purchase agreement for one acquisition provides for an additional payment to be made based upon the operating performance of the business; however, the Company does not expect the additional payment to be material to the financial statements. The results of operations for the two businesses have been included in the accompanying financial statements since the effective date of the respective transaction. The purchase prices have been allocated on the basis of preliminary estimates of the fair values of assets acquired and liabilities assumed. As of June 30, 2010, the Company has recorded a total of \$4.4 million in goodwill related to the unallocated portions of the respective purchase prices, and all of this goodwill is associated with the Canada/Latin America/Endodontics/Orthodontics segment.

As discussed in Note 1, Significant Accounting Policies, the Company adopted the accounting guidance for VIE. The adoption has not changed the Company's prior conclusion that all current VIE should be consolidated. Under the new accounting guidance for VIE, the Company believes it is the primary beneficiary for all the VIE since the Company directs the activities that most significantly impacts the economic performance of the VIE and has the obligation to absorb losses and the right to receive benefits that could potentially be significant to the VIE. The consolidation of the VIE net assets is immaterial to the Company's financial position with most of the net assets recorded in goodwill and identifiable intangible assets.

NOTE 6 - SEGMENT INFORMATION

The Company has numerous operating businesses covering a wide range of products and geographic regions, primarily serving the professional dental market. Professional dental products represented approximately 97% of sales for the periods ended June 30, 2010 and 2009.

The operating businesses are combined into operating groups, which have overlapping product offerings, geographical presence, customer bases, distribution channels, and regulatory oversight. These operating groups are considered the Company's reportable segments as the Company's chief operating decision-maker regularly reviews financial results at the operating group level and uses this information to manage the Company's operations. The accounting policies of the groups are consistent with those described in the Company's most recently filed Form 10-K in the summary of significant accounting policies. The Company measures segment income for reporting purposes as operating income before restructuring and other costs, interest expense, interest income, other income and expenses and income taxes.

United States, Germany and Certain Other European Regions Consumable Businesses

This business group includes responsibility for the design, manufacturing, sales and distribution for certain small equipment and chairside consumable products in the United States, Germany and certain other European regions. It also has responsibility for the sales and distribution of certain Endodontic products in Germany.

France, United Kingdom, Italy and Certain Other European Countries, CIS, Middle East, Africa, Pacific Rim Businesses

This business group includes responsibility for the sales and distribution for certain small equipment, chairside consumable products, certain laboratory products and certain Endodontic products in France, United Kingdom, Italy, the Commonwealth of Independent States ("CIS"), Middle East, Africa, Asia (excluding Japan), Japan and Australia, as well as the sale and distribution of implant products and bone substitute/grafting materials in France, Italy, Asia and Australia. This business group also includes the responsibility for sales and distribution for certain laboratory products, implants products and bone substitution/grafting materials for Austria. It also is responsible for sales and distribution for certain small equipment and chairside consumable products, certain laboratory products, implant products and bone substitution/grafting materials in certain other European countries. In addition this business group also includes the manufacturing and sale of Orthodontic products and certain laboratory products in Japan, and the manufacturing of certain laboratory and certain Endodontic products in Asia.

Canada/Latin America/Endodontics/Orthodontics

This business group includes responsibility for the design, manufacture, and/or sales and distribution of certain small equipment, chairside consumable products, certain laboratory products and Endodontic products in Brazil. It also has responsibility for the sales and distribution of most of the Company's dental products sold in Latin America and Canada. This business group also includes the responsibility for the design and manufacturing for Endodontic products in the United States, Switzerland and Germany and is responsible for the sales and distribution of the

Company's Endodontic products in the United States, Canada, Switzerland, Benelux, Scandinavia, Austria, Latin America and Eastern Europe, and for certain Endodontic products in Germany. This business group is also responsible for the world-wide sales and distribution, excluding Japan, as well as some manufacturing of the Company's Orthodontic products. In addition, this business group is also responsible for sales and distribution in the United States for implant and bone substitute/grafting materials and the sales and distribution of implants in Brazil. This business group is also responsible for the manufacture and sale of certain products in the Company's non-dental business.

- 11 -

Dental Laboratory Business/Implants/Non-Dental

This business group includes the responsibility for the design, manufacture, sales and distribution for most laboratory products, excluding certain countries mentioned previously, and the design, manufacture, and/or sales and distribution of the Company's dental implant products and bone substitute/grafting materials, excluding sales and distribution of implants and bone substitute/grafting materials in the United States; France, Italy, Austria, and certain other Eastern European countries; Asia; and Australia. This business group is also responsible for most of the Company's non-dental business.

Significant interdependencies exist among the Company's operations in certain geographic areas. Inter-group sales are at prices intended to provide a reasonable profit to the manufacturing unit after recovery of all manufacturing costs and to provide a reasonable profit for purchasing locations after coverage of marketing and general and administrative costs.

Generally, the Company evaluates performance of the operating groups based on the groups' operating income, excluding restructuring and other costs, and net third party sales, excluding precious metal content.

The following tables set forth information about the Company's operating groups for the three and six months ended June 30, 2010 and 2009:

NOTE 7 - INVENTORIES

Inventories are stated at the lower of cost or market. At June 30, 2010 and December 31, 2009, the cost of \$8.1 million, or 2.9%, and \$7.8 million, or 2.7%, respectively, of inventories was determined by the last-in, first-out (“LIFO”) method. The cost of other inventories was determined by the first-in, first-out (“FIFO”) or average cost methods. The Company establishes reserves for inventory in order to present the net realizable value. The inventory valuation reserves were \$31.7 million and \$31.9 million as of June 30, 2010 and December 31, 2009, respectively.

If the FIFO method had been used to determine the cost of LIFO inventories, the amounts at which net inventories are stated would be higher than reported at June 30, 2010 and December 31, 2009 by \$4.2 million and \$4.0 million, respectively.

Inventories, net of inventory valuation reserves, consist of the following:

(in thousands)	June 30, 2010	December 31, 2009

NOTE 9 – RESTRUCTURING AND OTHER COSTS

Restructuring Costs

During the three and six months ended June 30, 2010, the Company recorded restructuring costs of \$0.2 million and \$1.0 million, respectively. During the three and six months ended June 30, 2009, the Company recorded restructuring costs of \$3.1 million and \$4.3 million, respectively. These costs are recorded in "Restructuring and other costs" in the consolidated statements of operations and the associated liabilities are recorded in accrued liabilities in the consolidated balance sheets. These costs primarily consist of employee severance costs.

During 2010 and 2009, the Company initiated several restructuring plans primarily related to the integration, reorganization and closure or consolidation of certain production and selling facilities in order to better leverage the Company's resources by minimizing costs and obtaining operational efficiencies.

Other Costs

During the six months ended June 30, 2010 and 2009, the Company recorded other costs of \$3.9 million and \$0.4 million, respectively. Other costs for the six months ended June 30, 2010 and 2009 are primarily related to impairments of long-term assets and several legal matters. These other costs are reflected in "Restructuring and other

costs” in the consolidated statements of operations.

NOTE 10 – FINANCIAL INSTRUMENTS AND DERIVATIVES

Derivative Instruments and Hedging Activities

The Company's activities expose it to a variety of market risks, which primarily include the risks related to the effects of changes in foreign currency exchange rates, interest rates and commodity prices. These financial exposures are monitored and managed by the Company as part of its overall risk management program. The objective of this risk management program is to reduce the volatility that these market risks may have on the Company's operating results and equity.

Certain of the Company's inventory purchases are denominated in foreign currencies, which expose the Company to market risk associated with foreign currency exchange rate movements. The Company's policy generally is to hedge major foreign currency transaction exposures through foreign exchange forward contracts. These contracts are entered into with major financial institutions thereby minimizing the risk of credit loss. In addition, the Company's investments in foreign subsidiaries are denominated in foreign currencies, which create exposures to changes in foreign currency exchange rates. The Company uses debt and derivatives denominated in the applicable foreign currency as a means of hedging a portion of this risk.

With the Company's significant level of variable interest rate long-term debt and net investment hedges, changes in the interest rate environment can have a major impact on the Company's earnings, depending upon its interest rate exposure. As a result, the Company manages its interest rate exposure with the use of interest rate swaps, when appropriate, based upon market conditions.

The manufacturing of some of the Company's products requires the use of commodities, which are subject to market fluctuations. In order to limit the unanticipated impact on earnings from such market fluctuations, the Company selectively enters into commodity swaps for certain materials used in the production of its products. Additionally, the Company uses non-derivative methods, such as the precious metal consignment agreements to effectively hedge commodity risks.

Cash Flow Hedges

The Company uses interest rate swaps to convert a portion of its variable interest rate debt to fixed interest rate debt. As of June 30, 2010, the Company has two groups of significant variable interest rate to fixed interest rate swaps. One of the groups of swaps has notional amounts totaling 12.6 billion Japanese yen, and effectively converts the underlying variable interest rates to an average fixed interest rate of 1.6% for a term of ten years, ending in September 2012. Another swap has a notional amount of 65.0 million Swiss francs, and effectively converts the underlying variable interest rates to a fixed interest rate of 4.2% for a term of seven years, ending in September 2012. The Company enters into interest rate swap contracts infrequently as they are only used to manage interest rate risk on long-term debt instruments and not for speculative purposes.

The Company enters into forward exchange contracts to hedge the foreign currency exposure of its anticipated purchases of certain inventory. In addition, exchange contracts are used by certain of the Company's subsidiaries to hedge intercompany inventory purchases, which are denominated in non-local currencies. The forward contracts that are used in these programs typically mature in twelve months or less. For these derivatives which qualify as hedges of future anticipated cash flows, the effective portion of changes in fair value is temporarily deferred in AOCI until the hedged item is recognized in earnings.

The Company selectively enters into commodity swaps to effectively fix certain variable raw material costs. At June 30, 2010, the Company had swaps in place to purchase 135 troy ounces of platinum bullion for use in the production

of its impression material products. The average fixed rate of this agreement is \$1,225 per troy ounce. In addition, the Company had swaps in place to purchase 34,419 troy ounces of silver bullion for use in the production of its amalgam products at an average fixed rate of \$16 per troy ounce.

Hedges of Net Investments in Foreign Operations

The Company has numerous investments in foreign subsidiaries. The net assets of these subsidiaries are exposed to volatility in foreign currency exchange rates. Currently, the Company uses non-derivative financial instruments, including foreign currency denominated debt held at the parent company level and derivative financial instruments to hedge some of this exposure. Translation gains and losses related to the net assets of the foreign subsidiaries are offset by gains and losses in the non-derivative and derivative financial instruments designated as hedges of net

investments.

During the first quarter of 2010, the Company entered into new cross currency basis swaps of Swiss francs 100.0 million and Swiss francs 55.5 million (collectively the "Swiss Swaps"). The Swiss Swaps mature on February 2013, and the Company pays three month Swiss franc LIBOR and receives three month U.S. dollar LIBOR. The new contracts were entered into to replace maturing contracts. The Swiss franc and euro cross currency basis swaps are designated as net investment hedges of the Swiss and euro denominated net assets. The interest rate differential is recognized in the earnings as interest income or interest expense as it is accrued, the foreign currency revaluation is recorded in AOCI, net of tax effects.

The fair value of all the cross currency basis swap agreements is the estimated amount the Company would (pay) or receive at the reporting date, taking into account the effective interest rates and foreign exchange rates. As of June 30, 2010 and December 31, 2009, the estimated net fair values of the swap agreements were negative \$61.8 million and negative \$176.6 million, respectively, which were recorded in AOCI, net of tax effects, and as other noncurrent liabilities and other noncurrent assets.

- 18 -

At June 30, 2010, the Company had Swiss franc-denominated and Japanese yen-denominated debt and cross currency basis swaps denominated in euro and Swiss franc to hedge the currency exposure related to a designated portion of the net assets of its European, Swiss and Japanese subsidiaries. The accumulated translation impact on investments in foreign subsidiaries, primarily denominated in euros, Swiss francs and Japanese yen, net of these net investment hedges, was a loss of \$33.6 million as of June 30, 2010 and a gain of \$111.1 million as of December 31, 2009, which are included in AOCI, net of tax effects.

The following tables summarize the fair value of the Company's cross currency basis swaps that are designated as hedges of net investments in foreign operations at June 30, 2010.

Cross Currency Basis Swaps (in thousands)	2010	Notional Amount		2013	Fair Value Liability 2010
		2011	2012		
Swiss franc 592.5 million @ \$1.17 pay CHF three month LIBOR rec. USD three month LIBOR	\$ -	\$ 74,610	\$ 52,524	\$ 422,699	\$ (42,805)
Euros 358.0 million @ \$1.17 pay EUR three month LIBOR rec. USD three month LIBOR	132,381	-	-	306,438	(18,957)
Total cross currency basis swaps	\$ 132,381	\$ 74,610	\$ 52,524	\$ 729,137	\$ (61,762)

As of June 30, 2010, deferred net losses on derivative instruments of \$0.7 million, which were recorded in AOCI, are expected to be reclassified to current earnings during the next twelve months. This reclassification is primarily due to the sale of inventory that includes previously hedged purchases and interest rate swaps. The maximum term over which the Company is hedging exposures to variability of cash flows (for all forecasted transactions, excluding interest payments on variable interest rate debt) is eighteen months. Overall, the derivatives designated as cash flow hedges are highly effective. Any cash flows associated with these instruments are included in cash from operations in accordance with the Company's policy of classifying the cash flows from these instruments in the same category as the cash flows from the items being hedged.

The following tables summarize the fair value and consolidated balance sheet location of the Company's derivatives at June 30, 2010 and December 31, 2009:

NOTE 11 – FAIR VALUE MEASUREMENT

The Company records financial instruments at fair value with unrealized gains and losses related to certain financial instruments reflected in AOCI on the consolidated balance sheets. In addition, the Company recognizes certain liabilities at fair value. The Company primarily applies the market approach for recurring fair value measurements and endeavors to utilize the best available information. Accordingly, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

The degree of judgment utilized in measuring the fair value of financial instruments generally correlates to the level of pricing observability. Pricing observability is impacted by a number of factors, including the type of financial instrument. Financial instruments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of pricing observability and a lesser degree of judgment utilized in measuring fair value. Conversely, financial instruments rarely traded or not quoted will generally have less, or no, pricing observability and a higher degree of judgment utilized in measuring fair value.

The following tables set forth by level within the fair value hierarchy the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of June 30, 2010 and December 31, 2009, which are classified

as “Cash and cash equivalents,” “Other noncurrent assets, net,” “Accrued liabilities,” and “Other noncurrent liabilities” on the consolidated balance sheets. Financial assets and liabilities that are recorded at fair value as of the balance sheet date are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Derivative valuations are based on observable inputs to the valuation model including interest rates, foreign currency exchange rates, future commodities prices and credit risks.

The commodity contracts, interest rate swaps and foreign exchange forward contracts are considered cash flow hedges and cross currency interest rate swaps are considered hedges of net investments in foreign operations as discussed in Note 10, Financial Instruments and Derivatives.

NOTE 12 – UNCERTAINTIES IN INCOME TAXES

The Company recognizes in the consolidated financial statements, the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position.

It is reasonably possible that certain amounts of unrecognized tax benefits will significantly increase or decrease within twelve months of the reporting date of the Company's consolidated financial statements. Final settlement and resolution of outstanding tax matters in various jurisdictions during the next twelve months could include unrecognized tax benefits of approximately \$1.0 million. In addition, expiration of statutes of limitation in various

jurisdictions during the next twelve months could include unrecognized tax benefits of approximately \$1.0 million.

- 25 -

NOTE 13 - FINANCING ARRANGEMENTS

On February 19, 2010, the Company received the proceeds of a \$250.0 million Private Placement Note at a fixed rate of 4.11% for an average term of five years and a final maturity of six years. On March 1, 2010 the Company entered into a term loan facility with PNC Bank for Swiss francs 65.0 million at a variable rate based upon three month Swiss franc LIBOR, which matures in March 2012. The Company's notes payable and current portion of long-term debt, as classified on the consolidated balance sheets, amounted to \$12.0 million and \$82.2 million at June 30, 2010 and December 31, 2009, respectively.

On May 7, 2010 the Company entered into a \$200.0 million multi-currency revolving credit agreement with eight lenders for a period of three years maturing May 7, 2013. The multi-currency revolving credit agreement replaced the \$500.0 million multi-currency revolving credit agreement which matured May 9, 2010. As a consequence of the smaller multi-currency revolving credit agreement, the Company also reduced its U.S. dollar Commercial Paper facility to \$200.0 million in May, 2010.

The Company estimates the fair value of its total debt as compared to its carrying value as \$482.6 million and \$474.9 million, respectively, as of June 30, 2010. As of December 31, 2009, the fair value approximated the carrying value, which was \$474.9 million. The interest rate on the Company's \$250.0 million Private Placement Note is fixed rate at 4.11%, and the fair value is based on the interest rates as of June 30, 2010. The interest rates on term loan debt and commercial paper are variable and therefore the fair value of these instruments approximates their carrying values.

NOTE 14 - COMMITMENTS AND CONTINGENCIES

On January 5, 1999, the Department of Justice filed a Complaint against the Company in the U.S. District Court in Wilmington, Delaware alleging that the Company's tooth distribution practices violated the antitrust laws and seeking an order for the Company to discontinue its practices. This case has been concluded and the District Court, upon the direction of the Court of Appeals, issued an injunction in May 2006, preventing DENTSPLY from taking action to restrict its tooth dealers in the U.S. from adding new competitive teeth lines.

Subsequent to the filing of the Department of Justice Complaint in 1999, a private party putative class action was filed based on allegations similar to those in the Department of Justice case, on behalf of dental laboratories who purchased Trubyte® teeth or products containing Trubyte® teeth. The District Court granted the Company's Motion on the lack of standing of the laboratory class action to pursue damage claims. The Plaintiffs appealed this decision to the Third Circuit and the Court largely upheld the decision of the District Court in dismissing the Plaintiffs' damages claims against DENTSPLY, with the exception of allowing the Plaintiffs to pursue a damage claim based on a theory of resale price maintenance between the Company and its tooth dealers. The Plaintiffs then filed an amended complaint in the District Court asserting that DENTSPLY and its tooth dealers, and the dealers among themselves, engaged in a conspiracy to violate the antitrust laws. The District Court granted the Motions filed by DENTSPLY and the dealers, to dismiss Plaintiffs' claims, except for the resale price maintenance claims. The Plaintiffs appealed the dismissal of these claims to the Third Circuit and the Third Circuit has affirmed the decision of the District Court. Following the Third Circuit Court's decision, the Plaintiffs have dismissed their complaint with prejudice, bringing to a conclusion all of the private party antitrust cases involving the Company's challenged tooth distribution practice.

On June 18, 2004, Marvin Weinstat, DDS and Richard Nathan, DDS filed a class action suit in San Francisco County, California alleging that the Company misrepresented that its Cavitron® ultrasonic scalers are suitable for use in oral surgical procedures. The Complaint seeks a recall of the product and refund of its purchase price to dentists who have purchased it for use in oral surgery. The Court certified the case as a class action in June 2006 with respect to the breach of warranty and unfair business practices claims. The class is defined as California dental professionals who

purchased and used one or more Cavitron® ultrasonic scalers for the performance of oral surgical procedures. The Company filed a motion for decertification of the class and this motion was granted. Plaintiffs appealed the decertification of the class to the California Court of Appeals and the Court of Appeals reversed the decertification decision of the trial Court. The Company filed a Petition for Review of the Court of Appeals decision with the California Supreme Court. The California Supreme Court denied the Company's Petition. This case has been remanded to and is pending in the San Francisco County Court.

- 26 -

On December 12, 2006, a Complaint was filed by Carole Hildebrand, DDS and Robert Jaffin, DDS in the Eastern District of Pennsylvania (the Plaintiffs subsequently added Dr. Mitchell Goldman as a named class representative). The case was filed by the same law firm that filed the Weinstat case in California. The Complaint asserts putative class action claims on behalf of dentists located in New Jersey and Pennsylvania. The Complaint seeks damages and asserts that the Company's Cavitron® ultrasonic scaler was negligently designed and sold in breach of contract and warranty arising from misrepresentations about the potential uses of the product because it cannot assure the delivery of potable or sterile water. Plaintiffs have filed their Motion for class certification to which the Company has filed its response. The Company also filed other motions, including a Motion to dismiss the claims of Drs. Hildebrand and Jaffin for lack of standing. The Court granted this Motion for lack of standing of the individuals and did not allow the plaintiffs to amend the complaint to substitute their corporate practices, leaving Dr. Goldman as a putative class representative in Pennsylvania. The plaintiffs have now filed another complaint in which they named the corporate practices of Drs. Hildebrand and Jaffin as class representatives. The Company has moved to dismiss this complaint.

On November 21, 2008, Guidance Endodontics LLC filed a complaint in the U.S. District Court of New Mexico asserting claims against DENTSPLY arising principally out of a breach of a manufacturing and supply contract between the parties. Prior to trial, Guidance had claimed its damages were \$1.2 million. The case went to trial in late September and early October 2009. On October 9, 2009, a jury returned a verdict against DENTSPLY, in the amount of approximately \$4.0 million for past and future compensatory damages and \$40.0 million in punitive damages. In April 2010, the District Court Judge formally entered the verdict that was reached in October 2009. The Company believes that this decision is not supported by the facts in the case or the applicable law and intends to vigorously pursue all available options to challenge it. The Company has filed a number of separate motions to overturn various aspects of the verdict, including the punitive and future damages, or in the alternative to be granted a new trial, because of the inappropriateness of such verdicts. The Court has ruled on one of the Company's post-trial Motions, denying the Company's Motion to set aside the New Mexico Unfair Practices Act verdict. DENTSPLY does not believe the outcome of this matter will have a material adverse effect on its financial position.

As of June 30, 2010, a reasonable estimate of a possible range of loss related to the above litigation cannot be made except as reflected above. DENTSPLY does not believe the outcome of any of these matters will have a material adverse effect on its financial position. In the event that one or more of these matters is unfavorably resolved, it is possible the Company's results from operations could be materially impacted.

Purchase Commitments

From time to time, the Company enters into long-term inventory purchase commitments with minimum purchase requirements for raw materials and finished goods to ensure the availability of products for production and distribution. These commitments may have a significant impact on levels of inventory maintained by the Company.

DENTSPLY International Inc. and Subsidiaries

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

The nature and geographic scope of the DENTSPLY International Inc. and Subsidiaries ("DENTSPLY" or the "Company") business subjects it to changing economic, competitive, regulatory and technological risks and uncertainties. In accordance with the "Safe Harbor" provisions of the Private Securities Litigation Reform Act of 1995, the Company provides the following cautionary remarks regarding important factors, which, among others, could cause future results to differ materially from the forward-looking statements, expectations and assumptions expressed or implied herein. All forward-looking statements made by the Company are subject to risks and uncertainties and are not guarantees of future performance. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, performance and achievements, or industry results to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These statements are identified by the use of such terms as "may," "could," "expect," "intend," "believe," "plan," "estimate," "forecast," "project," "anticipate" or words of similar expression.

Investors are cautioned that forward-looking statements should be read in conjunction with the risk factors and uncertainties discussed within Item 1A, Part I of the Company's Form 10-K for the year ended December 31, 2009. Investors are further cautioned that the risk factors in Item 1A, Part I of the Company's Form 10-K may not be exhaustive and that many of these factors are beyond the Company's ability to control or predict. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results. The Company undertakes no duty and has no obligation to update forward-looking statements.

OVERVIEW

DENTSPLY believes it is the world's largest designer, developer, manufacturer and marketer of a broad range of products for the dental market. The Company is headquartered in the United States of America ("U.S.") and operates in more than 120 other countries, principally through its foreign subsidiaries. The Company also has strategically located distribution centers throughout the world to enable it to better serve its customers and increase its operating efficiency. While the U.S. and Europe are the Company's largest markets, the Company serves all of the major professional dental markets worldwide.

Principal Products

The Company has three main product categories: 1) Dental Consumable Products; 2) Dental Laboratory Products; and 3) Dental Specialty Products.

Dental consumable products consist of dental sundries and small equipment used in dental offices by general practitioners in the treatment of patients. The Company manufactures a wide variety of different dental sundry consumable products marketed under more than one hundred brand names. DENTSPLY's dental sundry products within this category include dental anesthetics, prophylaxis paste, dental sealants, impression materials, restorative materials, tooth whiteners and topical fluoride. Small equipment products in the dental consumable category consist of various durable goods used in dental offices for treatment of patients. DENTSPLY's small equipment products include high and low speed handpieces, intraoral curing light systems, dental diagnostic systems, and ultrasonic scalers and polishers.

Dental laboratory products are used in the preparation of dental appliances by dental laboratories. DENTSPLY's products within this category include dental prosthetics, artificial teeth, precious metal dental alloys, dental ceramics,

and crown and bridge materials. This category also includes fabricated dental appliances, computer aided design software and centralized manufacturing of frameworks. Equipment in this category includes computer aided machining ceramic systems and porcelain furnaces.

Dental specialty products are specialized treatment products used within the dental office and laboratory settings. DENTSPLY's products within this category include endodontic instruments and materials, implants and related products, bone grafting materials, 3D digital implantology, and orthodontic appliances and accessories.

Principal Measurements

The principal measurements used by the Company in evaluating its business are: (1) internal growth by geographic region; (2) constant currency growth by geographic region; (3) operating margins of each reportable segment including product pricing and controlling expenses; (4) the development, introduction and contribution of innovative new products; and (5) growth through acquisition.

The Company defines “internal growth” as the increase or decrease in net sales from period to period, excluding (1) precious metal content; (2) the impact of changes in currency exchange rates; and (3) net acquisition growth, which is defined as the net sales, for a period of twelve months following the transaction date, of businesses that have been acquired or divested. The Company defines “constant currency growth” as internal growth plus net acquisition growth.

Management believes that an average internal growth rate of 4% to 6% is a long-term sustainable rate for the Company. The internal growth rate may vary outside of this range based on weaker or stronger economic conditions. Management expects the Company to operate below this range in the near future due to the current economic conditions; however, history shows that growth in the dental industry typically performs better than the overall economy. There can be no assurance that the Company’s assumptions concerning the growth rates in its markets or the dental market generally will continue in the future. If such rates are less than expected, the Company’s projected growth rates and results of operations may be adversely affected.

Price changes, other marketing and promotional programs offered to customers from time to time, the management of inventory levels by distributors and the implementation of strategic initiatives may impact sales and inventory levels in a given period.

The Company has always maintained its focus on minimizing costs and achieving operational efficiencies. Management continues to evaluate the consolidation of operations or functions to reduce the cost of those operations and functions. In addition, the Company remains focused on enhancing efficiency through expanded use of technology and process improvement initiatives. The Company believes that the benefits from these initiatives will improve the cost structure and help offset areas of rising costs such as energy, employee benefits and regulatory oversight and compliance.

Product innovation is a key component of the Company's overall growth strategy. New advances in technology are anticipated to have a significant influence on future products in dentistry. As a result, the Company continues to pursue research and development initiatives to support this technological development, including collaborations with various research institutions and dental schools. In addition, the Company licenses and purchases technologies developed by third parties. Although the Company believes these activities will lead to new innovative dental products, they involve new technologies and there can be no assurance that commercialized products will be developed.

Although the professional dental market in which the Company operates has experienced consolidation, it is still a fragmented industry. The Company continues to focus on opportunities to expand the Company’s product offerings through acquisitions. Management believes that there will continue to be adequate opportunities to participate as a consolidator in the industry for the foreseeable future.

Impact of Foreign Currencies

Due to the international nature of DENTSPLY’s business, movements in foreign exchange rates may impact the consolidated statements of operations. With over 60% of the Company’s sales located in regions outside the U.S., the

Company's sales are impacted negatively by the strengthening or positively by the weakening of the U.S. dollar. Additionally, movements in certain foreign exchange rates may unfavorably or favorably impact the Company's gross profit, certain operating expenses, interest expense, interest income, other expense and other income.

- 29 -

RESULTS OF OPERATIONS, QUARTER ENDED JUNE 30, 2010 COMPARED TO QUARTER ENDED JUNE 30, 2009

Net Sales

Management believes that the presentation of net sales, excluding precious metal content, provides useful information to investors because a significant portion of DENTSPLY's net sales is comprised of sales of precious metals generated through sales of the Company's precious metal dental alloy products, which are used by third parties to construct crown and bridge materials. Due to the fluctuations of precious metal prices and because the precious metal content of the Company's sales is largely a pass-through to customers and has minimal effect on earnings, DENTSPLY reports net sales both with and without precious metal content to show the Company's performance independent of precious metal price volatility and to enhance comparability of performance between periods. The Company uses its cost of precious metal purchased as a proxy for the precious metal content of sales, as the precious metal content of sales is not separately tracked and invoiced to customers. The Company believes that it is reasonable to use the cost of precious metal content purchased in this manner since precious metal dental alloy sale prices are typically adjusted when the prices of underlying precious metals change.

The presentation of net sales, excluding precious metal content, is considered a measure not calculated in accordance with the generally accepted accounting principles in the U.S. ("US GAAP"), and is therefore considered a non-US GAAP measure. The Company provides the following reconciliation of net sales to net sales, excluding precious metal content. The Company's definitions and calculations of net sales, excluding precious metal content, and other operating measures derived using net sales, excluding precious metal content, may not necessarily be the same as those used by other companies.

Net sales, excluding precious metal content, for the three months ended June 30, 2010 was \$519.3 million, an increase of 1.5% over the second quarter of 2009. The change in net sales, excluding precious metal content, was driven by constant currency growth of 2.8%, partially offset by currency translation of 1.3%. The constant currency sales growth included internal growth of 2.5%.

Constant Currency and Internal Sales Growth

United States

Net sales, excluding precious metal content, were flat for the second quarter of 2010 compared to the second quarter of 2009. Flat internal growth was the result of positive growth in dental specialty products, driven primarily by dental implants, and positive growth in the non-dental products, offset by modestly lower sales from the other product categories in this region.

Europe

Net sales, excluding precious metal content, in Europe increased 5.2% in the second quarter of 2010 on a constant currency basis, including 4.4% of internal growth. Internal growth was primarily driven by growth in the dental consumables, dental specialty and non-dental products and a business recovery in the CIS markets, which experienced customer liquidity constraints during 2009.

All Other Regions

Net sales, excluding precious metal content, in the other regions of the world increased by 3.7% on both a constant currency basis and an internal growth basis. Internal growth was driven by growth across all product categories. These geographic regions were also impacted by lower dealer inventory levels in 2010 compared to the 2009.

Gross profit as a percentage of net sales, excluding precious metal content, decreased 0.4 percentage points for the three months ended June 30, 2010 compared to 2009. The decrease was the result of unfavorable product mix partially offset by product pricing. Additionally, the 2009 results included the roll-off of inventory step-up from acquisition-related activities, which negatively impacted the 2009 gross profit as a percentage of net sales, excluding precious metal content.

SG&A Expenses

SG&A expenses as a percentage of net sales, excluding precious metal content, decreased to 35.1% in the second quarter of 2010 from 35.9% in the second quarter of 2009. Expenses continue to be tightly controlled, and the Company benefited from prior year expense reductions on certain discretionary costs and various fixed costs.

Restructuring and Other Costs

During the three months ended June 30, 2010, the Company recorded restructuring and other costs of \$0.2 million. These costs are related to new and ongoing restructuring plans to reduce operational costs through consolidation of facilities and business re-organizations. In 2009, the Company incurred costs of \$3.1 million primarily related to new and ongoing restructuring plans. (See also Note 9, Restructuring and Other Costs, of the Notes to Unaudited Interim Consolidated Financial Statements).

Net Interest Expense

Net interest expense for the three months ended June 30, 2010 increased by \$2.1 million from the three months ended June 30, 2009 as the Company recorded a credit risk adjustment to outstanding derivatives and experienced higher average interest rates and average debt balances as well as significantly lower interest rates earned on investments. Interest expense increased by \$1.4 million due to a credit risk adjustment to outstanding derivatives, higher average interest rates on higher average debt balances and slightly worse negative interest differential on the Company's cross currency swaps. Interest income decreased \$0.7 million as the interest rates on euro investment balances decreased while the average euro investment balance was higher in the current year than the prior year.

Other Expense, Net

Other expense in the 2010 period included approximately \$1.4 million of currency transaction losses and \$0.7 million of other non-operating income. The 2009 period included \$0.2 million of currency transaction gains and \$0.1 million of other non-operating costs.

Income Taxes

The Company's effective income tax rates for the second quarter 2010 and 2009 were 25.5% and 25.7%, respectively. In 2010, the Company's effective income tax rate included the impact of restructuring and other costs, provisions for a credit risk adjustment to outstanding derivatives and various income tax adjustments, which impacted income before income taxes and the provision for income taxes by \$1.4 million and \$0.1 million, respectively. In 2009, the Company's effective income tax rate included the impact of restructuring and other costs, acquisition related activity and various income tax adjustments, which impacted income before income taxes and the provision for income taxes by \$4.3 million and \$1.0 million, respectively.

Net Income attributable to DENTSPLY International

In addition to the results reported in accordance with US GAAP, the Company provided adjusted net income attributable to DENTSPLY International and adjusted earnings per diluted common share. These adjusted amounts consist of US GAAP amounts excluding (1) restructuring and other costs, (2) acquisition related charges, (3) a credit risk adjustment to outstanding derivatives, and (4) income tax related adjustments. Adjusted earnings per diluted common share are calculated by dividing adjusted net income attributable to DENTSPLY International by diluted weighted-average common shares outstanding. Adjusted net income attributable to DENTSPLY International and adjusted earnings per diluted common share are considered measures not calculated in accordance with US GAAP, and therefore are non-US GAAP measures. These non-US GAAP measures may differ from other companies.

The Company believes that the presentation of adjusted net income attributable to DENTSPLY International and adjusted earnings per diluted common share provides important supplemental information to management and investors seeking to understand the Company's financial condition and results of operations. The non-US GAAP financial information should not be considered in isolation from, or as a substitute for, measures of financial performance prepared in accordance with US GAAP.

Net sales, excluding precious metal content, decreased \$2.4 million, or negative 1.7%, during the three months ended June 30, 2010 compared to 2009. On a constant currency basis, net sales, excluding precious metal content, were flat. The decrease was attributable to the negative currency impact from the weakening of the euro.

Operating income increased \$6.9 million during the three months ended June 30, 2010 compared to 2009. The increase was primarily attributable to the improvements in gross profit, which were the result of improved manufacturing performance and an increase in sales price. Additionally, gross profit was also favorably impacted in 2010 as the 2009 results included \$1 million for the roll-off of inventory step-up from acquisition-related activities. A reduction in selling, general administrative expenses also benefited the segment by \$1 million.

France, United Kingdom, Italy and Certain Other European Countries, CIS, Middle East, Africa, Pacific Rim Businesses

Net sales, excluding precious metal content, increased \$2.8 million, or 2.6%, during the three months ended June 30, 2010 compared to 2009. On a constant currency basis, net sales, excluding precious metal content, increased 3.6% when compared to the same period in 2009. Net sales, excluding precious metal content, were favorably impacted by \$5 million due to the business recovery in the CIS markets and growth in Europe, the Middle East and Africa businesses partially offset by lower sales of \$1 million in the Pacific Rim businesses and the negative impact of translation of \$1 million.

Operating income increased \$0.9 million during the three months ended June 30, 2010 compared to 2009, primarily related to the increase in sales volume.

Canada/Latin America/Endodontics/Orthodontics

Net sales, excluding precious metal content, increased \$13.4 million, or 8.6%, during the three months ended June 30, 2010 compared to 2009. On a constant currency basis, net sales, excluding precious metal content, increased by \$11 million, when compared to the same period in 2009. Of the \$11 million, \$9 million was attributable to increase sales

related to dental specialty products and Latin America and acquisition-related activities contributed \$2 million.

Operating income increased \$3.6 million during the three months ended June 30, 2010 compared to 2009. The increase was attributable to higher sales and improved manufacturing performance for dental specialty products, partially offset by incremental investments to promote dental specialty products.

Dental Laboratory Business/Implants/Non-Dental

Net sales, excluding precious metal content, decreased \$6.1 million, or negative 5.7%, during the three months ended June 30, 2010 compared to 2009. On a constant currency basis, net sales, excluding precious metal content, decreased \$1 million when compared to the same period in 2009 due to lower sales in the dental laboratory business.

Operating income for the three months ended June 30, 2010 decreased \$1.4 million due to lower sales in the dental laboratory business offset by continued growth in dental implant products.

Net sales, excluding precious metal content, increased \$7.7 million, or 2.9% during the six months ended June 30, 2010 compared to 2009. On a constant currency basis, net sales, excluding precious metal content, increased 3.1%. The increase was primarily due to strong sales growth in the European consumable markets.

Operating income increased \$17.8 million during the six months ended June 30, 2010 compared to 2009. The increase was primarily attributable to higher sales volume in the European consumable markets and improved manufacturing performance. Additionally, the 2009 results included \$4 million from the roll-off of inventory step-up from acquisition-related activities. A reduction in selling, general administrative expenses also benefited the segment by \$3 million.

France, United Kingdom, Italy and Certain Other European Countries, CIS, Middle East, Africa, Pacific Rim Businesses

Net sales, excluding precious metal content, increased \$7.6 million, or 3.7%, during the six months ended June 30, 2010 compared to 2009. On a constant currency basis, net sales, excluding precious metal content, increased 1.1% when compared to the same period in 2009. Net sales, excluding precious metal content, were favorably impacted by the positive impact from translation of \$5 million from the strengthening of the Australian dollar, the Japanese Yen and other currencies in the Pacific Rim. Additionally, net sales, excluding precious metal content, increased by \$2 million due to the recovery in the CIS markets and increased sales in Middle East and Africa businesses, partially offset by lower sales in the Pacific Rim businesses.

Operating income decreased \$2.1 million during the six months ended June 30, 2010 compared to 2009 due to higher expenses in the Pacific Rim businesses partially offset by the recovery of the CIS markets.

Canada/Latin America/Endodontics/Orthodontics

Net sales, excluding precious metal content, increased \$25.4 million or 8.5% during the six months ended June 30, 2010 compared to 2009. On a constant currency basis, net sales, excluding precious metal content, increased by \$17 million when compared to the same period in 2009. Of the \$17 million, \$12 million was attributable to increased sales related to dental specialty products and Canada, and acquisition-related activity contributed \$4 million.

Operating income increased \$1.7 million during the six months ended June 30, 2010 compared to 2009. The increase was attributable to higher sales and improved manufacturing performance for dental specialty products partially offset by incremental investments to promote dental specialty products and lower gross profit margins in Latin America.

Dental Laboratory Business/Implants/Non-Dental

Net sales, excluding precious metal content, decreased \$1.0 million, or negative 0.5%, during the six months ended June 30, 2010 compared to 2009. On a constant currency basis, net sales, excluding precious metal content, were flat. Low single digit growth in the dental implants business was offset by lower sales in the dental laboratory business.

Operating income for the six months ended June 30, 2010 decreased \$1.2 million due to lower sales in the dental laboratory business partially mitigated by expense reductions throughout the segment.

CRITICAL ACCOUNTING POLICIES

There have been no other material changes to the Company's disclosure in its Form 10-K for the year ended December 31, 2009.

LIQUIDITY AND CAPITAL RESOURCES

Six months ended June 30, 2010

Cash flow from operating activities during the six months ended June 30, 2010 was \$150.5 million compared to \$115.4 million during the six months ended June 30, 2009. Net income increased by \$5.0 million to \$135.5 million. Improvements in working capital of \$28.8 million during 2010 were the primary reason for the increase in cash from operations. Accounts payable, accruals and accounts receivable balances on a constant currency basis were positive contributors to the change in cash flow. Increases in inventory and prepaid expenses partly offset the benefits from accounts payable, accruals and accounts receivable. On a constant currency basis, as of June 30, 2010, reported days for inventory and accounts receivable increased by one day each to 100 days and 57 days, respectively, as compared to December 31, 2010.

Investing activities during the first six months of 2010 include capital expenditures of \$18.9 million. The Company expects that capital expenditures will be between \$50.0 million and \$60.0 million for the full year of 2010. The acquisition related activity for the six months ended June 30, 2010 of \$8.3 million was related to two acquisitions and two earn-out payments on a prior year acquisition.

At June 30, 2010, the Company had authorization to maintain up to 22.0 million shares of treasury stock under the stock repurchase program as approved by the Board of Directors. Under this program, the Company purchased 5.1 million shares for \$176.6 million during the first six months of 2010 at an average price of \$34.44. As of June 30, 2010, the Company held 19.6 million shares of treasury stock. The Company also received proceeds of \$25.8 million as a result of the exercise of 1.1 million of stock options during the six months ended June 30, 2010.

The Company's long-term borrowings increased by a net of \$12.1 million during the six months ended June 30, 2010. This change included net borrowings of \$9.9 million during the first six months and an increase of \$2.2 million due to exchange rate fluctuations on debt denominated in foreign currencies. At June 30, 2010, the Company's ratio of long-term debt to total capitalization increased to 21.1% compared to 19.2% at December 31, 2009. Also in that same period, the Company's cash and cash equivalents and short-term investments have decreased from \$450.3 million to \$340.4 million.

Under its multi-currency revolving credit agreement, the Company is able to borrow up to \$200.0 million through May 7, 2013. This facility is unsecured and contains certain affirmative and negative covenants relating to its operations and financial condition. The most restrictive of these covenants pertain to asset dispositions and prescribed

ratios of indebtedness to total capital and operating income plus depreciation and amortization to interest expense. At June 30, 2010, the Company was in compliance with these covenants. The Company also has available an aggregate \$200.0 million under a U.S. dollar commercial paper facility. The multi-currency revolving credit facility serves as a back-up to the commercial paper facility. The total available credit under the commercial paper facility and the multi-currency revolving credit facility in the aggregate is \$200.0 million with \$1.7 million outstanding under the multi-currency revolving facility.

On February 19, 2010, the Company entered into a Note Purchase Agreement ("Note") with a group of initial purchasers through a private placement for \$250.0 million aggregate principal amount of fixed rate 4.11% Senior Notes with an average maturity of five years and a final maturity in six years. This Note is unsecured and contains certain affirmative and negative covenants relating to its operations and financial condition of the Company similar in substance to the existing \$150.0 million U.S. Private Placement Note ("U.S. Note") maturing March 15, 2010. The new Note was used to refinance the existing U.S. Note at maturity as well as for general corporate purposes.

On March 1, 2010, the Company entered into a Term Loan Agreement (“Term Loan”) with PNC Bank providing for the issuance by the Company of Swiss francs 65.0 million aggregate principal amount of floating rate Senior Term Loan with a final maturity in March 2012. This Term Loan is unsecured and contains certain affirmative and negative covenants relating to its operations and financial condition of the Company similar in substance to the existing multi-currency revolving credit agreement maturing May 9, 2010. The new Term Loan was used to refinance a loan under the existing multi-currency revolving credit agreement.

On May 7, 2010, the Company entered into a multi-currency revolving credit agreement (“Revolver”) with a syndicate of eight lenders with a final maturity in May 2013. This Revolver is unsecured and contains certain affirmative and negative covenants relating to its operations and financial condition of the Company similar in substance to the previous multi-currency revolving credit agreement which matured May 9, 2010.

The Company also has access to \$66.7 million in uncommitted short-term financing under lines of credit from various financial institutions. The lines of credit have no major restrictions and are provided under demand notes between the Company and the lending institutions. At June 30, 2010, the Company had \$9.1 million outstanding under these short-term lines of credit. At June 30, 2010, the Company had total unused lines of credit related to the revolving credit agreement and the uncommitted short-term lines of credit of \$255.9 million.

The Company entered into new cross currency swaps of Swiss francs 100.0 million and Swiss francs 55.5 million on February 18, 2011 and March 1, 2010 respectively to replace maturing trades. The contracts are designated as net investment hedges.

At June 30, 2010, the Company held \$112.8 million of precious metals on consignment from several financial institutions. These consignment agreements allow the Company to acquire the precious metal at market rates at a point in time, which is approximately the same time and for the same price as alloys are sold to the Company’s customers. In the event that the financial institutions would discontinue offering these consignment arrangements, and if the Company could not obtain other comparable arrangements, the Company may be required to obtain third party financing to fund an ownership position in the required precious metal inventory levels.

Except for the new term loan facility with PNC Bank for Swiss francs 65.0 million and the new multicurrency revolving credit facility discussed in Note 13, Financial Instruments and Derivatives, of the Notes to Unaudited Interim Consolidated Financial Statements, there have been no other material changes to the Company’s scheduled contractual cash obligations disclosed in its Form 10-K for the year ended December 31, 2009. The Company expects on an ongoing basis, to be able to finance cash requirements, including capital expenditures, stock repurchases, debt service, operating leases and potential future acquisitions, from the funds generated from operations and amounts available under its existing credit facilities.
